The Interrogatories should be answered with reference to all information in your possession, custody or control or reasonably available to you. When the information requested by an Interrogatory varies over time, state the response for each period of time as to which the response differs, and identify the time periods. If you cannot answer an Interrogatory in full after exercising due diligence to secure all the information requested, or do not have precise information with regard to any part of any Interrogatory, you should so state in your response, describing in full your effort to obtain the information requested, and then proceed to respond to the fullest extent possible. If you object to any part of any Interrogatory, answer all parts of the Interrogatory to which you do not object, and as to each part to which you do object, separately set forth the specific basis for the objection.

If any response required by way of answer to these Interrogatories is considered to contain confidential or protected information, please furnish this information subject to the appropriate protective agreement.

In the event you assert that any information requested herein is privileged, you should identify any such information and any supporting documents in your written response, by date, and provide a general description of its content. In the event that you assert that any requested information is not available in the form requested, in your written response thereto, you should disclose the following:

Unless otherwise indicated, the information sought in these Interrogatories relates to KMC's and Sprint's operations in Florida.

INTERROGATORIES

17. Describe by jurisdiction (e.g., local, intrastate toll, interstate toll or other) all of the types of traffic originated from KMC's network or delivered to KMC from other carriers/entities for termination on Sprint's network pursuant to its interconnection agreement with Sprint. If traffic is identified as "other," specifically describe the nature of the traffic.

For the purposes of this Interrogatory, local means originating and terminating within the same local calling area including mandatory EAS, intrastate toll means originating outside the local calling area or mandatory EAS area in which the traffic is terminated, but within the state of Florida, and interstate toll means originating outside of Florida. For the purpose of this Interrogatory the originating point of the call is based on the telephone number of the calling party who initiated the call regardless of how the call is subsequently routed.

RESPONSE:

18. For each of the traffic types identified in Interrogatory No. 17 above:

- a. Quantify the portion of traffic currently being delivered over local interconnection trunks.
- b. For the portion of the traffic identified in 18 (a) quantify the portion of the traffic that utilizes the Internet Protocol and is considered to be VoIP traffic.

For the purposes of this Interrogatory "quantify" means "to express the amount of" and should be expressed in actual minutes of use and as a percentage of the total minutes of use.

RESPONSE:

19. For all traffic identified in Interrogatory No. 18 (b) above, provide a detailed description of how the traffic is routed. The description should include the network components utilized, including but not limited to, packet switches, circuit switches, media gateways, routers, circuit types (circuit types may be local interconnection, toll circuits, PRI circuits, unbundled network elements, etc.). The description should identify the points in the network where the traffic is Internet Protocol. If it is something other than Internet Protocol, your description should identify the protocol. KMC may provide a diagram in lieu of a written description in response to this Interrogatory.

RESPONSE:

20. Describe the intercarrier compensation that KMC currently pays Sprint for each of the traffic types identified in Interrogatory No. 17.

RESPONSE:

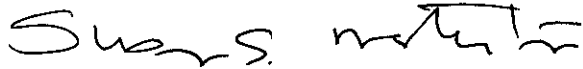

21. Describe the intercarrier compensation that KMC believes it should pay Sprint for traffic it delivers to Sprint that utilizes the Internet Protocol. Explain the basis for KMC's belief that this intercarrier compensation is appropriate, including any supporting FCC or FPSC rulings.

RESPONSE:

22. Provide a detailed description of how all traffic delivered by KMC to Sprint over local interconnection facilities that uses the Internet protocol would be identified and quantified by KMC or Sprint. If KMC identified different routing methods in response to Interrogatory No. 19, describe how Sprint would be able to distinguish traffic that utilizes the Internet protocol for one routing method compared to each other routing method or protocol.

RESPONSE:

Respectfully submitted this 4th day of February 2005.
