

MEMORANDUM

TO: Cochran Keating
FROM: Charlie Guyton
RE: Supplemental ECCR Issue
DATE: February 9, 1998

BY FACSIMILE

In your facsimile memorandum of February 3, 1998, you asked the parties for positions on Staff's supplemental ECCR issue regarding a future hearing schedule change for ECCR. You asked for parties' positions by noon today. Enclosed is FPL's position:

FPL FPL is in favor of changing the future hearing schedule for this docket to coincide with any changes approved by the Commission in Docket No. 980001-EG. However, Rule 25-17.015, Energy Conservation Cost Recovery, would need to be amended to accommodate the schedule. In addition, FPL's existing forecasting and tracking processes and systems do not correlate with the proposed reporting periods. Therefore, to coincide with the proposed reporting periods, the Commission's detailed requirements for submission of conservation cost recovery data would need to be changed.
