ORDER APPROVING TARIFF

BY THE COMMISSION:

BACKGROUND

The Federal Communications Commission (FCC) in Docket Nos. 96-128 and 91-35 mandated all local exchange companies (LECs) to eliminate retail payphone (public and semi-public) offerings from their tariffs by April 15, 1997. ALLTEL Florida, Inc. (ALLTEL or the Company) made the elimination in its General Subscriber Service Tariff in Docket No. 970317-TL approved at the April 1, 1997 agenda. This filing is to remove the payphone provisions in ALLTEL's Access Tariff. Also, Flexible Automatic Number Identification (Flex ANI) and Originating Line Screening (OLS) service are being added to the Access Tariff, as required in FCC Docket No. 91-35.

DISCUSSION

ALLTEL submitted a tariff filing on January 30, 1997 to eliminate all references to its payphone provisions in the Access Tariff (T-97-0077), as mandated by the FCC.

FPSC-RECORDS/REPORTING

In addition, Flexible Automatic Number Identification (Flex ANI) has been added and provides:

The Flex ANI feature is an optional switching feature and enhancement to ANI. This option is provided per end office on a Carrier Identification Code (CIC) basis and is available with Feature Group D service at end offices capable of providing this feature, as listed in the National Exchange Carrier Association, Inc. Tariff FCC No. 4.

The rates are found in Section 17.2 of ALLTEL's Access Tariff applicable to traffic sensitive Switched Access service.

Originating Line Screening (OLS) Service has also been added and provides:

The Telephone Company will provide OLS Service to end user customers who obtain local exchange service from the Telephone Company under its general or local exchange tariffs. OLS service enable customers to determine whether there are billing restrictions on lines from which a call is placed.

This OLS service works in conjunction with Flex ANI. Flex ANI provides a two digit code (information digits) that identifies the nature of the originating exchange line to the customer. The OLS service delivers a code on all calls that identifies an exchange line as being used for inmate services (code 29) or private payphone (code 70). Rates are as set forth in Section 17.4.2-.4 for engineering, labor and miscellaneous services. These additional service offerings are mandated by the FCC.

#### CONCLUSION

Upon review, we have determined that ALLTEL's Access Tariff filing eliminating all references to its payphone service and adding Flex ANI and Originating Line Screening are reasonable and conform to the FCC Orders. Any intrastate subsidy required to be eliminated by the FCC shall be handled in accordance with the parameters established in Docket No. 970281-TL.

If no timely protest is filed within 21 days of the issuance of this Order, this docket shall be closed. If a timely protest is filed, the tariff filed in accordance with this Order shall remain in effect with revenues held subject to refund.
