Subject: Facility Rates for FES

CONFIDENTIAL

----- Message Contents -----

Gentleman,

Based on the information received to date, below are the buildings occupied by FPL Energy Services, the related square footages and billing rates. This information has been collected from yourselves, John Dewars and Don Moranz. The invoice you receive this month will have billings for these facilities for the month of July.

5 ① Margate Office
3544 Sq Ft @ \$12.00/Sq Ft Annual

6 Area Office of Broward (AOB or Plantation)
2048 Sq Ft @ \$17.00/Sq Ft Annual

7 ② Brevard Office (Rockledge)
1000 Sq Ft @ \$12.00/Sq Ft Annual

Based on the above the total monthly billing will be \$7,445.33.
Thanks for your help, and please call me with any comments or questions.

Robert

Jaime G. Torrens
The School Board of Dade County

Re: Energy Services Agreement
FPL Services

Dear Mr. Torrens:

FPL Services is a General Partnership wholly owned by a Florida Power & Light Company (FPL) subsidiary. As such, FPL Services is included as an insured under the master casualty and property policies of FPL. These policies have substantial deductibles, which deductibles are in excess of the requested limits of coverage required under the Energy Services Agreement. FPL does not maintain coverage for Professional Liability.

Due to the above, FPL Services is, in effect, a self insurer. FPL Services is contemplating placing insurance to lessen the deductible. Should this become effective, a certificate of insurance will be issued to the School Board of Dade County depicting the coverage.

A letter of credit will be provided in the required amount. This will be in lieu of a bond.

It is our understanding the above is satisfactory to the School Board of Dade County. Please advise should you have any questions.

Sincerely,

[Signature]
M. M. Sturmer, ARM

Peter Bloch

How did you determine this allocation % in 1/1/97?

Name found in Brevard FPL Services files. We do not have name of customer to ask specific questions about the customer.

- However, his name is on list of people who consulted with other vendor/participants
- 1 specifically Pitts Consulting. What did you do for them? Who prepared the presentation?
 - 2 FPL or Pitts Consulting? Was the customer there?

How did you get involved in this meeting?

Work Order 1021 says it captures the cost in connection with area management misc exp which are not program specific and relate to Non-ECCR programs. What are the non-ECCR programs?

Could this be time spent on FPL services?

Thus

Customer Advocate
assist with rate options
help with interruptions

4. Please describe a day of typical activities.

HVAC Specialist

50% Responding to reactive things (power quality, billing, helps optimize HVAC & work w/ engineers that design sys)

5. Who are the people you interact with on a daily or weekly basis? Give us names of company people and/or customers.

Follow acct managers
Computer work (Billing)
Construction
Meter Men

6. Are you a fixed allocation or a variable allocation? If variable, ask how they keep their time? If fixed, ask them if they know their fixed percents. Compare with the information given to us by FPL. (We can tell what kind of allocation from the information given to us by FPL before the interviews).

30% ECCR

70% Non-ECCR

① of 11 $\frac{45-10}{28} = 2.28$

7. If receive requests and give out info for load data, ask what kind of information do they supply?

Yes, 1 with billing in 15 min interval

8. Do people ask for peak time of use data? Is that part of standard information given? Do people ask for pulse meter data? If that part of standard information given?

Billing Determinant

SSDR - Solid State Data Recorder - can get load data (have to have this to get 15 min data)
Time of Use Meters -

Developing system so customer can access data on line.

9. Do you deal with customers who are interested in conservation programs? If so, do you ever recommend a vendor/participant for an energy conservation program after they requested information about a program, load data or after they have an audit?

Yes / No

10. If you recommend, who do you recommend? How do you decide to recommend?

Did you ever recommend FPL Services? To whom?

No, they are an ESCO

but did set up meeting w/ ¹Tropicana (Didn't use Services)
(Put out an EIA RFP for an energy supplier)

10A. Have you ever been instructed to recommend FPI Services to customers? Who instructed you? Why?

No

11. Do you or did you ever interact with any FPL Services employees? Who?

Yes ²Rob Kusley
³Blake Morrison

45-10
2-28

20811

12. If they don't know names, read them list of 14 FPL Services people. Also, read them the supplemental list of names .

13. Do you attend meetings with them? ^{FPL Services people} What is your purpose of attending meetings with them?

Yes ① Tropicana

13A. Do you attend meeting with any of the vendor/participants besides FPL Services?

Yes ② Beuck Gibson & Assoc.
③ Tampa Bay Train

Not recently
over a year
ago

13A(1). For Womble, Bloch, Kindard, Hall, Reilman & Khoury, when you at attended meetings with these specific vendor/participants were the customers also present? 45-8 P4.
Which ones?

13B. In addition, do you ever tell FPL Services about a customer that you think needs a C/I lighting retrofit?

No

14. Do you provide FPL Services employees data? If so, what kind of data?

No, I don't think so

300

45-10
2-28

15. Do you work on any other affiliate company work besides FPL Services? Do you interact with any other affiliate co employees besides FPL Services?

Yes ^{Reg. Side} Energy Marketing & Trading
(Energy Broker)

16. Do you do any nonreg work? What? How much? Who assigns you to special projects for non reg work? How do you know you are doing non reg work?

17. For employees for which we have documentation from files, ask them for that particular customer who initiated contact.

① Tropicana wanted Overall Energy audit

Didn't recommend any co. other
than other ESCO's

Ry

1. Job Title

Mgr ac 4 - Mgr

2. Business Unit

Large C I Group

3. Please describe your responsibilities.

Call on large ac 4. Cust Service Cust Advocate
Rates options identify other options, into + reduce costs.
Cust Service - Billing - Reliability Factors

4. Please describe a day of typical activities.

HVAC Specified in Sacramento Area
Reactive - 50% - reliability
also chase time to the program -
Billing Rates

Course of cust. on argue rates need to get billing info
HVAC - Existing systems need tuning - checking whether plants
demand - Working w/ engineers who do design who work for customers

5. Who are the people you interact with on a daily or weekly basis? Give us names of company people and/or customers.

Follow ac 4 mgrs. - Computer type work (customer billing)
Construction Dept. - (new services, new designs, redesigns,
addis) Meter mgr - Electronic metering

6. Are you a fixed allocation or a variable allocation? If variable, ask how they keep their time? If fixed, ask them if they know their fixed percents. Compare with the information given to us by FPL. (We can tell what kind of allocation from the information given to us by FPL before the interviews)

Majority of time is from ECCR
Current 30% ECCR 70% major ac 4
Set up on ac 4 system

5 11

45-10
2-28

Can order TOU + hard copy 15 minutes
⑧ report - can get next day. If customer
wants info + have SSDR meter can get the
info. Why on system where cust can get real time only
data.

7. If receive requests and give out info for load data, ask what kind of information do they supply?

Reciev, request for load data - look at myself -
15 min low demand his load
bills month - have up to 12 month available

8. Do people ask for peak time of use data? Is that part of standard information given? Do people ask for pulse meter data? If that part of standard information given?

Peak - Summer on my peak TOU data.
Billing determined data - SSDR meter ^{to 15 minute data} Can get load data
Peak take data + doing calculation
with above.

If didn't have meter - would be difficult to get peak time of use
data.

9. Do you deal with customers who are interested in conservation programs? If so, do you ever recommend a vendor/participant for an energy conservation program after they requested information about a program, load data or after they have an audit?

Yes - Not really - involved in design stage
Conservation prog. ① Oman Curran - Caterpillar - ~~greener~~
Cost to get bills.

10. If you recommend, who do you recommend? How do you decide to recommend?

Did you ever recommend FPL Services? To whom?
Not as far as vendor - not much
Only time, recommend to meet w/ ②
only dealing w/ services ③ Trojain look for ④ trucking
S Committee - Power delivery (expand facilities) fuel committee

10A. Have you ever been instructed to recommend FPI Services to customers? Who instructed you? Why? NO

One Committee wanted was an energy efficiency committee
→ looks for process of going about that - Had services brought
to present what their process were -
When had one meeting - determine what services could do
would not help Trojain -

③ Trojain put on hold - Party Co. put out Value RFP for
Energy Efficiency + Storage RFP

11. Do you or did you ever interact with any FPL Services employees? Who?

⑥ Rob Riskey.
⑦ Blake Morrison

12. If they don't know names, read them list of 14 FPL Services people. Also, read them the supplemental list of names .

13. Do you attend meetings with them? ^{FPL Services people} What is your purpose of attending meetings with them?
Yes - FPL Services & ^① Trojans

13A. Do you attend meeting with any of the vendor/participants besides FPL Services?

Yes ^② Bosig Gibbons & Associates
Interacts because of design review day
a lot of long (HVAC) content
^③ Tanpa Bay Trane (not, reculture)

13A(1). For Womble, Bloch, Kindard, Hall, Feilman & Khoury, when you at attended meetings with these specific vendor/participants were the customers also present? 45-8 P4.
Which ones?

13B. In addition, do you ever tell FPL Services about a customer that you think needs a C/I lighting retrofit?

No

14. Do you provide FPL Services employees data? If so, what kind of data?

Doesn't know so -
During Trojans don't know of profits
^④

~~33~~ ⑦ 80"

45-10
2-28

15. Do you work on any other affiliate company work besides FPL Services? Do you interact with any other affiliate co employees besides FPL Services?

Yes - Energy Mkt Trade Fold - fuel arm of Co.
Energy Broker - New formed this year - regulated side

16. Do you do any nonreg work? What? How much? Who assigns you to special projects for non reg work? How do you know you are doing non reg work?

No

17. For employees for which we have documentation from files, ask them for that particular customer who initiated contact.

18. Do you think of Senis employee
as fellow employees.
If going to have any credibility

45-10
2-28

Keith Ponitz

Re Allocations - How did you determine 70% was non ECCR? What is the work you do that is charged to this work order?

Look at E-Mail - Who initiated the contact with Tropicana Services? Did you attend meetings with FPL Services and Tropicana? What work order did you charge your time to when you attended meetings?

The E-mail states "I got the feeling at luch and throughout the meeting that there is a significant level of interest in FPL Services if we could continue to do goo things for them."

Subject: Re: Meeting with FPLServices Thursday July 17 10:00am

----- Message Contents -----

Keith Ponitz:

- 2 I have set this meeting up for Tropicana Bradenton's Maintenance Services conference room (behind the Employee Services building). The FPL people
- 3 can check in as you normally do at the Rossi building and give me a call.
- 4 I have invited all members of the Energy Efficiency committee along with
- 5 Jack Jost and Norris Elswick. I don't expect Phil Lawson and Tom
- 6 Richardson to be there due to the late notice and long distances involved, others will attend as schedules permit.
- 7 John Webb

Subject: Meeting with FPLServices Thursday July 17 10:00am
Author: Keith_Ponitz@email.fpl.com at INTERNET
Date: 7/10/97 6:26 PM

- 8 Hi John, If you are still available next Thursday, Rob Risley with
- 9 FPL Services can meet with you in Bradenton to discuss some of the potential arrangements and processes that can be used to assist with
- 10 the refrigeration project and any others that were discussed at
- 11 yesterday's meeting. He will also be prepared to discuss some of the
- 12 processes that they have used to implement various energy projects.

We picked 10:00 as a time to meet at your site, but if another time is better, let me know.

Thankyou for you time,
Keith Ponitz 379-7302

COMPANY: FPL
TITLE: PAYROLL ALLOCATIONS
PERIOD: YEAR END 12/31/97
DATE: DECEMBER 3, 1997
AUDITOR: RKY

KW
11/12/98

WP NO. *45-12*

As part of our procedures to determine if FPL regulated employees were allocating their time correctly to regulated base rates, ECCR rates, and nonregulated items, staff selected a sample of FPL regulated employees to (1) determine how their time was allocated, (2) determine the methodology used to allocate and (3) determine the types of documentation for the methodology

45-10
181-2
We selected a sample of 77 names and obtained the type of payroll allocation for each FPL employee. Generally, the allocations were a fixed percent (the same amounts going to the same work orders each pay period, and for the most part each of the 77 employees appeared to have different allocations even with the same job title) or if they varied an exception report by the hours worked on each work order. In order to get the allocations for each employee, the company had to go to each business unit.

45-13
1
We asked the company to explain the methodology for payroll allocations and document a sample. (At first they gave us the explanation on WP 45-13/1. This was revised later on.) The company said the 1997 documentation was not available. *45-13* *45-13*
3 *402*

45-13
1
In answer to our request FPL also stated that there is no corporate-wide policy or procedure to document the methodology to determine fixed payroll distribution. It is up to each Business Unit to determine their own fixed payroll distribution.

5-5
FPL General Operations Policies and Guidelines 901.1 (Transfers of assets, good and services) states that there are three general types of transfers from FPL that might occur. The transfer that we are concerned with is the "transfer of goods and services not produced, purchased, or developed for sale". These transfers must be at fully loaded cost or at fair market value. In this case we are addressing labor costs. The guidelines state that direct labor costs of FPL employees are to be based on the actual wage rates of assigned employees ... including labor loadings, administrative and general loadings (which include facility costs associated with the personnel providing the service).

45-13
5
45-13
4-4
4-5
In lieu of 1997 documentation, the company provided documentation for the methodology of fixed allocations for 1998. They said 1997 was done in the same way. For 1998 an explanation was given for the manager's fixed allocation which is 78% of time to base rates and 22% of time to ECCR. The company illustrated that this was based on the total Base and ECCR budget for 1998. The 1998 budget is 70% base rates and 30% for ECCR. The company said the difference between the managers fixed allocation percent and the budget percent is a judgmental call based on history by the managers. *1*

Request #44 followup: Provide 1998 ECCR and Base budget for the IBS department:

Total 1998 Budget:

| | A | B |
|---------|--------------|-----|
| 1 Base | \$ 6,915,389 | 70% |
| 2 ECCR | \$ 2,992,324 | 30% |
| 3 Total | \$ 9,907,713 | |

1998 ECCR Budget by Program:

| | | |
|---------------|--------------|-------|
| HVAC | \$ 897,213 | 45-13 |
| Lighting | \$ 231,646 | pg 2 |
| Load Control | \$ 70,486 | |
| Admin | \$ 718,197 | |
| BEE | \$ 729,155 | |
| Off Peak Batt | \$ 5,352 | |
| Bldg Envelope | \$ 340,275 | |
| Total | \$ 2,992,324 | |

CONFIDENTIAL

4 Steve Romig told us that his fixed allocation percent is based on Total Budget - 70% ECCR to Total + 70% Base to Total. In 1998 he said his fixed allocation was 78% + 22% + this was based on Total Budget.

5 When we received the above, it is apparently different. The above is 70/30. Steve Romig explained that he takes the 70/30 + uses history (budget call) to come up w/ 78/22%. There is no documentation in the history or budget for 1998 - See fixed allocation for Steve Romig on 45-13

4-5 p 2

5) 1998 Methodology for others

- 1) determine budget for each ECCR program above, for example by Ca. used lighting \$ 231,646
- 2) Calculate the 1998 staffing needed based on 1997 actual \$ per employee + 1998 budget = staffing 3.6 people for 1998
- 3) Determine where the staffing will be needed, east, north, etc + determine the amount of time each staff member needs. actually breaks into 3.6 people
- 4) Incorporate % into fixed allocation for the employee.
- 5) % should match the fixed allocation for 1998 on 45-13. However, in the worksheet do not see P&ID line for reason.

ASSIGNMENT AGREEMENT

This assignment agreement (the "Assignment") is dated and effective as of the date of the party signing last in time as indicated in the appropriate signature area below ("Effective Date"), between FPL Services, a general partnership organized under the laws of the State of Florida ("FPL Services") and Florida Power and Light Company ("FPL"), a corporation organized under the laws of the State of Florida.

WHEREAS, FPL and the United State of America, as represented by the General Service Administration (the "Government") have entered into the Negotiated Areawide Contract No. GS-OOP-95 BSD-0005 dated July 25, 1995, as amended (as amended, the "Areawide Agreement") pursuant to which the Government purchases electric services from FPL:

WHEREAS, the Government and FPL have entered into an Authorization For Electric Service, Change in Electric Service, or Disconnection of Electric Service under Contract No. GS-OOP-95-BSD-0005, Exhibit A, dated June 13, 1996 (the "Authorization") pursuant to the Areawide Agreement in connection with demand side management work (the "DSM Work") to be provided by FPL; and

WHEREAS, FPL desires to assign all of its rights, title and interest in and to all amounts due or to become due under the Authorization and delegate all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services in accordance with the terms and conditions of the Assignment;

NOW THEREFORE, in consideration of the promises contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto hereby agree as follows:

1. **DEFINITIONS.** When used herein, the terms set forth below shall be defined as follows:

1.1. "Payments" means the right to receive, directly or indirectly, through any mechanism or process of whatever description (including but not limited to payments which FPL is entitled to receive under the Agreement for Invoicing of DSM Service Charges dated April 18, 1995, between FPL and FPL Services,) any funds, payments, or other compensation to be paid by the Government arising out of or related to the Authorization and any of the Government's obligations to make payments under the Authorization and any and all rights and protections afforded to FPL under the Authorization for the receipt of those payments. Expressly excluded from the Payments are any sums due to payable by the Government which are in excess of and do not arise out of the Authorization.

1.2. "DSM Work" shall have the meaning ascribed to such term in the Authorization.

F:\fpl_serv\data\projects\gsa\fplesgmt.doc

46-3
1 p. 105

11

2. **ASSIGNMENT.** FPL hereby irrevocably assigns, and transfers to FPL Services all rights, title and interest of FPL in and to (i) the Authorization, a complete, accurate copy (including all amendments and change orders) of which is attached hereto, (ii) all Payments and rights to Payments under the Authorization, (iii) all of the rights and remedies of FPL under the Authorization, (iv) all guarantees given to FPL in respect of the performance by the Government of its obligations under the Authorization, and (v) any and all rights, title and interest of FPL in and to the Authorization to the extent that such rights affect FPL Services' rights, title, interest, or ability to receive any Payments under the Authorization.

3. **Delegation.** FPL hereby delegates all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services and FPL Services hereby assumes all of FPL's duties and obligations under the Authorization with respect to the DSM Work.

4. **SECURITY AGREEMENT.** As security for the prompt performance when due of each obligation of the Government under the Authorization, FPL hereby grants to FPL Services a security interest in and to all of FPL's right, title, and interest in and to (i) the collateral referred to in and covered by the Authorization, which is contained on the list labeled "Included Collateral" attached hereto, and all accessions, accessories, parts, additions and attachments now or hereafter attached thereto or used in connection therewith, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed for the Government pursuant to any agreement other than the Authorization); (ii) all replacements or substitutions of any thereof, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed by the Government pursuant to any agreement other than Authorization); (iii) the Authorization (including all amendments thereto); and (iv) all proceeds of any of the foregoing, hereby granting to FPL Services in the event of any default or non performance of any such obligations when due, all of the rights of a secured party under applicable law, including but not limited to the applicable provision of the Uniform Commercial Code as then in effect.

5. **REPRESENTATIONS AND WARRANTIES OF FPL.** FPL hereby warrants, represents, and covenants as follows:

5.1. FPL has all requisite power and authority to execute and deliver this Assignment and the Authorization and to perform its obligations thereunder and thereunder;

5.2. the execution, delivery and performance of this Assignment and the Authorization have been duly authorized by, or are in accordance with, FPL's organizational instruments;

5.3. this Assignment and the Authorization have been duly executed and delivered by FPL, and this Assignment and the Authorization constitute the legal, valid, and binding obligation of FPL;

5.4. the execution, delivery, and performance of this Assignment and the Authorization will not result in a breach or violation of or constitute a default under, any agreement, lease, or instrument or any judgment, order or writ to which FPL is a party or by which it or its properties may be bound or affected or its organizational instruments;

5.5. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any violation, of any applicable laws, ordinances, regulations, rules, judgment, writ, decrees, awards, permits, or orders which may have a material adverse effect on its ability to perform under this Assignment or the Authorization;

5.6. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any litigation which may have a material adverse effect on its ability to perform under this Assignment or the Authorization; and

5.7. FPL has not transferred, assigned or pledged any of its rights under the Authorization, including, but not limited to, its rights in the Payments to any other party and has not entered into any agreements with other persons or entities regarding any assignments or delegation related to the Authorization, or the rights to receive the Payments under the Authorization.

6. **COVENANTS BY FPL.** FPL hereby covenants to FPL Services that:

6.1. FPL shall execute and deliver any and all documents which may be reasonably requested by FPL Services which serve to clarify, evidence, or implement the provisions of this Assignment:

6.2. FPL will not amend, modify or terminate any provision of the Authorization without the prior written consent of FPL Services:

6.3. FPL has incurred no costs for labor or materials in connection with the DSM Work prior to this Assignment.

7. **ASSIGNMENT BY FPL OR FPL SERVICES.** The provisions of this Assignment shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services and FPL, provided, however, FPL may not assign any of its rights or delegate any of its obligations hereunder without the prior written consent of FPL Services. Any and all representations and/or warranties made by FPL herein shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services. FPL Services or its successors or assigns may, from time to time, without notice to or consent of FPL, sell, assign, transfer or otherwise dispose of all or any part of its rights under this Assignment and in the Payments, provided, however, that such assignment does not otherwise alter the

g:\fpl_serv\data\projects\gse\fplogmt.doc

46-3
1 p385 13

terms and conditions of this Assignment or expand, enlarge or modify the obligations of FPL hereunder. In such event, each and every immediate and successive purchaser, assignee, transferee or holder of all or any part of FPL Services' rights under this Assignment or the Payments, shall have the right to enforce this Assignment, by legal action or otherwise, for its own benefit as fully as if such purchaser, assignee, transferee or holder were herein by name specifically given such right.

8. **INDEMNITY OF FPL SERVICES.** FPL Services does hereby indemnify and hold harmless FPL and FPL's affiliates (excluding FPL Services and FPL Energy Services, Inc.), their directors, officers, employees and agents from and against all claims, demands, causes of actions, and liabilities for property damage, personal injury, death, defective workmanship, delayed performance, nonperformance, or from and against any other liability arising from the performance or errors or omissions in the performance of the DSM work assigned herein, including the payment of all attorney's fees and costs associated with the defense thereof.

FPL Services may assign its right, title and interest in and to any payments made by the Government pursuant to the Authorization with respect to the DSM Work (the "DSM Payments") to an assignee ("Assignee"), which DSM Payments will be collected by FPL pursuant to the Agreement for Invoicing DSM Service Charges dated as of April 18, 1995 between FPL and FPL Services. FPL hereby (i) consents to such assignment, (ii) agrees to execute and deliver such further acknowledgments, agreements and other instruments as may be reasonably requested by the Assignee to effect such assignments, and (iii) agrees to comply fully with the terms of any such assignment. Upon any such assignment, FPL agrees that the DSM Payments shall not be subject to any abatement, reduction, setoff, defense, counterclaim or recoupment, due or alleged to be due to, or by reason of, any past, present, or future claims which FPL may have against FPL Services or against any person for any reason whatsoever.

9. **CONSIDERATION.** In consideration of this Assignment FPL receives the benefit of reduced peak kW and kWh that will apply towards meeting goals established by the Florida Public Service Commission (FPSC). This is work that would otherwise not have been installed if FPL had not entered into this agreement. In addition, FPL Services will pay FPL \$ 349.86 for the expenses incurred in obtaining the Authorization.

10. **NO AGENCY.** Under no circumstances shall FPL services be deemed an agent, partner or joint venture of FPL.

11. **GOVERNING LAW.** This Assignment shall be governed by and construed in accordance with the laws of the State of Florida, without regard to principles of conflicts of law.

12. **COUNTERPARTS.** This Agreement may be executed simultaneously in any number of counterparts, each of which counterparts shall be deemed to be an original, and such counterparts shall constitute but one and the same Agreement.

ASSIGNMENT AGREEMENT

This assignment agreement (the "Assignment") is dated and effective as of the date of the party signing last in time as indicated in the appropriate signature area below ("Effective Date"), between FPL Services, a general partnership organized under the laws of the State of Florida ("FPL Services") and Florida Power and Light Company ("FPL"), a corporation organized under the laws of the State of Florida.

WHEREAS, FPL and the United State of America, as represented by the General Service Administration (the "Government") have entered into the Negotiated Areawide Contract No. GS-OOP-95-BSD-0005 dated July 25, 1995, as amended (as amended, the "Areawide Agreement") pursuant to which the Government purchases electric services from FPL:

WHEREAS, the Government and FPL have entered into an Authorization For Electric Service, Change in Electric Service, or Disconnection of Electric Service under Contract No. GS-OOP-95-BSD-0005, Exhibit A, dated June 24, 1996, issued by A&MM Veterans Administration Medical Center at Lake City, Florida (the "Authorization") pursuant to the Areawide Agreement in connection with demand side management work (the "DSM Work") to be provided by FPL; and

WHEREAS, FPL desires to assign all of its rights, title and interest in and to all amounts due or to become due under the Authorization and delegate all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services in accordance with the terms and conditions of the Assignment;

NOW THEREFORE, in consideration of the promises contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto hereby agree as follows:

1. **DEFINITIONS.** When used herein, the terms set forth below shall be defined as follows:

1.1. "Payments" means the right to receive, directly or indirectly, through any mechanism or process of whatever description (including but not limited to payments which FPL is entitled to receive under the Agreement for Invoicing of DSM Service Charges dated April 18, 1995, between FPL and FPL Services,) any funds, payments, or other compensation to be paid by the Government arising out of or related to the Authorization and any of the Government's obligations to make payments under the Authorization and any and all rights and protections afforded to FPL under the Authorization for the receipt of those payments. Expressly excluded from the Payments are any sums due to payable by the Government which are in excess of and do not arise out of the Authorization.

1.2. "DSM Work" shall have the meaning ascribed to such term in the Authorization.

2. **ASSIGNMENT.** FPL hereby irrevocably assigns, and transfers to FPL Services all rights, title and interest of FPL in and to (i) the Authorization, a complete, accurate copy (including all amendments and change orders) of which is attached hereto, (ii) all Payments and rights to Payments under the Authorization, (iii) all of the rights and remedies of FPL under the Authorization, (iv) all guarantees given to FPL in respect of the performance by the Government of its obligations under the Authorization, and (v) any and all rights, title and interest of FPL in and to the Authorization to the extent that such rights affect FPL Services' rights, title, interest, or ability to receive any Payments under the Authorization.

3. **Delegation.** FPL hereby delegates all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services and FPL Services hereby assumes all of FPL's duties and obligations under the Authorization with respect to the DSM Work.

4. **SECURITY AGREEMENT.** As security for the prompt performance when due of each obligation of the Government under the Authorization, FPL hereby grants to FPL Services a security interest in and to all of FPL's right, title, and interest in and to (i) the collateral referred to in and covered by the Authorization, which is contained on the list labeled "Included Collateral" attached hereto, and all accessions, accessories, parts, additions and attachments now or hereafter attached thereto or used in connection therewith, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed for the Government pursuant to any agreement other than the Authorization); (ii) all replacements or substitutions of any thereof, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed by the Government pursuant to any agreement other than Authorization); (iii) the Authorization (including all amendments thereto); and (iv) all proceeds of any of the foregoing, hereby granting to FPL Services in the event of any default or non performance of any such obligations when due, all of the rights of a secured party under applicable law, including but not limited to the applicable provision of the Uniform Commercial Code as then in effect.

5. **REPRESENTATIONS AND WARRANTIES OF FPL.** FPL hereby warrants, represents, and covenants as follows:

5.1. FPL has all requisite power and authority to execute and deliver this Assignment and the Authorization and to perform its obligations thereunder and thereunder;

5.2. the execution, delivery and performance of this Assignment and the Authorization have been duly authorized by, or are in accordance with, FPL's organizational instruments;

g:\fpl_serv\data\projects\gen\fpasgmt.doc

46-3
2 p285
17

5.3. this Assignment and the Authorization have been duly executed and delivered by FPL, and this Assignment and the Authorization constitute the legal, valid, and binding obligation of FPL;

5.4. the execution, delivery, and performance of this Assignment and the Authorization will not result in a breach or violation of or constitute a default under, any agreement, lease, or instrument or any judgment, order or writ to which FPL is a party or by which it or its properties may be bound or affected or its organizational instruments;

5.5. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any violation, of any applicable laws, ordinances, regulations, rules, judgment, writ, decrees, awards, permits, or orders which may have a material adverse effect on its ability to perform under this Assignment or the Authorization;

5.6. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any litigation which may have a material adverse effect on its ability to perform under this Assignment or the Authorization; and

5.7. FPL has not transferred, assigned or pledged any of its rights under the Authorization, including, but not limited to, its rights in the Payments to any other party and has not entered into any agreements with other persons or entities regarding any assignments or delegation related to the Authorization, or the rights to receive the Payments under the Authorization.

6. **COVENANTS BY FPL.** FPL hereby covenants to FPL Services that:

6.1. FPL shall execute and deliver any and all documents which may be reasonably requested by FPL Services which serve to clarify, evidence, or implement the provisions of this Assignment:

6.2. FPL will not amend, modify or terminate any provision of the Authorization without the prior written consent of FPL Services:

6.3. FPL has incurred no costs for labor or materials in connection with the DSM Work prior to this Assignment.

7. **ASSIGNMENT BY FPL OR FPL SERVICES.** The provisions of this Assignment shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services and FPL, provided, however, FPL may not assign any of its rights or delegate any of its obligations hereunder without the prior written consent of FPL Services. Any and all representations and/or warranties made by FPL herein shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services. FPL Services or its successors or assigns may, from time to time, without notice to or consent of FPL, sell, assign, transfer or otherwise dispose of all or any part of its rights under this Assignment and in the Payments, provided, however, that such assignment does not otherwise alter the

terms and conditions of this Assignment or expand, enlarge or modify the obligations of FPL hereunder. In such event, each and every immediate and successive purchaser, assignee, transferee or holder of all or any part of FPL Services' rights under this Assignment or the Payments, shall have the right to enforce this Assignment, by legal action or otherwise, for its own benefit as fully as if such purchaser, assignee, transferee or holder were herein by name specifically given such right.

8. **INDEMNITY OF FPL SERVICES.** FPL Services does hereby indemnify and hold harmless FPL and FPL's affiliates (excluding FPL Services and FPL Energy Services, Inc.), their directors, officers, employees and agents from and against all claims, demands, causes of actions, and liabilities for property damage, personal injury, death, defective workmanship, delayed performance, nonperformance, or from and against any other liability arising from the performance or errors or omissions in the performance of the DSM work assigned herein, including the payment of all attorney's fees and costs associated with the defense thereof.

FPL Services may assign its right, title and interest in and to any payments made by the Government pursuant to the Authorization with respect to the DSM Work (the "DSM Payments") to an assignee ("Assignee"), which DSM Payments will be collected by FPL pursuant to the Agreement for Invoicing DSM Service Charges dated as of April 18, 1995 between FPL and FPL Services. FPL hereby (i) consents to such assignment, (ii) agrees to execute and deliver such further acknowledgments, agreements and other instruments as may be reasonably requested by the Assignee to effect such assignments, and (iii) agrees to comply fully with the terms of any such assignment. Upon any such assignment, FPL agrees that the DSM Payments shall not be subject to any abatement, reduction, setoff, defense, counterclaim or recoupment, due or alleged to be due to, or by reason of, any past, present, or future claims which FPL may have against FPL Services or against any person for any reason whatsoever.

9. **CONSIDERATION.** In consideration of this Assignment FPL receives the benefit of reduced peak kW and kWh that will apply towards meeting goals established by the Florida Public Service Commission (FPSC). This is work that would otherwise not have been installed if FPL had not entered into this agreement. In addition, FPL Services will pay FPL \$182.00 for the expenses incurred in obtaining the Authorization.

10. **NO AGENCY.** Under no circumstances shall FPL services be deemed an agent, partner or joint venture of FPL.

11. **GOVERNING LAW.** This Assignment shall be governed by and construed in accordance with the laws of the State of Florida, without regard to principles of conflicts of law.

12. **COUNTERPARTS.** This Agreement may be executed simultaneously in any number of counterparts, each of which counterparts shall be deemed to be an original, and such counterparts shall constitute but one and the same Agreement.

1.2. "DSM Work" shall have the meaning ascribed to such term in the Authorization.

2. **ASSIGNMENT.** FPL hereby irrevocably assigns, and transfers to FPL Services all rights, title and interest of FPL in and to (i) the Authorization, a complete, accurate copy (including all amendments and change orders) of which is attached hereto, (ii) all Payments and rights to Payments under the Authorization, (iii) all of the rights and remedies of FPL under the Authorization, (iv) all guarantees given to FPL in respect of the performance by the Government of its obligations under the Authorization, and (v) any and all rights, title and interest of FPL in and to the Authorization to the extent that such rights affect FPL Services' rights, title, interest, or ability to receive any Payments under the Authorization.

3. **Delegation.** FPL hereby delegates all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services and FPL Services hereby assumes all of FPL's duties and obligations under the Authorization with respect to the DSM Work.

4. **SECURITY AGREEMENT.** As security for the prompt performance when due of each obligation of the Government under the Authorization, FPL hereby grants to FPL Services a security interest in and to all of FPL's right, title, and interest in and to (i) the collateral referred to in and covered by the Authorization, which is contained on the list labeled "Included Collateral" attached hereto, and all accessions, accessories, parts, additions and attachments now or hereafter attached thereto or used in connection therewith, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed for the Government pursuant to any agreement other than the Authorization); (ii) all replacements or substitutions of any thereof, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed by the Government pursuant to any agreement other than Authorization); (iii) the Authorization (including all amendments thereto); and (iv) all proceeds of any of the foregoing, hereby granting to FPL Services in the event of any default or non performance of any such obligations when due, all of the rights of a secured party under applicable law, including but not limited to the applicable provision of the Uniform Commercial Code as then in effect.

5. **REPRESENTATIONS AND WARRANTIES OF FPL.** FPL hereby warrants, represents, and covenants as follows:

5.1. FPL has all requisite power and authority to execute and deliver this Assignment and the Authorization and to perform its obligations thereunder and thereunder;

5.2. the execution, delivery and performance of this Assignment and the Authorization have been duly authorized by, or are in accordance with, FPL's organizational instruments;

C:\fpl_serv\data\projects\lpsn\lplagrnt.doc

463
3 pg 2 of 5
22

5.3. this Assignment and the Authorization have been duly executed and delivered by FPL, and this Assignment and the Authorization constitute the legal, valid, and binding obligation of FPL;

5.4. the execution, delivery, and performance of this Assignment and the Authorization will not result in a breach or violation of or constitute a default under, any agreement, lease, or instrument or any judgment, order or writ to which FPL is a party or by which it or its properties may be bound or affected or its organizational instruments;

5.5. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any violation, of any applicable laws, ordinances, regulations, rules, judgment, writ, decrees, awards, permits, or orders which may have a material adverse effect on its ability to perform under this Assignment or the Authorization;

5.6. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any litigation which may have a material adverse effect on its ability to perform under this Assignment or the Authorization; and

5.7. FPL has not transferred, assigned or pledged any of its rights under the Authorization, including, but not limited to, its rights in the Payments to any other party and has not entered into any agreements with other persons or entities regarding any assignments or delegation related to the Authorization, or the rights to receive the Payments under the Authorization.

6. **COVENANTS BY FPL.** FPL hereby covenants to FPL Services that:

6.1. FPL shall execute and deliver any and all documents which may be reasonably requested by FPL Services which serve to clarify, evidence, or implement the provisions of this Assignment:

6.2. FPL will not amend, modify or terminate any provision of the Authorization without the prior written consent of FPL Services:

6.3. FPL has incurred no costs for labor or materials in connection with the DSM Work prior to this Assignment.

7. **ASSIGNMENT BY FPL OR FPL SERVICES.** The provisions of this Assignment shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services and FPL, provided, however, FPL may not assign any of its rights or delegate any of its obligations hereunder without the prior written consent of FPL Services. Any and all representations and/or warranties made by FPL herein shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services. FPL Services or its successors or assigns may, from time to time, without notice to or consent of FPL, sell, assign, transfer or otherwise dispose of all or any part of its rights under this Assignment and in the Payments, provided, however, that such assignment does not otherwise alter the

g:\fpl_serv\data\p1\docs\gpa\fplogmt.doc

23

terms and conditions of this Assignment or expand, enlarge or modify the obligations of FPL hereunder. In such event, each and every immediate and successive purchaser, assignee, transferee or holder of all or any part of FPL Services' rights under this Assignment or the Payments, shall have the right to enforce this Assignment, by legal action or otherwise, for its own benefit as fully as if such purchaser, assignee, transferee or holder were herein by name specifically given such right.

8. **INDEMNITY OF FPL SERVICES.** FPL Services does hereby indemnify and hold harmless FPL and FPL's affiliates (excluding FPL Services and FPL Energy Services, Inc.), their directors, officers, employees and agents from and against all claims, demands, causes of actions, and liabilities for property damage, personal injury, death, defective workmanship, delayed performance, nonperformance, or from and against any other liability arising from the performance or errors or omissions in the performance of the DSM work assigned herein, including the payment of all attorney's fees and costs associated with the defense thereof.

FPL Services may assign its right, title and interest in and to any payments made by the Government pursuant to the Authorization with respect to the DSM Work (the "DSM Payments") to an assignee ("Assignee"), which DSM Payments will be collected by FPL pursuant to the Agreement for Invoicing DSM Service Charges dated as of April 18, 1995 between FPL and FPL Services. FPL hereby (i) consents to such assignment, (ii) agrees to execute and deliver such further acknowledgments, agreements and other instruments as may be reasonably requested by the Assignee to effect such assignments, and (iii) agrees to comply fully with the terms of any such assignment. Upon any such assignment, FPL agrees that the DSM Payments shall not be subject to any abatement, reduction, setoff, defense, counterclaim or recoupment, due or alleged to be due to, or by reason of, any past, present, or future claims which FPL may have against FPL Services or against any person for any reason whatsoever.

9. **CONSIDERATION.** In consideration of this Assignment FPL receives the benefit of reduced peak kW and kWh that will apply towards meeting goals established by the Florida Public Service Commission (FPSC). This is work that would otherwise not have been installed if FPL had not entered into this agreement. In addition, FPL Services will pay FPL \$ 182.00 for the expenses incurred in obtaining the Authorization.

10. **NO AGENCY.** Under no circumstances shall FPL services be deemed an agent, partner or joint venture of FPL.

11. **GOVERNING LAW.** This Assignment shall be governed by and construed in accordance with the laws of the State of Florida, without regard to principles of conflicts of law.

12. **COUNTERPARTS.** This Agreement may be executed simultaneously in any number of counterparts, each of which counterparts shall be deemed to be an original, and such counterparts shall constitute but one and the same Agreement.

CONFIDENTIAL

ASSIGNMENT AGREEMENT

This assignment agreement (the "Assignment") is dated and effective as of the date of the party signing last in time as indicated in the appropriate signature area below ("Effective Date"), between FPL Services, a general partnership organized under the laws of the State of Florida ("FPL Services") and Florida Power and Light Company ("FPL"), a corporation organized under the laws of the State of Florida.

WHEREAS, FPL and the United State of America, as represented by the General Service Administration (the "Government") have entered into the Negotiated Areawide Contract No. GS-OOP-95-BSD-0005 dated July 25, 1995, as amended (as amended, the "Areawide Agreement") pursuant to which the Government purchases electric services from FPL:

WHEREAS, the Government and FPL have entered into an Authorization For Electric Service, Change in Electric Service, or Disconnection of Electric Service under Contract No. GS-OOP-95-BSD-0005, Exhibit A, dated September 29, 1996 (the "Authorization") for the Federal Building/Courthouse located at 299 Broward 3rd Ave., Ft. Lauderdale for the construction of a lighting project, pursuant to the Areawide Agreement in connection with demand side management work (the "DSM Work") to be provided by FPL; and

WHEREAS, FPL desires to assign all of its rights, title and interest in and to all amounts due or to become due under the Authorization and delegate all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services in accordance with the terms and conditions of the Assignment;

NOW THEREFORE, in consideration of the promises contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto hereby agree as follows:

1. **DEFINITIONS.** When used herein, the terms set forth below shall be defined as follows:

1.1. "Payments" means the right to receive, directly or indirectly, through any mechanism or process of whatever description (including but not limited to payments which FPL is entitled to receive under the Agreement for Invoicing of DSM Service Charges dated April 18, 1995, between FPL and FPL Services,) any funds, payments, or other compensation to be paid by the Government arising out of or related to the Authorization and any of the Government's obligations to make payments under the Authorization and any and all rights and protections afforded to FPL under the Authorization for the receipt of those payments. Expressly excluded from the Payments are any sums due to payable by the Government which are in excess of and do not arise out of the Authorization.

29

1.2. "DSM Work" shall have the meaning ascribed to such term in the Authorization.

2. **ASSIGNMENT.** FPL hereby irrevocably assigns, and transfers to FPL Services all rights, title and interest of FPL in and to (i) the Authorization, a complete, accurate copy (including all amendments and change orders) of which is attached hereto, (ii) all Payments and rights to Payments under the Authorization, (iii) all of the rights and remedies of FPL under the Authorization, (iv) all guarantees given to FPL in respect of the performance by the Government of its obligations under the Authorization, and (v) any and all rights, title and interest of FPL in and to the Authorization to the extent that such rights affect FPL Services' rights, title, interest, or ability to receive any Payments under the Authorization.

3. **Delegation.** FPL hereby delegates all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services and FPL Services hereby assumes all of FPL's duties and obligations under the Authorization with respect to the DSM Work.

4. **SECURITY AGREEMENT.** As security for the prompt performance when due of each obligation of the Government under the Authorization, FPL hereby grants to FPL Services a security interest in and to all of FPL's right, title, and interest in and to (i) the collateral referred to in and covered by the Authorization, which is contained on the list labeled "Included Collateral" attached hereto, and all accessions, accessories, parts, additions and attachments now or hereafter attached thereto or used in connection therewith, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed for the Government pursuant to any agreement other than the Authorization); (ii) all replacements or substitutions of any thereof, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed by the Government pursuant to any agreement other than Authorization); (iii) the Authorization (including all amendments thereto); and (iv) all proceeds of any of the foregoing, hereby granting to FPL Services in the event of any default or non performance of any such obligations when due, all of the rights of a secured party under applicable law, including but not limited to the applicable provision of the Uniform Commercial Code as then in effect.

5. **REPRESENTATIONS AND WARRANTIES OF FPL.** FPL hereby warrants, represents, and covenants as follows:

5.1. FPL has all requisite power and authority to execute and deliver this Assignment and the Authorization and to perform its obligations thereunder and thereunder;

g:\fpl_serv\data\projects\gsa\fpisagmt.doc

5.2. the execution, delivery and performance of this Assignment and the Authorization have been duly authorized by, or are in accordance with, FPL's organizational instruments;

5.3. this Assignment and the Authorization have been duly executed and delivered by FPL, and this Assignment and the Authorization constitute the legal, valid, and binding obligation of FPL;

5.4. the execution, delivery, and performance of this Assignment and the Authorization will not result in a breach or violation of or constitute a default under, any agreement, lease, or instrument or any judgment, order or writ to which FPL is a party or by which it or its properties may be bound or affected or its organizational instruments;

5.5. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any violation, of any applicable laws, ordinances, regulations, rules, judgment, writ, decrees, awards, permits, or orders which may have a material adverse effect on its ability to perform under this Assignment or the Authorization;

5.6. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any litigation which may have a material adverse effect on its ability to perform under this Assignment or the Authorization; and

5.7. FPL has not transferred, assigned or pledged any of its rights under the Authorization, including, but not limited to, its rights in the Payments to any other party and has not entered into any agreements with other persons or entities regarding any assignments or delegation related to the Authorization, or the rights to receive the Payments under the Authorization.

6. **COVENANTS BY FPL.** FPL hereby covenants to FPL Services that:

6.1. FPL shall execute and deliver any and all documents which may be reasonably requested by FPL Services which serve to clarify, evidence, or implement the provisions of this Assignment:

6.2. FPL will not amend, modify or terminate any provision of the Authorization without the prior written consent of FPL Services:

6.3. FPL has incurred no costs for labor or materials in connection with the DSM Work prior to this Assignment.

7. **ASSIGNMENT BY FPL OR FPL SERVICES.** The provisions of this Assignment shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services and FPL, provided, however, FPL may not assign any of its rights or delegate any of its obligations hereunder without the prior written consent of FPL Services. Any and all representations and/or warranties made by FPL herein shall be binding upon and shall

f:\fpl_serv\data\projects\gra\fplesgmt.doc

4 28

inure to the benefit of the successors and assigns of FPL Services. FPL Services or its successors or assigns may, from time to time, without notice to or consent of FPL, sell, assign, transfer or otherwise dispose of all or any part of its rights under this Assignment and in the Payments, provided, however, that such assignment does not otherwise alter the terms and conditions of this Assignment or expand, enlarge or modify the obligations of FPL hereunder. In such event, each and every immediate and successive purchaser, assignee, transferee or holder of all or any part of FPL Services' rights under this Assignment or the Payments, shall have the right to enforce this Assignment, by legal action or otherwise, for its own benefit as fully as if such purchaser, assignee, transferee or holder were herein by name specifically given such right.

8. **INDEMNITY OF FPL SERVICES.** FPL Services does hereby indemnify and hold harmless FPL and FPL's affiliates (excluding FPL Services and FPL Energy Services, Inc.), their directors, officers, employees and agents from and against all claims, demands, causes of actions, and liabilities for property damage, personal injury, death, defective workmanship, delayed performance, nonperformance, or from and against any other liability arising from the performance or errors or omissions in the performance of the DSM work assigned herein, including the payment of all attorney's fees and costs associated with the defense thereof.

FPL Services may assign its right, title and interest in and to any payments made by the Government pursuant to the Authorization with respect to the DSM Work (the "DSM Payments") to an assignee ("Assignee"), which DSM Payments will be collected by FPL pursuant to the Agreement for Invoicing DSM Service Charges dated as of April 18, 1995 between FPL and FPL Services. FPL hereby (i) consents to such assignment, (ii) agrees to execute and deliver such further acknowledgments, agreements and other instruments as may be reasonably requested by the Assignee to effect such assignments, and (iii) agrees to comply fully with the terms of any such assignment. Upon any such assignment, FPL agrees that the DSM Payments shall not be subject to any abatement, reduction, setoff, defense, counterclaim or recoupment, due or alleged to be due to, or by reason of, any past, present, or future claims which FPL may have against FPL Services or against any person for any reason whatsoever.

9. **CONSIDERATION.** In consideration of this Assignment FPL receives the benefit of reduced peak kW and kWh that will apply towards meeting goals established by the Florida Public Service Commission (FPSO). This is work that would otherwise not have been installed if FPL had not entered into this agreement. In addition, FPL Services will pay FPL \$ 182.00 for the expenses incurred in obtaining the Authorization.

10. **NO AGENCY.** Under no circumstances shall FPL services be deemed an agent, partner or joint venture of FPL.

11. **GOVERNING LAW.** This Assignment shall be governed by and construed in accordance with the laws of the State of Florida, without regard to principles of conflicts of law.

1.2. "DSM Work" shall have the meaning ascribed to such term in the Authorization.

2. **ASSIGNMENT.** FPL hereby irrevocably assigns, and transfers to FPL Services all rights, title and interest of FPL in and to (i) the Authorization, a complete, accurate copy (including all amendments and change orders) of which is attached hereto, (ii) all Payments and rights to Payments under the Authorization, (iii) all of the rights and remedies of FPL under the Authorization, (iv) all guarantees given to FPL in respect of the performance by the Government of its obligations under the Authorization, and (v) any and all rights, title and interest of FPL in and to the Authorization to the extent that such rights affect FPL Services' rights, title, interest, or ability to receive any Payments under the Authorization.

3. **Delegation.** FPL hereby delegates all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services and FPL Services hereby assumes all of FPL's duties and obligations under the Authorization with respect to the DSM Work.

4. **SECURITY AGREEMENT.** As security for the prompt performance when due of each obligation of the Government under the Authorization, FPL hereby grants to FPL Services a security interest in and to all of FPL's right, title, and interest in and to (i) the collateral referred to in and covered by the Authorization, which is contained on the list labeled "Included Collateral" attached hereto, and all accessions, accessories, parts, additions and attachments now or hereafter attached thereto or used in connection therewith, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed for the Government pursuant to any agreement other than the Authorization); (ii) all replacements or substitutions of any thereof, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed by the Government pursuant to any agreement other than Authorization); (iii) the Authorization (including all amendments thereto); and (iv) all proceeds of any of the foregoing, hereby granting to FPL Services in the event of any default or non performance of any such obligations when due, all of the rights of a secured party under applicable law, including but not limited to the applicable provision of the Uniform Commercial Code as then in effect.

5. **REPRESENTATIONS AND WARRANTIES OF FPL.** FPL hereby warrants, represents, and covenants as follows:

5.1. FPL has all requisite power and authority to execute and deliver this Assignment and the Authorization and to perform its obligations thereunder and thereunder;

5.2. the execution, delivery and performance of this Assignment and the Authorization have been duly authorized by, or are in accordance with, FPL's organizational instruments;

c:\fpl_serv\data\projects\gma\fplassgmt.doc

46-3
5 p. 2 of 5

32

5.3. this Assignment and the Authorization have been duly executed and delivered by FPL, and this Assignment and the Authorization constitute the legal, valid, and binding obligation of FPL;

5.4. the execution, delivery, and performance of this Assignment and the Authorization will not result in a breach or violation of or constitute a default under, any agreement, lease, or instrument or any judgment, order or writ to which FPL is a party or by which it or its properties may be bound or affected or its organizational instruments;

5.5. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any violation, of any applicable laws, ordinances, regulations, rules, judgment, writ, decrees, awards, permits, or orders which may have a material adverse effect on its ability to perform under this Assignment or the Authorization;

5.6. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any litigation which may have a material adverse effect on its ability to perform under this Assignment or the Authorization; and

5.7. FPL has not transferred, assigned or pledged any of its rights under the Authorization, including, but not limited to, its rights in the Payments to any other party and has not entered into any agreements with other persons or entities regarding any assignments or delegation related to the Authorization, or the rights to receive the Payments under the Authorization.

6. **COVENANTS BY FPL.** FPL hereby covenants to FPL Services that:

6.1. FPL shall execute and deliver any and all documents which may be reasonably requested by FPL Services which serve to clarify, evidence, or implement the provisions of this Assignment:

6.2. FPL will not amend, modify or terminate any provision of the Authorization without the prior written consent of FPL Services:

6.3. FPL has incurred no costs for labor or materials in connection with the DSM Work prior to this Assignment.

7. **ASSIGNMENT BY FPL OR FPL SERVICES.** The provisions of this Assignment shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services and FPL, provided, however, FPL may not assign any of its rights or delegate any of its obligations hereunder without the prior written consent of FPL Services. Any and all representations and/or warranties made by FPL herein shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services. FPL Services or its successors or assigns may, from time to time, without notice to or consent of FPL, sell, assign, transfer or otherwise dispose of all or any part of its rights under this Assignment and in the Payments, provided, however, that such assignment does not otherwise alter the

terms and conditions of this Assignment or expand, enlarge or modify the obligations of FPL hereunder. In such event, each and every immediate and successive purchaser, assignee, transferee or holder of all or any part of FPL Services' rights under this Assignment or the Payments, shall have the right to enforce this Assignment, by legal action or otherwise, for its own benefit as fully as if such purchaser, assignee, transferee or holder were herein by name specifically given such right.

8. **INDEMNITY OF FPL SERVICES.** FPL Services does hereby indemnify and hold harmless FPL and FPL's affiliates (excluding FPL Services and FPL Energy Services, Inc.), their directors, officers, employees and agents from and against all claims, demands, causes of actions, and liabilities for property damage, personal injury, death, defective workmanship, delayed performance, nonperformance, or from and against any other liability arising from the performance or errors or omissions in the performance of the DSM work assigned herein, including the payment of all attorney's fees and costs associated with the defense thereof.

FPL Services may assign its right, title and interest in and to any payments made by the Government pursuant to the Authorization with respect to the DSM Work (the "DSM Payments") to an assignee ("Assignee"), which DSM Payments will be collected by FPL pursuant to the Agreement for Invoicing DSM Service Charges dated as of April 18, 1995 between FPL and FPL Services. FPL hereby (i) consents to such assignment, (ii) agrees to execute and deliver such further acknowledgments, agreements and other instruments as may be reasonably requested by the Assignee to effect such assignments, and (iii) agrees to comply fully with the terms of any such assignment. Upon any such assignment, FPL agrees that the DSM Payments shall not be subject to any abatement, reduction, setoff, defense, counterclaim or recoupment, due or alleged to be due to, or by reason of, any past, present, or future claims which FPL may have against FPL Services or against any person for any reason whatsoever.

9. **CONSIDERATION.** In consideration of this Assignment FPL receives the benefit of reduced peak kW and kWh that will apply towards meeting goals established by the Florida Public Service Commission (FPSC). This is work that would otherwise not have been installed if FPL had not entered into this agreement. In addition, FPL Services will pay FPL \$ 182.00 for the expenses incurred in obtaining the Authorization.

10. **NO AGENCY.** Under no circumstances shall FPL services be deemed an agent, partner or joint venture of FPL.

11. **GOVERNING LAW.** This Assignment shall be governed by and construed in accordance with the laws of the State of Florida, without regard to principles of conflicts of law.

12. **COUNTERPARTS.** This Agreement may be executed simultaneously in any number of counterparts, each of which counterparts shall be deemed to be an original, and such counterparts shall constitute but one and the same Agreement.

2. **ASSIGNMENT.** FPL hereby irrevocably assigns, and transfers to FPL Services all rights, title and interest of FPL in and to (i) the Authorization, a complete, accurate copy (including all amendments and change orders) of which is attached hereto, (ii) all Payments and rights to Payments under the Authorization, (iii) all of the rights and remedies of FPL under the Authorization, (iv) all guarantees given to FPL in respect of the performance by the Government of its obligations under the Authorization, and (v) any and all rights, title and interest of FPL in and to the Authorization to the extent that such rights affect FPL Services' rights, title, interest, or ability to receive any Payments under the Authorization.

3. **Delegation.** FPL hereby delegates all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services and FPL Services hereby assumes all of FPL's duties and obligations under the Authorization with respect to the DSM Work.

4. **SECURITY AGREEMENT.** As security for the prompt performance when due of each obligation of the Government under the Authorization, FPL hereby grants to FPL Services a security interest in and to all of FPL's right, title, and interest in and to (i) the collateral referred to in and covered by the Authorization, which is contained on the list labeled "Included Collateral" attached hereto, and all accessions, accessories, parts, additions and attachments now or hereafter attached thereto or used in connection therewith, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed for the Government pursuant to any agreement other than the Authorization); (ii) all replacements or substitutions of any thereof, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed by the Government pursuant to any agreement other than Authorization); (iii) the Authorization (including all amendments thereto); and (iv) all proceeds of any of the foregoing, hereby granting to FPL Services in the event of any default or non performance of any such obligations when due, all of the rights of a secured party under applicable law, including but not limited to the applicable provision of the Uniform Commercial Code as then in effect.

5. **REPRESENTATIONS AND WARRANTIES OF FPL.** FPL hereby warrants, represents, and covenants as follows:

5.1. FPL has all requisite power and authority to execute and deliver this Assignment and the Authorization and to perform its obligations thereunder and thereunder;

5.2. the execution, delivery and performance of this Assignment and the Authorization have been duly authorized by, or are in accordance with, FPL's organizational instruments;

5.3. this Assignment and the Authorization have been duly executed and delivered by FPL, and this Assignment and the Authorization constitute the legal, valid, and binding obligation of FPL;

5.4. the execution, delivery, and performance of this Assignment and the Authorization will not result in a breach or violation of or constitute a default under, any agreement, lease, or instrument or any judgment, order or writ to which FPL is a party or by which it or its properties may be bound or affected or its organizational instruments;

5.5. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any violation, of any applicable laws, ordinances, regulations, rules, judgment, writ, decrees, awards, permits, or orders which may have a material adverse effect on its ability to perform under this Assignment or the Authorization;

5.6. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any litigation which may have a material adverse effect on its ability to perform under this Assignment or the Authorization; and

5.7. FPL has not transferred, assigned or pledged any of its rights under the Authorization, including, but not limited to, its rights in the Payments to any other party and has not entered into any agreements with other persons or entities regarding any assignments or delegation related to the Authorization, or the rights to receive the Payments under the Authorization.

6. **COVENANTS BY FPL.** FPL hereby covenants to FPL Services that:

6.1. FPL shall execute and deliver any and all documents which may be reasonably requested by FPL Services which serve to clarify, evidence, or implement the provisions of this Assignment:

6.2. FPL will not amend, modify or terminate any provision of the Authorization without the prior written consent of FPL Services:

6.3. FPL has incurred no costs for labor or materials in connection with the DSM Work prior to this Assignment.

7. **ASSIGNMENT BY FPL OR FPL SERVICES.** The provisions of this Assignment shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services and FPL, provided, however, FPL may not assign any of its rights or delegate any of its obligations hereunder without the prior written consent of FPL Services. Any and all representations and/or warranties made by FPL herein shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services. FPL Services or its successors or assigns may, from time to time, without notice to or consent of FPL, sell, assign, transfer or otherwise dispose of all or any part of its rights under this Assignment and in the Payments, provided, however, that such assignment does not otherwise alter the

c:\fpl_serv\data\projects\gsa\fplassgmt.doc

6 P. 3 of 5
38

terms and conditions of this Assignment or expand, enlarge or modify the obligations of FPL hereunder. In such event, each and every immediate and successive purchaser, assignee, transferee or holder of all or any part of FPL Services' rights under this Assignment or the Payments, shall have the right to enforce this Assignment, by legal action or otherwise, for its own benefit as fully as if such purchaser, assignee, transferee or holder were herein by name specifically given such right.

8. **INDEMNITY OF FPL SERVICES**. FPL Services does hereby indemnify and hold harmless FPL and FPL's affiliates (excluding FPL Services and FPL Energy Services, Inc.), their directors, officers, employees and agents from and against all claims, demands, causes of actions, and liabilities for property damage, personal injury, death, defective workmanship, delayed performance, nonperformance, or from and against any other liability arising from the performance or errors or omissions in the performance of the DSM work assigned herein, including the payment of all attorney's fees and costs associated with the defense thereof.

FPL Services may assign its right, title and interest in and to any payments made by the Government pursuant to the Authorization with respect to the DSM Work (the "DSM Payments") to an assignee ("Assignee"), which DSM Payments will be collected by FPL pursuant to the Agreement for Invoicing DSM Service Charges dated as of April 18, 1995 between FPL and FPL Services. FPL hereby (i) consents to such assignment, (ii) agrees to execute and deliver such further acknowledgments, agreements and other instruments as may be reasonably requested by the Assignee to effect such assignments, and (iii) agrees to comply fully with the terms of any such assignment. Upon any such assignment, FPL agrees that the DSM Payments shall not be subject to any abatement, reduction, setoff, defense, counterclaim or recoupment, due or alleged to be due to, or by reason of, any past, present, or future claims which FPL may have against FPL Services or against any person for any reason whatsoever.

9. **CONSIDERATION**. In consideration of this Assignment FPL receives the benefit of reduced peak kW and kWh that will apply towards meeting goals established by the Florida Public Service Commission (FPSC). This is work that would otherwise not have been installed if FPL had not entered into this agreement. In addition, FPL Services will pay FPL \$182.00 for the expenses incurred in obtaining the Authorization.

10. **NO AGENCY**. Under no circumstances shall FPL services be deemed an agent, partner or joint venture of FPL.

11. **GOVERNING LAW**. This Assignment shall be governed by and construed in accordance with the laws of the State of Florida, without regard to principles of conflicts of law.

12. **COUNTERPARTS**. This Agreement may be executed simultaneously in any number of counterparts, each of which counterparts shall be deemed to be an original, and such counterparts shall constitute but one and the same Agreement.

ASSIGNMENT AGREEMENT

This assignment agreement (the "Assignment") is dated and effective as of the date of the party signing last in time as indicated in the appropriate signature area below ("Effective Date"), between FPL Services, a general partnership organized under the laws of the State of Florida ("FPL Services") and Florida Power and Light Company ("FPL"), a corporation organized under the laws of the State of Florida.

WHEREAS, FPL and the United State of America, as represented by the General Service Administration (the "Government") have entered into the Negotiated Areawide Contract No. GS-OOP-95-BSD-0005 dated July 25, 1995, as amended (as amended, the "Areawide Agreement") pursuant to which the Government purchases electric services from FPL:

WHEREAS, the Government and FPL have entered into an Authorization For Electric Service, Change in Electric Service, or Disconnection of Electric Service under Contract No. GS-OOP-95-BSD-0005, Exhibit A, dated April 18, 1997 (the "Authorization"), for additional HVAC work at the Claude D. Pepper Federal Building, Miami, Florida pursuant to the Areawide Agreement in connection with demand side management work (the "DSM Work") to be provided by FPL; and

WHEREAS, FPL desires to assign all of its rights, title and interest in and to all amounts due or to become due under the Authorization and delegate all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services in accordance with the terms and conditions of the Assignment;

NOW THEREFORE, in consideration of the promises contained herein, and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties hereto hereby agree as follows:

1. **DEFINITIONS.** When used herein, the terms set forth below shall be defined as follows:

1.1. "Payments" means the right to receive, directly or indirectly, through any mechanism or process of whatever description (including but not limited to payments which FPL is entitled to receive under the Agreement for Invoicing of DSM Service Charges dated April 18, 1995, between FPL and FPL Services,) any funds, payments, or other compensation to be paid by the Government arising out of or related to the Authorization and any of the Government's obligations to make payments under the Authorization and any and all rights and protections afforded to FPL under the Authorization for the receipt of those payments. Expressly excluded from the Payments are any sums due to payable by the Government which are in excess of and do not arise out of the Authorization.

1.2. "DSM Work" shall have the meaning ascribed to such term in the Authorization.

2. **ASSIGNMENT.** FPL hereby irrevocably assigns, and transfers to FPL Services all rights, title and interest of FPL in and to (i) the Authorization, a complete, accurate copy (including all amendments and change orders) of which is attached hereto, (ii) all Payments and rights to Payments under the Authorization, (iii) all of the rights and remedies of FPL under the Authorization, (iv) all guarantees given to FPL in respect of the performance by the Government of its obligations under the Authorization, and (v) any and all rights, title and interest of FPL in and to the Authorization to the extent that such rights affect FPL Services' rights, title, interest, or ability to receive any Payments under the Authorization.

3. **Delegation.** FPL hereby delegates all responsibilities and obligations which it has under the Authorization with respect to the DSM Work to FPL Services and FPL Services hereby assumes all of FPL's duties and obligations under the Authorization with respect to the DSM Work.

4. **SECURITY AGREEMENT.** As security for the prompt performance when due of each obligation of the Government under the Authorization, FPL hereby grants to FPL Services a security interest in and to all of FPL's right, title, and interest in and to (i) the collateral referred to in and covered by the Authorization, which is contained on the list labeled "Included Collateral" attached hereto, and all accessions, accessories, parts, additions and attachments now or hereafter attached thereto or used in connection therewith, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed for the Government pursuant to any agreement other than the Authorization); (ii) all replacements or substitutions of any thereof, whether now or in the future owned or secured by FPL (with the exception of additional tasks or work performed by the Government pursuant to any agreement other than Authorization); (iii) the Authorization (including all amendments thereto); and (iv) all proceeds of any of the foregoing, hereby granting to FPL Services in the event of any default or non performance of any such obligations when due, all of the rights of a secured party under applicable law, including but not limited to the applicable provision of the Uniform Commercial Code as then in effect.

5. **REPRESENTATIONS AND WARRANTIES OF FPL.** FPL hereby warrants, represents, and covenants as follows:

5.1. FPL has all requisite power and authority to execute and deliver this Assignment and the Authorization and to perform its obligations thereunder and thereunder;

5.2. the execution, delivery and performance of this Assignment and the Authorization have been duly authorized by, or are in accordance with, FPL's organizational instruments;

c:\fpl_serv\data\projects\gms\fploagmt.doc

46-3 p. 2 of 5
7 42

5.3. this Assignment and the Authorization have been duly executed and delivered by FPL, and this Assignment and the Authorization constitute the legal, valid, and binding obligation of FPL;

5.4. the execution, delivery, and performance of this Assignment and the Authorization will not result in a breach or violation of or constitute a default under, any agreement, lease, or instrument or any judgment, order or writ to which FPL is a party or by which it or its properties may be bound or affected or its organizational instruments;

5.5. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any violation, of any applicable laws, ordinances, regulations, rules, judgment, writ, decrees, awards, permits, or orders which may have a material adverse effect on its ability to perform under this Assignment or the Authorization;

5.6. FPL has not received any notice of, nor to the best of its knowledge is there pending or threatened, any litigation which may have a material adverse effect on its ability to perform under this Assignment or the Authorization; and

5.7. FPL has not transferred, assigned or pledged any of its rights under the Authorization, including, but not limited to, its rights in the Payments to any other party and has not entered into any agreements with other persons or entities regarding any assignments or delegation related to the Authorization, or the rights to receive the Payments under the Authorization.

6. **COVENANTS BY FPL.** FPL hereby covenants to FPL Services that:

6.1. FPL shall execute and deliver any and all documents which may be reasonably requested by FPL Services which serve to clarify, evidence, or implement the provisions of this Assignment:

6.2. FPL will not amend, modify or terminate any provision of the Authorization without the prior written consent of FPL Services:

6.3. FPL has incurred no costs for labor or materials in connection with the DSM Work prior to this Assignment.

7. **ASSIGNMENT BY FPL OR FPL SERVICES.** The provisions of this Assignment shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services and FPL, provided, however, FPL may not assign any of its rights or delegate any of its obligations hereunder without the prior written consent of FPL Services. Any and all representations and/or warranties made by FPL herein shall be binding upon and shall inure to the benefit of the successors and assigns of FPL Services. FPL Services or its successors or assigns may, from time to time, without notice to or consent of FPL, sell, assign, transfer or otherwise dispose of all or any part of its rights under this Assignment and in the Payments, provided, however, that such assignment does not otherwise alter the

g:\fpl_serr\data\projects\gas\fpassignment.doc

7 43

terms and conditions of this Assignment or expand, enlarge or modify the obligations of FPL hereunder. In such event, each and every immediate and successive purchaser, assignee, transferee or holder of all or any part of FPL Services' rights under this Assignment or the Payments, shall have the right to enforce this Assignment, by legal action or otherwise, for its own benefit as fully as if such purchaser, assignee, transferee or holder were herein by name specifically given such right.

8. **INDEMNITY OF FPL SERVICES.** FPL Services does hereby indemnify and hold harmless FPL and FPL's affiliates (excluding FPL Services and FPL Energy Services, Inc.), their directors, officers, employees and agents from and against all claims, demands, causes of actions, and liabilities for property damage, personal injury, death, defective workmanship, delayed performance, nonperformance, or from and against any other liability arising from the performance or errors or omissions in the performance of the DSM work assigned herein, including the payment of all attorney's fees and costs associated with the defense thereof.

FPL Services may assign its right, title and interest in and to any payments made by the Government pursuant to the Authorization with respect to the DSM Work (the "DSM Payments") to an assignee ("Assignee"), which DSM Payments will be collected by FPL pursuant to the Agreement for Invoicing DSM Service Charges dated as of April 18, 1995 between FPL and FPL Services. FPL hereby (i) consents to such assignment, (ii) agrees to execute and deliver such further acknowledgments, agreements and other instruments as may be reasonably requested by the Assignee to effect such assignments, and (iii) agrees to comply fully with the terms of any such assignment. Upon any such assignment, FPL agrees that the DSM Payments shall not be subject to any abatement, reduction, setoff, defense, counterclaim or recoupment, due or alleged to be due to, or by reason of, any past, present, or future claims which FPL may have against FPL Services or against any person for any reason whatsoever.

9. **CONSIDERATION.** In consideration of this Assignment FPL receives the benefit of reduced peak kW and kWh that will apply towards meeting goals established by the Florida Public Service Commission (FPSC). This is work that would otherwise not have been installed if FPL had not entered into this agreement. In addition, FPL Services will pay FPL \$182.00 for the expenses incurred in obtaining the Authorization.

10. **NO AGENCY.** Under no circumstances shall FPL services be deemed an agent, partner or joint venture of FPL.

11. **GOVERNING LAW.** This Assignment shall be governed by and construed in accordance with the laws of the State of Florida, without regard to principles of conflicts of law.

12. **COUNTERPARTS.** This Agreement may be executed simultaneously in any number of counterparts, each of which counterparts shall be deemed to be an original, and such counterparts shall constitute but one and the same Agreement.

P 2 B 23

WHO IS MGI?

- . MGI's business is actually two businesses:
design engineering on the front end and actual
installation work on the back side.
- . We do up-front "quick response" value engineering and design work on a consulting basis for standby electrical generator sets, fuel storage tanks, fuel leak detection and monitoring equipment.
- . MGI can design the system and stamp and seal drawings in-house.
- . Complete installation on a turnkey basis.
- . MGI has the following licenses in-house:
 - . General Contracting
 - . Pollutant Storage
 - . Electrical Contracting
 - . Mechanical Contracting
 - . Air Conditioning
 - . Sheet Metal
- . All or most of these are required for Generator installations.

It is usually simpler to the customer if the job is handled "turnkey" by MGI....meaning all the work defined in the scope. To sub-contract portions of this work could be a nightmare with far too much overlap in defining responsibility.

APPLICATIONS

HOW DOES MGI FIT?

- 1) CUSTOMERS WHO NEED STAND-BY POWER ANYWAY BUT COULD NOT AFFORD BEFORE LOAD CONTROL PROGRAM.
- 2) CUSTOMERS WHO DO NOT NEED STANDBY POWER, BUT ARE LOOKING TO INSTALL STANDBY POWER TO TAKE ADVANTAGE OF CILC RATE. (i.e., MAKE MONEY FROM THE RATE).
- 3) CUSTOMERS WHO COULD UP-GRADE EXISTING GENERATORS. (MGI TAKES TRADE IN).
- 4) CUSTOMERS WHO ALREADY HAVE STANDBY GENERATOR THAT HAVE SUFFICIENT POWER TO HANDLE LOADS.
- 5) CUSTOMERS WHO SIGN-UP FOR PROGRAM WHO DO NOT INTEND ON HAVING STAND-BY GENERATOR.

MGI/FPL/CUSTOMER INTERFACE - WHO DOES WHAT?

WHAT DOES FPL WANT?

TO SELL LOAD CONTROL RATE

WHAT DOES MGI WANT?

TO SELL AND TURNKEY INSTALL STANDBY ELECTRICAL POWER SYSTEMS.

WHAT DOES THE CUSTOMER WANT?

- . HOW WILL IT BENEFIT ME?
- . HOW MUCH WILL IT COST?
- . WHO SHOULD I CALL TO GET ANSWERS?
- . QUICK RESPONSE!

HOW DOES MGI FIT?

MGI'S VALUE TO THE CUSTOMER:

- 1) MGI CAN DO ALL UP-FRONT "DESIGN ENGINEERING " OR "BUDGET PRICING". -- QUICK RESPONSE. NO NEED TO CALL IN CONSULTING ENGINEERS.
- 2) MGI CAN INDEPENDENTLY SUPPLY THE "IRON".
- 3) MGI HAS ALL LICENSES TO PULL OWN PERMITS AND INSTALLS GEN-SET AND ALL ASSOCIATED EQUIPMENT.
- 4) MGI TAKES TOTAL RESPONSIBILITY FOR INSTALLATION, RESULTING IN LOWEST TOTAL INSTALLED COST.
- 5) MGI CAN ARRANGE FINANCING (LEASE OR RENTAL) TAILORED TO THE CUSTOMER NEEDS.

STEPS TO SELLING LOAD CONTROL PROGRAM

- A) HOOK-UP CUSTOMER TO MGI
- B) ENGINEERING QUALIFICATION OF SYSTEM. (IF IT IS FEASIBLE ENGINEERING WISE OR FINANCIALLY?)
- C) IF SYSTEM IS FINANCIALLY AND ENGINEERING WISE FEASIBLE, FIND THE CORPORATE DECISION MAKER. START WITH THE FINANCIAL PEOPLE. IF IT DOESN'T MAKE SENSE TO THEM, IT WON'T FLY!!
- D) PURCHASE THE IRON AND INSTALLATION OF EQUIPMENT

PROBLEMS OR QUESTIONS:

- . LOCATION: WHERE TO PLACE NEW UNIT
- . LENGTH OF SPECIAL FPL RATE?
- . ENVIRONMENTAL ISSUES
- . OTHER CHARGES:
 - . MAINTENANCE
 - . DIESEL FUEL COST
- . INSTALLATION COST CAN BE 1/3 TO 1/2 OF EQUIPMENT COST.

SYSTEM INSTALLATION

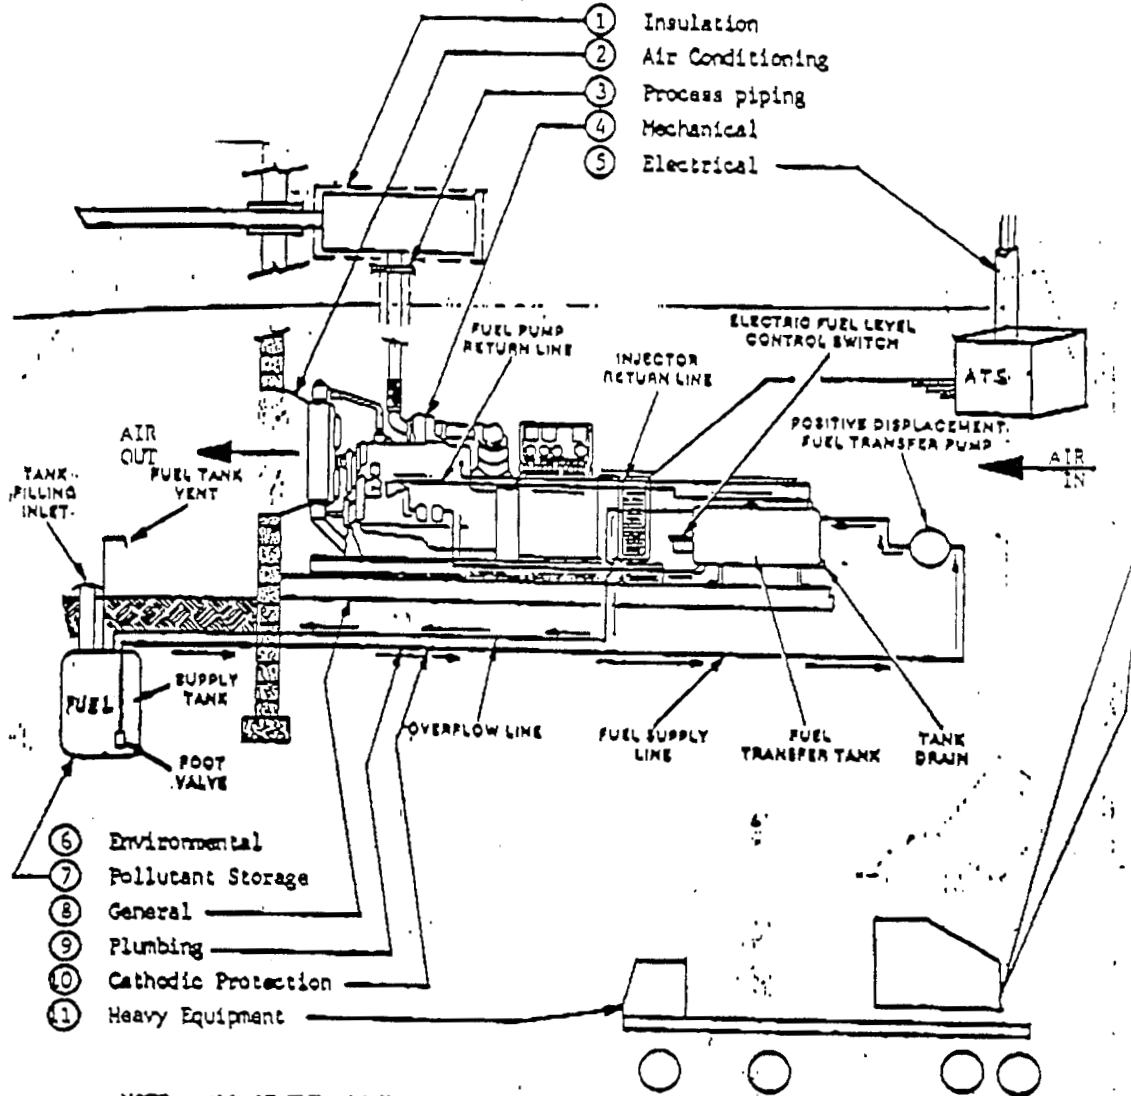

SEVERAL PERMITS REQUIRED TO INSTALL A TURNKEY STANDBY POWER SYSTEM.

TYPICAL GENERATOR INSTALLATION REQUIRES PRECISE COORDINATION AND SCHEDULING OF EACH OF THE FOLLOWING TRADES, JOB SEGMENTS OR CONSIDERATIONS:

- . ENGINEERING, DRAWINGS
- . ENVIRONMENTAL APPROVALS
- . PERMITTING
- . CONCRETE/STRUCTURAL
- . HEAVY EQUIPMENT HANDLING
- . EXHAUST PIPING
- . INSULATION
- . PLUMBING
- . SHEET METAL
- . MECHANICAL
- . ELECTRICAL
- . AIR CONDITIONING
- . LOUVERS
- . POLLUTANT STORAGE (FUEL)
- . AESTHETICS

PERMITS: 5 - 11 REQUIRED, USUALLY UNDER 4 MAJORS:

MECHANICAL, POLLUTANT STORAGE, GENERAL AND ELECTRICAL

NOTE: ALL OF THE ABOVE ARE USUALLY INDIVIDUALLY INSPECTED BY THE LOCAL AUTHORITY HAVING JURISDICTION.

TYPICAL GEN-SET SYSTEM

SCOPE I: ELECTRICAL

Detailed engineering survey, economics, drawings, stamp and seal.

SCOPE II: GEN-SET SYSTEM

Detailed engineering survey, economics, drawings, stamp and seal. System defined as: Gen-set, exhaust, cooling, fuel tank and associated piping, automatic transfer switches.

SCOPE III: GENERATOR INSTALLATION -- 1000 KW

- . Concrete slab poured
- . MGI crew on call for off-loading of new generator
- . Unloading/setting unit onto slab; rigging included
- . Locate, set, and install unit on vibration isolators
- . Exhaust system. Locate silencer, layout, fabricate, and install schedule 40 black piping. Weld and/or flange construction to local and state mechanical code as required to fit enclosure.
- . Fuel plumbing to include piping to engine, vent, plumb to filter.
- . Mount/set automatic transfer switch (s).
- . All travel to site included, material and labor supplied by MGI.
- . Permitting: General contractor, Mechanical, Plumbing, Pollutant Storage, Electrical, Air Conditioning and OCC License by MGI.
- . Appropriate inspections. Call and coordinate.
- . Taxes and normal contractors insurance included.
- . Start-up and checkout of generator/engine.

42-4
CONFIDENTIAL
P. 11/8/23

July 16, 1991

SCOPE IV: FUEL TANK - DIESEL, 2500 GALLON, ABOVE GROUND
WITH CONTAINMENT (16 HOUR OPERATION)

- . MGI crew on call for off-loading of tank equipment.
- . Rigging to unload, locate and set.
- . Locate, set, and install unit.
- . Support saddles
- . Vent
- . All plumbing to engine
- . Appurtenances, valves, etc.
- . Excavation/heavy equipment.
- . Tank containment to D.E.R.M. requirements.
- . Fuel gauge, tank mounted.
- . Removal of soil from excavation of tank containment.
- . All regulatory permitting processes and fees including Environmental, Pollutant, Mechanical and Plumbing.
- . Start-up and checkout generator fuel system.
- . Appropriate inspections. Call and coordinate as required.
- . Taxes and normal contractors insurance included.

SCOPE V: ELECTRICAL HOOK-UP OF GENERATOR AND TRANSFER
SWITCHES

- . Incorporate 1 or 3 new ATS switches per Lakeshore as required.
- . All interconnecting conduit, cable, connections, etc.
- . FPL shutdown. Will require partial or complete shutdowns as required. Note: FPL will bill direct to you for these charges.
- . All travel to site included, material and labor supplied by MGI.
- . Permitting: Electrical by MGI.
- . Appropriate inspections. Call and coordinate as required.
- . Taxes and normal contractors insurance included.

SCOPE VI: ELECTRICAL HOOK-UP OF TRANSFER SWITCHES TO LOAD

- . Incorporate 1 or 3 new ATS switches to load.
- . Move/rewire existing main disconnects and service panels as required.
- . Coordinate with FPL for any vault rewiring.
- . All interconnecting conduit, cable, connections, etc.
- . FPL shutdown. Coordinate partial or complete shutdowns with FPL, as required.
- . All travel to site included, material and labor supplied by MGI.
- . Permitting: Electrical by MGI.
- . Appropriate inspections. Call and coordinate as required.
- . Taxes and normal contractor insurance included.

QUALITY ACTION TEAM

DEVELOP PHASE (CONTD)

TEAM RECOMMENDATIONS

- INSTALL PHILIPS ADVANTAGE X TUBES IN ITF
- ITF SHOULD CHANGE TO TIME OF USE RATES
- GROUP RELAMP OF FACILITIES
- USE NEW INFRARED SWITCHES WITH PHOTOELECTRIC SENSORS IN OFFICES WITH WINDOWS
- DESIGN LIGHTING IN NEW BUILDINGS USING THE PHILIPS BULBS IN A TWO LAMP FIXTURE STANDARD
- ITF SHOULD INSTALL A GENERATOR TO QUALIFY FOR FPL LOAD CONTROL RATE

RALPH HARRIS, GMSD-----FACILITATOR

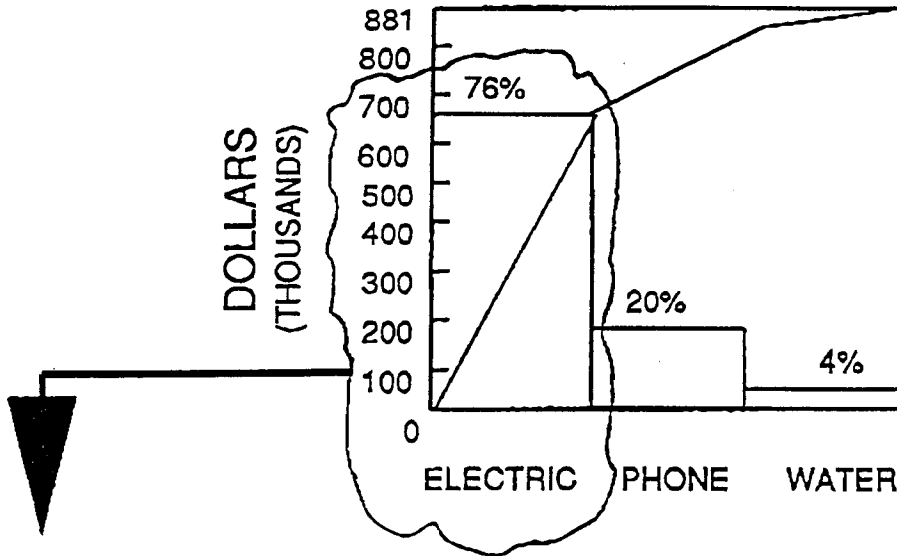

TEAM FORMED: OCTOBER 26, 1989
ACTIVE THROUGH 1993-94

CONFIDENTIAL
CONFIDENTIAL

475
P. 1810

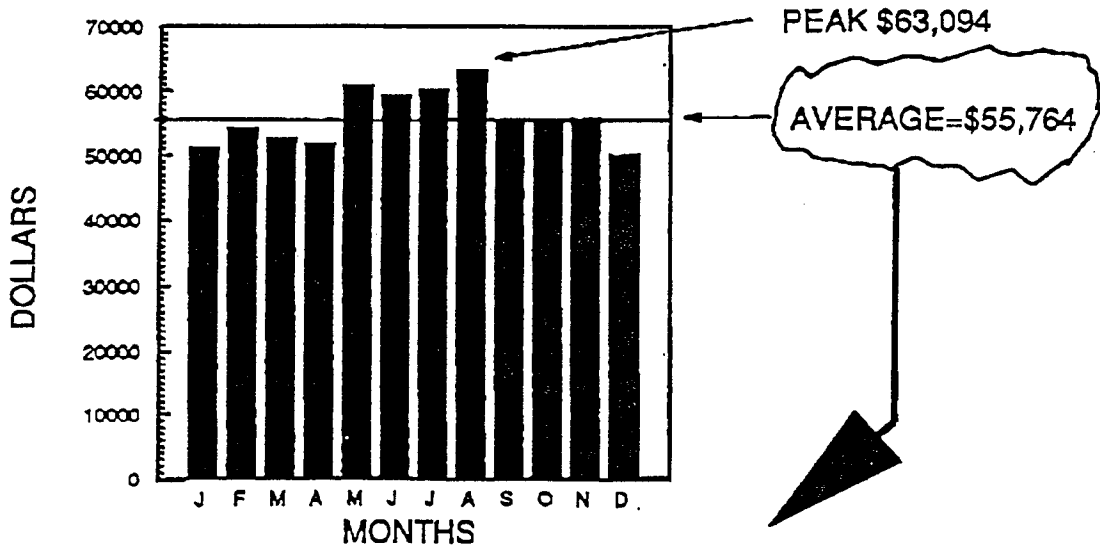

THE TEAM DECIDED TO REVIEW THE UTILITY EXPENSES AT THE ITF BUILDING. THE TEAM FOUND THAT THE TOTAL UTILITY COSTS FOR 1989 WAS \$881,088. THE GRAPH BELOW REPRESENTS LAST YEARS EXPENSES.

GRUMMAN ITF 1989 UTILITY BUDGET **CONFIDENTIAL**

THE GRAPH INDICATES THAT THE ELECTRIC BILL ACCOUNTED FOR 76% (\$669,171) OF EXPENSES FOR 1989. THE TEAM THEN DECIDED THAT THEY SHOULD REVIEW THE ELECTRIC UTILITY EXPENSES. THE BAR GRAPH BELOW REPRESENTS THE MONTHLY ELECTRIC BILLS FOR 1989.

GRUMMAN ITF ELETRIC EXPENSES FOR 1989

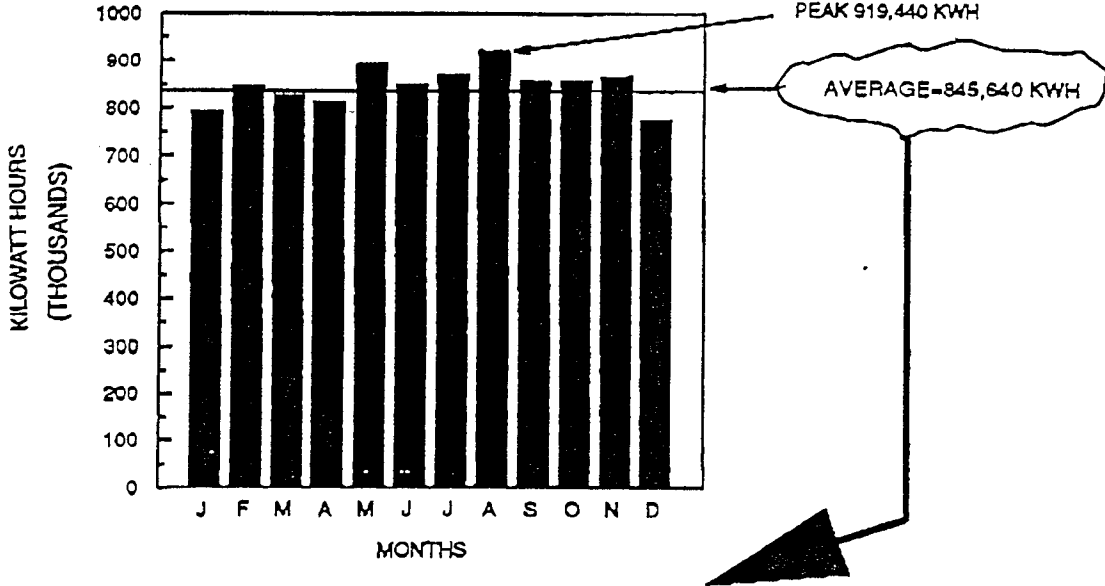

THE ITF AVERAGE ELECTRIC BILL WAS \$55,764 A MONTH. THIS WAS FURTHER ANALYZED IN OUR NEXT STEP.

47-5
28¹⁰

THE TEAM REALIZED THAT THE ELECTRIC BILL VARIED WITH RATES, TAXES AND FUEL ADJ. ETC. THEREFORE, WE DECIDED TO CHART THE 1989 KILOWATT HOURS SO THAT OUR ENERGY CONSERVATION EFFORTS CAN BE MEASURED BY THE AMOUNT OF POWER SAVED.

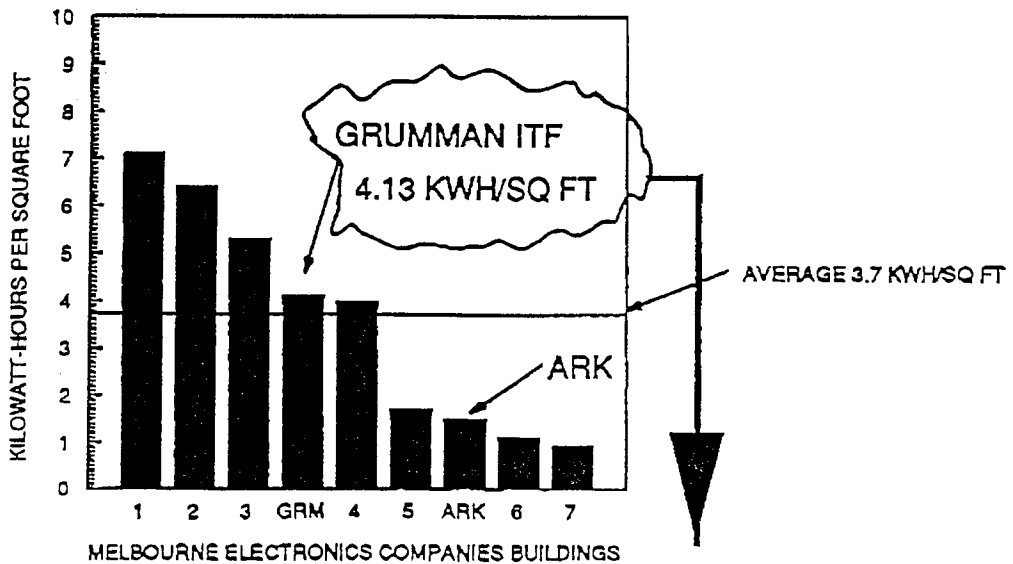

CONFIDENTIAL

GRUMMAN ITF KILOWATT HOURS FOR 1989

THE GRAPH INDICATES THE AVERAGE AMOUNT OF KWH USED IN ONE MONTH FOR 1989 WAS 845,640. THE TEAM THEN DECIDED TO COMPARE GRUMMAN'S KWH USEAGE WITH OTHER ELECTRONIC BUILDINGS IN THE MELBOURNE AREA.

**MELBOURNE ELECTRONIC COMPANIES COMPARISON
KILOWATT HOURS PER SQUARE FOOT**

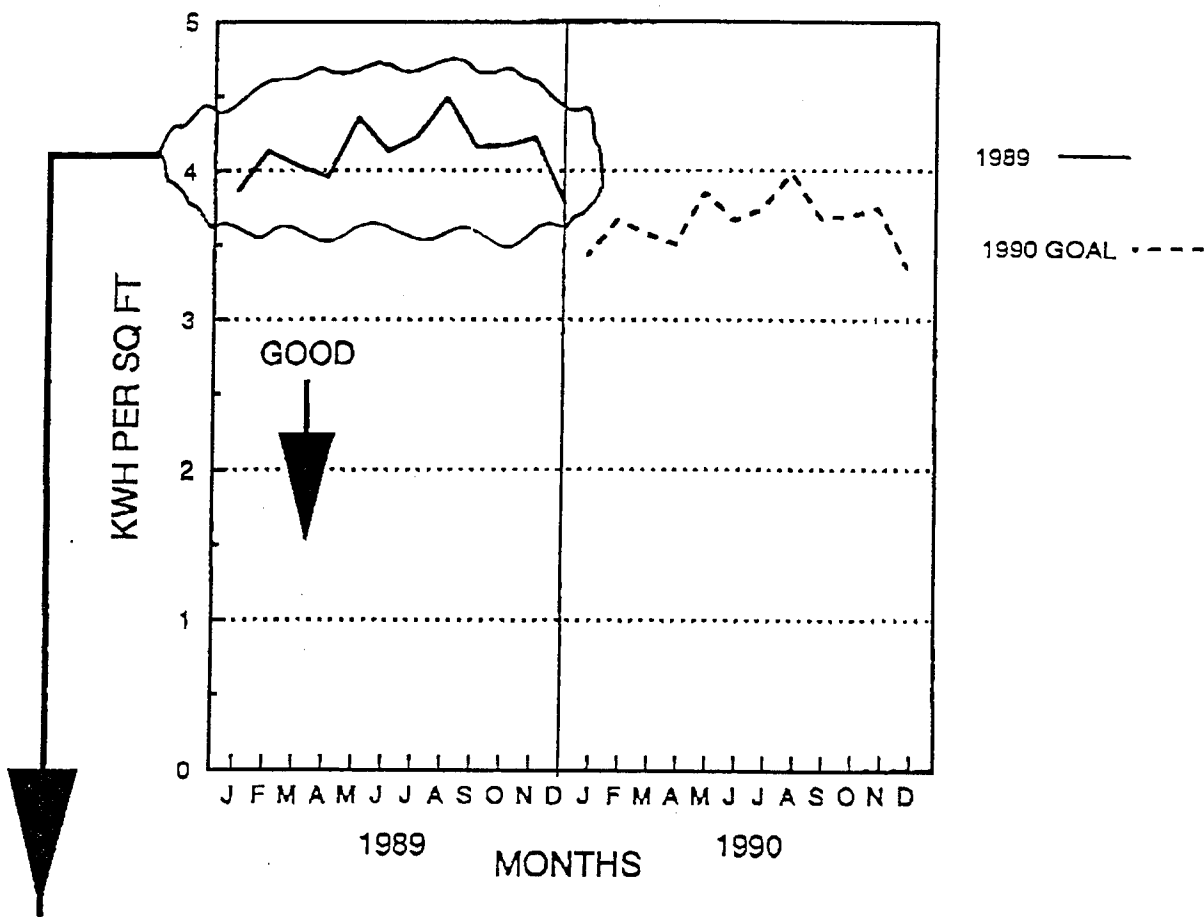

GRUMMANS KWH USEAGE AT THE ITF WAS 11% HIGHER THAN THE HISTORICAL AVERAGE KWH/SQ FT USEAGE. THEREFORE THE TEAM DECIDED TO CONTINUE INVESTIGATING KWH USEAGE AT THE ITF.

47-5
30810

THE TEAM DECIDED TO BREAK DOWN THE KWH USED FOR EACH MONTH INTO KWH/SQ FT TO ANALYZE THE DATA FURTHER.

CONFIDENTIAL

GRUMMAN ITF KWH PER SQ FT

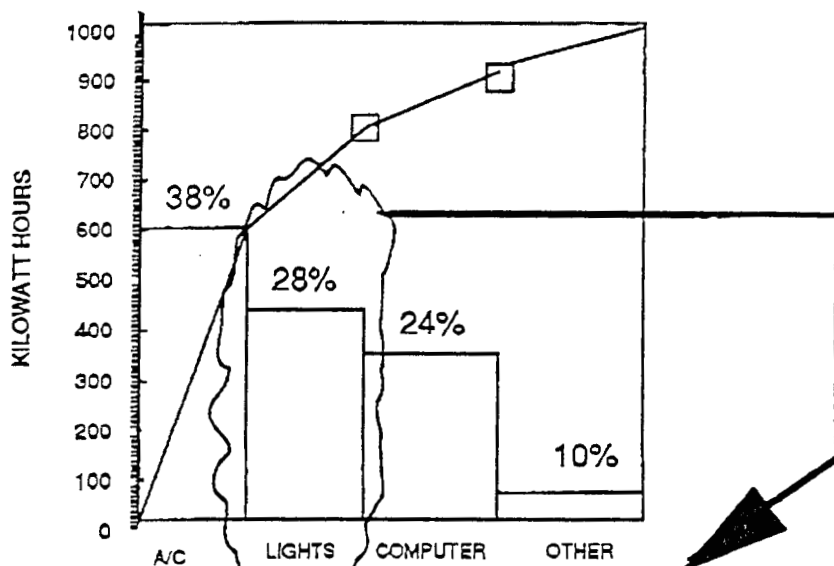

THEREFORE THE TEAMS PROBLEM STATEMENT IS:

THE KWH PER SQ FT AT THE GRUMMAN ITF BUILDING IS 11% HIGHER THAN SIMILAR BUILDINGS, RESULTING IN ELECTRIC COSTS TO BE 76% OF THE UTILITY BUDGET.

47-5
14810

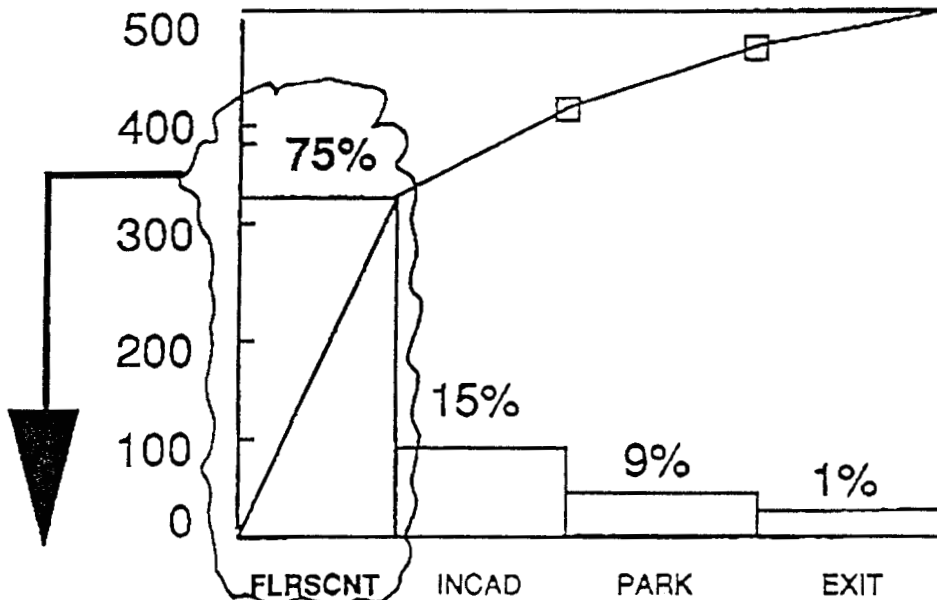

THE TEAM BROKE DOWN THE MAJOR ELECTRICAL COMPONENTS OF THE ITF BY THEIR KWH USAGE.

GRUMMAN ITF ELCTRICAL USEAGE BREAKDOWN

THE GRAPH INDICATES THAT 38% OF THE KWH USED AT THE ITF WAS AIR CONDITIONING. THE TEAM DECIDED THAT THE RECENT FINE TUNING OF THE A/C SYSTEM LEFT LITTLE OPPORTUNITY FOR IMPROVEMENT. THE TEAM THEN DECIDED TO INVESTIGATE THE LIGHTING SYSTEM WHICH USED 28% OF THE MONTHLY KWH.

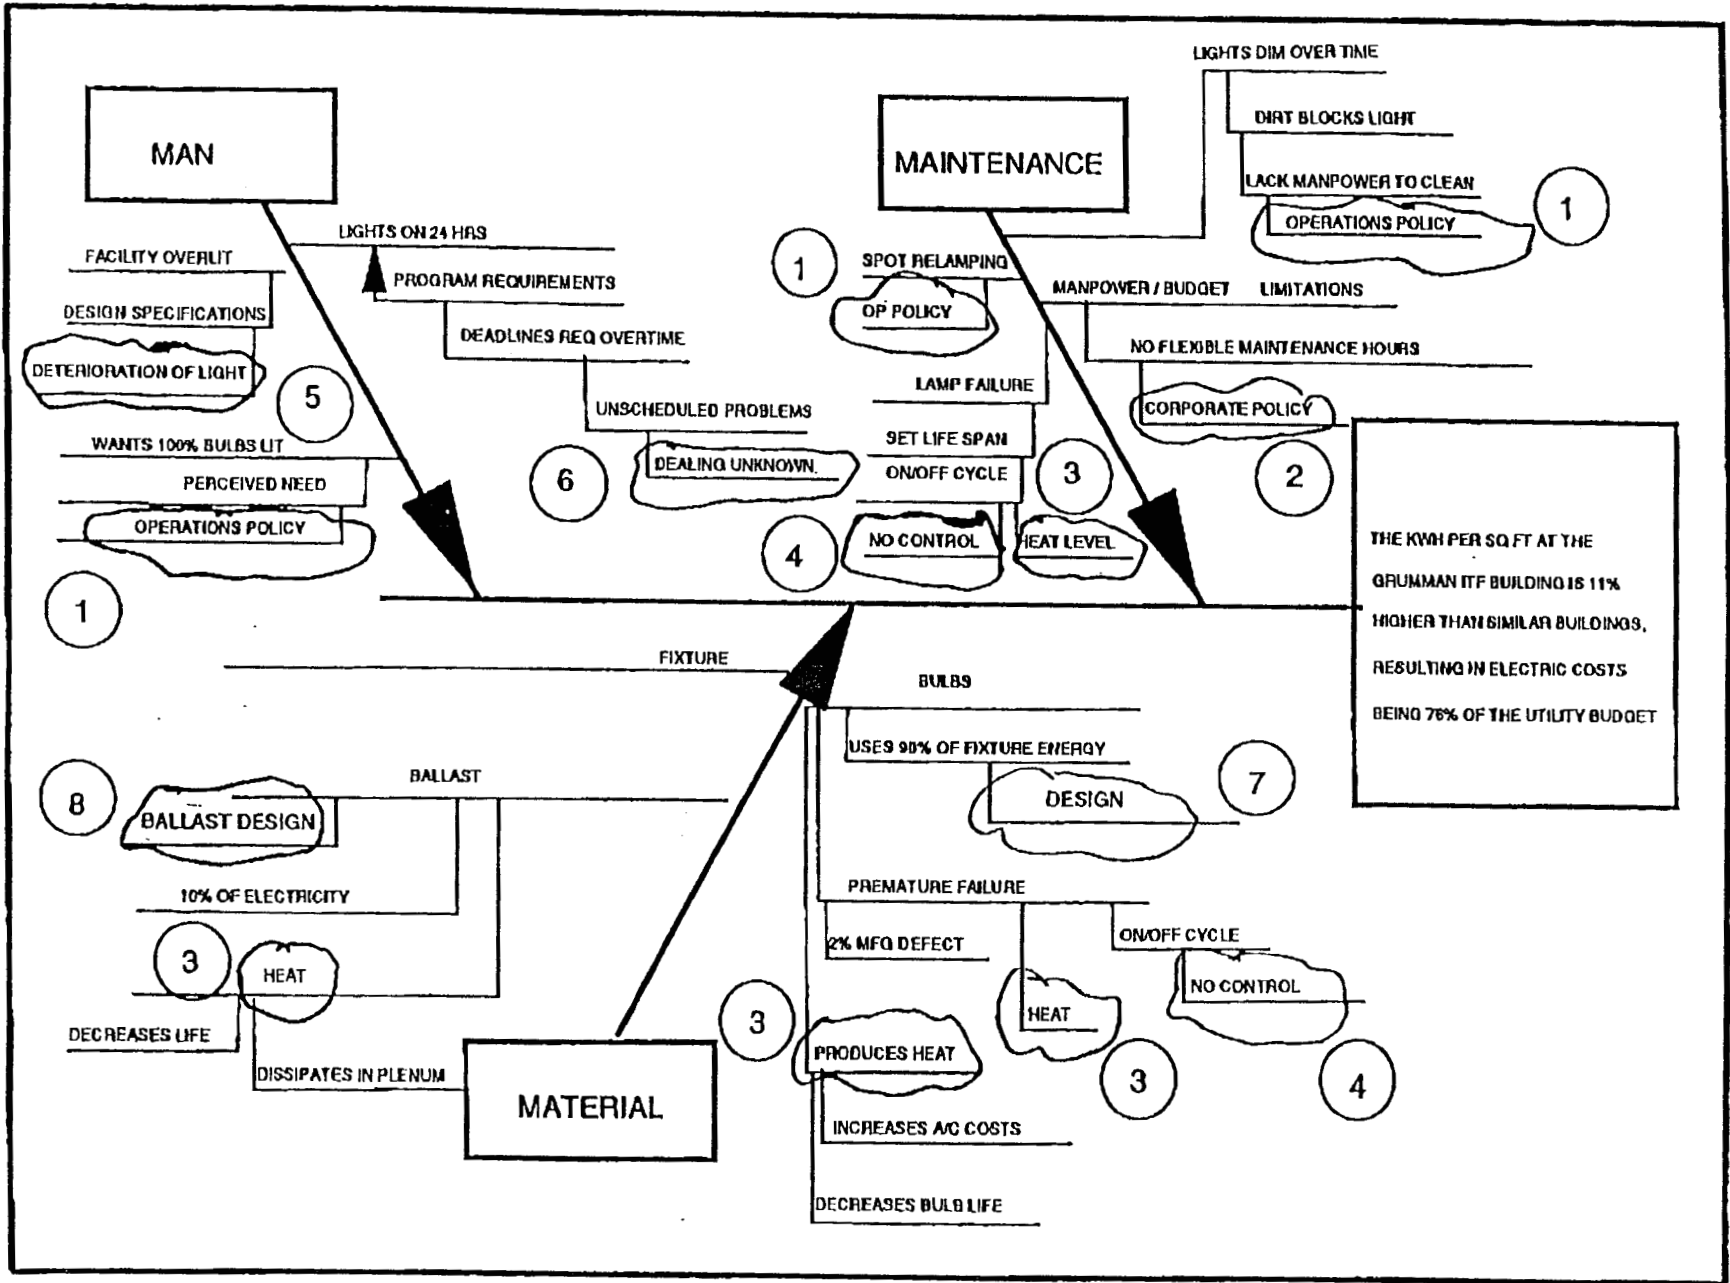

GRUMMAN ITF LIGHTING SYSTEM

THE TEAM DETERMINED THAT 75% OF THE KWH USED BY THE LIGHTING SYSTEM WAS DUE TO THE FLUORESCENT LIGHTS. SO MORE INVESTIGATION WAS NEEDED.

Company: Florida Power and Light
Title: Selection of Vendors and Customers to Survey
TY: 96-97
Auditor: Kathy L. Welch
Date: November 5, 1997
Workpaper #52

Staff reviewed the 1996 and 1997 list of CI Lighting rebates. After discussion with the FPL Services representatives it was determined that FPL Services usually solicits only large customers.

Since the purpose of our questions are to determine if FPL Services received information from Regulated employees, that Services received referrals from regulated, or if regulated employees solicited customers, it would not serve any purpose to question small customers or vendors.

Based on incentives, the largest customers are:

See Section 55 for following

OVERVIEW

I reviewed the files at the Plantation (10/22/97) and at the Margate (10/23/97) offices. There is one sales rep for FPL Energy Services at the ~~Plant~~ Plantation office. His files consist of information about leads. If there is a follow up with a job it is in the Margate office legal files and construction files.

The Margate office files reviewed consisted of the lead files for 96 and 97 and the legal files for 96 and 97. Construction files were not reviewed.

The summary below identifies possible areas for follow up. The areas of possible follow up are: FPL personnel names in FPL Services Files who attended meetings with FPL Services Personnel (P) Correspondence in files from FPI Services to contacts which include cc's to FPL company personnel and other correspondence that involved FPL company personnel and FPL Services personnel (C), authorization for FPL Services to write to FPL Co for load data (A), contract assignments between FPL co and FPL Services (CA), billing histories (B), and (M) misc information.

WP 53-1 and 53-2 are notes taken from the files. Where there are issues, they are noted below with the abbreviation found in the above paragraph

PLANTATION

1. WRC - Presentation on July 10, 1997 (1)

per file in MARGATE this has not yet become an FPL Energy Services Customer. Notes show that the following FPL employees were involved in the presentation

- (P) Oscar Diaz
- Rebecca Chapman

533P/183

July 7, 1997

1 Mr. John K. Scott, RPA
2 Director of Engineering
3 The Hogan Group
4 5200 Blue Lagoon Drive, Suite 400
5 Miami, Florida 33126

6 Dear Mr. Scott:

7 Thank you for the opportunity to meet with you and discuss district cooling. As per your
8 request I am outlining the types of information that is required to estimate the current
9 "total" self cooling cost at a typical Blue Lagoon facility.

9 Self cooling costs are totaled on a per ton-hour (\$/ton-hour) basis and will be made up of
the following elements:

- 10 (1) Facility Cooling Load - Effective Full Load Hours (EFLH), annual effective full
11 load chiller operating hours must be determined as well as estimated typical day
12 and peak day cooling load profiles. In addition, the annual facility ton-hours and
13 the peak cooling tonnage must be estimated. We might be able to estimate this
14 from the electric load data. Typical hours of occupancy will also be required.
- 15 (2) Utility Cost - Includes the cost of electricity with applicable taxes. Estimated full
16 load efficiency of chillers (kW/ton) including cooling tower fan, condenser pump,
17 and auxiliaries if applicable. Again, we can get the utility data for a typical
18 building (5200 Blue Lagoon Dr.). Please provide a description of the HVAC
19 equipment in the smaller "PCA" facilities.
- 20 (3) Operations Cost - This includes the annual cost of operators for the existing
21 cooling plant. Total (fully loaded) operator salary plus benefits multiplier
22 (typically 1.4).
- 23 (4) Water Cost - Chiller cooling towers require the use of makeup water for
24 evaporation and bleed-off (blowdown). Annual water cost includes the cost to
25 acquire, chemically treat and to dispose of tower blowdown to sewer.
- 26 (5) Operations & Maintenance - Annual cost for O&M (labor and materials). This
27 might be an annual service contract with a chiller vendor. In addition to the O&M,
28 annual chiller refurbishment and repair must be quantified.

533p 2003

- 1 (6) Capital Cost - Estimated cost for new chillers, year to be installed, remaining life
2 of existing chillers and estimated replacement cost. Costs are totaled on a present
3 value basis. Financing cost and term of typical loan will be required. We generally
4 assume a 10 year loan at prime plus 2%. Also, we need to estimate the value of
5 freed up floor space if it is typically going to be usable.
- 6 (7) Taxes & Insurance - Total property taxes and insurance for chillers. Typically
7 property taxes are estimated at 1.4% of capital value and insurance 0.3% of
8 capital.
- 9 (8) Operational penalty for cold air distribution - The district cooling system will be
10 providing colder water. The Blue Lagoon can now take advantage of this colder
11 water for better operational savings and humidity control. If properly utilized,
12 colder water will translate into lower pumping and air distribution cost. This
13 lower cost can be effectively quantified as a cost (or penalty). We will work with
14 you to develop this calculation.
- 15 (9) Miscellaneous consumables - refrigerant, oil, fluids, etc. required for chiller
16 operation.
- 17 The sum of all the above will result in an estimate of total self cooling cost. This total
18 cost will be divided by the annual ton-hours to derive the estimated \$/ton-hour.

I hope this gets you started in the right direction and I will be available to assist you in developing these costs.

I have also included a Memorandum of Understanding which defines how we can work together and share information. Please review and if you have question please feel free to contact me at (954) 979-7651. I'll be out of town 7/14-18.

Once again thank you for your participation in this important effort.

Sincerely,

19 Blake B. Morrison
Commercial/Industrial Technical Specialist

3 THE GRAND CONDOMINIUM ASSOC INC
4 1717 N. Bayshore Drive
5 Miami, FL 33132

6 Dear Bob & Al:

Thank you for letting us research the EER rating issue.

7 Charles Webb indicated to me that he had sent the FPL letter faxed to Karen DuBose, dated
8 3/27/96, which makes reference to ratings between 16.2 and 17.5 EER. This was based on
9 information provided by Carlos Gonzalez.

10 He indicated to me that the FPL rebate is determined based on the actual energy efficiency
11 (EER) of the installed units (<250,000 BTU) at ARI conditions, as certified in the ARI manual.
12 For units larger than 250,000 BTUs, the equipment must have factory certification of EER at
13 full load per appropriate ARI standard. The final FPL rebate is determined based on the
14 documentation submitted by the customer and the installed units.

Let me know if you need additional information.

Sincerely,

14 
15 Marco A. Gonzalez

Monday, February 17, 1997

1 Robert E. Smith JR. and
2 Al Soto
3 THE GRAND CONDOMINIUM ASSOC. INC.
4 1717 N. Bayshore Drive
5 Miami, FL 33132

6 Dear Bob and Al:

7 With reference to the EER ratings included in our audit proposal dated 2/7/97, Rex Noble has
8 consulted with Florida Heat Pump, York, and Trane. They all agree with Rex's EER rating estimates.

9 I also consulted with Charles Webb. He also agrees with Rex.

10 The ratings included in the FPL letter faxed to Karen DuBose, dated 3/27/96, talks about ratings between 16.2 and 17.5 EER. However, the letter also indicates that the information was provided to FPL by a manufacturer. There is not information about that manufacturer, nor the FPL person who sent you that letter.

11 Based on this information, we believe the correct ratings are between 10.2 and 11.0 as indicated in our letter dated 2/7/97.

Let us know if you need additional information.

Sincerely,

12

3 Regional Counsel-Law Department
4 500 W. Cypress Creek Road, Suite 370
5 Ft Lauderdale, FL 33309

6 Dear Milton:

7 We are pleased to inform you and to send you a copy of the energy savings "Master
8 Agreement" reached between FPL Services and Hollywood Medical Center on March 21th,
1997. A short presentation of FPL Services is also enclosed.

9 This agreement represents our mutual desire to develop a long term energy partnership which
10 benefits both parties, strategically and financially.

11 The Master Agreement describes the steps to follow to develop energy related projects. It also
12 describes how engineering, financing, guarantees, project and construction management
13 resources are brought to your organization.

As requested by your legal department, the enclosed copy is for your records. You will receive
14 copies of any additional document which becomes part of the Master Agreement.

Feel free to contact me for additional information or questions.

Thank you in advance for your support.

Sincerely,

15 Marco A. Gonzalez
16 Sales Manager

53-5p 2/18/97

OVERALL BUSINESS PLAN:

Why Tenet: Limited in-house resources to manage, implement and evaluate energy related projects.
Have many energy saving projects to be done, except for lighting.
Fit our hospital chain segment strategy (FPL and FPLS).
Signed OMA can be used by FL locations to developed energy projects.

Products: 1) Energy procure 2) Training 4) Dereg update 6) Bill payment 7) Data mgt
8) Ener proj mgt 9) IDS

Potential: Tenet=14? plus OrNda=7? Electrons FPLS
Sales \$7.5 mill \$4.0 mill
GPM 13% 4%
GP 975K 160K

Mission: Tenet Energy Partner within the Florida Region (FL).

Partner: Team member responsible for implementing energy related projects which help achieve Tenet's energy management goals.

Mechanism: Partner will use its own capabilities or bring BIC organizations to complement capabilities.

Contract: OMA, BPA, LTC, alliance or other?.

Approach: Who to contact to achieve mission?
What are their goals and responsibilities?
Who do they work with for advise?
How should they be contacted?
When should they be contacted?

Recognition: Publication, newspapers, executive letter, "Bob Commercial"?

- * Single management responsibility from design to implementation. ✓
- * Rapid and smooth implementation/coordination & knowledge.
- * No interruptions changing system/weekends/one floor Saturday
- * Length of financing= 10 years (7 year pay back).
- * Send copies of documents to OMA designated addresses.

KEY NOTES:

- * Bad experience with Amtech and Pantropic. ✓
- * Barry Pitts (TES?).
- * Limited access to structural drawings.
- * OrNda Healthcorp (TN)=\$3.2 Bill; 50 hosp in 15 states, Charles Martin/CEO.
- * Consequencial damages exposure up to project profits.

MESSAGE:

- * FPLS turnkey approach allowed us to install efficient HVAC systems rapidly, smoothly and with minimum business interruptions. ✓

PROJECTS (BPA):

- * HVAC (chillers, cooling towers, AHU). ✓
- * EMS.
- * TES.
- * UPS (critical areas?).
- * IDS (14 cents/pound).

VSD, Motors

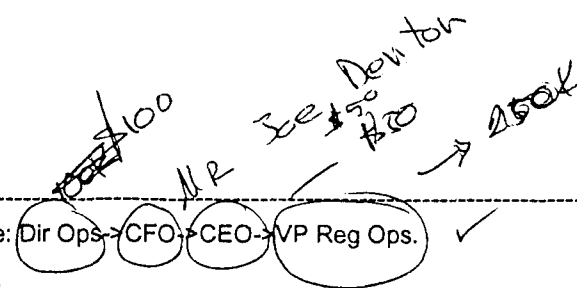

APPROVAL PROCESS:

53-5p4828

APP

4/11/97
3

BIDU

* Depends on project size: Dir Ops -> CFO -> CEO -> VP Reg Ops. ✓

MUTUAL OBJECTIVES:

* Upgrade old technology and reduce O&M under a BPA format. ✓

STATUS OF PROJECT: ✓

* Start OMA process at two Hollywood Medical buildings=IN PROGRESS.
* Determine BPA likelihood and possible strategy to achieve it=NEXT.

* Local=Legal department to review and approve OMA=DONE.
Determine approval process and contacts.
Then, meet with remaining locations.

* Regional=Inform/meet with Michael Jensen to verify how he wants to approach energy (partner?).

* Corporate=Based on local and regional feedback, determine best approach/agenda and resources .

OVERALL BUSINESS PLAN:

Why Tenet: Limited in-house resources to implement and evaluate energy related projects. Have not done a lot of energy saving projects. Fit our hospital chain segment strategy (FPL and FPLS). Signed OMA can be used by FL locations to developed energy projects.

Products: 1) Energy Proc 2) Training 3) Dereg Up 4) Bill Pay 5) Data Mgt
6) Ener Proj Mgt 7) IDS

Potential: Tenet=14 plus OrNda=7 Electrons FPLS

Sales \$7.5 mill \$4.0 mill
GPM 13% 4%
GP 975K 160K

Mission: Tenet Energy Partner within the Florida Region (FL).

Partner: Team member responsible for implementing energy related projects which help achieve Tenet's energy management goals.

Mechanism: Partner will use its own capabilities or bring BIC organizations to complement capabilities.

Contract: OMA.

Approach: Corporate/Regional and Local

PERSONAL GOALS:

- * Most energy efficient location.
- * Limit personal exposure.
- * Implement wish list limited by time.
- * Target payback= 5 years.

ORGANIZATIONAL GOALS:

- * Reduce energy cost.
- * Reduce high O&M of old system.
- * Target payback= 2 years.

REQUIREMENTS:

- * Single management responsibility from design to implementation.
- * Rapid and smooth implementation/coordination & knowledge.
- * Send copies of documents to OMA designated addresses.

KEY NOTES:

- * Energy goal reduction of 2 %.
- * Expanding facility
- * Barry Pitts (TES?).
- * Consequential damages exposure up to project profits.
- * **TRANE:** National Contract being negotiated.
- * **AUDITS:** Energy Investment Inc, 431 Pine Street, Burnington, Vermont 05401, Stephen Booth, P.E.
- * **Expansion:** 18K sqft OR target date to start is June 1997.
- * BFI= \$0.172.

MESSAGE:

- * FPLS turnkey approach allowed us to install efficient systems rapidly, smoothly and with minimum business interruptions.

PROJECTS (BPA):

- * Expansion: Motors, secondary loop, cooling towers, VSD, PQ, EMS, VAV, TES chillers, Non essential load generator (chillers+AHU), vacuum suction systems (IR Exhaust 8), water conservation.

APPROVAL PROCESS:

- * Depends on project size: Dir Ops (\$100)->CFO (\$50K)->CEO (\$50K)->VP Reg Ops (\$250K).

MUTUAL OBJECTIVES:

- * Upgrade old technology and reduce O&M under a BPA format.

STATUS OF PROJECT:

- * Edgardo to prepare audit scope of work and report.
- * Dino sending/faxing water bills.

Dear Senior:

7 We are pleased to inform you and to send you a copy of the energy savings "Master
 8 Agreement" reached between FPL Services and West Boca Medical Center on April 15th,
 1997.

9 This is the same agreement executed by Hollywood Medical Center. It represents our mutual
 10 desire to develop a long term energy partnership which benefits both parties, strategically and
 11 financially.

12 The Master Agreement describes the steps to follow to develop energy related projects. It also
 13 describes how engineering, financing, guarantees, project and construction management
 14 resources are brought to your organization.

As requested by your legal department, the enclosed copy is for your records. You will receive
 15 copies of any additional document which becomes part of the Master Agreement, such as the
 16 enclosed Schedule B.

Feel free to contact me for additional information or questions.

Thank you in advance for your support.

Sincerely,

17 Marco A. Gonzalez
 18 Sales Manager

OVERALL BUSINESS PLAN:

Why Tenet: Limited in-house resources to implement and evaluate energy related projects. Have not done a lot of energy saving projects. Fit our hospital chain segment strategy (FPL and FPLS). Signed OMA can be used by FL locations to developed energy projects.

Products: 1) Energy Proc 2) Training 3) Dereg Up 4) Bill Pay 5) Data Mgt
6) Ener Proj Mgt 7) IDS

Potential: Tenet=14 plus OrNda=7 Electrons FPLS

Sales \$7.5 mill \$4.0 mill
GPM 13% 4%
GP 975K 160K

Mission: Tenet Energy Partner within the Florida Region (FL).

Partner: Team member responsible for implementing energy related projects which help achieve Tenet's energy management goals.

Mechanism: Parter will use its own capabilities or bring BIC organizations to complement capabilities.

Contract: OMA.

Approach: Corporate/Regional and Local

MESSAGE:

* FPL and FPLS improved our building appearance and increase our energy efficient by implementing energy projects that met our selection criteria.

PROJECTS (\$396,700 to \$885,28):

- * CIL (F40).
- * Antiquated HVAC (250 & 40 ton chillers + DX + split systems), boilers.
- * Generator (Old 400kW transfer switch prolems, 1000kW).
- * Electric problems (two voltages 208 and 480V from generators).
- * EMS (fire alarm system AC/DC ?).

APPROVAL PROCESS:

- * Jack Goldstein form a committee (Q=4).
- * A short presentation will be required to the committee.
- * Decison within days.

MUATUAL OBJECTIVES:

- * Find and justify energy related projects that meet the selection criteria.
- * Develop ASAP to reduce interruptions (remodeling in progress).

STATUS OF PROJECT:

- * Work with Jack to present proposal to Jan and clarify process to Joe. Also, to determine next step.
- * The committee seems to be moving to do ECO=1,2,5 and 6 (\$198K). ECO=8 (\$28K) will consider if HVAC is redesigned.
- * Joe seems to want a new HVAC system, but he does not want to pay for it.

CCAS Main Generator Project -- Scope of Audit
December 14, 1995

Project Manager: / Denny George

Support: 2 Brian Hashimoto, Ed Lynch

Peter.
YOUR responsibility
to complete AND
MANAGE.

Scope: • 3 Assist FPL Account Manager in the evaluation of USAF
4 CILC participation.

• 5 Evaluate current TVA option of 2-7000 KW natural gas
6 fired generators that will participate on the CILC
7 Load Control Rate. Estimate cost to install and
8 determine simple payback.

• 9 Evaluate alternate option of quick start diesel
10 generation to participate on the CILC Rate. This
11 option should include a range of generation from
12 approximately 2-3 MW's up to full backup of the
13 North Cape substation. Estimate cost to install and
14 determine simple payback.

• 15 Evaluate estimated costs to tie in all generation to
16 the appropriate load. Will include estimated cost
17 to tie to critical circuit and customer owned North
18 Cape Substation.

• 19 Include from FP&L the cost of the interconnect
20 interface at North, South and Titan Substations.

October 12, 1995

Mr. Kurt Squittier
Assistant Superintendent for Administration
Hendry County School District
475 East Osceola Avenue
Clewiston, FL 33440

Dear Kurt,

Thanks for the opportunity to discuss FPL Services approach to Guaranteed Performance Contracting. Our approach is unique and will allow you start reducing your energy costs immediately.

Per your request, I have reviewed the energy cost and consumption information supplied by Clewiston Utilities, the lamp count and energy reductions supplied by FPL and made a brief walk through of Clewiston Central Elementary. The lighting system is definitely in need of being upgraded. The halls and several of the class rooms appear to need more light. If we replaced the system with T-8 lamps with electronic ballasts the cost would be approximately \$60,000. The annual savings would be approximately \$8,500 which yields a simple payback of 7 years.

Many of the fixtures have lenses that have yellowed which has caused the light levels to deteriorated. An accurate count of these lens should be made and replaced to bring light levels back up to designed levels. This will greatly improve the classroom environment. The cost to replace the lenses will be developed in the feasibility study.

If this is acceptable, I will forward a copy of the agreements for your review. We would then develop a price for a lighting feasibility study to identify the scope of the lighting system changes that should be made and give to you a firm fixed price for construction.

I will call you next week to answer any questions you may have.

Sincerely,

FPL Services

John R. Haney
Area Sales Manager

Inter-Office Correspondence

Inter of Corresp why

TO: Mike Philo
NCL-BV

DATE: August 26, 1996

FROM: N. H. Chau

LOCATION: SPE/JB

SUBJECT: **HOLMES REGIONAL MEDICAL CENTER EMERGENCY/STAND-BY SYSTEM PARALLELING INTERCONNECTION FEASIBILITY** **COPIES TO:** See Distribution below

Per your request in our phone conversation on August 15, 1996, Protection and Control reviewed the feasibility to interconnect the facility two emergency generators to the FPL distribution system, at FPL distribution system voltage 13.8 kV and at the facility distribution voltage 480 volt, and has the following comments for your uses:

The documents reviewed include:

Holmes Regional Medical Center Emergency Standby System single Line Diagrams E-1, sheet 1 through 5, dated 05/28/96.

FPL Distribution Engineering Drawings: Holmes Regional Med. Center North Vault Mat # 0671

FPL Distribution Engineering Drawings: Holmes Regional Med. Center Middle Section Vault Mat # 0670.

FPL Distribution Engineering Drawings: Holmes Regional Med. Center South Section Vault Mat # 0699.

The paralleling operation of the facility generation with FPL system will be for the CI Load Control purpose. It is noted that the customer's intent is to fully isolate the facility load from FPL system during the Load Control period, ie. no power flowing in or out of the facility and that the paralleling operation will provide a soft transfer of the facility load between the power systems without interruption.

It is recommended that the facility generators parallel operation be interconnected to the FPL system at 480 volts and NOT at 13.8 kV based on the followings:

Modification of the vaults to install new back-up isolation devices (fault interrupters) and protective relaying systems which are required for the interconnection paralleling operation, will be complicated and very labor intensive.

- ① This cost can range between \$400,000.00 to \$500,000.00 in magnitude. Furthermore, the 13.8 kV interconnection will be complicate to operate and/or difficult to maintain.

CONFIDENTIAL

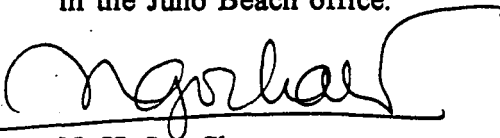

CONFIDENTIAL

53-21 P 1 of 3

It is recommended that additional (new) breakers be added to the facility incoming bus for the interconnection back-up isolation device(s). The interconnection protective relaying equipments will be the same as that used in the 13.8 kV interconnection. However, the interconnection control systems and its operation will be simpler and thus easy to operate and maintain. The cost of the 480 volt interconnection system, including the new three (3) main incoming breakers, is estimated at about half of that of the 13.8 kV system.

Furthermore, it must be noted that the existing facility circuit breakers and buses must be evaluated for short circuit duty with short circuit current contribution from both FPL power system and the facility emergency generation. This is above and beyond the scope of this study. It is assumed that the proposed new incoming circuit breakers can be added without extensive modification of the existing facility.

If you have any question regarding the above subject, please call Joe Chau at (561) 694-4899 in the Juno Beach office.

JFK Meeting Minutes
September 30, 1994

Attendees:

| | | |
|---|-------------------|--------------|
| 2 | Skip Marsh | JFK |
| 3 | Bob Harris | JFK |
| 4 | Bill Dickey | JFK |
| 5 | Jeff Amodie | BGA |
| 6 | Michelle Meisel | BGA |
| 7 | George Caraghiaur | FPL Services |
| 8 | Peter Randolph | FPL Services |
| | John Lehr | FPL |

71

9 George Caraghiaur opened the meeting by explaining that FPL Services has a contract with the hospital to provide technical audits to identify ECOs with paybacks equal to or less than 4.4 years, and that the goal is to use some of the data that has been developed by BGA as well as perform some preliminary calculations to determine if, in fact, the possible ECOs (in aggregate) can be implemented to provide a 4.4 year payback. George explained that for the projects that appear to meet the criteria based on the audit report, FPL Services will provide feasibility studies for the qualifying ECOs and that upon approval by JFK, FPL Services will provide construction and financing for those ECOs.

15 Skip mentioned the ECOs he believes to be beneficial based on past data he has collected from recent studies provided by BGA. They are as follows:

1) Lighting Retrofit- A lighting retrofit has been recommended and was estimated to cost \$154K with approx. \$76K ICP funds available. Jeff Amodie mentioned that the project must be bid by 3 qualified bidders to qualify for the funds. FPL Services will determine what role to have in the project since the remaining costs will be carried over to the total financing package. FPL rebate still needs to be calculated for the lighting. Also, the scope of the lighting may be expanded to include other areas or fixtures.

21 Peter Randolph will review the current plans for the new parking lot in order to determine if there will be rebate dollars available to help fund that project.

22 2) CILC- [redacted] JFK has three generators on site. 1-1500KW, 1-350KW and [redacted] the 250 KW unit is to be removed or de-activated for reliability reasons.

CONFIDENTIAL

23 Skip stated that he would like to go to '0' firm if possible, but will go to 500 or 1000KW firm if needed. We will determine

53-23p1 of 2

CONFIDENTIAL

whether an 800 ton chiller can run on the existing available gensets. The chiller has a soft start now but may require a VSD to ramp up speed slowly reducing the inrush current to the generator. It is known that while performing a load test without the chiller, the load registers between 450 & 500 amperes. It is unlikely that a new larger full load generator will meet the payback criteria. Peter Randolph will contact Mike Whalin of FPL to help with the calculations etc...

Some re-routing of existing wiring will be required to get the cooling towers on the proper emergency circuits.

2 3) Use of excess steam- Skip would like to see whether an absorption chiller can be run from the excess steam produced by the incinerators heat recovery system. Peter will contact Blake Morrison of FPL to get preliminary data and make some assumptions relative to costs and paybacks. This ECO will go to the feasibility stage only if it is evident that the payback is better than 5 to 6 years.

552
3465

5 If steam metering is required, Skip suggested that we contact Mike Malone of Industrial Engineering in Orlando.

4) High efficiency motors- Motors were included in the study performed by BGA. Further evaluation will be made as to which motors will meet the payback criteria. Run hours and sizing need to be computed.

5) Variable Frequency Drives- VFDs will be considered for pump applications only. This ECO will only apply where motors are not changed to high efficiency motors.

8 In summary, Peter Randolph will determine the approach to be taken for each ECO for the audit stage, including who is to perform what work and the criteria to be utilized in all reports.

9 At present, FPL Services plans to provide JFK with an audit report in 3 to 4 weeks.

Fax 305 979-7656

3 Mr. Nelson Tarbox, CEO
4 Director of Engineering Services
5 851 Gulf Shore Boulevard N.
6 Naples, FL 33940

7 Dear Mr. Tarbox:

8 FPL Services is pleased to provide this proposal to the Naples Beach Hotel and Golf Club for the
9 construction of a new chiller plant. We propose a three phase approach in developing a design/build
project. By allowing FPL Services to design/build this project, The Naples Beach Hotel and Golf Club will
have a single source of responsibility and a guaranteed price. We suggest the following phases:

10 Phase 1 - Pre-Design Development Phase - This phase will examine the conceptual study
11 developed by TLC. FPL Services will firm up the savings estimates and preliminary construction
12 cost. During this phase we will work with the Club to develop the Design/Build scope of work.
13 This phase can be offered for a fee of \$7,500. Refer to Schedule C of the contract, previously
14 delivered.

15 Phase 2 - Design Phase - This phase will provide the documents and specifications for
16 construction. We will use the scope of work developed in Phase 1 to design the central chiller
17 plant. At this point, engineering costs will be incurred. This phase of the project can be provided
18 through Schedule D or can be rolled into Schedule E, as part of construction.

19 Phase 3 - Construction - This phase will begin the construction of the project. We will negotiate
20 the construction price with contractors in order to hold down costs and provide on-site
21 construction management. We will coordinate with contractors and utilities during construction.
22 FPL Services will be the single point of contact for the Naples Beach Hotel and Golf Club.

23 We feel this approach will help the club minimize construction costs and deliver a quality project on time
without delays.

We feel that this project, performed under the direction of FPL Services, will provide you with the
following benefits:

- 24 - Complete Design/Build approach providing quicker implementation
- 25 - Single source turn-key project
- 26 - Guaranteed price
- 27 - Reduced cooling costs

CONFIDENTIAL

1 Mr. Nelson Tarbox
2 Director of Engineering Services
Page 2

3 FPL Services will provide The Naples Beach Hotel and Golf Club with a turn-key project which will include the following services:

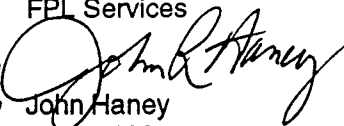

- 4 - Project Development
- 5 - Engineering Design Services
- 6 - Construction Management
- 7 - Interest During Construction (optional, if Naples Beach Hotel and Golf Club pays progress payments, this is not required)
- 8
- 9 - Financing the project on the electric bill (finance charges at competitive rates)

Accurate costs will be provided once more is known of the characteristics of the project, please refer to Attachment 1 for a hypothetical example.

We look forward to hearing from you and having the opportunity to further discuss how FPL Services can provide success on this project. If you have any questions please call me at (954) 979-7661.

Sincerely,

FPL Services

----- Message Contents -----

Billy ,

I'm at GB for a 2 day lighting meeting. Can't quite seem to connect with you on the phone.

3 I would recommend that the hospital consider T8s along with the T10
4 lamps. The lamp cost of the T8 will be quite less than the T10,
5 mostly due to volume. \$2 -\$3 vs \$8-\$10

6 If there is any concern using the electronic ballasts in a hospital environment, they should investigate hybrid ballasts with a T8 lamps.

Kathy

Priority: Normal

1 TO: Rob Risley

2 Subject: Re: T8 vs T10

----- Message Contents -----

I would like to compare the following:

ALL COSTS BELOW DO NOT INCLUDE LABOR

3 -Base Case - T12, 4 (assume 34 w)bulb fixtures, magnetic ballasts

Maintained Lumens (before leaving the fixture) 8023 lumens

4 using 17% light loss in the fixture 6659 lumens

energy 164 watts

5 -Alt one - T10, 2 bulb fixtures, same ballasts, reflectors
6 T10, same system, enough bulbs to maintain light levels

Maintained Lumens (assuming no loss) 6059 lumens

energy 101 watts

7 cost \$10 each lamps; reflector \$25 \$45

8 FOR 3 T10 lamps
maintained lumens 9089 lumens

9 using 17% light loss in fixture 7543 lumens

energy 156 watts

10 cost \$30

concern: spacing of three lamps in existing fixture - would probably need to alter the socket bar for an even distribution.

11 NOTE: T10 LAMPS HAVE A 24,000 HOUR RATE LIFE

12 -Alt two - T8, 2 bulb fixtures, elec ballasts, reflectors(?)

13 T8, same system, again ensuring light levels stay the same

maintained lumen with reflector 4565 lumens

energy 62 watts

14 cost \$2 T8 lamp, \$25 for electronic 2 lamp ballast \$55

15 3 T8S, ELECTRONIC BALLAST WITHOUT REFLECTOR

5 RE: Energy Projects at Manatee Memorial Hospital

6 Dear Mike:

I appreciate you taking the time yesterday to discuss your energy projects with Mark Thomson, FPL Account Manager, and myself. It sounds like you have a number of opportunities to improve the efficiency, reduce maintenance costs, lower energy bills, and enhance the environment within your facilities. Based on our discussion, I believe the services available to you through Florida Power and Light and FPL Services can help you achieve your goals economically, reliably, quickly, and with minimum impact to the services your organization provides to our community.

7 As an example, FPL Services is prepared to provide a turn-key approach to your lighting project.

The benefits to your organization include:

- 8 -in-depth analysis and design of a lighting system that will meet light level requirements, maximize
- 9 available incentives, ensure that the most cost effective of energy efficient products are
- 10 appropriately applied, and ensure that your specific requirements for a uniform, maintainable system
- 11 are applied,
- 12 -a fixed, firm price with no surprises,
- 13 -construction by professional, courteous technicians with accountable project management sensitive
- 14 to the activities of your facility and committed to meeting your schedule,
- 15 -disposal of all environmentally sensitive equipment such as lamps and ballasts,
- 16 -and full project financing based on projected or guaranteed savings.

I have enclosed a generic Master Agreement per our discussion. Please take the time to review this with those folks in your organization that you feel appropriate. I will look forward to meeting with you on August 22 to discuss how to proceed.

Sincerely,

17

Inter - Office Memorandum

1 Date: August 23, 1996
2 To: Ron Stockton/Keith Gasser
From: Tom Richardson
Subject: COGEN INLET AIR COOLING ANALYSIS

3 A review of FPL billing records indicates the Sum of Daily Demand values will be less than the threshold value of 95,211 kw in every month unless the cogen plant is out-of-service at some point in a month. If that occurs, the 95,211 kw value can be exceeded and the 2,000 kw of additional cogen capacity from inlet air cooling would save Daily Demand charges (\$0.486 for each kw saved).

4 A rough guesstimate of the demand \$ savings potential is : 20,000kw/month*6
5 months*\$0.486/kw equals \$58,320 per year.

6 On the energy side of the FPL bill, it is cheaper by roughly \$0.01/kwh to generate
7 than to buy, and the maximum energy cost savings per month would be : 2,000kw*
8 8 on-peak hours/day*21 on-peak days per month*\$0.01/kwh equals \$ 3,360/month;
9 or say \$30,000 per year.

10 Total FPL bill savings by this method are roughly \$90,000 per year. Since the
capital cost of inlet air cooling to give 2,000 kw of additional generation was
11 estimated by Tippmann to be \$855,000, the project is not viable unless FPL grants
12 \$660,000 (\$330/kw). Evaluation by FPL will apparently require the involvement of
their 'head office' people which could jeopardize their consideration of the North
engine room project, so I recommend we shelve cogen inlet air cooling for now.

13 Year 1 - Savings = \$0

14 Year 2 - Savings = \$90,000/year

15 Capital \$ 860,000

16 FPL Grant \$660,000

17 Net Capital \$ 200,000

18 ROI \approx 25%

CONFIDENTIAL

53-29 p4 of 4

Company: Florida Power and Light
Description: Review of the FPL Services Files for Indication of Cross Subsidy
of Information
TYE: 96-97
Auditor: Kathy L. Welch
Date: November 5, 1997
Workpaper #55

Staff reviewed all of the sales files for FPL Services to determine if the files contained any information that would lead us to believe that FPL Services was benefiting from their relationship with FPL Regulated or if they were getting their leads from them.

Staff reviewed the files at the following locations:

- 1 Plantation -Marco Gonzalez by Ruth Young
- 2 Margate-John Haney by Ruth Young
- 3 Brevard-Denny George by Kathy Welch
- 4 Miami-Ed Cancio by Iliana Piedra
- 5 Ft. Myers-Rob Risley by Kathy Welch

We reviewed for the following:

1. To determine the relationship of the space to FPL employees and wherer service employees used regulated equipment and space. See wp 44-1.
2. Reviewed files for contact names and numbers for their customers.
3. Determined FPL regulated contact names for interviews and possible cross-subsidy.
4. Determine if any marketing data or lead data indicated a transfer of information was occurring.
5. Determine if any benefit accruing to Services from reg operations could be found.

Several items were found that caused concern.

1. Services routinely sends out letters that discuss how Services was specifically formed by FPL to meet the energy efficiency needs of its qualifying customers by removing marketing barriers to the implementation of energy efficient projects, that the services provided by Services are a natural extension of FPL's DSM program, and often contain organization charts showing Services as a subsidiary of FPL. Letters were found both before and after 10/96. (Wp 55-5)
- 6 2. One letter sent by Denny George of Services describes FPL Regulated service territory. The letter states "with FP&L having spent \$100 millions on some DSM

programs, I believe that we are uniquely qualified to handle such a high profile effort as the Department of Corrections". This wording could cause the reader to believe they are dealing with the regulated company. (Wp 55-5)

3. The presentation materials used by Services states that Services is owned and managed by Florida Power and Light Company. The materials also state that an independent study commissioned by the Florida Energy Office showed that FP&L is among the nation's leaders in promoting and implementing DSM programs. And that FP&L ranked sixth in total demand and third in total energy savings among utilities nationwide. These statistics appear to relate to the regulated operations but are being used by Services to promote itself. (Wp 55-6)

4. It appears that customers do not see a difference between regulated and Services. Letters from Brevard County discuss making agreements with FPL for demand side management and energy efficient services and granting FP&L authority to bid lighting retrofit projects. (Wp 55-7)

5. One letter from MM. Sturmer in risk management at FP&L regulated tells the School Board of Dade County that Services is a sub of FP&L and is covered under the master casualty and property insurance policies of FP&L.

6. Prior to October 1996, load data was found in the files with no authorization for release of information. According to Denny George, prior to October, the Service reps had full access to the FPL computer data base. (Wp 55-9)

7. E-mail regarding customer information was copied to Marco Gonzalez 8/6/97.

8. According to a contact report by Mr. Gonzalez, the customer was contacted 9/11/97. The referral was attributed to Jocelyn Wright, an FP&L employee who was also copied on the 8/6 e-mail. (Wp 55-10) *The email contained load data - Services did not have authorization to receive it per 55-10/11.*

9. A letter from the Department of Veterans Affairs to Encon Systems telling them why FP&L (not Services) got their contract was in the Services file. However, Services was never copied on the letter. FP&L regulated employee, David Cobb, was copied on the letter. Staff could not determine how the Service employee received the letter. The letter also states that their reason for using FP&L was being able to charge the costs through their utility bill. (55-11)

10. A letter from Michael Wilson to the post office 12/96 discusses a partnering between FPL and the post office. It provides a list of six action items that will be followed up on. Two were assigned to Dave Langley an FPL regulated employee and the rest were assigned to Ed Cancio and FPL Services. It appears that FPL regulated was in charge of the contact and had Services appear at the meeting. (Wp 55-12)

11. A letter from John Nix, a regulated employee, to the Miami Beach Convention Center on 5/8/96 states: "to assist you in evaluating and implementing energy management projects such as TES, FPL has set-up FPL Services. FPL Services is a full

service company which develops, designs, installs, and invests in cost effective energy management projects.

If FPL Energy Services completer turn-key service or part of the service is of interest, I will be pleased to arrange for additional information." (Wp 55-13)

11. A letter from Hector Maestri, a regulated Account Manager, to Metropolitan Dade County on 9/12/95 discusses the services that FPL can provide through its subsidiary. It also states that FPL is the only company that can offer the option to finance the projects by means of a service charge which can be placed directly on the utility bill. (Wp 55-14)

12. In an e-mail 7/10/97, Keith Ponitz, a regulated employee, sets up a meeting with Rob Risley, a Service employee and a Tropicana employee. (Wp55-15)

13. An e-mail from David Smith, a regulate employee, to Rob Risley, a Service employee and Blake Morrison, a regulated employee on 7/11/97, states "The most opportunities lie with this committee and FPL Services is the primary way we can bring the resources to bear on this project for Tropicana." (Wp 55-17)

14. An e-mail from Keith Ponitz, a regulated employee, on 7/10/97 states: " I got the feeling at lunch and throughout the meeting that there east a significant level of ineterest in FPL Services if we could continue to do good things for them." (55-17)

15. A 1/24/97 e-mail to Bill Carlyle and Anne Grealy from Rick Chalker, all regulated employees, discuss a meeting at University of South Florida. During the meeting U of SF asked Services to come back with a proposal. It appears that regulated invited Services. (Wp 55-18)

16. A letter in the internal audit workpapers from Tony Maceo to Jose Vazquez in internal auditing in April 1994 states "A primary advantage to FPL is that the joint venture partner will provide expertise on the operation of an ESCO and the name of FPL will be associated with the projects, thus retaining FPL customers. (Wp 9-2/1)

17. Several meeting minutes indicate that Service employees attend meetings with FPL reps. Interviews with vendors revealed that Regulated reps are not present at their meetings.

The above indicates that FPL Services does benefit from the name and affiliation with Florida Power and Light's regulated operations, that information was being transferred to Service employees from regulated employees and even though load data is no longer being transferred, Service employees are still being given leads to possible customers. Discussion with Service employees also revealed that all were former FPL regulated reps, dealing with many of the customers in the area which would give them knowledge about their customer base that other vendors would not have.

3. When did Denny ^② switch to
Service

4. Swannee Schools - how did you
get info - no req from co
requesting data

5. Didn't find sales lead
sheets

6. Before 10/96 were accessing
computers - Denny ^③

7. No Req. for info before that

October 24, 1997 -

Meeting with FPL Services personnel at the FPL Services office in the GO Building, 9250 Flagler Street, room number 5002. ^① Edward Cancio P.E. , Sales Manager Public Sector.

^② Per Ed Cancio, he has been employed by FPL Services for approximately one year. He was employed by FPL utility prior to his current employment. He was an Account Manager , and started as a Transmission and Distribution Engineer prior to that.

SALES LEAD FILES -

He explained he has no sales lead sheets in the files. He does not fill any paperwork regarding sales leads. His jobs are government oriented. Big jobs , with RFP involvement.

LOAD DATA -

He explained he has never requested any load data directly from the utility. He believes the data has been given to him by the customer and the customer has authorized FPL Services to receive the data.

OBSERVATIONS

^③ Various faxes to Ed Cancio from the DCPS, Dade County Public School System are addressed to FPL Services.

Various letters referring to the City of Hialeah RFP requests addressed to FPL Services. FPL Services did not bid because the City had a lot of restrictions and wanted a lot of help before awarding a bid. Only two contractors bid on the job.

MIA - Miami International Airport. Proposal has been made and is still in the evaluation stage.

City of Miami Beach - All bid documentation addressed to FPL Services, invitation to bid, etc. Did not get the job, Johnson Controls was awarded the bid.

Miami Parking System - letters from Ed Cancio to Danny Rosemond, Directors all reference to FPL Services.

City of North Miami Beach - all correspondence references FPL Services.

^④ Miami Herald - letter to Ed, FPL Services stating they will do the chilled water program in house. Did not pick anyone for job.

Florida Department of Corrections
2601 Blair Stone Road
Tallahassee, Florida 32399-2500

Dear Steve:

I wanted to provide to you the information that you requested concerning the FP&L service territory. While this map does not include those areas in which a small municipality may operate within our service territory, it will give your office an idea of the area that, in general, is served by FP&L.

I would also like to thank you for the opportunity of participating in your search for an energy efficiency contractor. With FP&L having spent \$100 millions on some DSM programs, I believe that we are uniquely qualified to handle such a high profile effort as the Department of Corrections.

Again, thank you for the opportunity and your time. If you need any further information, please do not hesitate to call me at (407) 639-5762.

Sincerely,

FPL Services

RE: Information on Performance Contracting/Energy Management Services

8 Dear Mr. Brown,

9 FPL Services (FPLS) is pleased to present to the Ritz Carlton of Naples information responding to a
10 request for Performance Contracting/Energy Management Services. We commend the Ritz Carlton of
11 Naples for taking a bold step to lower its overall operating costs and improve the efficiency of its
energy systems.

FPLS uniquely offers the technical and financial expertise, and industry leadership to successfully
12 implement the most cost-effective, highest quality energy conservation projects for the Ritz. The keys
to differentiating FPLS are:

- 13 • Our product neutrality. FPL Services is not a product vendor, but a service provider. This
14 objectivity enables us to implement only the best available and most cost-effective technologies for
15 the Ritz.
- 16 • Our financial and technical strength. We believe our technical and financial strength is
17 unmatched in this industry. FPLS will use this strength to identify and successfully implement
18 comprehensive energy management projects that yield the maximum cost reductions and highest
19 returns.
- 20 • Our experience in performance contracting. FPLS was specifically organized to help customers
21 implement energy management performance contracting projects. All of our expertise and
22 experience has been in the field of energy management. We have implemented performance
23 contracts with public and private organizations throughout the State of Florida and the Eastern US.

I look forward to discussing this information further. In the mean time, I can be reached at (941)
24 332-9111.

Sincerely,

25

Corporate Overview and Philosophy

FPL Services is wholly owned and operated by Florida Power and Light Co. and was created to meet the energy efficiency needs of customers by providing financial strength and experience, technical expertise, and industry credibility for implementing energy efficiency projects. FPL Services is positioned to meet and exceed the needs and expectations of the Ritz Carlton Hotel.

FPL Group's Corporate Level Structure

FPL Services is qualified to perform energy management projects with the diligence, technical expertise and management capabilities that customers are seeking. It is licensed to offer professional engineering services in Florida and has a general contractors' license. FPL Services works on a turn-key basis to identify, design, construct, and invest in energy conservation, cost reduction, or facility upgrade opportunities. FPL Services is the energy service provider to some of Florida's largest energy users, including Patrick Air Force Base, Cape Canaveral Air Force Station, Florida Institute of Technology, Harris Corporation, Brevard County, Sarasota County, Embry-Riddle Aeronautical University, North Broward Hospital District, The Federal General Services Administration, and Dade County Public Schools, to name a few.

FPL Services is proud to have been recognized through NAESCO certification for the high technical and operating standards under which it operates.

FPL Energy Services, Inc. approach is simple:

- unbundle projects, such that customers can implement only the energy conservation measures they choose, instead of facing an "all or nothing" decision;

Mr. Richard Malick
Director of Maintenance and Operations
Collier County Public Schools
5702 Cougar Lane
Naples, FL 33942

Dear Mr. Malick,

Re: Energy Efficiency Services

I appreciate you taking the time to allow me to introduce you to FPL Services, Inc.

As we have discussed, FPL Services, Inc. was specifically organized by Florida Power & Light to meet the energy efficiency needs of its qualifying customers by removing market barriers to the implementation of energy efficiency projects. FPL Services, Inc. (FPLS) would be pleased to work on a turn-key basis with the School Board of Collier County to identify, design, construct, and even finance investments in energy conservation, cost reduction, or facility upgrade opportunities. We sincerely believe that this approach is one by which the School Board of Collier County may quickly and efficiently implement energy-related projects and by which Florida Power and Light (FPL) may serve you better.

3 We believe that FPL Services, Inc. offers key, unique ingredients to help with the successful implementation and maximize the benefits of energy-related projects by the School Board of Collier County:

- Florida Power & Light has a long-standing relationship with the School Board. This is especially true in the area of Demand Side Management, where the Board has taken great advantage of FPL's programs. FPLS can help to capitalize on incentives while they are available while maximizing energy savings.

CONFIDENTIAL

5 of 16

55-5

■ The turn-key services offered by FPL Services are a natural extension of FPL's DSM programs, as they were developed to remove barriers to the implementation of DSM programs by FPL's customers. However, any energy-related project contemplated by FPL's customers can be implemented on a turn-key basis by FPL Services.

1 ■ FPL Services' approach ranges from identifying opportunities, to performing
2 feasibility studies in order to define costs and savings and make informed go/no-go
3 decisions to furnishing design & engineering and constructing a project. This means
4 that a customer need only look at FPLS for performance, rather than coordinate and
5 manage a multitude of sub-contractors.

■ FPL Services is not a manufacturer or distributor of equipment and will specify and select equipment purely on merits.

6 ■ FPL Services offers customers many financing options. If a project is expected
7 to generate savings, the debt service can often be set at or below the level of savings.
8 This option not only reduces the need for capital expenditures, but can enable a
9 customer to quickly implement projects which otherwise would take many budget
10 cycles to complete.

I would be pleased to discuss this further with you and if you have any questions,
11 please do not hesitate to call me at (941) 332-9111. In any event, I will call you in the
12 very near future to discuss how we can work toward meeting your energy-related
13 needs.

Your very truly,

14

Re: Energy Conservation with FPL Energy Services

Dear Bill:

It was a pleasure discussing FPL Services with you yesterday on the phone.

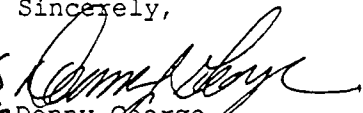

As we discussed, FPL Energy Services, Inc. was specifically organized by Florida Power and Light to meet the energy efficiency needs of its
3 customers by removing market barriers to the implementation of energy
4 projects. FPL Energy Services, Inc. would be pleased to work on a turn-
5 key basis with all state agencies to identify, design, construct and
6 finance --through the utility bill-- investments in energy conservation,
7 cost reduction, or facility upgrade opportunities. We sincerely believe
8 that the approach is one by which the State of Florida may quickly and
efficiently implement energy-related projects and by which Florida Power
and Light may serve you better.

9 To take advantage of this program, the first step is the execution of a
10 Master Agreement which provides the framework for a working relationship
11 and is designed to empower local management and facilities personnel to
12 get projects identified and implemented quickly and efficiently through
13 simple supplements to the Master Agreement.

14 As requested, I have attached a copy of the Master Agreement and a
document describing FPL Services, the execution arm of FPL Energy
Services, Inc.

Bill, I would be pleased to discuss this further with you and if you have
any questions, please do not hesitate to call me at (407) 639-5762. In
any event, I will call you Wednesday afternoon to discuss what steps we
need to take together to meet your energy-related needs.

Sincerely,

15

Dear Sergeant Major Carroll,

Re: Energy Efficiency Services

It was a pleasure meeting you and having an opportunity to share how FPL Services can help you achieve your energy goals.

As we have discussed, FPL Services was specifically organized by Florida Power and Light to meet the energy efficiency needs of its qualifying customers by removing market barriers to the implementation of energy efficiency projects. We sincerely believe that the approach is one by which the Florida National Guard may quickly and efficiently implement energy savings and cost reduction projects and by which Florida Power and Light may serve you better.

While you are revising your energy regulations and awaiting the appointment of an energy director, we would greatly enjoy the opportunity to make a presentation to your management on becoming part of your team to meet your energy and budgetary goals. Jim Cowling or myself will be keeping in touch to ensure that we are available when you decide the timing is appropriate.

Bob, I would be pleased to discuss this further with you and if you have any questions please don't hesitate to call Jim or contact me at (407)639-5787. I hope your hitting 'em long and straight!

Sincerely,

Fax 407 639-5837

Mr. Michael Ashworth
Community Program Administrator
Florida Energy Office
2740 Centerview Drive
Tallahassee, Florida 32399-2100

Dear Michael:

I appreciated the opportunity of introducing you to FPL Services. It was a pleasure meeting you.

Again, FPL Services was organized by Florida Power and Light to meet the energy efficiency needs of our largest customers by removing market barriers to the implementation of energy efficiency projects. FPL Services would be pleased to proceed to work with the Department of Corrections to audit, design, construct and finance --through utility bill savings-- investments in lighting, air conditioning and other energy projects to increase reliability and decrease operating costs. I sincerely believe that the approach is one by which the Department of Corrections may realize substantial benefits and by which Florida Power and Light may better serve.

I can appreciate your efforts to improve the energy efficiency of state facilities and congratulate you on the progress that has been made. However, often projects of this type do not yield the savings that were estimated and customers are not fully satisfied. Given this, FPL Services is best suited to perform this type of work given that we have the greatest stake in its success. Since we do not sell certain products, and that the efficient use of energy is paramount, projects will only move forward if we mutually convince *ourselves* that it is in the best interest of the Department of Corrections and taxpayers.

I look forward to the November 1, 1995 oral presentations for FPL Services to get to know you better, have the opportunity to share fundamental perspectives and concerns about this type of effort, and, from our side, fully determine the benefits that FPL Services can bring to the Department of Corrections. I think that you will find us responsive.

Sincerely,

FPL Services

July 26, 1993

Mr. Nikolas Camejo, C.E.M.
Director, Energy Management Section
Public Works Department
Broward County
115 S. Andrews Ave., Rm 502
Ft. Lauderdale, FL 33301

Dear Nikolas,

It was a pleasure meeting you and Jim Flood to discuss how FPL Energy Services, Inc. can work in partnership with Broward County to accomplish your goals of reducing building energy costs while maintaining and/or improving the quality of services provided to internal customers.

3 The thoughts I expressed in our meeting were based on meeting two goals for the
4 County: One, developing a process which would help convince internal customers
5 of the need to quickly identify and implement energy efficiency projects and which
6 would leverage the skills of the Energy Management Section; and two, establishing
7 a process which would maximize the benefits of performance contracting for the
county.

I believe that the following process would meet these two goals:

- 8 ■ FPL Energy Services and the Energy Management Section would develop
9 what would essentially be an internal County Energy Service Company
10 (CESCO). This CESCO would develop performance contracting projects for
11 internal customers.
- 12 ■ The CESCO would proceed as follows:
 - 13 a) the CESCO would first get buy-in from an internal customer to
14 develop a performance contracting project in a specific facility. It would
15 then perform a walk-thru audit in to identify the scope of potential energy
efficiency projects (if not already performed).

Broward County
Page 2

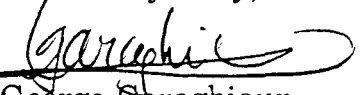

1 b) After determining that the scope of the identified projects could be
2 implemented through performance contracting, the CESCO would proceed
3 to perform a feasibility study of the facility to develop detailed estimates of
4 the potential savings and implementation costs of the project.

5 c) The CESCO would then provide this information to pre-qualified Energy
6 Service Companies who would be asked to submit competitive sealed bids to
7 design, implement and finance on a performance contracting basis the
8 projects identified. If the CESCO decided to use a guaranteed savings
9 approach, for example, the Energy Service Company which would submit
10 the highest guarantee would be selected, other things being equal.

11 As I have explained, FPL Energy Services would agree to accrue the cost of
12 its services and have them capitalized in the total cost of a cost-effective
13 project. In other words, the CESCO would ask performance contractors to
14 include in their bids these as well as other costs which the CESCO would
15 want to capitalize. In that manner, the County gets the benefit of
16 developing projects with no cash outlay and get the maximum benefit from
17 performance contracting (because of the competitive sealed bid process made
18 possible by this proposed approach).

Nikolas, I sincerely believe that the approach is one by which Florida Power and
Light may serve you better. Naturally, there could be a number of variations to
this approach and there would be many details to work out. I would be pleased
to discuss this further with you and to help you and Broward County meet your
94-98 Energy Management Strategic Plan.

Yours very truly,

19

Mayra Diaz-Buttacaroli
Assistant City Manager
City of Miami Beach
1700 Convention Center Drive
Miami Beach, Florida 33139

Re: Miami Beach Convention Center and Jackie Gleason Theater of the Performing Arts

Dear Ms. Diaz-Buttacaroli:

I congratulate you on taking the needed action to reduce the energy consumption in the Miami Beach Convention Center and Jackie Gleason Theater of the Performing Arts by replacing the existing lights with more efficient ones. This action will reduce the cost of electricity and maintenance to the City and mitigate the impact of energy consumption to the environment. The bid opening for the Invitation to Bid No. 144-95/96 is occurring today. This bid is currently funded with your City of Miami Beach Dollars. Although the current plan should save you money in electricity costs, there might be another way to further reduce your monthly electric bill, reduce or eliminate the outlay of your scarce capital dollars, and receive a positive monthly cash flow from your energy costs.

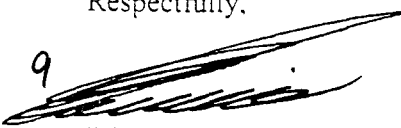

1 At FPL Services, a subsidiary of FPL, we are our customers' energy partners. We apply our technical
2 expertise, management ability, implementation efficiency and financial strength to provide turnkey
3 projects that help our customers manage their energy needs and reduce their electric bills. Where
4 applicable, we have been very successful in helping our customers to pay for energy projects through the
5 savings that result.

6 Like all government officials, you spend your scarce capital and operating dollars trying to meet the
7 needs of the City. Let's explore together how we can help you meet your lighting needs while freeing
some or all of the capital dollars allocated for this project, and obtaining a positive monthly cash flow.

8 Please call me at (305) 552-3308 to discuss this issue. I am looking forward to helping you meet your
needs in this project and in others in the future.

Respectfully,

9

ENERGY CONSERVATION WITH FPL SERVICES

FPL

FPL SERVICES

55-6
P. 1056

Who is FPL Services ?

- Is owned and managed by Florida Power & Light Company
- Organized to remove market barriers to the implementation of DSM projects by commercial and industrial customers
- Initiated a program to provide comprehensive turn-key Energy Efficiency Services
- Single point responsibility for energy related projects
- Utilizes savings to finance "Energy Conservation Opportunities" (ECOs) and cost reduction projects through the utility bill

FPL

FPL SERVICES

Why Energy Conservation with FPL Services ?

- Builds on a long standing relationship of services provided to customers
- Immediate reduction of O&M dollars at your facilities
- Scarce capital dollars can be used for investment to increase market share
- Scarce human resources can be used for day-to-day activities
- The turn-key approach from beginning to end means quick implementation

FPL

FPL SERVICES

WHAT IS FLORIDA POWER & LIGHT'S REPUTATION
FOR OFFERING DEMAND-SIDE MANAGEMENT SERVICES ?

YK

- An independent study commissioned by the Florida Energy Office showed that FP&L is among the nation's leaders in promoting and implementing DSM programs.
- A national survey conducted by Oak Ridge National Laboratory (Department of Energy) ranked FP&L sixth in total demand and third in total energy savings among utilities nationwide.
- The 1993 PACE Ops DSM Benchmarking study named FP&L "best performer" for both residential and commercial/industrial load control, in both cost and impact measures.

FPL

FPL SERVICES

55-6
1/20/06

WHAT ARE THE KEYS TO DIFFERENTIATING FPL SERVICES ?

- **OUR PRODUCT NEUTRALITY.** FPL Services is not a product vendor, but a service provider. This objectivity enables us to implement only the best available and most cost-effective technologies for customers.
- **OUR FINANCIAL AND TECHNICAL STRENGTHS.** We believe our technical and financial strength is unmatched in this industry. FPL Services will use this strength to identify and successfully implement comprehensive energy management projects that yield the maximum cost reductions and highest return on investments.
- **OUR FLEXIBLE FINANCING AND CONVENIENT PAYMENT OPTIONS.** FPL Services is offering customers a flexible financing structure including the ability to pay for energy reduction services through your existing FP&L utility bill.

FPL

FPL SERVICES

4/27
Presentation discusses FPL Relationship to Services
4-5-14

Page 2

How does the FPL Services program work ?

- Signature of Master Agreement
- Audit Report
- Feasibility Study of selected ECOs
- Engineering/Design with joint technical reviews at 35% and 95%
- Construction phase which includes solicitation for bids, installation, verification and acceptance
- Savings and billing

Reg 27 *55-7*

CONFIDENTIAL

October 17, 1996

Jaime G. Torrens
The School Board of Dade County

Re: Energy Services Agreement
FPL Services

Dear Mr. Torrens:

FPL Services is a General Partnership wholly owned by a Florida Power & Light Company (FPL) subsidiary. As such, FPL Services is included as an insured under the master casualty and property policies of FPL. These policies have substantial deductibles, which deductibles are in excess of the requested limits of coverage required under the Energy Services Agreement. FPL does not maintain coverage for Professional Liability.

Due to the above, FPL Services is, in effect, a self insurer. FPL Services is contemplating placing insurance to lessen the deductible. Should this become effective, a certificate of insurance will be issued to the School Board of Dade County depicting the coverage.

A letter of credit will be provided in the required amount. This will be in lieu of a bond.

It is our understanding the above is satisfactory to the School Board of Dade County. Please advise should you have any questions.

Sincerely,

Mr. Rick Chalker
Account Manager
Florida Power & Light Co.
P.O. Box 1119
Sarasota, FL 34230

Dear Mr. Chalker:

FPL Services, Inc. and FPL Energy Services, Inc. are working on behalf of the SW District of the United States Postal Service (USPS) to assist it in energy related matters. The SW District of USPS, by signing below, authorizes Florida Power & Light Co. to provide the billing histories, load profiles and all associated data for all the SW District of USPS' accounts to FPL Services and FPL Energy Services, Inc.

Please send the information to my attention.

Thank you for your help. If you have any questions, please call me at (941) 332-9111.

Respectfully,

3

2 Subject: Reliability Assessment for Seminole Tribe Reservation

----- Message Contents -----

3 Chris, I am conducting a reliability assessment for Seminole Tribe
4 Reservation located at 4150 Stirling Road. This facility is served
5 from Reservation Substation feeder number 703434.

6 At this time I would like to know what are the numbers of the adjacent
feeders to 703434 which would be served from the same bus at
Reservation substation. We need this information to determine how
many sympathetic distribution feeder interruptions could impact this
customer as voltage sags.

Appreciate your help and please let me know what the parallel feeder
numbers are. We would like this information at your earliest
convenience.

Sincerely,

Richard Lopez

2 Subject: Re: Seminole Tribe of Florida 2nd feeder availability

----- Message Contents -----

3 Since the office building is so close to Reservation Substation, a second feed is available along 64 Ave. The emergency feeder would be Feeder 3431 which feed off of a different power transformer.

Please let me know if you have any further questions.

Leo
626-7565

4 _____ Reply Separator _____
Subject: Seminole Tribe of Florida 2nd feeder availability
Author: RICHARD LOPEZ at USFPL103
Date: 8/18/97 9:56 AM

5
6
7
8 Leo, we would like to know what the possibilities of bringing in a second feeder into Seminole Tribe of Florida located at 6300 Stirling Road. The TLN number is 8-7174-4958-0, the LLN number is 8-7174-4860-0-4. The feeder number on SAMS database shows 703434 with a maximum KWD load of 504 KWD. The single feeder is out of Reservation substation.

Please let us know if a second feed is available out of the same substation separate bus or out of a separate substation. How far is the feeder away and is it feasible to bring in.

RE: Lighting Energy Savings

No. Pages including this cover sheet: 1

Dear Ms. Norman:

⑥ This is to confirm my discussion with your Secretary Phyliss Shull, earlier today about my treatment from Mr. Frank Campbell's office pertaining to the opportunity to bid on the lighting retrofit job for your facility at Lake City.

As a business person I would expect that competitive bidding would take place on a job your size. All I ask is the opportunity. We can handle the job cost effectively!!

3 1635 W. University Parkway
4 Sarasota, FL 34243

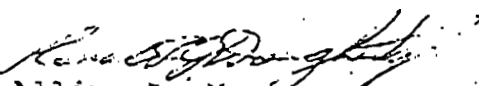

5 Dear Mr. White:

6 I have discussed the contents of your fax dated July 15, 1996,
with Frank Campbell, Chief, Engineering Service. He has
indicated that we entered into a partnership agreement with our
electricity supplier, Florida Power & Light Company, for a
Lighting Feasibility Study, due to the funding arrangements they
have available. The costs for the construction of the lighting
retrofit project will be paid for with calculated savings on our
utility bills. Therefore, no funds will be required to pay for
this construction as it is completed. It will be paid for over a
5-10 year period with the calculated savings. Otherwise, we may
not have been able to proceed with this type of project at this
time due to our limited construction budget.

We apologize for any misunderstanding that may have occurred, and
we encourage you to submit a bid on the construction phase of
this project which will be awarded to the lowest bidder. We will
ensure that you are offered an opportunity to submit a bid on the
construction phase of this project.

7 If you have any further questions concerning this issue, please
contact Frank Campbell, Chief, Engineering Service, at
904-755-3016, extension 2138.

Sincerely yours,

Alline L. Norman
Medical Center Director

Dear Susan:

Based on our conversation of 25th June, I wanted to respond with this letter as a clarification of criteria as we move forward. The issues of clarification are the following:

- 1/ Primary, FPL Services most pressing concern is the situation where the Feasibility Study is completed and, in which, a successful lighting project is identified. However, if for some reason the VA is not able to bring the project to construction, the project would have no savings stream to compensate FPL Services for the completed Feasibility Study. We discussed that this barrier could be overcome by applying the Feasibility Study cost to the existing utility budget (this could be accomplished as a line-item addition to the utility bill)
- 2/
- 3/
- 4/
- 5/
- 6/ Furthermore, as a requirement for producing a project with paybacks that are financable within ten years, the design criteria outlined in the previously provided Audit Report will need to be followed. This Audit detailed a comprehensive approach to the design to ensure that the project produces the effective level of savings without jeopardizing the appropriate light levels.
- 7/
- 8/
- 9/

- 10/ Additionally, we discussed waiting to move into the field until the internal legal review of the "payment agreement" language was completed. However, if the above referenced information is accurate to you, FPL Services is prepared to begin the Feasibility Study early next week. Your receipt and subsequent initials, of this letter will constitute your agreement with the philosophy for moving forward with this effort.
- 11/
- 12/

If you have any questions please feel free to call me at (407) 639-5762.

Sincerely,

FPL Services

RE: Meeting with FPL on November 25, 1996

Dear Mr. Fennewald:

Thank you for your hospitality and lively discussion during our meeting last week in your offices. I appreciate your time and interest in our business relationship. I look forward to many more years of productive partnering between FPL and the Postal Service.

Attached is a list of items that remain outstanding from our meeting. One of those items, FPL single point of contact, has been completed. Your FPL single point of contact will be Dave Langley, (954) 321-2187. Dave will follow up with the appropriate personnel in our organization to deliver the remaining items.

It was a pleasure meeting you. I hope we have a chance to review business opportunities between our organizations again in the future. If there is anything else I might be able to do for you please let me know.

Sincerely,

Michael Wilson

**ACTION ITEMS FROM THE NOVEMBER 25, 1996
FPL/UNITED STATES POSTAL SERVICE MEETING**

1. The USPS requires flexibility in the Lighting Design for the Ft. Lauderdale Energy Showcase project.
① **Assigned to Ed Cancio**
2. The USPS needs more information on high efficiency motors and the FPL Business Custom Incentives Program.
Assigned to Dave Langley
3. FPL to provide a list of Zip Codes in the FPL service territory to Bob Thoensen of the USPS.
② **Assigned to Dave Langley/Ed Cancio**
4. USPS to provide FPL Services with a copy of the USPS "Scope of Agreement" developed for Portland General Electric.
Assigned to FPL Services
5. FPL to create a internal single point of contact for USPS issues/inquiries.
Dave Langley has been designated the FPL single point of contact. He can be reached at (954) 321-2187
6. FPL to provide design assistance for future USPS facilities within the FPL service territory.
Assigned to Dave Langley

Mr. Douglas S. Waters. Jr. P.E.
Energy Management Manager, Southeast Region
United States Postal Service
225 N. Humphreys Blvd.
Memphis, TN 38166-0865

Re: Shared Energy Savings Program

Dear Mr. Waters:

Thank you for giving us the time to introduce ourselves, FPL and FPL Services to the Postal Service Florida Districts/Clusters. I congratulate you on introducing and promoting a program that will reduce the energy consumption, and operating & maintenance costs for the Southeast Region. Based on our discussion, FPL and FPL Services can help the Postal Service meet its energy conservation mandates in the FPL service territory and beyond.

We are very interested in participating in the Shared Energy Services (SES) Program. After contacting the district environmental specialists, we will work with them and your SES team to identify, install and finance energy conservation opportunities that make sense for them and fit well within the SES framework.

Florida Power and Light Co. (FPL) is the third largest investor owned utility in the country. FPL sells more electricity to residential customers than any other utility in the country. Over the past five years FPL has reduced its O&M costs by 27% while having 96% of its residential customers rate it as a good or excellent value. FPL offers many programs and services that the Postal Service can use to reduce its energy consumption and increase its overall productivity.

In addition, FPL Services, a subsidiary of FPL, is uniquely qualified to perform energy management projects for the US Postal Service with the diligence, technical expertise and management capabilities that the Postal Service demands. FPL Services was specifically created to meet the energy efficiency needs of its customers on a turn-key basis. After qualifying a customer, FPL Services works with that customer to identify, design, construct, and finance investments in energy conservation opportunities which allow the customer to realize substantial energy savings. The resulting savings would be used to reimburse FPL Services through the FPL electric bill for the cost of implementing the projects.

55-12
P 2 of 4

The FPL Services approach is simple. We,

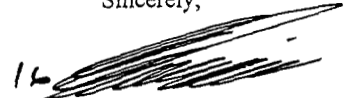

- 1 • Manage your projects on a turn-key basis. Our expertise in managing large complex energy projects optimizes energy efficiencies, minimizes implementation time, and removes headaches for you.
- 2
- 3
- 4 • Remove financial barriers by offering, pending qualification, project financing to you.
- 5 • Bundle or unbundle projects, such that you can implement all or only the energy conservation measures you choose.
- 6
- 7 • Remain product neutral, to ensure that only the best available and most cost effective technologies are recommended. FPL Services is not a product vendor, we are a service provider.
- 8 To that end, we believe in selling you only what you need to maximize efficiency and return on your investment, and to achieve your standardization objectives.
- 9
- 10
- 11 • Supply an iron-clad energy savings guarantee that meets your needs.
- 12 • Provide highly experienced technical expertise to analyze, design and implement your energy projects.
- 13

14 FPL Services is the energy services provider to some of Florida's largest energy users including Patrick Air Force Base, Cape Canaveral Air Force Station, U.S. General Services Administration, U.S. Postal Service, Florida Institute of Technology, Harris Corporation, Brevard County, Sarasota County, Suwannee County School Board, Embry-Riddle Aeronautical University, Palm Beach Atlantic College and Dade County Public Schools. If you would like to speak with some of our most recent local government customers, please call Mary Daniels at (904) 364-2606 in the Suwannee County School Board.

A copy of the handout we presented on March 7, 1997 is included for your use.

If you have any questions, or need more information, please do not hesitate to call me at (305) 552-3308. I look forward to helping the US Postal Service attain its energy conservation and electric consumption reduction goals.

Sincerely,

17 Edward P. Cancio, P.E.

May 8, 1996

Mr. Steve Clark
Director of Operation
Miami Beach Convention Center
1901 Convention Center Dr
Miami Beach, FL 33139

RE: Miami Beach Convention Center
Thermal Energy Storage (TES)
Benefits/Cost Analysis

Dear Mr. Clark:

FPL recommends that a Thermal Energy Ice Storage System be installed as a measure to reduce the Miami Beach Convention Center's cooling cost.

1 The attached benefit/cost analysis indicates that a TES system could provide annual electric savings of
2 \$110,017. The TES installation, which consisted of ice tanks, interconnecting piping, controls, etc., cost
3 is estimated at \$912,500. Deducting FPL's incentive payment of \$297,000 to remove 900 tons from the
FPL's on peak time, results in a net cost of \$615,500. The resulting payback period is 5.6 years.

4 The next step is to enroll the Convention Center in the FPL TES program by signing the attached program participation agreement. This would allow you to proceed with a site-specific feasibility study, to be conducted by a Florida Professional Engineer, and receive up to \$2,500 from FPL. This study would provide a more detail system design, based on the established building cooling load.

To assist you in evaluating and implementing energy management projects such as TES, FPL has set-up FPL Services. FPL Services is a full service company which develops, designs, installs and invests in cost-effective energy management projects.

If FPL Energy Services complete turn-key service or part of the service is of interest, I will be please to arrange for additional information.

If you have any questions, please contact me at (305) 552-3657.

Sincerely yours,

John H. Nix
FPL HVAC Technical Specialist

Mr. Paul Lee
Utilities Manager
Metropolitan Dade County
200 N.W. 1 St.
Miami, Fla. 33134

Subject: FPL's Demand Side Management Services.

Dear Mr. Lee,

This letter is a follow up to our conversations regarding the opportunities that FPL can offer Metro Dade County by implementing Demand Side Management projects on a turnkey basis, FPL, through its subsidiary FPL Services, would take on single point responsibility for implementation of energy conservation and cost reduction opportunities for the County. This includes the financing of said projects that would be determined to be cost effective to implement.

We are uniquely qualified to assess the County's electrical energy needs and make recommendations to maximize efficiencies in its usage. Our 70 years of experience in serving Metro Dade County speaks to that fact.

¹
~~3~~ FPL is the only company that can offer Metro Dade County the option to finance the projects by means of a service charge which can be placed directly on the County's utility bill, and can be set at or below the level of anticipated savings.

FPL is also vendor neutral, we are a service provider, not a manufacturer or distributor of equipment. All materials and services are selected by FPL through a competitive selection process, ensuring its customers the best possible value. We will also ensure that qualified local vendors are given ample opportunities to participate in these projects.

Thank you in advance for the attention that you will give this matter. If you have any questions or concerns please contact me at (305)442-5140.

Sincerely,

Hector J. Maestri

45th SpaceWing
Patrick Air Force Base, Florida 32925-2940

Re: Modification P00060 To Electric Service Contract F0850-79-D-0015

Dear Bob:

As you are aware, Florida Power and Light was approached by the Air Force some two years ago with a request for help in implementing energy efficiency projects. In March of 1993, we received a draft of a proposed contract which outlined the Air Force's request in detail. Florida Power and Light then took the necessary steps to form a subsidiary for which would be the mechanism to get things done. Discussions ensued and culminated in the execution of Modification P00060 on January 21, 1994.

Since the signing of Modification P00060, the Civil Engineering Squadron has worked diligently in an attempt to move this effort forward. However, more questions have arisen from the Contracting Squadron which leads us to believe that the process is not even understood. Therefore, we would like to bow out of the negotiations at this point as the process has become entirely too laborious, time consuming and expensive. As well, we have no appreciation that this process can be moved forward to completion.

Frankly, in the SPARC Team's zealous effort to meet your requirement of having projects completed by the end of your fiscal year, we believe that we are becoming irritating to some of your people. However, our intent was to simply provide you with what we thought you wanted and needed.

We are ultimately confident that this process would have provided you a least-cost method for getting things done but before we will return to the negotiating table we will need the following:

- A meeting with all levels (Lt Col and above) to establish a unified command and direction;
- Our understanding that a legitimate completion schedule will be designed;
- An informed, empowered and authorized SPARC Team under which this project can be managed and moved forward.

55-16
P 1 of 2

Again, we regret that we will be unable to continue in this process. If the 45th SpaceWing is able to regroup and resolve the fractions of commands that exists between individual organizations and you determine that this process is something that is really wanted, we will entertain discussions at that time.

Sincerely,

George Sullivan, Vice President
Florida Power and Light Company

7 Sorry to chime in here late, but was away yesterday. It is important, very important, from my perspective that the process for energy efficiency review is established by/in conjunction with FPL. This is how we can bring value to Tropicana (they said they don't do it now) and bring opportunities to FPL on an on-going basis. This is how this committee ties back into the thrust for an overall energy partnership. Quite frankly, the most opportunities lie with this committee and FPL Services is the primary way we can bring the resources to bear on this project for Tropicana. If we stay focused on this goal, the committee will be successful. I would like to chat.....489-6208.

9 I thought the meeting went real well also. Tom Richardson told me today that he was sorry he didn't get to say goodbye because we had that other meeting to discuss some rates. I got the feeling at lunch and throughout the meeting that there was a significant level of interest in FPL Services if we could continue to do good things for them. }

- 10 I am going to try to set up a meeting for Thursday July 17th at 10:00am. Tom Richardson also told me to make sure to include Jack
- 11 Jost - VP of Asset Management & Steering committee member- in the meeting because they had already discussed yesterday's meeting. I
- 12 will also invite Norris Elswick - Mgr of Capital Planning.

Thanks for coming over. You did an excellent job.

The meeting today between FPL, FPL Services and USF Physical Plant staff went very well. Below are some highlights of the meeting.

4 * USF has a high degree of interest in pursuing a district cooling
5 plant at the Sarasota Campus.

6 USF asked FPL Services to come back with a proposal to include
6 district chiller plant, TES, heat loop, other DSM opportunities.

7 USF is interested in a chaufage project with FPL Services
8 ownership.

9 USF will work internally to select FPL Services as a sole source on
10 this project using FPL as the local utility as the basis for the
11 decision.

FPL Services will respond within one week with a letter and soon afterward with a proposal for the project.

12 * Peoples Gas proposed and performed a cogeneration study at the
13 Tampa Campus in April 1996.

14 Project showed a 5 year payback
15 Project was based solely on heat utilization
16 Peoples Gas backed out of project
17 USF asked TECO to participate, TECO turned the project down

USF has provided a copy of the study to FPL Services to review for accuracy and possible interest

USF has prepared an RFQ and will advertise very soon. The RFQ will be open for any and all DSM projects as well as research technology, water conservation, environmental projects, etc. that submitter wishes to include.

USF encouraged FPL Services to participate

18 * USF is interested in a partnership in fuel cell technology. Stated
19 they will get into this technology. Anne, need FPL response to this
20 request.

21 * USF wants partnership with its Engineering School for education and
22 research especially relating to the cogen plant..

23 * USF wants to convert vehicle fleet to alternative gas or electric.

24 * USF's "energy partner" will most likely be used for all energy
25 projects on the St. Petersburg Campus also.

26 ***I would like to thank Denny George and Rob Risley of FPL Services,

Re: Meeting on January 24, 1997

Dear Adrian:

Many thanks to you, Seva and Nainan for meeting with FPL and FPL Services on Friday. You were most generous with your time.

Your open and candid approach to the needs and wants of USF was very educational and beneficial to the discussion. USF has many opportunities for demand side management (DSM) and energy conservation projects which we would like to assist the University in accomplishing. The cogeneration report Nainan provided is already under review.

USF
9008

Your interest in fuel cell technology and other research projects are indicative of a very progressive approach to the future in an era of deregulation and open competition in the energy industry. FPL has not been waiting for competition to drive our partnership with customers. Rather, this approach started many years ago and continues to grow driven by the need to reduce customer demand and costs and new opportunities created by technological advances.

Partnering to provide educational training as a direct product of DSM, such as with the cogen system, photovoltaics and fuel cell technology, is very beneficial to both parties as well as the community and state. FPL has been active in this arena for almost 75 years and was recognized as a Partner in Education by the University of South Florida in 1996 for past contributions.

We will be responding to the various issues discussed at our meeting in the very near future. Should you need anything in the interim, please do not hesitate to contact me.

Very Truly Yours,

Rick Chalker, C.E.M.
Major Accounts Manager,
Government and Educational Customer Services

Mr. David Malet, P.E.
Supervisor, Energy Management Projects
Dade County Public Schools
1450 N.E. 2nd Avenue
Miami FL 33132

Dear David:

I enjoyed meeting you and discussing with you the energy conservation benefits that FPL Services will provide upon the execution of the contract.

FPL Services is pleased to submit the enclosed Energy Services Agreement Schedules and Exhibits. I hope that our effort to reduce the volume of paper while maintaining all the necessary information meets your needs.

FPL Services intends to provide Dade County Public Schools with the necessary instrument to provide the Guaranteed Total Savings stipulated in the Schedule "B-3" enclosed. We have discussed the letter of credit with Eduardo Alfaro and have agreed to meet with him in the near future to finalize the appropriate instrument that meets the requirements of both Dade County Public Schools and FPL Services.

If you have any questions or need more information, please call me at (305) 552-3308. I am looking forward to working together on this and many other projects.

Respectfully,

~~3~~

LT Bradley J. Ripkey
Civil Engineer
Commanding Officer
Civil Engineering Unit Miami
United States Coast Guard
15609 SW 117 th Avenue
Miami, Florida 33177-1630

Re: Energy Performance Contracting

Dear LT Ripkey:

Thank you for giving me the time to introduce myself and FPL Services. Based on our discussion, FPL Services can help you meet your energy conservation goals.

FPL Services is uniquely qualified to perform energy management projects for the United States Coast Guard with the diligence, technical expertise and management capabilities that the Coast Guard demands. FPL Services was specifically created to meet the energy efficiency needs of its customers on a turn-key basis. After qualifying a customer, FPL Services works with that customer to identify, design, construct, and finance investments in energy conservation opportunities which allow the customer to realize substantial energy savings. The resulting savings would be used to reimburse FPL Services for the cost of implementing the projects.

The FPL Services approach is simple. We,

- 5 • Manage your projects on a turn-key basis. Our expertise in managing large complex energy
6 projects optimizes energy efficiencies, minimizes implementation time, and removes headaches
7 for you.
- 8 • Remove financial barriers by offering, pending qualification, project financing to you.
- 9 • Bundle or unbundle projects, such that you can implement all or only the energy conservation
10 measures you choose, instead of facing an "all or nothing" decision.
- 11 • Remain product neutral, to ensure that only the best available and most cost effective
12 technologies are recommended. FPL Services is not a product vendor, we are a service provider.
- 13 To that end, we believe in selling you only what you need to maximize efficiency and return on
14 your investment, and to achieve your standardization objectives.

55-19
P 2/10

CONFIDENTIAL

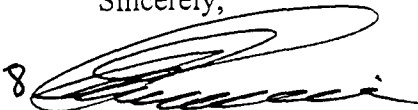

- 1 • Supply an iron-clad energy savings guarantee that meets your needs.
- 2 • Provide highly experienced technical expertise to analyze, design and implement your energy
- 3 projects.

4 FPL Services is the energy services provider to some of Florida's largest energy users including Patrick
5 Air Force Base, Cape Canaveral Air Force Station, Florida Institute of Technology, Harris Corporation,
6 Brevard County, Sarasota County, Suwannee County School Board, Embry-Riddle Aeronautical
University, Palm Beach Atlantic College and Dade County Public Schools. If you would like to speak
with some of our most recent local government customers, please call Tim Wisner, Engineer at the
Federal GSA (404)331-6417, or Gerry Shoib, Facilities Manager for the United States Postal Service.

A sheet describing the federal Claude Pepper Building owned and managed by the GSA is attached as a
reference. In addition, a brochure is enclosed for your review.

- 7 If you have any questions, or need more information, please do not hesitate to call me at (305) 552-3308.
I look forward to helping the United States Coast Guard attain its energy conservation and electric
consumption reduction goals.

Sincerely,

8

| Section #3-C-1-5, Project Reference # 5 – General Services Administration |
|---|

- 1) **Customer name:** General Services Administration, Claude Pepper Federal Office Building, Miami, Florida.
- The project, was a lighting retrofit project for the 290,000 square feet of facility. The project involved relamping with reflectors and reballasting lighting fixtures throughout the building. The conversion consisted of T8 lamps and electronic ballast. The project also includes HVAC described as installing 1 - 350 tons high efficiency chiller and removing 2 - 350 ton R-11 machines with a primary/secondary piping loop with VSD pumping on the secondary loop to the AHU's.
- Customer contact:** Mr. Tim Wisner Director of Facilities
401 West Peachtree Street
Atlanta, GA 30365-2550
- Telephone:** (404) 331-2547
- 2) **Project Cost:** **\$850,000**
Financing was arranged by FPL Services through Potomac Federal, Washington, D.C. using a Delivery Order executed under an Area Wide Utility Agreement.
Bruce Gross (703) 749-3520
- 3) **Date(s) of Installation:**
- | | |
|------------------------------------|--------------------------------|
| Feasibility Study Start/End Dates: | September 1995 -- January 1996 |
| Design/Build Start/End Dates: | August 1996 -- March 1997 |
- Applicant's lead design engineer(s) for the project:** Rex Noble, P.E.
Applicant's lead project manager(s) for the project: Rex Noble, P.E.
- 4) The Lighting and HVAC projects will produce the following savings:
141 KW of demand savings
490,000 KWH annual savings
\$53,571 annual O&M savings

These figures were established and verified through the detailed documentation of the Feasibility Study. Furthermore, and subsequently to the Feasibility Study effort, the Federal Energy Management Program, Department of Energy, DOE/GO-10096-248, February, 1996, "Measurement and Verification (M&V) Guideline for Federal Projects" was used. Specific reference is Option A, M&V Options Summary, Table 3.1, page 3-2. Further, and additional energy performance verification was performed using a representative sample of lighting circuits and performing before and after measurements of lighting amperage and light hours of operation. A report was generated by FPL Services, and accepted by GSA, as a guarantee for provider performance.

Meeting Minutes for SPARC Team Meeting 7/15/94

Attendees: ,George Caraghiaur (1)
• Phil Gemmatti
• Denny George
• Vince Juselis
• Betty McDaniels
• Lt. Mark Nelsen
• Sandra Willis
• Capt Davis Young
• Capt Lorrin Friedman
• Capt Brian Hashimoto
• Joan Bixby

DRAFT

Meeting Began 22 minutes late at 1022 hours due to needing to switch rooms.

First, Sandra Willis mentioned that the purchase order for the Feasibility study for the VIB was now complete and ready for signature by FPL. A copy was given to Denny George for signature execution.

Lt Nelsen took a few moments to review the SPARC Team code of conduct. Contracting disagreed with #1 of the empowered alternate. It seemed clear that when this code was penned that the definition of intent was not clear. The other codes appeared to be satisfactory to the team.

Lt Nelsen then reviewed the Generals meeting from earlier in the week. Mark stated the following as major concepts that the General was trying to get across:

- We should build quality in not inspect it
- General needs a change of process, not status quo
- Press ahead and develop process
- Work as a team

(2) George C then interjected two other comment gleaned from the Generals Meeting:

- SPARC should make the broadest interpretation of rules and regs possible.
- SPARC will produce and other organizations will have the burden of proof to show that the process should not be followed.

Denny George then supported some of the Generals comments with some reading from the following books:

- Kaizen; by Masaaki Imai concerning process improvements and general quality improvement.
- Reinventing Government; by Dave Osborne and Ted Gaebler concerning how we have to find new processes that are more cost effective for getting things done.

55-20

P 1/19

DRAFT

Legal, Capt Lorrin Friedman was concerned that the processes that were in place were there to prevent improprieties. Denny George responded by saying that we needed to waiver the ones that made now sense and kept us from doing the most appropriate things.

Several decisions/conclusions were reached before the meeting basically broke into assigning due dates for various activities:

- Capt Hashimoto stated that milestones should have basic parts that help in achieving the final milestone.
- Link between FPL and FPL Services needs to be defined to make contracting comfortable with the process.
- Contracting stated that CE should write the synopsis for the project. FPL to provide reduction numbers for support.

| Activity: | Who: | Due Date: |

CONFIDENTIAL

23 MAR 1994

45 SW/CC
1201 Minuteman Street
Patrick AFB FL 32925-3299

Florida Power & Light (FPL)
Mr George Sullivan, V.P.
P.O. Box 029100
Miami, FL 33102

Dear Mr Sullivan

This letter establishes a team composed of 45th Space Wing and FPL members to accomplish the objectives of the Demand Side Management (DSM) Contract. This team will create and implement a process to capitalize upon the Energy Conservation Opportunities (ECOs) provided for in the contract.

The team held its initial meeting on 18 Feb 94 and subsequently 28 Feb 94, to begin the process of identifying, reviewing, and implementing ECO projects. The team's two primary goals are to save power and reduce cost, so the members unanimously adopted the acronym SPARC (Save Power and Reduce Cost) to identify the team. Its membership and approval authority is as follows:

SPARC TEAM MEMBERS:

| <u>Role</u> | <u>Member</u> | <u>Organization</u> |
|-------------------------------|----------------------|---------------------|
| Team Leader | 1Lt Mark Nelsen | 45 CES/CEOE |
| Contracting Officer | Mrs Sandra Willis | 45 CONS/PKAD |
| Legal Officer | Capt R. Davis Young | 45 SW/JAN |
| Budget Specialist | MSgt Karen Toney | 45 SW/FMAB |
| Engineer - Patrick AFB | Mr Phil Gemmati | 45 CES/CEOE |
| Engineer - Cape Canaveral AFS | Mr Vince Juselis | 45 CES/CECR |
| ECO Project Manager | Mr George Caraghiaur | FPL Services |
| Air Force Account Manager | Mr Denny George | FPL |

ECO APPROVAL AUTHORITY: Lt Col Randle Bunner 45 CES/CC

We look forward to working together to accomplish projects under the DSM Contract. Together we can realize significant energy and cost savings which will reduce FPL's demand for new power plants and allow the 45th Space Wing to meet federal energy reduction goals. If you have any questions regarding the SPARC Team, please contact 1Lt Mark Nelsen at (407) 494-7198.

Sincerely,

ROBERT S. DICKMAN, Brig Gen, USAF

Meeting NASA/FPL

Unsolicited Proposal Technical Clarification

Load Control Generators

Date: 10/17/94

Attendees:

| Name: | Company: | Title: |
|------------------|-------------------|------------------------|
| Spencer Woodward | NASA | LC-39 Manager |
| Chris Sigg | NASA | Energy Program Manager |
| Sudhir Mehta | NASA | System Engineer |
| Walt Demboski | EG&G BOC 329 | System Engineer |
| Jeff Osgood | EG&G-3700 BOC 043 | Reliability |
| Indra Bhavsar | EG&G | Electrical Engineer |
| Joe Chau | FPL P&C Eng. | Electrical Engineer |
| Chuck Cain | FPL | Account Manager |
| Denny George | FPL Services | Sales Manager |
| Peter Randolph | FPL Services | Technical Manager |
| Tom LaChance | EG&G 6280 BOC 329 | System Engineer |

Spencer ran the meeting. He mentioned that the discussion for the day needed to be limited to just the technical requirements and costs already presented by FPL Services. This limitation in place due to procurement not yet completing the "justification for other than full and open competition (JOFOC)" and because any negotiation is always done by procurement officers which were not scheduled to be present.

First question was why the protection schemes at adjacent substations. Joe Chau then answered by saying this scheme was put in place to cover the situation when NASA generation could be refeeding a fault after FPL trip off line. The NASA generators would be such a weak source that the fault could possibly never be detected. Basically, a power line carrier transfer trip scheme. Joe and I have answered this question many times before. Joe mentioned that if we could use KSC fiber lines already in place between the three substations, FPL costs pass to NASA could be reduced.

Next, was the question of need for the grounding transformer. Joe mentioned that this was to prevent over voltage conditions that would arise as NASA relaying attempted to get generation off line. The NASA generators would clear in approximately 20-25 cycles but only after there would be great chance of damage to FPL system. This one Joe and I also have answered many times before.

55-20
P
6089

Joe also mentioned his concern with the synchronizing of breaker 519 (a cost that we missed in first proposal), however, it appears that Joe's relay scheme is already in place.

Joe also mentioned that FPL could replace the 2-2.5 MVA stepup transformers and replace with rewounded grounded 30 MVA transformer giving NASA more flexible use of generators and more opportunity to expand.

Conclusions:

- 10/21/94 NASA meeting for final buy-in.
- Procurement will then complete JOFOC.
- Then we will be at the table together redefining the technical requirements to build the plant.
- All questions and concerns by NASA were legitimate and reasonable. Also, very predictable.
- I am confident that NASA and EG&G see this effort as a way of being able to get what they want and maintain a great deal of flexibility in product.

2. Meeting began with Denny George updating the group on FPL
 3 Services and the roles the new organization play with respect
 4 to FPL CI Accounts. This discussion included the General
 5 Partnership with KENETECH.

• Next, Chuck Cain updated the group on events transpiring since last meeting. He mentioned NASA taking the step of finalizing the "Justification for other than full and open competition", NASA deadline for putting together technical specifications and the end of January target date to have construction agreement executed.

As well, he also mentioned the CILC contract and the changes that are being worked to accommodate a NASA signature. These changes to the agreement must be approved by the PSC due to the contract being a Tariff item.

6. Denny George then mentioned the potential contracting
 7 mechanisms that could be used to run this effort under. The
 8 current negotiations with PAFB for a contract possibly can
