SPECIAL REPORT

OCTOBER 2006

Petition to Recover 2005 Tropical System Related Costs and Expenses by BellSouth Telecommunications, Inc.

DOCKET NO. 060598-TP

In September 2006, BellSouth Telecommunications, Inc. (BellSouth or the company) filed a petition with the Florida Public Service Commission (PSC or Commission) for approval to recover 2005 tropical system related costs and expenses incurred. Those costs would be recovered over a twelve month period. BellSouth petitioned the Commission for the establishment of a line item charge on customer bills of \$0.50 per customer line for 12 months, commencing January 1, 2007.

The PSC has scheduled four customer service hearings to receive customer feedback regarding the utility's petition and comments on the utility's recovery efforts for each hurricane event. Customer comments, written and oral, are taken into consideration to assist the Commission in reaching its decision.

BellSouth serves over 5 million access lines in 93 exchanges in Florida. These exchanges serve the major Florida cities of Miami, Fort Lauderdale, West Palm Beach, Jacksonville, Cocoa Beach, Daytona Beach, Gainesville, Orlando, Port St. Lucie, Pensacola, Panama City, and Melbourne. According to BellSouth, after June 1, 2005, six named tropical systems impacted and damaged areas served by the company: Arlene, Cindy, Dennis, Katrina, Rita, and Wilma.

BellSouth asserts the total storm related damages and expenses are approximately \$202.4 million. The total amount BellSouth is seeking to recover is approximately \$34.6 million. The company states it neither has a storm reserve fund nor had any insurance coverage which would have provided reimbursement for any of BellSouth's intrastate costs and expenses incurred in repairing, restoring, or replacing its lines, plants, and facilities damaged by the six named tropical systems.

The technical portion of the administrative hearing is scheduled for December 6, 2006 in Tallahassee. A technical hearing is a legal proceeding, similar to a court proceeding or trial, that is held to gather technical evidence and testimony related to the utility's petition. In making its final determination, the Commission will consider the evidence and testimony presented by both customers and other parties.

PSC staff is scheduled to file a recommendation on this matter with the Commission on December 7, 2006. The Commissioners are expected to vote on this matter at the Agenda Conference on December 19, 2006.
