Att: Diana W. Coldwell  
Staff Counsel

Orlando Telephone Company Inc. is a (CLEC) in the state of Florida. We request to intervene in Docket No. 000075 TP order no PSC-00-1182-PCO-TP before the Florida Public Service Commission.

OTC states that the issues in this proceeding is a concern regarding the establishment of inter-carrier compensation methods for the exchange of traffic subject to section 251 of the Telecommunication Act of 1996.

OTC exchanges traffic with incumbent local exchange carriers (ILECS) now as our interconnection agreement states under the Act.

I believe this is a opportune time to investigate a rate charge to OBT and other companies from Sprint, when an extended area call is made and OTC carries the call 85% of the way to Sprint Tandens & end office. And is changed intralata rate over .05 per minute. This should be a local call.

With Sprint current system of billing from NXX to NXX is no longer a reality. PSC approved Sprint extended area calling charge because of the distant that Sprint has to extend that call well this no longer is the case and this has to be changed. Now OTC is carrying that call.
