001234 - WS

I am writing to protest the application of United Water Florida, Inc. to amend its certificate #'s 236-W and 179-S in Nassau County. Please deny this, as we would be held hostage by this company! My house was built in 1901, I like my well and take care of my septic tank. I hate treated water and feel this is very unfair to subject us to this possibility. I cannot afford the connection fees or monthly service charges. This extension is being requested to serve the needs of developers only, who won't be around to suffer the effects. Please deny this!
