MAIL ROOM

Dear Ms. Brady:

The Department's Water Supply Program is in the process of finding the most cost-effective alternative to provide safe drinking water to the people served by the Rivers Edge Water System in Punta Gorda. We contacted our filter contractor (Carbonair Environmental Systems) and are waiting for their proposals.

The alternatives that we are looking into are replacement of the reverse osmosis (RO) plant or replacement of only the RO membranes and their housings. The District already told us that the latter alternative does not require extensive permitting activities.

If you have any questions or need more information, please call me at (850) 487-1604.

Sincerely,

Andres E. Kraul, P.E.  
Water Supply Restoration Program
