|-----|----|-----------------------------------------------------------------------------|
| 2 | | SURREBUTTAL TESTIMONY OF JERRY HENDRIX |
| 3 | | BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION |
| 4 | | DOCKET NO. 990649-TP |
| 5 | | October 15, 1999 |
| 6 | | |
| 7 | Q. | PLEASE STATE YOUR NAME AND COMPANY NAME AND ADDRESS. |
| 8 | | |
| 9 | A. | My name is Jerry Hendrix. I am employed by BellSouth Telecommunications, |
| 10 | | Inc. as Senior Director - Interconnection Services Revenue Management, |
| l 1 | | Network and Carrier Services. My business address is 675 West Peachtree |
| 12 | | Street, Atlanta, Georgia 30375. |
| 13 | | |
| 14 | Q. | ARE YOU THE SAME JERRY HENDRIX WHO FILED DIRECT AND |
| 15 | | REBUTTAL TESTIMONY IN THIS PROCEEDING? |
| 16 | | |
| 17 | A. | Yes. |
| 18 | | |
| 19 | Q. | WHAT IS THE PURPOSE OF YOUR SURREBUTTAL TESTIMONY? |
| 20 | | |
| 21 | A. | The purpose of my surrebuttal testimony is to respond to comments made in |
| 22 | | the rebuttal testimony of Ms. Julia Strow, witness for Intermedia |
| 23 | | Communications, Inc. ("Intermedia"), and Terry Murray, witness on behalf of |
| 24 | | Covad Communications Company and Rhythms Links Inc. |
| 25 | | |

DOCUMENT NUMBER-DATE

PPSC RECARDS/REPORT QQ0984

| 1 | | |
|----|----|--------------------------------------------------------------------------------|
| 2 | Q. | ON PAGE 29 OF MS. MURRAY'S REBUTTAL TESTIMONY, LINES 6 |
| 3 | | THROUGH 15, SHE COMMENTS ON THE USE OF MARKET |
| 4 | | CONDITIONS AS A BASIS FOR DEAVERAGED PRICING. PLEASE |
| 5 | | RESPOND TO HER COMMENTS. |
| 6 | | |
| 7 | A. | Ms. Murray's belief is that BellSouth has no basis for proposing prices based |
| 8 | | on market conditions. As stated in my rebuttal testimony on page 3, BellSouth |
| 9 | | anticipates that market conditions will play a role in the FCC 51.319 Remand |
| 10 | | Order. While the FCC announced a decision in the 51.319 proceeding on |
| 11 | | September 15, 1999, the written Order has not been released. Once the Order |
| 12 | | is received and carefully reviewed, BellSouth will be able to better determine |
| 13 | | how the FCC took into account the necessary and impair standards as required |
| 14 | | by the Supreme Court decision on January 25, 1999. The Supreme Court |
| 15 | | required the FCC to redefine UNEs using these standards; therefore, the FCC |
| 16 | | must consider the many alternatives that currently exist in various geographic |
| 17 | | areas. |
| 18 | | |
| 19 | Q. | AT THE SAME LOCATION IN MS. MURRAY'S REBUTTAL |
| 20 | | TESTIMONY, SHE STATES THAT I ADMIT THAT THE FCC'S PRICING |
| 21 | | RULES REQUIRE STATES TO SET DEAVERAGED PRICES BASED ON |
| 22 | | COSTS. DO YOU AGREE? |
| 23 | | |
| 24 | A. | No, I do not. Ms. Murray is quoting only a portion of what I included in my |
| 25 | | direct testimony. I stated on page 5, lines 13 through 15, the following: |

| 1 | | "FCC Rule 51.507 (f) requires state commissions to establish different |
|----|----|-----------------------------------------------------------------------------------|
| 2 | | rates (prices) for elements in at least three defined geographic areas |
| 3 | | within the state to reflect geographic cost differences." |
| 4 | | |
| 5 | | I do not see this as contrary to my position on pricing. These words simply |
| 6 | | indicate that state commissions must set up defined geographic areas that |
| 7 | | reflect cost differences. In other words, the chosen geographic areas should be |
| 8 | | distinguished by some obvious difference in cost characteristics. BellSouth |
| 9 | | believes the price should be based on market conditions within each of those |
| 10 | | chosen geographic areas. |
| 11 | | |
| 12 | Q. | MS. STROW, ON PAGE 7, BEGINNING ON LINE 19, IMPLIES THAT |
| 13 | | THE INTERSTATE SPECIAL ACCESS DESIGNATED ZONES ARE A |
| 14 | | NATURAL FIT FOR THE UNE DEAVERAGING PROCESS. PLEASE |
| 15 | | COMMENT. |
| 16 | | |
| 17 | A. | As stated in my rebuttal testimony, the geographic rate structure in place for |
| 18 | | the interstate special access service is not based on population density. Neither |
| 19 | | is the designation of the interstate special access zones based on costs, as Ms. |
| 20 | | Strow suggests. To emphasize a point made in rebuttal testimony, interstate |
| 21 | | special access is under completely separate and unique regulatory rules from |
| 22 | | those applied to UNEs. There is no natural fit which would cause one to |
| 23 | | presume that BellSouth's UNE costs would be similarly affected by different |
| 24 | | geographies. BellSouth does not disagree that the costs for certain UNEs will |
| 25 | | vary based on geographic location. However, BellSouth does believe that a |

| 1 | | more deliberate analysis is required to determine the best way to define the |
|----|----|---------------------------------------------------------------------------------|
| 2 | | geographic areas. |
| 3 | | |
| 4 | Q. | PLEASE COMMENT ON MS. STROW'S SUGGESTION ON PAGE 8, |
| 5 | | LINES 17 THROUGH 19. |
| 6 | | |
| 7 | A. | Ms. Strow is continuing her argument that interstate special access zone |
| 8 | | designations are a natural fit for UNE deaveraging. As stated previously, this |
| 9 | | simply is not true. As an example of Ms. Strow's obvious confusion in this |
| 10 | | area, she is suggesting that ILECs can adopt more zones for intrastate services |
| 11 | | as a result of a FCC Order. The August 27, 1999 FCC Order only addresses |
| 12 | | interstate services. The additional pricing flexibility given in this Order is |
| 13 | | totally based on the current and growing competition in the interstate market. |
| 14 | | The ability to adopt more zones is not based on cost differences in geographic |
| 15 | | areas. As stated in my rebuttal testimony, the Commission needs a model |
| 16 | | incorporating considerations for the local exchange markets, which would |
| 17 | | include both residence and business services. |
| 18 | | |
| 19 | Q. | DOES THIS CONCLUDE YOUR TESTIMONY? |
| 20 | | |
| 21 | A. | Yes. |
| 22 | | |
| 23 | | |
| 24 | | |
| 25 | | |
