Ms. Beth W. Salak, Director
Division of Competitive Markets and Enforcement
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Dear Ms. Salak:

Attached are copies of new tariff pages filed as part of our Verizon Florida Inc. General Services Tariff. See Attachment A for a listing of the impacted tariff sheets.

The purpose of this filing is to grandfather or discontinue offering some services to new customers. Services will be continued for existing customers but these customers will not be offered moves, additions or changes to their existing service. Services being grandfathered in this filing include Residential Rotary Line Service, calling plans, Foreign Exchange, and Reserve Telephone Numbers.

If you require additional information, please contact Carlton A. Ball at (813) 483-2529.

Sincerely,
David M. Christian
Assistant Vice President
Regulatory Affairs Florida

Verizon proposes to commence a series of filings beginning with this one to grandfather from our Florida tariffs. This will enable Verizon to focus on a more streamlined product set from both the perspective of delivering excellent customer service and recommending to our customers the most cost effective and technologically advanced products.

With this filing, Verizon is proposing to grandfather in Florida 23 products

(6 Business products that impact access lines and 10 that impact Residence, 2 Business data products, 1 Residence data product, and 4 features) in order to eliminate obsolete services, reduce database, installation and maintenance costs, unclutter the tariffs/product offering by no longer offering products with low demand or products/offers that have been replaced with better solutions.

As customers contact us for any reason or as our sales teams interface with customers, our employees have been trained to mention the grandfathering when the customer gives them permission to review and discuss their records. Since several categories of products are involved with this filing, we primarily want our sales teams and our customers to understand the general concept of grandfathering and to expect that this will be a very proactive method that we will embrace more frequently to more effectively manage our product portfolio and support our customers' needs.

The following is the script that will be used with our customers.

Verizon has been reviewing its products and services to identify those which have been replaced by more effective ones. If Verizon determines that it has developed better telecommunications solutions for new users, it supports the new services and no longer offers the antiquated services. However, Verizon recognizes that certain customers have grown used to their current service, and may prefer not to make a change. To address these customers, Verizon may "grandfather" their service; that is, allow these existing subscribers to continue to subscribe to their old service.

Being "Grandfathered" means that if you already have the product, you may keep it at your current location. But if you have never ordered the product, you cannot add it to your account.

If you remove this service or move your physical address, you will not be able to add this product back to your account. You also cannot transfer this product to someone else.

What you purchased a while back may have suited your needs, application, and budget at that time. Today we think we have better solutions. Let me review your account and make some suggestions on how we can improve your service.

The additional spreadsheets in this document provide a summary of the products impacted, an explanation of what each service is, the exact tariff name, tariff reference, current NRC, current monthly rate, in service units for 12/03 and 7/04 for Business units, Consumer units, and a total, the rationale for the grandfathering, and a representative replacement service for each.

DRAFT EXECUTIVE SUMMARY FORMAT (8/30/04)

Product Name	Explanation of What the Service is	Exact Name per the Tariff	Tariff Reference Section, Page, etc.	Current NRC	Current Monthly Rate	IOSC	Number of Business Units in Service 12/03	Number of Consumer Units in Service 12/03	Total Number of Units in Service 12/03	Number of Business Units in Service 7/04	Number of Consumer Units in Service 7/04	Number of Units in Service 7/04	Rationale for Grandfathering	Alternative or Replacement Service	Description of Replacement Service	Tariff Reference Section, Page, etc.	
1	WATS	WATS provides for directly dialed telephone calling from a WATS termination by way of the WATS access line and the public switched network to other locations in the same subscription area as that in which the access line terminates. A3. BASIC LOCAL EXCHANGE SERVICE

A3.1 General

- .1 This Tariff specifies rate schedules applicable for grades and classes of local exchange service ordered.
- .2 Exchange rate schedules are applied according to the total number of main station lines and PBX trunks in the local service area.
- .3 Exchange Service Areas for each exchange are identified on maps filed in Section A200, Local Exchange Service Area Maps and Descriptions, of this Tariff.
- .4 The rates for service and equipment not specifically shown in this section are presented in other sections of this Tariff. (See Note 3)
- .5 Service charges, as covered in Section A4., are applicable to the provision of basic local exchange service.
- .6 Pursuant to passage of the Telecommunications Access Systems Act of 1991 by the Florida Legislature during the 1991 session, a monthly surcharge shall be imposed on all local exchange telecommunications company customers on an individual access line basis, except that such surcharge shall not be imposed upon more than 25 basic telecommunications access lines per account bill rendered. The Commission shall determine the amount of the surcharge; however, in no case shall the amount exceed 25 cents per line per month. The surcharge shall appear on the initial bill to the customer and itemized at least once annually.

A3.2 Rate Schedules

.1 Flat Rate Schedule

- 3 The following schedule of rates is applicable for main station line service.

Rate Group	Main Station Lines and PBX Trunks	Monthly Rates			Main Stations Arranged with Rotary Service, each		(M)
		One-Party		Business Extended Calling Service (43700)	Business		
		Business	Residence			Business	Service (43701)
1	0- 50,000	\$ 25.00 (I)	\$ 10.70 (I)	\$ 35.70	\$39.25	\$ 47.00 (I)	(M)
2	50,001- 90,000	29.25 (I)	11.85 (I)	35.70	39.25	47.00 (I)

.3 Regrouping Procedures

a. Whenever the number of access lines in the local calling area of an exchange increases or decreases to the extent that such exchange would fall into a different rate group, a revised Tariff shall be filed for authority to reclassify the exchange to its appropriate group. The effective date of the proposed rate change shall be the effective date of the next directory for the affected exchange or 60 days after the date of filing the tariff whichever is later.

(1) The rate group in which an exchange falls shall be determined by the peak number of access lines in the exchange's local calling area since the effective date of the preceding directory.

(M)
 |
 (M)

A3.3 Monthly Exchange Rates

.1 General

a. Monthly exchange rates shown in A3.2 are applicable, in each exchange, for grades and classes of basic local exchange service offered.

.2 Message Rate Service - Individual Line

a. Subscribers to business or residence message rate service are regularly billed monthly in advance at the rate quoted in this tariff for the class of service furnished. Messages in excess of the monthly allowance are billed monthly in arrears. Local messages not used in one month are not credited to the subscriber's account for any other month service is rendered.

b. Subscribers are entitled to the number of messages specified in A3.2.2 to all central office lines bearing the designations of exchanges listed in A3.5, Local Calling Area, for the respective exchange.

c. (Deleted)

d. Business Message Rate Service and Residence Message Rate Service are available in all exchanges and in all new rate groups. See Section A3.2.2 for specific rates by rate group.

e. Rules and regulations covering the provision of message rate service are as specified in Section A2.3.2.

A3. BASIC LOCAL EXCHANGE SERVICE

A3.16 Verizon Local Calling Plans

.1 General

- a. This tariff applies to local exchange telephone service provided under the Verizon Local Calling Plans offered to Business customers only. The exchange areas to which the regulations and rates contained herein are as specified in Section A3.16.4 of this tariff and are in addition to the applicable regulations and rates specified in other sections of this Tariff. (T) (C)

.2 Regulations

- a. Existing customer may have the option to keep their current flat rate/message rate service or convert to the Verizon Local Calling Plans service. Should the existing customer opt to keep the current flat rate or message rate service, he will continue to dial "1+" to the expanded local calling areas and will be charged the applicable toll rates for such calls. (T)
- b. All new customers moving into the Verizon Local Calling Plans exchanges may choose one of the Verizon Local Calling Plans options or subscribe to flat rate or message rate service. Should the new customer subscribe to flat rate or message rate service, he will dial "1+" to the expanded local calling areas and will be charged the applicable toll rates for such calls. (T)
- c. The Plans are furnished only from central offices which have been arranged to provide these services, and are available to business one-party, business rotary, residence one-party, residence rotary and PBX trunk customers.
- d. Service Options of the Verizon Local Calling Plans (T)

Basic Calling Plan is an economy rate exchange service which provides measured rate calling only.

(M)
(M)

Community Plus Plan provides flat rate calling within the customer's originating exchange and Verizon specified nearby exchanges with measured calling to all other exchanges within the expanded local calling area. (T)

(M)
(M)

- e. Service charges shall be waived for those customers subscribing to a Verizon Local Calling Plan (LCP), changing to or between Verizon LCP Options; as well as converting back to flat rate or message rate service. (T)
- f. Current flat rate and LCP services will be furnished to the same customer on the same premises where both services are available in the customer's local exchange area. Should a customer request current flat rate service and any LCP on the same premises, a separate line and number will be required for each service type. The customer will receive two separate bills, one bill combining all flat rate lines and services and one for all measured rate lines and services provided.
- g. Measured rate service, where applicable, provides for calling to specified areas with each call measured on a time-of-day, day-of-week, distance called, frequency, and length-of-message basis.
- h. Rates for messages between two points are based on the airline mileage between rate centers, except when the two points are located within the same exchange. Airline mileages between rate centers are determined as specified in Section A18, Long Distance Message Telecommunications Service.
- i. Calls made to the specified areas should be dialed by the customer on a station-to-station sent-paid basis without the assistance of a Telephone Company operator. Operator-assisted calls are excluded from the Verizon Local Calling Plans. (T)
- j. Verizon Local Calling Plan service will not be offered in connection with Public and Semipublic Telephone Service, Public Telephone Access Service, WATS, Feature Group A, or Foreign Exchange services. However, CentraNet® customers may subscribe to the Basic Calling and Community Plus options. (T)

® - Registered Trademark of Verizon (T)

(M) Material moved to Section A103, Page 7. (N)

A3. BASIC LOCAL EXCHANGE SERVICE

A3.16 Verizon Local Calling Plans (Continued)

.2 Regulations (Continued)

- k. Business customers only may subscriber to the Basic Calling and Community Plus options. (C)
- l. Vacation Service (Reference Section A2.3.15) is not available to customers subscribing to the Verizon Local Calling Plan, Basic Calling Plan. Vacation Service is available to customers subscribing to Verizon Local Calling Plan, Community Plus Plan. (C)
- m. For the purpose of determining charges, the following applies:
 - (1) A flat monthly rate for provision of incoming calls and access to the local network.
 - (2) Bands Local and A through E relate to incremental peak and off-peak rates based upon interexchange mileage determined by measuring the airline distance between rate centers within the expanded local service (calling) area. There are no incremental mileage charges associated with calls originating and terminating within a customer's serving exchange.
 - (3) Monthly billing is based on cumulative minutes of usage with the total fraction rounded to the next higher minute.
 - (4) Chargeable time for all calls begins when connection is established between the calling line and the called line or branch exchange, and ends when the calling line "hangs-up" thereby releasing the network connection. If the called line "hangs-up", but the calling line does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.
 - (5) Peak period rates will apply Monday through Friday, 7:00 a.m. - 7:00 p.m.
 - (6) The off-peak discounts apply to all calls which are originated within the designated discount periods. The charges are determined separately for each rate period and the results are totaled.
 - (7) The discount for the off-peak period given in the following table is expressed as a percent reduction of the sum of the peak charges calculated at the rates shown in A3.16.3d. following.

	<u>From</u>	<u>Up to But Not Including</u>	<u>Discount</u>
Everyday	7:00 p.m.	7:00 a.m.	40%
Saturdays, Sundays, and Certain Holidays (See Note 1)	7:00 a.m.	7:00 p.m.	40%

Note 1: Holiday discount applies on New Year's Day (January 1), Independence Day (July 4), Labor Day (the first Monday in September), Thanksgiving Day (the fourth Thursday in November), and Christmas Day (December 25).

A3. BASIC LOCAL EXCHANGE SERVICE

A3.16 Verizon Local Calling Plans (Continued)

.3 Rates

a. Application of Rates

The rates shown herein entitle the customer to local messages to all telephones of the exchanges of the expanded local calling area listed in A3.16.4 following.

b. LCP Category Determination

The determination of which LCP category into which a particular exchange will fall when optional local calling plans are made available is calculated using two basic factors. The first is the current rate group where the exchange is located, which is based on the number of main station lines and PBX trunks in the existing local calling area. There are five of these groups in the tariff as shown in Section A3.2, Rate Schedules. The second factor is the total number of local access lines in the LCP expanded local calling area for a particular exchange at the time of implementation. These expanded calling scopes are divided into three classifications: 200,000 or less lines; 200,001 to 500,000 lines; and 500,001 and greater. There are nine potential LCP rating categories. Exchanges currently in Rate Groups 1 and 2 that receive LCP capability will be assigned to Categories I, II or III. Exchanges in local rate groups 3 and 4 will be assigned to Categories IV, V, or VI; and exchanges in local calling area 5 will be assigned to Categories VII, VIII, or IX. For example, an exchange in current Rate Group 3 that offers the LCP with an expanded LCP local calling area of over 200,001 local access lines, but less than 500,000 local access lines, will fall into LCP rating Category V.

A9. FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLANA9.1 Foreign Exchange Service

.1 General Description

- a. Foreign Exchange service is exchange service furnished to a Business customer from an exchange other than the one (C) from which the customer would normally be served.
- b. The service is provisioned via dedicated facilities from the customer's premises to the foreign central office. The service allows customers to have local presence and two-way communications in an exchange different from their own.
- c. Foreign Exchange service is provided as a voice grade service and is not represented as suitable for satisfactory transmission of data. Transmission characteristics may vary depending on the distance and routing required to originate or complete the switched portion of the call at the open (dial-tone) end.

.2 Definitions

Certain terms used generally throughout this Tariff are defined as follows:

Closed End - The term "Closed End" denotes the station end of the Foreign Exchange service which is located in the customer's Serving Wire Center.

Open End - The term "Open End" denotes the dial-tone end of the Foreign Exchange service, which is located in the foreign exchange (foreign office) and where network switching of calls occurs.

Serving Wire Center - The term "Serving Wire Center" denotes the wire center from which a customer or authorized user would normally be served for local exchange service.

.3 Regulations

- a. Foreign Exchange service may only be provided where all facilities and serving points are located in the same LATA.
- b. This service may be furnished on a link (partial channel) basis when connected to Digital Channel Service and/or similar services; however, in these situations, the Foreign Exchange usage charges will continue to apply regardless of any substitutions (partial or otherwise) with respect to the Local Channel and/or Interoffice channel.
- c. Other services, equipment or facilities used in connection with Foreign Exchange service, except as otherwise indicated in this Tariff, are furnished subject to the rates and regulations applying in the exchange in which the foreign office is located.
- d. Foreign Exchange service is furnished subject to the same restrictions as to the use of the service by other than the customer and his representatives, as apply in connection with other classes of service.
- e. Customers to Foreign Exchange service are not required to subscribe to other service in the exchange from which they would normally be served.
- f. When service is interrupted due to causes other than the negligence of the customer, or to the failure of facilities furnished by the customer, a credit allowance will be made upon request as set forth in A2.4 of the General Services Tariff, as appropriate.
- g. This service is not offered in conjunction with optional extended area local calling plans.
- h. Resale of this service is not permitted.

**A9. FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN**

A9.1 Foreign Exchange Service (Continued)

.4 Rate Categories

a. Service Configuration

There are two types of service configurations which can be provided. These are described as follows:

(1.) Single-Point Service

- (a.) A single-point service connects a customer premises to a central office other than the one from which the customer would normally be served.

(2.) Multipoint Service

- (a.) Multipoint (extension) service provides foreign office dial-tone for more than one customer premises.
- (b.) Multipoint bridging can be provided out of the foreign office or the customer's serving wire center.

.5 Types of Rates and Charges

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specific work activity.

(1.) Installation of Service

The nonrecurring charges for the installation of services are set forth in Section 7.7 of the Facilities for Intrastate Access Tariff as nonrecurring charges for the Local Channel and Interoffice Channel rate elements, and Dedicated Access Ordering Charges.

(2.) Service Rearrangements

- (a.) Service rearrangements are described and charged for as set forth in Section 7.6 of the Facilities for Intrastate Access Tariff.

- (b.) A Telephone Number Change Charge, as set forth in Section A4 of this Tariff, applies to any customer requested change of telephone number. (M) (T)

- (3.) The Service Date Change Charge, Expedite Charge, Cancellation Charge and Design Change Charge as specified in Section 5.2 of the Facilities for Intrastate Access Tariff shall apply for foreign exchange service. (M)

(M) Material previously appeared on Page 2.1.

(N)

**A9. FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
 AND TAMPA METROPOLITAN EXCHANGE PLAN**

A9.1 Foreign Exchange Service (Continued)

(M)
 (M)

.6 Usage Charges

In addition to the monthly and nonrecurring charges, the customer will incur usage charges as follows:

- a. Originating Minutes of Use Charge
 - (1.) Usage charges would apply on a customer dialed sent-paid basis, for all calls originated by the customer and terminating within the local calling area of the foreign office.
 - (2.) Toll charges as specified in Section A18 of the General Services Tariff will apply for all calls terminating outside the local calling area of the foreign office, but within the same LATA.
- b. Terminating Minutes of Use Charge
 - (1.) Usage charges will apply for all calls terminated to the customer's foreign exchange service.

.7 Moves

- a. Moves are described and charged for as set forth in Section 7.6 of the Facilities for Intrastate Access Tariff.

.8 Method of Applying Rates

- a. The charges for Foreign Exchange service are as follows:
 - (1.) Usage charges at the open end of the Foreign Exchange service are as set forth in A9.1.10(4.) of this Tariff.
 - (2.) Rates and charges for the closed end of Foreign Exchange service are as set forth in A9.1.10 following.

(M¹)

.9 Basic Rate Elements

Following are basic rate elements which apply to Foreign Exchange service:

- a. Local Channel
 - (1.) This rate element provides for a communications path between a customer's premises and the serving wire center of that premises. One local channel applies per channel termination.
 - (2.) Where multipoint service¹ is provided, this rate element provides a communications path between an additional customer's premises and the serving wire center of that premises

Note 1: Foreign Exchange service is normally provided on a single point basis, however, where facilities permit, multipoint service may be provided within the same LATA. Locations connected may be two or more customer designated premises.

(M¹) Material previously appeared on Page 2.2.

(N)

A9. FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
 AND TAMPA METROPOLITAN EXCHANGE PLAN

A9.1 Foreign Exchange Service (Continued)

.9 Basic Rate Elements (Continued)

b. Interoffice Channel

(M)

- (1.) This rate element provides for the transmission facilities between the customer's serving wire center and the foreign office.

Interoffice mileage is portrayed in mileage bands. A flat rate and a rate per mile applies to each band.

- (2.) The mileage to be used to determine the monthly rate for this rate element is calculated on an airline distance as follows, regardless of how the service is physically routed.

- (3.) The V & H coordinates method is used to determine mileage in accordance with the following:

- (a.) Obtain the "V" and "H" coordinates for each wire center, as listed in the National Exchange Carrier Association Tariff F.C.C. No. 4.

- (b.) Obtain the difference between the "V" coordinates of the two wire centers. Obtain the difference between the "H" coordinates. (The difference is always obtained by subtracting the smaller coordinate from the larger coordinate).

- (c.) Square each difference obtained in (b.) preceding.

(M¹)

- (d.) Add the squares of the "V" difference and the "H" difference obtained on (c.) preceding.

- (e.) Divide the sum of the squares obtained in (d.) preceding by 10.

- (f.) Obtain the square root of the result obtained in (e.) preceding. This is the rate distance in miles. (Fractional miles being considered as full miles).

EXAMPLE: The rate distance is required between City One and City Two.

	V	H
City One	7260	2083
City Two	7364	1865
Difference	104	218
Squared	10,816 + 47,524	= 58,340

58,340 divided by 10 = 5834

Square root of 5834 = 76.38 = 77 Airline miles

(M)
 (M)

c. Bridging Equipment Charge

(1.) This rate element provides for multipoint bridging for each bridged local channel. Bridging will be provided for each bridged local channel at one of the following locations as appropriate:

- (a.) The serving wire center of the primary local channel, or
- (b.) The foreign office of the service.

d. Foreign Exchange Usage Charges

(1.) These rate elements provide traffic sensitive switching for calls originated by and terminated to the FX customer.

(2.) Usage charges will not exceed \$58.00 per line per month for terminating usage.

.10 Rates and Charges

a. Basic Rate Elements

(M¹)

(1.) Local Channel

Local Channel rates are the Voiceband Facilities two-wire Local Channel rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff.

(2.) Interoffice Channel

Interoffice Channel rates are the Voiceband Facilities Interoffice Channel rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff.

(3.) Bridging Equipment Charge

Bridging Equipment Charge rates are the Voiceband Facilities Voice Conference Bridging rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.9 Reserve Telephone Numbers

A13.9.1 General

- a. Reserve Telephone Numbers are telephone numbers reserved by a Business customer for future use. (C)
- b. Reserve Telephone Numbers are offered subject to availability for a period not to exceed 180 days, and are not guaranteed until activated in the network.
- c. Appropriate Service Charges, as stated in Section 4 of this tariff, apply.

A13.10 Long Distance Trunk Service (Toll Terminals)

.1 General

- a. Long distance trunks are facilities which are arranged for access to toll switchboard positions or the direct distance dialing network. On September 1, 1989, all customers subscribing to Long Distance Trunk Service (Toll Terminals) will be billed the appropriate individual business main line rate for their service. Any service installed after the approval date of this Tariff will be billed the appropriate nonrecurring charge as outlined under the A13.10.2 provisions of this Tariff.
- b. Long distance trunk service is furnished only from central offices which have been arranged to provide this service and is provided subject to the availability to the facilities. Further, access to the IDDD network as provided in A13.10.2.a following is furnished only from central offices which provide IDDD with basic exchange service.
- c. Long distance trunk service is available to hotel, motel, and hospital customers who have a requirement for placing a large amount of outgoing long distance toll messages.
- d. This service is prohibited for the completion of incoming toll messages, local exchange messages, or messages of any nature other than long distance.
- e. Long distance trunk service telephone numbers will not be listed in the telephone directory.

A103.2.1 Rate Schedules

.1 Flat Rate Schedule

The following schedule of rates is applicable for main station line service.

Rate Group	Main Station Lines and PBX Trunks	Main Stations Arranged with Rotary Service, each	
		Residence	
1	0- 50,000	\$14.25	
2	50,001- 90,000	15.25	
3	90,001-170,000	15.75	
4	170,001-300,000	16.25	
5	Over 300,000	16.75	

.2 Message Rate Schedule

Residence

Rate Group	Main Station Lines and PBX Trunks	Monthly Message Allowance	Additional Local Message Charge	Main Stations Arranged With Rotary Service, each
1	0 - 50,000	30	\$.10	\$ 10.00
2	50,001- 90,000	30	.10	10.00
3	90,001-170,000	30	.10	10.00
4	170,001-300,000	30	.10	10.00
5	Over 300,000	30	.10	10.00

.4 Residential Rotary Line Service

- a. Residential Rotary Line Service is limited to three lines in rotary. If more than three lines in rotary are required, Business Rotary Line rates will apply to all lines in rotary. (M1)

------------------	---

Haines City	Orlando ^{*(1)}
-------------	-------------------------

Haines City (Poinciana)	Orlando ^{*(1)}
-------------------------	-------------------------

Hudson	Brooksville ^{*(1)}
--------	-----------------------------

Note 1: Usage charges for all calls on this route will be charged at Business usage rates as specified in Section A3.15.3a.(2).

* Other than Verizon Florida Inc. Service Area

(M) Material previously appeared in Section A3, Page 17.1.

(N)

A103. OBSOLETE BASIC LOCAL EXCHANGE SERVICE

A103.4 Verizon Local Calling Plans (T) (M)

Obsolete. The provision of residential Verizon Local Calling Plans, as specified in this Section A103, will be continued for existing residential customers only. Service is not offered for new installations, moves, changes, or additions. (N)
(N)

.1 General (M)

a. This tariff applies to local exchange telephone service provided under the Verizon Local Calling Plans. The exchange areas to which the regulations and rates contained herein are as specified in Section A103.4.4 of this tariff and are in addition to the applicable regulations and rates specified in other sections of this Tariff. (T)

.2 Regulations

a. Existing customers may have the option to keep their current flat rate/message rate service or convert to the Verizon Local Calling Plans service. Should the existing customer opt to keep the current flat rate or message rate service, he will continue to dial "1+" to the expanded local calling areas and will be charged the applicable toll rates for such calls. (T)

b. All new customers moving into the Verizon Local Calling Plans exchanges may choose one of the Verizon Local Calling Plans options or subscribe to flat rate or message rate service. Should the new customer subscribe to flat rate or message rate service, he will dial "1+" to the expanded local calling areas and will be charged the applicable toll rates for such calls. (T)

c. The Plans are furnished only from central offices which have been arranged to provide these services, and are available to residence one-party, and residence rotary. (T)
(T)

d. Service Options of the Verizon Local Calling Plans (T)

Basic Calling Plan is an economy rate exchange service which provides measured rate calling only. (T)

Community Calling Plan provides for flat rate calling only within the customer's originating exchange; all other calls terminating within the expanded local calling area are measured.

Community Plus Plan provides flat rate calling within the customer's originating exchange and Verizon specified nearby exchanges with measured calling to all other exchanges within the expanded local calling area. (T)

Premium Calling Plan provides flat rate calling to all exchanges within the expanded local calling area of the Verizon Local Calling Plans. (T)

e. Service charges shall be waived for those customers subscribing to a Verizon Local Calling Plan (LCP), changing to or between Verizon LCP Options; as well as converting back to flat rate or message rate service. (T)

f. Current flat rate and LCP services will be furnished to the same customer on the same premises where both services are available in the customer's local exchange area. Should a customer request current flat rate service and any LCP on the same premises, a separate line and number will be required for each service type. The customer will receive two separate bills, one bill combining all flat rate lines and services and one for all measured rate lines and services provided.

g. Measured rate service, where applicable, provides for calling to specified areas with each call measured on a time-of-day, day-of-week, distance called, frequency, and length-of-message basis.

h. Rates for messages between two points are based on the airline mileage between rate centers, except when the two points are located within the same exchange. Airline mileages between rate centers are determined as specified in Section A18, Long Distance Message Telecommunications Service.

i. Calls made to the specified areas should be dialed by the customer on a station-to-station sent-paid basis without the assistance of a Telephone Company operator. Operator-assisted calls are excluded from the Verizon Local Calling Plans. (T)

j. Verizon Local Calling Plan service will not be offered in connection with Public and Semipublic Telephone Service, Public Telephone Access Service, WATS, Feature Group A, or Foreign Exchange services. (T)

(M) Material previously appeared in Section A3, Page 20. (N)

A103. OBSOLETE BASIC LOCAL EXCHANGE SERVICE

A103.4 Verizon Local Calling Plans (Continued)

.2 Regulations (Continued)

k. Vacation Service (Reference Section A2.3.15) is not available to customers subscribing to the Verizon Local Calling Plan, Basic Calling Plan. Vacation Service is available to customers subscribing to Verizon Local Calling Plans: Community Calling Plan, Community Plus Plan, and Premium Calling Plan. (T) (M)

l. For the purpose of determining charges, the following applies: (T)

- (1) A flat monthly rate for provision of incoming calls and access to the local network.
- (2) Bands Local and A through E relate to incremental peak and off-peak rates based upon interexchange mileage determined by measuring the airline distance between rate centers within the expanded local service (calling) area. There are no incremental mileage charges associated with calls originating and terminating within a customer's serving exchange.
- (3) Monthly billing is based on cumulative minutes of usage with the total fraction rounded to the next higher minute.
- (4) Chargeable time for all calls begins when connection is established between the calling line and the called line or branch exchange, and ends when the calling line "hangs-up" thereby releasing the network connection. If the called line "hangs-up", but the calling line does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.
- (5) Peak period rates will apply Monday through Friday, 7:00 a.m. - 7:00 p.m.
- (6) The off-peak discounts apply to all calls which are originated within the designated discount periods. The charges are determined separately for each rate period and the results are totaled.
- (7) The discount for the off-peak period given in the following table is expressed as a percent reduction of the sum of the peak charges calculated at the rates shown in A103.4.3d. following.

	<u>From</u>	<u>Up to But Not Including</u>	<u>Discount</u>
Everyday	7:00 p.m.	7:00 a.m.	40%
Saturdays, Sundays, and Certain Holidays (See Note 1)	7:00 a.m.	7:00 p.m.	40%

Note 1: Holiday discount applies on New Year's Day (January 1), Independence Day (July 4), Labor Day (the first Monday in September), Thanksgiving Day (the fourth Thursday in November), and Christmas Day (December 25).

A103.4 Verizon Local Calling Plans (Continued)

.3 Rates

a. Application of Rates

The rates shown herein entitle the customer to local messages to all telephones of the exchanges of the expanded local calling area listed in A103.4.4 following.

b. LCP Category Determination

The determination of which LCP category into which a particular exchange will fall when optional local calling plans are made available is calculated using two basic factors. The first is the current rate group where the exchange is located, which is based on the number of main station lines and PBX trunks in the existing local calling area. There are five of these groups in the tariff as shown in Section A3.2, Rate Schedules. The second factor is the total number of local access lines in the LCP expanded local calling area for a particular exchange at the time of implementation. These expanded calling scopes are divided into three classifications: 200,000 or less lines; 200,001 to 500,000 lines; and 500,001 and greater. There are nine potential LCP rating categories. Exchanges currently in Rate Groups 1 and 2 that receive LCP capability will be assigned to Categories I, II or III. Exchanges in local rate groups 3 and 4 will be assigned to Categories IV, V, or VI; and exchanges in local calling area 5 will be assigned to Categories VII, VIII, or IX. For example, an exchange in current Rate Group 3 that offers the LCP with an expanded LCP local calling area of over 200,001 local access lines, but less than 500,000 local access lines, will fall into LCP rating Category V.

c. Rate Schedule

**A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN**

A109.1 Foreign Exchange Service

(M)

Obsolete. The provision of residential Foreign Exchange Service as specified in this Section A109.1 will be continued for existing customers only. Service will not be offered for new installations, moves, changes or additions.

(N)

(N)

.1 General Description

- a. Foreign Exchange service is exchange service furnished to a Residential customer from an exchange other than the one from which the customer would normally be served. (C) (M)
- b. The service is provisioned via dedicated facilities from the customer's premises to the foreign central office. The service allows customers to have local presence and two-way communications in an exchange different from their own.
- c. Foreign Exchange service is provided as a voice grade service and is not represented as suitable for satisfactory transmission of data. Transmission characteristics may vary depending on the distance and routing required to originate or complete the switched portion of the call at the open (dial-tone) end.

.2 Definitions

Certain terms used generally throughout this Tariff are defined as follows:

Closed End - The term "Closed End" denotes the station end of the Foreign Exchange service which is located in the customer's Serving Wire Center.

Open End - The term "Open End" denotes the dial-tone end of the Foreign Exchange service, which is located in the foreign exchange (foreign office) and where network switching of calls occurs.

Serving Wire Center - The term "Serving Wire Center" denotes the wire center from which a customer or authorized user would normally be served for local exchange service.

.3 Regulations

- a. Foreign Exchange service may only be provided where all facilities and serving points are located in the same LATA.
- b. This service may be furnished on a link (partial channel) basis when connected to Digital Channel Service and/or similar services; however, in these situations, the Foreign Exchange usage charges will continue to apply regardless of any substitutions (partial or otherwise) with respect to the Local Channel and/or Interoffice channel.
- c. Other services, equipment or facilities used in connection with Foreign Exchange service, except as otherwise indicated in this Tariff, are furnished subject to the rates and regulations applying in the exchange in which the foreign office is located.
- d. Foreign Exchange service is furnished subject to the same restrictions as to the use of the service by other than the customer and his representatives, as apply in connection with other classes of service.
- e. Customers to Foreign Exchange service are not required to subscribe to other service in the exchange from which they would normally be served.
- f. When service is interrupted due to causes other than the negligence of the customer, or to the failure of facilities furnished by the customer, a credit allowance will be made upon request as set forth in A2.4 of the General Services Tariff, as appropriate.
- g. This service is not offered in conjunction with optional extended area local calling plans.
- h. Resale of this service is not permitted.

(M)

(M) Material previously appeared in Section A9, Page 1.

ALAN F. CIAMPORCERO, PRESIDENT
TAMPA, FLORIDA

EFFECTIVE: October 19, 2004
ISSUED: October 4, 2004

**A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN**

A109.1 Foreign Exchange Service (Continued)

.4 Rate Categories

a. Service Configuration

(M)

There are two types of service configurations which can be provided. These are described as follows:

(1.) Single-Point Service

(a.) A single-point service connects a customer premises to a central office other than the one from which the customer would normally be served.

(2.) Multipoint Service

(a.) Multipoint (extension) service provides foreign office dial-tone for more than one customer premises.

(b.) Multipoint bridging can be provided out of the foreign office or the customer's serving wire center.

.5 Types of Rates and Charges

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specific work activity.

(1.) Installation of Service

The nonrecurring charges for the installation of services are set forth in Section 7.7 of the Facilities for Intrastate Access Tariff as nonrecurring charges for the Local Channel and Interoffice Channel rate elements, and Dedicated Access Ordering Charges.

(2.) Service Rearrangements

(a.) Service rearrangements are described and charged for as set forth in Section 7.6 of the Facilities for Intrastate Access Tariff.

(M)

(b.) A Telephone Number Change Charge, as set forth in Section A4 of this Tariff, applies to any customer requested change of telephone number.

(M¹) (T)

(3.) The Service Date Change Charge, Expedite Charge, Cancellation Charge and Design Change Charge as specified in Section 5.2 of the Facilities for Intrastate Access Tariff shall apply for foreign exchange service.

(M¹)

(M) Material previously appeared In Section A9, Page 2.

(N)

**A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN**

A109.1 Foreign Exchange Service (Continued)

.6 Usage Charges (M)

In addition to the monthly and nonrecurring charges, the customer will incur usage charges as follows:

- a. Originating Minutes of Use Charge
 - (1.) Usage charges would apply on a customer dialed sent-paid basis, for all calls originated by the customer and terminating within the local calling area of the foreign office.
 - (2.) Toll charges as specified in Section A18 of the General Services Tariff will apply for all calls terminating outside the local calling area of the foreign office, but within the same LATA.
- b. Terminating Minutes of Use Charge
 - (1.) Usage charges will apply for all calls terminated to the customer's foreign exchange service.

.7 Moves

- a. Moves are described and charged for as set forth in Section 7.6 of the Facilities for Intrastate Access Tariff. (M)

.8 Method of Applying Rates (M¹)

- a. The charges for Foreign Exchange service are as follows:
 - (1.) Usage charges at the open end of the Foreign Exchange service are as set forth in A9.1.10(4.) of this Tariff.
 - (2.) Rates and charges for the closed end of Foreign Exchange service are as set forth in A9.1.10 following.

.9 Basic Rate Elements

Following are basic rate elements which apply to Foreign Exchange service:

- a. Local Channel
 - (1.) This rate element provides for a communications path between a customer's premises and the serving wire center of that premises. One local channel applies per channel termination.
 - (2.) Where multipoint service¹ is provided, this rate element provides a communications path between an additional customer's premises and the serving wire center of that premises

¹ Foreign Exchange service is normally provided on a single point basis, however, where facilities permit, multipoint service may be provided within the same LATA. Locations connected may be two or more customer designated premises. (M¹)

(M¹) Material previously appeared in Section A9, Page 2.2. (N)

A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE AND TAMPA METROPOLITAN EXCHANGE PLAN

A109.1 Foreign Exchange Service (Continued)

.9 Basic Rate Elements (Continued)

b. Interoffice Channel

- (1.) This rate element provides for the transmission facilities between the customer's serving wire center and the foreign office.

Interoffice mileage is portrayed in mileage bands. A flat rate and a rate per mile applies to each band.

- (2.) The mileage to be used to determine the monthly rate for this rate element is calculated on an airline distance as follows, regardless of how the service is physically routed.

- (3.) The V & H coordinates method is used to determine mileage in accordance with the following:

- (a.) Obtain the "V" and "H" coordinates for each wire center, as listed in the National Exchange Carrier Association Tariff F.C.C. No. 4.

- (b.) Obtain the difference between the "V" coordinates of the two wire centers. Obtain the difference between the "H" coordinates. (The difference is always obtained by subtracting the smaller coordinate from the larger coordinate).

- (c.) Square each difference obtained in (b.) preceding.

- (d.) Add the squares of the "V" difference and the "H" difference obtained on (c.) preceding.

- (e.) Divide the sum of the squares obtained in (d.) preceding by 10.

- (f.) Obtain the square root of the result obtained in (e.) preceding. This is the rate distance in miles. (Fractional miles being considered as full miles).

EXAMPLE: The rate distance is required between City One and City Two.

	<u>V</u>	<u>H</u>
City One	7260	2083
City Two	7364	1865
Difference	104	218
Squared	10,816 + 47,524	= 58,340

58,340 divided by 10 = 5834

Square root of 5834 = 76.38 = 77 Airline miles

A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE AND TAMPA METROPOLITAN EXCHANGE PLAN

A109.1 Foreign Exchange Service (Continued)

.9 Basic Rate Elements (Continued)

c. Bridging Equipment Charge

(1.) This rate element provides for multipoint bridging for each bridged local channel. Bridging will be provided for each bridged local channel at one of the following locations as appropriate:

- (a.) The serving wire center of the primary local channel, or
- (b.) The foreign office of the service.

(M)

d. Foreign Exchange Usage Charges

(1.) These rate elements provide traffic sensitive switching for calls originated by and terminated to the FX customer.

(2.) Usage charges will not exceed \$58.00 per line per month for terminating usage.

(M)

.10 Rates and Charges

a. Basic Rate Elements

(1.) Local Channel

Local Channel rates are the Voiceband Facilities two-wire Local Channel rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff.

(2.) Interoffice Channel

Interoffice Channel rates are the Voiceband Facilities Interoffice Channel rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff.

(3.) Bridging Equipment Charge

Bridging Equipment Charge rates are the Voiceband Facilities Voice Conference Bridging rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff

(N)

A113. OBSOLETE MISCELLANEOUS SERVICE ARRANGEMENTS

A113.9 Reserve Telephone Numbers

(M)

Obsolete. The provision of Reserve Telephone Numbers as specified in this Section A113.9 will be continued for existing residential customers only. Service will not be offered for new installations, moves, changes or additions.

(N)

(N)

.1 General

(M)

a. Reserve Telephone Numbers are telephone numbers reserved by a residential customer for future use.

(C)

b. Reserve Telephone Numbers are offered subject to availability for a period not to exceed 180 days, and are not guaranteed until activated in the network.

c. Appropriate Service Charges, as stated in Section 4 of this tariff, apply.

A3. BASIC LOCAL EXCHANGE SERVICE

A3.1 General

- .1 This Tariff specifies rate schedules applicable for grades and classes of local exchange service ordered.
- .2 Exchange rate schedules are applied according to the total number of main station lines and PBX trunks in the local service area.
- .3 Exchange Service Areas for each exchange are identified on maps filed in Section A200, Local Exchange Service Area Maps and Descriptions, of this Tariff.
- .4 The rates for service and equipment not specifically shown in this section are presented in other sections of this Tariff. (See Note 3)
- .5 Service charges, as covered in Section A4., are applicable to the provision of basic local exchange service.
- .6 Pursuant to passage of the Telecommunications Access Systems Act of 1991 by the Florida Legislature during the 1991 session, a monthly surcharge shall be imposed on all local exchange telecommunications company customers on an individual access line basis, except that such surcharge shall not be imposed upon more than 25 basic telecommunications access lines per account bill rendered. The Commission shall determine the amount of the surcharge; however, in no case shall the amount exceed 25 cents per line per month. The surcharge shall appear on the initial bill to the customer and itemized at least once annually.

A3.2 Rate Schedules

.1 Flat Rate Schedule

- 4 The following schedule of rates is applicable for main station line service.

Rate Group	Main Station Lines and PBX Trunks	Monthly Rates			Main Stations Arranged with Rotary Service, each			(M)
		One-Party		Business Extended Calling Service (43700)	Residence		Business Extended Calling Service (43701)	
		Business	Residence			Business		Residence
1	0- 50,000	\$ 25.00 (I)	\$ 10.70 (I)	\$ 35.70	\$39.25	\$14.25 (I)	\$ 47.00 (I)	
2	50,001- 90,000	29.25 (I)	11.85 (I)	35.70	39.25	15.25 (I)	47.00 (I)	
3	90,001-170,000	29.25 (I)	11.85 (I)	35.70	39.25	15.75 (I)	47.00 (I)	
4	170,001-300,000	29.25 (I)	12.10 (I)	36.70	39.25	16.25 (I)	47.00 (I)	
5	Over 300,000	30.54 (I)	12.10	37.50	39.25 (R)	16.75 (I)	47.00 (I)	

Flat Rate Business Extended Calling Service-All Rate Groups¹

Number of Main Station Lines and Trunks	One-Party		Main Stations Arranged with Rotary Service, each	
	1-Year Term ^{2,3}	3-Year Term ^{2,3}	1-Year Term ^{2,3}	3-Year Term ^{2,3}
3-24	\$ 35.00	\$ 32.00	\$ 45.00	\$ 40.00
25+	30.00	27.00	43.00	38.00

¹ Flat Rate Business ECS 1- and 3-year term rates apply only to Business One-Party lines, Main Stations Arranged with Rotary, and/or PBX trunks; does not apply to CentraNet® NARs.

² In the event the customer terminates the service prior to the completion of the term commitment, the Termination Liability in Section A2.3.17 of this tariff will apply.

³ The Central Office Line Connection Service Order Charge in Section A4 of this tariff is not applicable to 1 or 3-Year term rates.

5	Over 300,000	7.40 (1)	30	.10	10.00

(M)
 (M)

.3 Regrouping Procedures

a. Whenever the number of access lines in the local calling area of an exchange increases or decreases to the extent that such exchange would fall into a different rate group, a revised Tariff shall be filed for authority to reclassify the exchange to its appropriate group. The effective date of the proposed rate change shall be the effective date of the next directory for the affected exchange or 60 days after the date of filing the tariff whichever is later.

(1) The rate group in which an exchange falls shall be determined by the peak number of access lines in the exchange's local calling area since the effective date of the preceding directory.

~~.4 Residential Rotary Line Service~~

~~a. Residential Rotary Line Service is limited to three lines in rotary. If more than three lines in rotary are required, Business Rotary Line rates will apply to all lines in rotary.~~

(M)
 (M)

A3.3 Monthly Exchange Rates

.1 General

a. Monthly exchange rates shown in A3.2 are applicable, in each exchange, for grades and classes of basic local exchange service offered.

.2 Message Rate Service - Individual Line

a. Subscribers to business or residence message rate service are regularly billed monthly in advance at the rate quoted in this tariff for the class of service furnished. Messages in excess of the monthly allowance are billed monthly in arrears. Local messages not used in one month are not credited to the subscriber's account for any other month service is rendered.

b. Subscribers are entitled to the number of messages specified in A3.2.2 to all central office lines bearing the designations of exchanges listed in A3.5, Local Calling Area, for the respective exchange.

c. (Deleted)

d. Business Message Rate Service and Residence Message Rate Service are available in all exchanges and in all new rate groups. See Section A3.2.2 for specific rates by rate group.

e. Rules and regulations covering the provision of message rate service are as specified in Section A2.3.2.

f. (Deleted)

(M) Material moved to Section A103, Page5.

* Other than Verizon GTE Florida Incorporated Service Area

(M) Material moved to Section A103, Page 6. (N)

A3. BASIC LOCAL EXCHANGE SERVICE

A3.16 Verizon GTE Local Calling Plans

.1 General

- a. This tariff applies to local exchange telephone service provided under the Verizon GTE Local Calling Plans offered to Business customers. The exchange areas to which the regulations and rates contained herein are as specified in Section A3.16.4 of this tariff and are in addition to the applicable regulations and rates specified in other sections of this Tariff. (T)(C)

.2 Regulations

- a. Existing customer may have the option to keep their current flat rate/message rate service or convert to the Verizon GTE Local Calling Plans service. Should the existing customer opt to keep the current flat rate or message rate service, he will continue to dial "1+" to the expanded local calling areas and will be charged the applicable toll rates for such calls. (T)
- b. All new customers moving into the Verizon GTE Local Calling Plans exchanges may choose one of the Verizon GTE Local Calling Plans options or subscribe to flat rate or message rate service. Should the new customer subscribe to flat rate or message rate service, he will dial "1+" to the expanded local calling areas and will be charged the applicable toll rates for such calls. (T)
- c. The Plans are furnished only from central offices which have been arranged to provide these services, and are available to business one-party, business rotary, residence one-party, residence rotary and PBX trunk customers.

- d. Service Options of the Verizon GTE Local Calling Plans (T)

Basic Calling Plan is an economy rate exchange service which provides measured rate calling only.

Community Calling Plan provides for flat rate calling only within the customer's originating exchange; all other calls terminating within the expanded local calling area are measured. (M)
(M)

Community Plus Plan provides flat rate calling within the customer's originating exchange and Verizon GTE specified nearby exchanges with measured calling to all other exchanges within the expanded local calling area. (T)

Premium Calling Plan provides flat rate calling to all exchanges within the expanded local calling area of the Verizon GTE Local Calling Plans. (M)
(M)

- e. Service charges shall be waived for those customers subscribing to a Verizon GTE Local Calling Plan (LCP), changing to or between Verizon GTE LCP Options; as well as converting back to flat rate or message rate service. (T)
- f. Current flat rate and LCP services will be furnished to the same customer on the same premises where both services are available in the customer's local exchange area. Should a customer request current flat rate service and any LCP on the same premises, a separate line and number will be required for each service type. The customer will receive two separate bills, one bill combining all flat rate lines and services and one for all measured rate lines and services provided. (T)
- g. Measured rate service, where applicable, provides for calling to specified areas with each call measured on a time-of-day, day-of-week, distance called, frequency, and length-of-message basis.
- h. Rates for messages between two points are based on the airline mileage between rate centers, except when the two points are located within the same exchange. Airline mileages between rate centers are determined as specified in Section A18, Long Distance Message Telecommunications Service.
- i. Calls made to the specified areas should be dialed by the customer on a station-to-station sent-paid basis without the assistance of a Telephone Company operator. Operator-assisted calls are excluded from the Verizon GTE Local Calling Plans.
- j. Verizon GTE Local Calling Plan service will not be offered in connection with Public and Semipublic Telephone Service, Public Telephone Access Service, WATS, Feature Group A, or Foreign Exchange services. However, CentraNet® customers may subscribe to the Basic Calling and Community Plus options. (T)
(T)

© - Registered Trademark of Verizon GTE (T)

(M)Material moved to Section A103, Page 7. (N)

A3. BASIC LOCAL EXCHANGE SERVICE

A3.16 Verizon Local Calling Plans (Continued)

.2 Regulations (Continued)

- k. Business customers only may ~~only~~ subscribe to the Basic Calling and Community Plus options. (C)
- l. Vacation Service (Reference Section A2.3.15) is not available to customers subscribing to the Verizon Local Calling Plan, Basic Calling Plan. Vacation Service is available to customers subscribing to Verizon Local Calling Plans: ~~Community Calling Plan, Community Plus Plan, and Premium Calling Plan.~~ (C)
- m. For the purpose of determining charges, the following applies:
 - (1) A flat monthly rate for provision of incoming calls and access to the local network.
 - (2) Bands Local and A through E relate to incremental peak and off-peak rates based upon interexchange mileage determined by measuring the airline distance between rate centers within the expanded local service (calling) area. There are no incremental mileage charges associated with calls originating and terminating within a customer's serving exchange.
 - (3) Monthly billing is based on cumulative minutes of usage with the total fraction rounded to the next higher minute.
 - (4) Chargeable time for all calls begins when connection is established between the calling line and the called line or branch exchange, and ends when the calling line "hangs-up" thereby releasing the network connection. If the called line "hangs-up", but the calling line does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.
 - (5) Peak period rates will apply Monday through Friday, 7:00 a.m. - 7:00 p.m.
 - (6) The off-peak discounts apply to all calls which are originated within the designated discount periods. The charges are determined separately for each rate period and the results are totaled.
 - (7) The discount for the off-peak period given in the following table is expressed as a percent reduction of the sum of the peak charges calculated at the rates shown in A3.16.3d. following.

	<u>From</u>	<u>Up to But Not Including</u>	<u>Discount</u>
Everyday	7:00 p.m.	7:00 a.m.	40%
Saturdays, Sundays, and Certain Holidays (See Note 1)	7:00 a.m.	7:00 p.m.	40%

Note 1: Holiday discount applies on New Year's Day (January 1), Independence Day (July 4), Labor Day (the first Monday in September), Thanksgiving Day (the fourth Thursday in November), and Christmas Day (December 25).

A3. BASIC LOCAL EXCHANGE SERVICE

A3.16 Verizon Local Calling Plans (Continued)

.3 Rates

a. Application of Rates

The rates shown herein entitle the customer to local messages to all telephones of the exchanges of the expanded local calling area listed in A3.16.4 following.

b. LCP Category Determination

The determination of which LCP category into which a particular exchange will fall when optional local calling plans are made available is calculated using two basic factors. The first is the current rate group where the exchange is located, which is based on the number of main station lines and PBX trunks in the existing local calling area. There are five of these groups in the tariff as shown in Section A3.2, Rate Schedules. The second factor is the total number of local access lines in the LCP expanded local calling area for a particular exchange at the time of implementation. These expanded calling scopes are divided into three classifications: 200,000 or less lines; 200,001 to 500,000 lines; and 500,001 and greater. There are nine potential LCP rating categories. Exchanges currently in Rate Groups 1 and 2 that receive LCP capability will be assigned to Categories I, II or III. Exchanges in local rate groups 3 and 4 will be assigned to Categories IV, V, or VI; and exchanges in local calling area 5 will be assigned to Categories VII, VIII, or IX. For example, an exchange in current Rate Group 3 that offers the LCP with an expanded LCP local calling area of over 200,001 local access lines, but less than 500,000 local access lines, will fall into LCP rating Category V.

c. Rate Schedule

	Monthly Rate LCP Category II*	Monthly Rate LCP Category V*	IOSC
<u>Residence One-Party</u>			
Basic Calling Plan	\$ 7.40 (I)	\$ 7.40 (I)	10679

A9. FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLANA9.1 Foreign Exchange Service

.1 General Description

- a. Foreign Exchange service is exchange service furnished to a Business customer from an exchange other than the one from which the customer would normally be served. (C)
- b. The service is provisioned via dedicated facilities from the customer's premises to the foreign central office. The service allows customers to have local presence and two-way communications in an exchange different from their own.
- c. Foreign Exchange service is provided as a voice grade service and is not represented as suitable for satisfactory transmission of data. Transmission characteristics may vary depending on the distance and routing required to originate or complete the switched portion of the call at the open (dial-tone) end.

.2 Definitions

Certain terms used generally throughout this Tariff are defined as follows:

Closed End - The term "Closed End" denotes the station end of the Foreign Exchange service which is located in the customer's Serving Wire Center.

Open End - The term "Open End" denotes the dial-tone end of the Foreign Exchange service, which is located in the foreign exchange (foreign office) and where network switching of calls occurs.

Serving Wire Center - The term "Serving Wire Center" denotes the wire center from which a customer or authorized user would normally be served for local exchange service.

.3 Regulations

- a. Foreign Exchange service may only be provided where all facilities and serving points are located in the same LATA.
- b. This service may be furnished on a link (partial channel) basis when connected to Digital Channel Service and/or similar services; however, in these situations, the Foreign Exchange usage charges will continue to apply regardless of any substitutions (partial or otherwise) with respect to the Local Channel and/or Interoffice channel.
- c. Other services, equipment or facilities used in connection with Foreign Exchange service, except as otherwise indicated in this Tariff, are furnished subject to the rates and regulations applying in the exchange in which the foreign office is located.
- d. Foreign Exchange service is furnished subject to the same restrictions as to the use of the service by other than the customer and his representatives, as apply in connection with other classes of service.
- e. Customers to Foreign Exchange service are not required to subscribe to other service in the exchange from which they would normally be served.
- f. When service is interrupted due to causes other than the negligence of the customer, or to the failure of facilities furnished by the customer, a credit allowance will be made upon request as set forth in A2.4 of the General Services Tariff, as appropriate.
- g. This service is not offered in conjunction with optional extended area local calling plans.
- h. Resale of this service is not permitted.

A9. FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLANA9.1 Foreign Exchange Service (Continued)

.4 Rate Categories

a. Service Configuration

There are two types of service configurations which can be provided. These are described as follows:

(1.) Single-Point Service

- (a.) A single-point service connects a customer premises to a central office other than the one from which the customer would normally be served.

(2.) Multipoint Service

- (a.) Multipoint (extension) service provides foreign office dial-tone for more than one customer premises.
- (b.) Multipoint bridging can be provided out of the foreign office or the customer's serving wire center.

.5 Types of Rates and Charges

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specific work activity.

(1.) Installation of Service

The nonrecurring charges for the installation of services are set forth in Section 7.7 of the Facilities for Intrastate Access Tariff as nonrecurring charges for the Local Channel and Interoffice Channel rate elements, and Dedicated Access Ordering Charges.

(2.) Service Rearrangements

- (a.) Service rearrangements are described and charged for as set forth in Section 7.6 of the Facilities for Intrastate Access Tariff.

(be.) A Telephone Number Change Charge, as set forth in Section A4 of this Tariff, applies to any customer requested change of telephone number. (M)(T)

(3.) The Service Date Change Charge, Expedite Charge, Cancellation Charge and Design Change Charge as specified in Section 5.2 of the Facilities for Intrastate Access Tariff shall apply for foreign exchange service. (M)

(M) Material previously appeared on Page 2.1

.5 Types of Rates and Charges (Continued)

~~b. Nonrecurring Charges (Continued)~~

~~(2.) Service Rearrangements (Continued)~~

~~(c.) A Telephone Number Change Charge, as set forth in Section A4 of this Tariff, applies to any customer requested change of telephone number.~~

(M)

~~(3.) The Service Date Change Charge, Expedite Charge, Cancellation Charge and Design Change Charge as specified in Section 5.2 of the Facilities for Intrastate Access Tariff shall apply for foreign exchange service.~~

(M)

.6 Usage Charges

In addition to the monthly and nonrecurring charges, the customer will incur usage charges as follows:

a. Originating Minutes of Use Charge

- (1.) Usage charges would apply on a customer dialed sent-paid basis, for all calls originated by the customer and terminating within the local calling area of the foreign office.
- (2.) Toll charges as specified in Section A18 of the General Services Tariff will apply for all calls terminating outside the local calling area of the foreign office, but within the same LATA.

b. Terminating Minutes of Use Charge

- (1.) Usage charges will apply for all calls terminated to the customer's foreign exchange service.

.7 Moves

(M)

a. Moves are described and charged for as set forth in Section 7.6 of the Facilities for Intrastate Access Tariff.

.8 Method of Applying Rates

a. The charges for Foreign Exchange service are as follows:

- (1.) Usage charges at the open end of the Foreign Exchange service are as set forth in A9.1.10(4.) of this Tariff.
- (2.) Rates and charges for the closed end of Foreign Exchange service are as set forth in A9.1.10 following.

.9 Basic Rate Elements

Following are basic rate elements which apply to Foreign Exchange service:

a. Local Channel

- (1.) This rate element provides for a communications path between a customer's premises and the serving wire center of that premises. One local channel applies per channel termination.
- (2.) Where multipoint service¹ is provided, this rate element provides a communications path between an additional customer's premises and the serving wire center of that premises.

Note 1: Foreign Exchange service is normally provided on a single point basis, however, where facilities permit, multipoint service may be provided within the same LATA. Locations connected may be two or more customer designated premises.

(M) Material previously appeared on Page 2.2.

(N)

A9. FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
 AND TAMPA METROPOLITAN EXCHANGE PLAN

A9.1 Foreign Exchange Service (Continued)

~~.7 Moves (Continued)~~

~~.8 Method of Applying Rates~~

~~a. The charges for Foreign Exchange service are as follows:~~

~~(1.) Usage charges at the open end of the Foreign Exchange service are as set forth in A9.1.10(4.) of this Tariff.~~

~~(2.) Rates and charges for the closed end of Foreign Exchange service are as set forth in A9.1.10 following.~~

.9 Basic Rate Elements (Continued)

~~Following are basic rate elements which apply to Foreign Exchange service:~~

~~a. Local Channel~~

~~(1.) This rate element provides for a communications path between a customer's premises and the serving wire center of that premises. One local channel applies per channel termination.~~

~~(2.) Where multipoint service¹ is provided, this rate element provides a communications path between an additional customer's premises and the serving wire center of that premises.~~

b. Interoffice Channel

(1.) This rate element provides for the transmission facilities between the customer's serving wire center and the foreign office.

Interoffice mileage is portrayed in mileage bands. A flat rate and a rate per mile applies to each band.

(2.) The mileage to be used to determine the monthly rate for this rate element is calculated on an airline distance as follows, regardless of how the service is physically routed.

(3.) The V & H coordinates method is used to determine mileage in accordance with the following:

(a.) Obtain the "V" and "H" coordinates for each wire center, as listed in the National Exchange Carrier Association Tariff F.C.C. No. 4.

(b.) Obtain the difference between the "V" coordinates of the two wire centers. Obtain the difference between the "H" coordinates. (The difference is always obtained by subtracting the smaller coordinate from the larger coordinate).

(c.) Square each difference obtained in (b.) preceding.

(d.) Add the squares of the "V" difference and the "H" difference obtained on (c.) preceding.

(e.) Divide the sum of the squares obtained in (d.) preceding by 10.

(f.) Obtain the square root of the result obtained in (e.) preceding. This is the rate distance in miles. (Fractional miles being considered as full miles).

EXAMPLE: The rate distance is required between City One and City Two.

	V	H
City One	7260	2083
City Two	7364	1865
Difference	104	218
Squared	10,816 + 47,524	= 58,340

58,340 divided by 10 = 5834

Square root of 5834 = 76.38 = 77 Airline miles

Note 1: Foreign Exchange service is normally provided on a single point basis, however, where facilities permit, multipoint service may be provided within the same LATA. Locations connected may be two or more customer designated premises.

A9. FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN

A9.1 Foreign Exchange Service (Continued)

.9 Basic Rate Elements (Continued)

b. Interoffice Channel (Continued)

(3.) (Continued)

(c.) Square each difference obtained in (b.) preceding.

(d.) Add the squares of the "V" difference and the "H" difference obtained on (c.) preceding.

(e.) Divide the sum of the squares obtained in (d.) preceding by 10.

(f.) Obtain the square root of the result obtained in (e.) preceding. This is the rate distance in miles. (Fractional miles being considered as full miles).

EXAMPLE: The rate distance is required between City One and City Two.

	<u>V</u>	<u>H</u>
City One	7260	2083
City Two	7364	1865
Difference	104	218
Squared	10,816 + 47,524	= 58,340
58,340 divided by 10 = 5834		
Square root of 5834 = 76.38 = 77 Airline miles		

c. Bridging Equipment Charge

(1.) This rate element provides for multipoint bridging for each bridged local channel. Bridging will be provided for each bridged local channel at one of the following locations as appropriate:

(a.) The serving wire center of the primary local channel, or

(b.) The foreign office of the service.

d. Foreign Exchange Usage Charges

(1.) These rate elements provide traffic sensitive switching for calls originated by and terminated to the FX customer.

(2.) Usage charges will not exceed \$58.00 per line per month for terminating usage.

10 Rates and Charges

a. Basic Rate Elements

(1.) Local Channel

Local Channel rates are the Voiceband Facilities two-wire Local Channel rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff.

(2.) Interoffice Channel

Interoffice Channel rates are the Voiceband Facilities Interoffice Channel rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff.

(3.) Bridging Equipment Charge

Bridging Equipment Charge rates are the Voiceband Facilities Voice Conference Bridging rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff

A13. MISCELLANEOUS SERVICE ARRANGEMENTS

A13.9 Reserve Telephone Numbers

A13.9.1 General

- a. Reserve Telephone Numbers are telephone numbers reserved by a Business customer for future use. (C)
- b. Reserve Telephone Numbers are offered subject to availability for a period not to exceed 180 days, and are not guaranteed until activated in the network.
- c. Appropriate Service Charges, as stated in Section 4 of this tariff, apply.

A13.10 Long Distance Trunk Service (Toll Terminals)

.1 General

- a. Long distance trunks are facilities which are arranged for access to toll switchboard positions or the direct distance dialing network. On September 1, 1989, all customers subscribing to Long Distance Trunk Service (Toll Terminals) will be billed the appropriate individual business main line rate for their service. Any service installed after the approval date of this Tariff will be billed the appropriate nonrecurring charge as outlined under the A13.10.2 provisions of this Tariff.
- b. Long distance trunk service is furnished only from central offices which have been arranged to provide this service and is provided subject to the availability to the facilities. Further, access to the IDDD network as provided in A13.10.2.a following is furnished only from central offices which provide IDDD with basic exchange service.
- c. Long distance trunk service is available to hotel, motel, and hospital customers who have a requirement for placing a large amount of outgoing long distance toll messages.
- d. This service is prohibited for the completion of incoming toll messages, local exchange messages, or messages of any nature other than long distance.
- e. Long distance trunk service telephone numbers will not be listed in the telephone directory.

A103. OBSOLETE BASIC LOCAL EXCHANGE SERVICE

A103.2 Rotary Service

Obsolete: The provision of Verizon Residential Rotary Service as specified in this Section A103, will be continued for existing residential customers only. Service is not offered for new installations, moves, changes, or additions. (N)
(N)

A103.2.1 Rate Schedules

.1 Flat Rate Schedule

The following schedule of rates is applicable for main station line service.

Main Station		Main Stations Arranged with Rotary Service, each
Rate Group	Lines and PBX Trunks	Residence
1	0 - 50,000	\$14.25
2	50,001 - 90,000	15.25
3	90,001 - 170,000	15.75
4	170,001 - 300,000	16.25
5	Over 300,000	16.75

.2 Message Rate Schedule

Residence

Rate Group	Main Station Lines and PBX Trunks	Monthly Message Allowance	Additional Local Message Charge	Main Stations Arranged With Rotary Service, each
1	0 - 50,000	30	\$.10	\$ 10.00
2	50,001 - 90,000	30	.10	10.00
3	90,001 - 170,000	30	.10	10.00
4	170,001 - 300,000	30	.10	10.00
5	Over 300,000	30	.10	10.00

.4 Residential Rotary Line Service

a. Residential Rotary Line Service is limited to three lines in rotary. If more than three lines in rotary are required, Business Rotary Line rates will apply to all lines in rotary. (M¹)

(M) Material previously appeared in Section A3, Page 1.

(M¹) Material previously appeared in Section A3, Page 2.

A103. OBSOLETE BASIC LOCAL EXCHANGE SERVICE

A103.3 Extended Calling Service (ECS) (Continued)

Obsolete. The provision of business usage rates applied to Residential lines in ECS Exchanges as listed on this page will be continued for existing residential customers only. Service is not offered for new installations, moves, changes or additions. (N)

.1 Extended Calling Service (ECS) Exchanges

a. Listed below are the ECS exchanges associated with each exchange:

<u>Exchanges</u>	<u>Extended Calling Service (ECS) Exchanges</u>
<u>Haines City</u>	<u>Orlando*⁽¹⁾</u>
<u>Haines City (Poinciana)</u>	<u>Orlando*⁽¹⁾</u>
<u>Hudson</u>	<u>Brooksville*⁽¹⁾</u>

Note 1: Usage charges for all calls on this route will be charged at Business usage rates as specified in Section A3.15.3a.(2).

* Other than Verizon Florida Inc. Service Area

(M) Material previously appeared in Section A3, Page 17.1.

(N)

A103. OBSOLETE BASIC LOCAL EXCHANGE SERVICE

A103.4 Verizon Local Calling Plans (T) (M)

Obsolete. The provision of residential Verizon Local Calling Plans, as specified in Section A103, will be continued for existing residential customers only. Service is not offered for new installations, moves, changes, or additions. (N)
(N)

.1 General (M)

a. This tariff applies to local exchange telephone service provided under the Verizon Local Calling Plans. The exchange areas to which the regulations and rates contained herein are as specified in Section A103.4.4 of this tariff and are in addition to the applicable regulations and rates specified in other sections of this Tariff. (T)

.2 Regulations

a. Existing customers may have the option to keep their current flat rate/message rate service or convert to the Verizon Local Calling Plans service. Should the existing customer opt to keep the current flat rate or message rate service, he will continue to dial "1+" to the expanded local calling areas and will be charged the applicable toll rates for such calls. (T)

b. All new customers moving into the Verizon Local Calling Plans exchanges may choose one of the Verizon Local Calling Plans options or subscribe to flat rate or message rate service. Should the new customer subscribe to flat rate or message rate service, he will dial "1+" to the expanded local calling areas and will be charged the applicable toll rates for such calls. (T)

c. The Plans are furnished only from central offices which have been arranged to provide these services, and are available to residence one-party, and residence rotary. (T)
(T)

d. Service Options of the Verizon Local Calling Plans (T)

Basic Calling Plan is an economy rate exchange service which provides measured rate calling only.

Community Calling Plan provides for flat rate calling only within the customer's originating exchange; all other calls terminating within the expanded local calling area are measured.

Community Plus Plan provides flat rate calling within the customer's originating exchange and Verizon specified nearby exchanges with measured calling to all other exchanges within the expanded local calling area. (T)

Premium Calling Plan provides flat rate calling to all exchanges within the expanded local calling area of the Verizon Local Calling Plans. (T)

e. Service charges shall be waived for those customers subscribing to a Verizon Local Calling Plan (LCP), changing to or between Verizon LCP Options; as well as converting back to flat rate or message rate service. (T)

f. Current flat rate and LCP services will be furnished to the same customer on the same premises where both services are available in the customer's local exchange area. Should a customer request current flat rate service and any LCP on the same premises, a separate line and number will be required for each service type. The customer will receive two separate bills, one bill combining all flat rate lines and services and one for all measured rate lines and services provided.

g. Measured rate service, where applicable, provides for calling to specified areas with each call measured on a time-of-day, day-of-week, distance called, frequency, and length-of-message basis.

h. Rates for messages between two points are based on the airline mileage between rate centers, except when the two points are located within the same exchange. Airline mileages between rate centers are determined as specified in Section A18, Long Distance Message Telecommunications Service.

i. Calls made to the specified areas should be dialed by the customer on a station-to-station sent-paid basis without the assistance of a Telephone Company operator. Operator-assisted calls are excluded from the Verizon Local Calling Plans. (T)

j. Verizon Local Calling Plan service will not be offered in connection with Public and Semipublic Telephone Service, Public Telephone Access Service, WATS, Feature Group A, or Foreign Exchange services. (T)

A103. OBSOLETE BASIC LOCAL EXCHANGE SERVICE

A103.4 Verizon Local Calling Plans (Continued)

.2 Regulations (Continued)

k. Vacation Service (Reference Section A2.3.15) is not available to customers subscribing to the Verizon Local Calling Plan, Basic Calling Plan. Vacation Service is available to customers subscribing to Verizon Local Calling Plans: Community Calling Plan, Community Plus Plan, and Premium Calling Plan. (T) (M)

l. For the purpose of determining charges, the following applies: (T)

(1) A flat monthly rate for provision of incoming calls and access to the local network.

(2) Bands Local and A through E relate to incremental peak and off-peak rates based upon interexchange mileage determined by measuring the airline distance between rate centers within the expanded local service (calling) area. There are no incremental mileage charges associated with calls originating and terminating within a customer's serving exchange.

(3) Monthly billing is based on cumulative minutes of usage with the total fraction rounded to the next higher minute.

(4) Chargeable time for all calls begins when connection is established between the calling line and the called line or branch exchange, and ends when the calling line "hangs-up" thereby releasing the network connection. If the called line "hangs-up", but the calling line does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Telephone Company operator.

(5) Peak period rates will apply Monday through Friday, 7:00 a.m. - 7:00 p.m.

(6) The off-peak discounts apply to all calls which are originated within the designated discount periods. The charges are determined separately for each rate period and the results are totaled.

(7) The discount for the off-peak period given in the following table is expressed as a percent reduction of the sum of the peak charges calculated at the rates shown in A103.4.3d. following.

	From	Up to But Not Including	Discount
Everyday	7:00 p.m.	7:00 a.m.	40%
Saturdays, Sundays, and Certain Holidays (See Note 1)	7:00 a.m.	7:00 p.m.	40%

Note 1: Holiday discount applies on New Year's Day (January 1), Independence Day (July 4), Labor Day (the first Monday in September), Thanksgiving Day (the fourth Thursday in November), and Christmas Day (December 25).

.3 Rates

a. Application of Rates

The rates shown herein entitle the customer to local messages to all telephones of the exchanges of the expanded local calling area listed in A103.4.4 following.

b. LCP Category Determination

The determination of which LCP category into which a particular exchange will fall when optional local calling plans are made available is calculated using two basic factors. The first is the current rate group where the exchange is located, which is based on the number of main station lines and PBX trunks in the existing local calling area. There are five of these groups in the tariff as shown in Section A3.2, Rate Schedules. The second factor is the total number of local access lines in the LCP expanded local calling area for a particular exchange at the time of implementation. These expanded calling scopes are divided into three classifications: 200,000 or less lines; 200,001 to 500,000 lines; and 500,001 and greater. There are nine potential LCP rating categories. Exchanges currently in Rate Groups 1 and 2 that receive LCP capability will be assigned to Categories I, II or III. Exchanges in local rate groups 3 and 4 will be assigned to Categories IV, V, or VI; and exchanges in local calling area 5 will be assigned to Categories VII, VIII, or IX. For example, an exchange in current Rate Group 3 that offers the LCP with an expanded LCP local calling area of over 200,001 local access lines, but less than 500,000 local access lines, will fall into LCP rating Category V.

c. Rate Schedule

	Monthly Rate LCP Category II*	Monthly Rate LCP Category V*	IOSC
Residence One-Party			
Basic Calling Plan	\$ 7.10 (I)	\$ 7.10 (I)	10679
Community Calling Plan	8.85 (I)	9.90 (I)	19577
Community Plus Plan	11.95 (I)	13.75 (I)	21673
Premium Calling Plan	35.25 (I)	35.25 (I)	10669
Residence-Rotary

A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN

A109.1 Foreign Exchange Service

(M)

Obsolete. The provision of residential Foreign Exchange Service as specified in this Section A109 will be continued for existing
1customers only. Service will not be offered for new installations, moves, changes or additions.

(N)

(N)

.1 General Description

a. Foreign Exchange service is exchange service furnished to a Residential customer from an exchange other than the one
from which the customer would normally be served.

(C) (M)

b. The service is provisioned via dedicated facilities from the customer's premises to the foreign central office. The service
allows customers to have local presence and two-way communications in an exchange different from their own.

c. Foreign Exchange service is provided as a voice grade service and is not represented as suitable for satisfactory
transmission of data. Transmission characteristics may vary depending on the distance and routing required to originate
or complete the switched portion of the call at the open (dial-tone) end.

.2 Definitions

Certain terms used generally throughout this Tariff are defined as follows:

Closed End - The term "Closed End" denotes the station end of the Foreign Exchange service which is located in the customer's
Serving Wire Center.

Open End - The term "Open End" denotes the dial-tone end of the Foreign Exchange service, which is located in the foreign
exchange (foreign office) and where network switching of calls occurs.

Serving Wire Center - The term "Serving Wire Center" denotes the wire center from which a customer or authorized user
would normally be served for local exchange service.

.3 Regulations

a. Foreign Exchange service may only be provided where all facilities and serving points are located in the same LATA.

b. This service may be furnished on a link (partial channel) basis when connected to Digital Channel Service and/or similar
services; however, in these situations, the Foreign Exchange usage charges will continue to apply regardless of any
substitutions (partial or otherwise) with respect to the Local Channel and/or Interoffice channel.

c. Other services, equipment or facilities used in connection with Foreign Exchange service, except as otherwise indicated in
this Tariff, are furnished subject to the rates and regulations applying in the exchange in which the foreign office is located.

d. Foreign Exchange service is furnished subject to the same restrictions as to the use of the service by other than the
customer and his representatives, as apply in connection with other classes of service.

e. Customers to Foreign Exchange service are not required to subscribe to other service in the exchange from which they
would normally be served.

f. When service is interrupted due to causes other than the negligence of the customer, or to the failure of facilities furnished
by the customer, a credit allowance will be made upon request as set forth in A2.4 of the General Services Tariff, as
appropriate.

g. This service is not offered in conjunction with optional extended area local calling plans.

h. Resale of this service is not permitted.

(M)

(M) Material previously appeared in Section A9, Page 1.

A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN

A109.1 Foreign Exchange Service (Continued)

.4 Rate Categories

a. Service Configuration

(M)

There are two types of service configurations which can be provided. These are described as follows:

(1.) Single-Point Service

(a.) A single-point service connects a customer premises to a central office other than the one from which the customer would normally be served.

(2.) Multipoint Service

(a.) Multipoint (extension) service provides foreign office dial-tone for more than one customer premises.

(b.) Multipoint bridging can be provided out of the foreign office or the customer's serving wire center.

.5 Types of Rates and Charges

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specific work activity.

(1.) Installation of Service

The nonrecurring charges for the installation of services are set forth in Section 7.7 of the Facilities for Intrastate Access Tariff as nonrecurring charges for the Local Channel and Interoffice Channel rate elements, and Dedicated Access Ordering Charges.

(2.) Service Rearrangements

(a.) Service rearrangements are described and charged for as set forth in Section 7.6 of the Facilities for Intrastate Access Tariff.

(M)

(c.) A Telephone Number Change Charge, as set forth in Section A4 of this Tariff, applies to any customer requested change of telephone number.

(M¹)

(3.) The Service Date Change Charge, Expedite Charge, Cancellation Charge and Design Change Charge as specified in Section 5.2 of the Facilities for Intrastate Access Tariff shall apply for foreign exchange service.

(M¹)

A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN

A109.1 Foreign Exchange Service (Continued)

.6 Usage Charges

(M)

In addition to the monthly and nonrecurring charges, the customer will incur usage charges as follows:

a. Originating Minutes of Use Charge

(1.) Usage charges would apply on a customer dialed sent-paid basis, for all calls originated by the customer and terminating within the local calling area of the foreign office.

(2.) Toll charges as specified in Section A18 of the General Services Tariff will apply for all calls terminating outside the local calling area of the foreign office, but within the same LATA.

b. Terminating Minutes of Use Charge

(1.) Usage charges will apply for all calls terminated to the customer's foreign exchange service.

.7 Moves

a. Moves are described and charged for as set forth in Section 7.6 of the Facilities for Intrastate Access Tariff.

(M)

.8 Method of Applying Rates

(M¹)

a. The charges for Foreign Exchange service are as follows:

(1.) Usage charges at the open end of the Foreign Exchange service are as set forth in A9.1.10(4.) of this Tariff.

(2.) Rates and charges for the closed end of Foreign Exchange service are as set forth in A9.1.10 following.

.9 Basic Rate Elements

Following are basic rate elements which apply to Foreign Exchange service:

a. Local Channel

(1.) This rate element provides for a communications path between a customer's premises and the serving wire center of that premises. One local channel applies per channel termination.

(2.) Where multipoint service¹ is provided, this rate element provides a communications path between an additional customer's premises and the serving wire center of that premises

¹ Foreign Exchange service is normally provided on a single point basis, however, where facilities permit, multipoint service may be provided within the same LATA. Locations connected may be two or more customer designated premises.

(M¹)

(N)

A109. OBSOLETE FOREIGN EXCHANGE SERVICE, FOREIGN CENTRAL OFFICE SERVICE
AND TAMPA METROPOLITAN EXCHANGE PLAN

A109.1 Foreign Exchange Service (Continued)

.9 Basic Rate Elements (Continued)

b. Interoffice Channel

(1.) This rate element provides for the transmission facilities between the customer's serving wire center and the foreign office.

Interoffice mileage is portrayed in mileage bands. A flat rate and a rate per mile applies to each band.

(2.) The mileage to be used to determine the monthly rate for this rate element is calculated on an airline distance as follows, regardless of how the service is physically routed.

(3.) The V & H coordinates method is used to determine mileage in accordance with the following:

(a.) Obtain the "V" and "H" coordinates for each wire center, as listed in the National Exchange Carrier Association Tariff F.C.C. No. 4.

(b.) Obtain the difference between the "V" coordinates of the two wire centers. Obtain the difference between the "H" coordinates. (The difference is always obtained by subtracting the smaller coordinate from the larger coordinate).

(c.) Square each difference obtained in (b.) preceding.

(d.) Add the squares of the "V" difference and the "H" difference obtained on (c.) preceding.

(e.) Divide the sum of the squares obtained in (d.) preceding by 10.

(f.) Obtain the square root of the result obtained in (e.) preceding. This is the rate distance in miles. (Fractional miles being considered as full miles).

EXAMPLE: The rate distance is required between City One and City Two.

	V	H
City One	7260	2083
City Two	7364	1865
Difference	104	218
Squared	10,816 + 47,524	= 58,340
58,340 divided by 10 = 5834		

Square root of 5834 = 76.38 = 77 Airline miles

A109.1 Foreign Exchange Service (Continued)

.9 Basic Rate Elements (Continued)

c. Bridging Equipment Charge

(1.) This rate element provides for multipoint bridging for each bridged local channel. Bridging will be provided for each bridged local channel at one of the following locations as appropriate:

(a.) The serving wire center of the primary local channel, or

(b.) The foreign office of the service.

d. Foreign Exchange Usage Charges

(1.) These rate elements provide traffic sensitive switching for calls originated by and terminated to the FX customer.

(2.) Usage charges will not exceed \$58.00 per line per month for terminating usage.

.10 Rates and Charges

a. Basic Rate Elements

(1.) Local Channel

Local Channel rates are the Voiceband Facilities two-wire Local Channel rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff.

(2.) Interoffice Channel

Interoffice Channel rates are the Voiceband Facilities Interoffice Channel rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff.

(3.) Bridging Equipment Charge

Bridging Equipment Charge rates are the Voiceband Facilities Voice Conference Bridging rates listed in Section 7.7 of the Facilities for Intrastate Access Tariff
