CUSTOMER COMMENTS

There is no way you need to ask a homeowner to pay for reused water to keep golf courses & nurseries green. Lets get serious - who would want to do this. This is how they make a living, so let them pay for it.

I paid for the City of A.S. & they have installed reused water to not only commercial, but residential for a flat fee. It has been very successful because a homeowner is getting the benefit of keeping their lawn green, their cars clean & their swimming pools filled and do not need paying a fee.

Count me among the ones who oppose what you are proposing, but if you service my home & install reused water, then we can talk.
