Section 20 COMPLETION OF INTRALATA-INTERCOMPANY LONG DISTANCE MTS AND WATS CALLS

This is a new section and is not part of the National Exchange Carrier Association F.C.C. Tariff No. 5.

20.1 General Description

This section of the Access Service Tariff sets forth the procedures and charges for Local Exchange Companies (LECs) to render payment to other LECs for intraLATA-intercompany Long Distance Message Telecommunications Service (LDMTS) and Wide Area Telecommunications Service (WATS) calls that originate in one LEC's (originating LEC) certified operating area and complete in another LEC's (terminating LEC) certified operating area.

These procedures and charges are specific to the provision of the intercompany toll network in which facilities are jointly planned by the participating LECs based on the total usage and transport facilities of each LEC. Facilities that are ordered independently by an individual LEC from another LEC to accommodate a customer-specific request for service are done so through the general offering made in the Access Service Tariff or the General Subscriber Service Tariff as follows:

SWA Service is provided for in Section 6; Dedicated or Special Access Service is provided for in Section 7; and Directory Assistance Access Service is provided for in Section 9 of the Company's Access Service Tariff. Provisions for ordering; special routing; specialized services or arrangements; and installation, repair and testing are provided for in Section 5, 11, 12, and 13 respectively.
