Executive Summary

This tariff filing extends availability of the Simultaneous Ring feature of Centrex service to Lucent 5E switches.

The Simultaneous Ring feature allows a subscriber to have multiple phone numbers ring when the subscriber's Centrex phone number is dialed. The first ringing phone to answer the call is connected to the calling party, while the calls to the other ringing numbers are released.

This feature is currently available only in Nortel and Siemens switches. This filing extends availability to Lucent 5E switches.
