JAMES A. MCGEE SENIOR COUNSEL

September 26, 2000

Ms. Blanca S. Bayó, Director Division of Records and Reporting Florida Public Service Commission 2540 Shumard Oak Boulevard Tallahassee, Florida 32399-0850

Re: Docket No. 000002-EG

Dear Ms. Bayó:

Enclosed for filing in the subject docket are an original and fifteen copies of the direct testimony and exhibits of Michael F. Jacob in support of Florida Power Corporation's Energy Conservation Cost Recovery factors for the period of January through December, 2001.

Please acknowledge your receipt of the above filing on the enclosed copy of this letter and return to the undersigned. Also enclosed is a 3.5 inch diskette containing the above-referenced document in Word 97 format. Thank you for your assistance in this matter.

Very truly yours,

James A. McGee

DIRECT TESTIMONY AND EXHIBITS OF

MICHAEL F. JACOB

For Filing September 27, 2000

DOCUMENT NUMBER-DATE

12135 SEP 26 B

FPSC-RECORDS/REPORTING

FLORIDA POWER CORPORATION DOCKET No. 000002-EG

DIRECT TESTIMONY OF MICHAEL F. JACOB

1	u.	State your name and business address.
2	Α.	My name is Michael F. Jacob. My business address is Florida Powe
3		Corporation, One Power Plaza, 263 13th Avenue South, St. Petersburg
4		Florida, 33701-5511.
5		

Q. By whom are you employed and in what capacity?

A. I am employed by Florida Power Corporation (FPC) as Manager of Regulatory Evaluation and Planning.

Q. Have your duties and responsibilities remained the same since you last testified in this proceeding.

A. Yes.

Q. What is the purpose of your testimony?

A. The purpose of my testimony is to describe the components and costs of the Company's Demand-Side Management Plan as approved by the Florida Public Service Commission. I will detail the projected costs for implementing each program in that plan, explain how these costs are

presented in the attached exhibit, and show the resulting conservation adjustment factors (in \$/1,000 kWh).

Q. Do you have any Exhibits to your testimony?

A. Yes, Exhibit No. ___ (MFJ-1) consists of five schedules (C-1 through C-5) which support the Energy Conservation Cost Recovery Clause Calculations for the period January 2001 through December 2001.

Q. For what programs does FPC seek recovery?

- A. FPC is seeking to recover those costs allowed pursuant to Rule 25-17.015 of the Florida Administrative Code, as adopted by the Florida Public Service Commission, for each of the following Commission-approved conservation programs, as well as for Conservation Program Administration (those common administration expenses not specifically linked to an individual program).
 - Home Energy Check
 - Home Energy improvement
 - Residential New Construction
 - Low-Income Weatherization Assistance
 - Energy Management (Includes Residential and Commercial Energy Management and Load Management Switches.)
 - Business Energy Check

- Better Business
- Commercial/Industrial New Construction
- Innovation Incentive
- Standby Generation
- Interruptible Service
- Curtailable Service
- Technology Development
- Qualifying Facilities

Q. What is included in Schedules C-1 through C-5 of your exhibit?

A. Schedule C-1 provides a summary of cost recovery clause calculations and information by retail rate schedule. Schedule C-2 provides annual and monthly conservation program cost estimates during the January 2001 through December 2001 projection period for each conservation program as well as for common administration expenses. Additionally, Schedule C-2 presents program costs by specific category (i.e. payroll, materials, incentives, etc.) and includes a schedule of estimated capital investments, depreciation and return for the projection period.

Schedule C-3 contains a detailed breakdown of conservation program costs by specific category and by month for the actual/estimated period of January through August 2000 (actual) and September 2000 through

December 2000 (estimated). In addition, Schedule C-3 presents a schedule of capital investment, depreciation and return, an energy conservation adjustment calculation of true-up, and a calculation of interest provision for the actual/estimated period of January 2000 through December 2000. Schedule C-4 projects Energy Conservation Cost Recovery (ECCR) revenues during the January 2001 through December 2001 projection period. Schedule C-5 presents a brief description of each program, as well as a summary of progress and projected expenditures for each program for which FPC seeks cost recovery as part of the Energy Conservation Cost Recovery Clause.

Q. Would you please summarize the major results from your exhibit?

A. Schedule C-2, Page 1 of 6, Line 22, shows total net program costs of \$72,014,851 for the January 2001 through December 2001 projection period.

The following table presents the projected conservation cost recovery charge in dollars per 1,000 kilowatt-hours by retail rate class for the time period January 2001 through December 2001, as contained in Schedule C-1, Page 1 of 4, Lines 16 – 19.

Conservation Adjustment Factors (\$/1,000 kWh)

	Secondary	Primary	Transmission
Retail Rate Schedule	Voltage	Voltage	Voltage
Residential	\$2.09	N/A	N/A
General Service Non-Demand	\$1.65	\$1.63	\$1.62
General Service 100% Load Factor	\$1.27	N/A	N/A
General Service Demand	\$1.44	\$1.43	\$1.41
Curtailable	\$1.30	\$1.29	\$1.27
Interruptible	\$1.24	\$1.23	\$1.22
Lighting	\$0.62	N/A	N/A

Q. Does this conclude your direct testimony?

13 A. Yes.

SCHEDULE C-5
PAGE 1 OF 14
SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Home Energy Check

Program Description: The new Home Energy Check program is a comprehensive residential energy evaluation (audit) program. The program provides Florida Power Corporation's (FPC) residential customers with an analysis of energy consumption and recommendations on energy efficiency improvements. It acts as a motivational tool to identify, evaluate, and inform consumers on cost effective energy saving measures. It serves as the foundation of the residential Home Energy Improvement program and is a program requirement for participation. There are four versions of this audit: the free walk-thru, the paid walk-thru (\$15 charge), the energy rating (Energy Gauge) and the mail-in audit.

Program Projections for January, 2001 through December, 2001: It is estimated that 24,000 customers will participate in this program during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$2,656,742.

Program Progress Summary: With 24,214 completions through year-to-date August 2000, the Home Energy Check program continues to inform and motivate consumers on cost effective energy efficiency improvements which results in participation of energy efficiency measures being implemented.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 2 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Home Energy Improvement

Program Description: This umbrella efficiency program provides existing residential customers incentives for energy efficient heating, air conditioning, water heating, ceiling insulation upgrade and duct leakage repair.

Program Projections for January, 2001 through December, 2001: It is estimated that 13,150 completions will be performed in this program during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$3,667,283.

Program Progress Summary: Year-to-date August 2000 completions of 15,490 are meeting projections.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 3 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Residential New Construction

Program Description: This program is designed to encourage builders to construct more energy efficient homes by choosing from a menu of energy saving measures such as duct sealing, duct layout, attic insulation, high efficiency heat pump, heat recovery water heating or dedicated heat pump. This is also an educational program that strives to teach builders, Realtors, HVAC dealers, and homebuyers the importance of energy efficiency. Incentives are awarded to the builder based on the level of efficiency they choose.

Program Projections for January, 2001 through December, 2001: It is estimated that 6,500 homes representing 275 builders will participate in this program during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$842,349.

Program Progress Summary: This program is tied to the building industry. Economic forces will dictate the number of homes built during this period. Participation has increased each year since its inception. There have been 5,479 completions year-to-date August 2000.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 4 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Low-Income Weatherization Assistance Program

Program Description: The program goal is to integrate FPC's DSM program measures with the Department of Community Affairs (DCA) and local weatherization providers to deliver energy efficiency measures to low-income families. Through this partnership, Florida Power will assist local weatherization agencies by providing energy education materials and financial incentives to weatherize the homes of low-income families.

Program Projections for January, 2001 through December, 2001: It is estimated that 350 families representing 12-15 agencies will participate in this program during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$119,891.

Program Progress Summary: The program was launched during the month of July 2000. Individual meetings with weatherization providers are currently being scheduled throughout the FPC territory.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 5 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Energy Management (Residential & Commercial)

Program Description: The Load Management Program incorporates direct radio control of selected customer equipment to reduce system demand during peak capacity periods and/or emergency conditions by temporarily interrupting selected customer appliances for specified periods of time. Customers have a choice of options and receive a credit on their monthly electric bills depending on the options selected and their monthly kWh usage.

Program Projections for January 2001 through December 2001: During this period we anticipate installing 5,000 new participants to the program.

Program Fiscal Expenditures for January 2001 through December 2001: Program expenditures during this period are projected to be \$34,386,062.

Program Progress Summary: As of September 1, 2000 there were 464,678 customers participating in the Load Management program. As specified in FPC's Commission-approved DSM Plan, the year-round component of the program has been closed to new participants, while a new winter-only component was opened in July 2000.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 6 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Business Energy Check

Program Description: The Business Energy Check is an audit for non-residential customers, and has two parts. The free audit provides a no-cost energy audit for non-residential facilities. The paid audit provides a more thorough energy analysis for non-residential facilities. For each, a qualified energy auditor determines which energy-reducing actions apply to a customer's facility and operation. The cost of implementing recommended measures and the resulting savings are estimated in writing based on industry averages. The auditor also explains other Florida Power programs and incentives available to encourage implementation of the conservation recommendations.

Program Projections for January, 2001 through December, 2001: It is estimated that 450 customers will participate in this program during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$235,245.

Program Progress Summary: The program is required for participation in most of the company's other commercial/industrial DSM programs.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 7 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Better Business

Program Description: This umbrella efficiency program provides incentives to existing commercial and industrial customers for high efficiency heating, air conditioning, motors, water heating, roof insulation upgrade, duct leakage and repair, and window film.

Program Projections for January, 2001 through December, 2001: It is estimated that 100 customers will participate during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$195,200.

Program Progress Summary: There have been 64 Better Business program completions during the year-to-date August 2000 period.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ____ (MFJ-1) SCHEDULE C-5 PAGE 8 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Commercial/Industrial New Construction

Program Description: This umbrella efficiency program provides incentives for the design and construction of energy efficient commercial and industrial facilities. Incentives are provided for energy efficient heating, air conditioning, motors, water heating, window film, insulation and leak free ducts.

Program Projections for January, 2001 through December, 2001: It is estimated that 24 customers will participate in the program during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$54,000.

Program Progress Summary: There have been 14 Commercial/Industrial New Construction program completions during the year-to-date August 2000 period.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 9 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Innovation Incentive

Program Description: Significant conservation efforts that are not supported by other Florida Power programs can be encouraged through Innovation Incentive. Major equipment replacement or other actions that substantially reduce FPC peak demand requirements are evaluated to determine their impact on Florida Power's system. If cost effective, these actions may qualify for an economic incentive in order to shorten the "payback" time of the project.

Program Projections for January, 2001 through December, 2001: It is estimated that 1 customer will participate in the program during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$166,250.

Program Progress Summary: This program attracts specialized, customer specific energy efficiency measures not covered through the company's other DSM programs.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 10 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Standby Generation

Program Description: Florida Power Corporation provides an incentive for customers to voluntarily operate their on-site generation during times of system peak.

Program Projections for January, 2001 through December, 2001: It is estimated that 5 new customers will participate in the program during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$579,941.

Program Progress Summary: The program currently has a total of 45 participants.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 11 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Interruptible Service Program

Program Description: The Interruptible Service program is a rate tariff which allows Florida Power to switch off electrical service to customers during times of capacity shortages. The signal to operate the automatic switch on the customer's service is activated by the Energy Control Center. In return for this, the customers receive a monthly rebate on their kW demand charge.

Program Projections for January, 2001 through December, 2001: No new participants are expected during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$21,030,922.

Program Progress Summary: The program currently has 153 participants. The original program filed as the IS-1 tariff was closed to new participants on April 16, 1996. Existing participants were grandfathered into the program. New participants are placed on the newer IS-2 tariff.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 12 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Curtailable Service Program

Program Description: The Curtailable Service is a dispatchable DSM program in which customers contract to curtail or shut down a portion of their load during times of capacity shortages. The curtailment is done voluntarily by the customer when notified by FPC. In return for this cooperation, the customer receives a monthly rebate for the curtailable portion of their load.

Program Projections for January, 2001 through December, 2001: No new participants are expected during the projection period.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$675,000.

Program Progress Summary: To date the program has 8 participants. The original program filed as the CS-1 tariff was closed to new participants on April 16, 1996. Existing participants were grandfathered into the program. New participants are placed on the newer CS-2 tariff.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 13 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Technology Development

Program Description: This program allows Florida Power to undertake certain development and demonstration projects which have promise to become cost-effective conservation and energy efficiency programs.

Program Projections for January, 2001 through December, 2001: Monitoring and evaluation of the residential HVAC airflow and proper refrigerant charging is expected to be completed by the fourth quarter of 2001. A photovoltaic R&D project on manufactured housing will continue through 2001. R&D projects for dual compressor heat pumps and radiant barriers will also be evaluated in 2001.

Program Fiscal Expenditures for January, 2001 through December, 2001: Expenses for this program are projected to be \$130,575.

Program Progress Summary: The residential HVAC airflow and proper refrigerant charge R&D project has field-tested 24 homes to date. The photovoltaic R&D project on manufactured housing has been delayed due to unforeseen contract problems and will continue through 2001.

FPSC DOCKET NO. 000002-EG FLORIDA POWER CORPORATION WITNESS: M. F. JACOB EXHIBIT NO: ___ (MFJ-1) SCHEDULE C-5 PAGE 14 OF 14 SEPTEMBER 27, 2000

Program Description and Progress

Program Title: Qualifying Facilities

Program Description: Power is purchased from qualifying cogeneration and small power production facilities.

Program Projections for January 2000 through December 2000: Contracts for new facilities will continue to be negotiated when opportune.

Program Fiscal Expenditures for January 2000 through December 2000: Expenses for this program are projected to be \$368,913.

Program Progress Summary: The total MW of qualifying facility capacity is approximately 830 MW, excluding the Tiger Bay capacity that is now owned by FPC. As approved in Order No. PSC-97-0652-S-EQ <u>Order Approving Stipulation and Supplemental Stipulation</u>, the Tiger Bay QF payments will continue to be recovered as if the contracts are still in place.
