ISSUED: 2-8-91

RE: To pages 5 and 6 of above Docket No. 900025-WS.
The proposed percolation pond approved by D.E. R. and
directly related to the waste water rates for Shady Oaks Est.

We, the following property owners, wish to protest the
construction of this pond. We feel this pond would be a
hazard to our health and welfare. These ponds would be
within 100 feet of our property lines causing offensive
odors and other health hazards, mosquitoes, etc. We are
aware there is another method available for waste water
treatment for this system, which in our thinking is a more
up to date, more sanitary and less costly in the long run.

With these ponds at proposed location our property values
will be greatly reduced as well as all the balance of
property in Shady Oaks Estates.
