Division of the Commission Clerk & Administrative Services
Florida Public Service Commission
2540 Shumard Oak Boulevard
Tallahassee, FL 32300-0850

Dear Sirs:

We strongly object to the application by MSM Utilities to amend it's Water Certificate No. 611-W and it's Wastewater certificate No.527-S by the addition of said territory as described in exhibit A of MSM Utilities Legal Notice of Oct. 18, 2005.

The Owner of the Utility did not contact or inform me of their intent prior to the Legal Notice.

We have been given only 30 day's to obtain additional information as to the impact this will have financially on our area. This is not enough time to attain this information.

We are retired living on a fixed income. We lost our home in Punta Gorda, FL. because of hurricane Charlie.

We had to look carefully at our finances to determine if we could afford to rebuild.

Charlotte Co. required all property owners, that lost their homes, to have their septic systems pumped out and to obtain a permit . The cost for this was born by the property owners.

Approval of these permits will make it possibly for Charlotte Co. to require all property owners be connected to water and sewer facilities in the very near future.

We do not need any further expenses for the next 5-7 years,so that we can recover from the hurricane.
