Page Four

This filing changes the name of Centrex Service in Section A11 of the General Exchange Tariff to Centrex Service II, and expands its availability to include the former United Telephone Company exchanges. This filing also grandfathers the existing Section A12 Centrex Service, Enhanced Centrex Service, and ExpressTouch Centrex Features currently available to the former United Telephone Company exchanges.

Commission consideration and timely approval of these pages are respectfully requested. If you have questions or need additional information regarding this filing, please call Nancy Schnitzer at 850-599-1276.

Sincerely,

Mary L. Matthews

CENTREX SERVICE II

(T)  
(D)

A. CENTREX SERVICE II

(T)

1. General

- a. Centrex Service II is a central office communications system package provided on individual access lines from central office equipment located on Company premises. Centrex Service II is offered on a per customer premises basis at the following rates, terms and conditions. Customers subscribing to Centrex Service II with 26 or more Centrex access lines may, but are not required to, subscribe to Centrex Service II as a Special Service Arrangement as provided in Section A5.E. of this tariff. (T)
- b. Customer premises for the purposes of this tariff section is defined as a single or as multiple structures on the same customer's contiguous property and the Centrex Service II is provisioned via a single entrance facility and a single network interface device (NID). All cable, wires, facilities and customer premises equipment on the customer side of the NID are non-regulated and are the responsibility of the customer. (T)
- c. Centrex Service II is provided subject to the availability of facilities and central office equipment as determined by the Company. (T)
- d. Centrex Service II does not include terminal equipment on the customer's premises. Provision of the telephone instruments or other equipment is the responsibility of the customer. Some features require customer provided customer premises equipment (CPE). (T)
- e. Directory listings are furnished in accordance with the rates and regulations specified in Section A6 of this tariff. (T)
- f. Service Ordering Charges as specified in Section A4 of this tariff apply to the services offered in this section and are in addition to the Centrex Service II Establishment Translation Charge in this section of the tariff. For feature changes after the initial installation, the Secondary Service Ordering Charge will apply in addition to applicable nonrecurring charges. (T)
- g. The minimum service period for Centrex Service II is one month. For customers with contracts prior to May 10, 2002, if at any time during the contract period the Company increases the monthly recurring rates for the service, the customer may terminate the service without incurring any early termination liability. (T)

Cancelling Third Revised Sheet 2  
Effective: December 1, 2006

CENTREX SERVICE II

(T)  
(D)

A. CENTREX SERVICE II (Cont'd)

(T)

1. General (Cont'd)

h. The quality of transmission for calls utilizing call forwarding or conferencing may vary depending on the distance and routing involved.

i. Directory Assistance charges, as specified in Section A3 of this tariff, apply to the services offered in this section.

j. Call Forward/Busy - Call Forward/Busy shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is transferred.

k. Temporary Suspension of Service (Vacation Service), as specified in Section A2 of this tariff, is not allowed for Centrex Service II.

(T)

l. Not all Centrex Service II features are compatible. Some combinations of features will not work when applied on the same line.

(T)

m. Other services requested by the customer will be provided in accordance with applicable tariff sections.

n. **Centrex Service II cannot terminate into a Key or PBX System.**

Cancelling First Revised Sheet 2.1  
Effective: December 1, 2006

CENTREX SERVICE II

(T)  
(D)

A. CENTREX SERVICE II (Cont'd)

(T)

1. General (Cont'd)

- p. The assignment of telephone numbers and the sequence of the numbers assigned to a Centrex Service II are made at the discretion of the Company. The Company does not guarantee to provide telephone numbers arranged in a consecutive manner. If the customer requests telephone numbers under a special numbering arrangement to be terminated in a Centrex customer group, then additional recurring and non-recurring charges may apply as determined on an Individual Case Basis (ICB) per Section A5. (T)
- q. Centrex Service II is not provided in association with local measured service and is not available on residential lines. (T)
- r. All exchange access lines terminating in a Centrex system must be served by the same central office or associated remote switch. Centrex access lines may be provided as Foreign Exchange (FX) Service or Foreign Central Office (FCO) at the rates and charges specified in Section A9 of this tariff.
- s. The rates and charges applicable to Extended Area Service (EAS), Extended Calling Scope (ECS), TOLL-PAC and 25/25 Plan, as specified in Section A3 of this tariff also applies in addition to the rates and charges applicable to Centrex Service II. Optional Extended Local Calling (OELC) and OEAS are not available to Centrex Service II. (T)

CENTREX SERVICE II

(T)  
(D)

A. CENTREX SERVICE II (Cont'd)

(T)

2. Definitions

ABBREVIATED DIALING<sup>1</sup>

Allows a station abbreviated dialing (i.e., 3, 4, or 5 digit dialing) to other station members within the same customer group.

AUTO ANSWER BACK<sup>1</sup>

Allows any incoming call to the Primary Directory Number of the set to be automatically answered after four seconds. Compatible only on a digital, hands free business set.

AUTOMATIC CALL DISTRIBUTION (ACD)<sup>2</sup>

Automatic Call Distribution is a digital central office service that provides advanced call distribution and queuing capabilities as an integrated function of Centrex **Service II**. The customer must subscribe to and maintain a minimum of two Automatic Call Distribution positions and at least one Automatic Call Distribution group.

(T)

AUTOMATIC LINE<sup>2</sup>

Provides an automatic connection between a calling station that goes off-hook and a predetermined location. Available on MDC sets only.

CALL FORWARD - UNIVERSAL, BUSY, AND NO ANSWER<sup>1</sup>

Allows a customer to have incoming calls to a station automatically forwarded to a predetermined telephone number, either on all calls and/or busy calls and/or calls not answered.

CALL HOLD<sup>1</sup>

Allows the user to hold one call for any length of time by flashing and dialing a special code providing neither party goes "on-hook"; the station line is then free to originate another call. Dialing the hold code a second time retrieves the first call.

CALL PARK<sup>1</sup>

Allows a station to park a call against its own directory number. The parked call can be retrieved from any station by dialing a feature access code and the directory number against which the call is parked.

1. Standard feature

2. Optional feature

(T)

2. Definitions (Cont'd)

CALL PICK-UP<sup>1</sup>

Allows a station to answer incoming calls to another station within a pre-set pick-up group. Calls are answered according to the member who has been ringing the longest.

CALL TRANSFER<sup>1</sup>

Allows a station to transfer an incoming call to another user.

CALL WAITING<sup>1</sup>

Informs a station user by tone, while on an established call, that a second call is waiting.

CLASS OF SERVICE RESTRICTIONS<sup>2</sup>

Defines the specific features and calling patterns available to stations and attendants within a customer group. Access code restrictions can be set up to restrict stations and attendants from trunk types such as local, toll, DID, and WATS. The following options are available:

Fully Restricted Service – Allows intragroup dialing only, must dial 9

Toll Restricted Service – Allows intragroup and local dialing only, must dial 9

Unrestricted Service – Allows full access to all facilities, must dial 9

Unrestricted Assume Dial 9 – Same as unrestricted; however, user cannot utilize abbreviated dialing

Note: 900 and 976 block available with all options

DIRECT INWARD DIALING<sup>1</sup>

This service allows for incoming calls from the exchange network to reach a specific station. The calling party dials the seven-digit directory number to reach the station.

DIRECT OUTWARD DIALING<sup>1</sup>

With this service, a Centex station user can place external calls to the exchange network by dialing the access code (usually the digit 9) receiving an optional second dial tone, then dialing the number.

(T)

2. Definitions (Cont'd)

DISTINCTIVE RINGING<sup>1</sup>

Produces a different ringing cadence for calls within and outside the customer group. One (1) long ring for internal calls, two (2) short rings for external calls.

LAST NUMBER REDIAL<sup>1</sup>

Enables the subscriber to redial the last called number by pressing a single key rather than dialing the entire number.

MEET-ME-CONFERENCE<sup>2</sup>

Allows up to six (6) conferees to hold a conference call by dialing a pre-determined directory number at a specified time.

MULTIPLE APPEARANCE-DIRECTORY NUMBER (MADN)<sup>2</sup>

A directory number that is assigned to more than one station may be arranged as a single business set or per customer group.

MUSIC-ON-HOLD<sup>2</sup>

Provides the music-on-hold capability to calls that terminate on business sets within a customer group. When a call is put on hold, the caller hears music, announcement, silence, or a combination of the three treatments. Music source can be provided by the subscriber or the central office and requires an additional Centrex line to do so.

RING AGAIN<sup>1</sup>

Allows a station user encountering a busy station to be notified when the busy station becomes idle and to be placed automatically in a ring-again mode.

- 1. Standard feature
- 2. Optional feature

(T)

2. Definitions (Cont'd)

SECONDARY DIRECTORY NUMBER<sup>2</sup>

Directory number not associated with a line, but assigned for use with priority hunting.

SPEED CALL LONG - CUSTOMER GROUP (30)<sup>2</sup>

Allows user to store up to 30 frequently dialed numbers and be called using a 2-digit code.

SPEED CALL LONG - CUSTOMER GROUP (50)<sup>2</sup>

Allows user to store up to 50 frequently dialed numbers and be called using a 2-digit code.

SPEED CALL SHORT (10)<sup>1</sup>

Allows user to store up to 10 numbers that can be dialed automatically by using single digit codes.

STATION CONTROL CONFERENCE<sup>2</sup>

Enables a Centrex station user to establish a conference call consisting of up to thirty (30) conferees without the assistance of the attendant.

STATION HUNTING (sequential, circular, multiline)<sup>1</sup>

When a called access line is busy, the call will be routed to a vacant (if available) access line in the hunt (rotary) group.

THREE-WAY CONFERENCE WITH CONSULTATION HOLD AND TRANSFER<sup>1</sup>

Allows a station to include a third party in a call and optionally to transfer the call to the third party and performs consultation hold.

UNIFORM CALL DISTRIBUTION (UCD)<sup>2</sup>

This service allows for an even distribution of incoming calls to a listed directory number over a group of Unity or other 500/2500 type sets. Each station has its own directory number. Included with this feature is the provision of message announcement for calls in queuing. The customer will be responsible for providing the compatible tape and the announcement.

CENTREX SERVICE II

(T)  
(D)

A. CENTREX SERVICE II (Cont'd)

(T)

4. Term Discount Plan (TDP)

- a. Term Discount Plans (TDPs) are available for Centrex Service II. TDPs provide the customer with discounted rates. The customer agrees to a minimum service commitment period for Centrex Service II when the TDP is established. The customer must order a TDP in writing to the Company. A TDP may be ordered based on the following plan options:

Plan A: 12 months  
Plan B: 36 months

- b. The customer must specify the length of the initial service period at the time the service is ordered. When a customer converts to a TDP, no Centrex Service II Establishment Translation Charge is applied toward Centrex facilities in-service at that time. If a customer moves from a month to month plan to a TDP, or upgrades from a 12 month TDP to a 36 month TDP, then no Centrex Service II Establishment Translation Charge is applied. (T)
- c. If a TDP customer disconnects service prior to the end of the TDP, the customer is liable for 100% of the payments remaining for the rest of the term plan. If Special Construction Charges were applied to the service being terminated, any termination charges associated with Special Construction Charges will also apply. (T)
- d. Rate increases or decreases will automatically be applied to the monthly term plan rates for the remaining term of the TDP. If Company initiated rate increases to any rate element or combination of rate elements causes the charges for the entire Centrex Service II under the TDP to increase by 10% or more annually, then the customer may cancel the TDP without incurring termination liability charges provided that the customer notifies the Company within 30 days after the effective date of the rate increase. (T)
- e. TDP commitment periods can be extended by the customer at any time during the term of the plan, up to a maximum of 36 months. The number of months accrued in the current plan will apply toward the new plan selected.
- f. At the end of the TDP service commitment period, the customer may subscribe to a new TDP at the prevailing rates set forth in Section A11.A.5. following. At the end of the TDP service commitment period there is no automatic renewal of the TDP, so the rates will convert to the prevailing month to month rates unless the customer selects a new TDP.
- g. Customers under a TDP who change physical locations will not be subject to termination charges if the customer subscribes to a new Centrex TDP at the new location.
- h. Special Construction Charges may apply as specified in Section A5.

a. Monthly Rates

	<u>Category 1</u>	<u>Category 2</u>	(C)(D)
<b>1) Business, Centrex Line</b>			
<b>Month-to-Month</b>	<b>\$32.00</b>	<b>\$37.00</b>	
<b>One Year Term</b>	<b>29.00</b>	<b>33.00</b>	
<b>Three Year Term</b>	<b>27.00</b>	<b>31.00</b>	(C)(D)

b. Centrex Service II Establishment Translation Charge

(T)

The charge for performing the central office translation associated with configuring a Centrex customer's network parameters.

- 1) Applies to each Centrex customer group translation activity performed.

Nonrecurring Charge (per Centrex customer group)      \$50.00

- 2) Service Ordering Charges as specified in Section A4 of this tariff apply to the services offered in this section and are in addition to the Centrex Service II Establishment Translation Charge.

c. Feature Changes After Initial Installation

- 1) Nonrecurring Charge (per line)      \$10.00  
Maximum charge of \$50 per order.

- 2) For feature changes after the initial installation, the Secondary Service Ordering Charge will apply in addition to applicable nonrecurring charges.

- 3) This applies to both standard features and optional features.

- d. Subscriber Line Charge (SLC)/End User Common Line Charge (EULC) is applicable and will be billed on a per line basis. For rates see Subscriber Line Charge/End User Common Line Charge in Section 4 of the Interstate Access Tariff.

CENTREX SERVICE II

(T)  
(D)

C. EXPRESSTOUCH CENTREX **SERVICE II** FEATURES

(T)

1. General

ExpressTouch Centrex **Service II** features are central office call management features offered to Centrex customers in addition to the optional features offered previously in this section of the tariff.

(T)

2. Regulations

a. The following regulations apply to the features listed in 3. following:

1) ExpressTouch Centrex **Service II** features are provided subject to the availability of facilities. Additionally, the features described will only operate on call originating and terminating within the Custom Local Area Signaling Services (CLASS) serving areas.

(T)

2) In no event shall the Company be held liable for any losses or damages arising from the unavailability or failure of its equipment or facilities, or for any act, omission or failure of performance by the Company or its employees or agents in connection with this service.

b. The following regulations apply to the Caller ID feature only, in addition to the regulations listed in a. preceding.

1) If an incoming call is from a caller utilizing a PBX trunk or a rotary line group, the telephone number displayed may be the main number of that PBX or rotary group rather than the directory number accessed by the caller.

Effective: December 1, 2006

CENTREX SERVICE II

(T)  
(D)

C. EXPRESSTOUCH CENTREX **SERVICE II** FEATURES (Cont'd)

(T)

2. Regulations (Cont'd)

- b. The following regulations apply to the Caller ID feature only, in addition to the regulations listed preceding.
  - 2) The Company will deliver all numbers, subject to the technical limitations defined in this tariff, including telephone numbers associated with Nonpublished Listing Service as described in Section A6 of this tariff.
  - 3) Telephone numbers transmitted via Caller ID are intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by the tariff.
  - 4) Calling numbers will not be displayed on operator-handled calls, access lines where Calling Number Delivery Blocking has been activated, or with calls originating outside of the CLASS serving area.

3. Features

- a. Repeat Dialing - When activated, Repeat Dialing automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed and the caller will be notified with a distinctive ring.
- b. Return Call - Return Call enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered.
- c. Caller ID - this feature enables the customer to view on a display unit the directory number of an incoming telephone call. The display unit may be an ancillary device which is attached to the customer's telephone set or may be a special telephone set with the display unit built-in. The calling number will display between the first and second ring.
- d. Calling Number Delivery Blocking - This service is provided at no charge to the subscriber. The service will be provided as described in Section A13.

Effective: December 1, 2006

CENTREX SERVICE II

(T)  
(D)

C. EXPRESSTOUCH CENTREX **SERVICE II** FEATURES (Cont'd)

(T)

3. Features (Cont'd)

e. Call Tracing

- 1) Call Tracing enables the customer to initiate an automatic trace of the last call received. A usage charge will be assessed on a per-occasion basis for each successful trace made. A trace is considered successful when the customer is informed by the voice response unit that the Call Tracing has been successfully completed. Certain types of calls, i.e., out of the area long distance, cannot be traced using this feature.
- 2) Upon activation by the customer, the call tracing information (calling and called number, the time the call was received, and the time the trace was activated) is recorded and stored until requested by an authorized law enforcement agency. The information collection process is instantaneous and the customer using the feature will be notified immediately if the trace was successful and will then be instructed to contact the local law enforcement agency if they wish to file a complaint. The customer is not provided the traced number.
- 3) If the customer receives another call prior to activating the trace, or receives a Call Waiting indication during the call to be traced, Call Tracing will record the last call, which may not be the call the call trace activation was intended to record.

- f. Call Tracing Denial - This service allows the Call Tracing feature to be blocked. To initiate the blocking feature, the customer must contact the Company. The Company will then install the blocking feature on the customer's line. The blocking feature cannot be deactivated by the customer. This feature is provided at no charge to the customer.

4. Rates and Charges

Per Line	Monthly Rates
a. Return Call	\$ 2.50
b. Repeat Dialing	2.00
c. Caller ID	5.50

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS

(D)

A. STATE OF FLORIDA ELECTRONIC SWITCHED NETWORK (SUNCOM)

(T)

1. General

- a. SUNCOM is an Electronic Switched Network (ESN) which provides a private telephone communications network for the government and agencies of the State of Florida as authorized by the State of Florida, Department of General Services.
- b. SUNCOM is provided by the Company within the Fort Myers Market Area (LATA) through an ESN digital switching node which controls switching for all State communications within the Fort Myers Market Area (LATA).
- c. The provision and maintenance of the SUNCOM network within the Fort Myers Market Area (LATA) is by agreement between the Company and the State of Florida, Department of General Services.
- d. Appropriate rules and regulations as specified in this section and other sections of this tariff are applicable to the SUNCOM network.

2. SUNCOM Network Switching Services

- a. ESN Common Equipment - the Fort Myers switching node will be served by the Company's digital central office equipment.

- (D)
- A. STATE OF FLORIDA ELECTRONIC SWITCHED NETWORK (SUNCOM) (Cont'd) (T)
2. SUNCOM Network Switching Services (Cont'd)
- b. Network Control Center (NCC) Interface - an arrangement which will connect the SUNCOM switcher to the State's Network Control Center in Tallahassee. The NCC Interface includes the necessary central office equipment, an information processor and two data modems.
- c. Station Message Detail Recording (SMDR) Redundancy - the Company will store a maximum of three days of SUNCOM SMDR data. The stored data will be retrieved and transferred to magnetic tape at the request of the State. The tape will be in SMDR format.
3. Rates and Charges
- a. The non-recurring and monthly rates shown below are applicable for the Fort Myers node of the SUNCOM ESN. These rates are for the ESN service only and are in addition to the monthly charges for access lines, trunks, WATS, Centrex, private lines or any other facilities used in the provision of service at rates as specified in other sections of the tariff.
- b. A charge equal to a telephone number change charge will be applicable for customer requested changes in class-of-service, authorization codes and routing.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

A. CENTREX SERVICE

(O)

1. General

- a. Centrex Service is a central office communications system package provided in association with individual line exchange business and residence services furnished where available from digital central office equipment located in Company buildings. Centrex is not provided in association with PBX trunks or pay telephone service.
- b. Centrex is offered as a customer option and may be provided subject to the availability of facilities and central office equipment as determined by the Company.
- c. A combination of business and residence lines in a Centrex system is not permitted. All exchange lines in a Centrex system must be of the same type, i.e., must be either flat rate or measured service, and must be billed to the same account.
- d. Centrex provides for a system accommodating from one to twenty-five central office lines. All exchange access lines terminating in a Centrex system must be served by the same central office.
- e. Suspension of service as provided in Section A2 of this Tariff, is permitted in connection with Centrex.
- g. The quality of transmission for calls utilizing call forwarding or conferencing may vary depending on the distance and routing involved.
- h. Customer premises equipment associated with this service is provided by the customer.
- i. Payment Plans
  - 1) A minimum term payment plan of twelve months shall be applicable to Basic Centrex Systems.
  - 2) The termination liability for the Basic Centrex System is such that if a subscriber terminates their Centrex service prior to the expiration of the twelve month period, the subscriber shall immediately pay a termination liability in the amount of 100% of the monthly charges remaining in that twelve month period.
  - 3) At the expiration of the 12 month service period, the subscriber's service period will automatically renew for successive periods of 12 months each at the then current tariff rates, unless the subscriber provides written or verbal notice of termination at least thirty (30) days in advance of any scheduled renewal.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

A. CENTREX SERVICE (Cont'd)

2. Basic System

a. Standard Features

1) Call Hold

Allows a station user to place a call on hold by flashing the switchhook and dialing a code.

2) Call Pickup

Allows a station user to answer another station user's incoming call within a defined group by dialing a code.

3) Ring Again (Camp On)

Allows a station user encountering a busy station, within the same station group, to be notified when the busy station becomes idle and to be placed automatically in a ring again mode.

4) Station-To-Station Calling

Allows stations within a group to complete calls to other stations within the same group without the assistance of an attendant, by dialing a 2 through 7 digit number.

5) Three-Way Conference/Transfer/Consultation Hold

Allows a station user to establish three-way conference calls and provides the capability to transfer incoming, outgoing, and intragroup calls. The user may also place a call on hold to consult privately with a third party.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

A. CENTREX SERVICE (Cont'd)

(O)

2. Basic System (Cont'd)

b. Optional Features

1) Call Forward - Don't Answer

Allows for forwarding of an incoming call to a preselected line within the system when the called line does not answer after a predetermined number of rings.

2) Call Forward - Busy

Allows for forwarding of an incoming call to a preselected line within the system when the called station is in use.

3) Call Forwarding

Allows all calls to a line equipped with Centrex to be automatically forwarded to a selected line within the system or outside the system.

4) Call Waiting

Provides the station user, who is busy on an existing call, with a private tone signal which indicates that another call is waiting. The station user may then ignore the waiting call; or terminate the original call and answer the waiting call; or, through the use of switchhook flashes, put the original call on hold and receive the waiting call; or alternately talk on both calls until one is terminated. (This feature cannot be utilized if Call Forward - Busy or Call Forward - Don't Answer is activated.)

5) Class-of-Service Restrictions

Provides the ability to allow or deny all calls originating or terminating on individual stations and tie trunks. Three types are offered.

a) Fully Restricted Service - stations are denied access to the exchange network.

b) Toll Restricted Service - restricts stations from toll calls.

c) Unrestricted Service - no restriction on calls.

6) Station Controlled Conference

Allows a station user to establish a conference call consisting of three to six conferees.

7) Meet-Me-Conference

Provides one six-party conference bridge and directory number for conferees to dial at a specified time to hold a conference.

(O)

(O)

2. Basic System (Cont'd)

b. Optional Features (Cont'd)

8) Speed Call - Station

Allows a station user to reach frequently dialed numbers by dialing an abbreviated code.

- a) Speed Call 10 - 1-10 telephone numbers
- b) Speed Call 30 - 1-30 telephone numbers
- c) Speed Call 50 - 1-50 telephone numbers

9) Speed Call - Group

Provides all lines with the ability to dial telephone numbers from a group list by dialing an abbreviated code.

- a) Group Speed Call 30 - up to 30 telephone numbers
- b) Group Speed Call 50 - up to 50 telephone numbers

10) Automatic Line

A predetermined telephone number is automatically dialed when the station handset is taken off-hook.

11) Call Park

Allows a station user to put the call on hold and then retrieve the call at another extension.

12) Station Hunting

Provides Directory Number Hunt, Circular Line Hunt and Multi-line Hunt arrangements.

13) Off-Premises Extension Station

Permits access to Centrex features for a station that is located off the customers premises but within the same central office.

14) Centrex Toll Free Code (TFC) Service

A feature designed to meet the needs of Centrex customers who utilize TFC Service by providing the TFC Service connection to Centrex equipped lines in the serving central office.

(O)

(O) Material now appearing in this section formerly appeared in Section A12.

15) Centrex OUTWATS

A feature designed to meet the needs of Centrex customers who utilize OUTWATS by providing the OUTWATS connection to Centrex equipped lines in the serving central office through dial access.

16) Centrex OUTWATS/Callback Queue

A feature designed to meet the needs of Centrex customers who utilize OUTWATS by providing the OUTWATS connection to Centrex equipped lines in the serving central office through dial access. The queue feature allows the central office to signal a waiting OUTWATS user when the line is available.

17) Multiple Appearance Directory Number (MADN)

Permits the assignment of a directory number to more than one business set.

Multiple call arrangement - allows simultaneous use of more than one business set with the same directory number.

Single call arrangement - allows only one business set with the same directory number to be used at any given time.

18) Auto Answer Back

An incoming call is automatically answered through a hands free unit after four seconds.

19) Fictitious Directory Number

Permits the assignment of more than one directory number to the same station line.

20) Music-On-Hold

Provides music to the calling party while on hold. This feature is only available in central offices which currently have music sources.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

**B. ENHANCED CENTREX SERVICE**

(O)(T)

1. General

a. Enhanced Centrex is furnished from digital central office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features:

- 1) Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) of exchange and long distance message network calls to and from stations and attendant positions of an Enhanced Centrex system.
- 2) Intercommunication calls between stations of the same Enhanced Centrex system.
- 3) Identified Outward Dialing (IOD), by station number of outgoing long distance message calls dialed by a station. Only calls billed to the subscriber by this Company will be provided this identification.
- 4) Common recorded announcement interception of calls to unassigned station numbers.
- 5) Basic Station Line Hunting.

b. Enhanced Centrex Service, terminating at a single customer premises location, will be furnished in two categories, based on the size of the subscriber's system.

- 1) Systems with 26-75 Station Lines.
- 2) Systems with 76-150 Station Lines.

(O)

(O) Material now appearing in this section formerly appeared in Section A12.

**B.** ENHANCED CENTREX SERVICE (Cont'd)

(O)(T)

1. General (Cont'd)

c. An Enhanced Centrex System may be comprised of the following components:

- Common Equipment
- Network Access
- Main Station Lines
- Terminating Arrangements
- Features

The Common Equipment, Network Access, Main Station Lines and Features components will be included in every system.

The Common Equipment, Network Access and Terminating Arrangements will be at the rates and charges as specified in **B.** 7. of this section of the tariff.

(T)

Main Station Line rates will consist of the intercom charge and the appropriate wire center line mileage charge. These charges are located in **B.** 8. of this section of the tariff.

(T)

2. Regulations

- a. Enhanced Centrex service is furnished subject to the availability of facilities and features from digital central office equipment, located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions. Major additions to and/or major relocations of Enhanced Centrex systems are subject to the same rules and regulations as initial installations.
- b. Certain auxiliary services are available on an individual main station line basis and are subject to the capabilities of the serving central office.
- c. Optional Service Features as listed in **B.** 9. include Attendant Features and Auxiliary Attendant Features. These features may require customer provided compatible terminal equipment.
- d. All console functions by the attendants at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
- e. All Enhanced Centrex main station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with Enhanced Centrex service.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

**B. ENHANCED CENTREX SERVICE (Cont'd)**

(O)(T)

2. Regulations (Cont'd)

- f. Tie lines for direct connections between a basic Enhanced Centrex system and other systems are provided primarily for communication between stations of the two systems. In such cases, rates and charges for tie line service as specified in A13 of this Tariff and miscellaneous line termination charges apply. In addition, these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the Enhanced Centrex system to or from other systems provided such connections to the exchange or long distance network are only made at one system at a time.
- g. Where completion of incoming and outgoing local and long distance calls through an Enhanced Centrex system is furnished to or from main station lines of a separate Enhanced Centrex system in another exchange, the charges applicable for the following features apply in addition to the regular charges for the facilities connecting the systems.
  - 1. Rates and charges as specified in Section B3 of the Southern Bell Private Line Service Tariff apply to miscellaneous lines furnished with unique access codes (trunk level access).
  - 2. Enhanced Centrex optional feature charges as outlined in Section **B. 9** apply for each trunk terminated main station line as offered in Section **B. 7** of this Tariff, as appropriate.
- h. A system may not be provided for Intercommunication (stand alone) service only. Access to the Exchange Network must be provided.
- i. A combination of Flat Rate and Message Rate Service will not be allowed within a single customer system except as provided in Section A2 of this tariff.
- j. Suspension of Enhanced Centrex Service as described in A2 will be permitted.
- k. A twelve month minimum term payment plan shall be applicable to Enhanced Centrex systems.
- l. Directory Listings will be furnished subject to the rates and regulations specified in Section A6 of this Tariff

Director

Original Sheet 14  
Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

**B.** ENHANCED CENTREX SERVICE (Cont'd)

(O)(T)

2. Regulations (Cont'd)

- n. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of an Enhanced Centrex system is limited by the number of Network Access Registers subscribed to by the customer. Each Network Access Register may be arranged for two-way, one-way incoming or one-way outgoing operation depending upon the option of the customer at the time the Network Access Register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charges as specified in Section A4 of this Tariff apply per Network Access Register affected.
- o. Service charges, as specified in Section A4 of this Tariff, apply to all Enhanced Centrex systems except as provided in **B.** 5. of this Tariff.
- p. Enhanced Centrex installation charges are due on initial installation or subsequent additions unless deferred over a predetermined period of time as specified in Section A22 of this Tariff.
- q. Enhanced Centrex main station lines may be restricted from dialing three-digit central office and service codes by applying Code Restriction to the line. The three-digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Dial-It type pay-to-listen services (e.g., 900 and 976 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 101XXXX). InterLATA calls dialed 0- (operator handled) calls cannot be restricted.
  - 1) At the time a Code Restriction arrangement is installed, the Enhanced Centrex system will be arranged for the Code Restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition or removal of code restriction on a main station line, the appropriate Service Charges as specified for a change in line termination apply per main station line affected. No such charges apply when the Code Restriction arrangement is disconnected in its entirety.
  - 2) Where Code Restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code.
  - 3) Code Restriction arrangements to deny access to Directory Assistance and/or Public Announcement Services are not guaranteed. These features are intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged for in the normal manner.
- r. The first system established per customer within a central office must consist of a minimum of twenty-six (26) main station lines.

(O)(T)

3. Definitions

ACCESS LINES TO CUSTOMER PROVIDED FEATURES

Allows dial access from Enhanced Centrex service for connection to customer provided features. (Code Calling, Loudspeaker Paging, Radio Paging, Dictation and Music)

ATTENDANT AUTODIAL

This feature permits an attendant to dial frequently called numbers by depressing the Autodial feature key, which is programmed with the number.

ATTENDANT CAMP-ON AND CAMP-ON MODE OPTIONS

This feature allows incoming listed number calls, which the attendant attempts to complete to a busy main station line, to be held waiting and then automatically connected when the called main station line becomes available. An indication of camp-on will be given to the busy main station line each time the attendant attempts a completion.

ATTENDANT CONFERENCE

Using a six-port conference circuit, an attendant may interconnect up to five conferees on one call. The sixth port is required for attendant access.

ATTENDANT GROUP TRUNK ACCESS CONTROL

This feature utilizes special keys on the customer provided attendant console to serve as a common interface for trunk group busy and trunk group access for all trunk groups allocated to the customer group.

ATTENDANT POSITION

Customer-provided terminal equipment utilized for attendant control and call connecting functions.

ATTENDANT RECALL TIMER

This feature returns attendant-extended calls to a main station to the attendant after a prescribed waiting period if the main station user is unable to answer.

ATTENDANT SERVICE

Incoming calls to the main listed number are answered by an attendant, who may complete the call to the desired main station line by means of the Call Transfer feature. An unrestricted or semi-restricted main station line user may dial the attendant over attendant lines to secure help in the completion of an outgoing call by means of Dial "O" calling.

3. Definitions (Cont'd)

**AUTOMATIC CALLBACK/RING AGAIN**

Automatic Callback permits a main station line user who attempts an intercommunication call to a busy main station line to be automatically connected to that line when both called and calling lines are subsequently idle.

**AUTOMATIC LINE**

See Direct Connect Number.

**AUTOMATIC ROUTE SELECTION**

Automatic Route Selection is an optional feature, available where facilities permit, that allows station users, by dialing a preselected code to automatically select the preferred route subscribed for by a customer for network calls. Alternate routing to other facilities, subscribed to by the customer, is also provided. This arrangement is available for use with Foreign Exchange (FX), WATS, CCSA off-net, tie lines and Interexchange Carrier (IC) access lines which are compatible with Automatic Route Selection and toll network facilities.

**BASIC TERMINATIONS**

See Miscellaneous Line Terminations.

**CALL-BACK QUEUE**

See Queuing.

**CALL FORWARDING - ALL CALLS**

Automatically routes all incoming calls to the attendant or a predetermined telephone number.

**CALL FORWARDING-BUSY LINE**

Automatically routes calls to the attendant or preselected main station line when the called main station line is busy.

**CALL FORWARDING-NO ANSWER**

Automatically routes calls to the attendant or preselected main station line when the called main station line doesn't answer within the preset ringing cycle.

3. Definitions (Cont'd)

CALL HOLD

Allows a main station line user to place any call involving their main station line on hold by flashing and dialing a special code. The main station line is then free to originate another call. The first call is retrieved by dialing the hold code a second time.

CALL PARK

Call Park allows the attendant to park calls against any directory in the attendant customer group. The parked call may be retrieved from any station by dialing the feature access code for retrieval plus the directory number.

CALL PICKUP

Allows a main station line user to answer calls directed to another main station line within the same preset call pick-up group.

CALL TRANSFER

Call Transfer provides for the transfer of calls by an Enhanced Centrex station. The Call Transfer feature is needed in addition to Three-way Calling if the station's type of call transfer is different from the call transfer type selected for the customer's group.

CALL WAITING-DIAL

The Dial Call Waiting feature provides the ability for originating main station lines to invoke call waiting service on selected intragroup calls by dialing an access code followed by the extension number of the main station line to be call waited.

CALL WAITING-EXEMPT

Prevents the Call Waiting-Originating or the Dial Call Waiting features from being imposed on the line when the station is busy.

CALL WAITING-ORIGINATING

Allows an equipped main station line to send the Call Waiting tone to any busy main station line in the same system.

CALL WAITING-TERMINATING

Informs a busy main station line, when the main station line is so equipped, that an incoming call is waiting (burst of tone). Permits holding the present connection while answering the new call then return to the original connection.

B. ENHANCED CENTREX SERVICE (Cont'd)

(O)(T)

3. Definitions (Cont'd)

CODE RESTRICTION ARRANGEMENTS

A Code Restriction Arrangement automatically denies a portion of all main station lines of a Enhanced Centrex system direct outward dialing access to one or more three-digit codes within the local calling area in which the system is located. Code restriction provides a distinctive tone to indicate that access is not permitted on call attempts.

CONFERENCE CALLING-STATION

Allows a main station user to establish a conference connection of up to six conferees (including the originator) without the aid of the attendant.

CONSULTATION HOLD-ALL CALLS

Allows a main station user to place a call on hold by depressing the switchhook, at which time dial tone is returned. The station user may then proceed to establish connection with another internal station or outside party, and after speaking with the "consulted" party, the station user may (1) return to the call initially held, (2) depress the switchhook thereby effecting Add-On Conference or (3) hang up and effect transfer of the initial call to the consulted party.

CUSTOMER GROUP

A Customer Group is that portion of the memory storage in the serving central office that contains the features for a specific system.

DATA CALL PROTECTION

Data Call Protection prevents calls from being interrupted by call waiting tones, testing or busy verification attempts. Data call protection is not customer changeable and lines assigned this feature may not utilize call transfer or conference capabilities.

DIAL "O" CALLING

Dial "O" Calling permits a main station line user to reach an attendant position by dialing the single digit "O".

DIAL CODE SENDING (CODE CALLING) FEATURE

Code Calling provides dial access to customer-premises located code calling equipment by main station line, attendant access and tie lines of an Enhanced Centrex system. The dialed two or three digit code activates signaling devices on the customer's premises to produce a coded signal corresponding to the dialed code. The called party, upon recognition of the signal, is automatically connected to the calling party by dialing a special code from any main station line in the system.

3. Definitions (Cont'd)

DIAL THRU ATTENDANT

This feature allows main station line users to complete dialing on other than station-to-station calls after the attendant selects the trunk facility.

DIRECT CONNECT NUMBER/AUTOMATIC LINE

Station specially programmed to dial a predetermined telephone number when the station user goes off-hook.

DIRECT INWARD DIALING

Incoming calls from the exchange or toll network may be dialed directly or any called main station line served by the Enhanced Centrex main switching equipment without the help of an attendant.

DIRECT OUTWARD DIALING

Outward calls may be dialed directly from any unrestricted main station line served by the Enhanced Centrex main switching equipment without the help of an attendant.

DIRECTED CALL PICK-UP - NONBARGE-IN

The Directed Call Pick-Up - Nonbarge-In feature allows a main station line user to pick up an unanswered call to another main station line equipped with Directed Call Pick-Up by dialing a special answer code plus the number of the main station line being rung. If the main station line being rung has already answered, busy tone will be returned to the main station line user dialing the answer code and station line number.

DIRECTED CALL PICK-UP -NONBARGE-IN EXEMPT

Directed Call Pick-Up - Nonbarge-In Exempt allows a station to be exempt from Directed Call Pick-Up Non-Barge In.

DIRECTORY NUMBER HUNTING

See Station Hunting Arrangements

DISTINCTIVE CALL WAITING TONES

Distinctive Call Waiting provides different tones for an incoming waiting call depending on whether the incoming call is internal or external.

3. Definitions (Cont'd)

DISTRIBUTED LINE HUNTING

See Station Hunting Arrangements

EXECUTIVE BUSY OVERRIDE

Executive Busy Override allows a station user to gain access to a busy station within the same system. A warning tone is transmitted to the called station and then a three-way call is established.

EXECUTIVE BUSY OVERRIDE-EXEMPT

A line equipped with this feature is exempt from override attempts.

FACILITY GROUPS

Provides simulated trunk group access for miscellaneous line terminations. A Facility Group may be one-way (incoming or out-going) or two-way operational.

INTERCEPT

Intrasystem and incoming network calls dialed to unassigned numbers are routed to recorded announcements.

INTERPOSITION TRANSFERS

This feature allows an attendant to call and speak to another attendant and to transfer a call to another attendant.

MAIN STATION EXTENSION SERVICE

Main station extension service consists of an additional station or stations on the same station circuit as the associated main station.

MAIN STATION LINE

A main station line connects customer provided terminal equipment to the serving central office.

**B.** ENHANCED CENTREX SERVICE (Cont'd)

(O)(T)

3. Definitions (Cont'd)

MISCELLANEOUS LINE TERMINATIONS

Miscellaneous lines are those lines not basic to the system; such as tie lines, WATS, Foreign Exchange, CCSA, etc., which required switching capabilities in order to function with Enhanced Centrex service.

MULTI-LINE HUNT GROUP (Basic)

See Station Hunting Arrangements

NETWORK ACCESS REGISTER

The Network Access Register provides for exchange and long distance message network calling to and from main stations and attendant positions of an Enhanced Centrex system

NETWORK CLASS OF SERVICE

This feature provides the capability to allow or deny types of calls to a station on both an incoming and an outgoing basis.

OFF-HOOK QUEUE

See Queuing.

PERMANENT HOLD

Allows a main station user to place any call involving their main station line on hold by flashing the switchhook and dialing a special code. When Permanent Hold is activated no calls can be originated or terminated from the main station line. The first call is retrieved by going off-hook. If the call is not retrieved within a time designated by the customer, the station line will ring and the held call will be returned.

3. Definitions (Cont'd)

QUEUING

Queuing permits station users to be placed in a queue whenever the first choice route for completing a particular call is already in use. Two queuing arrangements are available:

- A Call-Back Queue, in which case the calling station goes on-hook and is called back when a facility becomes available.
- An Off-Hook Queue, in which case the calling station remains off-hook and is held in queue until a facility becomes available.

RING AGAIN

See Automatic Callback.

SPEED CALLING

Lets the main station line user place calls to a list of frequently called telephone numbers by dialing fewer digits than the complete directory number.

STATION DIRECT INWARD DIALING RESTRICTION

Permits the customer to have selected main station lines restricted from receiving Direct In-Dialed calls from the MTS network. Direct In-Dial call attempts will be routed to the attendant.

STATION HUNTING ARRANGEMENTS

Directory Number Hunt, Distributed Line Hunt and Uniform Call Distribution are optional main station line hunt arrangements for searching over and distributing calls in a hunt group. These hunts are extensions of the basic multi line hunting feature included in Enhanced Centrex service.

3. Definitions (Cont'd)

STATION HUNTING ARRANGEMENTS (Cont'd)

Directory Number Hunting

Each line in a Directory Number Hunt group has its own unique directory number. The hunt group is accessed by dialing any number in the hunt group. The number of lines hunted depends on the hunting option (i.e., circular or sequential assigned to the group).

- Circular hunt permits a complete hunt over all the terminals in the group starting and ending with the dialed number.
- Sequential hunting starts at the number dialed and ends at the last number in the group.

Distributed Line Hunting

With Distributed Line Hunting, hunting starts after the first idle line found by the previous hunt and continues until the starting point is reached. Provides for an equal distribution of calls.

Multi-Line Hunt Group (Basic)

When a call is originated to a busy station line in a basic multi-line hunting group, the call hunts once in a prearranged order for an idle station through all remaining station lines in that group.

Uniform Call Distribution

Uniform Call Distribution provides an even distribution of incoming network and intercom calls among the individual main station lines of a hunt group and includes Circular Hunt.

- Call Queuing is an option that may be added to the Uniform Call Distribution arrangement. Queuing permits calls, in excess of main station lines in a Uniform Call Distribution group, to be held in the central office and distributed in their order of arrival to main station lines in the group as the main station lines become available.

(O)(T)

3. Definitions (Cont'd)

STATION IDENTIFICATION

An itemized list of toll calls is shown on the toll bill with the number of each originating main station line.

STATION MESSAGE DETAIL RECORDING - (SMDR)

Station Message Detail Recording (SMDR) is an arrangement to provide a record by main station line number of originating intercity traffic routing over dial type tie lines, WATS, CCSA, interexchange carrier access lines and/or the Toll Network.

The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by the customer for Station Message Detail Recording.

STATION-TO-STATION CALLING

Calls may be dialed directly between any two main station lines of an Enhanced Centrex system.

THREE-WAY CALLING

Allows a station user to add a third party to an existing two-party conversation.

TOLL DIVERSION

Toll Diversion automatically denies station direct-dialing access to the long distance message network. Station users attempting to place such calls are diverted to the attendant.

TOLL RESTRICTION

Toll restriction automatically denies station direct-dialing access to the long distance message network.

Station users attempting to place such calls will receive an announcement or a signal to indicate that access is denied.

(O)(T)

4. Intercept of Calls to Unassigned Station Lines

- a. Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.
- b. Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all Enhanced Centrex systems served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory of the caller's system should be consulted.

5. Conversion of Basic Centrex Service to Enhanced Centrex Service

- a. When a Basic Centrex customer elects to convert to Enhanced Centrex Service, service connection charges do not apply to existing in-service station lines, terminating arrangements, toll diversion and toll restriction equipped station lines, conference arrangements and other optional features and/or services provided such services and features are offered under Enhanced Centrex and each of the following conditions are met:
  - 1) The customer's system must continue to be served by the same central office equipment or the customer is moved to other central office equipment at the Company's instance.
  - 2) There must be no interruption of service.
  - 3) There are no moves or changes in existing station lines, terminating arrangements, or optional features requested by the customer.
- b. Basic Centrex Services converting to Enhanced Centrex Service must elect a Term Payment Plan of 12, 36 or 60 months as described in **B. 6.** following.
- c. If the customer elects a Term Payment Plan of 12, 36 or 60 months and wishes to add to his system, such additions shall be made within a scheduled period after the conversion at the rates and charges in this and other tariff sections for Enhanced Centrex Service and the associated features and services.
- d. A customer converting from Basic to Enhanced Centrex will be given credit on the Enhanced Centrex system establishment charge for any Basic system establishment charge paid.

Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

**B. ENHANCED CENTREX SERVICE (Cont'd)**

(O)(T)

6. Payment Schedules

a. General

1) Enhanced Centrex service is offered under the following contract periods:

12 Month Term Payment Plan  
36 Month Term Payment Plan  
60 Month Term Payment Plan

2) The following items that may be placed under the Term Payment Plan:

Main Station Lines  
Extension Station Lines  
Line Feature Options  
Optional Service Features  
System Common Equipment  
Terminating Arrangements  
Attendant Features

3) The monthly rate for Enhanced Centrex service is dependent upon the payment period selected by the customer.

4) The monthly rate for Enhanced Centrex service under the Term Payment Plan for the periods of 12, 36 or 60 months is not subject to Company initiated rate increases.

b. Expiration of Contract Period

At the expiration of the term payment plan service period, the subscriber may elect a new term payment service period. If the subscriber does not elect a new term payment service period, the service will automatically renew for successive periods of 12 months each at the then current tariff rates, unless the subscriber provides written or verbal notice of termination at least thirty (30) days in advance of any scheduled renewal.

c. Termination Liability

Contract termination liability for the 12, 36, or 60 month Term Payment Plan is such that if a subscriber terminates their Centrex service prior to the expiration of the Term Payment Plan service period, the subscriber shall immediately pay a termination liability in the amount of 100% of the monthly charges remaining in the term payment period selected.

d. Credits and Surcharges

A surcharge that is equivalent to the multi-line business Subscriber Line Charge (SLC) will apply to each Enhanced Centrex line. For each Enhanced Centrex line a credit will be applied which, when combined with the preceding surcharge, will provide a monthly net SLC billing equal to the SLC multiplied by the number of network access registers.

7. Common Rates and Charges

a. General

1) Station Lines

- a) The rates and charges specified herein for main station lines provide for main station line components. The main station line consists of all facilities including intercommunication outside plant facilities from the system dial switching equipment to the Network Interface of the main station line.
- b) The rates and charges specified herein for main station and extension station lines are applicable to each main station location and extension station location respectively to which a customer-provided instrument can be connected.
- c) End User charges as specified in the End User Common Access Service Section of the Interstate Access Tariff apply as appropriate.
- d) Rates for the main station lines of Enhanced Centrex customers will be based on the following criteria:
  - (1) Distance from the serving wire center.
  - (2) The type of payment plan selected by the customer.
- e) The total main station category size will consist of main station lines and attendant access lines for all locations served by the same Enhanced Centrex system.
- f) The distance band will be based on airline mileage from the serving wire center to the Network Interface Location at the customer's premises.
  - 1) Where main stations are in a foreign exchange (FX) or a foreign central office (FCO) area the distance band will be calculated from the FX or the FCO to the Network Interface Location serving those main stations.
  - (2) Systems with more than one location served by the same Enhanced Centrex control group will calculate the distance band per location.

7. Common Rates and Charges (Cont'd)

a. General (Cont'd)

1) Station Lines (Cont'd)

g) In a different wire center serving area of a multi-office exchange:

- (1) The rate for Enhanced Centrex Service in an FX or FCO area is the monthly rate for the Enhanced Centrex service desired, plus an FX or FCO mileage charge as specified in Section A9 of this Tariff.
- (2) When Enhanced Centrex main station lines are connected by facilities which are routed between two or more wire centers in the same exchange, the foreign central office mileage charge is calculated separately on an airline basis between the wire center from which the system is served and the wire center from which exchange service normally would be rendered.

h) Rates, charges, liabilities and additional regulations if applicable may be developed on an individual basis for main station lines exceeding two (2) airline miles from the serving central office.

i) Exchange Access

- (1) Exchange Access is provided by means of Network Access Registers.
- (2) Presubscription of a Carrier of Preference is specified in Section 13 of Interstate Access Tariff and Section E13 of the Intrastate Access Tariff.

b. Central Office Features Associated with Customer Provided Electronic Telephone Sets

1) General

Access to the following features via customer provided station equipment will be provided according to the interface specifications for the DMS 100 central office switcher.

2) Regulations

- a) Each station location will require a main station access line charge as specified in Section A3 of this tariff.
- b) Main station lines terminated in customer provided electronic telephone sets must be via non-loaded facilities.
- c) Each main station set must have a primary Directory Number associated with it.
- d) Features associated with the electronic set only will be charged per main station.
- e) Features associated with the Directory Number(s) terminated on the main station will be charged per Directory Number activated.
- f) Features assigned to keys on an electronic set must also have the feature assigned to the main station line.
- g) Features associated with a dedicated key on the electronic set will be charged per key assigned.
- h) A main station set may have a Private Business Line (PBL) appearing as one of the Directory Number keys.
- i) Rates and Charges for an individual business line service as specified in Section A3 of this Tariff will apply for the Private Business Line. The number assigned to a PBL will be outside the Enhanced Centrex station range. The PBL cannot use the code access features available on the main station set. Services such as Custom Calling cannot be assigned to a PBL.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

**B. ENHANCED CENTREX SERVICE (Cont'd)**

(O)(T)

9. Optional Service Features (Cont'd)

c. Station Message Detail Recording (SMDR)

1) General

- a) Station Message detail recording (SMDR) is an arrangement to provide a record, by main station line number, of originating intercity traffic routing over dial type tie lines, WATS, CCSA, interexchange carrier access lines and/or the Toll Network.
- b) The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by the customer for Station Message Detail Recording.

2) Regulations

- a) Station Message Detail Recording (SMDR) may be offered to main station lines of customers where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.
- b) Station Message Detail Recording is not represented to be a provision of billing detail.
- c) Station Message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the Company's accounting center furnishing the tape. The format may be changed at the discretion of the Company in which case the customer will be responsible for making the tape compatible with his data processing equipment.
- d) Station Message details may be provided on all facilities subscribed to by the customer including Message Telecommunications Service (MTS), but will not include intercom calls originated by the station users. The customer may designate the group or groups of facilities on which SMDR is to be provided. Where the facility designated by the customer is the MTS network, the magnetic tape file will include a record of each message itemized on the customer's bill; e.g., messages received collect or billed to the customer as third number billing will be on the tape file in addition to DDD messages originated by the station user.

**C. EXPRESSTOUCH CENTREX FEATURES**

(O)(T)

1. General

ExpressTouch Centrex features are central office call management features offered to Centrex Basic and Enhanced customers in addition to the optional features offered previously in Section A12 of the tariff.

2. Regulations of Service

a. The following regulations apply to the features listed in **C.3.**:

(T)

- 1) ExpressTouch Centrex features are provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within the Custom Local Area Signaling Services (CLASS) serving areas.
- 2) ExpressTouch Centrex features are available to both Basic and Enhanced Centrex Service subscribers.
- 3) In no event shall the Company be held liable for any losses or damages arising from the unavailability or failure of its equipment or facilities, or for any act, omission or failure of performance by the Company or its employees or agents in connection with this service.

b. The following regulations apply to the Caller ID feature only, in addition to the regulations listed in a. preceding:

- 1) If an incoming call is from a caller utilizing a PBX trunk or a rotary line group, the telephone number displayed may be the main number of that PBX or rotary group rather than the directory number accessed by the caller.
- 2) The Company will deliver all numbers, subject to the technical limitations defined in this tariff, including telephone numbers associated with Non- Published Listing Service as described in Section A6 of this tariff.
- 3) Telephone numbers transmitted via Caller ID are intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this tariff.
- 4) Calling numbers will not be displayed on operator-handled calls, access lines where Calling Number Delivery Blocking has been activated, or with calls originating outside of the CLASS serving area as specified in Section A13.

(O)

(O) Material now appearing in this section formerly appeared in Section A12.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

C. EXPRESSTOUCH CENTREX FEATURES (Cont'd)

(O)(T)

3. Features

- a. Repeat Dialing - When activated, Repeat Dialing automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed and the caller will be notified with a distinctive ring.
- b. Call Return - Call Return enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered.
- c. Caller ID - This feature enables the customer to view on a display unit the directory number of an incoming telephone call. The display unit may be an ancillary device which is attached to the customer's telephone set or may be a special telephone set with the display unit built-in. The calling number will display between the first and second ring.
- d. Calling Number Delivery Blocking - This service is provided at no charge to the subscriber. The service will be provided as described in Section A13.
- e. Call Tracing
  - 1) Call Tracing enables the customer to initiate an automatic trace of the last call received. A usage charge will be assessed on a per-occasion basis for each successful trace made. A trace is considered successful when the customer is informed by the voice response unit that the Call Tracing has been successfully completed. Certain types of calls, e.g., out of the area long distance, cannot be traced using this feature.
  - 2) Upon activation by the customer, the call tracing information (calling and called number, the time the call was received, and the time the trace was activated) is recorded and stored until requested by an authorized law enforcement agency. The information collection process is instantaneous and the customer using this feature will be notified immediately if the trace was successful and will then be instructed to contact the local law enforcement agency if they wish to file a complaint. The customer is not provided the traced number.
  - 3) If the customer receives another call prior to activating the trace, or receives a Call Waiting indication during the call to be traced, Call Tracing will not record the correct number.
- f. Call Tracing Denial - This service allows the Call Tracing feature to be blocked. To initiate the blocking feature the customer must contact the Company. The Company will then install the blocking feature on the customer's line. The blocking feature cannot be deactivated by the customer. This feature is provided at no charge to the customer.

CENTREX SERVICE II  
(~~Central Telephone exchanges only~~)

A. CENTREX SERVICE II

1. General

- a. Centrex Service II is a central office communications system package provided on individual access lines from central office equipment located on Company premises. Centrex Service II is offered on a per customer premises basis at the following rates, terms and conditions. Customers subscribing to Centrex Service II with 26 or more Centrex access lines may, but are not required to, subscribe to Centrex Service II as a Special Service Arrangement as provided in Section A5.E. of this tariff.
- b. Customer premises for the purposes of this tariff section is defined as a single or as multiple structures on the same customer's contiguous property and the Centrex Service II is provisioned via a single entrance facility and a single network interface device (NID). All cable, wires, facilities and customer premises equipment on the customer side of the NID are non-regulated and are the responsibility of the customer.
- c. Centrex Service II is provided subject to the availability of facilities and central office equipment as determined by the Company.
- d. Centrex Service II does not include terminal equipment on the customer's premises. Provision of the telephone instruments or other equipment is the responsibility of the customer. Some features require customer provided customer premises equipment (CPE).
- e. Directory listings are furnished in accordance with the rates and regulations specified in Section A6 of this tariff.
- f. Service Ordering Charges as specified in Section A4 of this tariff apply to the services offered in this section and are in addition to the Centrex Service II Establishment Translation Charge in this section of the tariff. For feature changes after the initial installation, the Secondary Service Ordering Charge will apply in addition to applicable nonrecurring charges.
- g. The minimum service period for Centrex Service II is one month. For customers with contracts prior to May 10, 2002, if at any time during the contract period the Company increases the monthly recurring rates for the service, the customer may terminate the service without incurring any early termination liability.

CENTREX SERVICE II  
(~~Central Telephone exchanges only~~)

A. CENTREX SERVICE II (Cont'd)

1. General (Cont'd)

- h. The quality of transmission for calls utilizing call forwarding or conferencing may vary depending on the distance and routing involved.
- i. Directory Assistance charges, as specified in Section A3 of this tariff, apply to the services offered in this section.
- j. Call Forward/Busy - Call Forward/Busy shall not be used to extend calls on a planned and continuing basis to intentionally avoid the payment in whole or in part of message toll charges that would regularly be applicable between the station originating the call and the station to which the call is transferred.
- k. Temporary Suspension of Service (Vacation Service), as specified in Section A2 of this tariff, is not allowed for Centrex Service II.
- l. Not all Centrex Service II features are compatible. Some combinations of features will not work when applied on the same line.
- m. Other services requested by the customer will be provided in accordance with applicable tariff sections.
- n. ~~Centrex Service terminating into a PBX system are at the rates specified in Section A3.D.16.n.2) or A.3.D.16.n.3) of this tariff.~~ Centrex Service II cannot terminate into a Key or PBX System.

CENTREX SERVICE II  
(~~Central Telephone exchanges only~~)

A. CENTREX SERVICE II (Cont'd)

1. General (Cont'd)

- p. The assignment of telephone numbers and the sequence of the numbers assigned to a Centrex Service II are made at the discretion of the Company. The Company does not guarantee to provide telephone numbers arranged in a consecutive manner. If the customer requests telephone numbers under a special numbering arrangement to be terminated in a Centrex customer group, then additional recurring and non-recurring charges may apply as determined on an Individual Case Basis (ICB) per Section A5.
- q. Centrex Service II is not provided in association with local measured service and is not available on residential lines.
- r. All exchange access lines terminating in a Centrex system must be served by the same central office or associated remote switch. Centrex access lines may be provided as Foreign Exchange (FX) Service or Foreign Central Office (FCO) at the rates and charges specified in Section A9 of this tariff.
- s. The rates and charges applicable to Extended Area Service (EAS), Extended Calling Scope (ECS), TOLL-PAC and 25/25 Plan, as specified in Section A3 of this tariff also applies in addition to the rates and charges applicable to Centrex Service II. Optional Extended Local Calling (OELC) and OEAS are not available to Centrex Service II.

2. Definitions

ABBREVIATED DIALING<sup>1</sup>

Allows a station abbreviated dialing (i.e., 3, 4, or 5 digit dialing) to other station members within the same customer group.

AUTO ANSWER BACK<sup>1</sup>

Allows any incoming call to the Primary Directory Number of the set to be automatically answered after four seconds. Compatible only on a digital, hands free business set.

AUTOMATIC CALL DISTRIBUTION (ACD)<sup>2</sup>

Automatic Call Distribution is a digital central office service that provides advanced call distribution and queuing capabilities as an integrated function of Centrex ~~s~~Service II. The customer must subscribe to and maintain a minimum of two Automatic Call Distribution positions and at least one Automatic Call Distribution group.

AUTOMATIC LINE<sup>2</sup>

Provides an automatic connection between a calling station that goes off-hook and a predetermined location. Available on MDC sets only.

CALL FORWARD - UNIVERSAL, BUSY, AND NO ANSWER<sup>1</sup>

Allows a customer to have incoming calls to a station automatically forwarded to a predetermined telephone number, either on all calls and/or busy calls and/or calls not answered.

CALL HOLD<sup>1</sup>

Allows the user to hold one call for any length of time by flashing and dialing a special code providing neither party goes "on-hook"; the station line is then free to originate another call. Dialing the hold code a second time retrieves the first call.

CALL PARK<sup>1</sup>

Allows a station to park a call against its own directory number. The parked call can be retrieved from any station by dialing a feature access code and the directory number against which the call is parked.

2. Definitions (Cont'd)

CALL PICK-UP<sup>1</sup>

Allows a station to answer incoming calls to another station within a pre-set pick-up group. Calls are answered according to the member who has been ringing the longest.

CALL TRANSFER<sup>1</sup>

Allows a station to transfer an incoming call to another user.

CALL WAITING<sup>1</sup>

Informs a station user by tone, while on an established call, that a second call is waiting.

CLASS OF SERVICE RESTRICTIONS<sup>2</sup>

Defines the specific features and calling patterns available to stations and attendants within a customer group. Access code restrictions can be set up to restrict stations and attendants from trunk types such as local, toll, DID, and WATS. The following options are available:

Fully Restricted Service – Allows intragroup dialing only, must dial 9

Toll Restricted Service – Allows intragroup and local dialing only, must dial 9

Unrestricted Service – Allows full access to all facilities, must dial 9

Unrestricted Assume Dial 9 – Same as unrestricted; however, user cannot utilize abbreviated dialing

Note: 900 and 976 block available with all options

DIRECT INWARD DIALING<sup>1</sup>

This service allows for incoming calls from the exchange network to reach a specific station. The calling party dials the seven-digit directory number to reach the station.

DIRECT OUTWARD DIALING<sup>1</sup>

With this service, a Centex station user can place external calls to the exchange network by dialing the access code (usually the digit 9) receiving an optional second dial tone, then dialing the number.

2. Definitions (Cont'd)

DISTINCTIVE RINGING<sup>1</sup>

Produces a different ringing cadence for calls within and outside the customer group. One (1) long ring for internal calls, two (2) short rings for external calls.

LAST NUMBER REDIAL<sup>1</sup>

Enables the subscriber to redial the last called number by pressing a single key rather than dialing the entire number.

MEET-ME-CONFERENCE<sup>2</sup>

Allows up to six (6) conferees to hold a conference call by dialing a pre-determined directory number at a specified time.

MULTIPLE APPEARANCE-DIRECTORY NUMBER (MADN)<sup>2</sup>

A directory number that is assigned to more than one station may be arranged as a single business set or per customer group.

MUSIC-ON-HOLD<sup>2</sup>

Provides the music-on-hold capability to calls that terminate on business sets within a customer group. When a call is put on hold, the caller hears music, announcement, silence, or a combination of the three treatments. Music source can be provided by the subscriber or the central office and requires an additional Centrex line to do so.

RING AGAIN<sup>1</sup>

Allows a station user encountering a busy station to be notified when the busy station becomes idle and to be placed automatically in a ring-again mode.

1. Standard feature
2. Optional feature

(~~Central Telephone exchanges only~~)

A. CENTREX SERVICE II (Cont'd)

2. Definitions (Cont'd)

SECONDARY DIRECTORY NUMBER<sup>2</sup>

Directory number not associated with a line, but assigned for use with priority hunting.

SPEED CALL LONG - CUSTOMER GROUP (30)<sup>2</sup>

Allows user to store up to 30 frequently dialed numbers and be called using a 2-digit code.

SPEED CALL LONG - CUSTOMER GROUP (50)<sup>2</sup>

Allows user to store up to 50 frequently dialed numbers and be called using a 2-digit code.

SPEED CALL SHORT (10)<sup>1</sup>

Allows user to store up to 10 numbers that can be dialed automatically by using single digit codes.

STATION CONTROL CONFERENCE<sup>2</sup>

Enables a Centrex station user to establish a conference call consisting of up to thirty (30) conferees without the assistance of the attendant.

STATION HUNTING (sequential, circular, multiline)<sup>1</sup>

When a called access line is busy, the call will be routed to a vacant (if available) access line in the hunt (rotary) group.

THREE-WAY CONFERENCE WITH CONSULTATION HOLD AND TRANSFER<sup>1</sup>

Allows a station to include a third party in a call and optionally to transfer the call to the third party and performs consultation hold.

UNIFORM CALL DISTRIBUTION (UCD)<sup>2</sup>

This service allows for an even distribution of incoming calls to a listed directory number over a group of Unity or other 500/2500 type sets. Each station has its own directory number. Included with this feature is the provision of message announcement for calls in queuing. The customer will be responsible for providing the compatible tape and the announcement.

CENTREX SERVICE II  
(~~Central Telephone exchanges only~~)

A. CENTREX SERVICE II (Cont'd)

4. Term Discount Plan (TDP)

- a. Term Discount Plans (TDPs) are available for Centrex Service II. TDPs provide the customer with discounted rates. The customer agrees to a minimum service commitment period for Centrex Service II when the TDP is established. The customer must order a TDP in writing to the Company. A TDP may be ordered based on the following plan options:

Plan A:	12 months
Plan B:	36 months

- b. The customer must specify the length of the initial service period at the time the service is ordered. When a customer converts to a TDP, no Centrex Service II Establishment Translation Charge is applied toward Centrex facilities in-service at that time. If a customer moves from a month to month plan to a TDP, or upgrades from a 12 month TDP to a 36 month TDP, then no Centrex Service II Establishment Translation Charge is applied.
- c. If a TDP customer disconnects service prior to the end of the TDP, the customer is liable for 100% of the payments remaining for the rest of the term plan. If Special Construction Charges were applied to the service being terminated, any termination charges associated with Special Construction Charges will also apply.
- d. Rate increases or decreases will automatically be applied to the monthly term plan rates for the remaining term of the TDP. If Company initiated rate increases to any rate element or combination of rate elements causes the charges for the entire Centrex Service II under the TDP to increase by 10% or more annually, then the customer may cancel the TDP without incurring termination liability charges provided that the customer notifies the Company within 30 days after the effective date of the rate increase.
- e. TDP commitment periods can be extended by the customer at any time during the term of the plan, up to a maximum of 36 months. The number of months accrued in the current plan will apply toward the new plan selected.
- f. At the end of the TDP service commitment period, the customer may subscribe to a new TDP at the prevailing rates set forth in Section A11.A.5. following. At the end of the TDP service commitment period there is no automatic renewal of the TDP, so the rates will convert to the prevailing month to month rates unless the customer selects a new TDP.
- g. Customers under a TDP who change physical locations will not be subject to termination charges if the customer subscribes to a new Centrex TDP at the new location.
- h. Special Construction Charges may apply as specified in Section A5.

b. Centrex Service II Establishment Translation Charge

The charge for performing the central office translation associated with configuring a Centrex customer's network parameters.

- 1) Applies to each Centrex customer group translation activity performed.

Nonrecurring Charge (per Centrex customer group) \$50.00

- 2) Service Ordering Charges as specified in Section A4 of this tariff apply to the services offered in this section and are in addition to the Centrex Service II Establishment Translation Charge.

c. Feature Changes After Initial Installation

- 1) Nonrecurring Charge (per line) \$10.00  
Maximum charge of \$50 per order.

- 2) For feature changes after the initial installation, the Secondary Service Ordering Charge will apply in addition to applicable nonrecurring charges.

- 3) This applies to both standard features and optional features.

- d. Subscriber Line Charge (SLC)/End User Common Line Charge (EULC) is applicable and will be billed on a per line basis. For rates see Subscriber Line Charge/End User Common Line Charge in Section 4 of the Interstate Access Tariff.

C. EXPRESSTOUCH<sup>SM</sup> CENTREX SERVICE II FEATURES

1. General

ExpressTouch Centrex Service II features are central office call management features offered to Centrex customers in addition to the optional features offered previously in this section of the tariff.

2. Regulations

a. The following regulations apply to the features listed in 3. following:

- 1) ExpressTouch Centrex Service II features are provided subject to the availability of facilities. Additionally, the features described will only operate on call originating and terminating within the Custom Local Area Signaling Services (CLASS) serving areas.
- 2) In no event shall the Company be held liable for any losses or damages arising from the unavailability or failure of its equipment or facilities, or for any act, omission or failure of performance by the Company or its employees or agents in connection with this service.

b. The following regulations apply to the Caller ID feature only, in addition to the regulations listed in a. preceding.

- 1) If an incoming call is from a caller utilizing a PBX trunk or a rotary line group, the telephone number displayed may be the main number of that PBX or rotary group rather than the directory number accessed by the caller.

CENTREX SERVICE II  
(~~Central Telephone exchanges only~~)

C. EXPRESSTOUCH CENTREX SERVICE II FEATURES (Cont'd)

2. Regulations (Cont'd)

- b. The following regulations apply to the Caller ID feature only, in addition to the regulations listed preceding.
  - 2) The Company will deliver all numbers, subject to the technical limitations defined in this tariff, including telephone numbers associated with Nonpublished Listing Service as described in Section A6 of this tariff.
  - 3) Telephone numbers transmitted via Caller ID are intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by the tariff.
  - 4) Calling numbers will not be displayed on operator-handled calls, access lines where Calling Number Delivery Blocking has been activated, or with calls originating outside of the CLASS serving area.

3. Features

- a. Repeat Dialing - When activated, Repeat Dialing automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed and the caller will be notified with a distinctive ring.
- b. Return Call - Return Call enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered.
- c. Caller ID - this feature enables the customer to view on a display unit the directory number of an incoming telephone call. The display unit may be an ancillary device which is attached to the customer's telephone set or may be a special telephone set with the display unit built-in. The calling number will display between the first and second ring.
- d. Calling Number Delivery Blocking - This service is provided at no charge to the subscriber. The service will be provided as described in Section A13.

CENTREX SERVICE II  
(~~Central Telephone exchanges only~~)

C. EXPRESSTOUCH<sup>SM</sup> CENTREX SERVICE II FEATURES (Cont'd)

3. Features (Cont'd)

e. Call Tracing

- 1) Call Tracing enables the customer to initiate an automatic trace of the last call received. A usage charge will be assessed on a per-occasion basis for each successful trace made. A trace is considered successful when the customer is informed by the voice response unit that the Call Tracing has been successfully completed. Certain types of calls, i.e., out of the area long distance, cannot be traced using this feature.
- 2) Upon activation by the customer, the call tracing information (calling and called number, the time the call was received, and the time the trace was activated) is recorded and stored until requested by an authorized law enforcement agency. The information collection process is instantaneous and the customer using the feature will be notified immediately if the trace was successful and will then be instructed to contact the local law enforcement agency if they wish to file a complaint. The customer is not provided the traced number.
- 3) If the customer receives another call prior to activating the trace, or receives a Call Waiting indication during the call to be traced, Call Tracing will record the last call, which may not be the call the call trace activation was intended to record.

- f. Call Tracing Denial - This service allows the Call Tracing feature to be blocked. To initiate the blocking feature, the customer must contact the Company. The Company will then install the blocking feature on the customer's line. The blocking feature cannot be deactivated by the customer. This feature is provided at no charge to the customer.

4. Rates and Charges

Per Line	Monthly Rates
a. Return Call	\$ 2.50
b. Repeat Dialing	2.00
c. Caller ID	5.50

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(~~UNITED TELEPHONE EXCHANGES ONLY~~)

~~A. CENTREX SERVICE~~ RESERVED FOR FUTURE USE

~~1. General~~

- ~~a. Centrex Service is a central office communications system package provided in association with individual line exchange business and residence services furnished where available from digital central office equipment located in Company buildings. Centrex is not provided in association with PBX trunks or pay telephone service.~~
- ~~b. Centrex is offered as a customer option and may be provided subject to the availability of facilities and central office equipment as determined by the Company.~~
- ~~c. A combination of business and residence lines in a Centrex system is not permitted. All exchange lines in a Centrex system must be of the same type, i.e., must be either flat rate or measured service, and must be billed to the same account.~~
- ~~d. Centrex provides for a system accommodating from one to twenty five central office lines. All exchange access lines terminating in a Centrex system must be served by the same central office.~~
- ~~e. Suspension of service as provided in Section A2 of this Tariff, is permitted in connection with Centrex.~~

~~1. General (Cont'd)~~

- ~~g. The quality of transmission for calls utilizing call forwarding or conferencing may vary depending on the distance and routing involved.~~
- ~~h. Customer premises equipment associated with this service is provided by the customer.~~
- ~~i. Payment Plans~~
  - ~~1) A minimum term payment plan of twelve months shall be applicable to Basic Centrex Systems.~~
  - ~~2) The termination liability for the Basic Centrex System is such that if a subscriber terminates their Centrex service prior to the expiration of the twelve month period, the subscriber shall immediately pay a termination liability in the amount of 100% of the monthly charges remaining in that twelve month period.~~
  - ~~3) At the expiration of the 12 month service period, the subscriber's service period will automatically renew for successive periods of 12 months each at the then current tariff rates, unless the subscriber provides written or verbal notice of termination at least thirty (30) days in advance of any scheduled renewal.~~

~~2. Basic System~~

~~a. Standard Features~~

~~1) Call Hold~~

~~Allows a station user to place a call on hold by flashing the switchhook and dialing a code.~~

~~2) Call Pickup~~

~~Allows a station user to answer another station users incoming call within a defined group by dialing a code.~~

~~3) Ring Again (Camp On)~~

~~Allows a station user encountering a busy station, within the same station group, to be notified when the busy station becomes idle and to be placed automatically in a ring again mode.~~

~~A. CENTREX SERVICE (Cont'd)~~ RESERVED FOR FUTURE USE

~~2. Basic System (Cont'd)~~

~~a. Standard Features (Cont'd)~~

~~4) Station-To-Station Calling~~

~~Allows stations within a group to complete calls to other stations within the same group without the assistance of an attendant, by dialing a 2 through 7 digit number.~~

~~5) Three-Way Conference/Transfer/Consultation Hold~~

~~Allows a station user to establish three-way conference calls and provides the capability to transfer incoming, outgoing, and intragroup calls. The user may also place a call on hold to consult privately with a third party.~~

~~b. Optional Features~~

~~1) Call Forward - Don't Answer~~

~~Allows for forwarding of an incoming call to a preselected line within the system when the called line does not answer after a predetermined number of rings.~~

~~2) Call Forward - Busy~~

~~Allows for forwarding of an incoming call to a preselected line within the system when the called station is in use.~~

~~3) Call Forwarding~~

~~Allows all calls to a line equipped with Centrex to be automatically forwarded to a selected line within the system or outside the system.~~

~~4) Call Waiting~~

~~Provides the station user, who is busy on an existing call, with a private tone signal which indicates that another call is waiting. The station user may then ignore the waiting call; or terminate the original call and answer the waiting call; or, through the use of switchhook flashes, put the original call on hold and receive the waiting call; or alternately talk on both calls until one is terminated. (This feature cannot be utilized if Call Forward - Busy or Call Forward - Don't Answer is activated.)~~

- ~~n. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of an Enhanced Centrex system is limited by the number of Network Access Registers subscribed to by the customer. Each Network Access Register may be arranged for two-way, one-way incoming or one-way outgoing operation depending upon the option of the customer at the time the Network Access Register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charges as specified in Section A4 of this Tariff apply per Network Access Register affected.~~
- ~~o. Service charges, as specified in Section A4 of this Tariff, apply to all Enhanced Centrex systems except as provided in C. 5. of this Tariff.~~
- ~~p. Enhanced Centrex installation charges are due on initial installation or subsequent additions unless deferred over a predetermined period of time as specified in Section A22 of this Tariff.~~
- ~~q. Enhanced Centrex main station lines may be restricted from dialing three digit central office and service codes by applying Code Restriction to the line. The three digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Dial-It type pay-to-listen services (e.g., 900 and 976 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 101XXXX). InterLATA calls dialed 0- (operator handled) calls cannot be restricted.~~

~~2. Regulations (Cont'd)~~

~~q. (Cont'd)~~

- ~~1) At the time a Code Restriction arrangement is installed, the Enhanced Centrex system will be arranged for the Code Restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition or removal of code restriction on a main station line, the appropriate Service Charges as specified for a change in line termination apply per main station line affected. No such charges apply when the Code Restriction arrangement is disconnected in its entirety.~~
  - ~~2) Where Code Restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code.~~
  - ~~3) Code Restriction arrangements to deny access to Directory Assistance and/or Public Announcement Services are not guaranteed. These features are intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged for in the normal manner.~~
- ~~r. The first system established per customer within a central office must consist of a minimum of twenty-six (26) main station lines.~~

~~ACCESS LINES TO CUSTOMER PROVIDED FEATURES~~

~~Allows dial access from Enhanced Centrex service for connection to customer provided features. (Code Calling, Loudspeaker Paging, Radio Paging, Dictation and Music)~~

~~ATTENDANT AUTODIAL~~

~~This feature permits an attendant to dial frequently called numbers by depressing the Autodial feature key, which is programmed with the number.~~

~~ATTENDANT CAMP ON AND CAMP ON MODE OPTIONS~~

~~This feature allows incoming listed number calls, which the attendant attempts to complete to a busy main station line, to be held waiting and then automatically connected when the called main station line becomes available. An indication of camp on will be given to the busy main station line each time the attendant attempts a completion.~~

~~ATTENDANT CONFERENCE~~

~~Using a six port conference circuit, an attendant may interconnect up to five conferees on one call. The sixth port is required for attendant access.~~

~~ATTENDANT GROUP TRUNK ACCESS CONTROL~~

~~This feature utilizes special keys on the customer provided attendant console to serve as a common interface for trunk group busy and trunk group access for all trunk groups allocated to the customer group.~~

~~ATTENDANT POSITION~~

~~Customer provided terminal equipment utilized for attendant control and call connecting functions.~~

~~ATTENDANT RECALL TIMER~~

~~This feature returns attendant extended calls to a main station to the attendant after a prescribed waiting period if the main station user is unable to answer.~~

~~ATTENDANT SERVICE~~

~~Incoming calls to the main listed number are answered by an attendant, who may complete the call to the desired main station line by means of the Call Transfer feature. An unrestricted or semi-restricted main station line user may dial the attendant over attendant lines to secure help in the completion of an outgoing call by means of Dial "O" calling.~~

~~AUTOMATIC CALLBACK/RING AGAIN~~

~~Automatic Callback permits a main station line user who attempts an intercommunication call to a busy main station line to be automatically connected to that line when both called and calling lines are subsequently idle.~~

~~AUTOMATIC LINE~~

~~See Direct Connect Number.~~

~~AUTOMATIC ROUTE SELECTION~~

~~Automatic Route Selection is an optional feature, available where facilities permit, that allows station users, by dialing a preselected code to automatically select the preferred route subscribed for by a customer for network calls. Alternate routing to other facilities, subscribed to by the customer, is also provided. This arrangement is available for use with Foreign Exchange (FX), WATS, CCSA off-net, tie lines and Interexchange Carrier (IC) access lines which are compatible with Automatic Route Selection and toll network facilities.~~

~~3. Definitions (Cont'd)~~

~~CALL FORWARDING - ALL CALLS~~

~~Automatically routes all incoming calls to the attendant or a predetermined telephone number.~~

~~CALL FORWARDING - BUSY LINE~~

~~Automatically routes calls to the attendant or preselected main station line when the called main station line is busy.~~

~~CALL FORWARDING - NO ANSWER~~

~~Automatically routes calls to the attendant or preselected main station line when the called main station line doesn't answer within the preset ringing cycle.~~

~~CALL HOLD~~

~~Allows a main station line user to place any call involving their main station line on hold by flashing and dialing a special code. The main station line is then free to originate another call. The first call is retrieved by dialing the hold code a second time.~~

~~CALL PARK~~

~~Call Park allows the attendant to park calls against any directory in the attendant customer group. The parked call may be retrieved from any station by dialing the feature access code for retrieval plus the directory number.~~

~~3. Definitions (Cont'd)~~

~~CALL PICKUP~~

~~Allows a main station line user to answer calls directed to another main station line within the same preset call pick-up group.~~

~~CALL TRANSFER~~

~~Call Transfer provides for the transfer of calls by an Enhanced Centrex station. The Call Transfer feature is needed in addition to Three-way Calling if the station's type of call transfer is different from the call transfer type selected for the customer's group.~~

~~CALL WAITING-DIAL~~

~~The Dial Call Waiting feature provides the ability for originating main station lines to invoke call waiting service on selected intragroup calls by dialing an access code followed by the extension number of the main station line to be call waited.~~

~~CALL WAITING-EXEMPT~~

~~Prevents the Call Waiting-Originating or the Dial Call Waiting features from being imposed on the line when the station is busy.~~

~~CALL WAITING-ORIGINATING~~

~~Allows an equipped main station line to send the Call Waiting tone to any busy main station line in the same system.~~

~~3. Definitions (Cont'd)~~

~~CALL WAITING-TERMINATING~~

~~Informs a busy main station line, when the main station line is so equipped, that an incoming call is waiting (burst of tone). Permits holding the present connection while answering the new call then return to the original connection.~~

~~CODE RESTRICTION ARRANGEMENTS~~

~~A Code Restriction Arrangement automatically denies a portion of all main station lines of a Enhanced Centrex system direct outward dialing access to one or more three digit codes within the local calling area in which the system is located. Code restriction provides a distinctive tone to indicate that access is not permitted on call attempts.~~

~~CONFERENCE CALLING STATION~~

~~Allows a main station user to establish a conference connection of up to six conferees (including the originator) without the aid of the attendant.~~

~~CONSULTATION HOLD-ALL CALLS~~

~~Allows a main station user to place a call on hold by depressing the switchhook, at which time dial tone is returned. The station user may then proceed to establish connection with another internal station or outside party, and after speaking with the "consulted" party, the station user may (1) return to the call initially held, (2) depress the switchhook thereby effecting Add-On Conference or (3) hang up and effect transfer of the initial call to the consulted party.~~

~~3. Definitions (Cont'd)~~

~~CUSTOMER GROUP~~

~~A Customer Group is that portion of the memory storage in the serving central office that contains the features for a specific system.~~

~~DATA CALL PROTECTION~~

~~Data Call Protection prevents calls from being interrupted by call waiting tones, testing or busy verification attempts. Data call protection is not customer changeable and lines assigned this feature may not utilize call transfer or conference capabilities.~~

~~DIAL "O" CALLING~~

~~Dial "O" Calling permits a main station line user to reach an attendant position by dialing the single digit "O".~~

~~DIAL CODE SENDING (CODE CALLING) FEATURE~~

~~Code Calling provides dial access to customer premises located code calling equipment by main station line, attendant access and tie lines of an Enhanced Centrex system. The dialed two or three digit code activates signaling devices on the customer's premises to produce a coded signal corresponding to the dialed code. The called party, upon recognition of the signal, is automatically connected to the calling party by dialing a special code from any main station line in the system.~~

~~3. Definitions (Cont'd)~~

~~NETWORK CLASS OF SERVICE~~

~~This feature provides the capability to allow or deny types of calls to a station on both an incoming and an outgoing basis.~~

~~OFF-HOOK QUEUE~~

~~See Queuing.~~

~~PERMANENT HOLD~~

~~Allows a main station user to place any call involving their main station line on hold by flashing the switchhook and dialing a special code. When Permanent Hold is activated no calls can be originated or terminated from the main station line. The first call is retrieved by going off hook. If the call is not retrieved within a time designated by the customer, the station line will ring and the held call will be returned.~~

~~QUEUING~~

~~Queuing permits station users to be placed in a queue whenever the first choice route for completing a particular call is already in use. Two queuing arrangements are available:~~

~~— A Call-Back Queue, in which case the calling station goes on-hook and is called back when a facility becomes available.~~

~~3. Definitions (Cont'd)~~

~~QUEUING (Cont'd)~~

~~— An Off-Hook Queue, in which case the calling station remains off-hook and is held in queue until a facility becomes available.~~

~~RING AGAIN~~

~~See Automatic Callback.~~

~~SPEED CALLING~~

~~Lets the main station line user place calls to a list of frequently called telephone numbers by dialing fewer digits than the complete directory number.~~

~~STATION DIRECT INWARD DIALING RESTRICTION~~

~~Permits the customer to have selected main station lines restricted from receiving Direct In-Dialed calls from the MTS network. Direct In-Dial call attempts will be routed to the attendant.~~

~~STATION HUNTING ARRANGEMENTS~~

~~Directory Number Hunt, Distributed Line Hunt and Uniform Call Distribution are optional main station line hunt arrangements for searching over and distributing calls in a hunt group. These hunts are extensions of the basic multi line hunting feature included in Enhanced Centrex service.~~

~~3. Definitions (Cont'd)~~

~~STATION HUNTING ARRANGEMENTS (Cont'd)~~

~~Directory Number Hunting~~

~~Each line in a Directory Number Hunt group has its own unique directory number. The hunt group is accessed by dialing any number in the hunt group. The number of lines hunted depends on the hunting option (i.e., circular or sequential assigned to the group).~~

~~— Circular hunt permits a complete hunt over all the terminals in the group starting and ending with the dialed number.~~

~~— Sequential hunting starts at the number dialed and ends at the last number in the group.~~

~~Distributed Line Hunting~~

~~With Distributed Line Hunting, hunting starts after the first idle line found by the previous hunt and continues until the starting point is reached. Provides for an equal distribution of calls.~~

~~STATION HUNTING ARRANGEMENTS (Cont'd)~~

~~Uniform Call Distribution (Cont'd)~~

~~Multi-Line Hunt Group (Basic)~~

~~When a call is originated to a busy station line in a basic multi-line hunting group, the call hunts once in a prearranged order for an idle station through all remaining station lines in that group.~~

~~Uniform Call Distribution~~

~~Uniform Call Distribution provides an even distribution of incoming network and intercom calls among the individual main station lines of a hunt group and includes Circular Hunt.~~

~~Call Queuing is an option that may be added to the Uniform Call Distribution arrangement. Queuing permits calls, in excess of main station lines in a Uniform Call Distribution group, to be held in the central office and distributed in their order of arrival to main station lines in the group as the main station lines become available.~~

~~CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)~~

~~C. ENHANCED CENTREX SERVICE (Cont'd) RESERVED FOR FUTURE USE~~

~~6. Payment Schedules (Cont'd)~~

~~d. Credits and Surcharges~~

~~A surcharge that is equivalent to the multi-line business Subscriber Line Charge (SLC) will apply to each Enhanced Centrex line. For each Enhanced Centrex line a credit will be applied which, when combined with the preceding surcharge, will provide a monthly net SLC billing equal to the SLC multiplied by the number of network access registers.~~

~~7. Common Rates and Charges~~

~~a. General~~

~~1) Station Lines~~

- ~~a) The rates and charges specified herein for main station lines provide for main station line components. The main station line consists of all facilities including intercommunication outside plant facilities from the system dial switching equipment to the Network Interface of the main station line.~~
- ~~b) The rates and charges specified herein for main station and extension station lines are applicable to each main station location and extension station location respectively to which a customer provided instrument can be connected.~~

~~7. Common Rates and Charges (Cont'd)~~

~~a. General (Cont'd)~~

~~1) Station Lines (Cont'd)~~

- ~~e) End User charges as specified in the End User Common Access Service Section of the Interstate Access Tariff apply as appropriate.~~
- ~~d) Rates for the main station lines of Enhanced Centrex customers will be based on the following criteria:
  - ~~(1) Distance from the serving wire center.~~
  - ~~(2) The type of payment plan selected by the customer.~~~~
- ~~e) The total main station category size will consist of main station lines and attendant access lines for all locations served by the same Enhanced Centrex system.~~
- ~~f) The distance band will be based on airline mileage from the serving wire center to the Network Interface Location at the customer's premises.~~

(UNITED TELEPHONE EXCHANGES ONLY)~~

~~C. ENHANCED CENTREX SERVICE (Cont'd) RESERVED FOR FUTURE USE~~

~~9. Optional Service Features (Cont'd)~~

~~c. Station Message Detail Recording (SMDR)~~

~~1) General~~

~~a) Station Message detail recording (SMDR) is an arrangement to provide a record, by main station line number, of originating intercity traffic routing over dial type tie lines, WATS, CCSA, interexchange carrier access lines and/or the Toll Network.~~

~~b) The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by the customer for Station Message Detail Recording.~~

~~2) Regulations~~

~~a) Station Message Detail Recording (SMDR) may be offered to main station lines of customers where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.~~

~~c. Station Message Detail Recording (Cont'd)~~

~~2) Regulations (Cont'd)~~

~~b) Station Message Detail Recording is not represented to be a provision of billing detail.~~

~~c) Station Message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the Company's accounting center furnishing the tape. The format may be changed at the discretion of the Company in which case the customer will be responsible for making the tape compatible with his data processing equipment.~~

~~d) Station Message details may be provided on all facilities subscribed to by the customer including Message Telecommunications Service (MTS), but will not include intercom calls originated by the station users. The customer may designate the group or groups of facilities on which SMDR is to be provided. Where the facility designated by the customer is the MTS network, the magnetic tape file will include a record of each message itemized on the customer's bill; e.g., messages received collect or billed to the customer as third number billing will be on the tape file in addition to DDD messages originated by the station user.~~

~~D. EXPRESSTOUCH CENTREX FEATURES~~

~~1. General~~

~~ExpressTouch Centrex features are central office call management features offered to Centrex Basic and Enhanced customers in addition to the optional features offered previously in Section A12 of the tariff.~~

~~2. Regulations of Service~~

~~a. The following regulations apply to the features listed in D.3.:~~

- ~~1) ExpressTouch Centrex features are provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within the Custom Local Area Signaling Services (CLASS) serving areas.~~
- ~~2) ExpressTouch Centrex features are available to both Basic and Enhanced Centrex Service subscribers.~~

~~2. Regulations of Service (Cont'd)~~

~~a. The following regulations apply to the features listed in D.3.: (Cont'd)~~

~~3) In no event shall the Company be held liable for any losses or damages arising from the unavailability or failure of its equipment or facilities, or for any act, omission or failure of performance by the Company or its employees or agents in connection with this service.~~

~~b. The following regulations apply to the Caller ID feature only, in addition to the regulations listed in a. preceding:~~

~~1) If an incoming call is from a caller utilizing a PBX trunk or a rotary line group, the telephone number displayed may be the main number of that PBX or rotary group rather than the directory number accessed by the caller.~~

~~2) The Company will deliver all numbers, subject to the technical limitations defined in this tariff, including telephone numbers associated with Non-Published Listing Service as described in Section A6 of this tariff.~~

~~3) Telephone numbers transmitted via Caller ID are intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this tariff.~~

~~4) Calling numbers will not be displayed on operator-handled calls, access lines where Calling Number Delivery Blocking has been activated, or with calls originating outside of the CLASS serving area as specified in Section A13.~~

~~3. Features~~

- ~~a. Repeat Dialing - When activated, Repeat Dialing automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed and the caller will be notified with a distinctive ring.~~
- ~~b. Call Return - Call Return enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered.~~
- ~~c. Caller ID - This feature enables the customer to view on a display unit the directory number of an incoming telephone call. The display unit may be an ancillary device which is attached to the customer's telephone set or may be a special telephone set with the display unit built in. The calling number will display between the first and second ring.~~
- ~~d. Calling Number Delivery Blocking - This service is provided at no charge to the subscriber. The service will be provided as described in Section A13.~~
- ~~e. Call Tracing~~
  - ~~1) Call Tracing enables the customer to initiate an automatic trace of the last call received. A usage charge will be assessed on a per-occasion basis for each successful trace made. A trace is considered successful when the customer is informed by the voice response unit that the Call Tracing has been successfully completed. Certain types of calls, e.g., out of the area long distance, cannot be traced using this feature.~~

GENERAL EXCHANGE TARIFF

Embarq Florida, Inc

Section A112

By: F. B. Poag  
Director

Original Sheet 2  
Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

A. CENTREX SERVICE

1. General

- a. Centrex Service is a central office communications system package provided in association with individual line exchange business and residence services furnished where available from digital central office equipment located in Company buildings. Centrex is not provided in association with PBX trunks or pay telephone service.
- b. Centrex is offered as a customer option and may be provided subject to the availability of facilities and central office equipment as determined by the Company.
- c. A combination of business and residence lines in a Centrex system is not permitted. All exchange lines in a Centrex system must be of the same type, i.e., must be either flat rate or measured service, and must be billed to the same account.
- d. Centrex provides for a system accommodating from one to twenty-five central office lines. All exchange access lines terminating in a Centrex system must be served by the same central office.
- e. Suspension of service as provided in Section A2 of this Tariff, is permitted in connection with Centrex.
- g. The quality of transmission for calls utilizing call forwarding or conferencing may vary depending on the distance and routing involved.
- h. Customer premises equipment associated with this service is provided by the customer.
- i. Payment Plans
  - 1) A minimum term payment plan of twelve months shall be applicable to Basic Centrex Systems.
  - 2) The termination liability for the Basic Centrex System is such that if a subscriber terminates their Centrex service prior to the expiration of the twelve month period, the subscriber shall immediately pay a termination liability in the amount of 100% of the monthly charges remaining in that twelve month period.
  - 3) At the expiration of the 12 month service period, the subscriber's service period will automatically renew for successive periods of 12 months each at the then current tariff rates, unless the subscriber provides written or verbal notice of termination at least thirty (30) days in advance of any scheduled renewal.

Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

A. CENTREX SERVICE (Cont'd)

2. Basic System

a. Standard Features

1) Call Hold

Allows a station user to place a call on hold by flashing the switchhook and dialing a code.

2) Call Pickup

Allows a station user to answer another station users incoming call within a defined group by dialing a code.

3) Ring Again (Camp On)

Allows a station user encountering a busy station, within the same station group, to be notified when the busy station becomes idle and to be placed automatically in a ring again mode.

4) Station-To-Station Calling

Allows stations within a group to complete calls to other stations within the same group without the assistance of an attendant, by dialing a 2 through 7 digit number.

5) Three-Way Conference/Transfer/Consultation Hold

Allows a station user to establish three-way conference calls and provides the capability to transfer incoming, outgoing, and intragroup calls. The user may also place a call on hold to consult privately with a third party.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

A. CENTREX SERVICE (Cont'd)

2. Basic System (Cont'd)

b. Optional Features

1) Call Forward - Don't Answer

Allows for forwarding of an incoming call to a preselected line within the system when the called line does not answer after a predetermined number of rings.

2) Call Forward - Busy

Allows for forwarding of an incoming call to a preselected line within the system when the called station is in use.

3) Call Forwarding

Allows all calls to a line equipped with Centrex to be automatically forwarded to a selected line within the system or outside the system.

4) Call Waiting

Provides the station user, who is busy on an existing call, with a private tone signal which indicates that another call is waiting. The station user may then ignore the waiting call; or terminate the original call and answer the waiting call; or, through the use of switchhook flashes, put the original call on hold and receive the waiting call; or alternately talk on both calls until one is terminated. (This feature cannot be utilized if Call Forward - Busy or Call Forward - Don't Answer is activated.)

5) Class-of-Service Restrictions

Provides the ability to allow or deny all calls originating or terminating on individual stations and tie trunks. Three types are offered.

a) Fully Restricted Service - stations are denied access to the exchange network.

b) Toll Restricted Service - restricts stations from toll calls.

c) Unrestricted Service - no restriction on calls.

6) Station Controlled Conference

Allows a station user to establish a conference call consisting of three to six conferees.

7) Meet-Me-Conference

Provides one six-party conference bridge and directory number for conferees to dial at a specified time to hold a conference.

8) Speed Call - Station

Allows a station user to reach frequently dialed numbers by dialing an abbreviated code.

- a) Speed Call 10 - 1-10 telephone numbers
- b) Speed Call 30 - 1-30 telephone numbers
- c) Speed Call 50 - 1-50 telephone numbers

9) Speed Call - Group

Provides all lines with the ability to dial telephone numbers from a group list by dialing an abbreviated code.

- a) Group Speed Call 30 - up to 30 telephone numbers
- b) Group Speed Call 50 - up to 50 telephone numbers

10) Automatic Line

A predetermined telephone number is automatically dialed when the station handset is taken off-hook.

11) Call Park

Allows a station user to put the call on hold and then retrieve the call at another extension.

12) Station Hunting

Provides Directory Number Hunt, Circular Line Hunt and Multi-line Hunt arrangements.

13) Off-Premises Extension Station

Permits access to Centrex features for a station that is located off the customers premises but within the same central office.

14) Centrex Toll Free Code (TFC) Service

A feature designed to meet the needs of Centrex customers who utilize TFC Service by providing the TFC Service connection to Centrex equipped lines in the serving central office.

15) Centrex OUTWATS

A feature designed to meet the needs of Centrex customers who utilize OUTWATS by providing the OUTWATS connection to Centrex equipped lines in the serving central office through dial access.

16) Centrex OUTWATS/Callback Queue

A feature designed to meet the needs of Centrex customers who utilize OUTWATS by providing the OUTWATS connection to Centrex equipped lines in the serving central office through dial access. The queue feature allows the central office to signal a waiting OUTWATS user when the line is available.

17) Multiple Appearance Directory Number (MADN)

Permits the assignment of a directory number to more than one business set.

Multiple call arrangement - allows simultaneous use of more than one business set with the same directory number.

Single call arrangement - allows only one business set with the same directory number to be used at any given time.

18) Auto Answer Back

An incoming call is automatically answered through a hands free unit after four seconds.

19) Fictitious Directory Number

Permits the assignment of more than one directory number to the same station line.

20) Music-On-Hold

Provides music to the calling party while on hold. This feature is only available in central offices which currently have music sources.

B. ENHANCED CENTREX SERVICE

1. General

- a. Enhanced Centrex is furnished from digital central office equipment located on Company premises and associated facilities so arranged as to provide the following basic service features:
- 1) Direct Inward Dialing (DID) and Direct Outward Dialing (DOD) of exchange and long distance message network calls to and from stations and attendant positions of an Enhanced Centrex system.
  - 2) Intercommunication calls between stations of the same Enhanced Centrex system.
  - 3) Identified Outward Dialing (IOD), by station number of outgoing long distance message calls dialed by a station. Only calls billed to the subscriber by this Company will be provided this identification.
  - 4) Common recorded announcement interception of calls to unassigned station numbers.
  - 5) Basic Station Line Hunting.
- b. Enhanced Centrex Service, terminating at a single customer premises location, will be furnished in two categories, based on the size of the subscriber's system.
- 1) Systems with 26-75 Station Lines.
  - 2) Systems with 76-150 Station Lines.

GENERAL EXCHANGE TARIFF

Embarq Florida, Inc

Section A112

By: F. B. Poag  
Director

Original Sheet 12  
Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

B. ENHANCED CENTREX SERVICE (Cont'd)

1. General (Cont'd)

c. An Enhanced Centrex System may be comprised of the following components:

Common Equipment  
Network Access  
Main Station Lines  
Terminating Arrangements  
Features

The Common Equipment, Network Access, Main Station Lines and Features components will be included in every system.

The Common Equipment, Network Access and Terminating Arrangements will be at the rates and charges as specified in ¶ B. 7. of this section of the tariff.

Main Station Line rates will consist of the intercom charge and the appropriate wire center line mileage charge. These charges are located in ¶ B. 8. of this section of the tariff.

2. Regulations

- a. Enhanced Centrex service is furnished subject to the availability of facilities and features from digital central office equipment, located in a central office building owned or leased by the Company. The service allows for normal station activity including incidental additions and deletions. Major additions to and/or major relocations of Enhanced Centrex systems are subject to the same rules and regulations as initial installations.
- b. Certain auxiliary services are available on an individual main station line basis and are subject to the capabilities of the serving central office.
- c. Optional Service Features as listed in ¶ B. 9. include Attendant Features and Auxiliary Attendant Features. These features may require customer provided compatible terminal equipment.
- d. All console functions by the attendants at the subscriber's premises are performed at the expense of the subscriber and must conform with the operating practices and procedures of the Company to maintain a proper standard of service.
- e. All Enhanced Centrex main station lines must be associated with the main switching equipment. Satellite switching equipment is not offered with Enhanced Centrex service.

Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

B. ENHANCED CENTREX SERVICE (Cont'd)

2. Regulations (Cont'd)

- f. Tie lines for direct connections between a basic Enhanced Centrex system and other systems are provided primarily for communication between stations of the two systems. In such cases, rates and charges for tie line service as specified in A13 of this Tariff and miscellaneous line termination charges apply. In addition, these tie line connections may be arranged to provide completion of incoming or outgoing local and long distance calls through the Enhanced Centrex system to or from other systems provided such connections to the exchange or long distance network are only made at one system at a time.
- g. Where completion of incoming and outgoing local and long distance calls through an Enhanced Centrex system is furnished to or from main station lines of a separate Enhanced Centrex system in another exchange, the charges applicable for the following features apply in addition to the regular charges for the facilities connecting the systems.
  - 1. Rates and charges as specified in Section B3 of the Southern Bell Private Line Service Tariff apply to miscellaneous lines furnished with unique access codes (trunk level access).
  - 2. Enhanced Centrex optional feature charges as outlined in Section C B. 9 apply for each trunk terminated main station line as offered in Section C B. 7 of this Tariff, as appropriate.
- h. A system may not be provided for Intercommunication (stand alone) service only. Access to the Exchange Network must be provided.
- i. A combination of Flat Rate and Message Rate Service will not be allowed within a single customer system except as provided in Section A2 of this tariff.
- j. Suspension of Enhanced Centrex Service as described in A2 will be permitted.
- k. A twelve month minimum term payment plan shall be applicable to Enhanced Centrex systems.
- l. Directory Listings will be furnished subject to the rates and regulations specified in Section A6 of this Tariff

GENERAL EXCHANGE TARIFF

Embarq Florida, Inc

Section A112

By: F. B. Poag  
Director

Original Sheet 14  
Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

B. ENHANCED CENTREX SERVICE (Cont'd)

2. Regulations (Cont'd)

- n. The number of simultaneous exchange and toll network calls to and from main station lines and attendant positions of an Enhanced Centrex system is limited by the number of Network Access Registers subscribed to by the customer. Each Network Access Register may be arranged for two-way, one-way incoming or one-way outgoing operation depending upon the option of the customer at the time the Network Access Register is installed. When a change in the type of operation is requested by the customer, the appropriate Service Charges as specified in Section A4 of this Tariff apply per Network Access Register affected.
- o. Service charges, as specified in Section A4 of this Tariff, apply to all Enhanced Centrex systems except as provided in § B. 5. of this Tariff.
- p. Enhanced Centrex installation charges are due on initial installation or subsequent additions unless deferred over a predetermined period of time as specified in Section A22 of this Tariff.
- q. Enhanced Centrex main station lines may be restricted from dialing three-digit central office and service codes by applying Code Restriction to the line. The three-digit codes which may be restricted constitute those codes to which Public Announcement, Directory Assistance or Dial-It type pay-to-listen services (e.g., 900 and 976 calls) are assigned which could generate billing to the originating main station line. Code Restriction arrangements may also be used to prohibit toll calls to a carrier other than the Presubscribed Interexchange Carrier (dialed 101XXXX). InterLATA calls dialed 0- (operator handled) calls cannot be restricted.
  - 1) At the time a Code Restriction arrangement is installed, the Enhanced Centrex system will be arranged for the Code Restriction specified by the customer and the main station lines designated by the customer will be so equipped. When the customer requests the subsequent addition or removal of code restriction on a main station line, the appropriate Service Charges as specified for a change in line termination apply per main station line affected. No such charges apply when the Code Restriction arrangement is disconnected in its entirety.
  - 2) Where Code Restriction applies to a particular central office code, direct outward dialed main station line access is denied to telephone numbers associated with that central office code.
  - 3) Code Restriction arrangements to deny access to Directory Assistance and/or Public Announcement Services are not guaranteed. These features are intended to limit main station line direct dialed outgoing calls, but such calls may, in certain circumstances, be completed and will be charged for in the normal manner.
- r. The first system established per customer within a central office must consist of a minimum of twenty-six (26) main station lines.

B. ENHANCED CENTREX SERVICE (Cont'd)

3. Definitions

ACCESS LINES TO CUSTOMER PROVIDED FEATURES

Allows dial access from Enhanced Centrex service for connection to customer provided features. (Code Calling, Loudspeaker Paging, Radio Paging, Dictation and Music)

ATTENDANT AUTODIAL

This feature permits an attendant to dial frequently called numbers by depressing the Autodial feature key, which is programmed with the number.

ATTENDANT CAMP-ON AND CAMP-ON MODE OPTIONS

This feature allows incoming listed number calls, which the attendant attempts to complete to a busy main station line, to be held waiting and then automatically connected when the called main station line becomes available. An indication of camp-on will be given to the busy main station line each time the attendant attempts a completion.

ATTENDANT CONFERENCE

Using a six-port conference circuit, an attendant may interconnect up to five conferees on one call. The sixth port is required for attendant access.

ATTENDANT GROUP TRUNK ACCESS CONTROL

This feature utilizes special keys on the customer provided attendant console to serve as a common interface for trunk group busy and trunk group access for all trunk groups allocated to the customer group.

ATTENDANT POSITION

Customer-provided terminal equipment utilized for attendant control and call connecting functions.

ATTENDANT RECALL TIMER

This feature returns attendant-extended calls to a main station to the attendant after a prescribed waiting period if the main station user is unable to answer.

ATTENDANT SERVICE

Incoming calls to the main listed number are answered by an attendant, who may complete the call to the desired main station line by means of the Call Transfer feature. An unrestricted or semi-restricted main station line user may dial the attendant over attendant lines to secure help in the completion of an outgoing call by means of Dial "O" calling.

3. Definitions (Cont'd)

AUTOMATIC CALLBACK/RING AGAIN

Automatic Callback permits a main station line user who attempts an intercommunication call to a busy main station line to be automatically connected to that line when both called and calling lines are subsequently idle.

AUTOMATIC LINE

See Direct Connect Number.

AUTOMATIC ROUTE SELECTION

Automatic Route Selection is an optional feature, available where facilities permit, that allows station users, by dialing a preselected code to automatically select the preferred route subscribed for by a customer for network calls. Alternate routing to other facilities, subscribed to by the customer, is also provided. This arrangement is available for use with Foreign Exchange (FX), WATS, CCSA off-net, tie lines and Interexchange Carrier (IC) access lines which are compatible with Automatic Route Selection and toll network facilities.

BASIC TERMINATIONS

See Miscellaneous Line Terminations.

CALL-BACK QUEUE

See Queuing.

CALL FORWARDING - ALL CALLS

Automatically routes all incoming calls to the attendant or a predetermined telephone number.

CALL FORWARDING-BUSY LINE

Automatically routes calls to the attendant or preselected main station line when the called main station line is busy.

CALL FORWARDING-NO ANSWER

Automatically routes calls to the attendant or preselected main station line when the called main station line doesn't answer within the preset ringing cycle.

B. ENHANCED CENTREX SERVICE (Cont'd)

3. Definitions (Cont'd)

CALL HOLD

Allows a main station line user to place any call involving their main station line on hold by flashing and dialing a special code. The main station line is then free to originate another call. The first call is retrieved by dialing the hold code a second time.

CALL PARK

Call Park allows the attendant to park calls against any directory in the attendant customer group. The parked call may be retrieved from any station by dialing the feature access code for retrieval plus the directory number.

CALL PICKUP

Allows a main station line user to answer calls directed to another main station line within the same preset call pick-up group.

CALL TRANSFER

Call Transfer provides for the transfer of calls by an Enhanced Centrex station. The Call Transfer feature is needed in addition to Three-way Calling if the station's type of call transfer is different from the call transfer type selected for the customer's group.

CALL WAITING-DIAL

The Dial Call Waiting feature provides the ability for originating main station lines to invoke call waiting service on selected intragroup calls by dialing an access code followed by the extension number of the main station line to be call waited.

CALL WAITING-EXEMPT

Prevents the Call Waiting-Originating or the Dial Call Waiting features from being imposed on the line when the station is busy.

CALL WAITING-ORIGINATING

Allows an equipped main station line to send the Call Waiting tone to any busy main station line in the same system.

CALL WAITING-TERMINATING

Informs a busy main station line, when the main station line is so equipped, that an incoming call is waiting (burst of tone). Permits holding the present connection while answering the new call then return to the original connection.

GENERAL EXCHANGE TARIFF

B. ENHANCED CENTREX SERVICE (Cont'd)

3. Definitions (Cont'd)

CODE RESTRICTION ARRANGEMENTS

A Code Restriction Arrangement automatically denies a portion of all main station lines of a Enhanced Centrex system direct outward dialing access to one or more three-digit codes within the local calling area in which the system is located. Code restriction provides a distinctive tone to indicate that access is not permitted on call attempts.

CONFERENCE CALLING-STATION

Allows a main station user to establish a conference connection of up to six conferees (including the originator) without the aid of the attendant.

CONSULTATION HOLD-ALL CALLS

Allows a main station user to place a call on hold by depressing the switchhook, at which time dial tone is returned. The station user may then proceed to establish connection with another internal station or outside party, and after speaking with the "consulted" party, the station user may (1) return to the call initially held, (2) depress the switchhook thereby effecting Add-On Conference or (3) hang up and effect transfer of the initial call to the consulted party.

CUSTOMER GROUP

A Customer Group is that portion of the memory storage in the serving central office that contains the features for a specific system.

DATA CALL PROTECTION

Data Call Protection prevents calls from being interrupted by call waiting tones, testing or busy verification attempts. Data call protection is not customer changeable and lines assigned this feature may not utilize call transfer or conference capabilities.

DIAL "O" CALLING

Dial "O" Calling permits a main station line user to reach an attendant position by dialing the single digit "O".

DIAL CODE SENDING (CODE CALLING) FEATURE

Code Calling provides dial access to customer-premises located code calling equipment by main station line, attendant access and tie lines of an Enhanced Centrex system. The dialed two or three digit code activates signaling devices on the customer's premises to produce a coded signal corresponding to the dialed code. The called party, upon recognition of the signal, is automatically connected to the calling party by dialing a special code from any main station line in the system.

3. Definitions (Cont'd)

DIAL THRU ATTENDANT

This feature allows main station line users to complete dialing on other than station-to-station calls after the attendant selects the trunk facility.

DIRECT CONNECT NUMBER/AUTOMATIC LINE

Station specially programmed to dial a predetermined telephone number when the station user goes off-hook.

DIRECT INWARD DIALING

Incoming calls from the exchange or toll network may be dialed directly or any called main station line served by the Enhanced Centrex main switching equipment without the help of an attendant.

DIRECT OUTWARD DIALING

Outward calls may be dialed directly from any unrestricted main station line served by the Enhanced Centrex main switching equipment without the help of an attendant.

DIRECTED CALL PICK-UP - NONBARGE-IN

The Directed Call Pick-Up - Nonbarge-In feature allows a main station line user to pick up an unanswered call to another main station line equipped with Directed Call Pick-Up by dialing a special answer code plus the number of the main station line being rung. If the main station line being rung has already answered, busy tone will be returned to the main station line user dialing the answer code and station line number.

DIRECTED CALL PICK-UP -NONBARGE-IN EXEMPT

Directed Call Pick-Up - Nonbarge-In Exempt allows a station to be exempt from Directed Call Pick-Up Non-Barge In.

DIRECTORY NUMBER HUNTING

See Station Hunting Arrangements

DISTINCTIVE CALL WAITING TONES

Distinctive Call Waiting provides different tones for an incoming waiting call depending on whether the incoming call is internal or external.

3. Definitions (Cont'd)

DISTRIBUTED LINE HUNTING

See Station Hunting Arrangements

EXECUTIVE BUSY OVERRIDE

Executive Busy Override allows a station user to gain access to a busy station within the same system. A warning tone is transmitted to the called station and then a three-way call is established.

EXECUTIVE BUSY OVERRIDE-EXEMPT

A line equipped with this feature is exempt from override attempts.

FACILITY GROUPS

Provides simulated trunk group access for miscellaneous line terminations. A Facility Group may be one-way (incoming or out-going) or two-way operational.

INTERCEPT

Intrasystem and incoming network calls dialed to unassigned numbers are routed to recorded announcements.

INTERPOSITION TRANSFERS

This feature allows an attendant to call and speak to another attendant and to transfer a call to another attendant.

MAIN STATION EXTENSION SERVICE

Main station extension service consists of an additional station or stations on the same station circuit as the associated main station.

MAIN STATION LINE

A main station line connects customer provided terminal equipment to the serving central office.

3. Definitions (Cont'd)

MISCELLANEOUS LINE TERMINATIONS

Miscellaneous lines are those lines not basic to the system; such as tie lines, WATS, Foreign Exchange, CCSA, etc., which required switching capabilities in order to function with Enhanced Centrex service.

MULTI-LINE HUNT GROUP (Basic)

See Station Hunting Arrangements

NETWORK ACCESS REGISTER

The Network Access Register provides for exchange and long distance message network calling to and from main stations and attendant positions of an Enhanced Centrex system

NETWORK CLASS OF SERVICE

This feature provides the capability to allow or deny types of calls to a station on both an incoming and an outgoing basis.

OFF-HOOK QUEUE

See Queuing.

PERMANENT HOLD

Allows a main station user to place any call involving their main station line on hold by flashing the switchhook and dialing a special code. When Permanent Hold is activated no calls can be originated or terminated from the main station line. The first call is retrieved by going off-hook. If the call is not retrieved within a time designated by the customer, the station line will ring and the held call will be returned.

B. ENHANCED CENTREX SERVICE (Cont'd)

3. Definitions (Cont'd)

QUEUING

Queuing permits station users to be placed in a queue whenever the first choice route for completing a particular call is already in use. Two queuing arrangements are available:

- A Call-Back Queue, in which case the calling station goes on-hook and is called back when a facility becomes available.
- An Off-Hook Queue, in which case the calling station remains off-hook and is held in queue until a facility becomes available.

RING AGAIN

See Automatic Callback.

SPEED CALLING

Lets the main station line user place calls to a list of frequently called telephone numbers by dialing fewer digits than the complete directory number.

STATION DIRECT INWARD DIALING RESTRICTION

Permits the customer to have selected main station lines restricted from receiving Direct In-Dialed calls from the MTS network. Direct In-Dial call attempts will be routed to the attendant.

STATION HUNTING ARRANGEMENTS

Directory Number Hunt, Distributed Line Hunt and Uniform Call Distribution are optional main station line hunt arrangements for searching over and distributing calls in a hunt group. These hunts are extensions of the basic multi line hunting feature included in Enhanced Centrex service.

3. Definitions (Cont'd)

STATION HUNTING ARRANGEMENTS (Cont'd)

Directory Number Hunting

Each line in a Directory Number Hunt group has its own unique directory number. The hunt group is accessed by dialing any number in the hunt group. The number of lines hunted depends on the hunting option (i.e., circular or sequential assigned to the group).

- Circular hunt permits a complete hunt over all the terminals in the group starting and ending with the dialed number.
- Sequential hunting starts at the number dialed and ends at the last number in the group.

Distributed Line Hunting

With Distributed Line Hunting, hunting starts after the first idle line found by the previous hunt and continues until the starting point is reached. Provides for an equal distribution of calls.

Multi-Line Hunt Group (Basic)

When a call is originated to a busy station line in a basic multi-line hunting group, the call hunts once in a prearranged order for an idle station through all remaining station lines in that group.

Uniform Call Distribution

Uniform Call Distribution provides an even distribution of incoming network and intercom calls among the individual main station lines of a hunt group and includes Circular Hunt.

- Call Queuing is an option that may be added to the Uniform Call Distribution arrangement. Queuing permits calls, in excess of main station lines in a Uniform Call Distribution group, to be held in the central office and distributed in their order of arrival to main station lines in the group as the main station lines become available.

B. ENHANCED CENTREX SERVICE (Cont'd)

3. Definitions (Cont'd)

STATION IDENTIFICATION

An itemized list of toll calls is shown on the toll bill with the number of each originating main station line.

STATION MESSAGE DETAIL RECORDING - (SMDR)

Station Message Detail Recording (SMDR) is an arrangement to provide a record by main station line number of originating intercity traffic routing over dial type tie lines, WATS, CCSA, interexchange carrier access lines and/or the Toll Network.

The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by the customer for Station Message Detail Recording.

STATION-TO-STATION CALLING

Calls may be dialed directly between any two main station lines of an Enhanced Centrex system.

THREE-WAY CALLING

Allows a station user to add a third party to an existing two-party conversation.

TOLL DIVERSION

Toll Diversion automatically denies station direct-dialing access to the long distance message network. Station users attempting to place such calls are diverted to the attendant.

TOLL RESTRICTION

Toll restriction automatically denies station direct-dialing access to the long distance message network.

Station users attempting to place such calls will receive an announcement or a signal to indicate that access is denied.

TRUNK EQUIPMENT

See Miscellaneous Line Termination

UNIFORM CALL DISTRIBUTION

See Station Hunting Arrangements

Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

B. ENHANCED CENTREX SERVICE (Cont'd)

4. Intercept of Calls to Unassigned Station Lines

- a. Incoming calls from the exchange and toll networks to unassigned station lines are intercepted by the same standard central office recorded announcement equipment used to intercept such calls for exchange services. The announcement provided states that the number called is not in service.
- b. Intercommunicating calls to unassigned station lines are intercepted by central office recorded announcement equipment which is common to all Enhanced Centrex systems served out of the same office. The announcement states that the number is not in service and advises that the attendant or the directory of the caller's system should be consulted.

5. Conversion of Basic Centrex Service to Enhanced Centrex Service

- a. When a Basic Centrex customer elects to convert to Enhanced Centrex Service, service connection charges do not apply to existing in-service station lines, terminating arrangements, toll diversion and toll restriction equipped station lines, conference arrangements and other optional features and/or services provided such services and features are offered under Enhanced Centrex and each of the following conditions are met:
  - 1) The customer's system must continue to be served by the same central office equipment or the customer is moved to other central office equipment at the Company's instance.
  - 2) There must be no interruption of service.
  - 3) There are no moves or changes in existing station lines, terminating arrangements, or optional features requested by the customer.
- b. Basic Centrex Services converting to Enhanced Centrex Service must elect a Term Payment Plan of 12, 36 or 60 months as described in § B. 6. following.
- c. If the customer elects a Term Payment Plan of 12, 36 or 60 months and wishes to add to his system, such additions shall be made within a scheduled period after the conversion at the rates and charges in this and other tariff sections for Enhanced Centrex Service and the associated features and services.
- d. A customer converting from Basic to Enhanced Centrex will be given credit on the Enhanced Centrex system establishment charge for any Basic system establishment charge paid.

Director

Original Sheet 26  
Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

B. ENHANCED CENTREX SERVICE (Cont'd)

6. Payment Schedules

a. General

1) Enhanced Centrex service is offered under the following contract periods:

12 Month Term Payment Plan  
36 Month Term Payment Plan  
60 Month Term Payment Plan

2) The following items that may be placed under the Term Payment Plan:

Main Station Lines  
Extension Station Lines  
Line Feature Options  
Optional Service Features  
System Common Equipment  
Terminating Arrangements  
Attendant Features

3) The monthly rate for Enhanced Centrex service is dependent upon the payment period selected by the customer.

4) The monthly rate for Enhanced Centrex service under the Term Payment Plan for the periods of 12, 36 or 60 months is not subject to Company initiated rate increases.

b. Expiration of Contract Period

At the expiration of the term payment plan service period, the subscriber may elect a new term payment service period. If the subscriber does not elect a new term payment service period, the service will automatically renew for successive periods of 12 months each at the then current tariff rates, unless the subscriber provides written or verbal notice of termination at least thirty (30) days in advance of any scheduled renewal.

c. Termination Liability

Contract termination liability for the 12, 36, or 60 month Term Payment Plan is such that if a subscriber terminates their Centrex service prior to the expiration of the Term Payment Plan service period, the subscriber shall immediately pay a termination liability in the amount of 100% of the monthly charges remaining in the term payment period selected.

d. Credits and Surcharges

A surcharge that is equivalent to the multi-line business Subscriber Line Charge (SLC) will apply to each Enhanced Centrex line. For each Enhanced Centrex line a credit will be applied which, when combined with the preceding surcharge, will provide a monthly net SLC billing equal to the SLC multiplied by the number of network access registers.

B. ENHANCED CENTREX SERVICE (Cont'd)

7. Common Rates and Charges

a. General

1) Station Lines

- a) The rates and charges specified herein for main station lines provide for main station line components. The main station line consists of all facilities including intercommunication outside plant facilities from the system dial switching equipment to the Network Interface of the main station line.
- b) The rates and charges specified herein for main station and extension station lines are applicable to each main station location and extension station location respectively to which a customer-provided instrument can be connected.
- c) End User charges as specified in the End User Common Access Service Section of the Interstate Access Tariff apply as appropriate.
- d) Rates for the main station lines of Enhanced Centrex customers will be based on the following criteria:
  - (1) Distance from the serving wire center.
  - (2) The type of payment plan selected by the customer.
- e) The total main station category size will consist of main station lines and attendant access lines for all locations served by the same Enhanced Centrex system.
- f) The distance band will be based on airline mileage from the serving wire center to the Network Interface Location at the customer's premises.
  - 1) Where main stations are in a foreign exchange (FX) or a foreign central office (FCO) area the distance band will be calculated from the FX or the FCO to the Network Interface Location serving those main stations.
  - (2) Systems with more than one location served by the same Enhanced Centrex control group will calculate the distance band per location.

7. Common Rates and Charges (Cont'd)

a. General (Cont'd)

1) Station Lines (Cont'd)

g) In a different wire center serving area of a multi-office exchange:

(1) The rate for Enhanced Centrex Service in an FX or FCO area is the monthly rate for the Enhanced Centrex service desired, plus an FX or FCO mileage charge as specified in Section A9 of this Tariff.

(2) When Enhanced Centrex main station lines are connected by facilities which are routed between two or more wire centers in the same exchange, the foreign central office mileage charge is calculated separately on an airline basis between the wire center from which the system is served and the wire center from which exchange service normally would be rendered.

h) Rates, charges, liabilities and additional regulations if applicable may be developed on an individual basis for main station lines exceeding two (2) airline miles from the serving central office.

i) Exchange Access

(1) Exchange Access is provided by means of Network Access Registers.

(2) Presubscription of a Carrier of Preference is specified in Section 13 of Interstate Access Tariff and Section E13 of the Intrastate Access Tariff.

7. Common Rates and Charges (Cont'd)

b. Nonrecurring Charges

The following nonrecurring charges for service are in addition to any applicable service connection, move, change and installation charges provided for in other sections of this Tariff.

1) Service Establishment Charge-Per system, per customer premises location

<u>26-75 line system</u>	<u>\$1,100.00</u>
<u>76-150 line system</u>	<u>\$2,300.00</u>

2) Feature Add or Change Charge

a) These charges apply as specified, when a feature is added or changed. These charges apply in addition to other applicable non-recurring charges.

(b) One or more features may be provided at the same time and in such instances the specified feature establishment charge will apply per request per station.

<u>Per standard instrument</u>	<u>\$ 5.75</u>
<u>Per Business Set</u>	<u>8.35</u>
<u>Per attendant console</u>	<u>15.75</u>

3) Installation charges are in addition to other appropriate nonrecurring charges for the service.

4) Service Connection Charges as specified for Business Service in Section A4 of this Tariff are applicable to each main station line, console access loop, extension station line, etc.

9. Optional Service Features (Cont'd)

b. Central Office Features Associated with Customer Provided Electronic Telephone Sets

1) General

Access to the following features via customer provided station equipment will be provided according to the interface specifications for the DMS 100 central office switcher.

2) Regulations

- a) Each station location will require a main station access line charge as specified in Section A3 of this tariff.
- b) Main station lines terminated in customer provided electronic telephone sets must be via non-loaded facilities.
- c) Each main station set must have a primary Directory Number associated with it.
- d) Features associated with the electronic set only will be charged per main station.
- e) Features associated with the Directory Number(s) terminated on the main station will be charged per Directory Number activated.
- f) Features assigned to keys on an electronic set must also have the feature assigned to the main station line.
- g) Features associated with a dedicated key on the electronic set will be charged per key assigned.
- h) A main station set may have a Private Business Line (PBL) appearing as one of the Directory Number keys.
- i) Rates and Charges for an individual business line service as specified in Section A3 of this Tariff will apply for the Private Business Line. The number assigned to a PBL will be outside the Enhanced Centrex station range. The PBL cannot use the code access features available on the main station set. Services such as Custom Calling cannot be assigned to a PBL.

Director

Original Sheet 48  
Effective: December 1, 2006

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

B. ENHANCED CENTREX SERVICE (Cont'd)

9. Optional Service Features (Cont'd)

c. Station Message Detail Recording (SMDR)

1) General

a) Station Message detail recording (SMDR) is an arrangement to provide a record, by main station line number, of originating intercity traffic routing over dial type tie lines, WATS, CCSA, interexchange carrier access lines and/or the Toll Network.

b) The station message detail will include the calling main station line number, the called number, date, time of day, duration of call and the type of facility used. The record will be provided on magnetic tape to customers requiring message detail for cost allocation and telecommunications system management purposes. The detail will be provided on all facilities in routes selected by the customer for Station Message Detail Recording.

2) Regulations

a) Station Message Detail Recording (SMDR) may be offered to main station lines of customers where facilities permit and where the Company's message billing process has been arranged to provide this optional feature.

b) Station Message Detail Recording is not represented to be a provision of billing detail.

c) Station Message details will be provided on magnetic tape. The tape density and number of tracks will be that used by the program and data processing system in use by the Company's accounting center furnishing the tape. The format may be changed at the discretion of the Company in which case the customer will be responsible for making the tape compatible with his data processing equipment.

d) Station Message details may be provided on all facilities subscribed to by the customer including Message Telecommunications Service (MTS), but will not include intercom calls originated by the station users. The customer may designate the group or groups of facilities on which SMDR is to be provided. Where the facility designated by the customer is the MTS network, the magnetic tape file will include a record of each message itemized on the customer's bill; e.g., messages received collect or billed to the customer as third number billing will be on the tape file in addition to DDD messages originated by the station user.

9. Optional Service Features (Cont'd)

	Feature Establishment Charge	Term Payment Plan		
		12 Months	36 Months	60 Months
<u>h. Electronic Switched Network (ESN) - Basic Standard Package)</u>				
per system	\$2500.00	\$ 75.00	\$ 75.00	\$75.00
<u>ESN Connections</u>				
per interoffice connection	42.50	19.60	18.10	16.60

The basic ESN network package includes the following features:

- 1) Network Class of Service - determines call privileges for calls transversing the network.
- 2) Network Information Signals - proprietary signaling that provides compatibility between switches equipped with the ESN signaling package and within a customer's private network.
- 3) Network-Wide Automatic Route Selection - provides for effective use of available network resources through the use of routing strategies.

C. EXPRESSTOUCH CENTREX FEATURES

1. General

ExpressTouch Centrex features are central office call management features offered to Centrex Basic and Enhanced customers in addition to the optional features offered previously in Section A12 of the tariff.

2. Regulations of Service

a. The following regulations apply to the features listed in D C.3.:

- 1) ExpressTouch Centrex features are provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within the Custom Local Area Signaling Services (CLASS) serving areas.
- 2) ExpressTouch Centrex features are available to both Basic and Enhanced Centrex Service subscribers.
- 3) In no event shall the Company be held liable for any losses or damages arising from the unavailability or failure of its equipment or facilities, or for any act, omission or failure of performance by the Company or its employees or agents in connection with this service.

b. The following regulations apply to the Caller ID feature only, in addition to the regulations listed in a. preceding:

- 1) If an incoming call is from a caller utilizing a PBX trunk or a rotary line group, the telephone number displayed may be the main number of that PBX or rotary group rather than the directory number accessed by the caller.
- 2) The Company will deliver all numbers, subject to the technical limitations defined in this tariff, including telephone numbers associated with Non- Published Listing Service as described in Section A6 of this tariff.
- 3) Telephone numbers transmitted via Caller ID are intended solely for the use of the Caller ID subscriber. Resale of this information is prohibited by this tariff.
- 4) Calling numbers will not be displayed on operator-handled calls, access lines where Calling Number Delivery Blocking has been activated, or with calls originating outside of the CLASS serving area as specified in Section A13.

CENTRAL OFFICE NON-TRANSPORT SERVICE OFFERINGS  
(UNITED TELEPHONE EXCHANGES ONLY)

C. EXPRESSTOUCH CENTREX FEATURES (Cont'd)

3. Features

- a. Repeat Dialing - When activated, Repeat Dialing automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed and the caller will be notified with a distinctive ring.
- b. Call Return - Call Return enables a customer to place a call to the telephone number associated with the most recent call received, whether or not the call was answered.
- c. Caller ID - This feature enables the customer to view on a display unit the directory number of an incoming telephone call. The display unit may be an ancillary device which is attached to the customer's telephone set or may be a special telephone set with the display unit built-in. The calling number will display between the first and second ring.
- d. Calling Number Delivery Blocking - This service is provided at no charge to the subscriber. The service will be provided as described in Section A13.
- e. Call Tracing
  - 1) Call Tracing enables the customer to initiate an automatic trace of the last call received. A usage charge will be assessed on a per-occasion basis for each successful trace made. A trace is considered successful when the customer is informed by the voice response unit that the Call Tracing has been successfully completed. Certain types of calls, e.g., out of the area long distance, cannot be traced using this feature.
  - 2) Upon activation by the customer, the call tracing information (calling and called number, the time the call was received, and the time the trace was activated) is recorded and stored until requested by an authorized law enforcement agency. The information collection process is instantaneous and the customer using this feature will be notified immediately if the trace was successful and will then be instructed to contact the local law enforcement agency if they wish to file a complaint. The customer is not provided the traced number.
  - 3) If the customer receives another call prior to activating the trace, or receives a Call Waiting indication during the call to be traced, Call Tracing will not record the correct number.
- f. Call Tracing Denial - This service allows the Call Tracing feature to be blocked. To initiate the blocking feature the customer must contact the Company. The Company will then install the blocking feature on the customer's line. The blocking feature cannot be deactivated by the customer. This feature is provided at no charge to the customer.
