===NOTE===============12/16/99==9:45am====================================
Hi Vic. We have an amendment to the interconnection agreement for the above
docket. I noticed it was deferred from the 10/5/99 agenda and it has not
been back to ag.

Do we need to open a docket on this amendment?

Thanks Victor.

....
You're right it was deferred. The follow-up rec is due 1/6 for the 1/18
agenda conf. The interconnection, unbundling and resale (IUR) agreement
filed under 990950 (note that the docket title should be corrected to
reflect "interconnection and unbundling" (IU) because the resale part of it
has been filed under 991521 with anticipated approval on 12/21) will be
approved come 1/18/2000, i.e., if the companies file a revised agreement
that is consistent with 252(e) of the Act. Any and all amendments
subsequent to the approved agreement must be filed and will be assigned a
new docket and be processed accordingly. In regard to the amendment just
received, I suggest that the companies either incorporate it into the IU
agreement that they plan to file under 990950 to replace the IUR agreement
filed previously or file it after the approval of the IU agreement.

....
Well, do you need to contact the company to find out what they want to do or
do we just open another docket?

Stan will let me know. I'll keep you posted. Meanwhile, please let me know
as soon as you correct the docket title for 990950. Thank you.
