RE	:	Confidential Documents in Docket No. 930485-TL	

Based on the exhibit listings in the transcripts and the confidential document descriptions in CMS, I have determined which of the documents in question were entered into the record. For those documents which were entered into the record, we must make a ruling on confidentiality. In this regard, I will check with you to arrange a convenient time when I can inspect the pertinent documents and garner the necessary information to make a recommendation on confidentiality. For those documents which were not entered into the record, staff has no further use for this information, and I suggest that the documents be returned to the source. The following is a listing of all the confidential documents in question and the needed action:
