**Re: PSC Docket No. 990348-EI - Request for confidential classification of certain materials provided in connection with the West Palm Beach and Stuart Joint Trenching Audit (Audit Control Number 98-194-4-2) by Florida Power & Light Company**

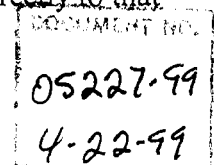

Dear Mr. Litchfield:

As we discussed last Thursday morning, Document WP 9, pages 1 through 4, was included in the public record. Because these papers have now been made public, they cannot be afforded confidential treatment.

Also, there seems to be a typographical error concerning Document WP 10-18. This item was listed in your request as not confidential, but the item was redacted and highlighted and seems to conform with the other requested items.

As we discussed, you may file an amended request to address the above. If an amended request is not filed with the Division of Records and Reporting by Thursday, May 6, 1999, staff will recommend to the prehearing officer that the items discussed above be denied confidential treatment.

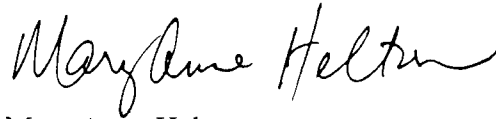

You may request the Division of Records and Reporting to return to you the unredacted copy of workpaper #9 (included in document 03456-99). Any such request must be made directly to that Division.
