Ms. Beth W. Salak, Director
Division of Competitive Markets and Enforcement
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Dear Ms. Salak:

Attached are new tariff pages filed to become part of the Verizon Florida Inc. General Services Tariff. For a list of impacted tariff sheets see Attachment A.

The purpose of this filing is to grandfather the current 3 year Term and Volume service for ISDN-PRI service. Verizon has recently introduced a 3 year Term and Volume service that offers customers desiring a 3 year term, much more competitive rates than they would get by purchasing the proposed grandfathered items separately. The Term and Volume packages include the features that are being grandfathered.

If you require additional information, please call Carlton Ball at (813) 483-2529.

Sincerely,
David M. Christian
Assistant Vice President
Regulatory Affairs Florida

VERIZON FLORIDA INC.
ISDN PRI
**Grandfathering of the PRI Access, Switched Facility, Voice/Data Measured
Rate Channel Activation for 3 year terms**

Executive Summary

Description of the Service

Integrated Services Digital Network-Primary Rate Interface (ISDN-PRI) Service provides digital access for integrated services between the customer's premises and the serving office via a 1.544 Mbps facility. ISDN-PRI denotes an end-to-end digital network capable of supporting a combination of public and private network access services. Integrated Services Digital Network (ISDN) - Primary Rate Interface (PRI) is an alternative for individual access services, such as Direct Inward Dialing (DID), Direct Outward Dialing (DOD), 800/877/888 Services, Wide Area Telecommunications Services, and local business trunks.

The Reasons for Grandfathering the Services

Verizon has introduced a 3 year Term and Volume service that offers customers that desire a 3 year term much more competitive rates than they would get by purchasing the proposed grandfathered items separately. The Term and Volume packages include the features that we propose to grandfather.

Customers Currently in Service

PRI Access – 3 Year Term Commitment = 180 customers

Switched Facility First System – 3 Year Term Commitment = 230 customers

Switched Facility Each Additional System – 3 year Term Commitment = 0 customers

Voice/Data Measure Rate Channel Activation – 3 Year Contract = 0 customers

Customer Notification

Customers that are affected by the grandfathering will be notified by the account teams when their existing contracts expire. They have several options open to them for PRI services, if they want to continue with the same service on a 3 year term they have the option to sign up for the new reduced rates for 3 year Term and Volume.
