PROCEEDINGS: MARCO ISLAND SERVICE HEARING

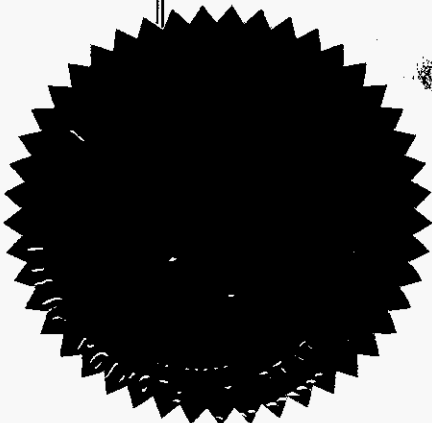

BEFORE: CHAIRMAN SUSAN F. CLARK
COMMISSIONER JULIA L. JOHNSON

DATE: Monday, January 22, 1996

TIME: Commenced at 6:00 p.m.
Concluded at 9:15 p.m.

PLACE: Marriot Marco Island Resort
Salons F and G
400 South Collier Boulevard
Marco Island, Florida

REPORTED BY: JOY KELLY, CSR, RPR
Chief, Bureau of Reporting
Official Commission Reporter

1 APPEARANCES:

2 **BRIAN P. ARMSTRONG**, 1000 Color Place,
3 Apopka, Florida, 32703, Telephone No. (407) 880-0058,
4 appearing on behalf of **Southern States Utilities, Inc.**

5 **MICHAEL B. TWOMEY**, Route 28, Box 1264,
6 Tallahassee, Florida 32310, Telephone No. (904)
7 421-3586, appearing on behalf of **Marco Island Civic**
8 **Association, Sugarmill Woods Civic Association, Inc.,**
9 **Spring Hill Civic Association and Marco Island Fair**
10 **Water Rate Defense Fund Committee.**

11 **MAGGI O'SULLIVAN**, Florida Public Service
12 Commission, Division of Legal Services, 2540 Shumard
13 Oak Boulevard, Tallahassee, Florida, 32399-0870,
14 Telephone No. (904) 413-6199, appearing on behalf of
15 the **Commission Staff.**

16 **JACK SHREVE**, Public Counsel, and **CHARLES J.**
17 **BECK**, Associate Public Counsel, Office of Public
18 Counsel, 111 West Madison Street, Room 812,

P R O C E E D I N G S

(Hearing convened at 6:00 p.m.)

CHAIRMAN CLARK: Ladies and gentlemen, can I have your attention, please? Can I have your attention, please? I want you all to know we're going to wait about five minutes and get some more chairs in here so everybody has a seat and then we'll begin the hearing.

(Brief recess.)

- - - - -

Ladies and gentlemen, can I have your attention? I'd like to begin the hearing, if I could. Thank you. We do have some more chairs going in here. We will have more chairs brought in so everyone can get a seat, but I think we better get started on our hearing because I know a lot of you want to speak tonight. And with that I want to start off with the formal part of our hearing and what that is, we have to call the hearing to order and then we have to read the notice. So if you'll be patient with us as we go through these formalities we'll get to your testimony as soon as we can.

I'd like to ask you all in the back, we're going to get you chairs, but if you would try to keep it down so we can go through and get this hearing

1 started. With that, Ms. O'Sullivan, will you please
2 read the notice.

3 MS. O'SULLIVAN: Thank you. Pursuant to
4 notice this service hearing has been set for this time
5 and place in Docket No. 950495-WS, application for
6 rate increase and increase in charges by Southern
7 States Utilities, Inc.

8 CHAIRMAN CLARK: Thank you. Let's take
9 appearances starting with you, Mr. Shreve.

10 MR. SHREVE: Jack Shreve and Charlie Beck,
11 Office of Public Counsel, representing the citizens of
12 the state of Florida in opposition to the rate
13 increase. (Applause)

14 CHAIRMAN CLARK: Go ahead, Mr. Twomey.

15 MR. TWOMEY: I'm Mike Twomey. I'm appearing
16 tonight on behalf of the Marco Island Civic
17 Association, Inc. as well as four other civic
18 associations around the state of Florida. I represent
19 approximately 40- to 450,000 customers of SSU
20 throughout the state of Florida. I, too, on your
21 behalf am opposed to the rate increase. Thank you.
22 (Applause)

23 CHAIRMAN CLARK: Mr. Armstrong.

24 MR. ARMSTRONG: Brian P. Armstrong on behalf
25 of Southern States Utilities, Inc.

1 CHAIRMAN CLARK: Go ahead.

2 MS. O'SULLIVAN: Maggi O'Sullivan on behalf
3 of the Commission Staff.

4 CHAIRMAN CLARK: Thank you very much.

5 My name is Susan Clark. I'm the Chairman of
6 the Public Service Commission and with me tonight is
7 Ms. Julia Johnson; she's also a Commissioner.

8 We are a five-member Commission. The other
9 three Commissioners would have been here, but they are
10 on another water and wastewater case in Marion County,
11 otherwise they would have been here. We're trying to
12 have most of the Commissioners come to these service
13 hearings involving Southern States.

14 Our purpose is to receive comments from you
15 all about the quality of service you're receiving and
16 your comments with respect to the proposed rate
17 increase.

18 We are particularly interested in your
19 comments, but we will have to go through some
20 formalities, as I said, before we get to those.

21 Your comments are going to be recorded by
22 our official court reporter who is sitting right here,
23 Joy Kelly. They will become part of the record and it
24 will be that record upon which we can base our
25 decision in this case.

1 Just to give you some background information
2 about how we process rate requests, the process takes
3 about eight months. It starts with the utility
4 requesting an increase in rates. They file a legal
5 document along with data relating to their financial
6 operation and to other aspects of their operation.

7 In this case the Utility has requested a
8 two-tier uniform rate along with a uniform wastewater
9 rate. The Utility has requested a final rate increase
10 of up to 45.9% for water and 30.21% for wastewater.
11 The Utility also requested an interim rate increase.
12 We held a Commission agenda on the 4th of January and
13 granted in part an interim increase. It was not as
14 much as the Company had requested.

15 During the pendency of this proceeding, as
16 you can see, we have parties who intervene in the
17 case. In this case we currently have Mr. Shreve, who
18 is the Public Counsel, and Mr. Twomey, who is
19 representing various homeowners associations.

20 We have held in excess of ten customer
21 service hearings. We will be holding more service
22 hearings throughout the next two weeks to hear from
23 other customers of Southern States Utilities systems.

24 We will hold ten days of technical hearings
25 in Tallahassee starting on April 29th, and that

1 hearing will be attended by Mr. Shreve and Mr. Twomey.
2 At that time the Utility will present its witnesses in
3 support of its rate increase request, and we will also
4 hear from parties appearing and witnesses appearing on
5 behalf of Mr. Shreve and Mr. Twomey in opposition to
6 that rate increase request.

7 I would like to emphasize that the purpose
8 today is to hear from you, but we have found it is
9 appropriate to allow the parties represented here to
10 give brief opening statements. We limit them to five
11 minutes. After they have given their opening
12 statements, I will swear in all of the people
13 appearing tonight who wish to make statements. We'll
14 do that at once. Then Mr. Shreve will begin calling
15 names. We will call them in the order we receive them
16 and we will stay here as long as it takes to hear from
17 everyone who wishes to make a comment regarding this
18 case. I should point out if any of you have just
19 arrived and you would like to present testimony in
20 this case, if you would see Melinda Pace in the back
21 of the room -- she's waving her hand -- you can sign
22 up with her and she'll make sure your name gets to
23 Mr. Shreve.

24 I'd like to do one other thing before I turn
25 it over to the attorneys to make their opening

1 statements. I'd like to introduce to you some people
2 on our Staff. They are here to assist you. If you
3 don't want to come up and give your statement before a
4 crowd of people, you can talk to them. You can also
5 use the back of the information sheet you have been
6 given, and you can mail that into us with your
7 comments. But let me introduce the Staff to you.
8 First I'd like to introduce Marshall Willis who is our
9 bureau chief. Next to him is Maggi O'Sullivan who has
10 previously introduced herself. Next to Maggi is Troy
11 Rendell who is our rate supervisor. Behind them is
12 Ms. Karen Amaya who is our Staff engineer, next to her
13 is Mr. Bill Lowe. I've introduced to you Melinda Pace
14 in the back. Next to Melinda Pace is Sandy Simmons.
15 And I'd like to introduce my aide, Billy Stiles. He's
16 here also to help you with any questions or problems
17 you may have, and I have introduced to you our court
18 reporter.

19 Let me ask a question. Mr. Armstrong, do
20 you have an exhibit which is the Proof of Publication?

21 MR. ARMSTRONG: Yes, I do, Madam Chair.

22 CHAIRMAN CLARK: Okay.

23 MR. ARMSTRONG: I have already provided a
24 copy to the court reporter and request that it be
25 identified as Exhibit 28, I believe.

1 CHAIRMAN CLARK: All right. The Proof of
2 Publication will be marked as Exhibit 28.

3 (Exhibit No. 28 marked for identification.)

4 CHAIRMAN CLARK: With that, Mr. Armstrong,
5 would you like to give a brief opening statement?

6 MR. ARMSTRONG: Yes, please.

7 Good evening. My name is Brian Armstrong
8 and as I indicated earlier I am representing Southern
9 States Utilities. And I did hear quite a bit of oohs
10 and ahs when I mentioned that earlier, and I just want
11 to let you know that I consider that almost like
12 applause based on what I hear sometimes. I appreciate
13 no hisses tonight. (Audience responds)

14 I don't appreciate that. (Laughter)

15 As you can imagine, Southern States despite
16 what you might believe or have read, we're not here to
17 increase rates to gouge our customers. What we have
18 here, like we had several years ago is a situation
19 where the company has invested in this instance since
20 1992 approximately \$100 million in our plants
21 throughout the state. Now, the majority of that
22 investment has been for environmental requirements,
23 for safety requirements, for things required to meet
24 the laws and the standards which apply to our water
25 and our wastewater service.

1 You should know that approximately \$25
2 million of that \$100 million that we've put in
3 additional plant since 1992 has been invested here on
4 Marco Island on the water and wastewater facilities.

5 Now, you're going to hear tonight from a
6 few of the lawyers who represent you as well as
7 myself. But, as the Chairman mentioned, we really are
8 here to hear from you tonight. And similarly to the
9 testimony you will give tonight under oath, the
10 Company has already prefiled testimony of 22 experts
11 in utility engineering and in utility ratemaking.
12 Those experts have a combined experience well above
13 200 years of experience in these utility matters.

14 Now, it's not the Commission's policy that
15 I'm going to sit here and answer your questions
16 tonight, but I can assure you that the questions you
17 do raise will be addressed. Hundreds of issues and
18 questions will be addressed before we're done with
19 this proceeding just as they have been in the past.
20 Now I can't answer that tonight. If we tried to
21 answer all of the questions tonight, we'd be here for
22 two weeks and two weeks is what has been allotted up
23 in Tallahassee in April and May for the evidentiary
24 hearing.

25 At least 22 witnesses on behalf of the

1 Company, as well as the witnesses produced by the
2 Public Counsel's office and Mr. Twomey, representing
3 you, both of whom represent you, will be taking oaths
4 and testifying on the issues as experts. And it's
5 that testimony that really is the basis for the
6 Commission's decisions and the orders which they must
7 issue at the end of this proceeding. It's not what
8 we're going to hear tonight from the lawyers as far as
9 our arguments because that's our job to argue. And
10 it's not what you're going to see in the papers
11 because, obviously, that's not under oath. But what
12 really counts is what you say tonight, obviously, and
13 what our experts are going to testify about under
14 oath. Believe it or not, we do look forward to
15 hearing from our customers because we want to try to
16 improve service if that's what is required down here
17 in Marco.

18 We have had a great deal of participation
19 from your customer representative on the Fair Water
20 Rate Defense Fund these past several years since the
21 last rate case and made investments, we believe, and
22 we hope, sharing the information with them along the
23 way. And their input has been valuable and we want to
24 continue that process. So despite the most recent
25 hisses I got, I do hope that we can continue to share

1 information among each. And I do look forward to --
2 the Company has representatives, including a president
3 and several vice presidents in the back of the room.
4 We want to hear from our customers, and believe it or
5 not, we look forward to hearing from you tonight.
6 Thank you.

7 CHAIRMAN CLARK: Mr. Twomey.

8 MR. TWOMEY: I want to get my clock ready
9 here because we have been limited to five minutes
10 which is really kind of a gag, I think, because this
11 -- we start -- this case is going to last nine months.
12 It involves a request by this Company to take out
13 about an additional \$18.1 million from you customers,
14 other customers around the states. So it's about
15 \$4 million, \$4.5 million from you specifically. Five
16 minutes is not enough for me to tell you the things I
17 think are wrong with this case. I'm your private
18 attorney hired by Kjell Pettersen and his committee.
19 It's not enough time from Jack Shreve, who's the
20 Public Counsel, your public lawyer, to tell you the
21 things that he thinks is wrong. I'll try to be brief.
22 I want to talk about what I think is going to be an
23 impending and unraveling scandal here.

24 First, I want to say to you if you haven't
25 assisted your Fair Water Rate Committee here in Marco

1 Island, please do so. We have a long fight. The
2 Utility has got lots of resources, got lots of your
3 money, it has got money from Minnesota Power, it has
4 got the Governor, the Lieutenant Governor on their
5 side. If you haven't assisted financially, please do
6 so.

7 And I want to thank right now the entire
8 committee, all of the constituent organizations that
9 are participating and financing it, especially Dr. Fay
10 Biles, Joe Coriaci. And the man who is most
11 responsible for this, Kjell Pettersen, has done the
12 best job of organizing, fund-raising and fighting this
13 utility on your behalf of any person I've seen in this
14 state in my many years of doing utility work. So
15 assist, ladies and gentlemen.

16 Now, the Public Service Commissioners until
17 1978 were elected. You had a voice who got on the
18 Commission, whether they stayed, if they made you
19 happy. They were politically accountable. They have
20 some of the most important jobs, the most powerful,
21 the most prestigious jobs in the state of Florida.
22 They make -- you can ask them closely -- they make
23 about \$91-, \$92-, \$93,000 a year not counting
24 benefits. It's a good job. Powerful, prestigious.
25 Right now, whereas you used to have a vote in this

1 matter in their retention, their selection, in 1978
2 the Florida Legislature took it away from you to take
3 politics out of their selection. Okay. Now guess who
4 has the single vote that decides whether they get in
5 and most importantly, whether they stay now? The
6 Governor of the state of Florida. The Governor of the
7 state of Florida has the only vote on deciding whether
8 they stay. He doesn't like what they are doing, no
9 explanations, pick somebody else. They are out.
10 Three of the Commissioners of this five-member panel
11 are up for reappointment before Governor Chiles goes
12 out at the end of 1998 beginning of 1999. Now, what's
13 the problem with that?

14 The real problem right now that has occurred
15 recently is that on December 21st, 1995, the
16 Lieutenant Governor, who works under the Governor,
17 first rank down, sent Chairman Clark a letter, an ex
18 parte communication which is against the law. She
19 recognized it as such because she gave us copies, sent
20 it out and said, "You need to have notice of this,"
21 okay? A one-page letter, I want to read it real
22 quickly. I'm in a hurry here. He says in part "I
23 would be very concerned" -- this is the Lieutenant
24 Governor talking now, "I would be very concerned if we
25 were to place in serious financial jeopardy a unique

1 private water utility that is providing quality water
2 and wastewater treatment facilities throughout the
3 state." Now, it doesn't take a rocket scientist.
4 He's saying they need more money, I think they need
5 more money. It's a simple equation, ladies and
6 gentlemen, if they get more money from them and the
7 three others it comes out of your pockets, pure and
8 simple, okay. He attached to his letter a four-page
9 communication from Arend Sandbulte who is the chief
10 executive officer of Minnesota Power & Light, the
11 parent corporation of SSU, okay. It is a four-page
12 letter, whining, complaining about their treatment at
13 the hands of the Florida Public Service Commission.
14 Four pages, okay. The interesting thing about it,
15 ladies and gentlemen, is at the top of the page it
16 contains evidence, fax banners that shows that it
17 came -- this copy of the letter -- came from Apopka,
18 SSU's headquarters, and then went through Capital
19 Strategies, Inc., which is a lobbyist organization.
20 It is a successor organization to the Governor's son's
21 former lobbying organization where Jeff Sharkey works,
22 one of the paid lobbyist for SSU and Minnesota Power,
23 okay. Then it went to the Lieutenant Governor and he
24 slapped on his letter and sent it to Commissioner
25 Clark who, in accordance with the law, gave it to us,

1 okay. Gave it to us.

2 It went through the hands of the lobbyist,
3 who has connections with the Governor, who has
4 perceived, if not real influence, with the Governor,
5 okay. He shows up all the time at the Commission
6 hearings, shows his face so they see him, they know
7 who he is, they know his connection with the Governor,
8 okay. If that's not bad enough, the Secretary of
9 Commerce, Charles Dusseau, another appointee who
10 hasn't got any business sticking his face in Public
11 Service Commission matters, utility regulation, writes
12 the gratuitous condescending letter to Chairman Clark
13 saying he thinks it might force their treatment, the
14 poor treatment of SSU might force out good businesses,
15 right?

16 Is someone going to pick up the water pipes,
17 sewer pipes, take them out, no. He didn't have any
18 business writing the letters at all. Says he's going
19 to look into it, okay? Then do you know what he does?
20 He carbon copies the Governor and guess who else,
21 ladies and gentlemen, Jeff Sharkey, the facilitator.

22 I don't mean this in a condescending or
23 derogatory form, but he's got influence that he pushes
24 around, okay, or perceived influence. He should be
25 proud of that, okay. That's not all. That was not

1 all. The Governor gets excited -- the Lieutenant
2 Governor gets excited because I write him a nasty
3 letter saying, "Stay out of my case. It's against the
4 law to do this. Don't mess with my clients in this
5 matter. Stay out." He sends Jack Shreve a bundle of
6 papers and says, "You look into this, please, and give
7 me the customer side," okay.

8 Do you know what was included in there,
9 ladies and gentlemen? There was a September 13th
10 letter from Dr. John Cirello -- he's back here
11 someplace -- the new president of SSU, okay.
12 Dr. Cirello sends this letter to the Lieutenant
13 Governor saying, "Thank you so much for the meeting we
14 had with my team and your team in Tallahassee on
15 August 30th where we talked about how we could use
16 rate functions, rate mechanisms, meaning uniform rates
17 in this case -- this socialistic thing that I beat
18 them on in the First DCA -- how we can use that to
19 transfer development from dense areas on the coast to
20 less dense areas inland, okay.

21 Now, that's none of their business. It's
22 None of the business of the Lieutenant Governor, it's
23 none of the business of Dr. John Cirello who is
24 supposed to be running a water and sewer shop. But do
25 you know what, ladies and gentlemen, Minnesota Power,

1 do you know what else they own? Land development;
2 land development. I think they are trying to use
3 water and sewer rates to shift land development.

4 Now, I'm running out of time. I want to say
5 this: They had no business sticking their nose in
6 this; it was improper. They orchestrated it through
7 their lobbyist. They got their lobbyist to initiate
8 improper communications from the Governor's Office to
9 these people. Now the problem it leaves us with is
10 that these people -- I'm not blaming them for it --
11 have to have in the back of their minds, "If we don't
12 make the Governor happy, we might be out of our
13 \$92,000-a-year jobs." Okay. They can't think
14 otherwise. Even if they deny it they can't think
15 otherwise, and that leaves us with a problem because
16 the danger is given a close call, they might
17 unintentionally come down on their side and against
18 you. And as a result, ladies and gentlemen, we are
19 going to ask them tonight to transfer this case to the
20 Division of Administrative Hearings in Tallahassee,
21 whose experienced law judges -- (Applause)

22 No reflection on them, none whatsoever.
23 There's been a shadow cast on this case by the
24 Governor's Office. It is like toothpaste out of the
25 tube; you can't put it back. We're going to ask them

1 to transfer the case to administrative law judges
2 whose positions are protected by career civil service,
3 okay.

4 One last thing. One last thing. This
5 Company has engaged in a massive effort of propaganda
6 to try to encourage county commissioners, state
7 senators, state representatives, politicians and
8 groups of all sorts that their uniform rates and their
9 rate increase is essentially to the proper development
10 of the state of Florida. I want to suggest to you
11 that there has to be money behind it eventually, and
12 we've subpoenaed some of these people and we're going
13 to find out the answers the end of this week. I want
14 to suggest to you that you look with a jaundiced eye
15 at anybody, first of all, taking campaign
16 contributions or any money from these people. I would
17 say to them, "Give it back." And anybody that gets up
18 here tonight and speaks in defense of these people in
19 your community, ask yourself why.

20 Thank you very much. (Applause)

21 CHAIRMAN CLARK: Go ahead, Mr. Shreve.

22 MR. SHREVE: Thank you. I'll be brief. We
23 do want to hear from you, but I want to go over a few
24 facts of this case and some in the past.

25 I have been asked to reply to the president

1 of Minnesota Power's letter and I intend to do so. If
2 nothing more he mislead by omission. He didn't tell
3 about the \$19 million profit that they made in
4 Sarasota on the sale of a system. That has not been
5 counted. It was made in 1994, but you have already
6 received an interim increase based on 1994 but that
7 \$19 million was not even counted. They made a \$6
8 million on a sale of part of the Deltona purchase of
9 which you were a part of, a \$6 million profit on
10 St. Augustine Shores in St. Augustine. That was not
11 counted in the last rate case, so they walked away
12 with that. In the Deltona purchase Southern States is
13 receiving a return on over \$9 million that they did
14 not pay in the Deltona purchase. In Lehigh Acres,
15 which was not a part of that, they got away with
16 exactly the same thing. They bought that from
17 Resolution Trust at about 40% to 50% of the value,
18 wrote everything else down except the utility so that
19 the customers are paying on money that was not
20 invested there.

21 Now, the first thing that should be done is
22 get the pot right. For Marco Island -- and I'm not
23 going to be talking about rates because, frankly, they
24 have gotten not so much Marco Island but Marco Shores
25 and the rest of the state of Florida so confused that

1 people don't know about the rates. The revenue is
2 what really counts to Southern States. They want the
3 money. The money comes out.

4 Before the 1992 case, which all of you
5 recall we fought them at that time just like we fought
6 Deltona before that -- and we thought we were doing
7 bad with Deltona but we should have them back, I
8 think -- they had in revenue coming out of Marco
9 Island for water, before the 1992 case, \$4.1 million.
10 They are now asking for, out of this case,
11 \$10.6 million, more than doubling the revenue coming
12 out of Marco Island in a few short years. Sewer,
13 \$1.8 million coming into the '92 case. Coming out of
14 this case they want \$3.6 million. More than doubling
15 your rates in a few short years.

16 I don't know how many people are here from
17 Marco Shores but they didn't forget about you. It's
18 much smaller but in coming into the 1992 case, for
19 Marco Shores they were taking out \$121,000. Out of
20 this case they want \$366,000 for water. In sewer,
21 coming into the '92 case, \$86,000; coming out of this
22 case they want \$191,000. That is absolutely
23 ridiculous. Rates are supposed to be fair, just and
24 reasonable. And right now the rates that they are
25 asking for here and around the rest of the state are

1 not fair, they are not just and they are not
2 reasonable. Instead of going up, they should be
3 coming down and get them back where they should be.
4 Count the money. (Applause)

5 We very much appreciate your attendance
6 here. This is one of the best hearings we've had. We
7 look forward to hearing from you, the public. We're
8 going to do everything we can to take care of these
9 rates. Thank you. (Applause)

10 CHAIRMAN CLARK: Thank you, Mr. Shreve. We
11 now are coming to the point at which we're ready to
12 take testimony from you all. If you have signed up on
13 our sheet or if you intend to give testimony, would
14 you please stand and raise your right hand.

15 Don't sit down. I have to swear you in.
16 And I'm going to administer the oath so I don't have
17 to do it every time somebody comes up.

18 (Witnesses collectively sworn.)

19 CHAIRMAN CLARK: Mr. Shreve, will you call
20 your first witness?

21 MR. SHREVE: Thank you, Madam Chairman.
22 Mr. Pettersen.

23 CHAIRMAN CLARK: Mr. Pettersen, as you are
24 coming up there, it would be helpful to us if you
25 would give us your name, spell it and also give us

1 your street address and indicate whether you get water
2 from Marco Island or Marco Shores, please.

3 WITNESS PETERSEN: You want me to give you
4 my address also?

5 CHAIRMAN CLARK: Please.

6 - - - - -

7 **KJELL PETERSEN**

8 was called as a witness on behalf of the Citizens of
9 the State of Florida and, having been duly sworn,
10 testified as follows:

11 WITNESS PETERSEN: Okay. My name as Kjell
12 Pettersen. I live at 350 Rock Hill Court on Marco
13 Island.

14 Well, good evening, Chairman Clark and
15 Chairman Johnson. I'm chairman of the Marco Island
16 Fair Water Rate Defense Fund Committee -- (applause)
17 -- and secretary and executive committee member of the
18 Marco Island Civic Association, which is a formal
19 party to this rate increase proceeding. I want to we
20 welcome you both to our beautiful island.

21 As you can see from the attendance at this
22 meeting, our community is greatly concerned about this
23 case and the economic impact it has on our citizens.
24 We understand that you have a busy schedule, but we're
25 greatly disappointed that the entire Commission was

1 unable to attend. We would have especially liked for
2 Commissioners Deason and Garcia to be able to witness
3 our concerns personally. We're going to tape this
4 entire hearing and transmit it to the missing
5 Commissioners.

6 Our umbrella organization, the Marco Island
7 Fair Water Rate Defense Fund Committee, involves
8 almost everyone on this island and includes all major
9 civic associations and service organizations. These
10 organizations are chaired by some of the most active,
11 concerned and influential members of our community.
12 My committee has received contributions from over
13 9,000 island residents and businesses. In a word,
14 this community is concerned about this case and
15 greatly so. We're concerned with both procedural
16 issues, as well as matters of substance in this case.
17 Now let me discuss some of the procedural concerns
18 first.

19 We have followed the procedural orders of
20 Commissioner Kiesling in this case and believe her to
21 be generally biased in favor of SSU. Commissioner
22 Kiesling also demonstrated bias against a consumer by
23 testifying against Senator Brown-Waite's bill
24 prohibiting uniform rate subsidy transfer and by
25 verbally and publicly attacking our attorney, Mike

1 Twomey, for supporting Senator Brown-Waite's bill.
2 Commissioner Kiesling should have disqualified herself
3 immediately when requested to do so. We know that
4 real judges would have recused themselves immediately
5 under the circumstances and would not have dreamed of
6 engaging in protracted argument about whether the
7 litigants were justified in feeling her prejudice. We
8 believe the rest of the Commissioners should have
9 removed Commissioner Kiesling when she failed to
10 recuse herself. We are confident we cannot receive a
11 fair and impartial hearing from Commissioner Kiesling,
12 and we are assisting in the petition to the First
13 District Court of Appeal to have her removed from this
14 case. We do not want her on this case. (Applause)

15 Recent events leaves us with greater fear
16 for our ability to receive a fair and impartial
17 hearing from the rest of the Commissioners. I'm
18 referring, of course, to Lieutenant Governor Buddy
19 MacKay's unprecedented letter to you, Chairman Clark,
20 dated December 21st, 1995, expressing his concern
21 about the financial viability of SSU. He said he was
22 just requesting information.

23 I spent a lifetime in Wall Street in a very
24 high executive position and recognize influence and
25 pressure being exerted when I see it. More

1 importantly, I know how to read. No one reading that
2 letter can come away with any other conclusions but
3 that the Lieutenant Governor is worried that you, the
4 Public Service Commissioners, have not given SSU
5 enough money.

6 If you please the Lieutenant Governor by
7 giving SSU more money, you must take it away from us.
8 We know that you've already given SSU too much of our
9 money.

10 Lieutenant Governor MacKay is concerned
11 about SSU and not us and that is abundantly clear.
12 His concern, as stated by Mike Twomey, is driven by
13 SSU lobbyist Jeff Sharkey's involvement. Now
14 Sharkey's fingerprints are all over the Governor's
15 Office concerned with SSU's well-being. For example,
16 Minnesota Power Company Chairman Sandbulte's letter to
17 Governor Chiles attached to the Lieutenant Governor's
18 letter to you, Chairman Clark, had been faxed from
19 SSU's Apopka office to Sharkey's firm. The lobbyist
20 firm, Capital Strategies, and then presumably to the
21 Lieutenant Governor's office. Jeff Sharkey and
22 Governor Chiles are both listed as receiving carbon
23 copies under letter sent to you by Commerce Secretary
24 Dusseau. Why did Secretary Dusseau suddenly become
25 concerned with SSU's welfare and presume to review

1 your work in this matter? Mike tells me that Dusseau,
2 who is also a Chiles appointee, has no business
3 sticking his nose in our case and is merely doing so
4 as an additional indication of the Governor's Office
5 concern; that is to say a less than subtle indication
6 of additional executive office pressure on you to hurt
7 us to SSU's advantage.

8 You damaged us by the outrageous rate
9 increase you granted SSU three years ago, and we're
10 not going to sit by and quietly allow you to do it
11 again. (Applause)

12 I have directed Mike Twomey to find out what
13 is going on here. And to that end he has served
14 subpoenas duces tecum on Lobbyist Sharkey and Commerce
15 Secretary Dusseau for depositions this Friday as well
16 as a deposition on your Water and Sewer Division
17 Director, Chuck Hill. Mike has also served a Public
18 Records Request on the Governor's Office asking to see
19 the documents relevant to the SSU initiated ex parte
20 communications with you.

21 Now we discover that the relationship
22 between SSU and the Governor's Office is more
23 extensive and of greater duration than earlier
24 disclosed. I'm referring to a September 8th, 1995,
25 letter from SSU president John Cirello to the

1 Lieutenant Governor revealing that on August 30th,
2 1994, there was a meeting between Cirello and his SSU
3 team and the Lieutenant Governor. They apparently
4 discussed how utility rate mechanism should be
5 utilized to transfer development from the denser areas
6 of the coast to the less dense areas through utility
7 rate mechanism. The rate mechanism we speak of, of
8 course, is uniform rates. Cirello does not once
9 mention protecting the people of Marco Island from
10 rate shock; protecting the aquifer; protecting the
11 little people and so on.

12 Commissioners, uniform rate subsidies not
13 only hurt individuals and their property values here
14 on Marco Island but the health to our local economy as
15 well. The \$1.2 million SSU wants you to steal from
16 our local economy in rate subsidies will be spent in
17 stores and shops in other counties, not here. There
18 is no adequate language or legal theory to defend this
19 regulatory form of socialism. Uniform rates are
20 clearly part of SSU's land development scheme Cirello
21 discussed with the Lieutenant Governor. We believe
22 uniform rates are illegal, unconstitutional and an
23 unfair form of regulatory socialism. They are foreign
24 to our way of government and we will not tolerate
25 them. (Applause)

1 You hold some of the most desirable offices
2 in this state government and are paid in excess, as
3 Mike just mentioned before, in excess of \$90,000 a
4 year in salary not counting benefits. Retaining these
5 positions relies ultimately on keeping a goodwill; the
6 goodwill of the Governor's Office. SSU is asking for
7 \$18.1 million in annual increases in this case. You
8 were all appointed by Governor Chiles who, along with
9 Lieutenant Governor MacKay, met with Minnesota Power
10 Chairman, Sandbulte, at the Breakers Hotel in Palm
11 Beach last year. Commissioner Clark and Deason, if
12 they seek reappointment as Mike just mentioned before,
13 will face Governor Chiles' successor who could be
14 Lieutenant Governor MacKay if he's successful in his
15 bid for the Governor's Office. In either event, some
16 of the Commissioners will face Chiles and the rest
17 might face MacKay if you're desirous of retaining
18 these powerful jobs.

19 You can deny being concerned about implicit
20 influence being exerted by the Governor's Office to
21 benefit SSU, but those denials would not be credible
22 to us. You might believe you feel no pressure to
23 protect SSU, but we can't trust that pressure, that
24 the pressure on your jobs isn't too great. The
25 implicit pressure is too great when one considers the

1 trek of your continued employment and very decent
2 salaries. We must assume that you will be influenced
3 by the Lieutenant Governor's inquiries and that the
4 result will be adverse to us. We would be derelict in
5 our responsibility if we did not assume the worst.

6 As Mike said, the toothpaste of undue
7 influence from the Governor's Office is out of the
8 tube and it cannot be put back. The Governor's
9 Office, presumably on Sharkey's insistence, has
10 pressured you on SSU's behalf and there is no way we
11 can remove that implicit trek in that communication
12 from your minds. The communication was inappropriate
13 and exerted undue influence on you and it cannot be
14 undone. There is \$18.1 million in annual rate
15 increases and other significant issues at risk here,
16 and we should not have to tolerate this case being
17 heard by a body whose credibility has irrevocably been
18 called into question by the final authority
19 determining their employment tenure.

20 I have asked Mike Twomey to prepare a simple
21 request asking that you transfer this case to the
22 Division of Administrative Hearings where it would be
23 assigned to a hearing officer, an experienced lawyer
24 who is covered by civil service protection and where
25 presumably SSU lobbyist, Jeff Sharkey, has no

1 influence and the Governor's Office will fear to tread
2 after this mishap. I'm going to ask Mike if you would
3 present the petition to you. (Applause)

4 And, finally, under the threat of uniform
5 rates we are held liable for SSU's capital
6 expenditures and operations for over a 140 systems in
7 over 20 counties. Is that right? Should that be
8 right? SSU's operations here in Marco Island are
9 complex and tangled enough. I understand that almost
10 200,000 pieces of paper have been filed in this case
11 already. Do you really expect us to meaningfully
12 defend ourselves against all of that? Do you expect
13 that your Staff can professionally examine all of this
14 information in just eight months? I know we will find
15 it difficult to examine our part, especially with the
16 other distractions in this case. In all due respect
17 to you, Commissioners, I don't believe you and your
18 Staff can do justice to the rest of this case.

19 Thank you for your patience and your time.
20 (Applause)

21 CHAIRMAN CLARK: Mr. Pettersen, I have to
22 ask the other attorneys if they have any questions of
23 you. Mr. Shreve?

24 MR. SHREVE: Just one. Your comment on the
25 fact that all of the data that is filed in this case,

1 particularly for Marco Island, we've represented Marco
2 Island in the past when it was just one case and I
3 believe what you are referring to is the 150 different
4 systems that are in this case, allowed to be in this
5 case and filed by SSU so that it is almost impossible
6 to try and properly decipher and represent properly
7 the customers of the state.

8 WITNESS PETERSEN: Yes, that is correct.

9 MR. SHREVE: Thank you, sir.

10 CHAIRMAN CLARK: Mr. Armstrong, do you have
11 any questions.

12 MR. ARMSTRONG: No questions.

13 CHAIRMAN CLARK: Okay. Mr. Shreve your next
14 witness, please.

15 MR. SHREVE: Mr. Coriaci.

16 - - - - -

17 JOE CORIACI

18 was called as a witness on behalf of the Citizens of
19 the State of Florida and, having been duly sworn,
20 testified as follows:

21 WITNESS CORIACI: My name is Joe Coriaci,
22 C-O-R-I-A-C-I. I live at 199 Lamplighter Drive here
23 on Marco. I have been a resident since 1982, and I'm
24 currently president of the Marco Island Civic
25 Association.

1 My first comment, and my comments will be
2 relatively short, is to thank all of these wonderful
3 people from Marco Island for being here tonight.

4 (Applause)

5 This is an issue that is obvious, I believe,
6 to you as Commissioners that is of a serious nature to
7 all of us. And as I go through several of my remarks
8 I believe you will understand why.

9 First of all, when MICA, our short acronym
10 is MICA, M-I-C-A, first learned of SSU's filing for a
11 rate increase on June 28, 1995, we immediately filed
12 on July 3, 1995, for intervenor status, and that was
13 when we identified one of our directors, Kjell
14 Pettersen, who you have just heard from, to represent
15 us as your official intervenor.

16 Allow me to highlight a couple of very
17 important points. On January 31, 1990 -- how many of
18 you were here on January 30, 1990? I'm going to ask
19 you if you remember some words. These words came from
20 then a very, very, very senior person in the SSU
21 corporation. At that particular time SSU was in the
22 process of negotiating a buyout from Marco Utilities
23 to purchase the facility here on Marco. They came to
24 the residents of Marco Island and they asked for
25 support. I think you saw how many people were here

1 back in 1990. And this is what they said in one of
2 their documents. "Question No. 5: How will the cost
3 for new facilities be paid by existing customers or
4 new customers?" The answer, given by SSU senior
5 management: "The majority of costs for additional
6 capacity will be paid by future customers through
7 impact fees." Whatever happened to that approach?
8 SSU was supported by the residents based on responses
9 of that nature and as a result SSU now operates the
10 water system here on Marco.

11 Another document that has been sent out to
12 most of the residents here on Marco, some of you will
13 remember seeing it, in 1992 based on an average use of
14 17,500 gallons per month, which is what we understand
15 is the average used here on Marco and that number
16 comes from SSU, with a one-inch meter, and there are
17 63% of the homes here on Marco have one-inch meters,
18 the cost on an annualized basis to a residence was
19 \$492.12; 492.12. In 1995, three short years later,
20 \$858.12 for that same 17,500 gallons. The proposal
21 you folks now have before you that you are looking at
22 will take that same \$17,500 gallons in four short
23 years from 492.12 to \$1,395.36. That is
24 unconscionable.

25 MICA receives many phone calls as do the

1 other associations here on the island. Those phone
2 calls in many cases are of desperation on the part of
3 residents. We have residents of Marco Island who are
4 moving off of this island because they can no longer
5 afford to live here. And when we get that kind of an
6 increase -- (applause) -- if those kinds of increases
7 continue, we will see more residents, who really made
8 this island what it is today, being forced to leave.

9 I realize my next statement refers to
10 something that was said by the county assessor of
11 Citrus County and I'm sure that the document will be
12 provided in the filings, but let me quote this to the
13 homeowners on this island because this is from a tax
14 assessor, and I believe that it is also applicable to
15 Marco Island.

16 In his testimony on the '92 rate case the
17 county assessor for Citrus County stated that for
18 every \$1 of expense, property values are reduced by
19 \$10. Now, if we take a simple multiplier and adjust
20 for inflation and we say that we're looking at a \$300
21 increase -- remember we're talking about an increase
22 folks from \$858 last year to \$1,395 this year, if we
23 look at \$300 as an increase, even a modest increase
24 based on what the increase request is, we're looking
25 at a \$3,000 depreciation in property values. So not

1 only are we having money taken out of our pocket every
2 month to pay the bills, we're also having money taken
3 out of our children's, our grandchildren's, whoever is
4 going to end up with the house or the value of the
5 house when some of us are no longer around.

6 If we really want to get down to some of the
7 facts I'm wondering whether or not we on Marco
8 shouldn't be looking for a refund as opposed to an
9 increase. (Applause)

10 I will give you three points to support that
11 statement. The first one: Why should Marco Island be
12 subsidizing other communities? (Applause) The
13 interim increase that just went through is costing the
14 residents of this island \$363,000 in subsidy. If the
15 entire amount goes through that has been proposed by
16 SSU, we're looking at \$1,200,000.

17 Number two, in 1990 SSU recommended and
18 received a \$7 million-plus, through a bond issue,
19 permission for expansion of their treatment plant from
20 2 million gallons per day to 3.5 million gallons per
21 day. The bond issue was floated. We have been paying
22 the cost of that bond issue ever since 1990. There is
23 no expansion to the plant. What happened to the
24 money? (Applause)

25 And my last point. In 1992, during the rate

1 case, SSU projected their needs through the used and
2 useful terminology at 100%. Rates were structured
3 accordingly and everyone in this room has been paying
4 those rates based on that 100%. To date only 44% is
5 applicable. Less than 50% of the residential
6 properties on this island have been built out. We're
7 sitting at 44% applicable today, and yet they place
8 100% again in their 1995-1996 rate case. What
9 happened to all of this money between the 44% and the
10 100%? It should be refunded to the residents of Marco
11 Island. (Applause)

12 My only additional comment is -- and,
13 Mr. Shreve, I thank you -- count the money. Thank you
14 very much. (Applause)

15 CHAIRMAN CLARK: Mr. Coriaci, if you would
16 just come back to the microphone while I ask if there
17 are any questions. Mr. Shreve? Mr. Twomey?

18 MR. TWOMEY: No, ma'am.

19 MR. SHREVE: Just one. Do you feel that you
20 can take much more of this Minnesota Power
21 administrative efficiency? (Laughter)

22 WITNESS CORIACI: If I had tried one-tenth
23 of this in my former life, I would be looking for a
24 job today.

25 MR. SHREVE: Thank you very much.

1 CHAIRMAN CLARK: Thank you.

2 MR. SHREVE: Mr. Benjamin.

3

- - - - -

4

PETER F. BENJAMIN

5 was called as a witness on behalf of the Citizens of
6 the State of Florida and, having been duly sworn,
7 testified as follows:

8 WITNESS BENJAMIN: Madam Chairman, before I
9 begin I'd like to beg your indulgence to hand out a
10 couple of visual aids to you and to your Staff.

11 Madam Chairman, Madam Commissioner,
12 Honorable Counsel and Staff, ladies and gentlemen,
13 I've come before you today not only as a homeowner on
14 Marco Island but as a concerned citizen. Concerned
15 not only for my own wallet but for those of my
16 neighbors. Concerned not only for what the ravages of
17 inflation can do over time to those on fixed income
18 but concern with the ravages of taxes, inflated
19 insurance premiums and utility rate hikes can do as
20 well.

21 In Webster's dictionary the word "hike" is
22 defined to raise in amount sharply and suddenly. I'm
23 here to tell you that this proposed hike is going to
24 send the lexicographers scurrying because SSU has just
25 redefined the word. It is no secret that in all

1 contract negotiations you ask for the world and then
2 settle for reality. My only question is whose
3 reality: Mine or SSU's? I'm currently paying my
4 reality. What SSU is asking is unreal.

5 We are paying exorbitant water rates when
6 compared to some other areas. Yes, I'm sure SSU's
7 board could counter with areas that are more
8 expensive, but that's a moot point. It's not my
9 reality.

10 I have before me the schedule of classes and
11 rates that are in existence and those that are
12 proposed. But before I review the proposed rate
13 schedule, I would momentarily like to wax on the side
14 of the melodramatic. Why? Because it's reality.

15 It's been illustrated throughout history
16 that he who controls the water controls the society.
17 Look at the cradles of civilization in Mesopotamia and
18 the Tigris Euphrates River Valley. Look at the Roman
19 Empire and the aqueducts. In the Old West range wars
20 have been raged over water rights. Modern-day battles
21 have been fought over control of this vital natural
22 resource. And while our existence here might not be
23 in the example peril, what Southern States Utilities
24 is proposing makes me want to fight, but I'm required
25 by society to fight with my pen and words for that is

1 what civilized people do. Civilized people do not
2 hold a society or a community for ransom with their
3 water rates. I want to unite my neighbors against
4 them, for what they have proposed is not only unfair
5 and unconscionable, it's usurious.

6 I will for my argument limit myself to the
7 rates that are indicated on, quote, "The Southern
8 States Utilities Notice to Customers of Application,
9 Docket No. 950495-WS, Marco Island Service Area." I
10 will further limit my argument to the rates as it
11 pertains to residential water and wastewater. My
12 comparisons will address the present rates, the
13 Commission-approved interim rates, and for the high
14 end of the spectrum I've used the uniform utility
15 rate. I hope from these comparisons that you will
16 feel the exorbitancy of SSU's request.

17 I will be addressing only the base facility
18 charge for the five-eighths by three-quarters,
19 three-quarters and the one-inch lines, inasmuch as
20 these seem to be the bulk of the more common lines
21 serving the residential customer. And in addition, my
22 figures will reflect an average of the three, inasmuch
23 as there are only a few one hundredths of one percent
24 in their increases and figures have been rounded to
25 the nearest hundredth. Please refer to the table

1 marked "Water, Example No. 1."

2 The average increase from what we are now
3 paying, the present rate, to the Commission approved
4 interim rate is a mere 8.3%. A slightly higher rate
5 increase than the average middle management corporate
6 executive has gotten for the last eight years, which
7 is historically 5%, well above the traditional gauge
8 of inflation, the Consumer Price Index, CPI.

9 Now look at Example 2. The increase from
10 the Commission-approved interim rates to the modified
11 stand-alone rates average a staggering 163.14%. I
12 repeat: 163.14%. Now, in case that last figure
13 hasn't grabbed your attention this is when the hard
14 reality sets in. Please refer to Example No. 3.

15 The average rate increase from the present
16 rates to the proposed eventual of uniform utility rate
17 averages -- averages -- 199.61%. Imagine going to
18 your boss tomorrow morning and saying, "Boss, I have
19 had some shortfalls in any budget. My deficit it
20 high. I want a 200% raise." You'd start sounding
21 like the United States Congress. Now what would your
22 boss say -- (applause) -- now what would you do if
23 your boss said, "Take 5% and like it." Or to use
24 SSU's new words, suppose your boss tells you to take a
25 hike? Now your back is up against a wall. What do

1 you do?

2 To cite yet another example, what if the tax
3 assessor's office increased your property taxes by
4 such disproportionate amounts as SSU's propose rate
5 hike? You'd be the next person on line in back of me
6 pleading your case. It's no longer a case that
7 insurance companies, utilities and tax offices want
8 their fair share of the pie. They want the whole pie
9 and your hide as well.

10 Now, if you'll refer to Table 2, the extra
11 gallonage charge per thousand gallons. You will note
12 that going to the Commission-approved interim rate in
13 Example 1 yields an 8.44% increase; while going from
14 the Commission-approved uniform rates to the modified
15 stand-alone rate in Example 2 actually yields an 8.4%
16 decrease which, in effect, in Example 3 provides a net
17 10.5% increase.

18 My next argument addresses the wastewater
19 charges for the residential services. Please refer to
20 Table 3, Examples 1, 2 and 3.

21 From the present rate to the Commission-
22 approved rate is 18.9% -- .19%. But from the interim
23 rate to the modified stand-alone rate it jumps another
24 staggering 123.4%. Therefore, the bottom line
25 increase, when the uniform utility rate finally is

1 implemented, nets a total increase of 58.47%, but not
2 until we're gouged using the modified stand-alone
3 rates.

4 In the case of usage charged per thousand
5 gallons for wastewater, the bottom line overall
6 increase has been 48.13% in the comparative rates.
7 But look at what the dollar amounts we're talking
8 about; it's just pennies or is it? You're going from
9 a per-gallon multiplier of .00320 to .00474 multiplier
10 which means your going from \$32 to \$47 -- \$47.40 per a
11 mere 10,000 gallons based on consumption. You know,
12 it's just one of those quirks of mathematics that 5%
13 of \$100 is less dollars than 5% after \$500. It
14 appears that what SSU is trying to do is to take a
15 quantum leap to build an escalated base so that in the
16 near future if you only grant a small percentage
17 increase it will still amount to a large piece of
18 change for the consumer and the public utilities will
19 try to appear as a friend to the people, being that
20 they only ask such a small percentage. (Applause) Or
21 perhaps we could suffer the same scenario again, that
22 SSU suffers a severe case of gluttony again.

23 Now, here's the rub -- and I'm sorry for all
24 of these percentages. I'm going to pass all of this
25 out so it will become very apparent to you. Now,

1 here's the rub: If you take the water increase of
2 199.61% increase and the gallon charge per thousand
3 gallons of 10.5%, coupled with the wastewater
4 increases of 58.4% and the gallon charge per thousand
5 gallons of wastewater of 48.13%, you get a cumulative
6 total return of 316.64%, but that's only after the
7 gouging we received going through the
8 Commission-approved interim rate structure. 316%.
9 I'd like to get that kind of return on my money.

10 (Applause)

11 I have just a few last points. When I moved
12 to Florida a few years ago I asked my friendly water
13 utility about wastewater. They informed me that it
14 was based on my water usage. Now please refer to
15 Table 4. Now, I sort of invaded my own privacy on
16 this because I let you people know in this chart
17 exactly the kind of water I use by the readings on the
18 meter, but I felt it was necessary to really bring
19 home the point.

20 Well, at first glance this usage base or
21 this charge based on usage sounded reasonable. Save
22 for the fact that the biggest user of wastewater --
23 excuse me, the biggest waster of water is our
24 underground sprinkler systems. Water that goes
25 straight into the ground. Thousands of gallons of

1 water that are used each and every month by each and
2 every household; water that never reaches the
3 wastewater system and wastewater plants. This money
4 we are bogusly being charged. Imagine your bank
5 telling you to pay your mortgage on time but you can't
6 live in your house. If you illegally tap into a
7 utility resource, it's a crime known as theft of
8 services. Well, SSU is tapping into your house and
9 charging you for a service that you aren't even close
10 to using in the stated capacity. This method is
11 commonly know as the volumetric rate structure. If
12 they want to charge for 1,000 gallons of wastewater
13 the let them put a meter on the wastewater returns.

14 (Applause)

15 Do you know why they won't do that? Because
16 they are having their cake and eating it too. It
17 would seem that in this case a glass action suit might
18 be just the ticket to bring them to their reality.

19 (Applause)

20 Being that SSU has no conscience in their
21 fiduciary responsibility to the public they are
22 serving, I ask you, the representatives of the Public
23 Service Commission, to be their conscience and to
24 publicly serve.

25 Now, at the bottom of Table 4 you will

1 notice the gallons used in a two-week period by me was
2 6,760 gallons and that was including four water
3 sprinklings -- four lawn sprinklings. Out of that I
4 have approximated that only 850 gallons went down my
5 drain. Now, I have theorized by looking at the
6 meters -- that's another thing with my new meter, you
7 can't read the last three digits, so God only knows.
8 But the bottom line out of 6,760 gallons used,
9 approximately 850 gallons went down the drain. That's
10 less than 13% of my usage, but it will net me a \$25.55
11 charge for 5,910 gallons that never even reached the
12 waste pipes. That's \$25.55 for two weeks, so let's
13 extrapolate and bring that out to about \$52.

14 Remember, that all forms of business have
15 tax relief of being able to write off a percentage of
16 their losses. And their business capitalization this
17 year is offset by depreciation allowances the next
18 several years in the federal tax code. We, the
19 taxpayers, do not have the luxury of being able to
20 write off our utility expenditures. The Utility
21 charge is a net outlay from our wallets and
22 pocketbooks.

23 Now, in addition, SSU has asked you to
24 implement a "monthly weather normalization clause
25 adjustment." These provide adjustments to the

1 gallonage charge up or down to reflect variations in
2 customer consumption. Now, I don't have the vaguest
3 idea how this is going to affect us, but presumably
4 it's something akin to a degree day's formula that the
5 petroleum industry uses to gouge their clients up
6 north. I can see where in the summer months one might
7 tend to use more water, but how is it going to impact
8 on those of us who live here year round when our
9 snowbird neighbors have flown north to a northern
10 clime? What will it do to our rates being that SSU
11 has less of a population base to draw from and their
12 revenues decrease during the summer months on Marco?
13 Will we year-round residents be paying more to
14 subsidize SSU's existence? I think we can presume to
15 answer the question intelligently.

16 I now ask you to turn to Table 5 and review
17 what the impact is on a family of one. Admittedly,
18 not your average family, who implements the procedures
19 listed at the bottom of the page: One shower a day
20 with flow restricter on showerhead; two loads of
21 laundry per week; watering the grass twice per week,
22 six zones, 15 minutes per zone with zeroscape
23 landscaping and finally uses a water conserving
24 toilet. It's a 79.7% increase for a family of one.
25 And what I've done in this presentation right here is

1 I've taken my November 1995 usage, which is listed
2 under present rates, I pay \$53.81. Under the final
3 gouging to the uniform utility rate, my bill will be
4 96.72%.

5 It just seems kind of ironic that the
6 Utility in the name of conservation of our most
7 precious natural resource imposes an honor system
8 schedule of watering your lawn and asks you to
9 conserve water using the methods I last described.

10 It's ironic that it decides not only to
11 punish you, but to beat the hell out of you with an
12 increase that they deem just and responsible. We, the
13 community of Marco Island, are the abused, battered
14 stepchild of the irresponsible stepparent, SSU.

15 I now ask you, the Public Service
16 Commission, operating within the mandates of the
17 court, to flatly refuse this and any rate increases
18 until SSU goes back to the drawing board, see where
19 they can cut the fat and then come back to you and
20 present an increase that is not only not triple or
21 double digits but low single digits and above all
22 real, just and fiscally responsible to the communities
23 they serve. Thank you. (Applause)

24 MR. TWOMEY: No questions.

25 CHAIRMAN CLARK: Mr. Shreve, any questions?

1 MR. SHREVE: No questions. Thank you.

2 CHAIRMAN CLARK: Mr. Armstrong? Go ahead,
3 Mr. Shreve.

4 MR. SHREVE: Dr. Biles.

5 MS. O'SULLIVAN: Chairman Clark.

6 - - - - -

7 DR. FAY BILES

8 was called as a witness on behalf of the Citizens of
9 the State of Florida and, having been duly sworn,
10 testified as follows:

11 WITNESS BILES: I'm Fay Biles, and we have
12 had property on Marco Island since 1967, have bought
13 and sold three times.

14 CHAIRMAN CLARK: I am sorry, I was
15 distracted and I did not get your name.

16 WITNESS BILES: All right. Fay Biles, B, as
17 in boy, B-I-L-E-S. I live at 1588 Heights Court and
18 we have been on the island since 1967. I'm president
19 of the Marco Island Taxpayers Association, a proactive
20 organization with a substantial membership. And I
21 might say that this is one issue that has the full
22 support of all organizations and everyone on this
23 island. We have all worked very closely together and
24 have spent many, many hours analyzing paper after
25 paper and piles this high. The teams have done a

1 wonderful job of delving into just about everything.

2 Commissioners, Mr. Shreve, as customers of
3 SSU we've not been happy with any of the decisions
4 coming from the Public Service Commission, located way
5 up there in Tallahassee. You are not accessible to us
6 as would be our own Collier County Commission. We
7 fear that you are forced to be politically accessible
8 to the office that appointed you and to those who have
9 his ear. You can't be as accountable to us.

10 Accordingly, we have petitioned our Collier County
11 Commission to pass a resolution to retake jurisdiction
12 over SSU. (Applause) The committee has looked
13 thoroughly into how the county operates their utility
14 system and we find out that they have cost less to
15 their customers and it has been much more effective.

16 One of your contrary decisions is being
17 appealed by several counties, including Collier
18 County. We applaud the efforts of our county and the
19 others in attempting to retain local authority.

20 We understand that wrestling this authority
21 from the counties is central to the imposition of
22 uniform rates, which is what SSU and Minnesota Power &
23 Light want and need for controlling development in
24 Florida.

25 SSU in its presentation failed to mention

1 the sales it expects to make to support its
2 investment, expenses and profits. It means that our
3 rates and their profits will be greatly increased.

4 SSU has projected that sales and, therefore,
5 revenues will go down rather dramatically as a result
6 of price elasticity. In plain English, this means
7 that SSU wants to charge us more per gallon of water
8 because they say we will use less because they're
9 already charging us so much. It doesn't make sense.
10 Ridiculous. Where will it end? Besides SSU's
11 numbers, for what little worth they are, were based
12 solely on its assumption that you would grant them
13 uniform rates. Have they been modified for the change
14 to capped stand-alone rates?

15 SSU has also suggested huge decreases in
16 sales and revenues resulting from water conservation.
17 Of course, on Marco Island we all are in favor of
18 appropriate conservation. But we believe the
19 projected sales reductions are greatly overstated.
20 (Applause) Again, these projections hurt us, the
21 customers.

22 Please, Commissioners, study their figures
23 carefully. By far the largest reduction in sales
24 comes from anticipated reuse projects.

25 Customers on Marco Island need to know that

1 there is a regulatory fee of 4.5% hidden in our bills
2 that goes to the Public Service Commission to regulate
3 SSU. That equates to almost \$500,000; a half a
4 million dollars. It is better to keep that half
5 million here locally and do an adequate job of
6 regulation. That money could go to the County
7 Commission. They've already told us they don't need
8 that much. (Applause) And that will affect our
9 rates.

10 Marco Island accounts for almost 27% of all
11 the revenue in this rate case in the original filing.
12 Marco is at the top of the list of the 140 systems,
13 and I have the list here if anyone is interested in
14 looking at it later, two pages. 140 systems and guess
15 who is right at the top getting the most money for
16 SSU? Marco Island. Almost twice, according to the
17 next, Deltona Lakes system. Are we the cash cow of
18 SSU? It looks that way. Of course we, as taxpayers,
19 know we've heard that little song before.

20 In 1993 the last rate case was heard
21 locally. Now, for the 140 systems, the evidentiary
22 hearing will be heard in Tallahassee where most of us
23 won't be present to observe. Why don't you take part
24 of that half a million and hold the hearing on Marco
25 Island, please. (Applause) It is difficult enough to

1 analyze the tremendous amount of paperwork involved in
2 the Marco case let alone analyzing the total number of
3 pages included for the total 140 systems. We would
4 have to go through and analyze over 200,000 pieces of
5 paper.

6 As customers, to protect ourselves fully,
7 it's an impossible task and it's doubtful that even
8 you as Commissioners, with your large staff, you could
9 not possibly do a satisfactory job of analyzing all
10 that material.

11 In this case we have formed teams on the
12 island and we have gone through every piece of paper
13 to analyze the case. But believe me, 200,000 pieces
14 of paper? No way.

15 Marco Island deserves fair water rates and
16 we will continue to fight for our future survival as
17 long as it takes. Thank you. (Applause)

18 CHAIRMAN CLARK: Questions, Mr. Shreve or
19 Mr. Twomey or Mr. Armstrong?

20 MR. SHREVE: Thank you very much.

21 MR. ARMSTRONG: No.

22 CHAIRMAN CLARK: Mr. Shreve.

23 MR. SHREVE: Mr. Gross. (Applause)

24 - - - - -

25

WIL GROSS

1
2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS GROSS: Madam Chairman, I think it's
6 time for the troops to come in to replace the experts.

7 When I returned from Thanksgiving vacation I
8 really went into shock. I thought being with the
9 atomic troops out in Nevada and seeing an atomic bomb
10 explode in my face was the worst shock I would ever
11 have during my lifetime, but opening the water bill
12 from SSU I think almost equals that.

13 I may hold the record for two weeks of water
14 with a bill of \$941, and 311,000 gallons of water as
15 usage as shown on the meter.

16 Now, I had SSU come out and they checked the
17 sprinkler system; it was fine. I have no leakage and
18 they admitted I have this leakage. The pool man added
19 one inch of water to the swimming pool during that
20 time, and during those two weeks I had a couple check
21 the house every day and still I don't know -- and I
22 haven't been told where I could use 300,000 gallons of
23 water in a private house. I'm not a motel, I'm not a
24 hotel, I'm not a business. And they talked about the
25 meter.

1 Well, I called the Public Service Commission
2 in Tallahassee and I got a very nice young lady, and I
3 spoke to a Mr. Raspberry and I was stonewalled very
4 nicely. He says, "It probably was the meter. If the
5 meter shows that you used 300,000 gallons of water;
6 you used 300,000 gallons of water in two weeks. I
7 called Apopka and spoke to Mrs. White, "Well, maybe
8 the toilet was running or maybe you had a leakage." I
9 mean, 300,000 gallons of water with a running toilet.
10 I know we didn't have any leakage in our house because
11 we were checked by the water company.

12 And then I checked with the local people and
13 it all came down to the meter. Whatever the meter
14 says, that is what you're going to pay. Now, the
15 meter is -- must be God. I think we should enshrine
16 it in every community where SSU is and worship it
17 because it can do no wrong.

18 Now, why can't they tell me where in two
19 weeks what part of my house can use 300,000 gallons of
20 water? I want to know. I mean, I'm worried. Now, we
21 took the meter out to have it bench tested which I
22 don't know whether bench testing will do any good or
23 mean anything.

24 Now, they wanted to send it to Precision,
25 which made the meter. That's like trying to get Ford

1 or General Motors, to take their own cars for a fault.
2 So I hired a private company. I have a private
3 company that will check the meter. Now, I've seen
4 that meter one time since they have taken it out, but
5 they won't let me take it to the private company.
6 They have to have their representative. They call it
7 company property, which it is although it seems I've
8 paid for it a hundred times. And they want a notary
9 public to be there when they test. I mean, as far as
10 I'm concerned they can have a judge and jury there. I
11 mean, we can try the meter to see if it's guilty.

12 (Applause) It seems like we have two laws in this
13 state: One which is the Florida State law where you
14 are innocent until proven guilty; and one is the
15 Southern States law where you're guilty until your
16 proven innocent and I don't know anybody that has been
17 proven innocent. (Applause)

18 My suggestion is take the water away from
19 SSU all over the state. Give it back to the counties.

20 (Applause) The county answers to the people. And the
21 people will vote for what is right.

22 The county can, if they want, they can sell
23 that water to individual water companies much like we
24 have a choice of a telephone company. And we could
25 let the individual water companies put in their own

1 meter. If we don't like them, then we change them.
2 At least we have a choice. We're not ruled by a
3 monopoly that can put into anything they want to do.
4 It seems like if they want to raise the rates, if they
5 want to cut off your water, whatever they want to do
6 they can do. And you have to have that water or
7 else -- you can live without sleep, you can live
8 without many things, but you can't live without water.
9 You have to drink water. Not that it's so great.

10 (Applause)

11 CHAIRMAN CLARK: Mr. Gross, let me just ask
12 you, have you had that -- I want to get back to the
13 300,000 gallons in two weeks. Did the Utility test
14 the meter?

15 MR. GROSS: We're going to test it on
16 Wednesday.

17 CHAIRMAN CLARK: Okay. All right.

18 MR. GROSS: Wednesday. No matter, I still
19 can't figure out how in two week's time that an
20 individual house with two people living in there, no
21 small children and we don't use it to the excess, can
22 use 300,000 gallons of water. I mean, I'd like an
23 explanation.

24 CHAIRMAN CLARK: Well, Mr. Gross, so would
25 I. So I would like to know when that meter is tested,

1 and I would like Karen Amaya, who is your engineer, to
2 get with you at a break in the hearing and follow up
3 on this.

4 MR. GROSS: I mean, I have been a
5 professional engineer. I have known meters or other
6 things to go bad. This meter was under water for six
7 months and covered with mud. I couldn't see the
8 meter. And they took out four buckets of mud when
9 they installed the new meter. When I asked SSU who
10 was responsible for taking care of their meter and
11 taking out the mud and making sure it was drained or
12 where it wasn't a subterranean type of reading they
13 were taking. Maybe they sent a skindiver down to read
14 the meter. And the answer I got, "It's not our
15 responsibility." Whose responsibility -- it's their
16 meter on county property in my sidewalk. Where is the
17 responsibility? To whom do I go to to see that the
18 meter is kept in proper order, that it's not flooded
19 with the water for six months and buried in mud?

20 CHAIRMAN CLARK: Mr. Gross, your questions
21 are certainly things I want to follow up on, and I
22 would hope you will talk to Karen Amaya. I'm sorry
23 that when you did call that you didn't get a better
24 answer from us.

25 MR. GROSS: Lastly, I understand, and I know

1 that the Public Service Commission has a tentative
2 walk on a line, you might say, walk a tight rope
3 between government and the the people. But they were
4 formed to protect the people. They were formed to
5 make sure that the people got a fair chance. I mean,
6 it's up to you as public service people to forget
7 about politics. But this rampant type of thing that
8 SSU is trying to pull on all communities that it is in
9 is ridiculous. (Applause)

10 WITNESS GROSS: Thank you very much.

11 CHAIRMAN CLARK: Are there any questions of
12 Mr. Gross?

13 MR. SHREVE: No, ma'am.

14 CHAIRMAN CLARK: Mr. Armstrong? Staff?

15 MR. ARMSTRONG: No, ma'am.

16 MR. SHREVE: Thank you very much.

17 CHAIRMAN CLARK: Thank you, Mr. Gross.

18 MR. SHREVE: Mr. Bergmann.

19 - - - - -

20

21

22

23

24

25

RICHARD BERGMANN

1
2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS BERGMANN: My name is Richard
6 Bergmann, and I live at 58 North Collier Boulevard,
7 Marco Island. I'm president of the Gulfview
8 Condominium Association.

9 For your brief information, and to put it in
10 the perspective, we sent SSU a hundred grand last
11 year, in response to their bills, for both sewer and
12 water service.

13 I also should acknowledge the presence of
14 the various attorneys, Commissioners, et cetera.

15 On March 9th, 1995, we had a very serious
16 break in the 30-inch pipeline that runs under the
17 river that brings water from the -- presently called,
18 I guess, Marco Pits -- formerly the Collier Pits --
19 down to the Marco Island softening plant of SSU. This
20 represents an interruption, serious interruption in
21 service for -- it handles about 60% of our water that
22 comes on the island.

23 Our building, like all the other buildings
24 on the island, was required to put in backflow
25 preventers and so forth, which we did at considerable

1 expense. We found after the service interruption,
2 which we couldn't even account for at the time, that
3 our water pressure was dropping rapidly about
4 7 o'clock on the morning of March 10th. The break had
5 actually occurred on Thursday, the 9th, about 11 p.m.
6 There was enough water in the system and the system
7 wasn't being used that much, apparently, for about
8 eight or nine hours, so the pressure stayed up
9 reasonably well.

10 After about 8 o'clock on Friday morning, the
11 10th, our pressure began to drop rapidly, and by about
12 9:00, 10:00 we had people in the building wondering
13 where they could get any water. We had one little
14 source of water relative to our irrigation meter that
15 provided a very minimal flow, perhaps as much as maybe
16 seven or eight gallons a minute, something like that.
17 We had about 600 people in this building at the time.
18 This is a 21-story building. And for the next 18
19 hours they were carrying water in buckets from their
20 ground floor source, which was this irrigation outlet
21 that I mentioned, to the various floors in the
22 building.

23 Now, many of these people have been on
24 Social Security for at least 20 years and this is not
25 an easy thing for these people to do. The thing that

1 really upset me about this whole thing, I wrote a
2 letter to Scott Vierima who was then the active chief
3 executive officer of SSU, and he responded to me. And
4 I will say that I think the repair of the break was
5 handled probably fairly well. However, the
6 information available and the assistance we got from
7 SSU on the matter was horrible.

8 I was looking through the filings in this
9 rate case and I found that Mr. Vierima had
10 specifically addressed the fine performance of the SSU
11 group in this matter, this specific matter I'm talking
12 about, and he said "The end result of the system-wide
13 coordinated effort was the restoration of the mainland
14 water supply source within 24 hours without an
15 interruption of service and/or the inconvenience or
16 adversity associated with it, which is not true.

17 Since this is, among other things, a service
18 hearing, I think it's very important to understand
19 that this is not the case at all. I have complete
20 copies of all of the correspondence here if anybody
21 cares to see it. I would be glad to send you copies
22 of it or anything else, but I do think it's very
23 misleading not to acknowledge something like this.
24 And I have a letter from him acknowledging my
25 description of the complete problem and how it was

1 solved and how it affected us. So he was well aware
2 of it, it's just that --

3 CHAIRMAN CLARK: Mr. Bergmann, do you have
4 those with you?

5 WITNESS BERGMANN: I have them right here in
6 my hand.

7 CHAIRMAN CLARK: I'd like to go ahead and
8 take them as an exhibit in this hearing so that the
9 Staff --

10 WITNESS BERGMANN: Can I get copies back? I
11 don't have extra copies.

12 CHAIRMAN CLARK: Absolutely you can.

13 WITNESS BERGMANN: I find sometimes these
14 things disappear and I never see them again.

15 CHAIRMAN CLARK: Now, Mr. Bergmann, is that
16 the case? Didn't we get you all of your filings last
17 time? Didn't we give you things back last time? In
18 the last hearing I thought we gave you everything
19 back?

20 Mr. Bergmann, I'm going to mark this as
21 Exhibit 29. I will have my aide make sure that it is
22 entered as an exhibit and appropriate copies are made
23 and you get copies back.

24 (Exhibit No. 29 marked for identification.)

25 WITNESS BERGMANN: One other thing I'd like

1 to say while I'm up here. We have had a number of
2 comments on -- oh, the problem of supplying water on
3 Marco; the highly variable demand situation, that sort
4 of thing.

5 I've done a lot of work and I've met most of
6 you people before. I've enjoyed the work. It has
7 been very interesting. However, it has been just a
8 little bit discouraging for me. I decided after the
9 last rate increase that maybe some of us here on Marco
10 could lend a hand to SSU and try to help them with
11 some of these problems, maybe we'd get somewhere that
12 way. I was very disappointed with the results.

13 One of the things that I remember in
14 particular, we knew that the lease on the pits was
15 expiring at the end of December 1994, actually, and
16 something had to be done about it, and various things
17 were tried. It was finally determined that the best
18 course of action was to start the condemnation
19 proceedings, which eventually ended up in a purchase
20 by the water company from the Barron-Collier interest.

21 As a result of considerable effort I dug up
22 the only remaining gentlemen on this earth who was a
23 director of either Deltona or the Barron-Collier
24 interest at the time that the transfer of property and
25 so forth was made back in 1963, '64. This was very

1 important because he was the one who understood the
2 thoughts and ideas of both the Colliers and the
3 Deltona people at the time of the purchase. And he
4 told me specifically that the Colliers were highly
5 interested in making sure that Marco had a good water
6 supply.

7 I called Karla Teasley, who was then Chief
8 Legal Counsel -- I understand now she's in charge of
9 Customer Relations or something -- but at that time
10 she was Chief Legal Counsel. And it took me about
11 five days to find her. I never got calls back from
12 her secretary or anything else. But after doing this
13 work I was persistent and I was darned if I wasn't
14 going to find her. I finally did. I passed this
15 information on to her. I gave her Neil Bar's (ph)
16 address, who is this gentlemen I'm speaking of, and I
17 urged maybe he could be of help in this negotiation
18 because he had all of the background.

19 I never received any acknowledgement that
20 she had even heard from me. To the best of my
21 knowledge, no contact by SSU was made with the -- Neil
22 Bar on this matter and I think he could have helped.
23 The only thing that really has occurred that sticks in
24 my mind is, at the time they started this condemnation
25 proceeding they had an appraisal of \$4 million on the

1 pits. They finally bought them for \$8 million. I
2 think if Mr. Bar had been brought into the picture he
3 might have helped considerably in lowering that
4 purchase cost.

5 Thank you very much. (Applause)

6 CHAIRMAN CLARK: Thank you, Mr. Bergmann.
7 Any questions?

8 Mr. Bergmann, did you get all of your
9 exhibits from the last hearing back?

10 WITNESS BERGMANN: To the best of my
11 knowledge. I had so much paper.

12 MR. SHREVE: Thank you, Mr. Bergmann.

13 (Witness Bergmann excused.)

14 MR. SHREVE: Mr. Newman. (Applause)

15 - - - - -

16 **BOB NEWMAN**

17 was called as a witness on behalf of the Citizens of
18 the State of Florida and, having been duly sworn,
19 testified as follows:

20 WITNESS NEWMAN: That may be the last clap I
21 get.

22 Madam Chairman and Commissioner Johnson, my
23 name is Robert Newman. My address is 44 Greenbrier
24 Street at the Mariner Apartments here in Marco Island.
25 Mr. Armstrong in his opening remarks said something

1 about 200 years of expert experience. I don't have
2 anything near that, but I suspect this audience has
3 probably 2,000 years of paying bills experience to
4 SSU.

5 But my originally planned comments have been
6 eloquently presented by Kjell and Joe and all of the
7 gentlemen before me.

8 CHAIRMAN CLARK: Mr. Newman, would you make
9 sure you speak into the microphone.

10 WITNESS NEWMAN: Okay. Sorry. My
11 originally planned comments have been covered pretty
12 eloquently by previous speakers Kjell and Joe. And
13 most of my ideas have been washed away in that 300,000
14 gallons of water. But what I have left is my
15 concluding remarks, if you will.

16 I believe that any reasonable person would
17 agree that a rate increase of 45% and 30% are one,
18 confiscatory; two, predatory; three, monopolistic, and
19 four, not justifiable. I think John D. Rockefeller
20 and the railroad barons of the 1900s would like Robin
21 Hood compared to what SSU wants from the consumers of
22 Marco Island. (Applause) We only want what is our
23 due, and that is fair, reasonable and just rates. And
24 I think tonight's presentations ought to convince you
25 that that indicates not only should SSU not get an

1 increase, but perhaps a reduction to bring them back
2 to reality. Thank you.

3 CHAIRMAN CLARK: Thank you. Mr. Newman.
4 Any questions?

5 (Witness Newman excused.)

6 - - - - -

7 CHAIRMAN CLARK: Mr. Shreve, before you call
8 your next witness, we're going to take a ten-minute
9 break until 8:00. We have one court reporter, and I
10 need to be fair and give her a break.

11 Before we do break, I'd like to indicate to
12 you a gentleman came up to me at the beginning of this
13 hearing and asked that I make an announcement
14 regarding a presentation that's going on by a Dr. Orin
15 Pilkey.

16 THE AUDIENCE: Objection. There's two side
17 to that question. I object to you presenting it at
18 this meeting.

19 CHAIRMAN CLARK: I'm happy not to. I was
20 simply doing it as a public service and if you object
21 to it, I have -- (Simultaneous conversation)

22 THE AUDIENCE: We have an opposite view.

23 CHAIRMAN CLARK: All right. Then I am not
24 going to read this announcement. Thank you for
25 telling me that. We well reconvene at 8:00.

1 WITNESS PETERSEN: Chairman Clark, can I
2 just ask the audience to -- can I just ask you all to
3 please remain and come back in here. It's important
4 that you don't go home, but stay as long as you
5 possibly can. Thank you.

6 (Brief recess.)

7 CHAIRMAN CLARK: Mr. Shreve.

8 MR. SHREVE: Mr. Penzo.

9

- - - - -

10

PHILIP PENZO

11 was called as a witness on behalf of the Citizens of
12 the State of Florida and, having been duly sworn,
13 testified as follows:

14 WITNESS PENZO: I'm Philip Penzo. I live at
15 357 Rookery Court, Marco Island. I've lived here for
16 15 years. I'm currently president of the Marco Island
17 Chamber.

18 One of the functions of the chamber is to
19 bring money to Marco Island. We figure for every
20 dollar we bring we can turn it ten times in our
21 economy. If we're looking at 1.2 million going out of
22 our economy next year we could have a negative impact
23 of \$10 million on us, and we're mostly made up of
24 small businesses on tight budgets.

25 We feel that if SSU needs a better bottom

1 line they should look to cut their expenses before
2 they look for rate increases. As a business on Marco
3 Island we've grown with the island. I can't see -- as
4 the island grows they are going to sell more water;
5 they're going to make more money. Why do they have to
6 increase their percentage on us? I ask you as
7 president of the chamber representing small businesses
8 to deny any kind of price increase at all. Thank you.
9 (Applause)

10 CHAIRMAN CLARK: Thank you, Mr. Penzo. Were
11 there any questions?

12 MR. SHREVE: None. Thank you, sir.

13 Witness Penzo excused.)

14 MR. SHREVE: Malcolm Ruhl. Mr. Ruhl.

15 - - - - -

16 MALCOLM RUHL

17 was called as a witness on behalf of the Citizens of
18 the State of Florida and, having been duly sworn,
19 testified as follows:

20 WITNESS RUHL: My name is Malcolm Ruhl,
21 R-U-H-L. My gorgeous wife and I reside at 176
22 Shorecrest Court, Marco Island. We completed the
23 construction on our house, a lovely home on Shorecrest
24 Court in May of 1989. We were still living up north,
25 but we began a year-round usage of water to take care

1 of our lawn. We had a lawn service, so we began our
2 association with SSU at that time when the house was
3 completed.

4 We have been here now three years year-round
5 and we love it. Late in 1995 our neighbor told me
6 that he was changing his meter from a one-inch to
7 five-eighths because of the impending increases, and
8 it sounded to me like that was a good idea. My bills
9 from May 1989 to that time had all read one-inch water
10 meter. I contacted SSU, made the arrangements. They
11 said it would be a \$15 charge, ten days, two weeks
12 somebody would be out to change it. The man came by,
13 rang the door bell, he said, "You want to change your
14 meter to a five-eighths inch from a one inch?" I
15 said, "Yes." He said, "I can't do it." I said, "Why
16 not?" "You have a five-eighths inch meter." So for
17 77 months I have been charged for a one-inch meter.
18 My estimate, which I don't know is correct, is
19 somewhere between \$800, \$900 due me. I was told that
20 the only way that this could be corrected would be by
21 giving me a credit. Now, we talked about that, but
22 that was the only way it could be done. The other
23 problem was that they could only give me ten months
24 credit at a time on each bill. So to date I have had
25 ten months of credit. I have six months to go to know

1 what the total amount of the refund is. My question
2 to the Public Service Commission is have you mandated
3 that SSU or public utilities cannot or may not, if
4 they so desire, correct the situation with the total
5 refund and interest at the time that the problem is
6 discovered?

7 CHAIRMAN CLARK: Mr. Ruhl, my recollection
8 is that we usually do it by a credit, but let me ask
9 Mr. Willis what our rules provide. Is it only by a
10 credit or can it be done by a refund check? It can be
11 done by a refund check.

12 WITNESS RUHL: See, to this point I do not
13 know what the total is because it's only my estimate.
14 They have not told me what the total is. I was asked
15 when I presented the problem, "Do you have all of your
16 past bills back to May 18, 1989?" I said, "No, I have
17 some of them. I was asked to bring everything that I
18 had in so that they could copy it. But I have never
19 been told. I do not know what the total amount is.
20 And at this rate it will be six months before I do
21 know the total.

22 CHAIRMAN CLARK: Mr. Ruhl, we can look into
23 that for you, and get back to you. And I can ask
24 Mr. Lowe sitting back there if he would follow up with
25 you on how much of a refund you can get and the method

1 for that refund and he can check the Utility records
2 on that.

3 Would you do that for me, Mr. Lowe? Thank
4 you.

5 WITNESS RUHL: Thank you.

6 CHAIRMAN CLARK: Thank you, Mr. Ruhl.

7 MR. SHREVE: I have a question. Now they
8 told you that they could only pay you back for ten
9 months?

10 WITNESS RUHL: At a time on each monthly
11 bill. Each monthly bill that I now get I get ten
12 months of credit plus the charge and then the balance
13 of the credit.

14 MR. SHREVE: Did they tell you why in their
15 opinion it could only be done by credit?

16 WITNESS RUHL: They did not.

17 MR. SHREVE: Okay. Thank you very much.

18 Commissioner I'd like to be kept informed on
19 what happens on that, too.

20 CHAIRMAN CLARK: Absolutely, Mr. Shreve.

21 MR. SHREVE: Thank you very much.

22 WITNESS RUHL: You're welcome. (Applause)
23 (Witness Ruhl excused.)

24 MR. SHREVE: Mr. Baarman.

25 CHAIRMAN CLARK: Mr. Armstrong, I'd ask you

1 to follow up on that, too.

2 MR. ARMSTRONG: I sure will.

3 CHAIRMAN CLARK: Go ahead, Mr. Shreve.

4 MR. SHREVE: Mr. Baarman.

5 - - - - -

6 DON BAARMAN

7 was called as a witness on behalf of the Citizens of
8 the State of Florida and, having been duly sworn,
9 testified as follows:

10 WITNESS BAARMAN: Hello, my name is Don
11 Baarman, and I'm here to represent Marriot's Ranch and
12 Las Palmas Resort. I work as the controller of this
13 business. And, first of all, I'd like to say thanks
14 to the Commission for the opportunity to hear some of
15 our concerns this evening. I think it's been
16 beneficial for all of us.

17 CHAIRMAN CLARK: Mr. Baarman, if you
18 would --

19 WITNESS BAARMAN: Yes, put the mike up.

20 Thank you very much for the opportunity to
21 address you this evening.

22 The success of our business here at this
23 resort depends on our ability to attract customers to
24 come to this establishment. To that end the rates
25 that we set and that we charge our customers has a

1 significant impact on whether they chose to come to
2 this resort or not. Our customer has a wide variety
3 of options. We are largely a convention-driven
4 business here in this resort. Those conventioners
5 have the opportunity to stay in destination resorts
6 all over this country from the east coast to the west
7 coast. We do not compete solely with the market here
8 on Marco Island. We attract hundreds of thousands of
9 customers to this resort. We spend a great deal
10 of money, millions here in our resort and also on this
11 island in the restaurants and the retail shops and the
12 recreational activities. These customers, since they
13 have the ability to go to other resorts, are impacted
14 by the rates that we charge them.

15 From 1992 fiscal year for this operation to
16 the fiscal year 1995 our water rates increased 82%.
17 During that time period we increased our room rate,
18 the amount of money we charge on average for a guest
19 to stay at this resort only 11%. Quickly you can see
20 that it has a significant impact on the bottom line.
21 Our profitability, the reason that we are here in
22 business, and I would submit to you that it's very
23 hard to stay in business no matter what size operation
24 you have. We've heard from some of the people from
25 the chamber that run smaller businesses here on the

1 island, but regardless of what size business you are
2 you have to continue to be profitable.

3 We have heard repeated talk here on the
4 island of the use of reclaimed water for irrigation.
5 We have made significant improvement here at this
6 resort. You can never improve enough in terms of
7 conservation but we continue to strive to improve.
8 Last year alone we improved the conservation of our
9 water by 9 million gallons in a one-year time period.
10 That's a significant impact for us. However, when our
11 rates continue to increase at the rate that they are,
12 you know, we're taking one step forward and two back.

13 I submit tonight respectfully that we need
14 rate decreases, not denial of future rate increases to
15 help us here in business on Marco Island --
16 (applause) -- to help us here in our business on Marco
17 Island so that we continue to remain competitive; we
18 continue to be able to attract customers to this
19 beautiful island. That you very much.

20 CHAIRMAN CLARK: Could you please spell your
21 last name for me?

22 WITNESS BAARMAN: B, as in boy, A-A-R-M-A-N.
23 And if you'd like, the address here is 400 South
24 Collier Boulevard.

25 CHAIRMAN CLARK: Mr. Twomey.

1 MR. TWOMEY: Yes, ma'am, thank you. I've
2 got a couple of short questions.

3 CROSS EXAMINATION

4 BY MR. TWOMEY:

5 Q Mr. Baarman, you heard testimony earlier,
6 did you not, to the effect that in addition to the
7 high level of rate increases being sought by SSU that
8 there is being asked for a \$1.2 million uniform rate
9 subsidy? Did you hear that testimony?

10 A Yes, I did.

11 Q Okay. Now, let me read you two small
12 sections of a letter, and I want you to listen to me
13 carefully, if you would, and see if it doesn't have
14 the tendency, in your opinion, to aggravate the
15 situation you just spoke to, okay?

16 A Okay.

17 MR. TWOMEY: This will only take a second,
18 Madam Chair.

19 Q It's from the September 8th, 1995, letter to
20 Lieutenant Governor MacKay from Dr. John Cirello,
21 President of SSU, talking about meeting August 30th of
22 last year. And he says, and I quote, "It was apparent
23 that we have a common interest in directing growth to
24 the more water rich interior portions of the state
25 through pricing mechanisms. As indicated, we have

1 proposed a rate structure to the Florida Public
2 Service Commission that would have customers in areas
3 requiring advanced water treatment technologies,
4 generally coastal communities, pay the marginal cost
5 of providing that service. At the same time our
6 single-tariff approach for the remaining customers
7 helps to support growth in areas of low density by
8 averaging cost among all customers. Otherwise, with
9 the small base of customers, adding or improving the
10 plant creates excessive rates when these costs are
11 borne by that community alone. Those high rates
12 become a disincentive for community development."

13 And my question to you is that -- what he's
14 saying there is talking about the \$1.2 million, that's
15 my interpretation. If that's correct, do you see that
16 transfer of money, the \$1.2 million being asked for in
17 subsidies, as being harmful to your industry? That
18 is, if it goes perhaps to a development resort
19 someplace else?

20 A Most definitely. Anytime that our rates are
21 raised here it inhibits our ability to continue to
22 attract customers to this resort. If it's going
23 somewhere into the interior of Florida, Orlando is one
24 of the biggest competitors we have in this market
25 here. They are a resort/convention destination. We

1 are in direct competition with places like that. If
2 Orlando can offer better rates than we can offer, this
3 is the 1990's we're living in. People have choices;
4 they make hard choices. Money drives where people
5 take their conventions. Every company in the 1990's
6 is concerned with restructuring and saving as much
7 money as it possibly can. That impacts their
8 conventions also. More so than it ever has in our
9 business.

10 MR. TWOMEY: Thank you very much.

11 CHAIRMAN CLARK: Thank you, Mr. Baarman.

12 WITNESS BAARMAN: Thank you.

13 (Witness Baarman excused.)

14 CHAIRMAN CLARK: Mr. Shreve.

15 MR. SHREVE: Ruby Rutherford.

16 CHAIRMAN CLARK: Ms. Rutherford.

17 MR. SHREVE: Ms. Rutherford.

18 UNIDENTIFIED SPEAKER: She left.

19 CHAIRMAN CLARK: Thank you.

20 MR. SHREVE: Thank you.

21 Gus Alexakos.

22 - - - - -

23

24

25

GUS ALEXAKOS

1
2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS ALEXAKOS: My name is Gus Alexakos,
6 spelled A-L-E-X-A-K-O-S, and I reside at 4625 Windy
7 Lane in Zephyrhills, Florida, and I'm also the vice
8 president of the Zepher Shores Estates Mobile Home
9 Park Association.

10 On October 3rd, 1995, I testified before the
11 Commission here that SSU had dropped a pump in one of
12 our wells. Our only well that we do have. And as of
13 today they still have not retrieved that pump and
14 that's why we're getting a bad taste in our water. I
15 hope that SSU will do something.

16 One thing they did do, we asked for a
17 flushout of areas in our park and they did install a
18 second one last month. We have two more to go, so I'd
19 like SSU to complete their job on that.

20 I'd like to ask Mr. Armstrong a question, if
21 I'm permitted, Chairman Clark?

22 CHAIRMAN CLARK: Go ahead, Mr. Alexakos.

23 WITNESS ALEXAKOS: I received, and other
24 people in our mobile home park received, a notice from
25 Southern States Utilities regarding a meeting January

1 16th, 1996, and the subject was "How this case impacts
2 on your rates." And I'd like to ask Mr. Armstrong,
3 when were these cards mailed out?

4 CHAIRMAN CLARK: Mr. Armstrong, do you know
5 that?

6 MR. ARMSTRONG: No, I'm sorry, I wouldn't
7 have the dates when they were mailed out.

8 WITNESS ALEXAKOS: The meeting was scheduled
9 for the 16th of January at 4:30 p.m. at the Holiday
10 Inn in Port Richey, Florida. All of us in our park --
11 there's 209 homes -- we received this notice on the
12 16th of January at about 4:00 in the afternoon.

13 CHAIRMAN CLARK: Okay.

14 WITNESS ALEXAKOS: So that's the kind of
15 communications SSU has with us.

16 Also I want to turn in -- I have 87 names
17 that have signed petitions that I personally went door
18 to door, and that includes our 209 homes. And I'll
19 give this to you, Mrs. Clark.

20 CHAIRMAN CLARK: Thank you.

21 These are petitions objecting to the
22 Southern States Utility proposed increases for water
23 and wastewater. We're going to label the petition
24 from Mr. Gus Alexakos as Exhibit 30, and we'll attach
25 the two notices as part of that exhibit.

1 (Exhibit No. 30 marked for identification.)

2 WITNESS ALEXAKOS: Thank you. I personally
3 obtained all of those signatures and went door to door
4 in our entire park.

5 Our association is disappointed that the
6 Commission did rule an interim increase. And that's
7 why we were we're all present there, so many of us on
8 October 3rd, asking that you delay any interim
9 increase until all of the hearings were concluded.

10 CHAIRMAN CLARK: Mr. Alexakos, we have to
11 act on an interim increase within a certain amount of
12 time. But I would like to point out to you I don't
13 think that interim increase will affect you all
14 because you are in Hillsborough County, are you now?

15 WITNESS ALEXAKOS: No, we're in Pasco County
16 and I just received the item outside here; our
17 gallonage per thousand went from \$1.23 to \$4.62.
18 That's only the interim. We're afraid what the final
19 results are going to be. And Zephyrhills is known for
20 the best water in the state of Florida. Most of you
21 buy your bottled water. We can't drink the water that
22 SSU provides us. (Applause)

23 From all of the testimony from September
24 14th, the first hearing that you had, I'd just like to
25 ask how many people were in favor of an increase?

1 That's citizens I'm asking. Were there any?

2 CHAIRMAN CLARK: At that hearing?

3 WITNESS ALEXAKOS: No, from September 14th
4 until today.

5 CHAIRMAN CLARK: All of the service
6 hearings.

7 WITNESS ALEXAKOS: Yes, did we get at least
8 a handful, a dozen.

9 CHAIRMAN CLARK: I don't recall people being
10 in favor of a rate increase.

11 WITNESS ALEXAKOS: Thank you. I just wanted
12 the people to hear that. (Applause)

13 Our association, being as vice president of
14 the association, we're also against the Utility to
15 implement a monthly weather normalization clause
16 adjustment. We feel it's completely unfair to all
17 customers.

18 That's all I have. Are there any questions?

19 CHAIRMAN CLARK: Mr. Twomey.

20 CROSS EXAMINATION

21 BY MR. TWOMEY:

22 Q The meeting that you spoke about, January
23 16th, and the notice, was that an SSU-sponsored
24 meeting to help explain to you --

25 A That was strictly SSU and not the

1 Commission.

2 Q Okay.

3 A But all the residents received it that
4 afternoon because it was a holiday on the 15th.

5 Q Okay. Now, do you think there's any
6 possibility that that meeting could have confused any
7 of your neighbors on -- with thinking that was the one
8 that was going to be held by the PSC later?

9 A I don't know.

10 Q Okay. Thanks.

11 CHAIRMAN CLARK: Mr. Alexakos, I do want to
12 tell you that there is a hearing scheduled closer to
13 you for Wednesday, January 31st at 10:00 a.m. at the
14 City of New Port Richey Commission Chambers.

15 WITNESS ALEXAKOS: There will be
16 representatives there from our park.

17 CHAIRMAN CLARK: Good.

18 WITNESS ALEXAKOS: Thank you.

19 CHAIRMAN CLARK: Any other questions?

20 MR. SHREVE: Yes.

21 **REDIRECT EXAMINATION**

22 BY MR. SHREVE:

23 Q I think Mr. Twomey covered part of the
24 question I had about the cards that you received, that
25 SSU is setting up some meetings around the state on

1 their own to explain their side of it, I guess.

2 Another question I have, if I recall, you
3 were a mayor, weren't you?

4 A Yes, sir. I was a mayor from Cary,
5 Illinois, from '77 to '85.

6 Q Did you have a water and sewer system?

7 A Yes, sir, I did.

8 Q What kind of rate increases did you have
9 over the years?

10 A During my term of office -- I served two
11 terms, four years apiece -- we had no increases
12 whatsoever to our citizens. I held them down.

13 UNIDENTIFIED SPEAKER: Bravo. (Applause)

14 MR. SHREVE: Thank you very much. We'll
15 look forward to hearing from you and your cohorts at
16 the other hearing.

17 WITNESS ALEXAKOS: Thank you, sir.

18 (Witness Alexakos excused.)

19 MR. SHREVE: Mr. Klein.

20 - - - - -

21

22

23

24

25

ANTHONY KLEIN

1
2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS KLEIN: I'm Anthony Klein. That's
6 K-L-E-I-N. And I live at 980 San Marco Road here on
7 Marco. I have been here full time for two years. My
8 folks have lived here 20 years.

9 I can only base my comments on the
10 information that I received through the mail, and I
11 just want to say that in the summary of September
12 12th, 1995, notice to the Public Service Commission,
13 there were figures quoted and percentages given for
14 the increase in water revenue and increase in
15 wastewater revenue. The question that I have, what is
16 the present rate of return for SSU? I've seen dollars
17 and cents, but I don't see anything that says how much
18 are you making now? How much more do you want to
19 make? This would more clearly indicate if an increase
20 is warranted in my consideration.

21 My next statement is that to my knowledge
22 for years the Collier Pits were an adequate source of
23 Marco's water supply. My question is that if it were
24 not for the development along 951 would not that
25 supply still be adequate for Marco? My statement is

1 that if the answer is yes, then why should Marco have
2 to pay the higher rates to support the costs of the
3 reverse osmosis plant?

4 The people of Marco, if this were to be
5 approved, would essentially be subsidizing the water
6 cost of those people that are now using what was
7 Marco's source of water. It's unfair for Marco to
8 have to bear the burden of the cost of this plant and
9 its operation while its previous source of cheaper
10 water is now being used by others. At least this cost
11 should be shared equally by all using the water from
12 the Collier Pits and Marco should not be penalized for
13 an increase in SSU's customer base.

14 The last statement I have to make is on the
15 weather normalization clause. It would penalize
16 efforts at conservation by increasing the water rates
17 if the customers reduce their consumption.

18 Just as an aside, I'm seeing more stone
19 lawns on Marco, and I'd hate to see this turned into a
20 community something like you find in the desert. But
21 if this continues, there's an awful lot of people,
22 like my mother, that are on fixed incomes with some
23 savings and Social Security, that just cannot afford
24 to pay what you're going to be asking. (Applause)

25 Lastly, on the weather normalization, if

1 this were in place I would see SSU having no incentive
2 to run an efficient utility as their income would be
3 assured no matter how poorly they would operate.

4 Thank you.

5 **CROSS EXAMINATION**

6 BY MR. TWOMEY:

7 Q Mr. Klein, how is the water quality? How is
8 the taste? Do you drink the water or do you --

9 A Well, let me tell you. When we first moved
10 to Marco, moved into our house, I was getting yellow
11 ice cubes. We called the water company; they did send
12 someone out, and he said, "Well, you've got to flush
13 your system. You may be at the end of a line." So
14 for four hours we ran the water. We still got yellow
15 ice cubes. I went out and at an approximate cost of
16 \$2,000, had Culligan put in a water softener and an
17 activated charcoal filter. We now have clear ice
18 cubes.

19 MR. TWOMEY: Thank you. (Applause)

20 WITNESS KLEIN: Thank you.

21 MR. SHREVE: Thank you, sir.

22 (Witness Klein excused.)

23 MR. SHREVE: Mr. Jacob Tulp.

24 - - - - -

25

1 JACOB TULP

2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS TULP: Jacob Tulp. I live at 1264
6 Bayport.

7 I came here in 1987 on a fixed income. All
8 of us on Marco aren't wealthy. (Applause) I've seen
9 my neighbor, who has a little girl, painting his
10 house. Now when they do that, they're not wealthy
11 people. I came from Illinois, outside of Chicago. I
12 helped build the filtration plants in Chicago. And
13 that water, that filtered water was served to the
14 suburbs around Chicago. Now Chicago had to put on a
15 little profit for themselves. And my Oak Forest water
16 bill was around \$67 every two months. Now that was in
17 the summer. And I can't understand how these people
18 can charge the amount of money they are doing here.
19 In my opinion you people have a license to steal.
20 (Applause)

21 I think that Collier County should buy you
22 out completely -- (Applause) -- at a fire market
23 price. Don't rob the people of Marco Island. We've
24 had enough of it. Thank you. (Applause)

25 CHAIRMAN CLARK: Thank you, Mr. Tulp.

1 MR. SHREVE: Thank you, Mr. Tulp.

2 (Witness Tulp excused.)

3 MR. SHREVE: Ron Dick. Ron Dick.

4 Mr. John Poolk -- Poole. I'm sorry.

5 - - - - -

6 JOHN POOLE

7 was called as a witness on behalf of the Citizens of
8 the State of Florida and, having been duly sworn,
9 testified as follows:

10 WITNESS POOLE: Good evening, my name is
11 John Poole, P-O-O-L-E. I'm almost afraid to tell you
12 where I reside with the high pressure that this outfit
13 has been putting on the island, coming right from the
14 top, the state of Florida. I say I'm a little bit
15 afraid of giving my address from the way these people
16 are pushing through their rates and the methods they
17 are using by reaching the Governor of the state of
18 Florida right on down the line.

19 I wonder where the \$25 million has been
20 spent so far, if any at all has been spent in actual
21 construction fees to service this island? Or has it
22 been done with literature that you passed out, reverse
23 psychology, how we cannot flush our toilets, to save
24 money, when you are the ones that are costing us the
25 money.

1 I live on Collier Boulevard where Marco
2 Island should be a show place, where they pay a truck
3 to do the middle of the islands and make it look very
4 pretty. And pretty soon -- it's like the gentlemen
5 before me, a few of them, it will look like a dust
6 bowl. Because I haven't watered my lawn in a month
7 and received a bill for \$112; two people and one
8 guest. That's ridiculous.

9 I come from Jersey, right outside of New
10 York, Bergen County. For 40 years I worked in heavy
11 construction installing water mains, bridges, worked
12 for the Utility contractors, belonged to the utility
13 association. Hackensack Water Company I built -- been
14 participating with them on five dam projects,
15 filtration plants. We've tapped every available
16 source of water because there's very little there,
17 including swimming holes, transporting this water into
18 reservoirs, over five miles. Agreeing with you that
19 construction materials cost the same, the rates of
20 labor up in Jersey quadruple anything down here with
21 union wages and benefits. I don't know how you can
22 possibly push this raise over on anyone and think you
23 can get away with it. (Applause) If you do get away
24 with it, then we know where to go to the polls the
25 next time. And the paper trail will take you and your

1 stockholders -- because Governor Kane owned
2 Elizabethtown water -- will take you to most of your
3 biggest politicians in every state, or in the country,
4 stockholders of your corporation. Would you care to
5 show that paper trail?

6 I appreciate that you're all here and this
7 is one of the first times I have ever got up and
8 spoken in front of a crowd. I'm not educated. I'm
9 legally blind, so I didn't have any paperwork here.
10 Paperwork depresses me, especially these volumes of
11 paper they send you in the mail, in your bill,
12 accusing you of causing your rates to go higher.
13 That's really laughable. You have some nerve doing
14 that to people. If you got rid of about 50% of your
15 middle management people who think up these schemes,
16 (laughter) who have to have jobs because they went to
17 college and they shouldn't have gone, shouldn't have
18 to work for a living -- (applause) -- we wouldn't have
19 this problem in this country, let alone your company.

20 We're trying to do that in Washington now,
21 but they don't get the hint. The government can run
22 without you. They'll be back, paid in full because
23 they're paid off by their political votes and many
24 other things. I don't want to say things that I know
25 about behind the scenes. In Jersey and New York you

1 learn what goes on behind the scenes. In this county
2 it's not what we see; it's what's going on behind the
3 scenes that runs everything, not just one part of it,
4 it runs 100% of it. And the poor little taxpayer
5 takes the brunt of it. The man that preceded me said
6 they are not rich on Marco. Everywhere I go, "Oh, you
7 live on Marco, you're rich." I have a \$120,000 house.
8 The same house in Jersey would cost 300. I don't know
9 how that's rich. I think you ought to readjust your
10 thinking in fairness to everyone and rescind this
11 raise they have because it's abominable and it's
12 uncalled for. Thank you very much. (Applause)

13 CHAIRMAN CLARK: Thank you, Mr. Poole.

14 MR. SHREVE: Thank you, sir.

15 (Witness Poole excused.)

16 MR. SHREVE: Mr. Merkel.

17 - - - - -

18 **KARL MERKEL**

19 was called as a witness on behalf of the Citizens of
20 the State of Florida and, having been duly sworn,
21 testified as follows:

22 WITNESS MERKEL: Good evening. My name is
23 Karl Merkel. I live at 672 Kendall Drive, Marco
24 Island.

25 CHAIRMAN CLARK: Would you spell your last

1 name?

2 WITNESS MERKEL: Merkel, M-E-R-K-E-L. I'm a
3 fairly new part-time resident here. I moved in my new
4 home on February 10th, 1995, and after about two
5 months I had to go back to Canada for the summer.
6 While doing so, I turned off, by accident, my
7 sprinkler system. I turned off the power to it, so
8 there was no sprinkler system. I turned off the main,
9 water main to the house, so there's no water leakage
10 in the house because I'm gone for six months. I just
11 read you now the consumption of the water while I was
12 in Canada -- maybe the rats or the cockroaches, I
13 don't know who did it -- 10,980 gallons in May; 8,080
14 gallons in June; hallelujah, 20 gallons in July;
15 16,390 gallons in August; 4,040 gallons in September;
16 7,340 gallons in October. All at the time while I was
17 in Canada the water main was turned off to the house
18 because the sprinkler system goes out before that.
19 The sprinkler system was turned off electronically,
20 did not work. Where did the water go?

21 When I asked SSU they said, "Well, whatever
22 goes through the meter, that's your responsibility.
23 There's only two things we can do, is a field test,
24 somebody comes out and checks your meter and the next
25 thing is a bench test." And we heard already about

1 bench tests; they don't let you do it with an
2 independent company. Okay, I asked a gentlemen,
3 "Please, when you come out and do the field test, call
4 me before, I want to be there." "Certainly, sir."
5 Four days later I find a little note on my door, "Your
6 water meter is fine." Oh, they didn't want me there.
7 Is there a reason for six months using water?

8 I'm supposed to pay for the field test, at
9 their lab, at their convenience? I think the system
10 in Marco should buy a tested water meter and I'd
11 gladly pay \$50 or \$100 for my test. A lot of people
12 complain about that. I'm not the only one. It's not
13 an isolated case. Like if you have an isolated case I
14 guess, you know -- but we have a hundred cases there.
15 You go around and ask those people. Get those water
16 meters tested, but not by SSU. Get an independent
17 lab. I'd pay for it. And get that water meter and
18 take it from home to home to everybody who has a
19 complaint, and you'll find out how they are ripping
20 off the Marco people. And on top of it, it's lousy
21 water. It's green. (Applause)

22 I come from Canada. I used to own a resort,
23 and we supplied our own water; we had our own septic
24 system, so we are very conscious about water usage.
25 We pumped the water directly out of a lake, which is

1 chlorinated because it's for public use; not
2 filtrated, nothing. It was hundred times cleaner than
3 this here. When we filled our swimming pool here, I
4 asked the contractor if they used the canal water. He
5 said he couldn't be that lucky because it would be
6 better. It was the same color. And I'm not lying.
7 The water in the swimming pool, when you first put it
8 in, before you filter, it is green. Go somewhere to a
9 tap, just a regular tap which is not filtered and fill
10 up a white pot. It's green water. I was a strong
11 believer that you get what you pay for until I came to
12 Marco and used their water. Thank you. (Applause)

13 CHAIRMAN CLARK: Thank you, Mr. Merkel.

14 MR. SHREVE: Thank you.

15 (Witness Merkel excused.)

16 MR. SHREVE: Mr. Shane -- McShane.

17 - - - - -

18 DAVID MCSHANE

19 was called as a witness on behalf of the Citizens of
20 the State of Florida and, having been duly sworn,
21 testified as follows:

22 WITNESS MCSHANE: My name is David McShane.

23 I live at 468 Persian Court.

24 Thank you, Chairman Clark and Commissioner
25 Johnson, for representing the Commission here. I'm

1 grateful for that.

2 In a supposedly capitalist society a
3 guaranteed profit is an oxymoron. But this proposed
4 increase is a scandal and a shame. There's something
5 a good deal more important going on here than the
6 decision about a sewer and water rate increase on
7 Marco Island. Across this country in nooks' and
8 crannies and in large gatherings everywhere people are
9 discussing whether or not they trust their government.

10 It is the function of the Public Service
11 Commission to protect the citizens against a monopoly
12 of utilities. I hope that in your deliberations you
13 think about more than the rate increase, and remember
14 that government "of, for and by the people" may be in
15 your hands. Bless your work. Thank you. (Applause)

16 CHAIRMAN CLARK: Thank you, Mr. McShane.
17 Were there any questions?

18 MR. SHREVE: None.

19 CHAIRMAN CLARK: Thank you.

20 MR. SHREVE: Thank you, sir.

21 (Witness McShane excused.)

22 MR. SHREVE: Mr. Cooper.

23 - - - - -

24

25

1 ARTHUR COOPER

2 was called as a witness on behalf of the Citizens of
3 the State of Florida and, having been duly sworn,
4 testified as follows:

5 WITNESS COOPER: Chairman Clark,
6 Mrs. Johnson and other members, Mr. Shreve and your
7 Staff, thank you for coming here and holding this
8 hearing and giving us a chance to talk to you.

9 My name is Arthur Cooper. I live at 1187
10 Bond Court on Marco Island. For over 20 years I have
11 been a member of the American Waterworks Association
12 and have had a few years experience in the
13 administration and operation of utilities, private and
14 publicly owned.

15 I want to congratulate the PSC for
16 recognizing the Lieutenant Governor's recent
17 interference and recognizing it for what it is. It
18 was cheap politics.

19 I also want to say that I generally support
20 most of the previous remarks. And I just want to say
21 a few words, please, a little further.

22 In my opinion it's grossly unacceptable for
23 SSU to propose the rate increases of such magnitude as
24 they recently did. Furthermore, SSU openly subsidizes
25 operations in other areas with revenue from our Marco

1 system. By doing so it ignores all of the economies
2 resulting from scale of operations, thus small
3 uneconomical operations in other communities which may
4 have less favorable raw water sources and less
5 efficient facilities are supported financially by SSU
6 Marco customers. I urge rejection by the PSC of their
7 rate applications for increases for water and for
8 wastewater operations on Marco. And I request you to
9 require SSU to base its Marco rates solely upon Marco
10 revenues and expenses eliminating those subsidies for
11 support of operations in other areas. Thank you.

12 CHAIRMAN CLARK: Thank you, Mr. Cooper.

13 (Applause)

14 MR. SHREVE: Thank you, sir.

15 CHAIRMAN CLARK: Mr. Shreve, before you go
16 on, we've had several people mention, not just people
17 testifying about, but two people came up to me; that
18 they have been away and they've subsequently had
19 problems with their bills. Can I have a show of hands
20 of people who have had that same problem? Thank you.

21 Marshall, I'd like to look into that. I'd
22 like to check how many complaints we have had with
23 respect to high bills, and I'd like to know especially
24 from you, Mr. Armstrong, the complaints you have
25 received from this area regarding high bills.

1 Mr. Shreve, do you want that information,
2 also?

3 MR. SHREVE: Please.

4 CHAIRMAN CLARK: Go ahead.

5 MR. SHREVE: Thank you, Mr. Cooper.

6 (Witness Cooper excused.)

7 MR. SHREVE: Mr. Arno Zeretske.

8 - - - - -

9 **ARNO ZERETZKE**

10 was called as a witness on behalf of the Citizens of
11 the State of Florida and, having been duly sworn,
12 testified as follows:

13 WITNESS ZERETZKE: My name is Arno Zeretzke.
14 I'm a resident in Marco Island for four years, and I
15 live on Copperfield Court; 331 Copperfield Court.

16 I have installed, two years ago, a reverse
17 osmosis under the sink, and now I complain to the
18 people why the filter is plugged up after six months.
19 Normally it's holding for 12 months. Then I had to
20 purchased or make myself a test kit and I tested the
21 water. And as the gentlemen that had mentioned, that
22 was here before, how green the water is. It is green.
23 And I think it is bad. It is also bad-tasting, too.

24 Now, when I took this test kit and I put in
25 one pint in the glass, the test kit, after 15 minutes

1 you could scoop out the green stuff with your spoon.

2 I'm here standing in front of you and I
3 would like to challenge SSU if their people in SSU,
4 human beings, to get five people in front of the
5 public and have this test done by me, completely open,
6 and have that water drinking after the test. I
7 guarantee you their faces would turn yellow, possibly
8 green, too. My only hope -- and I have a dream too,
9 to get out of SSU altogether and have some other
10 alternative which is much less expensive. As has been
11 mentioned in the newspaper by Brian Pelman (phonetic),
12 I believe, we can have it much cheaper because Florida
13 has plenty of clean water and good water, too, except
14 the management of SSU is not comprehensive.

15 CHAIRMAN CLARK: Thank you. (Applause)

16 MR. SHREVE: Thank you.

17 (Witness Zeretzke excused.)

18 MR. SHREVE: Mr. Rob Gaxell. I believe it's
19 G-A-X-E-L-L. First name Rob.

20 Mr. Ehrman.

21 - - - - -

22

23

24

25

GUS EHRMAN

1 was called as a witness on behalf of the Citizens of
2 the State of Florida and, having been duly sworn,
3 testified as follows:

4 WITNESS EHRMAN: If I may present you
5 with -- (hands glass and container to Commissioner
6 Clark)

7 MR. TWOMEY: Don't drink it, Madam Chairman.

8 WITNESS EHRMAN: Good evening. My name is
9 Gus Ehrman, E-H-R-M-A-N. I live at 1774 Hummingbird
10 on Marco. I have been here for 16 years, and first
11 and foremost I would like to express my sympathy to
12 the gentleman with the 300,000 gallons of wastewater.
13 I know exactly how he feels. It happened to me. And
14 the answer was, "Tough, that's what the meter reads."
15 They offered very generously to check my meter for
16 \$100, if I remember right, and I could not be present
17 when it was checked. Before I did not have 300,000
18 gallons. I was lucky, my bill was only about 380, if
19 my memory serves me right, but it was not a question
20 of debating it, checking it, showing any kind of
21 interest. This was it. Tough.

22 Secondly, the second situation, we came back
23 from our summer vacation and -- because we have been
24 in transit my bill was about three weeks late. Well,
25 we came home late at night. We had a hard trip. We

1 were glad to be home. We turned the hot water on. We
2 had a shower. We went to bed. It was wonderful. And
3 the next morning I opened my mail. And I had mail
4 from the water company. And apart from the fact, of
5 course, that it was fairly high even though we weren't
6 in the house, there was a charge for \$15 for
7 disconnecting my water. So I went down to the water
8 company and I said, "What is this charge for
9 disconnecting my water?" And the gentlemen said, "You
10 didn't pay your bill, so we disconnected your water."
11 And I said, "You are a very lucky man. If you had
12 been married to my wife, and we had come home after
13 three days on the road with the miserable showers one
14 gets in a motel, and she hadn't been able to shower,
15 she would have been after you with a shotgun. We had
16 a lovely shower last night." "Oh, no," he said, "your
17 water has been disconnected. And there's a \$15
18 charge." And I said, "Please, will you come to my
19 house. Our water is running." And he said to me, "It
20 can't be. I have a repair order that the mechanic has
21 signed off that he shut off your water." I said, "I
22 don't care what you have, thank God we have water
23 because otherwise I'd be a dead man." This is the
24 kind of service you have get out of the SSU people.
25 I brought you two gifts. By chance and I

1 didn't remember that this meeting was on for tonight,
2 my hot water system, as it has so frequently
3 deteriorated somewhat. So last night I drained my hot
4 water tank, and it wasn't until I watched it running
5 out of the hose that I saw what I have captured for
6 you here. I wish I had brought it to you in buckets.
7 It was rusty, it had slime in it and that is the
8 sediment. I should have brought it to you as is
9 instead of picking it up this morning. That's the
10 kind of water we get. The glass standing next to it
11 is the result of the high quality water we get on this
12 island.

13 I've commented about the meter situation. I
14 sympathize with the gentleman. I have been there.
15 The quality, you have in front of you. Thank you for
16 your time. (Applause)

17 CHAIRMAN CLARK: Thank you, Mr. Ehrman.

18 MR. SHREVE: Thank you, sir.

19 (Witness Ehrman excused.)

20 MR. SHREVE: Mr. Joseph Zank.

21 - - - - -

22

23

24

25

JOSEF ZANK

1 was called as a witness on behalf of the Citizens of
2 the State of Florida and, having been duly sworn,
3 testified as follows:

4 WITNESS ZANK: Good evening, Mrs. Clark,
5 Mrs. Johnson, gentlemen, ladies and gentlemen, cold
6 sufferers. We have heard so many quotations today and
7 percentage money-wise, millions of dollars, thousands
8 of dollars, 3,000 gallons of water and all of that
9 sort of thing. Which when you operate a business like
10 the SSU you can't fail to have it. However, the main
11 issue I thought today was not the side tracks but the
12 facts. And this is for you, Ms. Clark, if SSU
13 approached you for a rate increase that you
14 temporarily allowed them, may I ask a question? How
15 much was your increase, your wage increase, from '94
16 to '95, percentage?

17 CHAIRMAN CLARK: I think it was 3%.

18 WITNESS ZANK: That could be very, very
19 close and very correct. So weren't you stunned when
20 they asked you for an 18% increase?

21 CHAIRMAN CLARK: It is always -- when we get
22 the rate increases from the utilities, we look them
23 over and within -- we have 60 days to grant interim
24 increases and we do that without hearings.

25 WITNESS ZANK: Well, can you refuse it?

1 CHAIRMAN CLARK: If it is not justified, we
2 can refuse it; but if they meet the requirements of
3 the statute, we cannot. But let me tell you that it
4 is under bond and through this hearing process they
5 must prove that they need it. If they don't prove
6 that they need it, it gets refunded.

7 WITNESS ZANK: Well, wouldn't it be
8 justifiable that you could have gotten from your own
9 experience and said to yourself, "My increase was 3%.
10 What reason do they have to ask for 18?" Number one.

11 Number two, it is my firm opinion -- so many
12 speakers tonight have stressed the fact that there is
13 other money to be made by SSU by diversion of funds,
14 by acquiring land and other things surrounding the
15 whole question. It is my firm opinion that this is
16 exactly what they want to do. They want to raise
17 their property such high -- to such height and then
18 sell it. So they are actually blackmailing us, the
19 ratepayers. If anybody is not capable of running a
20 business, he should not be in a business. (Applause)
21 I have heard it more than ten times that SSU is
22 entitled to a profit. I say no, they are entitled to
23 a profit if they know how to run it. Then you don't
24 have to ask for anything. You just make your profit
25 and be happy with it. But what this is, this is

1 bordering on a crime. And I should hope that you,
2 Ms. Clark, will make your decision accordingly because
3 if you don't, I think the next election will determine
4 the outcome. Thank you very much.

5 CHAIRMAN CLARK: Thank you, Mr. Zank.

6 (Applause)

7 (Witness Zank excused.)

8 CHAIRMAN CLARK: Let me ask, all those
9 people who had problems with high bills, if you would,
10 before you leave, if you would fill out one of these
11 things and leave your name and address with us so that
12 we can follow up on those high bills, (indicating blue
13 sheet).

14 UNIDENTIFIED SPEAKER: What about bad water?
15 Can we have a list, too, for bad-tasting water?

16 CHAIRMAN CLARK: Well, I'm interested in the
17 high bills. If you have a bad-tasting water, you
18 should let our Staff know that, too, and you can make
19 that comment on the record now.

20 Go ahead, Mr. Shreve.

21 MR. SHREVE: Thank you.

22 Mr. Gregg.

23 - - - - -

24

25 NOEL D. GREGG

1 was called as a witness on behalf of the Citizens of
2 the State of Florida and, having been duly sworn,
3 testified as follows:

4 WITNESS GREGG: Good evening, Madam
5 Chairman, Ms. Johnson, Staff, I am delighted to
6 finally see the Staff and the Commissioners.

7 I saw the 38 cases of documentation
8 requesting the price increase, and I wondered who the
9 hell could read this? And I'm delighted to see that
10 you're human beings. And, obviously, somebody had to
11 read it, and I tried to read it and all I could find,
12 Mr. Armstrong, when you mention \$100 million that SSU
13 has spent, the only thing I could find is they spent
14 the money to development capacity, period. Little was
15 done to develop or spend money for quality.

16 I personally only had one glass of SSU
17 water. I have been drinking Zephyrhills ever since we
18 moved here, so I haven't had this problem. I'm
19 delighted to see the gentlemen from Zephyrhills.

20 From Day One SSU saw the Deltona water
21 company acquisition as a major cash cow. Quality was
22 never part of the game plan.

23 When we look at the efforts that they've
24 made, and I think when you take the gamble of
25 contacting politicians to influence public servants, I

1 think it's a major gamble. I would think that
2 possibly there's no doubt that possibly somebody could
3 go to jail. And I think that's -- and it's beyond my
4 imagination how they could get that involved over a
5 rate increase when they are profitable. It's not as
6 though they are not profitable. They only had one
7 plan when they -- on the acquisition of the Deltona
8 water company, and the fact that it looked like a very
9 great potential cash cow, and their only plan was to
10 squeeze that cow. And they're constantly squeezing
11 the cow. And I think we finally, particularly on
12 Marco Island, and I'm sure you're finding this in
13 other meetings, they are finally to the point that the
14 people are through being squeezed without any comment
15 whatsoever.

16 I think the Barron Pit acquisition is a good
17 example of quality was not part of the game plan.
18 There were opportunities to have quality water from
19 the city of Naples, and it was ignored. They much
20 preferred to take their money and pay double the price
21 for the Barron Pits as it was estimated a fair price.
22 I don't think there's any question of whether they
23 should receive additional profit. I agree with the
24 number of the speakers that said we deserve and we
25 should get a rebate. Thank you very much. (Applause)

1 MR. TWOMEY: Sir. Sir.

2 WITNESS GREGG: Yes, sir.

3 CHAIRMAN CLARK: Questions?

4 MR. TWOMEY: I was just going to -- Madam
5 Chairman, I wanted to ask that since this gentleman
6 said that he's had one glass of water since he's lived
7 here, in addition, perhaps to the customers and the
8 citizens out there telling the Staff if they have
9 quality problems with the water, would you all raise
10 your hands right now, those of you that have had
11 problems with the taste of the water. And would the
12 camera pan around on that, please? Thank you, sir.

13 WITNESS GREGG: Zephyrhills is a fine
14 product. Buy it, unless SSU has screwed that up, too.

15 (Witness Gregg excused.)

16 CHAIRMAN CLARK: Mr. Shreve.

17 MR. SHREVE: Thank you, sir.

18 Mr. Sal Sciarrino.

19 - - - - -

20

21

22

23

24

25

SAL SCIARRINO

1 was called as a witness on behalf of the Citizens of
2 the State of Florida and, having been duly sworn,
3 testified as follows:

4 WITNESS SCIARRINO: Lady Chairman Clark,
5 Lady Commissioner Johnson, counselors, Public Service
6 Commission Staff, before I came up here a young lady
7 in the back says, "What are they doing here? What is
8 going on? Everyone is complaining. How does this
9 work?" Commissioner Clark answered the question a few
10 minutes ago but nobody heard her. This is all of the
11 complaints and everything that is going to go on
12 tonight. We have our attorney there, Twomey, the
13 Public Service Commission -- our public attorney.

14 MR. SHREVE: Public Counsel. I do not work
15 for the Public Service Commission.

16 WITNESS SCIARRINO: Public Counsel. We have
17 the Staff of the water here and she says, "Why are
18 they just smiling and taking notes?" Well, when
19 Commissioner Clark says she's got to sit there and
20 take it -- excuse me, I'm a little excited -- it's
21 called, ladies and gentlemen, discovery and rebuttal.
22 What you do or what you say here tonight matters. But
23 what matters is tomorrow morning or tomorrow when this
24 Commissioner, excuse my finger-pointing, calls for
25 action. Tomorrow is when they discover and rebuttal

1 and when they answer and it goes to trial. They could
2 sit here, and you could hear all of the complaints
3 from now to doomsday, but if this Staff and the water
4 company answers them according to law, there is
5 nothing the Public Service Commission could do.
6 That's my opinion.

7 Two, let me tell you where I'm coming from.
8 I served -- I was born in 1930. My parents came here
9 to this country in the early '20s. When I was born we
10 didn't speak English. They used to say the dumb
11 little guinea kids eating the green egg plant
12 sandwiches. Then the war broke out and I went to the
13 war. I fought in the war, two wars, World War II and
14 the Korean War. I was a 15-year-old boy, because only
15 young men give their lives for their country. From
16 the invasion of Normandy, and some of these men in
17 this room and women served, to the Battle of the
18 Bulge, to Korea, to Okinawa, Vietnam, Guadalcanal. Do
19 you know what they fought for? \$50 a month for a
20 dream, for a dream.

21 That one gentleman in our country had,
22 Martin Luther King, he had a dream. And these people
23 in this audience had a dream, Lady Chairman. When I
24 came over that bridge this island was a dream. I
25 served five years in the Marine Corps. I've been to

1 China, to Berlin and my life on the line. I'm not
2 looking for pity. I'm not looking for anything. When
3 I came over that bridge this was my dream.

4 I served 25 years in the Naussau County
5 Police Department, so I know what discovery and
6 rebuttal is. You'll answer and fight all these
7 questions out, and 90% of the people in this room
8 won't know about it. I'm not talking from a script;
9 I'm talking from my heart. And my dream was to come
10 over that bridge and build a home here.

11 I live at 911 Montego Court. I'm sorry Sal
12 Sciarrino, S-C-I-A-R-R-I-N-O, and my dream was to come
13 here. I'm on a fixed pension. I made friends and
14 enemies. This island is my home. Every time this
15 water commissioner comes, you sit there, it's great.
16 The next day I come here, and I came here last time.
17 There was only three people in this room. That
18 gentlemen right there and the whole Staff from the
19 water company right here and there was a nice sharp
20 Commissioner up there, a lady Commissioner, and that's
21 all. Nobody on Marco Island was here except one man
22 who I detest. And I'll say his name and I was proud.
23 John Pysal (ph). Nobody. Nobody. Nobody came.
24 Tomorrow is when it is important, when you hear their
25 answers to what you complained about. They will do it

1 legally tomorrow. You just complained of a little
2 dirty water. I, too, complained of it, but it's
3 tomorrow how they answer it that's when you should be
4 here. Then you'll see them sweat. Now, tomorrow
5 you'll all be on the beach sunning and going, "Thank
6 God for Joe Mica. Thank God we've got Twomey here.
7 I'm a little excited. So we've got Twomey here to
8 help us. But believe me, it's tomorrow that counts.
9 If they answer to this Public Service Commission, and
10 they say -- and if they say by law that's it, then
11 that's it. You're going to get the raise whether you
12 like it or not. I thank you.

13 CHAIRMAN CLARK: Thank you, Mr. Sciarrino.
14 I think there are some questions for you.

15 WITNESS SCIARRINO: You've got some
16 questions?

17 CHAIRMAN CLARK: Mr. Twomey has some
18 questions.

19 MR. TWOMEY: I have at least one question.

20 CROSS EXAMINATION

21 BY MR. TWOMEY:

22 Q Do you realize, sir, that because you have
23 been thrown in with 140-something other systems around
24 the state that this hearing, unlike the one you had
25 several years ago, the evidentiary hearing, is going

1 to be in Tallahassee and you can't come watch the
2 questions, the hard questions that are going to be
3 asked; you can't eyeball it? Do you realize that?

4 A No, I didn't. I thought it was like the
5 last one, they did it the next day in here with all
6 the questions and then they went to Tallahassee.

7 Q No, sir.

8 A Am I correct?

9 MR. SHREVE: Yes.

10 Q (By Mr. Twomey) That's what they did last
11 time. But you have been thrown in with all the rest
12 of these systems around the state, and if you want to
13 watch the hard questions being asked and listen to the
14 answers, you've got to hoof it up to Tallahassee, 500
15 miles.

16 A Si la vi, that's life.

17 CHAIRMAN CLARK: Mr. Sciarrino, Mr. Shreve
18 has a question of you.

19 MR. SHREVE: I understand exactly what
20 you're saying, there is going to be -- the hearing
21 will not be here; it will be in Tallahassee. We're
22 having to handle 150 different systems where before we
23 had one. You're exactly right, that what the
24 Commission finally decides is what you're going to
25 have to live with, but I do want everyone here to know

1 that we have -- we are preparing a case for all 150
2 systems.

3 I've heard people here tonight say there
4 should not only be a denial of the rate increase but a
5 rate reduction, and it hasn't been filed yet. We are
6 preparing our testimony, we've talked to our experts
7 that have reviewed all of the filing, and we will have
8 evidence in the record that the Commission can act on
9 that will call for a rate reduction. So it will be
10 there and it can be acted on. (Applause)

11 WITNESS SCIARRINO: Will you let us know by
12 MICA and the Civic Association and the Marco Island
13 Eagle about how we lost and how we won?

14 MR. SHREVE: Absolutely, yes, sir.

15 (Witness Sciarrino excused.)

16 - - - - -

17 CHAIRMAN CLARK: Go ahead, Mr. Shreve.

18 MR. SHREVE: That's the last witness.

19 CHAIRMAN CLARK: Okay. We have reached the
20 end of the people that have signed up. Is there
21 anyone here who would like to provide testimony who
22 has not signed up?

23 Yes. Would you come over. Were you here
24 when I swore people in? Yes. And you did stand and
25 raise your right hand? Come to the microphone. I'll

1 swear you in and then you can give your name and
2 address for us.

3 (Witness sworn)

4 - - - - -

5 **DICK LOHRENS**

6 was called as a witness on behalf of the Citizens of
7 the State of Florida and, having been duly sworn,
8 testified as follows:

9 WITNESS LOHRENS: My name is Dick Lohrens.
10 I have lived here for 21 years.

11 UNIDENTIFIED SPEAKER: Spell your last name,
12 please.

13 WITNESS LOHRENS: L-O-H-R-E-N-S.

14 I live at 267 Seminole court. I can
15 sympathize with the gentleman that had problems on
16 Hummingbird court. I can sympathize with the man that
17 had 300,000 gallons of problems.

18 The one thing that seems to be a little bit
19 lacking from SSU, I'm not going to go into the all the
20 detail so, the specifics on finances. But SSU to me
21 being a corporation taking care of the public, it
22 seems to me that it should have a little compassion
23 for the public. A case in question, whenever I go
24 away for two, three, four, five, six months, whatever,
25 I always pay in advance for my water. The water

1 company knows positively that I'm gone. The meter
2 reader comes to the same meter. That house hasn't
3 moved since I moved into it. When he comes and he
4 reads that meter and he sees something is wrong,
5 whether it is 300,000 gallons or anything else, it
6 seems to me that he should notice it. Now, if you
7 leave this meeting and you go down the street and you
8 see someone kill over or if you see a building on fire
9 or if you see an accident, you call the police, you
10 call the fire department or you try to help the
11 individual. It seems to me that SSU has no compassion
12 for their customers. Because if they see and they
13 know that that meter is reading an usual reading, that
14 that meter reader should have the good sense -- if he
15 can read a meter and record it and make out reports,
16 he should at least have enough sense to let the office
17 know and have the office do something to check it.
18 Now, when you know that a customer is gone for five
19 months, or whatever, or you know that there's a
20 problem such as this other gentleman had and several
21 others, it seems to me that just normal common sense
22 should be something that motivates him to do something
23 about it. The Bible says that without salt life isn't
24 very good. No food is worthwhile. Well, let me tell
25 you, common sense is a little bit of the salt of

1 humanity, and I sure as the devil wish SSU would get a
2 little of it. Thank you. (Applause)

3 CHAIRMAN CLARK: Thank you, Mr. Lohrens.

4 Mr. Merkel, did you want to add to your
5 testimony?

6 WITNESS MERKEL: I would like to ask
7 Mr. Armstrong a question after all of the statements
8 and things you have heard tonight, one question.
9 Answer me honest. How can you go to bed at night and
10 sleep and how can you look your kids in the eyes when
11 they ask you, "Daddy, what are you doing? What kind
12 of work are you doing?" What do you answer them?
13 Thank you.

14 CHAIRMAN CLARK: Thank you, Mr. Merkel.

15 Is there anyone else who would like to
16 provide testimony? I don't see any other hands of
17 anyone who would like to provide testimony.

18 I want to thank you for coming out and for
19 staying this late and participating in this hearing.
20 This hearing is adjourned.

21 (Thereupon, the hearing concluded at 9:15
22 p.m.)

PUBLIC NOTICE	PUBLIC NOTICE
BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION	
NOTICE OF SERVICE HEARING	
DOCKET NO. 950495-WS	
Docket No. 950495-WS-Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.	
Notice is hereby given that the Florida Public Service Commission will conduct a service hearing to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for the utility's customers in Collier County(ies) will be held at the following time and place:	
January 22, 1996 6:00 p.m. Marriott Marco Island Resort 400 S. Collier Blvd. Marco Island, FL 33937	
All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any persons requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior to the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) or 1-800-955-8771 (TDD).	
PURPOSE	
The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

AFFIDAVIT

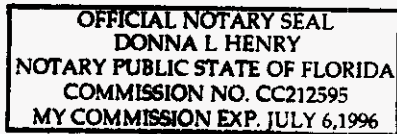

STEVEN M. GALLIS, having been duly sworn, states as follows:

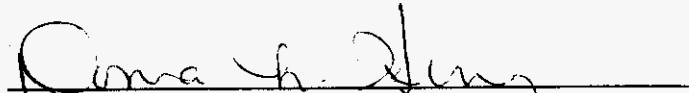

1. I am Supervisor of Administrative Services in the Office Services Department of Southern States Utilities, Inc. ("SSU"), whose central office is located in Apopka, Florida.
2. As part of my duties, I am responsible for administering mailings to SSU customers, such as notices required by Florida Public Service Commission Rules and Orders.
3. In my presence and under my supervision, SSU personnel mailed to the customers in Collier County a copy of the document identified as "Notice To Customers Of Service Hearing Letter" attached hereto and marked "Exhibit A."
4. The names and addresses of the aforesaid customers were obtained by SSU from SSU's Information Services Customer Address Files. A copy of the list of SSU customer names and addresses used to print the mailing labels for customers in the aforesaid county is attached hereto and marked "Exhibit B." "Exhibit C" attached hereto, is the presorting report printed from SSU's Information Services Customer Address Files to prepare the mailing.
5. On December 26, 1995, my staff and I machine postmarked the labeled envelopes containing copies of Exhibit A and hand delivered the envelopes to a representative of the United States Postal Service for delivery.
6. Attached hereto and marked "Exhibit D" is a copy of the relevant page of SSU's Office Services' Postage meter logbook. The logbook is used to record mailings from SSU's Office Services Department. Exhibit D contains information pertinent to the aforementioned mailing, to wit: on December 26, 1995, SSU mailed 19,753 total batch items, which included mail fitting the description of "Customer Service Hearing Collier - Marco Meeting." I personally made these entries into the logbook, and the recordations therein coincide with my personal observation.
7. The total batch count on the logbook included 6,383 pieces of mail listed in Exhibit C mailed to those persons listed in Exhibit B. Any logbook totals which are less than Exhibit B & C totals reflect automation malfunctions in copying and sorting. In such cases, envelopes were reprocessed by hand and metered separately for mailing the same day.

**BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION
DOCKET NO. 950495-WS
NOTICE TO CUSTOMERS OF SERVICE HEARING**

Docket No. 950495-WS -- Application by Southern States Utilities, Inc. for rate increase and increase in service availability charges for Orange-Osceola Utilities, Inc. in Osceola County, and in Bradford, Brevard, Charlotte, Citrus, Clay, Collier, Duval, Highlands, Lake, Lee, Marion, Martin, Nassau, Orange, Osceola, Pasco, Putnam, Seminole, St. Johns, St. Lucie, Volusia and Washington Counties.

DATED: December 29, 1995

Notice is hereby given that the Florida Public Service Commission will conduct service hearings to discuss the above application for a water and wastewater rate increase and changes to service availability charges. The service hearing for customers in Collier County(ies) will be held at the following time and place:

**January 22, 1996
6:00 p.m.
Marriott Marco Island Resort
400 S. Collier Blvd.
Marco Island, FL 33937**

All persons who wish to testify are urged to be present at the beginning of the service hearing as the hearing may be adjourned early if no customers are present. Any person requiring some accommodation at this hearing because of a physical impairment should call the Division of Records and Reporting at (904) 413-6770 at least five calendar days prior the hearing. If you are hearing or speech impaired, please contact the Florida Relay Service by using the following numbers: 1-800-955-8770 (VOICE) OR 1-800-955-8771 (TDD).

PURPOSE

The purpose of the service hearing is to allow customers and any substantially affected person an opportunity to present comments and information to the Commission about the utility's quality of service, the proposed rate increase, or other matters related to the rate case or the utility. The utility is requesting that customers served water under conventional treatment methods be classified as a separate and distinct service classification from customers receiving water service from reverse osmosis facilities. Under the utility's proposal, the base facility and gallonage charges assessed to customers will be uniform within each service classification. All wastewater customers are included in one service classification and would be charged the same base facility and gallonage charges. The utility's application indicates that the utility has or will have placed nearly \$100 million of additional water and wastewater plant into service since 1992 and through the period ending December 31, 1996. The application also indicates that the majority of these plant additions were required by environmental laws, rules or regulations. The utility's requested service availability charges include charges for meter installation, main extension, service installation, plant capacity, and allowance for funds prudently invested (AFPI). These charges will only be assessed to new customers who connect after Commission approval of the charges. Existing customers will not be assessed service availability charges. Plant capacity and main extension charges for water treatment are classified by conventional and reverse osmosis treatment methods. The utility proposes plant capacity and main extension charges which are uniform within each water service classification. The utility proposes only one service classification for wastewater service, and the plant capacity and main extension charges proposed for wastewater are uniform.

Subject: Water Supply Interruption
Marco Island, FL
March 9, 10, 11, 1995

FLORIDA PUBLIC SERVICE COMMISSION
DOCKET
NO. 950495 **EXHIBIT NO.** 29
COMPANY/
WITNESS: _____
DATE: 4/29/96

Dear Mr. Vierima,

The recent water supply interruption on Marco Island presented a major problem for our condominium building which has a total of 265 units on twenty-one floors. Present building population is 500 to 600 people. We were completely without water for about twenty four hours and during this time we faced a chaotic health threatening situation. The principal complaint we have with SSU was the extremely bad or non existent customer information program that you had in place to deal with the crisis.

It is my understanding that the pipeline under the Marco River which brings raw water from the "Marco Pits" to the line softening plant on the island failed or ruptured about 11:00 PM on Thursday evening March 9. The only notification that we had of a problem was that our incoming water pressure was declining rapidly. At about 7:00 PM on Friday March 10, eight hours after the break occurred, our building manager phoned your emergency number 394-3168. She was told that they knew nothing about the problem. They phoned back about an hour later and said there was a problem that would be fixed sometime during the day.

There was no warning of any kind that the water service interruption would last over 24 hours from that time (8:00 March 10). Perhaps we should define service as we need it. Since we installed a backflow preventer at the insistence of SSU, we need incoming line pressure of 20 pounds minimum to operate our booster pumps and deliver water to our condo units. We were without minimum pressure for about 24 hours until 8:30 AM on March 11.

The only water we had available on our property was a hose bib outlet fed through our irrigation line that supplied about six gallons per minute. We had a bucket line operating for almost twenty four hours from this outlet with people carrying water up to their condo units to principally flush toilets. Many of our residents are in their seventies. It was a sorry sight and I can assure you you caused much unhappiness.

Several calls to your local Marco office Friday morning brought such comments as listen to 1270 AM for the latest news. First of all it is almost useless to sit all day listening to a radio station when you have only an occasional comment like "don't water your lawns". How about an established "crisis information line" that is continually available to customers with updated facts.

I understand both Charles Sweat and Terry Ingram of your company phoned a number of what you consider to be "important customers" to personally tell them about the problem and its expected duration. Unfortunately I guess we didn't rate such personalized attention. I know both of these people and have tried to help them on numerous occasions.

By early Saturday morning I was frantic to get meaningful status information and something done about water availability. At 4:30 AM I went to the site of the break and found to my surprise that the broken section of pipe had been removed and apparently replaced. At that point the only place open I knew of to get information was from your Elkcam Circle Line Softening Plant. I found an operation person there who told me the leak had been repaired and that the system was being slowly recharged.

It was also stated that at 9:00 AM SSU was sending divers down to check the pipeline under the Marco River. At 7:00 AM our manager phoned your emergency number at Apopka 1-800-432-4501. The operator who answered said she knew nothing even though I understand the break had actually been repaired about 2:00 AM or five hours earlier and the Marco System was being recharged from about that time.

I made several more trips to your Elkcam Circle plant between 6:00 and 8:00 AM. Your personnel I talked to were courteous and helpful. I pretty much got the same story that the divers were to make a check of the repair job at 9:00 AM and if everything was okay you would have the system operating with normal pressure by late morning. I had hundreds of people hounding me for status reports as did our manager.

Fortunately at 8:30 AM March 11 I was in our mechanical equipment room with our maintenance supervisor when our gauges showed the pressure in the SSU system suddenly went to minimum operational levels. We were then able to start our booster pumps and deliver water to the building. I can assure you it was a very difficult 24 hours. The diver inspection must have been cancelled.

Many customers on Marco including beachfront condos had at least some water all through the period of the pipe failure and repair process. It no doubt depended on location and other factors. We are located half way between the RO plant and the Line Softening Plant. Our water availability was non-existent. Since about 60% of your capacity was down, it must have been obvious that there was going to be a problem at least at critical points.

As you can see our ability to get meaningful information was non-existent. If we had been told early Friday morning of the probable duration of the outage, we could have at least told people to fill bathtubs etc. A bucket brigade twenty one stories high is sort of a third world sight.

Actual repair of the ruptured pipe appeared to progress fairly well and it was no doubt fixed about as quickly as it could have been. The handling of information and keeping customers informed was a disaster. I always think of Johnson and Johnson and Tylenol. Their handling of the tragic crisis won praises from everyone. The information side would appear to be relatively easy to handle.

I would appreciate a prompt response of some kind. I hope I don't have to go to governmental agencies for sympathy and support. What will be done in the future to keep customers informed on crisis situations.

Respectfully,

Richard F. Bergmann
President
Board of Directors

Southern States Utilities • 1000 Color Place • Apopka, FL 32703 • 407/880-0058

March 29, 1995

Mr. Richard Bergmann
Gulfview Club
58 N. Collier Blvd. #1503
Marco Island, FL 33937

Dear Mr. Bergmann:

Thanks again for your letter of March 14th and for taking the time to follow-up on the telephone concerning our recent pipeline rupture at Marco. By most accounts our initiatives to relay information and status updates to our customers via radio, TV, phone and door-to-door were effective; but your experience provides us with important feedback on how we can further improve our communication efforts during those rare--but inevitable--service interruptions, not only at Marco, but also at other facilities throughout the state.

You stated that your principal frustration was an inability to reach individuals at SSU who could provide current and accurate event status information. In response to that concern, we will be increasing the frequency and broadening the scope of communication among on-site company representatives, 800 line service representatives, and the local customer service office during service interruptions. In addition, we will review our list(s) of "immediate contacts" who have a need-to-know of special situations as soon as they occur. We will ensure that you are included at Marco.

We were extremely pleased that cooperation from customers, contractors, employees, the media and local officials enabled us to complete difficult repairs in less than 24 hours. This fact in no way diminishes the significance of the customer inconveniences experienced at your facility. As I mentioned on the phone, Mr. Dave Denny stands ready to meet with you and members of your Board if you feel further diagnosis of the events of March 10th will help us prevent future communication gaps.

Thanks again for your feedback and continuing support.

Sincerely,
Southern States Utilities, Inc.

A handwritten signature in cursive script, appearing to read "Scott W. Vierima".

Scott W. Vierima
Interim President & CFO

Judy Sweat - Manager Customer Service
Terry Ingram - Communications Administrator
Tracy Smith - Manager Government Relations

WATER FOR FLORIDA'S **FUTURE**

1 and increase customer satisfaction. In addition, as Southern States' witness
2 Raymond Gagnon will testify, as a result of being served by Southern
3 States, our customers obtain immediate access to considerable personnel
4 resources during times of emergency or unusual occurrences thereby
5 reducing both the response time as well as the possibility that service to
6 our customers will be interrupted. Also, Southern States' size has
7 permitted us to develop a process by which spare utility equipment and
8 accessories have been identified and may be made available to any facility
9 in emergency situations with a minimum amount of delay. This process
10 often will eliminate the waiting period for equipment to be ordered from
11 and delivered by a third party supplier thus further reducing the possibility
12 of service interruptions.

13 **Q. SSU HAS DEMONSTRATED THAT IT IS A STATEWIDE**
14 **NETWORK OF FUNCTIONALLY RELATED PLANTS**
15 **OPERATING AS ONE UTILITY SYSTEM. CAN YOU BRIEFLY**
16 **SUMMARIZE HOW THIS CONFIGURATION BENEFITS YOUR**
17 **CUSTOMERS AND GIVE A PRACTICAL EXAMPLE?**

18 **A.** Yes. Economies of scale and specialization of expertise are accepted
19 business principles that have been actively pursued and achieved by SSU.
20 In Docket No. 930880-WS, the investigation into the appropriateness of
21 uniform rates for SSU and its customers, numerous specific examples of
22 gained efficiencies and tangible cost savings enjoyed by our customers

were documented. These included: inter-plant labor and equipment sharing, consolidated financing, bulk purchasing, emergency response capabilities and uniformity of service and design standards. Centralization of accounting, budgeting, engineering, risk management, tax and real estate administration, payroll, data processing, cash and records management, legal, planning and communications functions has avoided substantial duplication of costs. Specialization of safety, environmental compliance permitting, human resources, compensation and benefits, customer service and billing, and contract law staff ensures professionalism, compliance and accuracy in an increasingly complex and service driven industry.

A dramatic example of how these attributes work to the advantage of our customers occurred on the night of March 10, 1995. On that night, a 24 inch water main passing under the Marco River between the mainland and Marco Island ruptured after 26 years of service. Not only was the location of the break a unique challenge, but the timing -- the peak of Marco Island's tourist season during which the island supports 30,000 residents, ten times the off-season population -- magnified the urgency and potential economic impact to customers. As soon as the problem was located, SSU personnel stationed on the island, trained operators began to optimize the only remaining source of supply, which is the 4.0 MGD reverse osmosis facility at the south end of the island. Simultaneously, operations and engineering personnel in Apopka began an options assessment

1 environmental specialists notified the Department of Environmental
2 Protection, purchasing staff assisted in the procurement of parts, contract
3 labor and equipment, and the SSU communications staff coordinated an
4 information distribution effort via radio, television and door to door contact
5 with customers. Within hours, customers had responded by reducing
6 consumption 50%, the DEP had authorized a contingency proposal, the
7 contractor was on site removing the failed sections of pipe, hard to find
8 replacement pipe was on its way from a Naples supplier, and SSU
9 personnel were on their way from Citrus County with needed fittings and
10 equipment. The end result of the system-wide coordinated effort was the
11 restoration of the mainland water supply source within twenty-four hours
12 without an interruption of service and the inconvenience or adversity
13 associated therewith.

14 Q. COULD YOU BRIEFLY DESCRIBE THE PHILOSOPHY OF SSU
15 MANAGEMENT TOWARD WATER CONSERVATION?

16 A. Southern States is a strong advocate of water conservation in the State of
17 Florida. As Southern States' witness Kowalsky will confirm, Southern
18 States has received a number of awards for our conservation efforts in the
19 past. Also, Southern States owns and operates seven public access reuse
20 facilities and is in the process of converting our wastewater facilities at our
21 Spring Hill service area to public access reuse. Public access reuse
22 technologies reduce the need to extract potable water from the

Are you confused about all the literature you've received about the upcoming FPSC hearing concerning a statewide uniform rate structure?

If so, you are invited to attend an informative meeting with SSU representatives to discuss uniform rates and any of your concerns.

What: How This Case Impacts Your Rates

When: January 16, 1996 at 4:30 p.m.

**Where: Holiday Inn Express
10826 U.S. Hwy. 19 North
Port Richey, Florida
(813) 869-9999**

"Uniform rates" charge each customer the same based on the amount of water used or wastewater treated. They spread the costs of complying with U.S. and statewide environmental means of protecting Florida's precious interconnected water resources and providing greatly improved rate stability for all SSU's customers, as well as reducing costs passed on to customers.

For more information, please call SSU's Communications Department at (407) 880-0058 or (800) 432-4501.
