Dear Madam,

8-11-98

All I will say is if taxes, fees and assessments keep being added to my phone bill, -I will not be able to have telephone service because it will be too expensive to own a phone. I'm sick of new fees and charges being added to my phone bill every few months from the FCC, GTE, my long distance carrier or whomever. I don't want to pay for other people to have phone service just so these companies can make more money as always Get a grip Ok! ? Charles + Shelly Pyles
