Dan Meeks /m6,mail6a 8/7/00 9:43 Page 1 MESSAGE Dated: 3/8/00 at 22:25 Subject: CRSG Cost Study Input Contents: 4 Creator: Cindy H. Mabry /m6,mail6a Item 1 TO: Sandra Harris /m7,mail7a; PHONE=205-977-5600 CC: Diann Hammond /m7,mail7a; PHONE=205-321-7727 Pat A. Rand /m6,mail6a; PHONE=205-402-7368 Item 2 Sandra, Sorry this has taken me so long. I hope it is what you need. Please advise if you require addtional information. I have also attached a separate Salary File as it seems to confuse some people when we reference "JG56" on compensation. The Sales Titles on compensation are on a different salary structure than the Cosporate scale. So for Cost Study purposes, this has seemed important to know. Thank you, Debbie Timmons

Cost Input CRSG / Account Team for Switched Combo Environment

Switched Combo Headcount Allocation - CRSG

All Management Job Grades are on compensation.

	Performed by
LSR Rcpt & logging & folder preparation	Contractor
	WS10
See each product	JG56 SD1 on Sales Compensation FDC2210

% Allocation Assumption: The colume headed % Resale Work lists the people doing RESALE work today. I do not know how to forecast how RESALE will diminish & how much Switched Combo will appear. Have the Prod Mgrs. Provided any forcasts? If so, I guess their factors should be applied.

Contractor Hourly Rate

Name	JG/Cont	% Resale Work	Type of Work or Comments
Janie Norris	Contractor	100%	Process orders
Barbara Jones	Contractor	100%	Process orders
Kristy Seagle	JG 56	100%	Process orders
Tiffany Dillard	JG 56	100%	Process orders
David Reynolds	JG 56	100%	Process orders
Vivian Smith	JG 56	100%	Process orders
Jonathan Ryer	JG 56	100%	Process orders
Brian Bradley	JG 56	100%	Process orders
Susan Daniel	JG 56	100%	Process orders
Sonja Johnson	Contractor	75%	Data management / admin
Lillie Lawson	Contractor	75%	Data management / admin
Mary McCoy	WS10 Clk	80%	Clerical / admin
Charlotte Donion	JG 56	75%	Issue resolution / CRSG operational support
Monica Dodge	JG 56	75%	Customer care
Titania Alexander	JG 56	50%	Special construction estimates
Brenda Gibson	JG58	75%	Supervision & information management
Tracey Morant	JG58	85%	Supervision & customer relationship
Mitzi Link	JG59	90%	Supervision & leadership of CRSG

This represents just one Sales AVP (JG61) work group that is a part of Interconnections Sales that would have work time related to the UNE environment in general

There are 2 other Sales AVP groups in Birmingham, 5 in Atlanta I couldn't begin to predict what % of who works on UNE customers The total Sales Entity is under Kenneth Ray JG64

It is next to impossible to further divide to the specific product level, e.g. UCL, UNTW, XdsI I think that would be driven by the customer sets and their business plans, and what their sales success ratios are and what the ultimate volumes would be. I think that would have to come from the Product Managers.

Dan Meeks /m6,mail6a 8/7/00 9:42 Page 1 MESSAGE Dated: 3/15/00 at 17:35 Subject: Line Sharing: CRSG & Acct. Team Cost Input Contents: 4 Creator: Debbie D. Timmons /m7,mail7a TO: Woodson E. Elston /m6,mail6a; PHONE=404-529-6947 CC: Arlene Fredrickson /m3,mail3a; PHONE=205-977-0391 Pam G. Williams /m3,mail3a; PHONE=205-977-5561 Woody, As promised here is the information I have developed for the Line Sharing Cost Input. Please let me know what additional information you need, and PLEASE FEEL FREE TO CALL ME AT HOME IF WE NEED TO TALK THROUGH ANY OF THE INFO! This took me MUCH longer to complete than I expected, so if you need to call me tonight, it really is ok. HOME: 205-979-3748 Tomorrow I will be in Account Team Training sessions all day, but you can dial my office number, hit zero, and have my office assistant get me out of the session. Office is 205-321-4990. Thank you, Debbie Timmons Item 3

Ver. 1 3/15/00 2/15/C / Line Sharing Functions

CRSG Cost Input for LINE SHARING Environment

Line Sharing Headcount Allocation - CRSG

All Management Job Grades are on Sales Compensation.

Functions Performed	Performed by
LSR Rcpt & logging & folder preparation	Contractor
Backend folder close out & filing	WS10
	JG56 SD1 on
	Compensation
See the product specific sheet tab	FDC2210

% Allocation Assumption:

The colume headed % UNE Work lists the people doing UNE work **today**. I do not know how to forecast how much Line Sharing will diminish the existing UNE work being done.

Has the Prod Mgr. Provided any forecast? If so, I guess their factors should be applied.

Contractor Average Hourly Rate

	CRSG - UNE Headcount Allocation									
Name	JG/Cont	% UNE Work	Type of Work or Comments							
Ruby Neely	58	100%	Team Lead							
Cheryl Lewis	58	100%	Team Lead							
Joanie Mahan	Contractor	100%	Process orders							
Cathy Compton	Contractor	100%	Process orders							
Barbara Jones	Contractor	100%	Process orders							
Leesona Nelms	Contractor	100%	Process orders							
Jonathan Ryer	56	100%	Process orders							
Kristy Seagle	56	100%	Process orders							
Lillie Lawson	Contractor	100%	Process orders							
Rose Morris	Contractor	40%	Process orders							
Sonja Johnson	Contractor	75%	Deta management / admin							
Janie Norris	Contractor	75%	Data management / admin							
Mary McCoy	WS10 Clk	25%	Clerical / admin							
Sandy Lang	Contractor	100%	Clerical / admin							
Charlotte Donlon	56	60%	Issue resolution / CRSG operational support							
Monica Dodge	56	60%	Customer care							
Titania Alexander	56	50%	Special construction estimates							
Brenda Gibson	58	25%	Supervision & information management							
Tracey Morant	58	10%	Supervision & customer relationship							
Mitzi Link	59	90%	Supervision & leadership of CRSG							

RED BOLD entries indicate a change since last submitted to Arlane Fredrickson & Pam Williams

This represents just one Sales AVP (JG61) work group that is a part of Interconnections Sales that would have work time related to the UNE environment in general

There are 2 other Sales AVP groups in Birmingham, 5 in Atlanta I couldn't begin to predict what % of who works on UNE customers The total Sales Entity is under Kenneth Ray JG64

It is next to impossible to further divide to the specific product level, e.g. UCL, UNTW, XdsI I think that would be driven by the customer sets and their business plans, and what their sales success ratios are and what the ultimate volumes would be. I think that would have to come from the Product Managers.

Monacelli /m7,mail7a; PHONE=205-321-7700 Tracey L. Morant /m2,mail2a; PHONE=205-321-3192 Item 3.3.2 Marc & William:

Please find attached 2 Excel spreadsheets that provide the results of our interviews & other points for consideration.

The file named <u>BC MAR`1.xls</u> contains 3 sheet tabs: Time per Task, Time per LSR, Assumptions & comments.

The file names **BCDETA`1.xls** contains many sheet tabs: They are basically the interview detail per individual interviewed.

William: Please let us know your availability to finalize this information and its incorporation in to the final presentation. Tracey Morant is available to

Dan Meeks /m6,mail6a 8/7/00 9:37 Page 2 review & discuss when you are ready. Again, we are looking to you to take the raw data and perform the trending analysis. You will be most interested to know that the final count for March is 583 LSRs! This is the highest LSR count since our beginning. Please use this amended number in your calculations. Brenda has sent you under a separate message the information for March 99, specifically the break down by Type of Service (TOS). Please let us know what other information you require. Thanks, Debbie Timmons "BRING IT ON!!!" Item 3.3.3 This item is of type MS EXCEL (obsolete filetype (4)) and cannot be displayed as TEXT Item 3.3.4 This item is of type MS EXCEL (obsolete filetype (4)) and cannot be displayed as TEXT Item 3.4 Dated: 6/14/99 at 9:32 MESSAGE Subject: CRSG Headcount Estimate Based on UNE Forecast Contents: 3 Creator: Debbie D. MESSAGE Subject: CRSG Headcount Estimate Based on UNE Forecast Creator: Debbie D. Timmons /m7,mail7a Dated: 6/14/99 at 9:32 Contents: 3

Item 4.1

TO: Marcus B. Cathey /m6,mail6a; PHONE=205-321-4900 Fred P. Monacelli /m7,mail7a; PHONE=205-321-7700

Item 4.2

Fred & Marc, The attached spreadsheet contains some information relative to the subject. There are several sheet tabs so you may want to look at them all.

I think we are probably going to need to discuss it real time. I tried to make my assumptiions & calculations clear, but this kind of thing is usually hard to digest when it is cold. I also realize that it is only part of the picture; I need to do this for the entire load...I'm working on it!

I did want to get this in front of you though; I really don't know what approach we are wanting to take with McDougle.

Just let me know what questions you have or when you would like to discuss it.

Thanks, Deb

Assumption Set

Original Assumption Set:	
FOC	Rec'd by acct. team from VSC (DCSC or other ordering entity) electronically and forwarded to customer via Fax.
Billing	No billing explanations or clarifications.
	Originally no rework, misdirected orders or account
	team errors were calculated into the assumptions;
	however, on May 28, 1997, an error factor of 12% was
Rework	added to the equivalent headcount.
Personnel	Fully trained personnel.
Proj. Mgt.	No project mgt. or customer status function.

Reality

Electronic FOC's are forwarded to CIS.CRSG mailbox. Sonja Johnson opens, prints, sorts, retrieves from printer; stamps w/ receive date; puts in yellow FOC folder; delivers to SD. Usually 3 -5 days to receive FOC. We do not receive all electronically. CRSG is involved in billing explanations involving disputes. Specifically, any disputes resulting from Complex Service requests handled by the CRSG are resolved by the CRSG.

Approximately 30% of all complex orders received in the CRSG are placed into clarification. Thus, additional handling is required. Additionally, roughly 12% of orders received are misdirected. Takes 6 - 12 mos. To have fully trained personnel capable of handling more detailed specific complex orders. The group is a sourcing pool for Acct. Teams; turned 50% of the group in 1998. SD's do perform PM tasks by tracking orders to completion. Also, CRSG is continuously statusing CLECs on PON's. Average 2 status calls from CLEC per LSR.

Additional Assumptions:	
Special Assemblies	50% of MegaLink orders require special assemblies.
	The Service Inquiry portion for UNE ADSL/HDSL
	loops. Generally, this process takes approximately 20
UNE Orders	minutes to complete.
	CLECs often submit orders with the requested Due
	Date less than Interval Guide stated criteria. A review
	of KMC & e.spire LSRs for 1Q99 showed 19% & 11%
	EXPEDITED, & 63% & 77% Less than Interval Guide,
Interval Guide / Expedites	respectively. These conditions add to handling time
	The CRSG supports large sale projects involving high
	volume concentration of certain complex products I.e.,
	Intermedia Communication's State of Georgia Y2K
Large Sales	project.
	The Type of Service being ordered by TOP 5 CLECs
	include: Frame Relay, ISDN-BRI, ISDN-PRI,
Type of Service	ESSX/MS, and Megalink
	The average station size per ESSX/Centrex is 25
ESSX/Centrex Station Line	stations.

Faxed LSR's

Administrative - Receiving LSR's via Fax		
Per Sherry Parsons & Sonja Johnson		
General Assumption: Order is		
Action	Time in Minutes	Assumptions
Sherry receives LSR via FAX.		
Picks up fax, verify # pages, stamp it. Create LSR acknowledgement		
and faxes to originator. Gets confirmation back and staples to original.	5	Fax is available and not a whole stack of orders.
Sherry puts LSR in Receive Tray on Sonja's desk	2	
Sonja takes it out of tray. Makes sure you have LSR, EU page.	2	All info provided that is needed.
Sonja starts logging into BRITE and assigns to SD. Sonja stamps		
w/date & who assigned to.	5	
Sonja turns to manual log and log, giving date, CLEC, PON#, TOS, &		
SD.	3	
Sonja gets folder, puts project ID # on it, takes that order, places it in		
folder, if expedite puts in red folder, then delivers to SD's desk to their		
"in" tray	3	
, <u>, , , , , , , , , , , , , , , , , , </u>	20 min.	

E-mailed LSR"s

Administrative - E-Mail receipt of LSR.		
Per Sonja Johnson		
General Assumption: BRITE database is accessible and workload	is running on the ave	erage.
Action	Time in Minutes	Assumptions
First thing in a.m. SJ goes to CIS.CRSG mail box in open mail to see if received any LSR's.		PC already on, already logged on, etc.
SJ opens LSR message & start printing it out. Order usually consists of 3 attachments: LSR, EU, Resale page: Ordering Document: and Diagram.	5	Receipt of 1 order.
Prints it. Has to sort out copies at printer and separate from everyone else's stuff. Makes sure has all pages.	2	
Returns to desk. Stamps w/receipt date stamp.	2	
Then SJ does "reply to message" back to customer via E-mail that it has been received & informs CLEC of assigned SD or informs CLEC that they'll be		
contacted by the assigned SD	2	
Sonja starts logging into BRITE and assigns to SD. Sonja stamps w/date & who assigned to.	5	
Sonja turns to manual log and log, giving date, CLEC, PON#, TOS, & SD.	3	
Sonja gets folder, puts project ID # on it, takes that order, places it in folder, if expedite puts in red folder, then delivers to SD's desk to their "in" tray	3	
	22 min.	

Filing

Administrative - Filing/Archival of Completed Folders	, , , , , , , , , , , , , , , , , , ,	
Per Sherry Parsons General Assumptions: Order is completed & placed in SD's "completed" tray.		
Action	Time in Minutes	Assumptions
		Folder been handed off to SD. Order has been completed SD has either placed in "completed" tray. or the SD.
Sherry goes around to each SD's desk several times/day to retrieve folders.		
Sherry pulls BRITE SD screen to verify that everything needed in BRITE has been populated. Then verifies CPX date is same as due date.	5	
If everything is verified in BRITE to be completed, Sherry stamps w/"verified" stamp and places in "to be filed" tray at her desk.	1	
If it hasn't, Sherry fills out query sheet indicating missing fields and takes it w/folder back to SD's "in tray".	5	
Sherry files the completed folders by month, by CLEC in alpha order, by PON's in numeric order under CLEC. If CLEC doesn't already have a folder in file cabinet, Sherry has to create one.	30	Sherry usually collects a day's worth of folders and files them all together.
Archiving - After 6 months of filing, Sherry removes the first month's folders and moves to archives. This is done by 5th of ea. mo.	150	
	3 hours; 11 min.	

.

BCDETA~1.XLS

Frame Relay

Detail Process Analysis of Frame Relay Orders	-	
Per Janie Norris		
General Assumptions: Fractional T-1 in BellSouth Territory.		
Actions	Time in Minutes	Assumptions
Receives LSR from Sonja.		
Reviews LSR package to ensure all documents are there. These are LSR, EU, FR Ord. Doc., diagram. Checks for accuracy on these items on billing, speeds, any info on ordering doc or LSR that tells what they are reducing	45	A
ordering.	15	Assuming good clean order.
Begins folder preparation with PON, EU complete address, start date, etc.	10	
Notify CLEC of receipt and start.	5	
Validate "Q" account. Validate address in ORION. Go into SAP on "m" drive and deterine Cascade SWC and ICO mileage if needed.	25	Assuming BellSouth-served.
Request CLLI code by faxing to CLLI code coordinator. Update folder.	10	
Validate the site code in BOCRIS. Go to ATLAS to assign circuit ID#. Go to SOCS to request a preassigned order number and update folder accordingly.	20	
Make BRITE updates with start date, Project Mgr., RESH code, circuit ID info, # orders being issued, TOS info, Order #, and makes notation in	20	
remarks that CLLI code has been requested & date.	20	
Upon receipt of CLT code, prepare Service Inquiry. Fax to appropriate CCM, SCM, & OSPE, approximately 3 pages each. Note folder & BRITE	05	
w/date being sent.	25 5	
Upon receipt of responses to Service Inquiry, note folder & BRITE. Prepare package for transittal to DCSC. Includes fax cover sheet, service transmittal form, fast package ordering document - total of 5 pages, plus first page of service inquiry form, the service inquiry responses from each dept., and the diagram, map or	5 20	
Receives FOC from DCSC via e-mail format. Go to BOCRIS and print pending orders, reviewing for accuracy and matching against previously gathered info. Puts billing # assigned on folder & in BRITE.	5	
Prepare FOC & send to CLEC & project mgr. Update folder & BRITE w/assigned due date, FOC to cust., FOC from center.	5	
One business after due date, go to BOCRIS print CPX'd order. Goes to folder & updates CPX date, marks folder w/"c" and goes to BRITE and update with CPX date. Puts printed copy of order in folder, places folder		
in tray for Sherry to pick up.	10	
	175	
	2hours; 55 min	

 \mathcal{V}

Detail Process Analysis for BRI

Per Randy Ray		
Steps	Time	Assumptions
Sonja delivers LSR to SD.		
Ensure "clean order" Check DD, ensure w/in reason w/interval guide, check to see if expedite. Go to EU form, is it legible, is local contact populated. Go to Ordering document Is it complete?		
Check to ensure DLR form is correct.	15	
Begin filled out top part of file folder w/necessary info. And populates receive date - start date.	5	
Go to BOCRIS, look up "Q" acct., validate the Q acct. & print. Go to ORION to validate address of EU & print out. Go to Netscape intranet for ISDN availability and verify whether or not ANSA is	Ŭ.	
involved and switch type.	30	
Call customer & acknowledge receipt of order, obtain any further info		
needed, and let the know you are one working on it.	5	
Go to BRITE & complete necessary fields/steps.	5	
Pull up transmittal form from WORD. Complete form. Print out and	-	
complete fax cover sheet.	5	
Fax to DCSC & to Proj. Mgr. Typically 8 pages. Wait on confirmation. Go back to file folder & update.	5	
Puts flag on folder indicating date sent and place folder in "waiting on-		
FOC" tray.	5	
Waiting on DCSC to send FOC. Proactive follow-up to DCSC, fax has to be created and follow-up performed by fax.	10	
FOC delivered to SD via Sherry. Look up order in BOCRIS, print order, verify details (order #, the two telephone #'s, & due date, & circuit ID info).	10	
Create an FOC transmittal form from WORD based on information acquired and fax to project mgr. and to CLEC.	10	
Go to BRITE & populate w/appropriate info. gathered.	10	
Update folder w/same.	5	
Put file in "waiting for completion" tray on desk. Three - five days after DD, to check BOCRIS to see if order has been CPX'd. If so, print copy of order, place in file. Update file folder. Update BRITE &		Orders don't always CPX w/in 3-5 day interval. Estimate is 20% do not. This means the 10 minute step has to be
print copy of BRITE screen. Place BRITE scre	10	repeated.

Detail Process Analysis for PRI

Per Leslie Earle		
General Assumption: Clean order.		
Steps	Time in Minutes	Assumptions
Sonja delivers LSR to SD's "in tray".		
Pull folder out of tray and note key info throughout folder.	5	
Review content, looking for LSR, EU, Ordering Document, possibly a directory listing request page, any misc, notes that may be added by		
CLEC. Looking for DD, if it's an expedite or not. Verify necessary fields	4.F	
are populated on each sheet. Call CLEC to acknowledge receipt of order.	15 5	
Go to BRITE and enter start date, PM name & #. Qty, etc.	5	
Go into BOCRIS for that state/site. Use ORION for address validation. Print ORION info & match address against what was on LSR.	10	
Prepare to obtain CLLI code. Go to "m" drive, look under "CLLI" and get state specific to the order. Take CLLI request form specific to that state and copy it to "WORD". Then you begin to make entries into the		
CLLI request form. Then print CLLI reque	10	
Put CLLI code request in folder, update folder & place folder in " waiting for response" tray.	5	
Receive CLLI code from the coordinator via either fax or call and folder noted that it was received.	5	
Begin SI process. Go to ISDN link screen on intranet & print. This		
gives SWC that PRI will be working from. Also note the SWC CLLI.	10	
Go into BOCRIS to preassign circuit ID#. Must verify site & prefix. Go to ATLAS in BOCRIS to get circuit ID#. Must go thru 3 different screens to get this. Print screen and place in folder.	5	
Go into BOCRIS to SOCS to get order #. Again must verify site. Print &		
place in folder.	5	
Job down circuit ID# & order # on ORION sheet. Go "m" drive, product info. Go to PRI, SI, select type of CO. Copy to	5	
"WORD" and save as EU.	5	
Go into WORD to complete SI form, using previously pulled info from various sources. Review for accuracy. Save & print. Place in folder.	30	
Go to "m" drive to determine contact list for that specific state.	5	
Prepare fax cover pages. & begin faxing SI (6 pages) to 5 different depts. Wait for confirmation on each fax. Staple confirmation to each		
depts. fax. Note file folder & update BRITE that SI has been sent to all 5 depts.	20	
BRITE will ask for preassigned order number.	10	
Responses to SI begin coming in and folder is noted as they come in.	10	
Begin preparing service transmittal process which includes preparation of service transmittal, the association, the responses on the SI, and any other data necessary to process the request. Type service transmittal,		
print, proof read.	10	
Fax hand-off package to project mgr. & to appropriate center. Usually 16 - 17 pages each. Fax machines are preprogrammed w/numbers for		
frequently dialed depts.	5	
Go to BRITE and note that pkg, has gone to center & project mgr.		
Update folder w/same info. Put in folder & place folder in "waiting on FOC" tray.	10 5	
FOC shows up on desk. Pull folder from "wtg, On FOC" tray. Review FOC & print hard copy of service order from BOCRIS. Go to WORD & populate FOC doc w/needed info. Check for accuracy against SO. Fax		
to CLEC & project mgr.	15	
Update BRITE & folder. Place in "pending file" or "waiting on	-	
completion" folder. Begin follow-up for due date. Go into BOCRIS to check order status.	5	
Make appropriate notes in BRITE and on folder.	10	
	225	
	3 hours; 45 min.
