RE: Docket No. 001459-TX

Dear Ms. Bayo and Commissioners,

At the time of the issuance of AirTIME Technologies, Inc. certificate we were in the start up stages of our business and applied for the certificate because we thought that that was the direction in which our business was going to go. Instead we went in the direction of redeveloping and providing software for the prepaid telecommunications industry. We do wish to retain our certificate and keep this option available to us for in the future we may need to incorporate a switch and service our own private lines, access and circuit services.

Enclosed are back fees for 1999 and 2000. We are paying the total amount for 1999 of \$69.00 (\$50 fee, \$12.50 Penalty, and \$6.50 interest) and the minimum amount of \$50 for 2000.

Because we wish to retain this certificate, I have marked my calendars manually and electronically to ensure that we don't miss the due date of January 30 for payment of assessment fees due from the previous year.

Since we have not generated any revenues in this industry and we have been inactive, I propose a settlement of \$200.00 versus the proposed action of \$500.00. It is our hope that the Commissioners will vote in our favor and accept this settlement offer.

Thank you for your consideration with regards to this matter.
