 and Information Systems, Inc., Against)
 BellSouth Telecommunications, Inc. for) Filed: August 6, 1998
 violation of the Telecommunications)
 Act of 1996; petition for resolution)
 of disputes as to implementation and)
 interpretation of interconnection,)
 resale and collocation agreements;)
 and petition for emergency relief.)

SUPRA TELECOMMUNICATIONS & INFORMATION SYSTEMS, INC.'S
MOTION TO TAKE OFFICIAL NOTICE
OF THE RECORD IN DOCKET NO. 960786-TL

Supra Telecommunications and Information Systems, Inc., ("Supra") hereby files this Motion to Take Official Notice of the Record of Docket No. 960786-TL and as grounds therefor states as follows:

1. On April 30, 1998, the Commission held a hearing in this proceeding at which testimony and exhibits were put on by the parties.
2. Supra cross-examined a BellSouth witness named William Stacy at the hearing.

3. During questioning, witness Stacy responded as follows to the following specific question located at page 574, lines 20-25, of the Transcript of the hearing:

- Q. You would not acknowledge that AT&T had serious problems with EDI?
- A. Absolutely not. They were processing -- excuse me, that's proprietary. They were processing a lot of orders through EDI

every month until they decided to go out of the resale business.

4. Supra has subsequently discovered testimony presented by an AT&T witness named Jay Bradbury in the hearing in BellSouth's "271 proceeding" in Docket No. 960786-TL. Witness Stacy also testified in that proceeding.

5. Mr. Bradbury's testimony relates to AT&T's position regarding the access to BellSouth's OSS that BellSouth has given to AT&T and other CLECs and ALECs. Mr. Stacy's response in the hearing in this proceeding is directly contradicted by Mr. Bradbury's testimony in that Mr. Bradbury clearly indicates that AT&T has had extensive problems with EDI and LENS and that EDI and LENS provide completely inadequate electronic interfaces to BellSouth's OSS. The fact that Mr. Stacy testified in that proceeding for BellSouth indicates that Mr. Stacy is well aware of the complaints AT&T has had about EDI.

6. The Commission has already taken official notice of the Order issued by the Commission in Docket No. 960786-TL by stipulation of the parties in this proceeding. It is perfectly appropriate for the Commission to take official notice of the record on which that Order is based.

7. Supra was unaware of Mr. Bradbury's testimony prior to the hearing in this proceeding. There are many, many proceedings involving these interconnection issues and it is impossible for any company to be completely aware ahead of time of what previous testimony may be relevant to a particular proceeding.

8. Mr. Bradbury's testimony is sworn testimony previously

heard and accepted by the Commission in a proceeding in which BellSouth was the adversary party who had the opportunity to rebut the testimony in that proceeding.

9. As BellSouth and Staff participated in Docket No. 960786-TL and already have copies of Mr. Bradbury's testimony in their possession, Supra has not attached an additional copy of Mr. Bradbury's testimony to this Motion.

WHEREFORE, Supra respectfully requests that the Commission take official notice of the record of Docket No. 960786-TL in this proceeding, especially the testimony of Mr. Jay Bradbury filed in July 1997.

Respectfully submitted, this 16th day of August, 1998.

Suzanne Fannon Summerlin
Attorney for Supra Telecommunications
and Information Systems, Inc.
