- (1) Each natural gas utility shall maintain its accounts and records in conformity with the Uniform System of Accounts for Natural Gas Companies (USOA) as found in the Code of Federal Regulations, Title 18, Subchapter F, Part 201, for Major Utilities as revised, April 1, 2002 2000, and as modified below. All inquiries relating to interpretation of the USOA shall be submitted to the Commission's Division of Economic Regulation in writing.
- Each utility shall establish and maintain continuing property records in conformity with the plant accounts prescribed The records shall be compiled on the basis of in the USOA. original cost or other book cost consistent with the provisions of the USOA. The continuing property records or records supplemental thereto shall contain such detailed description and classification property record units that will permit their of identification and verification. They shall be maintained in such manner as will meet the following basic objectives:
- (a) An inventory of property record units which may be readily checked for proof of physical existence;
- (b) The association of costs with such property record units to assure accurate accounting for retirements; and
- (c) The determination of dates of installation and removal of plant to provide data for use in connection with depreciation studies.
 - (3) For ratemaking purposes only, each investor-owned natural

gas utility shall accrue unbilled base rate revenues, excluding those base rate revenues recoverable through other cost recovery or adjustment mechanisms.

- (4) Each utility shall furnish to the Commission at such time and in such form as the Commission may require, the results of any required tests and summaries of any required records. The utility shall also furnish the Commission with any information concerning the utility's facilities or operation which the Commission may request and require for determining rates and judging the practices of the utility. All such data, unless otherwise specified, shall be consistent with and reconcilable with the utility's Annual Report to the Commission.
- (5) The results of all tests, summaries, records and reports required by the Commission (including the Annual Report) shall, where appropriate, be reported on a therm basis rather than a volumetric or MCF basis.
- (6) Upon direction of the Commission, or in the performance of delegated staff duties, any member of the Commission staff may make at any reasonable time a personal visit to the utility's offices or other places of business, and may inspect any facility, records, accounts, books, reports, and papers of the utility which may appear necessary in the discharge of Commission duties. During such visits the utility shall provide staff members with adequate and comfortable working and filing space, consistent with prevailing conditions and climate and comparable with the

- (1) All records that a utility is required to keep, by reason of these or other rules prescribed by the Commission, shall be kept at the office or offices of the utility within the state, unless otherwise authorized by the Commission. Such records shall be open for inspection by the Commission or its authorized representatives at any and all reasonable times.
- (2) Any utility that keeps its records outside of the state shall reimburse the Commission for the reasonable travel expense incurred by each Commission representative during any review of the out-of-state records of the utility or its affiliates. Reasonable travel expenses are those travel expenses that are equivalent to travel expenses paid by the Commission in the ordinary course of its business.
- (a) The utility shall remit reimbursement for out-of-state travel expenses within 30 days from the date the Commission mails the invoice.
- (b) The reimbursement requirement in subsection (2) shall be waived:
- 1. For any utility that makes its out-of-state records available at the utility's office located in Florida or at another mutually agreed upon location in Florida within 10 working days from the Commission's initial request. If a utility would like more than 10 working days, it must submit a request for approval of a time extension stating the date by which it would like to make

the records available. A request for approval of a time extension shall only be granted for good cause. To establish good cause for a time extension, the utility must show that:

NOTICE OF PROPOSED RULEMAKING

FLORIDA PUBLIC SERVICE COMMISSION

DOCKET NO. 030712-GU

RULE TITLE:	RULE NO.:
Records and Reports in General	25-7.014
Location and Preservation of Records	25-7.015
Annual Reports	25-7.135
Diversification Reports	25-7.1351
Earnings Surveillance Report	25-7.1352
Forecasted Earnings Surveillance Report	25-7.1353

PURPOSE AND EFFECT: Rule 25-7.014 is to be amended to update the reference to the most recent Uniform System of Accounts, Code of Federal Regulations, Part 201, as of April 1, 2002. Rule 25-7.015 is to be amended to update the reference to the most recent "Preservation of Records of Natural Gas Companies," Code of Federal Regulations(CFRs), Part 225, as of April 1, 2002. Also, the rule has been amended to included seven exceptions to the retention periods incorporated in the CFRs, Part 225, as of April 1, 2002. Due to the time between rate proceedings, audits, and other matters before the Commission a longer retention period is necessary for these records. Rule 25-7.135 is to be amended to update the reference to the revised Commission Form PSC/ECR 020-G, entitled "Annual Report of Natural Gas Utilities." In an effort to simplify the reporting requirements, some schedules

have been deleted while other schedules have been consolidated. Rule 25-7.1351 is to be repealed as the information provided in this report has been incorporated as part of Commission Form 020-G, as adopted by Rule 25-7.135. This repeal eliminates a reporting requirement that is currently included in the utility's annual report. Rule 25-7.1352 is to be amended to update the reference to the revised Commission Form PSC/ECR 013-G, entitled "Investor-Owned Natural Gas Utility Earnings Surveillance Report (ESR)." The year end schedules have been deleted since average schedules are used to monitor earnings. Also, the amendment changes the filing of monthly ESRs to quarterly filings. Rule 25-7.1353 is to be amended to require each investor-owned natural gas utility with more than 50,000 customers to file with the Commission its forecasted financial information on Commission Form PSC/ECR 023-G, entitled "Investor-Owned Natural Gas Utility Forecasted Earnings Surveillance Report." Changing the monthly ESR to quarterly makes the forecasted ESR more crucial for monitoring earnings.

SUMMARY: Rule 25-7.014 is to be amended to update the reference to the most recent Uniform System of Accounts, Code of Federal Regulations, Part 201, as of April 1, 2002. Rule 25-7.015 is to be amended to update the reference to the most recent "Preservation of Records of Natural Gas Companies," Code of Federal Regulations (CFRs), Part 225, as of April 1, 2002. Also,

the rule has been amended to included seven exceptions to the retention periods incorporated in the CFRs, Part 225, as of April 1, 2002. Due to the time between rate proceedings, audits, and other matters before the Commission a longer retention period is necessary for these records. Also, a definition of good cause was added to the rule. Rule 25-7.135 is to be amended to update the reference to the revised Commission Form PSC/ECR 020-G, entitled "Annual Report of Natural Gas Utilities." In an effort to simplify the reporting requirements, some schedules have been deleted while other schedules have been consolidated. Also, a definition of good cause was added to the rule. Rule 25-7.1351 is to be repealed as the information provided in this report has been incorporated as part of Commission Form 020-G, as adopted by Rule 25-7.135. This repeal eliminates a reporting requirement that is currently included in the utility's annual report. Rule 25-7.1352 is to be amended to update the reference to the revised Commission Form PSC/ECR 013-G, entitled "Investor-Owned Natural Gas Utility Earnings Surveillance Report (ESR)." The year end schedules have been deleted since average schedules are used to monitor earnings. Also, the amendment changes the filing of monthly ESRs to quarterly filings. Also, a definition of good cause was added to the rule. Rule 25-7.1353 is to be amended to require each investor-owned natural gas utility with more than 50,000 customers to file with the Commission its forecasted

financial information on Commission Form PSC/ECR 023-G, entitled "Investor-Owned Natural Gas Utility Forecasted Earnings
Surveillance Report." Changing the monthly ESR to quarterly makes the forecasted ESR more crucial for monitoring earnings. Also, a definition of good cause was added to the rule.

INSTRUCTIONS FOR FILING THE ANNUAL REPORT OF NATURAL GAS UTILITIES

GENERAL INSTRUCTIONS

- Prepare this report in conformity with the Uniform System of Accounts (18 CFR 201) (U.S. of A.).
 Interpret all accounting words and phrases in accordance with the U.S. of A.
- II. Enter in whole numbers (dollars or Mcf) only, except where otherwise noted. (Enter cents for averages and figures per unit where cents are important.) The truncating of cents is allowed except on the four basic financial statements where rounding to dollars is required. The amounts shown on all supporting pages must agree with the amounts entered on the statements that they support. When applying thresholds to determine significance for reporting purposes, use for balance sheet accounts the balances at the end of the current reporting year, and use for statement of income accounts the current year's amounts.
- III. Complete each question fully and accurately, even if it has been answered in a previous annual report. Enter the word "None" where it truly and completely states the fact.
- IV. For any page that is not applicable to the respondent, enter the words "Not Applicable" on the particular page.
- V. Provide a supplemental statement further explaining accounts or pages as necessary. Attach the supplemental statement to the page being supplemented on 8 1/2 by 11 inch paper. Provide the appropriate identification information on the supplemental page, including the title of the page and the page number. Do not change the page numbers.
- VI. Do not make references to reports of previous years or to other reports in lieu of required entries, except as specifically authorized.
- VII. Wherever schedule pages refer to figures from a previous year, the figures reported must be based upon those shown by the annual report of the previous year, or an appropriate explanation given as to why different figures were used.
- VIII. Report all gas volumes on a pressure base of 14.73 psia and a temperature base of 60° F.

DEFINITIONS

- Btu per cubic foot The total heating value expressed in Btu, produced by the combustion, at constant pressure, of the amount of the gas which would occupy a volume of 1 cubic foot at a temperature of 60° F if saturated with water vapor and under a pressure equivalent to that of 30 inches of mercury at 32° F, and under standard gravitational force (980.665 cm per sec. ²) with air of the same temperature and pressure as the gas, when the products of combustion are cooled to the initial temperature of gas and air when the water formed by combustion is condensed to the liquid state. (Sometimes called gross heating value or total heating value.)
- II. Respondent The person, corporation, licensee, agency, authority, or other legal entity or instrumentality in whose behalf the report is made.

NOTES TO THE FINANCIAL STATEMENTS ON A CONSOLIDATED BASIS

- 1. Use the space below for important notes regarding the Balance Sheet. Statement of Income for the year, Statement of Retained Earnings for the year, and Statement of Changes in Financial Position, or any account thereof. Classify the notes according to each basic statement, providing a subheading for each statement except where a note is applicable to more than one statement.
- 2. Furnish particulars (details) as to any significant contingent assets or liabilities existing at end of year, including a brief explanation of any action initiated by the Internal Revenue Service involving possible assessment of additional income taxes of material amount, or of a claim for refund of income taxes of a material amount initiated by the utility. Give also a brief explanation of any dividends in arrears on cumulative preferred stock.
- 3. For Account 116, Utility Plant Adjustments, explain the origin of such amount, debits and credits during the year, and

- plan of disposition contemplated, giving references to Commission orders or other authorizations respecting classification of amounts as plant adjustments and requirements as to disposition thereof.
- 4. Where Accounts 189, Unamortized Loss on Reacquired Debt, and 257, Unamortized Gain on Reacquired Debt, are not used, give an explanation, providing the rate treatment given these items. See General Instruction 17 of the Uniform System of Accounts.
- 5. Give a concise explanation of any retained earnings restrictions and state the amount of retained earnings affected by such restrictions.
- 6. If the notes to financial statements relating to the respondent company appearing in the annual report to the stockholders are applicable and furnish the data required by instructions above and on pages 8-10, such notes may be attached hereto.

LONG-TERM DEBT (Accounts 221, 222, 223, and 224)

1. Report by balance sheet Account the particulars (details) concerning long-term debt included in Accounts 221, Bonds, 222, Reacquired Bonds, 223, Advances from Associated Companies, and 224, Other Long-Term Debt. If information to meet the stock exchange reporting requirement outlined in column (a) is available from the SEC 10-K Report Form Filling, a specific reference to the report form (i.e., year and company title) may be reported in column (a) provided the fiscal years for both the 10-K report and this report are compatible.

 For advances from Associated Companies, report separately advances on notes and advances on open accounts. Designate demand notes as such. Include in column (a) names of associated companies from which advances were received.

3. If the respondent has any long-term securities which have been nominally issued and are nominally outstanding at end of year, describe such securities in a footnote.

4. If interest expense was incurred during the year on any obligations retired or reacquired before end of year, include such interest in column (f). Explain in a footnote any difference between the total of column (f) and the total of Account 427, Interest on Long-Term Debt and Account 430, Interest on Debt to Associated Companies.

RECONCILIATION OF REPORTED NET INCOME WITH TAXABLE INCOME FOR FEDERAL INCOME TAXES

1. Report the reconciliation of reported net income for the year with taxable income used in computing Federal income tax accruals and show computation of such tax accruals. Include in the reconciliation, as far as practicable, the same detail as furnished on Schedule M-1 of the tax return for the year. Submit a reconciliation even though there is no taxable income for the year. Indicate clearly the nature of each reconciling amount.

2. If the utility is a member of a group which files a consolidated Federal tax return, reconcile reported net income with taxable net income as if a separate return were to be filed, indicating, however, intercompany amounts to be eliminated in such a consolidated return. State names of group members, tax assigned to each group member, and basis of allocation, allocation, assignment, or sharing of the consolidated tax among the group members.

GAS OPERATING REVENUES (Account 400)

- 1. Report below natural gas operating revenues for each prescribed account in total.
- 2. Report number of customers, columns (f) and (g), on the basis of meters, except that where separate meter readings are added for billing purposes, one customer should be counted for each group of meters added. The average number of customers means the average of twelve figures at the close of each month.
- 3. Report quantities of natural gas sold in therms (14.73 psia at 60 F).
- 4. Report gas service revenues and therms sold by rate schedule.

5. If increases or decreases from previous year (columns (c),(e), and (g)), are not derived from previously reported figures, explain

DISTRIBUTION OF SALARIES AND WAGES

Report below the distribution of total salaries and wages for the year. Segregate amounts originally charged to clearing accounts to Utility Departments, Construction, Plant Removals, and Other Accounts, and enter such amounts in the appropriate lines and columns provided. In determining this segregation of salaries and wages originally charged to clearing accounts, a method of approximation giving substantially correct results may be used.

INVESTOR-OWNED NATURAL GAS UTILITY EARNINGS SURVEILLANCE REPORT

INVESTOR-OWNED NATURAL GAS UTILITY EARNINGS SURVEILLANCE REPORT

The earnings surveillance report (ESR) consists of the following schedules:

SCHEDULE 1 - Earnings Surveillance Report Summary

SCHEDULE 2 - Average Rate Base

SCHEDULE 3 - Net Operating Income

SCHEDULE 4 - Capital Structure

SCHEDULE 5 - Earned Return on Common Equity

The above schedules represent the data that is to be filed by each investor-owned natural gas company. An investor-owned natural gas utility may, at its own option, include any additional schedules that it deems appropriate or necessary for further explanation or clarification of the data reported.

Requests for extension of time in which to file must be submitted in writing prior to the due date for the data to the following:

Florida Public Service Commission Division of Economic Regulation Bureau of Surveillance/Finance 2540 Shumard Oak Boulevard Tallahassee, FL 32399-0865

SCHEDULE 1 EARNINGS SURVEILLANCE REPORT SUMMARY

The purpose of this schedule is to summarize the results of the calculations required by the other schedules. This summary also provides a composite overview of the utility's current earnings on a single page.

Although this schedule only summarizes other schedules, it is necessary to define a few of the terms utilized in the schedule. These are as follows: Per Books - This term means that the amounts reported represent the amounts as recorded in the accounting records of the utility.

Actual per books rate base includes construction work in progress on which allowance for funds used during construction is not charged and a working capital allowance that is adjusted only to exclude those amounts that are includible in the capital structure. Since the per books amounts also would include common use plant, it is necessary to allocate common expenses to non-utility operations.

Actual per books net operating income should be computed consistent with the per books rate base determination. Since the per books amounts also would include common use expenses, it is necessary to allocate common expenses to non-utility operations.

FPSC Adjustments - The adjustments reflected in this column should represent all of the adjustments required to adjust the per books amounts in accordance with Commission policies, practices, and adjustments made in the utility's most recent rate proceeding. This includes the adjustments made by the utility that were not in dispute, but were accepted by the Commission without direct reference in the order. However, those adjustments that can be considered to be annualizing or pro forma should not be included.

FPSC net operating income adjustments should include the elimination of cost recovery clause related revenues and expenses, such as the Purchased Gas Adjustment and the Energy Conservation Cost Recovery Clause, if applicable.

Pro Forma Adjustments - This type of adjustment refers to those adjustments that

<u>Pro Forma Adjustments</u> - This type of adjustment refers to those adjustments that would distort the utility's earned rate of return if they were included in the "FPSC Adjustments" category. The most specific example is the effect of a recent rate increase/decrease. When a rate increase/decrease becomes effective, the operating revenues and related expenses are annualized as though the rate increase had actually been in effect for the entire preceding 12 month period. Unless the new rates have been in effect for that one year period, the utility would not have actually billed those new rates for the entire 12 month period. Therefore, it would not be appropriate to include those revenues in the income statement for the purposes of evaluating the utility's earned rate of return. This indicator should provide a forward look for earnings and a forecast of future performance on a regulatory basis.

SCHEDULE 2 AVERAGE RATE BASE

This schedule presents the data necessary to adjust the utility's per books rate base amounts for use in calculating the average earned rate of return on a Per Books basis, an FPSC Adjusted basis and a Pro Forma basis.

The terms, "Per Books," "FPSC Adjusted," and "Pro Forma Adjustments" have previously been defined in the explanation of SCHEDULE 1. Except for these items. SCHEDULE 2 is self explanatory.

In recognition of the fact that there may be numerous adjustments to the per books amount of working capital, only the total amount of the adjustments to

working capital needs to be shown on this page, if an additional schedule is provided which shows each specific adjustment.

This schedule also includes a section for calculating the average rate base excluding flex rate revenues that have been included for the twelve month period. The flex rate revenue adjusted average rate base is to be used in calculating the overall rate of return for the purpose of calculating an earned return on common equity excluding flex rate revenues in Item B of SCHEDULE 5.

SCHEDULE 3 NET OPERATING INCOME

This schedule presents the data necessary to adjust the utility's per books income statement amounts for use in calculating the average earned rate of return on a Per Books basis, an FPSC Adjusted basis and a Pro Forma basis.

The terms, "Per Books," "FPSC Adjusted," and "Pro Forma Adjustments" have previously been defined in the explanation of SCHEDULE 1. Except for these items, SCHEDULE 3 is self explanatory.

This schedule also includes a section for calculating net operating revenue excluding flex rate revenues that have been included for the twelve month period. The flex rate revenue adjusted net operating revenue is to be used in calculating the overall rate of return for the purpose of calculating an earned return on common equity excluding flex rate revenues in Item B of SCHEDULE 5.

SCHEDULE 4 CAPITAL STRUCTURE

This schedule shows the computation of the average required rates of return on a FPSC Adjusted basis. Inherent in this computation is the reconciliation of the amount of capital with the rate base using the same procedures employed by the Commission in the utility's last rate proceeding. The terms "Per Books" and "FPSC Adjusted" have previously been defined in the explanation of SCHEDULE 1. It is necessary, however, to explain the following terms:

<u>Specific</u> - Based on the adjustments made to the rate base, this column should reflect the cumulative effect of all the adjustments that were made to reconcile the rate base and the capital structure on a basis other than a pro rata basis.

<u>Pro Rata</u> - Based on the adjustments made to the rate base, this column should reflect the cumulative effect of all the adjustments that were made to reconcile. the rate base and capital structure on a pro rata basis.

Except for these two terms, this schedule is self explanatory.

SCHEDULE 5

EARNED RETURN ON COMMON EQUITY

This schedule shows the calculation of the utility's average earned return on common equity on an FPSC adjusted basis.

 $\underline{\text{Item A}}$ is the average earned return on common equity $\underline{\text{including}}$ the flex rate revenues (surplus/deficit) that are included in net operating income in computing the utility's FPSC Adjusted Average Overall Rate of Return for the period.

 $\underline{\text{Item B}}$ is the average earned return on common equity $\underline{\text{excluding}}$ the flex rate revenues (surplus/deficit) that are included in net operating income in computing the utility's FPSC Adjusted Average Overall Rate of Return for the period.

The forecasted earnings surveillance report (FESR) consists of the following schedules:

SCHEDULE 1 - Forecasted Earnings Surveillance Report Summary

SCHEDULE 2 - Forecasted Average Rate of Return

SCHEDULE 3 - Forecasted Capital Structure

SCHEDULE 4 - Forecasted Earned Return on Common Equity

SCHEDULE 5 - Forecast Assumptions

The above schedules represent the data that is to be filed by each natural gas utility. An investor-owned natural gas utility may, at its own option, include any additional schedules that it deems appropriate or necessary for further explanation or clarification of the data reported.

Requests for extension of time in which to file must be submitted in writing prior to the due date for the data to the following:

SCHEDULE 1 FORECASTED EARNINGS SURVEILLANCE REPORT SUMMARY

The purpose of this schedule is to summarize the results of the calculations required by the other schedules. This summary also provides a composite overview of the utility's forecasted earnings on a single page.

Although this schedule only summarizes other schedules, it is necessary to define a few of the terms utilized in the schedule. These are as follows:

Forecasted Per Books - This term means that the amounts reported represent the amounts expected to be recorded in the accounting records of the utility.

Forecasted per books rate base includes construction work in progress (CWIP) on which allowance for funds used during construction (AFUDC) is not charged and a working capital allowance that is adjusted only to exclude those amounts that are includible in the capital structure. Also since the per books amounts include common use plant, it is necessary to allocate common expenses to non-utility operations.

Forecasted per books net operating income (NOI) should be computed consistent with the per books rate base determination. Also since the per books amounts would include common use expenses, it is necessary to allocate common expenses to non-utility operations.

Forecasted FPSC Adjustments - The adjustments reflected in this column should represent all of the adjustments required to adjust the per books amounts in accordance with Commission policies, practices, and adjustments made in the utility's most recent rate case. This includes the adjustments made by the utility that were not in dispute, but were accepted by the Commission without direct reference in the order. However, those adjustments that can be considered to be annualizing or pro forma should not be included.

FPSC NOI adjustments should include the elimination of purchased gas related revenues and expenses, as well as conservation related revenues and expenses, if applicable.

SCHEDULE 2 FORECASTED AVERAGE RATE OF RETURN

This schedule presents the data necessary to adjust the utility's per books amounts and calculate the average earned rate of return on a Per Books and FPSC Adjusted basis. This schedule consists of the following two pages:

Page 1 - Forecasted Rate Base

Page 2 - Forecasted Income Statement

The terms "Per Books" and "FPSC Adjusted" have previously been defined in the explanation of SCHEDULE 1. Except for these items, SCHEDULE 2 is self explanatory.

In recognition of the fact that there may be numerous adjustments to the per books amount of working capital, only the total amount of the adjustments to working capital needs to be shown on Page 1, if an additional schedule is provided which shows each specific adjustment.

This schedule also includes a section for calculating the average rate base and NOI excluding flex rate revenues that have been included for the twelve month period. The flex rate revenue adjusted average rate base and NOI are to be used in calculating the overall rate of return for the purpose of calculating an earned return on common equity excluding flex rate revenues in Item B of SCHEDULE 4.

SCHEDULE 3 FORECASTED CAPITAL STRUCTURE

This schedule shows the computation of the average required rate of return on a FPSC Adjusted basis. Inherent in this computation, this schedule reconciles the amount of capital to the rate base total using the same procedures employed by the Commission in the utility's last rate proceeding. The terms "Per Books" and "FPSC Adjusted" have previously been defined in the explanation of SCHEDULE 1. It is necessary, however, to explain the following terms:

Specific - Based on the adjustments made to the rate base, this column should reflect the cumulative effect of all the adjustments that were made to reconcile the rate base and the capital structure on a basis other than pro rata.

Pro Rata - Based on the adjustments made to the rate base, this column should reflect the cumulative effect of all the adjustments that were made to reconcile the rate base and capital structure on a pro rata basis.

Except for these two terms, this schedule is self explanatory.

SCHEDULE 4 FORECASTED EARNED RETURN ON COMMON EQUITY

This schedule shows the calculation of the utility's average earned return on common equity on an FPSC adjusted basis.

Item A is the average earned return on common equity including the flex rate revenues (surplus/deficit) that are included in NOI in computing the utility's FPSC Adjusted Average Overall Rate of Return for the period.

Item B is the average earned return on common equity excluding the flex rate revenues (surplus/deficit) that are included in NOI in computing the utility's FPSC Adjusted Average Overall Rate of Return for the period.

SCHEDULE 5 FORECAST ASSUMPTIONS

The Forecast Assumptions for Customer and Therm Sales are to be supplied for the forecast year and for the year preceding the forecast year. Customers are to be calculated on an annual average basis. Therm sales are annual totals.

The Other Forecast Assumptions include any assumptions that are expected to materially impact the Company's operations during the forecast year. Examples include major plant additions, work force reductions, and major accounting changes. Attach additional sheets if more space is needed.

SCHEDULE 2 FORECASTED AVERAGE RATE OF RETURN

This schedule presents the data necessary to adjust the utility's per books amounts and calculate the average earned rate of return on a Per Books and FPSC Adjusted basis. This schedule consists of the following two pages:

Except for these two terms, this schedule is self explanatory.

SCHEDULE 4 FORECASTED EARNED RETURN ON COMMON EQUITY

This schedule shows the calculation of the utility's average earned return on common equity on an FPSC adjusted basis.

Item A is the average earned return on common equity including the flex rate revenues (surplus/deficit) that are included in NOI in computing the utility's FPSC Adjusted Average Overall Rate of Return for the period.

Item B is the average earned return on common equity excluding the flex rate revenues (surplus/deficit) that are included in NOI in computing the utility's FPSC Adjusted Average Overall Rate of Return for the period.
