MANAGEMENT PROFILES

**Stephen E. Raviile,
Chief Executive Officer**

Since 1982, Mr. Raviile has been an active participant in the telecommunications industry. He was a co-founder and later Chairman and CEO of TA Communications, Inc., a company focused on the newly deregulated U.S. telecommunications market. TA grew into a company with \$20 million in revenues and in 1984 purchased Advanced Telecommunications Corp., (ATC) a publicly held communications company.

Over the next eight years, ATC became one of the fastest growing telecommunications companies in the U.S., and acquired over three dozen companies ranging from under \$5 million to more than \$75 million in annual revenues. As fiber optic and microwave backbone networks were build or acquired, ATC grew to a fully integrated telecommunications company with revenues of more than \$500 million.

In 1992, ATC merged with LDDS, a company with revenues of more than \$400 million. This merger created the foundation for what is now known as WorldCom. In the merger, ATC shareholders received stock with a then value of more than \$700 million, and today is worth more than \$1.5 billion.

In 1993 Mr. Raviile became President of First Southeastern Corporation, an Atlanta-based investment firm, which is actively involved as investors in a number of both public and private companies.

Gary D. Morgan
President and Chief Operating Officer

Mr. Morgan joined the Company in July 1998 and has 22 years experience in the telecommunications industry. For the last 19 years he has held various senior level positions with Lucent Technologies, Siemens and Nortel. He has a broad background in marketing and operating large public communications networks, with such companies as Bell Atlantic, SBC, US West and Bell South. Mr. Morgan has served as a trustee for many cultural and non-profit organizations. He holds a Bachelor's of Science in Business Administration from Western Carolina University.

Patrick E. Delaney
CFO

Mr. Delaney has more than twenty years of diverse business management experience in such industries as chemical engineering, insurance and telecommunications. As Chief Financial Officer of Advanced Telecommunications Corporation ("ATC"), Mr. Delaney was instrumental in growing the company's annual revenues from \$50 million to more than \$550 million in less than six years from 1986 to 1992. Mr. Delaney's other key responsibilities at ATC included directing mergers and acquisitions activities, which resulted in over fifteen transactions, as well as placing financing in excess of \$250 million in debt and equity. During 1993-1994, Mr. Delaney served as a board member and CFO for RealCom, Inc., the second largest shared tenant services company in the country until its acquisition by MFS Communications.

Lohren Edney
Vice President, Engineering & Operations

After attending Auburn University, Mr. Edney began his career in telecommunications at South Central Bell Telephone Company in Birmingham in their Service Order Control Group and was transferred to work on the conversion project of their directory system (yellow and white pages). He was a Customer Service Representative for Pacific Telephone Company in San Francisco. He later joined US Sprint Communications Company. For the following seven years, Mr. Edney gained in-depth knowledge of the customer service industry as primary representative to Sprint's major accounts in reseller environments, acting as the point of contact for resolution of all service-related problems and billing disputes. He additionally oversaw orderly and timely provisioning of circuits, requiring coordination with Engineering and local exchange carriers throughout the southeast. During the last two years at Sprint, Mr. Edney held the title of Network and Systems Support Manager for their Intermediary Marketing Group (IMG) in their Kansas City headquarters where he supported the 900 product of Sprint Gateways and worked with IM to develop business requirements for the 900 product in CIS; planned and coordinated major network changes for IMG customers; completed transition of United Telephone Long Distance companies to FGD signaling and Trunk Group Billing (over 40 locations served by 11 US Sprint switches); and advised Business Development and Program Management on network and systems-related issues.

Following his employment with Sprint, Mr. Edney moved on to InterAmerican Telephone Co. and Tele-Flex Systems, Inc. where he acted as Director of Customer Service and Customer Service Manager, respectively. His next three years were spent at InterWorld as Director of Technical Services responsible for operation of IBM AS/400 computer systems and Tele-Flex software, including monthly invoicing, creation of reports to support marketing, customer service, collections, and outside sales. Mr. Edney held the title of MIS Manager at International Digital Telecommunications Systems, accountable for operation of IBM AS/400 computer systems, maintaining database integrity, and on-site training of employees in use of software and AS/400.

Mr. Edney's most recent position prior to joining PointeCom was Director of Network Engineering at New Millennium Communications Corporation.

EXHIBIT D

TECHNICAL CAPABILITY

The Company will provide local exchange service on a resale basis. Therefore, its technical capability is reliant on that of the incumbent local exchange carrier whose services it is reselling. In addition, the Company's officers have technical experience in the telecommunications industry.

PRICE LIST FORMAT SHEETS

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the price list. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the FPSC. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the FPSC follows in their price list approval process, the most current sheet number on file with the Commission is not always the price list page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).L.
- 2.1.1.A.1.(a).L(i).
- 2.1.1.A.1.(a).L(i).(1).

D. Check Sheets - When a price list filing is made with the FPSC, an updated check sheet accompanies the price list filing. The check sheet lists the sheets contained in the price list, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The price list user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the FPSC.

SECTION 2 - RULES AND REGULATIONS continued

2.2 Limitations (Cont.)

- 2.2.3 All facilities provided under this price list are directly controlled by the Company and the customer may not transfer or assign the use of service or facilities, except with the express written consent of the Company. Such transfer or assignment shall only apply where there is no interruption of the use or location of the service or facilities.
- 2.2.4 Prior written permission from the Company is required before any assignment or transfer. All regulations and conditions contained in this price list shall apply to all such permitted assignees or transferees, as well as all conditions for service.
- 2.2.5 Customers reselling or rebilling services must have a Certificate of Public Convenience and Necessity as an ALEC carrier from the Florida Public Service Commission.

2.3 Liabilities of the Company.

- 2.3.1 The Company's liability for damages arising out of mistakes, interruptions, omissions, delays, errors, or defects in the transmission occurring in the course of furnishing service or facilities, and not caused by the negligence of its employees or its agents, in no event shall exceed an amount equivalent to the proportionate charge to the customer for the period during which the aforementioned faults in transmission occur.
- 2.3.2 The Company shall be indemnified and held harmless by the customer against claims for libel, slander, or infringement of copyright arising out of the material, data, information, or other content transmitted over the Company's facilities.

2.6 Deposits

The Company does not require a deposit from local exchange customers.

2.7 Advance Payments

For customers whom the Company feels an advance payment is necessary, the Company reserves the right to collect an amount not to exceed one (1) month's estimated charges as an advance payment for service. This will be applied against the next month's charges and if necessary a new advance payment will be collected for the next month.

2.8 Taxes

All state and local taxes (i.e., gross receipts tax, sales tax, municipal utilities tax) are listed as separate line items and are not included in the quoted rates.

2.9 Billing of Calls

All charges due by the subscriber are payable at any agency duly authorized to receive such payments. Any objection to billed charges should be promptly reported to the Company. Adjustments to customers' bills shall be made to the extent that records are available and/or circumstances exist which reasonably indicate that such charges are not in accordance with approved rates or that an adjustment may otherwise be appropriate.

2.10 Equipment

2.10.1 The Company's facilities and service may be used with or terminated in Customer-provided terminal equipment or Customer-provided communications systems, such as a PBX, key systems or Pay Telephone. Such terminal equipment shall be furnished and maintained at the expense of the Customer, except as otherwise provided. The Customer is responsible for all costs at his or her premises, including personnel, wiring, electrical power, and the like, incurred in the use of the Company's service. The Customer is responsible to ensuring that customer-provided equipment connected to Company equipment and facilities is compatible with such equipment and facilities.

2.10 **Equipment** (contd.)

2.10.6 Upon reasonable notification to the Customer and at a reasonable time, the Company may make such tests and inspections as may be necessary to determine that the customer is complying with the requirements set forth in the section for the installation, operation and maintenance of customer-provided facilities, equipment and wiring in the connection of such facilities and equipment to Company-provided facilities and equipment.

2.10.7 Title to all facilities provided by the Company under this price list shall remain in the Company's name or in the name of the carrier supplying the services and facilities being resold.

2.11 **Installation**

Service is installed upon mutual agreement between the Customer and the Company. The service agreement does not alter rates specified in this price list.

2.12 **Service Implementation**

Absent a promotional offering, service implementation charges will apply to new service orders or to orders to change existing service. Implementation charges for business services are listed in Section 3.

2.13 **Reconnection Charge**

A reconnection fee may be charged when service is re-established for customers who have been disconnected for non-payment, and is payable at the time that the restoration of suspended service and facilities is arranged.

2.14 **Operator Service Rules**

The Company will enforce the operator service rules specified by the Commission and by the FCC.

2.15 **Access to Telephone Relay Services**

Where required by the Commission, the Company will participate in telephone relay services for handicapped and/or hearing impaired end users, and will comply with all regulations and requirements. The Company shall impose any monthly surcharge or any other related charge upon its local exchange telecommunications subscribers as may be required by state law.

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The company uses the rate centers and associated vertical and horizontal coordinates that are produced by Bell Communication Research in their NPA-NXX V&H Coordinate Tape and AT&T Tariff.

$$\text{Formula: } \sqrt{\frac{(V1 - V2)^2 + (H1 - H2)^2}{10}}$$

2.17 Cancellation of Service by Customer

Customers can cancel basic local exchange service by providing written or oral notification to the Company.

For cancellation of Private Branch Exchange (PBX) service, the customer must provide five (5) working days written notice of cancellation to the Company.

2.18 Minimum Call Completion Rate

Customers can expect a call completion rate (number of calls completed divided by the number of calls attempted) of 90% during peak use periods for all FG D services (1+ dialing).

2.19 Access to 911 Emergency Services

The Company will provide, at no cost to the customer, 911 emergency services access at levels equal to the service provided by the ILEC.

SECTION 3 - BASIC SERVICE DESCRIPTIONS AND RATES

3.1 Timing of Calls

3.1.1 When Billing Charges Begin and End For Phone Calls

The customer's usage charge is based on the actual usage of the Company's network. Usage begins when the called party picks up the receiver, (i.e. when 2 way communication, often referred to as "conversation time" is possible.). When the called party picks up is determined by hardware answer supervision in which the local telephone company sends a signal to the switch or the software utilizing audio tone detection. When software answer supervision is employed, up to 60 seconds of ringing is allowed before it is billed as usage of the network. A call is terminated when the calling or called party hangs up.

3.1.2 Billing Increments

The billing increments for each service is set forth in the individual product rate section.

3.1.3 Per Call Billing Charges

Billing will be rounded up to the nearest penny for each call.

3.1.4 Uncompleted Calls

There shall be no charges for uncompleted calls.

3.5 Local Service Areas

The Company will provide Local Exchange Service in the entire State of Florida. Local calling service areas will coincide with those of the ILEC, unless otherwise specified.

Installation, monthly recurring and per minute usage charges will apply to the Company's local exchange services. An addition per-call operator service charge will apply for operator-assisted calling.

3.6 Product Descriptions

3.6.1 Local Line - Residence:

Local Line - Residence provides the Customer with a single, voice-grade, DTMF communications channel. Each Local Line will include a telephone number, as well as access to the service.

Residence Service is that service furnished in private homes or apartments, including all parts of the subscriber's domestic establishment, for domestic use and not for substantial occupational use; in the study of a clergyman located in a church, in a college fraternity or sorority house, college dormitories, convents and monasteries for domestic rather than occupational use in residential quarters.

3.6.2 Business Services

Business Services are offered for local calling using the facilities of the Company and/or those of other authorized Local Exchange Carriers. Business Services are offered primarily to the following:

1. Offices, stores, factories, mines and all other places of a strictly business nature
2. Offices of hotels, boarding houses, apartment houses, colleges, quarters occupied by clubs and fraternal societies, public, private or parochial schools, hospitals, nursing homes, libraries, churches, and other institutions; and
3. Services terminating solely on the secretarial facilities of a telephone answering bureau.

Business Exchange Line Service provides a facility from a Customer's location to the Company's Central Office and gives the Customer the ability to complete local and long distance calls. This service provides Customer with unlimited local calling, including rotary/hunting service, at a flat monthly rate. Special rates are offered to customers who purchase this service in conjunction with the Company's Business long distance products. Options available with Business Exchange Line Service include Call Waiting, Call Forwarding, Three-way Calling and Speed Dialing, as well as Class Features. Installation charges apply.

3.6.2.B Private Branch Exchange (PBX) Service

The Company's PBX Service uses PBX Trunks to connect a customer PBX system or other similar equipment to the Company's Central Office. Standard configurations include Local CO Trunks, Direct Inward Dialing (DID), Direct Outward Dialing (DOD) and Combination Trunks. This service provides Customers with unlimited local calling, rotary/hunting service and Carrier Access. The Company treats these trunks similar to individual exchange lines and supports multi-line hunting over a group of trunks. Service is billed based on monthly usage, together with monthly recurring charges. Special rates are offered to customers who purchase this service in conjunction with the Company's long distance products. Installation charges also apply.

DID Service is an optional feature which can be purchased in conjunction with Company-provided PBX Trunks. DID service transmits the dialed digits for all incoming calls allowing the Customer's PBX to route incoming calls directly to individual stations corresponding to each individual DID number. Charges for DID capability and DID number blocks apply in addition to charges specified for PBX Trunks. One additive charge applies for each DIDH equipped PBX Trunk or channel. Customer is required to purchase at least one DID number block for each DID equipped trunk or trunk group, or DID-equipped channel or group. The Company reserves the right to limit the amount of DID numbers constituting a block of telephone numbers in a group. Blocks of number groups will be determined at the sole discretion of the Company's resources. In addition, the Company reserves the right to review vacant DID stations or stations not in use to determine efficient telephone number utilization. Should the Company determine, based on its own discretion, that there is inefficient number utilization, the Company may reassign the DID numbers.

The Customer has no property rights to the telephone number or any other call number destination associated with DID service furnished by the Company, and no right to the continuance of service through any particular end office. The Company reserves the right to change such numbers, or the end office designation associated with such numbers, or both; assigned to the Customer, whenever the company deems it necessary to do so in the conduct of its business.

This surcharge applies to Operator, Station and Person-to-Person rated calls when the Customer has the capability of dialing all the digits necessary to complete a call, but elects to dial only the appropriate operator code and requests the operator to dial the called station. The surcharge does not apply to:

- 1) Calls where a Customer cannot otherwise dial the call due to defective equipment or trouble on the network; and
- 2) Calls in which a Company operator places a call for a calling party who is identified as being handicapped and unable to dial the call because of his/her handicap.

The Operator Dialed Surcharge applies in addition to any other applicable operator charges.

3.6.4.B Busy Line Verify and Line Interrupt Service

Upon request of a calling party, the Company will verify a busy condition on a called line. The operator will determine whether the line is clear or in use and report its status to the calling party. The operator will interrupt the call on the called line only if the calling party indicates an emergency and requests interruption.

A charge will apply when:

1. The operator verifies that the line is busy with a call in progress;

SECTION 3 - BASIC SERVICE DESCRIPTIONS AND RATES continued**3.13 Special Rates for the Handicapped****3.13.1 Directory Assistance**

There shall be no charge for up to fifty (50) calls per billing cycle from lines or trunks service individuals with disabilities. The Company shall charge the prevailing tariff rates for every directory assistance call in excess of 50 within a billing cycle.

3.13.2 Hearing and Speech Impaired Persons

Intrastate toll message rates for TDD users shall be evening rates for daytime calls and night rates for evening and night calls.

3.13.3 Telecommunications Relay Service

For intrastate toll calls received from the relay service, the Company will, when billing relay calls, discount relay service calls by fifty percent (50%) off of the otherwise applicable rate for a voice nonrelay call, except that where either the calling or called party indicates that either party is both hearing and visually impaired, the call shall be discounted sixty percent (60%) off of the otherwise applicable rate for a voice nonrelay call. The above discounts apply only to time-sensitive elements of a charge for the call and shall not apply to per call charges such as a credit card surcharge.
