**EXPERIENCE:**

**3/98 to Present ISG-Telecom Consultants, Int'l** Atlanta, GA  
**Chief Executive Officer**

As CEO I am responsible for handling all CLEC setup, tariff strategies and writing, interconnection and resale agreements, overall project management

**3/97 to 3/98 GE Capital Commercial Direct (GE Exchange)** Atlanta, GA  
**Vice President - Telecommunications Products**

Implemented CLEC status in Massachusetts, negotiated contract to eliminate \$1.6 million penalty to GE on dispute over Centrex line and NRBS line provisioning under former Access America contracts and replaced platform with more profitable resale lines. Educated fellow management on options and recommendations to compete in existing markets (step to resale platform ASAP) and devised "CLEC appearance" pilot to prove in next strategy for GE to get to a more profitable arrangement than their Centrex resale "network". Advised on acquisition planning to make major move to telecommunications and began to investigate the creation of GE internal telecommunications services onto a resale and eventual CLEC basis for worldwide services. Complete P&L responsibility for Ameritech and NYNEX operations.

**12/95 to 3/96 MFS Communications, Inc.** Oakbrook Terrace, Illinois  
**Sr. Director - Strategic Network Initiatives**

Duties expanded to include more project management of specialty or complicated implementations, network construction route planning, city/community ROW negotiations, sales and marketing coordination & training, project P&L as well as financial analysis in project planning. Market management and previous duties also carried forward in more of a supervisory capacity with additional staff added to head up various initiatives on a national basis (i.e. resale, billing support, carrier relations, etc.)

**Sr. Manager - Local Service Implementation**

Handled all negotiations, agreements, 2 major RBOC interconnection arrangements, and implementation of switch and central office equipment as well as the integration of MFS ordering, billing, and provisioning systems, technical preparedness and escalation of installation problems and hand off to marketing and sales support functions with Ameritech. Refinement of interconnection details (after negotiating our regional agreement), implementation procedures, and negotiating state by state wholesale Centrex, business line, trunk, usage, features and other service element resale agreements in all Ameritech states. I also negotiate billing dispute resolutions, interpretations of agreements. Recently, asked to either help other negotiators/implementation managers and was selected to represent MFS with another major national telephone company to negotiate for interconnection, resale, and local service implementation on a national basis.

1/94 to 12/95

**Fair Shopping Network**

**Rochester, New York**

**Owner/Entrepreneur**

This was a trial to have data to sell the concept and consulting set-up/licensing to telephone companies for use in their directories. It was intended to be the intermediate step to the electronic directory and it worked VERY well. Just when I was putting together my presentation materials to take to the telcos, a recruiter called me for the MFS opportunity. This is an excellent example of my entrepreneurial approach and visionary ideas.

11/91 to 1/94

**Frontier Communications (Rochester Telephone)**

**Rochester, NY**

**Sr. Manager - Local Telephone Service Planning**

Many facets of small telephone companies had to be addressed including cross marketing of switched based services, sales training, product design and deployment, and directory. Full P & L responsible for 49 directories totaling \$23 million in gross revenue. Fully responsible for all financial impacts including the sales, production specifications, P&L, and vendor contract negotiations in addition to my other marketing duties. These companies with were the small subsidiaries away from the Rochester area.

2/85 to 11/91

**Southwestern Bell Corporation**

**(various locations)**

**Ad/Vent Information Services - (subsidiary of SWBYP)**

**Denver, Colorado**

2/85 **Sales Representative -**

Achieved 345% of objective first year and 215% the next year. Promoted after 17 months on the job. Sales sites included 6 month average stay in Denver, Salt Lake City, Albuquerque, El Paso, San Diego, and Chicago northwest suburbs.

7/86

**Sales Manager -**

**Southern California**

Based in Anaheim in Orange County, supervised a sales crew of 8, trained them beyond the basic corporate training program, coached and motivated them, and supervised their activities to both comply with the company's standards of behavior and performance as well as preventing paperwork or process errors to minimize customer complaints. Promoted to roll out new 4-color "magazine" type of product.

3/87

**National Sales Manager - Specialty Sales (New Product Launch)**

**United States**

Handled regular sales via sales manager supervision and specialty sales reps. Created a training program and taught reps to sell a new product which I had a big part in creating. Program of the 4-color product became more successful than the underlying product with sales people. Top reps requested transfer to my team. Transferred to the main SWBYP corporate structure (only 12 managers of 400 in Ad/Vent Info Services were selected for this distinction.)

**Southwestern Bell Yellow Pages**

8/88

**Manager - Specialty Sales**

**Oklahoma City, Oklahoma**

Despite the title, this was a promotion. Continued with the introduction of the 4-color product in the Southwestern Bell 5 state YP area. The sales force there, however, was unionized and there was a difficulty in roll-out that changed the product and the sales program that I had established significantly. Requested a transfer to marketing.

9/89

**Sr. Market Manager - Oklahoma/Arkansas**

**Oklahoma City, Oklahoma**

Handled all of the directory scoping decisions, plans, implementation, sales roll-out, and new product development for the states of Arkansas and Oklahoma. Saved \$2.6 in production costs and built gross revenue by 36% in the non-major market directories. When my home burned down in October of 1991. Chose to take an early retirement offer and move back to be near my family for a while (Rochester, NY)

7/81 to 1/85

**Richey Frankel & Company**

**Denver, Colorado**

**Assistant Trader/Research Director/State Registrations & Legal Administrator**

Boutique brokerage firm in the hey-day of the penny-stock market. I was involved in every facet of the securities work: due diligence, promotional research reports, and underwriting process. I also set up a Trust Department for a non-bank trustee by researching the appropriate CFR and filing with the IRS (Saved about \$25,000 in legal fees). Fun job, but I wasn't making enough money and I wanted to learn how to sell since everything in life is a sales job.

## **ACCOMPLISHMENTS / HIGHLIGHTS:**

- \*\*\* Negotiated on MFS team of 4 the telecommunications industry's first complete CLEC/ILEC Interconnection Agreement on behalf of MFS and Ameritech for Region wide co-location and Interconnection
- \*\*\* Completely project managed the installation and turn-up of MFS's switches and CO Collections from planning thru execution to testing and sales/operations turnover in all Ameritech territory. Since these were the first interconnections for Ameritech too, I experienced first hand the pitfalls, loop holes, Ameritech tactics for delay, operational snafus, problem resolution, billing irregularities and tactics, etc.
- \*\*\* Created the standard Ameritech/CLEC Operational Implementation Plan (aka Joint Operations Plan) to clarify such things as billing understandings/procedures, revenue sharing on INP access fees, escalation procedures, network maintenance and monitoring for interconnected carriers, and other critical details to enable smooth operations and network turn-up/build out. This is now the Ameritech standard document with CLECs.
- \*\*\* Negotiated (with Regulatory Manager) the first Interconnection Agreement with Sprint Telephone for the Illinois and Florida Sprint ILEC service areas. Illinois agreement was then modified to be basis for the National Sprint Interconnection Agreement with MFS Worldcom.
- \*\*\* Sorted through Centel territory (Sprint ILEC territory in Illinois prior to sale of territory to Ameritech very recently) operations, interconnection procedures (they didn't have a clue how to do it nor what their network would be capable of doing! it was like playing both sides of a card game!), and collocation activities. Utilized loop hole in Ameritech agreement to benefit MFS financially as well as averting an MFS capacity problem while enabling new line sales in Sprint operating territory.
- \*\*\* Learned switching technology and line & features marketing by managing 52 little telcos for Frontier Communications. Often these telcos were rural and over managed for the number of access lines they controlled. Switches (often old cross bars!) were replaced by backhauling several geographically situated telcos to a central SESS and trunking the LD onto the Frontier network. Later I used this knowledge and experience with MFS to plan a Cleveland backhaul to Detroit and Indianapolis backhaul to Chicago to get into business prior to local switch site readiness and enable sales for 6 months prior to local switch turn-up.
- \*\*\* Launched four-color advertising product in directories in early 1987 before they became a fixture in most directories. Achieved operating profitability and continuously overachieved in national sales objectives. New product launch in traditional SWB territory was hampered by unionized sales force compensation plan which prevented incentive sales compensation. Later, my product development and launch skills were utilized in my own Fax Shopping Network business in Rochester.

### TARIFF FORMAT

- A. **Sheet Numbering** - Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, occasionally, when a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their Tariff approval process, the most current sheet number on file with the Commission is not always the sheet in effect. Consult the Check Sheet for the sheet currently in effect.
- C. **Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of code is subservient to its next higher level:
- 2.
  - 2.1.
  - 2.1.1.
  - 2.1.1.A.
  - 2.1.1.A.1.
  - 2.1.1.A.1.(a).
  - 2.1.1.A.1.(a).I.
  - 2.1.1.A.1.(a).I.(i).
  - 2.1.1.A.1.(a).I.(i).(1).
- D. **Check Sheets** - When a Tariff filing is made with the Commission, an updated Check Sheet accompanies the Tariff filing. The Check Sheet lists the sheets contained in the Tariff with a cross reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some sheets). The Tariff user should refer to the latest Check Sheet to find if a particular sheet is the most current on file with the Commission.
