Ms. Beth Salak  
Director, Division Competitive Markets & Enforcement  
Florida Public Service Commission  
2540 Shumard Oak Boulevard  
Tallahassee, Florida 32399-0850

Dear Ms. Salak:

Pursuant to Florida Statute 364.051, we are filing herewith revisions to our Access Services Tariff. Following are the affected pages:

Access Services Tariff

E6 - 7th Revised Page 24  
E7 - 3rd Revised Page 44  
2nd Revised Page 46  
4th Revised Page 72

The purpose of this filing is to introduce new optional features for FlexServ<sup>®</sup> Service (a.k.a. BellSouth SPA Customer Reconfiguration).

Acknowledgement, date of receipt, and authority number of this filing are requested.

Your consideration and approval will be appreciated.

Yours very truly,

Marshall M. Marshall M. Criser III (slg)

Regulatory Vice President

## **EXECUTIVE SUMMARY**

### **Introduction**

The purpose of this filing is to introduce new optional features for FlexServ® Service (a.k.a. BellSouth SPA Customer Reconfiguration) in Section E7 of the Access Services Tariff. Regulations are also being added to Section E6 to support the new optional features.

### **Existing Tariff**

The existing tariff provides FlexServ® DS0 and DS1 Channel Connections, and these options provide reconfiguration and monitoring of special access circuits only.

### **Proposed Tariff**

This filing expands the FlexServ® Channel Connection options to include DS3 Channel Connections for monitoring (i.e., surveillance) of switched and special access circuits at DS1 level and DS3 level. In addition, this filing adds new options for DS1 Channel Connections to allow monitoring of switched and special access circuits at DS1 level. These new Channel Connections are not available for reconfiguration of circuits.

The addition of the FlexServ® optional features in this filing will not impact existing customers.

### **Revenue Impact**

The revenue for the new features will cover the costs to provide the features.

## 6. BELLSOUTH SWA SERVICE

### E6.1 General (Cont'd)

#### E6.1.3 Rate Categories (Cont'd)

A. BellSouth SWA Transport (Cont'd)

9. Optional Features (Cont'd)

i. BellSouth SPA High Capacity and BellSouth SWA DS0 Transport Services (Cont'd)

(4) Channelization Equipment (Cont'd)

DS3 to DS1 - An arrangement that channelizes 44.736 Mbps channel to 28 DS1 channels.

DS1 Basic Channelization System - An arrangement that channelizes a 1.544 Mbps channel to a maximum of twenty-four (24) 64 Kbps channels. A DS1 Basic Channelization System requires a Central Office Channel Interface for each channel of lesser capacity.

A DS1 that is directly terminated into a digital switch is restricted to trunk side switched traffic and cannot be used for line side connections or BellSouth SPA Circuits.

A DS1 that is directly terminated into an analog switch is restricted to trunk side switched traffic and cannot be used for line side connections or Special Access Circuits.

The Central Office Channel Interface (COCI) rate element is necessary to activate the Sub DS1 Service capable of carrying Switched Access traffic. The COCI is required in addition to the Basic Channelization System.

Rates applicable to the Channelization Systems and the applicable Central Office Channel Interfaces are provided in E6.8.1 following.

j. Channelization for Common Transport Interoffice Channels

(1) DS3 to DS1 Multiplexer

This rate element is for use of DS3 to DS1 multiplexer equipment within the Company common transport network and is required for ICs utilizing BellSouth SWA Common Transport. The rate element applies for each BellSouth SWA Common Transport minute of use between the access tandem and the end office, as well as for each minute of use between a host and remote end office, and each terminating minute of use between a host and remote end office, and each terminating minute of use between a BellSouth SWA FGA or BellSouth SWA LSBSA dial tone office and the end office. The rate for this element is found in E6.8.1 following.

(2) DS1 to VG Multiplexer

This rate element is for DS1 to VG multiplexer equipment within the Company common transport network on the end office side of analog access tandem switches. This element is required for ICs utilizing BellSouth SWA Common Transport with an analog tandem switch. The rate for this element is found in E6.8.1 following.

k. Tandem Signaling

This option provides for the automatic transmission of signaling indicators, which identify the interexchange carrier and trunk group to which the call is to be directed. This option, available with BellSouth SWA FGD, is provided on originating direct trunk groups.

Direct trunk groups equipped with tandem signaling can be arranged to overflow to other direct trunk groups equipped with tandem signaling. Direct trunk groups equipped with tandem signaling cannot be arranged to overflow to the Company's common trunk groups.

Depending on the signaling facilities available, this option will be provisioned via MF or CCS7 signaling. The CCS7 alternative requires the establishment of; 1) BellSouth SWA CCSAC as described in e. preceding and 2) CCS7 Signaling Connections and CCS7 Signaling Terminations, as further described in E. following.

l. Surveillance Optional Feature

BellSouth SWA DS1 and DS3 Transport services may terminate into FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) as set forth in E7 of this Tariff for surveillance only. These SWA channel terminations are not available for reconfiguration. Rates and charges for the surveillance options are provided in E7.4.12 of this Tariff.

## E7. DEDICATED ACCESS SERVICES

### E7.4 Rate Regulations (Cont'd)

#### E7.4.12 FlexServ<sup>®</sup> Service (a.k.a. BellSouth SPA Customer Reconfiguration) (Cont'd)

##### A. General (Cont'd)

##### 1. Basic FlexServ<sup>®</sup> Service (a.k.a. BellSouth SPA Customer Reconfiguration) (Cont'd)

With the customer's initial order, the Company provides one customer training class for up to five (5) persons. The class length of this initial training is two consecutive eight hour days. These training classes are conducted at a designated Company location. Transportation, lodging and food for the attendees will be the responsibility of the customer. If the customer desires for the initial training to be conducted on his premises, then the customer is responsible for the transportation, lodging and food for the trainer. In addition, the customer is responsible for having the appropriate equipment on his premises.

Reconfiguration and monitoring are not available during the performance of routine maintenance of the Company's facilities and equipment used to provide FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration).

The Local and Interoffice Channels which are terminated into FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration) are subject to all regulations and charges contained in their respective sections of this Tariff in addition to those contained herein.

Different switching options may be available in the same central office. If customers desire more than one switching option in the same central office and facilities are available, a channel connection is required for each FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration) switching option connected.

FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration) is furnished only in serving wire centers where facilities are available.

##### 2. Customer Circuits

There are ~~two~~ three types of channel connections which can be connected to FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration) - DS0 (Single channel), ~~and~~ DS1 (1.544 Mbps) digital circuits and DS3 (44.736 Mbp) digital circuits.

DS0 Channel Connections - There are two types of DS0 channel connections - Voice Grade (a.k.a. BellSouth SPA DS0 VG) and Digital (a.k.a. BellSouth SPA DS0 Digital Data). Both types of DS0 connections will be switched at a DS0 level.

DS1 Channel Connections - There are two types of connections available for a customer desiring to terminate a DS1 circuit - DS0 switching and DS1 switching. For example, if a customer needs to be able to monitor or reconfigure the 24 DS0 circuits riding on the DS1 channel, then the customer would purchase a DS1 channel connection with DS0 switching. If the customer does not need access to the individual DS0 circuits, then the customer would purchase a DS1 channel connection with DS1 switching. A monitoring only option (i.e., surveillance) is also provided for DS1 channel connections. This option may also be used for terminating SWA DS1 channels.

DS3 Channel Connections (Monitoring Only) - There are two types of connections available for terminating a DS3 circuit - DS1 and DS3. This option provides for termination of SWA and SPA DS3 channels for monitoring purposes only (i.e., surveillance). If the customer needs monitoring for 28 DS1 circuits, then the customer would purchase a DS3 channel connection at DS1 level. The customer would purchase a DS3 channel connection at DS3 level if the customer wants to monitor the entire DS3 circuit.

##### 3. FlexServ<sup>®</sup> Service (a.k.a. BellSouth SPA Customer Reconfiguration) Options

a. Additional Concurrent User Access: This option provides the customer the ability to establish additional concurrent connections to the Company for the communication of monitoring and reconfiguration signals. One additional customer identification code is provided with each additional User Access. For each Additional Concurrent User Access ordered, the customer must also order an additional Management Terminal Interface from the General Subscriber Service Tariff.

b. Additional User Identification Codes: This option provides customer identification codes in addition to that provided with each User Access. If the customer has a Dial Access to FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration), then the customer must also order an additional Security Card from the General Subscriber Service Tariff.

Miami, Florida

## E7. DEDICATED ACCESS SERVICES

(P)(T)

### E7.4 Rate Regulations (Cont'd)

#### E7.4.12 FlexServ<sup>®</sup> Service (a.k.a. BellSouth SPA Customer Reconfiguration) (Cont'd)

(P)(T)

##### A. General (Cont'd)

##### 4. Shared FlexServ<sup>®</sup> Service (a.k.a. BellSouth SPA Customer Reconfiguration) Arrangement (Cont'd)

(P)(T)

The Company will not be liable for any loss to any of the customers in a shared FlexServ<sup>®</sup>-service (a.k.a. BellSouth SPA Customer Reconfiguration) arrangement caused directly or indirectly by actions of the agent or another customer in the shared arrangement. Each customer in the shared arrangement and the agent indemnify the Company for the costs of any and all claims arising directly or indirectly out of the actions of the agent or another customer in the shared arrangement, including, but not limited to, the cost of defending against such claims.

(P)(T)

Any customer in a shared FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration) arrangement must give the Company 30 days prior written notice of his intent to revoke an agent's authority or to remove his dedicated access services from a shared arrangement. Such notice shall not be effective unless it provides the Company with specific and sufficient directions regarding treatment of the customer's dedicated access services upon revocation of the agent's authority or removal from the shared arrangement.

(P)(T)

##### B. Application of Rates

##### 1. Basic FlexServ<sup>®</sup> Service (a.k.a. BellSouth SPA Customer Reconfiguration)

(P)(T)

##### a. Connection of Dedicated Access Services to Reconfiguration and Alarm Monitoring Capability.

A DS0/DS1/~~DS3~~ nonrecurring Connection Charge and a recurring monthly rate is required for each entrance and exit of a dedicated access channel to reconfiguration and monitoring capability.

(C)

Charges for Access to FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration) are contained in E7.5.16.

(P)(T)

##### 2. FlexServ<sup>®</sup> Service (a.k.a. BellSouth SPA Customer Reconfiguration) Options

(P)(T)

##### a. Additional Concurrent User Access

For each Additional Concurrent User Access a nonrecurring charge and a recurring monthly rate applies.

##### b. Additional User Identification Codes

A nonrecurring charge applies for each additional ID requested.

##### c. Additional Customer Training

Any additional training will incur a nonrecurring charge for each eight (8) hour day of training.

##### d. Multipoint Bridging

##### Multipoint Bridging (DMB)

There will be a nonrecurring charge and a monthly rate for each DS0 or equivalent that is equipped with this capability.

##### Multipoint Junction Unit

A nonrecurring charge and a monthly rate applies for each DS0 or equivalent that is equipped with this capability.

This option must be purchased in groups of 5 because a unit has the capacity of 5 DS0 or equivalent channel connections.

(a) Surveillance - DS1 Level, per DS3 channel	125.00	375.00	345.00	320.00	300.00	DSL3S (N)
(b) Surveillance - DS3 Level, per DS3 channel	125.00	150.00	138.00	128.00	120.00	DSL3T (N)

##### B. FlexServ<sup>®</sup> service (a.k.a. BellSouth SPA Customer Reconfiguration) Options (T)

###### 1. Multipoint Bridging

	Nonrecurring Charge	Month To Month	24 to 48 Months	49 to 72 Months	73 to 96 Months	USOC
(a) Voice Grade Connections, per bridging leg	20.00	5.00	4.50	4.40	4.30	FSSFEM
(b) Multipoint Junction Unit, per 2.4, 4.8, 9.6 or 56 Kbps channel <sup>1</sup>	15.00	6.00	5.25	5.00	4.75	FSSFJ (P)
(c) Multipoint Junction Unit, per 19.2 Kbps channel <sup>1</sup>	15.00	9.45	8.90	8.40	7.90	FSSF9

###### 2. Subrate Reconfiguration Capability

	Nonrecurring Charge	Month To Month	24 to 48 Months	49 to 72 Months	73 to 96 Months	USOC
(a) Per DS0 equipped (DS0B)					Nonrecurring Charge \$45.00	USOC DSLSB
(b) 9.6 Kbps, per DS0A requires 5	\$5.00	\$8.75	\$8.15	\$7.60	\$7.20	USOC DSLS9
(c) 4.8 Kbps, per DS0A requires 10	5.00	7.40	6.80	6.30	5.95	USOC DSLS4

**Note 1:** Must purchase in units of five.

## E6. BELLSOUTH SWA SERVICE

### E6.1 General (Cont'd)

#### E6.1.3 Rate Categories (Cont'd)

A. BellSouth SWA Transport (Cont'd)

9. Optional Features (Cont'd)

i. BellSouth SPA High Capacity and BellSouth SWA DS0 Transport Services (Cont'd)

(4) Channelization Equipment (Cont'd)

DS3 to DS1 - An arrangement that channelizes 44.736 Mbps channel to 28 DS1 channels.

DS1 Basic Channelization System - An arrangement that channelizes a 1.544 Mbps channel to a maximum of twenty-four (24) 64 Kbps channels. A DS1 Basic Channelization System requires a Central Office Channel Interface for each channel of lesser capacity.

A DS1 that is directly terminated into a digital switch is restricted to trunk side switched traffic and cannot be used for line side connections or BellSouth SPA Circuits.

A DS1 that is directly terminated into an analog switch is restricted to trunk side switched traffic and cannot be used for line side connections or Special Access Circuits.

The Central Office Channel Interface (COCI) rate element is necessary to activate the Sub DS1 Service capable of carrying Switched Access traffic. The COCI is required in addition to the Basic Channelization System.

Rates applicable to the Channelization Systems and the applicable Central Office Channel Interfaces are provided in E6.8.1 following.

j. Channelization for Common Transport Interoffice Channels

(1) DS3 to DS1 Multiplexer

This rate element is for use of DS3 to DS1 multiplexer equipment within the Company common transport network and is required for ICs utilizing BellSouth SWA Common Transport. The rate element applies for each BellSouth SWA Common Transport minute of use between the access tandem and the end office, as well as for each minute of use between a host and remote end office, and each terminating minute of use between a host and remote end office, and each terminating minute of use between a BellSouth SWA FGA or BellSouth SWA LSBSA dial tone office and the end office. The rate for this element is found in E6.8.1 following.

(2) DS1 to VG Multiplexer

This rate element is for DS1 to VG multiplexer equipment within the Company common transport network on the end office side of analog access tandem switches. This element is required for ICs utilizing BellSouth SWA Common Transport with an analog tandem switch. The rate for this element is found in E6.8.1 following.

k. Tandem Signaling

This option provides for the automatic transmission of signaling indicators, which identify the interexchange carrier and trunk group to which the call is to be directed. This option, available with BellSouth SWA FGD, is provided on originating direct trunk groups.

Direct trunk groups equipped with tandem signaling can be arranged to overflow to other direct trunk groups equipped with tandem signaling. Direct trunk groups equipped with tandem signaling cannot be arranged to overflow to the Company's common trunk groups.

Depending on the signaling facilities available, this option will be provisioned via MF or CCS7 signaling. The CCS7 alternative requires the establishment of; 1) BellSouth SWA CCSAC as described in e. preceding and 2) CCS7 Signaling Connections and CCS7 Signaling Terminations, as further described in E. following.

l. Surveillance Optional Feature

BellSouth SWA DS1 and DS3 Transport services may terminate into FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) as set forth in E7 of this Tariff for surveillance only. These SWA channel terminations are not available for reconfiguration. Rates and charges for the surveillance options are provided in E7.4.12 of this Tariff.

(N)

(N)

## E7. DEDICATED ACCESS SERVICES

### E7.4 Rate Regulations (Cont'd)

#### E7.4.12 FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) (Cont'd)

##### A. General (Cont'd)

##### 1. Basic FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) (Cont'd)

With the customer's initial order, the Company provides one customer training class for up to five (5) persons. The class length of this initial training is two consecutive eight hour days. These training classes are conducted at a designated Company location. Transportation, lodging and food for the attendees will be the responsibility of the customer. If the customer desires for the initial training to be conducted on his premises, then the customer is responsible for the transportation, lodging and food for the trainer. In addition, the customer is responsible for having the appropriate equipment on his premises.

Reconfiguration and monitoring are not available during the performance of routine maintenance of the Company's facilities and equipment used to provide FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration).

The Local and Interoffice Channels, which are terminated into FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration) are subject to all regulations and charges contained in their respective sections of this Tariff in addition to those contained herein.

Different switching options may be available in the same central office. If customers desire more than one switching option in the same central office and facilities are available, a channel connection is required for each FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration) switching option connected.

FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration) is furnished only in serving wire centers where facilities are available.

##### 2. Customer Circuits

There are **three** types of channel connections, which can be connected to FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration) - DS0 (Single channel), DS1 (1.544 Mbps) **and DS3 (44.736 Mbps) digital circuits.**

DS0 Channel Connections - There are two types of DS0 channel connections - Voice Grade (a.k.a. BellSouth SPA DS0 VG) and Digital (a.k.a. BellSouth SPA DS0 Digital Data). Both types of DS0 connections will be switched at a DS0 level.

DS1 Channel Connections - There are two types of connections available for a customer desiring to terminate a DS1 circuit - DS0 switching and DS1 switching. For example, if a customer needs to be able to monitor or reconfigure the 24 DS0 circuits riding on the DS1 channel, then the customer would purchase a DS1 channel connection with DS0 switching. If the customer does not need access to the individual DS0 circuits, then the customer would purchase a DS1 channel connection with DS1 switching. **A monitoring only option (i.e., surveillance) is also provided for DS1 channel connections. This option may also be used for terminating SWA DS1 channels.**

DS3 Channel Connections (Monitoring Only) - There are two types of connections available for terminating a DS3 circuit - DS1 and DS3. This option provides for termination of SWA and SPA DS3 channels for monitoring purposes only (i.e., surveillance). If the customer needs monitoring for 28 DS1 circuits, then the customer would purchase a DS3 channel connection at DS1 level. The customer would purchase a DS3 channel connection at DS3 level if the customer wants to monitor the entire DS3 circuit.

##### 3. FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) Options

a. Additional Concurrent User Access: This option provides the customer the ability to establish additional concurrent connections to the Company for the communication of monitoring and reconfiguration signals. One additional customer identification code is provided with each additional User Access. For each Additional Concurrent User Access ordered, the customer must also order an additional Management Terminal Interface from the General Subscriber Service Tariff.

b. Additional User Identification Codes: This option provides customer identification codes in addition to that provided with each User Access. If the customer has a Dial Access to FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration), then the customer must also order an additional Security Card from the General Subscriber Service Tariff.

## E7. DEDICATED ACCESS SERVICES

### E7.4 Rate Regulations (Cont'd)

#### E7.4.12 FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) (Cont'd)

**A.** General (Cont'd)

4. Shared FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) Arrangement (Cont'd)

The Company will not be liable for any loss to any of the customers in a shared FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration) arrangement caused directly or indirectly by actions of the agent or another customer in the shared arrangement. Each customer in the shared arrangement and the agent indemnify the Company for the costs of any and all claims arising directly or indirectly out of the actions of the agent or another customer in the shared arrangement, including, but not limited to, the cost of defending against such claims.

Any customer in a shared FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration) arrangement must give the Company 30 days prior written notice of his intent to revoke an agent's authority or to remove his dedicated access services from a shared arrangement. Such notice shall not be effective unless it provides the Company with specific and sufficient directions regarding treatment of the customer's dedicated access services upon revocation of the agent's authority or removal from the shared arrangement.

**B.** Application of Rates

1. Basic FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration)

a. Connection of Dedicated Access Services to Reconfiguration and Alarm Monitoring Capability.

A DS0/DS1/DS3 nonrecurring Connection Charge and a recurring monthly rate is required for each entrance and exit of a dedicated access channel to reconfiguration and monitoring capability.

Charges for Access to FlexServ service (a.k.a. BellSouth SPA Customer Reconfiguration) are contained in E7.5.16.

2. FlexServ Service (a.k.a. BellSouth SPA Customer Reconfiguration) Options

a. Additional Concurrent User Access

For each Additional Concurrent User Access a nonrecurring charge and a recurring monthly rate applies.

b. Additional User Identification Codes

A nonrecurring charge applies for each additional ID requested.

c. Additional Customer Training

Any additional training will incur a nonrecurring charge for each eight (8) hour day of training.

d. Multipoint Bridging

Multipoint Bridging (DMB)

There will be a nonrecurring charge and a monthly rate for each DS0 or equivalent that is equipped with this capability.

Multipoint Junction Unit

A nonrecurring charge and a monthly rate applies for each DS0 or equivalent that is equipped with this capability.

This option must be purchased in groups of 5 because a unit has the capacity of 5 DS0 or equivalent channel connections.
