EXECUTIVE SUMMARY

Centrex Simultaneous Ring Enhancement

Description

The purpose of this tariff is to introduce enhancements to Simultaneous Ring for Centrex.

Centrex Simultaneous Ring Enhancement is a terminating feature that allows simultaneous notification of an incoming call to a Centrex “pilot” directory number and up to four other “non-pilot” member directory numbers. The calling party is connected to the group directory number answered first. When the calling party is connected, the other group directory numbers stop ringing. Customer provided cellular service, independent of the cellular provider, could be used as non-pilot directory numbers. Once this feature is assigned on a line, Simultaneous Ring may be turned on or off by the user.

Revenue Impact

The revenue will cover the cost of the service.
