*Re: Teligent, Inc.'s IntraLATA Toll Dialing Parity Plan, as Required by the  
Recent Federal Communications Commission Order*

Dear Ms. Bayo:

Enclosed herewith for filing, please find Teligent, Inc.'s ("Teligent") intraLATA toll dialing parity plan, pursuant to the Federal Communications Commission's recent order.<sup>4</sup> That order required all carriers to file with each state commission a copy of its intraLATA toll dialing parity plan by April 22, 1999.

An additional copy of this filing is enclosed. We ask that it be date-stamped and returned in the envelope provided. Should any questions arise regarding this filing, please do not hesitate to contact the undersigned at (703) 762-5430.

Respectfully submitted,

Carly Tolchin

FPSC-RECORDS/REPORTING

**TELIGENT, INC.**  
**DIALING PARITY PLAN**

**I. OBJECTIVE/PURPOSE**

In compliance with the Federal Communications Commission's recent intraLATA toll dialing parity order,<sup>1</sup> Teligent, Inc. ("Teligent") files its plan for implementing intraLATA equal access in areas of the State in which it is authorized to provide service. Under the plan, Teligent's customers choose an interexchange carrier ("IXC") from a list of IXCs that are Teligent access customers. The customers' intraLATA toll calls are then routed to the chosen IXC automatically, without the use of access codes.

**II. IMPLEMENTATION SCHEDULE**

Teligent has already launched service in the State, in accordance with the provisions set forth in this plan.

**III. CARRIER SELECTION PROCEDURES**

Teligent has implemented a full 2-PIC carrier selection methodology within the State. With the full 2-PIC methodology, Teligent customers are able to presubscribe to one IXC, including Teligent, for interLATA toll calls and to presubscribe to the same or a different IXC for intraLATA toll calls. Teligent has endeavored to contact as many IXCs as possible regarding the opportunity to provide toll service to Teligent customers.

Customers are informed of the opportunity to choose both an intraLATA toll carrier PIC and an interLATA PIC. At the customer's request, Teligent provides a list of IXCs that are available for PIC selection. That list is presented in a competitively neutral manner.

Customers who do not choose an intraLATA toll carrier are identified within Teligent's system as "no-PIC." Until making an affirmative intraLATA toll PIC selection, these customers must dial an access code in order to place intraLATA toll calls

#### **IV. CARRIER NOTIFICATION**

Prior to launching service in the State, Teligent contacted as many IXCs as possible regarding the opportunity to provide toll service to Teligent customers. In addition, any IXC that wishes to serve Teligent customers are asked to submit to Teligent an Access Service Request (“ASR”) form for each switch to which it desires access. If a customer requests access to an IXC not on the list, Teligent will contact the IXC on the customer’s behalf. IXCs are informed that the Teligent switches available for exchange access service are identified in either NECA Tariff No. 4 or Teligent’s Tariff FCC No. 3. Once Teligent receives and processes an IXC’s ASR, that carrier is added to the list of IXCs available for customer selection.
