Thanks.

I should have clarified it better. The docket was filed yesterday, but I just entered it in CMS less than an hour ago. It is currently over in the Imaging Center for scanning. It will show up in the PDF format before the end of the day today. Just please be on the lookout for it and advise at that time if there are any changes. Thank you.

Dorothy, I don't know anything about this case, and I can't pull up the petition in CMS. Without being able to see the petition that was filed, and whether we were just copied on a court filing or whether someone is asking the Commission to do something, I can't help

000

you.

Well, we don't have any authority to issue writs of mandamus that I know of. It is not a court case is it? I would think the only way we could deal with it is as a complaint for provision of service, so I don't know why we would be involved. The "mandamus" title sounds a little off to me, maybe they could call it a complaint of some kind.

David, Dorothy has asked me to look at the docket title for 070312-WS - Petition for writ of mandamus ordering Utilities, Inc. of Florida and Wedgefield Utilities, Inc. to provide water and wastewater service to Baypointe Builders, LLC in Orange County.

This looks like something that your shop would handle. Please let me know if you think differently.

Thanks, MA

Mary Anne,

The docket mentioned above is a new one that was created yesterday. I have assigned GCL as OPR, and ECR as OCR. Please review this docket carefully and advise if there should be any changes made to the docket title, staff/GCL assignments, utilities, etc.

Thank you.
