In ref Docket No. 990994-TP and my "Comments" submitted thereon  
dtd March 17, 2000;

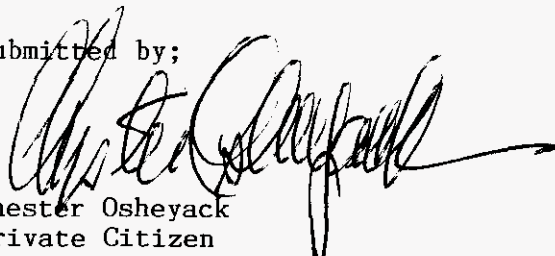

Be herein advised that it was not nor is it my desire or intent  
to cause delay or deferment of the normal process associated  
with filing the proposed amendments for adoption with the Sec-  
retary of State. My comments were submitted with the sole obj-  
ective of establishing a record that may be drawn upon for fut-  
ure consideration.

The steps taken in this Docket are positive and significant, al-  
beit, in the context of the impact of certain industry practices  
on the quality of human life and, of even life itself, they do  
not, in my view, go far enough.

This is not, however, sufficient reason to interfere with prog-  
ress.

I urge the commission to study the issues that I have presented  
in my "Comments" and to consider them in the context of properly  
interpreted standards, and facts supported by empirical evidence.
