Director:

Please file this objection as necessary to comply with the appropriate rules.

We seriously object to the addition of territory of MSM Utilities LLC water certificate no. 611-W and wastewater certificate no. 527-S to add territory in Charlotte County, Florida.

When hurricane Charlie hit on August 13, 2004 most of the homes in our subdivision were completely demolished. Before occupancy permit could be obtained for the many new homes, the septic systems had to be upgraded to conform to the standards set forth by the county & state. By these standards, these systems are completely adequate.

We object to MSM Utilities LLC (a private company) attempting to force us thru state intervention to underwrite their cost of further developing the property, which at this time is under the jurisdiction of the two aforementioned water certificates over

Most of the property owners in our subdivision have suffered alot financially because of the hurricanes last year, and almost all are retired and are on a fixed income, therefore the appropriation would add a significant cost to each property owner.

We are only part time residents and we don't want to have to pay for water & sewer bills for the month we aren't living there.

Thank you,
Larry J. Burns
