Dear Ms. Griffie-Windman:

This confirms receipt of your letter dated June 26, 1991 requesting the following information on the subject water system:

"Request for Documentation of capacity of our water system for Public Service Commission."

A review of our files indicates that the system is currently approved for 38 residential services. The maximum daily rated design capacity of the water plant is 0.7224 MGD which could serve up to 155 equivalent residential connections from a capacity standpoint.

We trust that this is the information desired.

Sincerely,

Frank P. Muttner, Supervisor
