Dear Sir:

As a homeowner in Section 11, Rainbow Springs, Marion County, we oppose the application of the Rainbow Springs Utilities, L.C. 8625 to extend their services into this area.

We give the following reasons for our opposition to this application.

1. This area is composed of one acre plus lots that give plenty of land to handle our septic systems.
2. This area of Marion County has excellent percolation to more than handle our septic systems needs.
3. Our wells produce excellent water, in fact the wells produce a higher quality of water than is supplied by the Rainbow Springs Utilities. Several have had Marion County test samples from both sources.

We have invested good money in our wells and septic systems and do not need the services of the Rainbow Springs Utilities which would be more costly and offer less quality of service than we now enjoy.
