RE: **TL727**

Dear Ms. Salak:

Attached for filing, please find the following revised pages for the Sprint-Florida, Incorporated General Exchange Tariff. This filing is submitted with a proposed effective date of August 1, 2005. Revisions are available on Sprint's website at [www.sprint.com/tariffs](http://www.sprint.com/tariffs).

|             |                           |                      |                           |
|-------------|---------------------------|----------------------|---------------------------|
| Section A13 | Fifth Revised Sheet 16    | Section A13 (Cont'd) | Fourth Revised Sheet 51   |
|             | Second Revised Sheet 17   |                      | Fifth Revised Sheet 52    |
|             | Second Revised Sheet 18   |                      | Second Revised Sheet 52.1 |
|             | Second Revised Sheet 19   | Section A 27         | First Revised Sheet 4     |
|             | Fourth Revised Sheet 20   |                      | First Revised Sheet 5     |
|             | First Revised Sheet 21    |                      | First Revised Sheet 6     |
|             | Twelfth Revised Sheet 29  |                      | Second Revised Sheet 7    |
|             | Eleventh Revised Sheet 30 |                      | First Revised Sheet 11    |
|             | Fifth Revised Sheet 50    | Section A127         | First Revised Sheet 2     |

This filing proposes to standardize the Custom Calling Services of Call Forwarding, Call Forward-Fixed, Call Forward Busy, Call Forward No Answer, Call Forward Busy-Customer Controlled, Call Forward No Answer-Customer Controlled and Call Forward Remote Activation. In addition, this filing introduces Call Forward Busy-Customer Programmable and Call Forward No Answer-Customer Programmable.

Commission consideration and timely approval of these pages are respectfully requested. If you have questions or need additional information regarding this filing, please call Nancy Schnitzer at 850-599-1276.

Sincerely,

Mary L. Matthews

GENERAL EXCHANGE TARIFF

SPRINT-FLORIDA, INCORPORATED

SECTION A13

Fifth Revised Sheet 16

BY: F. B. Poag  
Director

Cancelling Fourth Revised Sheet 16  
Effective:

MISCELLANEOUS SERVICE ARRANGEMENTS

D. CUSTOM CALLING FEATURES

1. General

- a. Custom calling features consist of optional central office features which are intended to provide subscribers with a greater efficiency of the use of their telephone service.
- b. Custom calling features are limited to those areas served by electronically controlled central offices equipped for custom calling features, and will be offered as available.
- c. Custom calling features are furnished only in connection with individual line service and rotary line service when available, exclusive of pay telephone service.
- d. ***Call Forwarding services and Three-Way Calling Service contemplate that normal transmission performance quality cannot be guaranteed on all calls and cannot be effected in all instances depending on the distance and routing necessary to complete the call(s) involved.***
- e. ***When custom calling features are furnished in connection with rotary line service, charges apply for each rotary line that the subscriber requests to be so equipped.***

Director

MISCELLANEOUS SERVICE ARRANGEMENTS

E. CUSTOM CALLING FEATURES (Cont'd)

2. Feature Descriptions

(M)

(M)

a. **Call Forward Features**

(T)

***Call Forward Features permit the forwarding of incoming calls under a variety of conditions to another telephone number either by dialing an activation code or via pre-programming by the Company. Calls may be forwarded to any number subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. The customer subscribing to this service is responsible for applicable usage charges. Only one call forwarding arrangement, consisting of a single calling path, will be provided per exchange service line for which the customer subscribes to this feature.***

***Call Forward Features shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of usage charges that would regularly be applicable between the station originating the call and the station to which the call is ultimately transferred.***

Second Revised Sheet 18  
Cancelling First Revised Sheet 18  
Effective:

MISCELLANEOUS SERVICE ARRANGEMENTS

**E. CUSTOM CALLING FEATURES (Cont'd)**

**2. Feature Descriptions (Cont'd)**

**a. Call Forward Features(Cont'd)**

**1. Call Forwarding**

*This feature permits the manual forwarding of incoming calls to another telephone number. When activated, all calls will forward; calls cannot be answered from a line with Call Forwarding activated. Call Forwarding overrides Call Forward No Answer and Call Forward Busy, but those features resume functionality when Call Forwarding is deactivated.*

*a) Call Forwarding (FCF1FLC) – Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.*

*b) Call Forward Fixed (FCF1FLC FIX) - Provides a customer the capability to control activation/deactivation of the service by using dialing tones. The customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.*

**2. Call Forward No Answer**

*This feature permits the automatic forwarding of an incoming call to another telephone number when the called telephone remains unanswered for a predetermined number of rings, usually four or five.*

*Where facilities are available, this feature also includes Call Forwarding of Call Waiting when the customer is also subscribed to Call Waiting or Enhanced Call Waiting. Call Forwarding of Call Waiting forwards unanswered waiting calls to a customer-designated telephone number using Call Waiting and Call Forward No Answer. An incoming call to a busy line first receives a Call Waiting tone. If the call is not answered within a set period of time, the incoming call is forwarded to a customer-designated telephone number.*

*a) Call Forward No Answer-Fixed (FCD1FLC) – This feature is activated and the customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.*

*b) Call Forward No Answer-Customer Programmable (FCD1FLC PRG) – Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.*

*c) Call Forward No Answer-Customer Controlled (FCD1FLC CC) – Provides a customer the capability to control activation/deactivation of the service by using dialing tones. The customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.*

2. Feature Descriptions (Cont'd)

a. *Call Forward Features (Cont'd)*

3. *Call Forward Busy*

*This feature permits the automatic forwarding of an incoming call to another telephone number when the called telephone is already in use. Call Forward Busy shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment of Rotary Line/Hunting Service.*

a) *Call Forward Busy-Fixed (FCB1FLC) – This feature is activated and the customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.*

b) *Call Forward Busy-Customer Programmable (FCB1FLC PRG) – Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.*

c) *Call Forward Busy-Customer Controlled (FCB1FLC CC) – Provides a customer the capability to control activation/deactivation of the service by using dialing tones. The customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.*

E. CUSTOM CALLING FEATURES (Cont'd)

2. Feature Descriptions (Cont'd)

a. Call Forward Features (Cont'd)

4. Call Forward Remote Activation (FCG1FLC)

*This feature allows the Call Forwarding subscriber to change the Call Forwarding status of their telephone line from a remote location using a touch-tone telephone. To redirect Call Forwarding from a remote location, the subscriber dials a remote-access directory number. Once the subscriber's authorization code is verified, the subscriber can activate, deactivate, or change call forwarding to a new destination.*

(T)

(C)(M)

|  
|  
|  
|

(C)(M)

- b. **Three-Way Calling Service** - This service permits an existing call to be held, and by dialing, a second telephone call can be established and added to the connection.

(T)

Three-Way Calling is available on a flat rate or a usage sensitive basis. The usage sensitive option is only available to residence and business single line customers. Under the usage sensitive option, the customer will incur an activation charge on a completed call. The provision of this service on a usage sensitive basis is subject to technical limitations and is provided on a where available basis.

(M) Material now appearing on this sheet formerly appeared on Original Sheet 21.

MISCELLANEOUS SERVICE ARRANGEMENTS

E. CUSTOM CALLING FEATURES (Cont'd)

2. Feature Descriptions (Cont'd)

- f. **Enhanced Call Waiting** - This service combines the features of call waiting and the cancel call waiting feature which allows the customer to defer the call waiting feature to prevent call waiting tones from interrupting calls or disrupting data transmissions. Cancel call waiting can be activated before or during a call by dialing an access code and the cancellation stays in effect for the duration of the call. Incoming calls receive a busy signal while cancel call waiting is in effect.
- g. **Speed Calling Service (Abbreviated Dialing Service)** - This service permits a customer to call certain other predetermined telephone numbers by dialing an abbreviated code rather than the entire 7 or 10 digit telephone number. The arrangement available is an 8-number capacity (8-code).
- h. **Reserved for Future Use**

G. CUSTOM CALLING FEATURE PACKAGES

1. General

- a. Custom Calling Feature Packages combine certain custom calling and ExpressTouch feature options into packages at rates which provide a monthly savings over the rates that would apply if the features were purchased individually.
- b. The packaged features are offered individually in Sections A13 E. and F. of this tariff. All descriptions, rules and regulations specified in those sections apply to these packages also.
- c. All packages will be offered on a where available basis.
- d. Individual features may not be available in all service areas. Therefore, package content may vary according to the technical availability of certain features. While package content may vary, the package pricing will remain the same. As the switches are upgraded and the features become available, they will be added to the packages.

2. Package Descriptions:

- a. Package 1 includes:
  - Enhanced Call Waiting
  - Three-Way Calling
  - Call Forwarding
  - Call **Forward Busy**-Fixed
  - Call Forward **No** Answer-Fixed

(T)  
(T)

- b. Package 2 includes:
  - Enhanced Call Waiting
  - Three-Way Calling
  - Return Call
  - Call **Forward Busy**-Fixed
  - Call Forward **No** Answer-Fixed

MISCELLANEOUS SERVICE ARRANGEMENTS

D. CUSTOM CALLING FEATURES

1. General

- a. Custom calling features consist of optional central office features which are intended to provide subscribers with a greater efficiency of the use of their telephone service.
- b. Custom calling features are limited to those areas served by electronically controlled central offices equipped for custom calling features, and will be offered as available.
- c. Custom calling features are furnished only in connection with individual line service and rotary line service when available, exclusive of pay telephone service.
- d. Call Forwarding services and Three-Way Calling Service contemplate that normal transmission performance quality cannot be guaranteed on all calls and cannot be effected in all instances depending on the distance and routing necessary to complete the call(s) involved.
- e. When custom calling features are furnished in connection with rotary line service, charges apply for each rotary line that the subscriber requests to be so equipped.

E. CUSTOM CALLING FEATURES (Cont'd)

~~1. General (Cont'd)~~

- ~~d. Call Forwarding services and Three Way Calling Service contemplate that normal transmission performance quality cannot be guaranteed on all calls and cannot be effected in all instances depending on the distance and routing necessary to complete the call(s) involved.~~
- ~~e. When custom calling features are furnished in connection with rotary line service, charges apply for each rotary line that the subscriber requests to be so equipped.~~

2. Feature Descriptions

- ~~a. **Call Forwarding Service** — This service provides an arrangement for transferring incoming calls to another local service telephone number by dialing a code and the number of the service to which calls are to be transferred. In addition, calls may be transferred to a toll service telephone number subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. Call Forwarding shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is ultimately transferred.~~

a. **Call Forward Features**

Call Forward Features permit the forwarding of incoming calls under a variety of conditions to another telephone number either by dialing an activation code or via pre-programming by the Company. Calls may be forwarded to any number subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. The customer subscribing to this service is responsible for applicable usage charges. Only one call forwarding arrangement, consisting of a single calling path, will be provided per exchange service line for which the customer subscribes to this feature.

Call Forward Features shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of usage charges that would regularly be applicable between the station originating the call and the station to which the call is ultimately transferred.

MISCELLANEOUS SERVICE ARRANGEMENTS

E. CUSTOM CALLING FEATURES (Cont'd)

2. Feature Descriptions (Cont'd)

- b. ~~Call Forward Don't Answer Service~~ — This service permits the automatic transfer of an incoming call to another local service telephone number when the called telephone remains unanswered for a predetermined number of rings, usually five or six.

~~In addition, calls may be transferred to a toll service telephone number subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. Call Forward Don't Answer shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part, of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is ultimately transferred.~~

- 1) ~~Call Forward Don't Answer Fixed~~ — This feature provides for calls terminating to the subscribers idle directory number to be forwarded, after a predetermined interval, to another telephone number. The customer selected forward to number is preprogrammed by the Company at the time service is established and can only be changed via service order.

a. **Call Forward Features** (Cont'd)

1. **Call Forwarding**

This feature permits the manual forwarding of incoming calls to another telephone number. When activated, all calls will forward; calls cannot be answered from a line with Call Forwarding activated. Call Forwarding overrides Call Forward No Answer and Call Forward Busy, but those features resume functionality when Call Forwarding is deactivated.

- a) Call Forwarding (FCF1FLC) – Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.
- b) Call Forward Fixed (FCF1FLC FIX) - Provides a customer the capability to control activation/deactivation of the service by using dialing tones. The customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.

2. **Call Forward No Answer**

This feature permits the automatic forwarding of an incoming call to another telephone number when the called telephone remains unanswered for a predetermined number of rings, usually four or five.

Where facilities are available, this feature also includes Call Forwarding of Call Waiting when the customer is also subscribed to Call Waiting or Enhanced Call Waiting. Call Forwarding of Call Waiting forwards unanswered waiting calls to a customer-designated telephone number using Call Waiting and Call Forward No Answer. An incoming call to a busy line first receives a Call Waiting tone. If the call is not answered within a set period of time, the incoming call is forwarded to a customer-designated telephone number.

- a) Call Forward No Answer-Fixed (FCD1FLC) – This feature is activated and the customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.
- b) Call Forward No Answer-Customer Programmable (FCD1FLC PRG) – Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.
- c) Call Forward No Answer-Customer Controlled (FCD1FLC CC) – Provides a customer the capability to control activation/deactivation of the service by using dialing tones. The customer selected forward-to

number is preprogrammed by the Company at the time service is established and can only be changed via service order.

E. CUSTOM CALLING FEATURES (Cont'd)

2. Feature Descriptions (Cont'd)

~~b. Call Forward Don't Answer Service (Cont'd)~~

~~2) Call Forward Don't Answer Customer Controlled — This feature provides a customer the Call Forward Don't Answer feature and the capability to control activation/deactivation of the service by using dialing tones. The service is activated/deactivated by dialing a code and the number of the service to which calls are to be transferred.~~

~~e. Call Forward Busy Service — The service provides an arrangement for transferring incoming calls to another predetermined local telephone number when the customer's line is already in use. In addition, calls may be transferred to a predetermined toll service telephone number subject to the availability of the necessary facilities in the central office from which the calls are to be transferred. Call Forward Busy shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is transferred. In addition, Call Forward Busy Customer Controlled shall not be utilized as a substitute for rotary line service to which the customer would otherwise subscribe. Therefore, business customers who subscribe to more than one access line on a single premises may not also subscribe to Call Forward Busy Customer Controlled. However, business customers with multiple lines at the same premises may subscribe to Call Forward Busy Fixed, as long as the forward to number is located at a premises other than the provisioned premises.~~

a. Call Forward Features (Cont'd)

3. Call Forward Busy

This feature permits the automatic forwarding of an incoming call to another telephone number when the called telephone is already in use. Call Forward Busy shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment of Rotary Line/Hunting Service.

a) Call Forward Busy-Fixed (FCB1FLC) — This feature is activated and the customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.

b) Call Forward Busy-Customer Programmable (FCB1FLC PRG) — Provides a customer the capability to control activation/deactivation and the forward-to number of the service by using dialing tones.

c) Call Forward Busy-Customer Controlled (FCB1FLC CC) — Provides a customer the

capability to control activation/deactivation of the service by using dialing tones. The customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.

## MISCELLANEOUS SERVICE ARRANGEMENTS

### E. CUSTOM CALLING FEATURES (Cont'd)

#### 2. Feature Descriptions (Cont'd)

##### ~~e.~~ **Call Forward-Busy Service** (Cont'd)

- ~~1) Call Forward-Busy-Fixed - This feature provides for calls terminating to the subscriber's busy directory number to be forwarded to another telephone number on a premises other than the provisioned premises. The customer selected forward-to number is preprogrammed by the Company at the time service is established and can only be changed via service order.~~
- ~~2) Call Forward-Busy-Customer Controlled - This feature provides a customer the Call Forward-Busy feature and the capability to control activation/deactivation of the service by using dialing tones. The service is activated/deactivated by dialing a code and the number of the service to which calls are to be transferred.~~

##### a. **Call Forward Features** (Cont'd)

#### 4. **Call Forward Remote Activation (FCG1FLC)**

This feature allows the Call Forwarding subscriber to change the Call Forwarding status of their telephone line from a remote location using a touch-tone telephone. To redirect Call Forwarding from a remote location, the subscriber dials a remote-access directory number. Once the subscriber's authorization code is verified, the subscriber can activate, deactivate, or change call forwarding to a new destination.

- ~~d b.~~ **Three-Way Calling Service** - This service permits an existing call to be held, and by dialing, a second telephone call can be established and added to the connection.

Three-Way Calling is available on a flat rate or a usage sensitive basis. The usage sensitive option is only available to residence and business single line customers. Under the usage sensitive option, the customer will incur an activation charge on a completed call. The provision of this service on a usage sensitive basis is subject to technical limitations and is provided on a where available basis.

MISCELLANEOUS SERVICE ARRANGEMENTS

E. CUSTOM CALLING FEATURES (Cont'd)

2. Feature Descriptions (Cont'd)

- f. **Enhanced Call Waiting** - This service combines the features of call waiting and the cancel call waiting feature which allows the customer to defer the call waiting feature to prevent call waiting tones from interrupting calls or disrupting data transmissions. Cancel call waiting can be activated before or during a call by dialing an access code and the cancellation stays in effect for the duration of the call. Incoming calls receive a busy signal while cancel call waiting is in effect.
- g. **Speed Calling Service (Abbreviated Dialing Service)** - This service permits a customer to call certain other predetermined telephone numbers by dialing an abbreviated code rather than the entire 7 or 10 digit telephone number. The arrangement available is an 8-number capacity (8-code).
- h. Reserved for Future Use ~~**Call Forward with Remote Activation**~~  
~~— This service allows customers who subscribe to Call Forward to access, activate, or deactivate Call Forward from a remote location using a touch-tone telephone. Call Forward with Remote Activation enable customers to change the destination of a telephone call by dialing an access code and a personal identification number assigned by the Company.~~

MISCELLANEOUS SERVICE ARRANGEMENTS

G. CUSTOM CALLING FEATURE PACKAGES

1. General

- a. Custom Calling Feature Packages combine certain custom calling and ExpressTouch feature options into packages at rates which provide a monthly savings over the rates that would apply if the features were purchased individually.
- b. The packaged features are offered individually in Sections A13 E. and F. of this tariff. All descriptions, rules and regulations specified in those sections apply to these packages also.
- c. All packages will be offered on a where available basis.
- d. Individual features may not be available in all service areas. Therefore, package content may vary according to the technical availability of certain features. While package content may vary, the package pricing will remain the same. As the switches are upgraded and the features become available, they will be added to the packages.

2. Package Descriptions:

a. Package 1 includes:

Enhanced Call Waiting  
Three-Way Calling  
Call Forwarding  
Call Forward-Busy-Fixed  
Call Forward-~~Don't~~ No Answer-Fixed

b. Package 2 includes:

Enhanced Call Waiting  
Three-Way Calling  
Return Call
