SUBJECT: F.C.C. Charges for Interstate Toll Access \$3.50
Telecommunications Access System Act Surcharges \$0.12
Universal Connectivity Charges \$0.93
Carrier Line Charges \$0.85 (Phone 352-666-6977)

Dear Sir or Ms:

I do not know who to write for (of the above) investigation of the subject charges, which seem to be in most cases a duplication of charges. When the \$3.50 FCC charge of \$3.50 was put on my local phone service bill, it was noted for access charge to other carriers, now creeping into our bill are charges which seems to me as a duplication of the reason for the \$3.50 Access charge, in the first place. Because they are less than a dollar charge, or thereabouts, they (and I don't know whom) possibly figures that no one will complain, because it is a small amount, but I see it as about a \$24.00 per year additional charge.

I am asking that someone (someone of the above) responsible for protection of the consumer, look into the charge problem, and come up with a correction or complete justifiable explanation for those charge, that now appear on my bill. Awaiting a reply

Very truly yours,

LT Travis
