BEFORE THE FLORIDA PUBLIC SERVICE COMMISSION

In re: Verizon's Notice of) Adoption of Interconnection Agreement) Between AT&T Communications) Of the Southern States, LLC d/b/a) AT&T and Embarg Florida, Inc.)

Filed: August 13, 2007

VERIZON'S NOTICE OF ADOPTION OF INTERCONNECTION AGREEMENT BETWEEN AT&T COMMUNICATIONS OF THE SOUTHERN STATES, LLC D/B/A <u>AT&T AND EMBARQ FLORIDA, INC.</u>

MCImetro Access Transmission Services LLC d/b/a Verizon Access Transmission Services ("Verizon") hereby provides notice that effective immediately Verizon has adopted in its entirety, pursuant to section 252(i) of the Communications Act, as amended, 47 U.S.C. § 252(i), the Master Interconnection, Unbundling, Collocation and Resale Agreement and Addendum No. 1 and Amendment No. 1 between AT&T Communications of the Southern States, LLC d/b/a AT&T and Embarq Florida, Inc. (the "Agreement"), which was deemed approved as of November 7, 2006 in Docket No. 060543-TP. The Agreement replaces in its entirety the existing interconnection agreement between MCImetro Access Transmission Services LLC and Sprint-Florida, Incorporated dated March 1, 2002. A copy of the Agreement that Verizon is adopting is enclosed for filing with the Commission.

> DOCUMENT NUMBER-DATE 07104 AUG 13 5 FPSC-COMMISSION CLERK

Respectfully submitted on August 13, 2007.

AMENDMENT NO. 1 TO THE MASTER INTERCONNECTION, COLLOCATION AND RESALE AGREEMENT FOR THE STATE OF FLORIDA BETWEEN EMBARQ FLORIDA, INC. AND AT&T

Amendment No. 1 made this 7th day of July, 2006, is entered into by and between AT&T Communications of the Southern States d/b/a AT&T ("CLEC"), a Delaware corporation, and Embarq Florida, Inc. ("Embarq"), a Florida corporation. Embarq and CLEC are collectively referred herein as the "Parties".

BACKGROUND:

WHEREAS, the Parties entered into a Master Interconnection, Collocation and Resale Agreement for the state of Florida ("Agreement") on March 3, 2006 and an Addendum No. 1 to the Agreement on May 8, 2006.

WHEREAS, the Parties wish to amend the Agreement and the Addendum No. 1 to reflect the legal entity name change for Embarq Florida, Inc.

In consideration of the promises and agreements contained in this Amendment, the Parties hereby agree as follows:

AMENDMENT:

- 1. The Agreement and Addendum No. 1 to the Agreement both contained the former legal entity name of Sprint-Florida, Incorporated. This Amendment replaces the former legal entity name of Sprint-Florida with the new legal entity name of Embarq-Florida, Inc.
- 2. Except as modified herein, the terms and conditions of the Parties Agreement and Addendum shall continue in full force and effect.
- 3. This Amendment No. 1 is executed by authorized representatives of Embarq and CLEC is made a part of and incorporates the terms and conditions of the Agreement and the Addendum No. 1.

IN WITNESS WHEREOF, Embarq and CLEC has caused this Amendment No. 1 to be executed by its duly authorized representatives.

ADDENDUM NO. 1 TO INTERCONNECTION AGREEMENT BETWEEN AT&T COMMUNICATIONS OF THE SOUTHERN STATES, LLC D/B/A AT&T AND SPRINT- FLORIDA, INCORPORATED

This Addendum is made this May 8, 2006, by and between AT&T Communications of the Southern States, LLC d/b/a AT&T ("CLEC") and Sprint – Florida, Incorporated ("Sprint"), a Florida corporation.

1. BACKGROUND

CLEC and Sprint entered into an Interconnection Agreement ("Agreement") on March 3, 2006 for the state of Florida.

CLEC and Sprint desire to modify the Agreement to incorporate terms, conditions and rates consistent with collocation provisions.

In consideration of the terms and conditions contained in this Addendum No.1, the Parties agree to add the following to the Agreement:

2. TERMS AND CONDITIONS

For CLEC's collocation arrangements that were installed by Sprint prior to the effective date of this Agreement the following terms, conditions and rates shall apply in addition to those collocation terms in Part L.

In the event CLEC desires to decommission the use of the Collocation Space in a manner that requires additional engineering or preparation work by Sprint, CLEC will complete a subsequent Application (augment request) detailing all information regarding the modification to the Collocation Space. Sprint will perform the work to decommission CLEC's collocation arrangement that was installed by Sprint.

Five (5) pre-existing collocation arrangements exist that are provisioned by Sprint and all materials are provided by Sprint at the time of this addendum:

- Altamonte Springs, FL ALSPFLXADS0 Circuit ID: 85.RLFS.394117..UFLG
- Fort Walton Beach, FL FTWBFLXADS0 Circuit ID: 85.RLFS.279027..UFLG
- Ocala, FL OCALFLXADS0 Circuit ID: 85.RLFS.394118..UFLG
- Tallahassee, FL TLHSFLXADS0 Circuit ID: 85.RLFS.279150..UFLG
- Winter Park, FL WNPKFLXAPS0 Circuit ID: 85.RLFS.394116..UFLG

Table 2 Addendum for Sprint provisioned arrangements

Rate Element Description		
Physical Collocation Elements	Non-Recurring Rate	Monthly Recurring Rate
Cross Connect Facilities		
DS0 Switchboard Cable (per 100-Pair Cable)	•	\$ 36.59
DS1 Cross Connect Cable (per DS1 in 28-pack Increments)	•	\$ 2.93
DS3 Cross Connect Cable (per DS3 in 12-pack Increments)		\$ 25.85
Virtual Collocation Elements	Non-Recurring Rate	Monthly Recurring Rate
Cross Connect Facilities		
DS0 Switchboard Cable (per 100-Pair Cable)	-	\$ 36.59
DS1 Cross Connect Cable (per DS1 in 28-pack Increments)	•	\$ 4.45
DS3 Cross Connect Cable (per DS3 in 12-pack Increments)		\$ 53.55

** Customer is responsible for contracting for construction through approved third-party vendors. These prices are for Sprint's portion of the work required and do not include the customer's charges from their vendor.

*** Rate determined through ICB process and subsequent study after initial request.

3. GENERAL

- A. Other than as set forth above, the Agreement remains unchanged and in full force and effect.
- B. Except as otherwise indicated defined terms in this Addendum have the same meaning as in the Agreement.
- C. This Addendum No. 1 executed by authorized representatives of Sprint and CLEC is made a part of and incorporates the terms and conditions of the Agreement.

IN WITNESS WHEREOF, the Parties have executed this Addendum No. 1 the year and day first written above.

Rev. 04-11-05

INTERCONNECTION AND RESALE AGREEMENT

This Interconnection, Collocation and Resale Agreement (the "Agreement"), dated this 3rd day of March, 2006, is entered into by and between AT&T Communications of the Southern States, LLC d/b/a AT&T, a Delaware corporation, and Sprint-Florida, Incorporated ("Sprint"), a Florida corporation, to establish the rates, terms and conditions for local interconnection, local resale, and purchase of unbundled network elements (individually referred to as the "service" or collectively as the "services").

WHEREAS, the Parties wish to interconnect their local exchange networks for the purposes of transmission and termination of calls, so that customers of each can receive calls that originate on the other's network and place calls that terminate on the other's network, and for AT&T's use in the provision of exchange access ("Local Interconnection"); and

WHEREAS, AT&T wishes to purchase Telecommunications Services for resale to others, and Sprint is willing to provide these services; and

WHEREAS, AT&T wishes to purchase unbundled network elements, ancillary services and functions and additional features ("Network Elements") for the provision of Telecommunications Services to others, and Sprint is willing to provide unbundled network elements and services; and

WHEREAS, the Parties intend the rates, terms and conditions of this Agreement, and their performance of obligations thereunder, to comply with the Communications Act of 1934, as amended (the "Act"), the Rules and Regulations of the Federal Communications Commission ("FCC"), and the orders, rules and regulations of the Commission; and

WHEREAS, the parties wish to replace any and all other prior agreements, written and oral, applicable to the state of Florida.

Now, therefore, in consideration of the terms and conditions contained in this Agreement, AT&T and Sprint hereby mutually agree as follows:

PART A - DEFINITIONS

1. DEFINED TERMS

- 1.1. Capitalized terms defined in this Section shall have the meanings as set forth in this Agreement. Other terms used but not defined will have the meanings ascribed to them in the Act or in the Rules and Regulations of the FCC or the Commission. The Parties acknowledge that other terms appear in this Agreement, which are not defined or ascribed as stated above. The parties agree that any such terms shall be construed in accordance with their customary usage in the telecommunications industry as of the Effective Date of this Agreement.
- 1.2. "911 Service" means a universal telephone number which gives the public direct access to the Public Safety Answering Point ("PSAP"). Basic 911 service collects 911 calls from one or more local exchange switches that serve a geographic area. The calls are then sent to the correct authority designated to receive such calls.
- 1.3. "Access Services" refers to interstate and intrastate switched access and private line transport services.
- 1.4. "Act" means the Communications Act of 1934, as amended.
- 1.5. "Affiliate" is as defined in the Act.
- 1.6. "Augment" refers to a modification (increase/addition or decrease/reduction) to an existing collocation arrangement. Examples include changes to the space, cage, power, cross-connect cabling, conduit, vault, riser, or cabling associated with the collocation arrangement.
- 1.7. "Automated Message Accounting" ("AMA") is the structure inherent in switch technology that initially records telecommunication message information. AMA format is contained in the Automated Message Accounting document, published by Telcordia as GR-1100-CORE which defines the industry standard for message recording.
- 1.8. "Automatic Location Identification" ("ALI") means a feature that provides the caller's telephone number, address and the names of the Emergency Response agencies that are responsible for that address.
- 1.9. "Automatic Location Identification/Data Management System" ("ALI/DMS") means the emergency service ("E911/911") database containing subscriber location information (including name, address, telephone number, and sometimes special information from the local service provider) used to determine to which Public Safety Answering Point ("PSAP") to route the call.
- 1.10. "Automatic Number Identification" ("ANI") is a feature that identifies and displays the number of a telephone line that originates a call.
- 1.11. "Automatic Route Selection" ("ARS") is a service feature associated with a specific grouping of lines that provides for automatic selection of the least expensive or most

appropriate transmission facility for each call based on criteria programmed into the system.

- 1.12. "ATU C" refers to an ADSL Transmission Unit Central Office.
- 1.13. "Busy Line Verify/Busy Line Verify Interrupt" ("BLV/BLVI") means an operator call in which the caller inquires as to the busy status of, or requests an interruption of a call on another subscriber's telephone line.
- 1.14. "Business Day(s)" means the days of the week excluding Saturdays, Sundays, and all Sprint holidays.
- 1.15. "Business Line" is a Sprint-owned switched access line used to serve a business customer, whether by Sprint or by a competitive LEC that leases the line from Sprint. The number of business lines in a Wire Center shall equal the sum of all Sprint business switched access lines, plus the sum of all UNE loops connected to that Wire Center, including UNE loops provisioned in combination with other unbundled elements. Among these requirements, business line tallies (1) shall include only those access lines connecting end-user customers with Sprint end-offices for switched services, (2) shall not include non-switched special access lines, (3) shall account for ISDN and other digital access lines by counting each 64 kbps-equivalent as one line. For example, a DS1 line corresponds to 24 64 kbps-equivalents, and therefore to 24 "business lines."
- 1.16. "Cable Vault" shall mean a location in a Premises where facilities enter the Premises from the Outside Cable Duct and access the Inner Duct for distribution within the Premises.
- 1.17. "Carrier Access Billing System" ("CABS") is the system which is defined in a document prepared under the direction of the Billing Committee of the OBF. The CABS document is published by Telcordia in Volumes 1, 1A, 2, 3, 3A, 4 and 5 as Special Reports SR-OPT-001868, SR-OPT-0011869, SR-OPT-001871, SR-OPT-001872, SR-OPT-001873, SR-OPT-001874, and SR-OPT-001875, respectively, and contains the recommended guidelines for the billing of access and other connectivity services. Sprint's carrier access billing system is its Carrier Access Support System (CASS). CASS mirrors the requirements of CABS.
- 1.18. "Central Office Building" or "Building" shall mean a structure (not including a controlled environment vault ("CEV")) housing Sprint equipment that is under the control of Sprint and for which Sprint has the right to grant access and/or occupation by third parties.
- 1.19. "Central Office Switches" are switching facilities within the public switched telecommunications network, including, but not limited to:
 - 1.19.1. "End Office Switches" ("EOs") are switches from which end user Telephone Exchange Services are directly connected and offered.
 - 1.19.2. "Tandem Switches" are switches that are used to connect and switch trunk circuits between and among Central Office Switches.
 - 1.19.3. "Remote Switches" are switches that are away from their host or

control office. All or most of the central control equipment for the remote switch is located at the host or control office.

- 1.20. "Centrex" means a Telecommunications Service associated with a specific grouping of lines that uses central office switching equipment for call routing to handle direct dialing of calls, and to provide numerous private branch exchange-like features.
- 1.21. "CLASS/LASS" (Telcordia Service Mark) refers to service features that utilize the capability to forward a calling party's number between end offices as part of call setup. Features include Automatic Callback, Automatic Recall, Caller ID, Call Trace, and Distinctive Ringing.
- 1.22. "Collocation Arrangement" refers to a single, specific provision of Collocation in a particular Premises, not limited to a cage enclosing AT&T's equipment within the Premises.
- 1.23. "Collocation Space" shall mean an area of space located in a Building to be used by AT&T to house telecommunications equipment. Additionally, roof or wall space used for wireless interconnection shall be included in the definition where applicable.
- 1.24. "Commingle" means the act of Commingling.
- 1.25. "Commingling" means the connecting, attaching, or otherwise linking of an unbundled network element, or a combination of unbundled network elements, to one or more facilities or services that AT&T has obtained at wholesale from Sprint or the combining of an unbundled network element, or a combination of unbundled network elements with one or more such facilities or services.
- 1.26. "Commission" means the Florida Public Service Commission.
- 1.27. "Common Channel Signaling" ("CCS") is a method of digitally transmitting call set-up and network control data over a digital signaling network fully separate from the public switched telephone network that carries the actual call.
- 1.28. "Common Transport" provides a local interoffice transmission path between End Office Switches, between End Office Switches and Tandem Switches and between Tandem Switches in Sprint's network. Common Transport is shared between multiple customers and is required to be switched at the Tandem Switch.
- 1.29. "Confidential and/or Proprietary Information" has the meaning set forth in Section 14 of Part A General Terms and Conditions.
- 1.30. "Controlled Environment Vault" ("CEV") shall mean a below ground room other than a Central Office Building which is controlled by Sprint and which is suitable for collocation of telecommunications equipment under controlled temperature and humidity.
- 1.31. "Control Office" is an exchange carrier center or office designated as the Party's single point of contact for the provisioning and maintenance of its portion of local interconnection arrangements.
- 1.32. "Copper Loop" is a stand-alone local loop comprised entirely of copper wire or cable.

Copper Loops include two-wire and four-wire analog voice-grade copper Loops, digital copper Loops (*e.g.*, DS0s and integrated services digital network lines), as well as two-wire and four-wire copper Loops conditioned to transmit the digital signals needed to provide digital subscriber line services, regardless of whether the copper Loops are in service or held as spares. The copper Loop includes attached electronics using time division multiplexing technology, but does not include packet switching capabilities.

- 1.33. "Custom Calling Features" means a set of Telecommunications Service features available to residential and single-line business customers including call-waiting, call-forwarding and three-party calling.
- 1.34. "Customer Proprietary Network Information" ("CPNI") is as defined in the Act.
- 1.35. "Database Management System" ("DBMS") is a computer process used to store, sort, manipulate and update the data required to provide selective routing and ALI.
- 1.36. "Day" means calendar days unless otherwise specified.
- 1.37. "Dedicated Transport" includes Sprint transmission facilities between Wire Centers or switches owned by Sprint, or between Wire Centers or switches owned by Sprint and switches owned by AT&T, including, but not limited to, DS1-, DS3-, and OCn-capacity level services, as well as dark fiber, dedicated to a particular customer or carrier.
- 1.38. "Demarcation Point" is that point on the loop where Sprint's control of the facility ceases, and the End User Customer's control of the facility begins.
- 1.39. "Digital Subscriber Line Access Multiplexer" ("DSLAM") is equipment that links enduser xDSL connections to a single high-speed packet switch, typically ATM or IP.
- 1.40. "Directory Assistance Database" refers to any subscriber record used by Sprint in its provision of live or automated operator-assisted directory assistance including but not limited to 411, 555-1212, NPA-555-1212.
- 1.41. "Directory Assistance Services" provides listings to callers. Directory Assistance Services may include the option to complete the call at the caller's direction.
- 1.42. "DS1 Loop" is a digital local Loop having a total digital signal speed of 1.544 megabytes per second. DS1 Loops include, but are not limited to, two-wire and four-wire copper Loops capable of providing high-bit rate digital subscriber line services, including T1 services.
- 1.43. "DS3 Loop" is a digital local Loop having a total digital signal speed of 44.736 megabytes per second.
- 1.44. "DSLAM" refers to a Digital Subscriber Line Access Multiplexer.
- 1.45. "Duct" is a single enclosed path to house facilities to provide Telecommunications Services.

- 1.46. "Effective Date" is the date referenced in the opening paragraph on page 1 of the Agreement, unless otherwise required by the Commission.
- 1.47. "Electronic Interface" means access to operations support systems consisting of preordering, ordering, provisioning, maintenance and repair and billing functions.
- 1.48. "Emergency Response Agency" is a governmental entity authorized to respond to requests from the public to meet emergencies.
- 1.49. "Emergency Service Number" ("ESN") is a number assigned to the ALI and selective routing databases for all subscriber telephone numbers. The ESN designates a unique combination of fire, police and emergency medical service response agencies that serve the address location of each in-service telephone number.
- 1.50. "Enhanced Extended Link" ("EEL") for purposes of this Agreement refers to the combination of unbundled network elements, specifically NID, Loop, multiplexing (MUX) if necessary and Dedicated Transport, in the Sprint Network.
- 1.51. "Exchange Message Interface System" ("EMI") is the Industry standard for exchanging telecommunications message information for billable, non-billable, sample settlement and study records. The EMI is published by ATIS (Alliance for Telecommunications Industry Solutions).
- 1.52. "End Date" is the date this Agreement terminates as referenced in 5.1.
- 1.53. "Enhanced 911 Service" ("E911") means a telephone communication service which will automatically route a call dialed "9-1-1" to a designated public safety answering point (PSAP) attendant and will provide to the attendant the calling party's telephone number and, when possible, the address from which the call is being placed and the Emergency Response agencies responsible for the location from which the call was dialed.
- 1.54. "FCC" means the Federal Communications Commission.
- 1.55. "Fiber-based Collocator" means any carrier, unaffiliated with Sprint, that maintains a collocation arrangement in Sprint's wire center, with active electrical power supply, and operates a fiber-optic cable or comparable transmission facility that (1) terminates at a collocation arrangement within the Wire Center; (2) leaves Sprint's Wire Center premises; and (3) is owned by a party other than Sprint or any affiliate of Sprint, except as set forth in this definition. Dark fiber obtained from Sprint on an indefeasible right of use basis shall be treated as non-Sprint fiber-optic cable. Two or more affiliated fiber-based collocators in a single Wire Center shall collectively be counted as a single fiber-based collocator. For purposes of this definition, the term affiliate is defined by 47 U.S.C. § 153(1) and any relevant interpretation in the Act.
- 1.56. "Fiber-to-the-curb Loop" ("FTTC Loop") means a local loop consisting of fiber optic cable connecting to a copper distribution plant that is not more than 500 feet from the customer's premises or, in the case of predominantly residential MDUs, not more than 500 feet from the MDU's MPOE. The fiber optic cable in a fiber-to-the curb loop must connect to a copper distribution plant at a serving area interface from which every other copper distribution subloop also is not more than 500 feet from the respective customer's

premises.

- 1.57. "Fiber-to-the-home Loop" ("FTTH Loop") means a local loop consisting entirely of fiber optic cable, whether dark or lit, and serving an end-user's customer premises or, in the case of predominantly residential multiple dwelling units ("MDUs"), a fiber optic cable, whether dark or lit, that extends to the multiunit premises' minimum point of entry ("MPOE").
- 1.58. "Grandfathered Service" means service which is no longer available for new customers and is limited to the current customer at their current locations with certain provisioning limitations, including but not limited to upgrade denials, feature adds/changes and responsible/billing party.
- 1.59. "High Frequency Portion of the local Loop" ("HFPL") is defined as the frequency range above the voice band on a copper Loop facility that is being used to carry analog circuitswitched voice band transmissions provided by Sprint to the end-user customer.
- 1.60. "Hybrid Loop" means a Local Loop comprised of both fiber optic cable, usually in the feeder plant, and copper wire or cable usually in the distribution plant.
- 1.61. "Incumbent Local Exchange Carrier" ("ILEC") is as defined in the Act.
- 1.62. "Interexchange Carrier" ("IXC") means a provider of interexchange Telecommunications Services.
- 1.63. "Indirect Traffic" means traffic which is originated by one Party and terminated to the other Party in which a third party Telecommunications Carrier provides the intermediary transiting service. Indirect traffic does not require a physical direct trunk group between the Parties.
- 1.64. "ISP-Bound Traffic," for the purposes of this Agreement, is defined as traffic that is transmitted to an Internet Service Provider ("ISP") consistent with the ISP Remand Order.
- 1.65. "Inner Duct" or "Conduit" shall mean any passage or opening in, on, under, over or through the Sprint Central Office Building cable or conduit systems.
- 1.66. "Line Information Data Base" ("LIDB") means a Service Control Point (SCP) database that provides for such functions as calling card validation for telephone line number cards issued by Sprint and other entities and validation for collect and billed-to-third services.
- 1.67. "Live Load Capacity" as it relates to AT&T's collocation space refers to the structural strength of the floor to support the weight of AT&T's property and equipment installed in the collocated space.
- 1.68. "Local Loop" refers to a transmission facility between the main distribution frame [crossconnect], or its equivalent, in a Sprint Central Office or wire center, and up to the demarcation point (e.g. Network Interface Device) at a customer's premises, to which AT&T is granted exclusive use. This includes all electronics, optronics and intermediate devices (including repeaters and load coils) used to establish the transmission path to the

customer premises. Local loops include copper loops, hybrid loops, DS1 loops, DS3 loops, FTTC Loops and FTTH Loops.

- 1.69. "Local Number Portability" ("LNP") means the ability of users of Telecommunications Services to retain, at the same Sprint served rate center, existing telecommunications numbers without impairment of quality, reliability, or convenience when switching from one telecommunications carrier to another.
- 1.70. "Local Service Request" ("LSR") means an industry standard form or a mutually agreed upon change thereof, used by the Parties to add, establish, change or disconnect local services.
- 1.71. "Local Traffic" for the purposes of this Agreement the Parties shall agree that "Local Traffic" means traffic (excluding CMRS traffic) that is originated and terminated within Sprint's local calling area, or mandatory extended area service (EAS) area, as defined by the Commission or, if not defined by the Commission, then as defined in existing Sprint tariffs. For this purpose, Local Traffic does not include any ISP-Bound Traffic.
- 1.72. "Mobile Wireless Service" means any mobile wireless telecommunications service, including any commercial mobile radio service.
- 1.73. "Multiple Exchange Carrier Access Billing" ("MECAB") refers to the document prepared by the Billing Committee of the ATIS Ordering and Billing Forum ("OBF"). The MECAB document contains the recommended guidelines for the billing of an access service provided to a customer by two or more providers or by one provider in two or more states within a single LATA.
- 1.74. "Multiple Exchange Carrier Ordering And Design" ("MECOD") refers to the guidelines for Access Services - Industry Support Interface, a document developed by the Ordering/Provisioning Committee under the auspices of the OBF, which functions under the auspices of the Carrier Liaison Committee ("CLC") of the Alliance for Telecommunications Industry Solutions ("ATIS"). The MECOD document, published by Telcordia as Special Report SR STS-002643, establishes recommended guidelines for processing orders for access service which is to be provided by two or more telecommunications carriers.
- 1.75. "National Emergency Number Association" ("NENA") is an association with a mission to foster the technological advancement, availability and implementation of 911 nationwide.
- 1.76. "Network Element" is as defined in the Act.
- 1.77. "North American Numbering Plan" ("NANP") means the plan for the allocation of unique 10-digit directory numbers consisting of a three-digit area code, a three-digit office code, and a four-digit line number. The plan also extends to format variations, prefixes, and special code applications.
- 1.78. "Numbering Plan Area" ("NPA") (sometimes referred to as an area code) is the threedigit indicator which is designated by the first three digits of each 10-digit telephone number within the NANP. Each NPA contains 800 possible NXX Codes. There are two

general categories of NPA, "Geographic NPAs" and "Non-Geographic NPAs." A "Geographic NPA" is associated with a defined geographic area, and all telephone numbers bearing such NPA are associated with services provided within that geographic area. A "Non-Geographic NPA," also known as a "Service Access Code (SAC Code)" is typically associated with a specialized telecommunications service which may be provided across multiple geographic NPA areas; 500, 800, 900, 700, and 888 are examples of Non-Geographic NPAs.

- 1.79. "NXX," "NXX Code," "COC," "Central Office Code," or "CO Code" is the three-digit switch entity indicator which is defined by the fourth, fifth and sixth digits of a 10-digit telephone number within NANP.
- 1.80. "OBF" means the Ordering and Billing Forum, which functions under the auspices of the CLC of the Alliance for Telecommunications Industry Solutions (ATIS).
- 1.81. "Operator Services" provides for:
 - 1.81.1. operator handling for call completion (e.g., collect calls);
 - 1.81.2. operator or automated assistance for billing after the subscriber has dialed the called number (e.g., credit card calls); and
 - 1.81.3. special services (e.g., BLV/BLI, Emergency Agency Call).
- 1.82. "Outside Cable Duct" shall mean any space located outside the Central Office Building and owned by or under the control of Sprint through which Sprint runs its cable, conduit or other associated facilities.
- 1.83. "Parity" means, subject to the availability, development and implementation of necessary industry standard Electronic Interfaces, the provision by Sprint of services, Network Elements, functionality or telephone numbering resources under this Agreement to AT&T, including provisioning and repair, at least equal in quality to those offered to Sprint, its Affiliates or any other entity that obtains such services, Network Elements, functionality or telephone numbering resources. Until the implementation of necessary Electronic Interfaces, Sprint shall provide such services, Network Elements, functionality or telephone numbering resources on a non-discriminatory basis to AT&T as it provides to its Affiliates or any other entity that obtains such services, Network Elements, functionality or telephone numbering resources.
- 1.84. "P.01 Transmission Grade Of Service" ("GOS") means a trunk facility provisioning standard with the statistical probability of no more than one call in 100 blocked on initial attempt during the average busy hour.
- 1.85. "Parties" means, jointly, Sprint and AT&T, and no other entity, affiliate, subsidiary or assign.
- 1.86. "Party" means either Sprint or AT&T, and no other entity, affiliate, subsidiary or assign.
- 1.87. "Percent Local Usage" ("PLU") is a calculation which represents the ratio of the local minutes to the sum of local and intraLATA toll minutes between exchange carriers sent over Local Interconnection Trunks. Directory assistance, BLV/BLVI, 900, and 976

transiting calls from other exchange carriers and switched access calls are not included in the calculation of PLU.

- 1.88. "Physical Collocation" is as defined in 47 CFR 51.5.
- 1.89. "Point of Interconnection" ("POI") is the physical point that establishes the technical interface, the test point, and the operational responsibility hand-off between AT&T and Sprint for the local interconnection of their networks.
- 1.90. "Premises" is as defined in 47 C.F.R. 51.5.
- 1.91. "Pre-Order Loop Qualification" ("Loop Qualification") is an OSS function that includes supplying loop qualification information to AT&T as part of the Pre-ordering Process. Examples of the type of information provided are:
 - 1.91.1. Composition of the loop material, i.e. fiber optics, copper;
 - 1.91.2. Existence, location and type of any electronic or other equipment on the loop, including but not limited to:
 - 1.91.2.1. Digital Loop Carrier ("DLC") or other remote concentration devices;
 - 1.91.2.2. Feeder/distribution interfaces;
 - 1.91.2.3. Bridge taps;
 - 1.91.2.4. Load coils;
 - 1.91.2.5. Pair gain devices; or
 - 1.91.2.6. Disturbers in the same or adjacent binders.
 - 1.91.3. Loop length which is an indication of the approximate loop length, based on a 26-gauge equivalent and is calculated on the basis of Distribution Area distance from the central office;
 - 1.91.4. Wire gauge or gauges; and
 - 1.91.5. Electrical parameters.
- 1.92. "Proprietary Information" shall have the same meaning as Confidential Information.
- 1.93. "Rate Center" means the geographic point and corresponding geographic area which are associated with one or more particular NPA-NXX codes which have been assigned to Sprint or AT&T for its provision of Basic Exchange Telecommunications Services. The "rate center point" is the finite geographic point identified by a specific V&H coordinate, which is used to measure distance-sensitive end user traffic to/from the particular NPA-NXX designations associated with the specific Rate Center. The "rate center area" is the exclusive geographic area identified as the area within which Sprint or AT&T will provide Basic Exchange Telecommunications Services bearing the particular NPA-NXX designations associated with the specific Rate Center. The Center point must be

located within the Rate Center area.

- 1.94. "Routing Point" means a location which Sprint or AT&T has designated on its own network as the homing (routing) point for traffic inbound to Basic Exchange Services provided by Sprint or AT&T which bear a certain NPA-NXX designation. The Routing Point is employed to calculate mileage measurements for the distance-sensitive transport element charges of Switched Access Services. Pursuant to Telcordia Practice BR 795-100-100, the Routing Point may be an "End Office" location, or a "LEC Consortium Point of Interconnection." Pursuant to that same Telcordia Practice, examples of the latter shall be designated by a common language location identifier (CLLI) code with (x)MD or X(x) in positions 9, 10, 11, where (x) may by any alphanumeric A-Z or 0-9. The above referenced Telcordia document refers to the Routing Point as the Rating Point. The Rating Point/Routing Point need not be the same as the Rate Center Point, nor must it be located within the Rate Center Area, but must be in the same LATA as the NPA-NXX.
- 1.95. "Small Exchange Carrier Access Billing" ("SECAB") means the document prepared by the Billing Committee of the OBF. The SECAB document, published by ATIS as Special Report SR OPT-001856, contains the recommended guidelines for the billing of access and other connectivity services.
- 1.96. "Selective Routing" is a service which automatically routes an E911 call to the PSAP that has jurisdictional responsibility for the service address of the telephone that dialed 911, irrespective of telephone company exchange or wire center boundaries.
- 1.97. "Signaling Transfer Point" ("STP") means a signaling point that performs message routing functions and provides information for the routing of messages between signaling points within or between CCIS networks. A STP transmits, receives and processes CCIS messages.
- 1.98. "Splitter" is a device that divides the data and voice signals concurrently moving across the loop, directing the voice traffic through copper tie cables to the switch and the data traffic through another pair of copper tie cables to multiplexing equipment for delivery to the packet-switched network. The Splitter may be directly integrated into the DSLAM equipment or may be externally mounted.
- 1.99. "Street Index Guide" ("SIG") is a database defining the geographic area of an E911 service. It includes an alphabetical list of the street names, high-low house number ranges, community names, and Emergency Service Numbers provided by the counties or their agents to Sprint.
- 1.100. "Switch" means a Central Office Switch as defined in this Part A.
- 1.101. "Synchronous Optical Network" ("SONET") is an optical interface standard that allows interworking of transmission products from multiple vendors (i.e., mid-span meets). The base rate is 51.84 MHps (OC-1/STS-1 and higher rates are direct multiples of the base rate up to 1.22 GHps).
- 1.102. "Tandem Office Switches," "Tandem," and "Tandem Switching" describe Class 4 switches which are used to connect and switch trunk circuits between and among end

office switches and other tandems.

- 1.103. "Tariff" means a filing made at the state or federal level for the provision of a telecommunications service by a telecommunications carrier that provides for the terms, conditions and pricing of that service. Such filing may be required or voluntary and may or may not be specifically approved by the Commission or FCC.
- 1.104. "Technically Feasible" refers solely to technical or operational concerns, rather than economic, space, or site considerations.
- 1.105. "Tier 1" Wire Centers are those Sprint Wire Centers that contain at least four fiber-based collocators, at least 38,000 Business Lines, or both. Tier 1 Wire Centers also are those Sprint tandem switching locations that have no line-side switching facilities, but nevertheless serve as a point of traffic aggregation accessible by competitive LECs.
- 1.106. "Tier 2" Wire Centers are those Sprint Wire Centers that are not Tier 1 Wire Centers but contain at least 3 fiber-based collocators, at least 24,000 business lines, or both.
- 1.107. "Tier 3" Wire Centers are those Sprint Wire Centers that are not Tier 1 or Tier 2 Wire Centers.
- 1.108. "Telecommunications" is as defined in the Act:
- 1.109. "Telecommunications Carrier" is as defined in the Act.
- 1.110. "Telecommunications Service" is as defined in the Act.
- 1.111. "Transit Service" means the delivery of Transit Traffic.
- 1.112. "Transit Traffic" means Local Traffic or ISP-Bound Traffic that originated on one Party's network, transited through the other Party's network, and terminated to a third party Telecommunications Carrier's network or that is originated on a third party Telecommunications Carrier's network, transited through a Party's network, and terminated to the other Party's network.
- 1.113. "Virtual Collocation" is as defined in 47 C.F.R. 51.5.
- 1.114. "Wholesale Service" means Telecommunication Services that Sprint provides at retail to subscribers who are not telecommunications carriers as set forth in 47 USC § 251(c)(4) which Sprint provides to resellers at a wholesale rate.
- 1.115. "Wire center" is the location of an incumbent LEC local switching facility containing one or more central offices, as defined in part 36 of the Code of Federal Regulations. The wire center boundaries define the area in which all customers served by a given wire center are located.
- 1.116. "xDSL" refers to a generic term for a series of high speed transmission protocols, equipment, and services designed to operate over copper wire. This series includes but is not limited to ADSL, VDSL, SDSL, and others.

PART B – GENERAL TERMS AND CONDITIONS

2. SCOPE OF THIS AGREEMENT

2.1. This Agreement, including Parts A through K, Tables One and Two and exhibits, specifies the rights and obligations of each party with respect to the establishment, purchase, and sale of Local Interconnection, resale of Telecommunications Services and Unbundled Network Elements. Certain terms used in this Agreement shall have the meanings defined in PART A -- DEFINITIONS, or as otherwise elsewhere defined throughout this Agreement. Other terms used but not defined in this Agreement will have the meanings ascribed to them in the Act, in the FCC's, and in the Commission's Rules and Regulations. PART B sets forth the general terms and conditions governing this Agreement. The remaining Parts set forth, among other things, descriptions of the services, pricing, technical and business requirements, and physical and network security requirements.

3. NETWORK CHANGES

3.1. Sprint shall provide notice of network changes and upgrades in accordance with §§ 51.325 through 51.335 of Title 47 of the Code of Federal Regulations. Sprint may discontinue any interconnection arrangement, Telecommunications Service, or Network Element provided or required hereunder due to network changes or upgrades after providing AT&T notice as required by this Section. Sprint agrees to cooperate with AT&T and/or the appropriate regulatory body in any transition resulting from such discontinuation of service and to minimize the impact to customers, which may result from such discontinuance of service.

4. **REGULATORY APPROVALS**

- 4.1. This Agreement, and any amendment or modification hereof, will be submitted to the Commission for approval in accordance with § 252 of the Act within thirty (30) Days after obtaining the last required Agreement signature. Sprint and AT&T shall use their best efforts to obtain approval of this Agreement by any regulatory body having jurisdiction over this Agreement. In the event any governmental authority or agency rejects any provision hereof, the Parties shall negotiate promptly and in good faith such revisions as may reasonably be required to achieve approval.
- 4.2. The Parties acknowledge that the respective rights and obligations of each Party as set forth in this Agreement are based on the texts of the Act and the orders, rules and regulations promulgated thereunder by the FCC and the Commission as of the Effective Date ("Applicable Rules"). In the event of any amendment of the Act, any effective legislative action or any effective regulatory or judicial order, rule, regulation, arbitration award, dispute resolution procedures under this Agreement or other legal action purporting to apply the provisions of the Act to the Parties or in which the court, FCC or the Commission makes a generic determination that is generally applicable ("Legally Binding Action") which revises, modifies or reverses the Applicable Rules (individually and collectively, "Amended Rules"), either Party may, by providing written notice to the

other Party, require that the affected provisions of this Agreement be renegotiated in good faith and this Agreement shall be amended accordingly within ninety (90) days of the date of the notice to reflect the pricing, terms and conditions of each such Amended Rules relating to any of the provisions in this Agreement. For purposes of this section, Legally Binding Action means that the legal ruling is in effect and has not been stayed.

4.3 Notwithstanding any other provision of this Agreement to the contrary Section 4.2 hereof shall control. Any rates, terms or conditions thus developed or modified shall be substituted in place of those previously in effect and shall be effective under this Agreement as of the effective date established by the Amended Rules, whether such action was commenced before or after the Effective Date of this Agreement. Should the Parties be unable to reach agreement with respect to the applicability of such order or the resulting appropriate modifications to this Agreement, either party may invoke the Dispute Resolution provisions of this Agreement, it being the intent of the parties that this Agreement shall be brought into conformity with the then current obligations under the Act as determined by the amended rules. Sprint may charge rates to AT&T under this Agreement that are approved by the Commission in a generic cost proceeding, whether such action was commenced before or after the Effective Date of this Agreement, as of the effective date of the Commission decision. Nothing in this section precludes either Party from appealing or otherwise challenging in an appropriate forum any Applicable Rule or Amended Rule, in accordance with Section 4.2 above.

5. TERM AND TERMINATION

- 5.1. This Agreement shall be deemed effective upon the Effective Date first stated above, and continue for a period of two years until March 3, 2008 ("End Date"), unless earlier terminated in accordance with this Section 5, provided however that if AT&T has any outstanding past due obligations to Sprint, this Agreement will not be effective until such time as any past due obligations with Sprint are paid in full. This agreement shall become binding upon execution by the Parties. No order or request for services under this Agreement shall be processed before the Effective Date, except as otherwise agreed to in writing by the Parties. No order or request for services under this Agreement shall be processed before AT&T has established a customer account with Sprint and has completed the Implementation Plan described in this Agreement.
- 5.2. In the event of either Party's material breach of any of the terms or conditions hereof, including the failure to make any undisputed payment when due, the non-defaulting Party may immediately terminate this Agreement in whole or in part if the non-defaulting Party so advises the defaulting Party in writing of the event of the alleged default and the defaulting Party does not remedy the alleged default within sixty (60) Days after written notice thereof. The non-defaulting Party may pursue all available legal and equitable remedies for such breach.
- 5.3. Sprint may terminate this Agreement upon ten (10) Days notice if AT&T is not exchanging traffic with Sprint or has not submitted orders pursuant to this Agreement within one-hundred-eighty (180) Days of the Effective Date. In addition, Sprint reserves the right to terminate this Agreement immediately upon notice from the AT&T that it has ceased doing business in this state. In addition to notice from AT&T, Sprint may utilize

any publicly available information in concluding that AT&T is no longer doing business in this state, and immediately terminate this Agreement.

- 5.4. Termination of this Agreement for any cause shall not release either Party from any liability which at the time of termination has already accrued to the other Party or which thereafter may accrue in respect to any act or omission prior to termination or from any obligation which is expressly stated in this Agreement to survive termination.
- 5.5. Notwithstanding the above, should Sprint sell or trade substantially all the assets in an exchange or group of exchanges that Sprint uses to provide Telecommunications Services, then Sprint may terminate this Agreement in whole or in part as to that particular exchange or group of exchanges upon sixty (60) Days prior written notice.

6. POST EXPIRATION INTERIM SERVICE ARRANGEMENTS

- 6.1. No later than one-hundred sixty (160) Days prior to the End Date, AT&T will provide Sprint notice to commence negotiations pursuant to Sections 251 and 252 of the Act for terms, conditions and rates for a successor agreement to be effective on or before the End Date.
- 6.2. In the event that this Agreement expires under Section 6.1, and the Parties have not executed a successor agreement at the time of expiration, provided the Parties are actually in arbitration or mediation before the Commission or FCC under § 252 of the Act or the Parties have a written agreement to continue negotiations, it is the intent of the Parties to provide in this Section for post-expiration interim service arrangements between the Parties so that service to their respective end users will not be interrupted should a new agreement not be consummated prior to the End Date. Therefore, except in the case of termination as a result of the events under Sections 5.2, 5.3, 5.4 and 5.5, services that had been available under this Agreement, were ordered prior to the End Date and are actually in service as of the End Date may continue uninterrupted after the End Date at the written request of either Party only until the earlier to occur of (i) the Parties execute a successor agreement, or (ii) the issuance of an order, whether a final non-appealable order or not, by the Commission or FCC, approving an agreement resulting from the resolution of the issues set forth in such arbitration or mediation request.
- 6.3. In the event that on the End Date the Parties have not executed a successor agreement and Section 6.2 does not apply, Sprint will continue to provide services pursuant to one of the following:
 - 6.3.1. Such standard terms and conditions or tariffs approved by and made generally available by the Commission, if they exist; or
 - 6.3.2. An existing agreement between Sprint and another carrier adopted by AT&T for the remaining term of that agreement. If AT&T fails to designate an agreement under this subsection, then Sprint may designate such agreement.

7. CHARGES AND PAYMENT

- 7.1. In consideration of the services provided by Sprint under this Agreement, AT&T shall pay the charges set forth in Part C subject to the provisions of Section 4 hereof. The billing and payment procedures for charges incurred by AT&T hereunder are set forth in Part K.
- 7.2. Subject to the terms of this Agreement, the Parties shall pay invoices within thirty (30) Days from the Bill Date shown on the invoice. For invoices not paid when due, late payment charges will be assessed under Section 7.4. If the payment due date is a Saturday, Sunday or a designated bank holiday, payment shall be made the next business day.
 - 7.2.1. If an invoice is not paid within sixty (60) Days after the bill date, Sprint will suspend processing new orders and cancel any pending orders.
 - 7.2.2. If the account remains delinquent ninety (90) Days after the bill date, Sprint will terminate all services under this Agreement.

7.2.3. All bills must be received by the other Party no later than ten (10) calendar days from Bill Date and at least twenty (20) calendar days prior to the payment due date, whichever is earlier. If either Party fails to receive billing data and information within the time period specified above, the payment due date will be extended by the number of days the bill is late.

- 7.3. Billed amounts for which written, itemized disputes or claims have been filed are not due for payment until such disputes or claims have been resolved in accordance with the provisions governing dispute resolution of this Agreement. Itemized, written disputes must be submitted on the dispute form to the National Dispute Center, or appropriate equivalent center no later than the due date of the related invoice. A copy of the dispute must be sent with the remittance of the remainder of the invoice.
- 7.4. Sprint will assess late payment charges to AT&T until the amount due is paid in full. Such late payment charges will be calculated using a rate equal to the lesser of
 - 7.4.1. the total amount due times the highest rate (in decimal value) which may be levied by law for commercial transactions, compounded daily for the number of days from the payment date to and including the date the customer actually makes the payment to Sprint, or
 - 7.4.2. the total amount due multiplied by a factor of 0.000329 times the number of days which occurred between the payment due date and (including) the date AT&T actually makes the payment to Sprint.
- 7.5. Sprint reserves the right to secure the account with a suitable form of security deposit in accordance with Section 36.

8. AUDITS AND EXAMINATIONS

8.1. Each Party to this Agreement will be responsible for the accuracy and quality of its data as submitted to the other Party involved. Subject to each Party's reasonable security requirements and except as may be otherwise specifically provided in this Agreement,

either Party, at its own expense, may audit the other Party's books, records and other documents directly related to billing and invoicing once in any twelve (12) month period for the purpose of evaluating the accuracy of the other Party's billing and invoicing. "Audit" shall mean a comprehensive review of bills for services performed under this Agreement; "Examination" shall mean an inquiry into a specific element of or process related to bills for services performed under this Agreement. Either party (the "Requesting Party") may perform one (1) Audit per twelve (12) month period commencing with the Effective Date, with the assistance of the other Party, which will not be unreasonably withheld. The Audit period will include no more than the preceding twelve (12) month period as of the date of the Audit request. The Requesting Party may perform Examinations, as it deems necessary, with the assistance of the other Party, which will not be unreasonably withheld.

- 8.2. Upon thirty (30) Days written notice by the Requesting Party to Audited Party, Requesting Party shall have the right through its authorized representative to make an Audit, during normal business hours, of any records, accounts and processes which contain information bearing upon the billing and invoicing of the services provided under this Agreement. Within the above-described thirty (30) Day period, the Parties shall reasonably agree upon the scope of the Audit or Examination, the documents and processes to be reviewed, and the time, place and manner in which the Audit or Examination shall be performed. Audited Party agrees to provide Audit or Examination support, including appropriate access to and use of Audited Party's facilities (e.g.: conference rooms, telephones, copying machines).
- 8.3. Each party shall bear its own expenses in connection with the conduct of the Audit or Examination. The reasonable cost of special data extraction required by the Requesting Party to conduct the Audit or Examination will be paid for by the Requesting Party. For purposes of this Section 8.3, a "Special Data Extraction" shall mean the creation of an output record or informational report (from existing data files) that is not created in the normal course of business. If any program is developed to Requesting Party's specifications and at Requesting Party's expense, Requesting Party shall specify at the time of request whether the program is to be retained by Audited party for reuse for any subsequent Audit or Examination.
- 8.4. Adjustments based on the audit findings may be applied to the twelve (12) month period included in the audit. Adjustments, credits or payments shall be made and any corrective action shall commence within thirty (30) Days from the requesting Party's receipt of the final audit report to compensate for any errors or omissions which are disclosed by such Audit or Examination and are agreed to by the Parties. Interest shall be calculated in accordance with Section 7.4 above.
- 8.5. Neither such right to examine and audit nor the right to receive an adjustment shall be affected by any statement to the contrary appearing on checks or otherwise, unless such statement expressly waiving such right appears in writing, is signed by the authorized representative of the party having such right and is delivered to the other party in a manner sanctioned by this Agreement.
- 8.6. This Section shall survive expiration or termination of this Agreement for a period of one

(1) year after expiration or termination of this Agreement.

9. INTELLECTUAL PROPERTY RIGHTS

- 9.1. Any intellectual property which originates from or is developed by a Party shall remain in the exclusive ownership of that Party. Intellectual property includes, without limitation, patent, copyright, trade mark, trade secrets, and other proprietary rights. Each Party grants to the other party a limited license to its intellectual property solely to the extent necessary for the use of any facility or equipment (including software) or for the receipt of services as provided under this Agreement. Except for such limited license to use its intellectual property, no license in patent, copyright, trademark or trade secret, or other proprietary or intellectual property right now or hereafter owned, controlled or licensable by a Party, is granted to the other Party or shall be implied or arise by estoppel.
- 9.2. AT&T acknowledges that its right under this Agreement for Local Interconnection with Sprint's network and to unbundled and/or combine Sprint's Network Elements may be subject to or limited by intellectual property rights and contract rights of third parties. Sprint agrees to use its best efforts to obtain for AT&T, third party intellectual property rights, under commercially reasonable terms, to each unbundled network element necessary for AT&T to use such unbundled network element in the same manner as Sprint.
- 9.3. Sprint shall have no obligations to attempt to obtain for AT&T any third party intellectual property right(s) that would permit AT&T to use any unbundled network element in a different manner than used by Sprint.
- 9.4. To the extent not prohibited by a contract with the vendor of the network element sought by AT&T that contains intellectual property licenses, Sprint shall reveal to AT&T the name of the vendor, the intellectual property rights licensed to Sprint under the vendor contract and the terms of the contract (excluding cost terms). Sprint shall, at AT&T's request, contact the vendor to attempt to obtain permission to reveal additional contract details to AT&T.
- 9.5. All costs associated with the extension of third party intellectual property rights to AT&T pursuant to Section 9.2, including the cost of the license extension itself and the costs associated with the effort to obtain the license, shall be part of the cost of providing the unbundled network element to which the intellectual property rights relate and apportioned to all requesting AT&T using that unbundled network element including Sprint.
- 9.6. Sprint hereby conveys no licenses to use such third party intellectual property rights and makes no warranties, express or implied, concerning AT&T's rights with respect to such third party intellectual property rights and contract rights, including whether such rights will be violated by such Local Interconnection or unbundling and/or combining of Network Elements (including combining with AT&T's use of other functions, facilities, products or services furnished under this Agreement). Any licenses or warranties for intellectual property rights associated with unbundled network elements are vendor licenses and warranties and are a part of the third party intellectual property rights Sprint

agrees in Section 9.2 to use its best efforts to obtain.

10. LIMITATION OF LIABILITY

10.1. Except as otherwise set forth in this Agreement, neither Party shall be responsible to the other for any indirect, special, consequential or punitive damages, including (without limitation) damages for loss of anticipated profits or revenue or other economic loss in connection with or arising from anything said, omitted, or done hereunder (collectively "Consequential Damages"), whether arising in contract or tort except that the foregoing shall not limit a Party's obligation under Section 11 to indemnify, defend, and hold the other party harmless against amounts payable to third parties. Notwithstanding the foregoing, in no event shall Sprint's liability to AT&T for a service outage exceed an amount equal to the proportionate charge for the service(s) or unbundled element(s) provided for the period during which the service was affected.

11. INDEMNIFICATION

- 11.1. Each Party agrees to indemnify and hold harmless the other Party from and against claims by third parties for damage to tangible personal or real property and/or personal injuries to the extent caused by the negligence or willful misconduct or omission of the indemnifying Party.
- 11.2. AT&T shall indemnify and hold harmless Sprint from all claims by AT&T's subscribers.
- 11.3. Sprint shall indemnify and hold harmless AT&T from all claims by Sprint's subscribers.
- 11.4. The indemnifying Party under this Section agrees to defend any suit brought against the other Party either individually or jointly with the indemnified Party for any such loss, injury, liability, claim or demand.
- 11.5. The indemnified Party agrees to notify the other Party promptly, in writing, of any written claims, lawsuits, or demands for which it is claimed that the indemnifying Party is responsible under this Section and to cooperate in every reasonable way to facilitate defense or settlement of claims.
- 11.6. The indemnifying Party shall have complete control over defense of the case and over the terms of any proposed settlement or compromise thereof. The indemnifying Party shall not be liable under this Section for settlement by the indemnified Party of any claim, lawsuit, or demand, if the indemnifying Party has not approved the settlement in advance, unless the indemnifying Party has had the defense of the claim, lawsuit, or demand tendered to it in writing and has failed to promptly assume such defense. In the event of such failure to assume defense, the indemnifying Party shall be liable for any reasonable settlement made by the indemnified Party without approval of the indemnifying Party.
- 11.7. When the lines or services of other companies and AT&T's are used in establishing connections to and/or from points not reached by a Party's lines, neither Party shall be liable for any act or omission of the other companies or carriers.
- 11.8. In addition to its indemnity obligations hereunder, each Party shall, to the extent allowed

by law or Commission Order, provide, in its tariffs and contracts with its subscribers that relate to any Telecommunications Services provided or contemplated under this Agreement, that in no case shall such Party or any of its agents, contractors or others retained by such Party be liable to any subscriber or third party for

- 11.8.1. any loss relating to or arising out of this Agreement, whether in contract or tort, that exceeds the amount such Party would have charged the applicable subscriber for the service(s) or function(s) that gave rise to such loss, and
- 11.8.2. Consequential Damages (as defined in Section 10 above).

12. BRANDING

- 12.1. AT&T shall provide the exclusive interface to AT&T subscribers, except as AT&T shall otherwise specify for the reporting of trouble or other matters identified by AT&T for which Sprint may directly communicate with AT&T subscribers. In those instances where AT&T requests that Sprint personnel interface with AT&T subscribers, such Sprint personnel shall inform the AT&T subscribers that they are representing AT&T, or such brand as AT&T may specify.
- 12.2. Other business materials furnished by Sprint to AT&T subscribers shall bear no corporate name, logo, trademark or tradename.
- 12.3. Except as specifically permitted by a Party, in no event shall either Party provide information to the other Party's subscribers about the other Party or the other Party's products or services.
- 12.4. Sprint shall share pertinent details of Sprint's training approaches related to branding with AT&T to be used by Sprint to assure that Sprint meets the branding requirements agreed to by the Parties.
- 12.5. This Section shall not confer on either Party any rights to the service marks, trademarks and/or trade names owned by or used in connection with services by the other Party, except as expressly permitted in writing by the other Party.

13. REMEDIES

13.1. Except as otherwise provided herein, all rights of termination, cancellation or other remedies prescribed in this Agreement, or otherwise available, are cumulative and are not intended to be exclusive of other remedies to which the injured Party may be entitled in case of any breach or threatened breach by the other Party of any provision of this Agreement, and use of one or more remedies shall not bar use of any other remedy for the purpose of enforcing the provisions of this Agreement.

14. CONFIDENTIALITY AND PUBLICITY

14.1. All information which is disclosed by one party ("Disclosing Party") to the other ("Recipient") in connection with this Agreement, or acquired in the course of

performance of this Agreement, shall be deemed confidential and proprietary to the Disclosing Party and subject to this Agreement, such information including but not limited to, orders for services, usage information in any form, and CPNI as that term is defined by the Act and the rules and regulations of the FCC ("Confidential and/or Proprietary Information").

- 14.2. During the term of this Agreement, and for a period of one (1) year thereafter, Recipient shall
 - 14.2.1. use it only for the purpose of performing under this Agreement,
 - 14.2.2. hold it in confidence and disclose it only to employees or agents who have a need to know it in order to perform under this Agreement, and
 - 14.2.3. safeguard it from unauthorized use or Disclosure using no less than the degree of care with which Recipient safeguards its own Confidential Information.
- 14.3. Recipient shall have no obligation to safeguard Confidential Information
 - 14.3.1. which was in the Recipient's possession free of restriction prior to its receipt from Disclosing Party,
 - 14.3.2. which becomes publicly known or available through no breach of this Agreement by Recipient,
 - 14.3.3. which is rightfully acquired by Recipient free of restrictions on its Disclosure, or
 - 14.3.4. which is independently developed by personnel of Recipient to whom the Disclosing Party's Confidential Information had not been previously disclosed.
- 14.4. Recipient may disclose Confidential Information if required by law, a court, or governmental agency, if the Disclosing Party has been notified of the requirement promptly after Recipient becomes aware of the requirement, and the Recipient undertakes all lawful measures to avoid disclosing such information until Disclosing Party has had reasonable time to obtain a protective order. Recipient will comply with any protective order that covers the Confidential Information to be disclosed.
- 14.5. Each Party agrees that in the event of a breach of this Section 14 by Recipient or its representatives, Disclosing Party shall be entitled to equitable relief, including injunctive relief and specific performance. Such remedies shall not be exclusive, but shall be in addition to all other remedies available at law or in equity.
- 14.6. Unless otherwise agreed, neither Party shall publish or use the other Party's logo, trademark, service mark, name, language, pictures, symbols or words from which the other Party's name may reasonably be inferred or implied in any product, service, advertisement, promotion, or any other publicity matter, except that nothing in this paragraph shall prohibit a Party from engaging in valid comparative advertising. This Section 14.6 shall confer no rights on a Party to the service marks, trademarks and trade

names owned or used in connection with services by the other Party or its Affiliates, except as expressly permitted by the other Party.

- 14.7. Neither Party shall produce, publish, or distribute any press release nor other publicity referring to the other Party or its Affiliates, or referring to this Agreement, without the prior written approval of the other Party. Each party shall obtain the other Party's prior approval before discussing this Agreement in any press or media interviews. In no event shall either Party mischaracterize the contents of this Agreement in any public statement or in any representation to a governmental entity or member thereof.
- 14.8. Except as otherwise expressly provided in this Section 14, nothing herein shall be construed as limiting the rights of either Party with respect to its customer information under any applicable law, including without limitation § 222 of the Act.

15. DISCLAIMER OF WARRANTIES

15.1. EXCEPT AS SPECIFICALLY PROVIDED ELSEWHERE IN THIS AGREEMENT TO THE CONTRARY, NEITHER PARTY MAKES ANY REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO QUALITY, FUNCTIONALITY OR CHARACTERISTICS OF THE SERVICES PROVIDED PURSUANT TO THIS AGREEMENT, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE. NO REPRESENTATION OR STATEMENT MADE BY EITHER PARTY OR ANY OF ITS AGENTS OR EMPLOYEES, ORAL OR WRITTEN, INCLUDING, BUT NOT LIMITED TO, ANY SPECIFICATIONS, DESCRIPTIONS OR STATEMENTS PROVIDED OR MADE SHALL BE BINDING UPON EITHER PARTY AS A WARRANTY.

16. ASSIGNMENT AND SUBCONTRACT

- 16.1. If any Affiliate of either Party succeeds to that portion of the business of such Party that is responsible for, or entitled to, any rights, obligations, duties, or other interests under this Agreement, such Affiliate may succeed to those rights, obligations, duties, and interest of such Party under this Agreement. In the event of any such succession hereunder, the successor shall expressly undertake in writing to the other Party the performance and liability for those obligations and duties as to which it is succeeding a Party to this Agreement. Thereafter, the successor Party shall be deemed AT&T or Sprint and the original Party shall be relieved of such obligations and duties, except for matters arising out of events occurring prior to the date of such undertaking.
- 16.2. Except as provided in Section 16.1, any assignment of this Agreement or of the work to be performed, in whole or in part, or of any other interest of a Party hereunder, without the other Party's written consent, which consent shall not be unreasonably withheld or delayed, shall be void.

17. GOVERNING LAW

17.1. This Agreement shall be governed by and construed in accordance with the Act, the

FCC's Rules and Regulations and orders of the Commission, except insofar as state law may control any aspect of this Agreement, in which case the domestic laws of the Commission's state, without regard to its conflicts of laws principles, shall govern.

18. RELATIONSHIP OF PARTIES

18.1. It is the intention of the Parties that each Party shall be an independent contractor and nothing contained herein shall constitute the Parties as joint venturers, partners, employees or agents of one another, and neither Party shall have the right or power to bind or obligate the other.

19. NO THIRD PARTY BENEFICIARIES

19.1. The provisions of this Agreement are for the benefit of the Parties hereto and not for any other person, and this Agreement shall not provide any person not a party hereto with any remedy, claim, liability, reimbursement, right of action, or other right in excess of those existing without reference hereto. This shall not be construed to prevent AT&T from providing its Telecommunications Services to other carriers.

20. NOTICES

20.1. Except as otherwise provided herein, all notices or other communication hereunder shall be deemed to have been duly given when made in writing and delivered in person or deposited in the United States mail, certified mail, postage prepaid, return receipt requested and addressed as follows:

If to Sprint:	Director	If to	Bill C. Peacock
	Sprint	AT&T:	Director – Local Services
	9300 Metcalf		6304 Hwy 5
	Overland Park, KS 66212		Douglasville, GA 30135
	KSOPKB-4600

copy to:		copy to:	227 W. Monroe

20.2. If delivery, other than certified mail, return receipt requested, is used to give notice, a receipt of such delivery shall be obtained and the notice shall be effective when received. If delivery via certified mail, return receipt requested, is used, notice shall be effective when sent. The address to which notices or communications may be given to either Party may be changed by written notice given by such Party to the other pursuant to this Section.

21. WAIVERS

Rev. 04-11-05

Chicago, **IL** 60606

- 21.1. No waiver of any provisions of this Agreement and no consent to any default under this Agreement shall be effective unless the same shall be in writing and properly executed by or on behalf of the Party against whom such waiver or consent is claimed.
- 21.2. No course of dealing or failure of any Party to strictly enforce any term, right, or condition of this Agreement in any instance shall be construed as a general waiver or relinquishment of such term, right or condition.
- 21.3. Waiver by either party of any default by the other Party shall not be deemed a waiver of any other default.

22. SURVIVAL

22.1. Termination of this Agreement, or any part hereof, for any cause shall not release either Party from any liability which at the time of termination had already accrued to the other Party or which thereafter accrues in any respect to any act or omission occurring prior to the termination or from an obligation which is expressly stated in this Agreement to survive termination including but not limited to Sections 7, 8, 9, 10, 11, 14, 19, 21, and 24.

23. FORCE MAJEURE

23.1. Neither Party shall be held liable for any delay or failure in performance of any part of this Agreement from any cause beyond its control and without its fault or negligence, such as acts of God, acts of civil or military authority, embargoes, epidemics, war, terrorist acts, riots, insurrections, fires, explosions, earthquakes, nuclear accidents, floods, power blackouts, strikes, work stoppage affecting a supplier or unusually severe weather. No delay or other failure to perform shall be excused pursuant to this Section 23 unless delay or failure and consequences thereof are beyond the control and without the fault or negligence of the Party claiming excusable delay or other failure to perform. Subject to Sections 5.2, 5.3 and 5.5 hereof, in the event of any such excused delay in the performance of a Party's obligation(s) under this Agreement, the due date for the performance of the original obligation(s) shall be extended by a term equal to the time lost by reason of the delay. In the event of such delay, the delayed Party shall perform its obligations at a performance level no less than that which it uses for its own operations. In the event of such performance delay or failure by Sprint, Sprint agrees to resume performance in a nondiscriminatory manner and not favor its own provision of Telecommunications Services above that of AT&T.

24. DISPUTE RESOLUTION

24.1. Except as otherwise stated in this Agreement, the Parties agree that any dispute that arises as to the interpretation of any provision of this Agreement or as to the proper implementation of this Agreement, may be taken to the Commission for resolution. The Parties may, by mutual agreement, agree to an alternative dispute resolution mechanism for any dispute. Each Party reserves the rights it may have to seek judicial review of any ruling made by the Commission concerning this Agreement. If the Commission appoints an expert(s) or other facilitator(s) to assist in its decision making, each party shall pay half of the fees and expenses so incurred. During the Commission or third party proceeding each Party shall continue to perform its obligations under this Agreement provided, however, that neither Party shall be required to act in any unlawful fashion. This provision shall not preclude the Parties from seeking relief available in any other forum.

- 24.2. If any matter is subject to a bona fide dispute between the Parties, the disputing Party shall within thirty (30) Days of the event giving rise to the dispute, give written notice to the other Party of the dispute and include in such notice the specific details and reasons for disputing each item.
- 24.3. If the Parties are unable to resolve the issues related to the dispute in the normal course of business within thirty (30) Days after delivery of notice of the Dispute, to the other Party, the dispute shall be escalated to a designated representative who has authority to settle the dispute and who is at a higher level of management than the persons with direct responsibility for administration of this Agreement. The designated representatives shall meet as often as they reasonably deem necessary in order to discuss the dispute and negotiate in good faith in an effort to resolve such dispute, but in no event shall such resolution exceed 60 Days from the initial notice. The specific format for such discussions will be left to the discretion of the designated representatives, provided, however, that all reasonable requests for relevant information made by one Party to the other Party shall be honored.
- 24.4. After such period either Party may file a complaint with the FCC or the Commission.

25. COOPERATION ON FRAUD

25.1. The Parties agree that they shall cooperate with one another to investigate, minimize and take corrective action in cases of fraud. The Parties' fraud minimization procedures are to be cost effective and implemented so as not to unduly burden or harm one party as compared to the other.

26. TAXES

- 26.1. For purposes of this Section, the terms "taxes" and "fees" shall include but not be limited to federal, state or local sales, use, excise, gross receipts or other taxes or tax-like fees of whatever nature and however designated (including tariff surcharges and any fees, charges or other payments, contractual or otherwise, for the use of public streets or rights of way, whether designated as franchise fees or otherwise) imposed, or sought to be imposed, on or with respect to the services furnished hereunder or measured by the charges or payments therefore, excluding any taxes levied on income.
- 26.2. Taxes and Fees Imposed Directly On Either Providing Party or Purchasing Party.
 - 26.2.1. Taxes and fees imposed on the providing Party, which are not permitted or required to be passed on by the providing Party to its customer, shall be borne and paid by the providing Party.
 - 26.2.2. Taxes and fees imposed on the purchasing Party, which are not

required to be collected and/or remitted by the providing Party, shall be borne and paid by the purchasing Party.

- 26.3. Taxes and Fees Imposed on Purchasing Party but Collected And Remitted By Providing Party.
 - 26.3.1. Taxes and fees imposed on the purchasing Party shall be borne by the purchasing Party, even if the obligation to collect and/or remit such taxes or fees is placed on the providing Party.
 - 26.3.2. To the extent permitted by applicable law, any such taxes and/or fees shall be shown as separate items on applicable billing documents between the Parties. Notwithstanding the foregoing, the purchasing Party shall remain liable for any such taxes and fees regardless of whether they are actually billed by the providing Party at the time that the respective service is billed.
 - 26.3.3. If the purchasing Party determines that in its opinion any such taxes or fees are not payable, the providing Party shall not bill such taxes or fees to the purchasing Party if the purchasing Party provides written certification, reasonably satisfactory to the providing Party, stating that it is exempt or otherwise not subject to the tax or fee, setting forth the basis therefore, and satisfying any other requirements under applicable law. If any authority seeks to collect any such tax or fee that the purchasing Party has determined and certified not to be payable, or any such tax or fee that was not billed by the providing Party, the purchasing Party may contest the same in good faith, at its own expense. In any such contest, the purchasing Party shall promptly furnish the providing Party with copies of all filings in any proceeding, protest, or legal challenge, all rulings issued in connection therewith, and all correspondence between the purchasing Party and the taxing authority.
 - 26.3.4. In the event that all or any portion of an amount sought to be collected must be paid in order to contest the imposition of any such tax or fee, or to avoid the existence of a lien on the assets of the providing Party during the pendency of such contest, the purchasing Party shall be responsible for such payment and shall be entitled to the benefit of any refund or recovery.
 - 26.3.5. If it is ultimately determined that any additional amount of such a tax or fee is due to the imposing authority, the purchasing Party shall pay such additional amount, including any interest and penalties thereon.
 - 26.3.6. Notwithstanding any provision to the contrary, the purchasing Party shall protect, indemnify and hold harmless (and defend at the purchasing Party's expense) the providing Party from and against any such tax or fee, interest or penalties thereon, or other charges or payable expenses (including reasonable attorney fees) with respect thereto, which are incurred by the providing Party in connection with any claim for or

contest of any such tax or fee.

- 26.3.7. Each Party shall notify the other Party in writing of any assessment, proposed assessment or other claim for any additional amount of such a tax or fee by a taxing authority; such notice to be provided, if possible, at least ten (10) Days prior to the date by which a response, protest or other appeal must be filed, but in no event later than thirty (30) Days after receipt of such assessment, proposed assessment or claim.
- 26.4. Taxes and Fees Imposed on Providing Party But Passed On To Purchasing Party.
 - 26.4.1. Taxes and fees imposed on the providing Party, which are permitted or required to be passed on by the providing Party to its customer, shall be borne by the purchasing Party.
 - 26.4.2. To the extent permitted by applicable law, any such taxes and/or fees shall be shown as separate items on applicable billing documents between the Parties. Notwithstanding the foregoing, the purchasing Party shall remain liable for any such taxes and fees regardless of whether they are actually billed by the providing Party at the time that the respective service is billed.
 - 26.4.3. If the purchasing Party disagrees with the providing Party's determination as to the application or basis for any such tax or fee, the Parties shall consult with respect to the imposition and billing of such tax or fee. Notwithstanding the foregoing, the providing Party shall retain ultimate responsibility for determining whether and to what extent any such taxes or fees are applicable, and the purchasing Party shall abide by such determination and pay such taxes or fees to the providing Party. The providing Party shall further retain ultimate responsibility for determining whether and how to contest the imposition of such taxes and fees; provided, however, that any such contest undertaken at the request of the purchasing Party shall be at the purchasing Party's expense.
 - 26.4.4. In the event that all or any portion of an amount sought to be collected must be paid in order to contest the imposition of any such tax or fee, or to avoid the existence of a lien on the assets of the providing Party during the pendency of such contest, the purchasing Party shall be responsible for such payment and shall be entitled to the benefit of any refund or recovery.
 - 26.4.5. If it is ultimately determined that any additional amount of such a tax or fee is due to the imposing authority, the purchasing Party shall pay such additional amount, including any interest and penalties thereon.
 - 26.4.6. Notwithstanding any provision to the contrary, the purchasing Party shall protect, indemnify and hold harmless (and defend at the purchasing Party's expense) the providing Party from and against any such tax or fee, interest or penalties thereon, or other reasonable charges or

payable expenses (including reasonable attorneys' fees) with respect thereto, which are incurred by the providing Party in connection with any claim for or contest of any such tax or fee.

- 26.4.7. Each Party shall notify the other Party in writing of any assessment, proposed assessment or other claim for any additional amount of such a tax or fee by a taxing authority; such notice to be provided, if possible, at least ten (10) Days prior to the date by which a response, protest or other appeal must be filed, but in no event later than thirty (30) Days after receipt of such assessment, proposed assessment or claim.
- 26.5. In any contest of a tax or fee by one Party, the other Party shall cooperate fully by providing records, testimony and such additional information or assistance as may reasonably be necessary to pursue the contest. Further, the other Party shall be reimbursed for any reasonable and necessary out-of-pocket copying and travel expenses incurred in assisting in such contest.

27. AMENDMENTS AND MODIFICATIONS

27.1. No provision of this Agreement shall be deemed waived, amended or modified by either party unless such a waiver, amendment or modification is in writing, dated, and signed by both Parties.

28. SEVERABILITY

28.1. Subject to Section 4.2, if any part of this Agreement is held to be invalid, void or unenforceable for any reason, such invalidity will affect only the portion of this Agreement which is invalid. In all other respects this Agreement will stand as if such invalid provision had not been a part thereof, and the remainder of the Agreement shall remain in full force and effect and shall in no way be affected, impaired or invalidated thereby.

29. HEADINGS NOT CONTROLLING

29.1. The headings and numbering of Sections and Parts in this Agreement are for convenience only and shall not be construed to define or limit any of the terms herein or affect the meaning or interpretation of this Agreement.

30. ENTIRE AGREEMENT

30.1. This Agreement, including all Parts and subordinate documents attached hereto or referenced herein, all of which are hereby incorporated by reference herein, subject only to the terms of any applicable tariff on file with the state Commission or the FCC, constitute the entire matter thereof, and supersede all prior oral or written agreements, representations, statements, negotiations, understandings, proposals, and undertakings with respect to the subject matter thereof.

31. SUCCESSORS AND ASSIGNS

31.1. Subject to the terms of this Agreement, Sprint and AT&T agree this Agreement shall be binding upon, and inure to the benefit of, the Parties hereto and their respective successors and permitted assigns.

32. IMPLEMENTATION PLAN

- 32.1. This Agreement sets forth the overall standards of performance for the services, processes, and systems capabilities that the Parties will provide to each other, and the intervals at which those services, processes and capabilities will be provided. The Parties understand that the arrangements and provision of services described in this Agreement shall require technical and operational coordination between the Parties. Accordingly, the Parties agree to form a team (the "Implementation Team") which shall develop and identify those processes, guidelines, specifications, standards and additional terms and conditions necessary to support and satisfy the standards set forth in this Agreement and implement each Party's obligations hereunder.
- 32.2. Dispute Resolution. If the Implementation Team is unable to agree upon any of the matters to be included in the Implementation Plan, then either Party may invoke the procedures set forth in Part B Section 24.

33. FEDERAL JURISDICTIONAL AREAS

33.1 To the extent Sprint has contracts with federal entities that limit or prohibit the ability of AT&T to provide resale and/or UNEs, such contract will govern telecommunications services on such Federal Enclave. If the contract with the federal entity provides for the ability to resell Sprint services or access UNEs to provide service on the Federal Enclave, Sprint will provide AT&T with the information necessary to provision service on the Federal Enclave.

PART C - GENERAL PRINCIPLES

34. USE OF FACILITIES

- 34.1. In situations where a competitive LEC has the use of the facilities (i.e., local loop) to a specific customer premise, either through resale of local service or the lease of the local loop as an Unbundled Network Element, and Sprint receives a good faith request for service from a customer at the same premise or from another carrier with the appropriate customer authorization, the procedures below will apply.
 - 34.1.1. Sprint will process such orders and provision services consistent with the terms contained in Section 71, of this Agreement.
 - 34.1.2. Where AT&T is using a single facility to provide service to multiple end user customers, Sprint will not disconnect that facility as a result of the following procedures.
 - 34.1.3. Sprint will follow methods prescribed by the FCC and any applicable state regulation for carrier change verification.
 - 34.1.4. Customer with Existing Service Changing Local Service Provider
 - 34.1.4.1. In situations where a competitive LEC submits an order for an end user customer that is changing local service providers for existing service, and is not adding service (*i.e.*, an additional line), Sprint will process the service request without delay, and provide the losing competitive LEC a customer loss notification consistent with industry standards.
 - 34.1.5. Customer with Existing Service Adding New Service
 - 34.1.5.1. In situations where an order is submitted for an end user customer adding service to existing service (i.e., an additional line), the order should be marked as an additional line and existing facilities will not be affected.
 - 34.1.6. Customer Requesting New Service where Previous Customer has Abandoned Service
 - 34.1.6.1. The following applies in the case where an end user customer vacates premises without notifying the local service provider and a new end user customer moves into the vacated premises and orders new service from a local service provider and neither Sprint nor the previous local service provider are aware that the original end user customer has abandoned the service in place.
 - 34.1.6.2. When a carrier requests service at a location and marks the order as abandoned and AT&T is the previous local service provider, Sprint shall notify AT&T via fax that it has had a request

for service at the premise location that is currently being served by AT&T;

- 34.1.6.3. If available to Sprint, Sprint shall include the name and address of the party receiving service at such locations, but at a minimum shall provide local service address location information;
- 34.1.6.4. If AT&T does not respond within twenty-four (24) business hours after receiving Sprint's notification or if AT&T responds relinquishing the facilities, Sprint shall be free to use the facilities in question and Sprint shall issue a disconnect order with respect to the AT&T service at that location. If AT&T responds stating that the service is working and should not be disconnected, Sprint will notify the carrier ordering service and request verification of the address and location or the submission of an order for an additional line.

35. PRICE SCHEDULE

- 35.1. All prices under this agreement are set forth in the attachments designated Table One and Table Two of this Agreement are hereby incorporated into, and made a part of, this Agreement.
- 35.2. Subject to the provisions of Part B, Section 4 of this Agreement, all rates provided under this Agreement shall remain in effect for the term of this Agreement.

35.3. Local Service Resale

35.3.1. The rates that AT&T shall pay to Sprint for Local Resale are as set forth in Table One of this Agreement and shall be applied consistent with the provisions of Part D of this Agreement.

35.4. Unbundled Network Elements

35.4.1. The charges that AT&T shall pay to Sprint for Unbundled Network Elements are set forth in Table One of this Agreement.

35.5. Collocation

35.5.1. The charges that AT&T shall pay to Sprint for Collocation are set forth in Table Two of this Agreement.

35.6. Call Related Databases

35.6.1. The charges that AT&T shall pay to Sprint for Call Related Databases purchased pursuant to Part J are set forth in Table One of this Agreement.

36. SECURITY DEPOSIT

36.1. Sprint reserves the right to secure the account with a suitable form of security deposit, unless satisfactory credit has already been established through twelve (12) consecutive

months of current payments for carrier services to Sprint and all ILEC affiliates of Sprint. A payment is not considered current in any month if it is made more than thirty (30) Days after the bill date.

36.2. The security deposit shall take the form of cash or cash equivalent, an irrevocable letter of credit or other form of security acceptable to Sprint.

- 36.3. If a security deposit is required in accordance with section 36.1 on a new account, AT&T will remit such security deposit prior to inauguration of service. If a security deposit is requested for an existing account, payment of the security deposit will be made prior to acceptance by Sprint of additional orders for service.
- 36.4. The security deposit shall be two (2) months' estimated billings as calculated by Sprint, or twice the most recent month's invoices from Sprint for existing accounts. All security deposits will be subject to a minimum deposit level of \$10,000.
- 36.5. The fact that a security deposit has been made in no way relieves AT&T from complying with Sprint's regulations as to advance payments and the prompt payment of bills on presentation, nor is it a waiver or modification of the regular practices of Sprint for the discontinuance of service for non-payment of any sums due Sprint.
- 36.6. Sprint may increase the security deposit requirements when, in Sprint's reasonable judgment, changes in AT&T's financial status so warrant and/or gross monthly billing has increased beyond the level initially used to determine the security deposit. If payment of the additional security deposit amount is not made within 30 days of the request, Sprint may stop processing orders for service and AT&T will be considered in breach of the Agreement.
- 36.7. Any security deposit shall be held by Sprint as a guarantee of payment of any charges for carrier services billed to AT&T. Sprint may exercise its right to credit any cash deposit to AT&T's account, or to demand payment from the issuing bank or bonding company of any irrevocable bank letter of credit, upon the occurrence of any one of the following events:
 - 36.7.1. when AT&T undisputed balances due to Sprint that are more than thirty (30) Days past due; or
 - 36.7.2. when AT&T files for protection under the bankruptcy laws; or
 - 36.7.3. when an involuntary petition in bankruptcy is filed against AT&T and is not dismissed within sixty (60) Days;
 - 36.7.4. when this Agreement expires or terminates;
 - 36.7.5. any letter of credit issued hereunder or any bank issuing a letter of credit hereunder (each, a "Letter of Credit Bank") fails to meet the terms, conditions, and requirements set forth in this Section 39; or
 - 36.7.6. AT&T fails to provide Sprint with a replacement letter of credit on the terms set forth herein at least 10 business days prior to the expiration of any letter of credit issued to Sprint hereunder.
- 36.8. Any security deposit may be held during the continuance of the service as security for the payment of any and all amounts accruing for the service. No interest will accrue or be paid on deposits. Cash or cash equivalent security deposits will be credited to AT&T's account when AT&T has made current payments for carrier services to Sprint and all Sprint ILEC affiliates for twelve (12) consecutive months.

- 36.9. Any letter of credit issued to Sprint hereunder must meet the following requirements:
 - 36.9.1. The bank issuing any letter of credit hereunder (the "Letter of Credit Bank") must maintain a minimum credit rating of A (by Standard & Poors) or A2 (by Moody's). If AT&T proposes that the letter of credit be issued by a bank that is not so rated by Standard & Poors or Moody's, then AT&T must obtain the prior written approval of such bank by Sprint.
 - 36.9.2. The original letter of credit shall be in such form and on terms that are acceptable to Sprint and must include an automatic one-year extension.
 - 36.9.3. If AT&T receives notice from the Letter of Credit Bank of any nonrenewal of a letter of credit issued hereunder, then AT&T shall promptly notify Sprint of such notice of non-renewal. Not later than 10 business days prior to the expiration of the expiring letter of credit, AT&T shall provide Sprint a replacement letter of credit on substantially identical terms to the expiring letter of credit (or such other terms as are acceptable to Sprint). If AT&T provides a replacement letter of credit not later than 10 business days prior to the expiration of the expiring letter of credit, then Sprint shall not make a drawing under the expiring letter of credit. Upon receipt of a replacement letter of credit meeting the requirements set forth in this Agreement, Sprint will provide the original, expiring letter of credit to AT&T.
 - 36.9.4. If AT&T desires to replace any letter of credit issued to Sprint hereunder, whether due to non-renewal or otherwise, each such replacement letter of credit and the Letter of Credit Bank issuing such replacement letter of credit must meet the terms, conditions and requirements set forth in this Section 36.

PART D - LOCAL RESALE

37. TELECOMMUNICATIONS SERVICES PROVIDED FOR RESALE

37.1. At the request of AT&T, and pursuant to the requirements of the Act, and FCC and Commission Rules and Regulations, Sprint shall make available to AT&T for resale Telecommunications Services that Sprint currently provides or may provide hereafter at retail to subscribers who are not telecommunications carriers. Such resale may be as allowed by the FCC and Commission. The Telecommunications Services provided by Sprint to AT&T pursuant to this Part D are collectively referred to as "Local Resale." To the extent that this Part describes services which Sprint shall make available to AT&T for resale pursuant to this Agreement, this list of services is neither all inclusive nor exclusive.

38. GENERAL TERMS AND CONDITIONS

- 38.1. The prices charged to AT&T for Local Resale are the Sprint tariff retail prices, discounted as set forth in Part C of this Agreement.
 - 38.1.1. Voluntary Federal and State Subscriber Financial Assistance Programs
 - 38.1.1.1. Subsidized local Telecommunications Services are provided to low-income subscribers pursuant to requirements established by the appropriate state regulatory body, and include programs such as Voluntary Federal Subscriber Financial Assistance Program and Link-Up America. Voluntary Federal and State Subscriber Financial Assistance Programs are not Telecommunications Services that are available for resale under this Agreement.
 - 38.1.2. Grandfathered Services. Sprint will make any service grandfathered to an end-user or any Individual Case Basis ("ICB") service available to CLEC for resale to that same-end-user at the same location(s). Should Sprint discontinue any grandfathered or ICB service, Sprint will provide to CLEC any legally required notice as soon as practicable and at least equal in quality and timeliness to that which is provided to Sprint's own customers, prior to the effective date of changes in or discontinuation of any product or service that is available for resale under this Subsection.
 - 38.1.3 Sprint shall offer for resale all of its Telecommunications Services available at retail to subscribers who are not Telecommunications Carriers, including but not limited to Contract Service Arrangements (or ICB), Special Arrangements (or ICB), and Promotions in excess of ninety (90) Days, all in accordance with FCC and Commission Rules and Regulations. For Contract Service Arrangements, Special Arrangements, or ICBs, the end-user customer's agreement with Sprint will terminate and any applicable termination liabilities will be charged to the end-user customer.

The terms of the Contract Service Arrangement, Special Arrangement or ICB will apply commencing on the date AT&T commences to provide service to the end-user customer and ending on the end date of the Contract Service Arrangement, Special Arrangement or ICB. Sprint will apply the rate in the Contract Service Arrangement, Special Arrangement, Special Arrangement or ICB in accordance with section 38.1.

- 38.1.4 Customer Owned Coin Operated Telephone (COCOT) or Pay Telephone Access lines will be sold at wholesale prices to AT&T for the purposes of resale to third parties providing pay telephone service to the public. Provision of pay telephone service by AT&T directly to the public or resale to entities or organizations affiliated with or having the same or substantially similar identity as AT&T, using COCOT lines or Pay Telephone Access Lines purchased at wholesale is not allowable resale under the Agreement and is a material breach of the terms of this Agreement.
- 38.1.5 For Telecommunications Services that are offered by Sprint to its end users and that are available for resale, the rules and regulations associated with Sprint's retail tariff(s) shall apply when the services are resold by AT&T. Use limitations shall be in parity with services offered by Sprint to its end users.
- 38.1.6 Except as set forth above and as may be allowed by the FCC or Commission, Sprint shall not place conditions or restrictions on AT&T's resale of wholesale regulated Telecommunications Services, except for restrictions on the resale of residential service to other classifications (e.g., residential service to business customers) and for promotions of ninety (90) Days or less in length. In addition, AT&T shall be prohibited from marketing its products using the Sprint product name (e.g., AT&T may purchase the features package called "Sprint Essential" but shall be prohibited from reselling this product using the Sprint brand name or the Sprint product name). Every regulated retail service rate, including promotions over ninety (90) Days in length, discounts, and option plans will have a corresponding wholesale rate. Sprint will make wholesale telecommunications service offerings available for all new regulated services at the same time the retail service becomes available.
- 38.1.7 Voice Mail Service is not a Telecommunications Service available for resale under this Agreement. However, where available, Sprint shall make available for Local Resale the SMDI-E (Station Message Desk Interface-Enhanced), or SMDI (Station Message Desk Interface) where SMDI-E is not available, feature capability allowing for Voice Mail Services. Sprint shall make available the MWI (Message Waiting Indicator) interrupted dial tone and message waiting light feature capabilities where technically available. Sprint shall make available CF-B/DA (Call Forward on Busy/Don't Answer), CF/B (Call Forward on Busy), and CF/DA (Call Forward Don't Answer) feature capabilities allowing for Voice Mail

services.

- 38.1.8 Hospitality Service. Sprint shall provide all blocking, screening, and all other applicable functions available for hospitality lines under tariff.
- 38.1.9 LIDB Administration
 - 38.1.9.1 Sprint shall maintain customer information for AT&T customers who subscribe to resold Sprint local service dial tone lines, in Sprint's LIDB in the same manner that it maintains information in LIDB for its own similarly situated end-user subscribers. Sprint shall update and maintain the AT&T information in LIDB on the same schedule that it uses for its own similarly situated end-user subscribers.
 - 38.1.9.2 Until such time as Sprint's LIDB has the software capability to recognize a resold number as AT&T's, Sprint shall store the resold number in its LIDB at no charge and shall retain revenue for LIDB look-ups to the resold number.
- 38.1.10Sprint will continue to provide Primary Interexchange Carrier ("PIC") processing for end-users obtaining resold service from AT&T. Sprint will bill and AT&T will pay any PIC change charges. Sprint will only accept said requests for PIC changes from AT&T and not from AT&T's end users.

PART E - NETWORK ELEMENTS

39 GENERAL

39.1 Pursuant to the following terms, Sprint will unbundle and separately price and offer Unbundled Network Elements ("UNEs"). AT&T shall pay Sprint each month for the UNEs provisioned, and shall pay the non-recurring charges listed in Table One or agreed to by the Parties. It is AT&T's obligation to combine Sprint-provided UNEs with any facilities and services that AT&T may itself provide.

40 USE OF UNBUNDLED NETWORK ELEMENTS

- 40.1 Sprint shall offer UNEs to AT&T for the purpose of offering Telecommunications Service to AT&T subscribers. Sprint shall offer UNEs to AT&T on an unbundled basis on rates, terms and conditions that are just, reasonable, and nondiscriminatory in accordance with the terms and conditions of this Agreement.
- 40.2 AT&T may use one or more UNEs to provide any feature, function, capability, or service option that such UNE(s) is (are) technically capable of providing, except as otherwise limited herein. Except as provided elsewhere in this Agreement, it is AT&T's obligation to combine Sprint provided UNEs with any and all facilities and services whether provided by Sprint, AT&T, or any other party. AT&T may Commingle UNEs with Wholesale Services or tariffed access services obtained from Sprint as provided for in this Agreement.
- 40.3 Each UNE provided by Sprint to AT&T shall be at Parity with the quality of design, performance, features, functions, capabilities and other characteristics, that Sprint provides to itself, Sprint's own subscribers, to a Sprint Affiliate or to any other Telecommunications Carrier requesting access to that UNE.
- 40.4 AT&T may use Network Elements provided under this Agreement for any Telecommunications Service subject to the restrictions listed below. AT&T will provide self-certification, at the time of ordering, that these requirements are met for each UNE ordered.
 - 40.4.3 Any combination of high capacity loops (DS1, DS3), to the extent available, and special access transport (a commingled facility) or Dedicated Transport, to the extent available, both of which are provided by Sprint is subject to the EEL use restrictions in section 52.4.6. Such restrictions apply irrespective of the manner in which the loops and transport are combined.
 - 40.4.4 AT&T may not access a UNE for the exclusive provision of Mobile Wireless Service. Facilities connecting Sprint's network and a Mobile Wireless Service provider's network do not qualify as UNEs and will not be available to AT&T as UNEs.
 - 40.4.5 AT&T can use Network Elements provided by Sprint to provide Local

Exchange Service. AT&T can also use UNEs for a non-local service as long as AT&T is using such UNEs to provide a meaningful amount of Local Traffic.

- 40.4.6 AT&T may not access a UNE for the exclusive provision of interexchange services. Unbundled loops ordered by AT&T into a third party collocation cannot be used by the third party collocator to provide retail interexchange services. Facilities connecting Sprint's network and interexchange carriers' networks do not qualify as UNEs and will not be available to AT&T as UNEs
- 40.4.7 AT&T can use unbundled loops to provide xDSL services in accordance with this Agreement.

41 BONA FIDE REQUEST PROCESS

- 41.1 Sprint shall promptly consider and analyze AT&T requests for unbundled network elements included in this Agreement that are not currently developed by Sprint, network information that is reasonably required to determine what unbundled network elements it needs to serve a particular customer or development of and changes to Sprint work processes related to ordering, provisioning or installation of unbundled network elements with the submission of a Bona Fide Request ("BFR") hereunder.
- 41.2 A BFR shall be submitted in writing on the Sprint Standard BFR Form and shall include a clear technical description of each request.
- 41.3 AT&T may cancel a BFR at any time, but shall pay all reasonable and demonstrable costs of processing and/or implementing the BFR up to the date of cancellation.
- 41.4 Within ten (10) calendar days of its receipt, the Sprint shall acknowledge receipt of the BFR.
- 41.5 Except under extraordinary circumstances, within thirty (30) calendar days of its receipt of a BFR, the Sprint shall provide to AT&T a preliminary analysis of such BFR.
- 41.6 Upon receipt of the preliminary analysis, AT&T shall, within thirty (30) calendar days, notify Sprint, in writing, of its intent to proceed or not to proceed.
- 41.7 Sprint shall promptly proceed with the BFR upon receipt of written authorization from AT&T. When it receives such authorization, Sprint shall promptly develop the requested services, determine their availability, calculate the applicable prices and establish installation intervals.
- 41.8 As soon as feasible, but not more than ninety (90) calendar days after its receipt of authorization to proceed with developing the BFR, Sprint shall provide to AT&T a BFR Quote which will include, at a minimum, a description of each service, the availability, the applicable rates and the installation intervals.

- 41.9 Within thirty (30) calendar days of its receipt of the BFR Quote, AT&T must either confirm, in writing, its order for the BFR pursuant to the BFR Quote or if a disagreement arises, seek resolution of the dispute under the Dispute Resolution procedures in Part B of this Agreement.
- 41.10 If a Party to a BFR believes that the other Party is not requesting, negotiating or processing the BFR in good faith, or disputes a determination, or price or cost quote, such Party may seek resolution of the dispute pursuant to the Dispute Resolution provisions in Part B of this Agreement.

42 INDIVIDUAL CASE BASIS PRICING

- 42.1 Individual Case Basis (ICB) pricing will be provided by Sprint upon request from the AT&T for customer specific rates or terms for network services and features for UNEs that are not otherwise provided for in this Agreement.
- 42.2 Sprint will process ICB Pricing requests upon receipt from the AT&T. Sprint will provide AT&T a price quote within thirty (30) business days from the receipt of the request. Price quote intervals may vary depending upon the complexity of the request but shall not exceed thirty (30) business days from the receipt of the request.

43 NETWORK INTERFACE DEVICE

- 43.1 Sprint will offer unbundled access to the network interface device element (NID). The NID is defined as any means of interconnection of end-user customer premises wiring to an incumbent LEC's distribution plant, such as a cross connect device used for that purpose. This includes all features, functions, and capabilities of the facilities used to connect the loop to end-user customer premises wiring, regardless of the specific mechanical design.
- 43.2 The function of the NID is to establish the network demarcation point between a LEC (ILEC/AT&T) and its subscriber. The NID provides a protective ground connection, protection against lightning and other high voltage surges and is capable of terminating cables such as twisted pair cable.
- 43.3 AT&T may connect its NID to Sprint's NID; may connect an unbundled loop to its NID; or may connect its own Loop to Sprint's NID. Sprint will provide one NID termination with each loop. If additional NID terminations are required, AT&T may request them pursuant to the process detailed in the Bona Fide Request Section herein.
- 43.4 Sprint will provide AT&T with information that will enable their technician to locate end user inside wiring at NIDs terminating multiple subscribers. Sprint will dispatch a technician and tag the wiring at the AT&T's request. In such cases the charges specified in Table One will apply.
- 43.5 Sprint will not provide specialized (Sprint non-standard) NIDS.
- 43.6 The Sprint NID shall provide a clean, accessible point of connection for the inside wiring and for the distribution media and/or cross connect to AT&T's NID and shall maintain a connection to ground that meets applicable industry standards. Each Party shall ground its NID independently of the other party's NID.
- 43.7 When requested, Sprint will provide NIDs separately from loops for a separate price as shown in Table 1. A NID will be provided with each unbundled loop and is included in the loop pricing shown in Table 1.
- 44 LOOP

- 44.1 Sprint will provide AT&T access to Local Loops as defined in Part A including Copper Loops, DS1 Loops, DS3 Loops, Hybrid Loops, FTTC Loops and FTTH Loops. The following section includes the terms and conditions for Copper Loops, DS1 Loops, DS3 Loops, Hybrid Loops, FTTC Loops and FTTH Loops. Terms and conditions for making any network modifications resulting from AT&T's request for Local Loops is contained in Section 53.
- 44.2 At AT&T's request, and if technically feasible, Sprint will test and report trouble on conditioned loops for all of the line's features, functions, and capabilities, and will not restrict its testing to voice-transmission only. Testing shall include Basic Testing and Cooperative Testing. Basic Testing shall include simple metallic measurements only, performed by accessing the loop through the voice switch. To the extent AT&T requests testing that would require Sprint to purchase new equipment, establish new procedures, or make systems modifications, AT&T will compensate Sprint for costs incurred to provide such testing. Request for additional testing must be submitted pursuant to the BFR Process in section 41.
 - 44.2.3 Basic Testing does not include cooperative efforts that require Sprint's technician to work jointly with AT&T's staff ("Cooperative Testing").
 - 44.2.4 Cooperative testing will be provided by Sprint at AT&T's expense. Sprint technicians will try to contact AT&T's representative at the conclusion of installation. If the AT&T does not respond within 3 minutes, Sprint may, in its sole discretion, abandon the test and AT&T will be charged for the test.
 - 44.2.5 Sprint will charge AT&T at the rates set out on Table One, when the location of the trouble on a AT&T-reported ticket is determined to be in AT&T's network or on the AT&T end user's side of the Demarcation Point.
- 44.3 Analog Loop Capabilities
 - 44.3.3 Analog loops facilitate the transmission of voice grade signals in the 300-3000 Hz range and terminate in a 2-wire or 4-wire electrical interface at the AT&T's end user's premises. AT&T shall not install equipment on analog Loops that exceeds the specified bandwidth.
 - 44.3.4 Sprint will provide analog Loops as Copper Loops, Hybrid Loops, and where required, FTTH Loops and FTTC Loops, based on available facilities.
- 44.4 Digital Loops
 - 44.4.3 Sprint will provide digital Loops on the basis of the service that will be provisioned over the Loop. Digital Loops are Copper Loops over which AT&T may deploy advanced services. Deployment of advanced services over digital loops by AT&T will be consistent with the terms and conditions contained in Section 44.8. On digital Loops, Sprint will only provide electrical continuity and line balance.

- 44.4.4 Sprint shall employ industry accepted standards and practices to maximize binder group efficiency through analyzing the interference potential of each loop in a binder group, assigning an aggregate interference limit to the binder group, and then adding loops to the binder group until that limit is met. Disputes regarding the standards and practices employed in this regard shall be resolved through the Dispute Resolution Process set forth in Part B of this Agreement.
- 44.4.5 Reverse ADSL Loops. If a AT&T's ADSL Transmission Unit (including those integrated into DSLAMs) is attached to Sprint's Network and if an ADSL Copper Loop should start at an outside location, and is looped through a host or remote, and then to the subscriber, the copper plant from the outside location to the Sprint host or remote central office must be a facility dedicated to ADSL transmission only and not part of Sprint's regular feeder or distribution plant.
- 44.5 Non-Standard Digital Loops
 - 44.5.3 If AT&T requests a digital Loop, for which the effective loop length exceeds the xDSL standard of 18 kft (subject to gauge design used in an area), Sprint will only provide a Non-Standard Digital Loop. Additional non-recurring charges for conditioning will apply. Non-Standard Digital Loops will not be subject to performance measurements or technical specifications, however, all of the SMC requirements set forth in Section 44.4 are applicable.

44.6 DS1 Loops

- 44.6.3 Subject to the cap in Section 44.6.4, Sprint will provide AT&T nondiscriminatory access to a DS1 Loop on an unbundled basis to any building not served by a Wire Center with at least 60,000 business lines and at least four fiber-based collocators. Once a Wire Center exceeds both of these thresholds, no future DS1 loop unbundling will be required in that wire center. DS1 loops include, but are not limited to, two-wire and fourwire copper loops capable of providing high-bit rate digital subscriber line services, including T1 services. The Wire Centers that meet these requirements as of the date of this Agreement are listed on Exhibit A.
- 44.6.4 AT&T may obtain a maximum of ten unbundled DS1 loops to any single building in which DS1 loops are available as unbundled loops. If AT&T has more than ten DS1 loops to a single building AT&T will transition any DS1 loops in excess of ten to another service within 90 days.
- 44.6.5 For a 12-month period beginning on March 11, 2005, any DS1 loop UNEs that AT&T leases from Sprint, but which Sprint is not obligated to unbundle pursuant to Sections 44.6.3 and 44.6.4, shall be available for lease from Sprint at the rates on Table One. AT&T will true-up the rates paid for DS1 loops back to March 11, 2005. AT&T must submit the necessary orders to convert these UNEs to an alternative service

arrangement within twelve months of March 11, 2005. Sprint will issue a credit to AT&T for the service order/conversion charge in Table One for orders submitted prior to December 11, 2005. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the DS1 Loops to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.

- 44.6.6 Where Sprint is not required to provide unbundled DS1 loops pursuant to Sections 44.6.3 and 44.6.4, AT&T may not obtain new DS1 loops as UNEs.
- 44.6.7 If Sprint identifies Wire Centers in addition to those listed on Exhibit A that exceed the threshold, Sprint will provide AT&T notice in accordance with the notice provisions of this Agreement. AT&T shall not be able to order new DS1 loops for the identified wire centers 60 (sixty) days after the date of the notice, subject to the Dispute Resolution section of this Agreement. If any carrier has disputed a wire center designation and the dispute was resolved by the Commission, the parties will abide by the Commission's decision. Any DS1 loops leased from Sprint on the date of the notice at a rate equal that is 115% of rate AT&T paid on the date of the notice.
 - 44.6.7.1 AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within twelve months of the above notice date. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the DS1 Loops to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.

44.7 DS3 Loops

- 44.7.3 Subject to the cap described in Section 44.7.4, Sprint shall provide AT&T with nondiscriminatory access to a DS3 loop on an unbundled basis to any building not served by a Wire Center with at least 38,000 business lines and at least four fiber-based collocators. Once a Wire Center exceeds both of these thresholds, no future DS3 loop unbundling will be required in that Wire Center. The Wire Centers that meet these requirements as of the date of this Agreement are listed on Exhibit A.
- 44.7.4 AT&T may obtain a maximum of a single unbundled DS3 loop to any single building in which DS3 loops are available as unbundled loops. If AT&T has more than one DS3 loops to a single building AT&T will transition any DS3 loops in excess of one to another service within ninety (90) days.

- 44.7.5 For a 12-month period beginning on March 11, 2005, any DS3 loop UNEs that AT&T leases from Sprint of that date, but which Sprint is not obligated to unbundle pursuant to Sections 44.7.3 and 44.7.4, shall be available for lease from Sprint at the rates on Table One. AT&T will true-up the rates paid for DS3 loops back to March 11, 2005. AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within twelve months of March 11, 2005. Sprint will issue a credit to AT&T for the service order/conversion charge in Table One for orders submitted prior to December 11, 2005. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the DS3 Loops to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.
- 44.7.6 Where Sprint is not required to provide unbundled DS3 loops pursuant to Sections 44.7.3 and 44.7.4, AT&T may not obtain new DS3 loops as UNEs.
- 44.7.7 If Sprint identifies Wire Centers in addition to those listed on Exhibit A that exceed the threshold, Sprint will provide AT&T notice in accordance with the notice provisions of this Agreement. AT&T shall not be able to order new DS3 loops for the identified wire centers 30 days after the date of the notice, subject to the Dispute Resolution section of this Agreement. If any carrier has disputed a wire center designation and the dispute was resolved by the Commission, the parties will abide by the Commission's decision. Any DS3 loops leased from Sprint on the date of the notice shall be available for a 12-month period from the date of the notice.
 - 44.7.7.1 AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within twelve months of the above notice date. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the DS3 Loops to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.
- 44.8 Adherence to National Industry Standards
 - 44.8.3 In providing advanced service loop technology, Sprint shall allow AT&T to deploy underlying technology that does not significantly interfere with other advanced services and analog circuit-switched voice band transmissions.
 - 44.8.4 Until long term industry standards and practices can be established, a particular technology shall be presumed acceptable for deployment under certain circumstances. Deployment that is consistent with at least one of

the following circumstances presumes that such loop technology will not significantly degrade the performance of other advanced services or impair traditional analog circuit-switched voice band services:

- 44.8.4.1 Complies with existing industry standards, including an industry-standard PSD mask, as well as modulation schemes and electrical characteristics;
- 44.8.4.2 Is approved by an industry standards body, the FCC, or any state commission or;
- 44.8.4.3 Has been successfully deployed by any CLEC without significantly degrading the performance of other services.
- 44.8.4.4 Where AT&T seeks to establish that deployment of a technology falls within the presumption of acceptability under paragraph 44.8.4.3, the burden is on AT&T to demonstrate to the Commission that its proposed deployment meets the threshold for a presumption of acceptability and will not, in fact, significantly degrade the performance of other advanced services or traditional voice band services.
- 44.8.5 If a deployed technology significantly degrades other advanced services, the affected Party will notify the interfering party and give them a reasonable opportunity to correct the problem. The interfering Party will immediately stop any new deployment until the problem is resolved to mitigate disruption of other carrier services. If the affected parties are unable to resolve the problem, they will present factual evidence to the Commission for review and determination. If the Commission determines that the deployed technology is the cause of the interference, the deploying party will remedy the problem by reducing the number of existing customers utilizing the technology or by migrating them to another technology that does not disturb.
- 44.8.6 When the only degraded service itself is a known disturber and the newly deployed technology is presumed acceptable pursuant to Section 44.8.4, the degraded service shall not prevail against the newly deployed technology.
- 44.8.7 If Sprint denies a request by AT&T to deploy a technology, it will provide detailed, specific information providing the reasons for the rejection.
- 44.8.8 Parties agree to abide by national standards as developed by ANSI, i.e., Committee T1E1.4 group defining standards for loop technology. At the time the deployed technology is standardized by ANSI or the recognized standards body, the AT&T will upgrade its equipment to the adopted standard within sixty (60) Days of the standard being adopted.
- 44.8.9 AT&T shall meet the power spectral density requirement given in the respective technical references listed below:

- 44.8.9.1 For Basic Rate ISDN: Telcordia TR-NWT-000393 Generic Requirements for ISDN Basic Access Digital Subscriber Lines.
- 44.8.9.2 For HDSL installations: Telcordia TA-NWT-001210 Generic Requirements for High-Bit-Rate Digital Subscriber Lines. Some fractional T1 derived products operating at 768 kbps may use the same standard.
- 44.8.9.3 For ADSL: ANSI T1.413-1998 (Issue 2 and subsequent revisions) Asymmetrical Digital Subscriber Line (ADSL) Metallic Interface.
- 44.8.9.4 As an alternative to Section 44.8.9.1, AT&T may meet the requirements given in ANSI document T1E1.4/2000-002R2 dated May 1, 2000. "Working Draft of Spectrum Management Standard," and subsequent revisions of this document.

44.9 Information to be Provided for Deployment of Advanced Services

- 44.9.3 Upon request, Sprint shall provide to AT&T:
 - 44.9.3.1 information with respect to the spectrum management procedures and policies that Sprint uses in determining which services can be deployed;
 - 44.9.3.2 information with respect to the rejection of AT&T's provision of advanced services, together with the specific reason for the rejection; and
 - 44.9.3.3 information with respect to the number of loops using advanced services technology within the binder and type of technology deployed on those loops.
- 44.9.4 In connection with the provision of advanced services, AT&T shall provide to Sprint the following information on the type of technology that AT&T seeks to deploy where AT&T asserts that the technology it seeks to deploy fits within a generic Power Spectral Density (PSD) mask:
 - 44.9.4.1 information in writing (via the service order) regarding the Spectrum Management Class (SMC), as defined in the T1E1.4/2000-002R2 Draft, of the desired loop so that the loop and/or binder group may be engineered to meet the appropriate spectrum compatibility requirements;
 - 44.9.4.2 the SMC (i.e. PSD mask) of the service it seeks to deploy, at the time of ordering and if AT&T requires a change in the SMC of a particular loop, AT&T shall notify Sprint in writing of the requested change in SMC (via a service order);
 - 44.9.4.3 to the extent not previously provided AT&T must disclose to Sprint every SMC that the AT&T has implemented on Sprint's facilities to permit effective Spectrum Management.
- 44.10 Hybrid Loops. Sprint will provide AT&T access to Hybrid Loops for the provision of narrowband services as provided below. Sprint is not required to provide unbundled access to the packet switched features, functions, and capabilities of its Hybrid Loops.
 - 44.10.3When AT&T requests access to a Hybrid Loop for the provision of narrowband services, Sprint will
 - 44.10.3.1 Provide non-discriminatory unbundled access to the entire Hybrid Loop capable of providing voice-grade service (*i.e.* equivalent to DS0 capacity) using time division multiplexing, or
 - 44.10.3.2 Provide non-discriminatory unbundled access to a spare Copper Loop serving that end-user.

44.11 Fiber Loops

44.11.3Dark Fiber Loops

- 44.11.3.1 Dark Fiber is an optical transmission facility without attached multiplexing, aggregation or other electronics. Dark Fiber is unactivated fiber optic cable deployed by Sprint that has not been activated through connections to optronics that light it, and thereby render it capable of carrying communications.
- 44.11.3.2 Sprint is not required to provide AT&T with access to dark fiber loop on an unbundled basis.
- 44.11.3.3 For an 18-month period beginning on March 11, 2005, any dark fiber loop UNEs that AT&T leases from Sprint as of March 11, 2005 shall be available for lease from Sprint at the rate on Table One. The charges for dark fiber loop are subject to true-up retroactive to March 11, 2005 regardless of when this Agreement is effective. AT&T may not obtain new dark fiber loops as UNEs.
- 44.11.3.4 AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within eighteen months of March 11, 2005. Sprint will issue a credit to AT&T for the service order/conversion charge in Table One for orders submitted prior to December 11, 2005. By September 10, 2006, AT&T must transition the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the Dark Fiber Loops to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.

44.12 FTTH and FTTC Fiber Loops

- 44.12.3New builds. Sprint will not provide non-discriminatory access to FTTH Loop or a FTTC Loop on an unbundled basis when Sprint has deployed a FTTH or FTTC Loop to an end-user customer premise that previously has not been served by any loop facility.
- 44.12.40verbuilds. Sprint will not provide non-discriminatory access to FTTH Loop or FTTC Loop on an unbundled basis when Sprint has deployed a FTTH Loop or FTTC Loop parallel to, or in replacement of, an existing loop facility, except that:
 - 44.12.4.1 Sprint will maintain the existing Copper Loop connected to a particular customer premises after deploying FTTH Loop or FTTC Loop and provide non-discriminatory access to the Copper Loop on an unbundled basis unless Sprint has retired the Copper Loop as set forth below.

- 44.12.4.2 If Sprint deploys FTTH Loop or FTTC Loop and maintains the existing Copper Loop, Sprint will restore the Copper Loop to serviceable condition upon request.
- 44.12.4.3 If Sprint deploys FTTH Loop or FTTC Loop and retires the existing Copper Loop, Sprint will provide non-discriminatory access to a 64 kilobits per second transmission path capable of voice grade service over the FTTH Loop or FTTC Loop.
- 44.12.4.4 Prior to retiring Copper Loop or copper subloop that has been replaced with FTTH Loop or FTTC Loop Sprint will comply with the notice requirements set forth in 251(c)(5) of the Act, Sections 51.325 through 51.335 of the Code of Federal Regulations and applicable Commission requirements, if any.
- 44.13 Tag and Label. At AT&T's request, Sprint will tag and label unbundled loops at the Network Interface Device (NID). Tag and label may be ordered simultaneously with the ordering of the Loop or as a separate service subsequent to the ordering of the Loop.
 - 44.13.3Sprint will include the following information on the label: order number, due date, AT&T name, and the circuit number.
 - 44.13.4AT&T must specify on the order form whether each Loop should be tagged and labeled.
 - 44.13.5The rates for Loop tag and label and related services are set forth on Table One. A trip charge may be billed in addition to the Tag and Label charges.

45 SUBLOOPS

- 45.1 Sprint will offer unbundled access to copper subloops and subloops for access to multiunit premises wiring. Sprint will consider all requests for access to subloops through the ICB process due to the wide variety of interconnections available and the lack of standards. A written response will be provided to AT&T covering the interconnection time intervals, prices and other information based on the ICB process as set forth in this Agreement.
- 45.2 Sprint is not required to provide AT&T access to dark fiber subloops.
- 45.3 Copper Subloops. Sprint will make available access to copper subloops on an unbundled basis. A copper subloop is a portion of a Copper Loop, or Hybrid Loop, and is comprised entirely of copper wire or copper cable that acts as a transmission facility between any accessible terminal in Sprint's outside plant, including inside wire owned or controlled by Sprint, and the end-user customer premises. A copper subloop can also include intermediate devices, such as repeaters, used to establish the transmission path. Copper subloops can be used by AT&T to provide voice-grade services as well as digital subscriber line services. Access to copper subloops is subject to the collocation provisions of this Agreement. Copper

subloop consists of the distribution portion of the copper loop. Sprint is not obligated to offer feeder loop plant as a stand-alone UNE.

- 45.3.3 An accessible terminal is any point on the loop where technicians can access a copper wire within the cable without removing a splice case. Such points include, but are not limited to, a pole or pedestal, the serving area interface, the network interface device, the minimum point of entry, any remote terminal, and the feeder/distribution interface.
- 45.4 Multiunit premises wiring. Sprint will make available to AT&T access to subloops for access to multiunit premises wiring on an unbundled basis. The subloop for access to multiunit premises wiring is defined as any portion of the loop that it is technically feasible to access at a terminal in the incumbent LEC's outside plant at or near a multiunit premises, including inside wire. Inside wire is wire owned or controlled by Sprint at a multiunit customer premises between the minimum point of entry and the point of demarcation.
 - 45.4.3 An accessible terminal is any point in Sprint's network where a technician can access the wire within the cable (e.g., via screw posts, terminals, patch panels) without removing a splice case to reach the wire within to access the wiring in the multiunit premises. Such points include, but are not limited to, a pole or pedestal, the NID, the minimum point of entry, the single point of interconnection, and the feeder/distribution interface.
 - 45.4.4 Upon request for interconnection at a multiunit premises where Sprint owns, controls, or leases wiring, Sprint will provide a single point of interconnection that is suitable for use by multiple carriers. If the Parties do not agree on appropriate terms, conditions and rates for the single point of interconnection to multiunit premises wiring either Party may invoke the Dispute Resolution provisions of this Agreement.
- 45.5 Sprint will not provide or maintain inside wire in situations where it determines there are health or safety concerns in doing so.
- 45.6 Deployment of advanced services by AT&T over subloops will be in accordance with the terms included in 44.8 and 44.9 of this section.
- 45.7 Reverse ADSL Loops. If a AT&T's ADSL Transmission Unit (including those integrated into DSLAMs) is attached to Sprint's Network and if an ADSL Copper Loop should start at an outside location, and is looped through a host or remote, and then to the subscriber, the copper plant from the outside location to the Sprint host or remote central office must be a facility dedicated to ADSL transmission only and not part of Sprint's regular feeder or distribution plant.

46 OPERATIONS SUPPORT SYSTEMS (OSS)

46.1 Sprint will offer unbundled access to Sprint's operations support systems to the extent technically feasible in a non-discriminatory manner at Parity. OSS consists of pre-ordering, ordering, provisioning, maintenance and repair, and billing

functions supported by Sprint's databases and information. The OSS element includes access to all loop qualification information contained in Sprint's databases or other records, including information on whether a particular loop is capable of providing advanced services.

47 LOOP MAKE-UP INFORMATION

- 47.1 Sprint shall make available Loop Make-Up Information in a non-discriminatory manner at Parity with the data and access it gives itself and other CLECs, including affiliates. The charges for Loop Make-Up Information are set forth in Table One to this Agreement.
- 47.2 Information provided to AT&T will not be filtered or digested in a manner that would affect AT&T's ability to qualify the loop for advanced services.
- 47.3 Sprint shall provide Loop Make-Up Information based on the individual telephone number or address of an end-user in a particular wire center or NXX code. Loop Make-Up Information requests will be rejected if the service address is not found within existing serving address information, if the telephone number provided is not a working number or if the POI identified is not a POI where AT&T requests to connect to the Sprint LTD network.
- 47.4 Errors identified in validation of the Loop Make-Up Information inquiry order will be returned to AT&T.
- 47.5 Sprint may provide the requested Loop Make-Up Information to AT&T in whatever manner Sprint would provide to their own internal personnel, without jeopardizing the integrity of proprietary information (i.e. - fax, intranet inquiry, document delivery, etc.). If the data is provided via fax, AT&T must provide a unique fax number used solely for the receipt of Loop Make-Up Information.
- 47.6 If AT&T does not order Loop Make-Up Information prior to placing an order for a loop for the purpose of provisioning of an advanced service and the advanced service cannot be successfully implemented on that loop, AT&T agrees that:
 - 47.6.3 AT&T will be charged a Trouble Isolation Charge to determine the cause of the failure;
 - 47.6.4 If Sprint undertakes Loop Make-Up Information activity to determine the reason for such failure, AT&T will be charged a Loop Make-Up Information Charge; and
 - 47.6.5 If Sprint undertakes Conditioning activity for a particular loop to provide for the successful installation of advanced services, AT&T will pay applicable conditioning charges as set forth in Table One pursuant to Section 53.3 of this Agreement.

48 LOCAL CIRCUIT SWITCHING

- 48.1 DS0 Capacity (i.e. mass market)
 - 48.1.3 Sprint is not required to provide access to local circuit switching on an unbundled basis to AT&T for the purpose of serving end-user customers using DS0 capacity loops.
 - 48.1.4 AT&T shall migrate its embedded base of end-user customers off of the

unbundled local circuit switching element, including local circuit switching provided as part of UNE-P, to an alternative arrangement within 12 months of March 11, 2005. AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within twelve months of March 11, 2005. AT&T must have completed the transition of the UNEs to alternative facilities or arrangements by the end of the twelve month period. If AT&T fails to submit the necessary orders, Sprint will convert the UNE-P to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.

- 48.1.5 Notwithstanding the above section, for a 12-month period from March 11, 2005, Sprint shall provide access to local circuit switching, including local circuit switching provided as part of UNE-P, on an unbundled basis for AT&T to serve its embedded base of end-user customers. The price for unbundled local circuit switching, including local circuit switching provided as part of UNE-P, obtained pursuant to this section is set forth on Table One. AT&T will true-up the rates paid for local circuit switching, including local circuit switching provided as part of UNE-P, back to March 11, 2005. AT&T may not obtain new local circuit switching as an unbundled network element.
- 48.2 Elements related to the local circuit switching element will made available on an unbundled basis to AT&T to the extent that AT&T is entitled to unbundled local circuit switching as set forth above.
 - 48.2.3 Sprint will provide AT&T with non-discriminatory access to signaling, call-related databases and common transport facilities on an unbundled basis, to the extent that Sprint is required to provide unbundled local circuit switching as set forth above.
- 48.3 Sprint is not required to provide local switching under this Section for switching used to serve end users with four or more lines in access density zone 1, in the top 50 Metropolitan Statistical Areas.
- 48.4 Sprint is not required to provide access to local circuit switching on an unbundled basis to requesting carriers using DS1 capacity and above.

49 DEDICATED TRANPORT

49.1 Sprint shall provide AT&T with nondiscriminatory access to dedicated transport on an unbundled basis, as set forth in this Agreement. A "route" is a transmission path between one of Sprint's wire centers or switches and another of Sprint's wire centers or switches. A route between two points (*e.g.*, wire center or switch "A" and wire center or switch "Z") may pass through one or more intermediate wire centers or switches (*e.g.*, wire center or switch "X"). Transmission paths between identical end points (*e.g.*, wire center or switch "A" and wire center or switch "Z") are the same "route," irrespective of whether they pass through the same intermediate wire centers or switches, if any.

- 49.1.3 Sprint is not obligated to provide a requesting carrier with unbundled access to dedicated transport that does not connect a pair of Sprint wire centers (i.e. entrance facilities). Further, Sprint is not obligated to provide DSO or OC-N and above Dedicated Transport facilities as a UNE.
- 49.2 Dedicated DS1 transport shall be made available to AT&T on an unbundled basis as set forth below. Dedicated DS1 transport consists of Sprint interoffice transmission facilities that have a total digital signal speed of 1.544 megabytes per second and are dedicated to a particular customer or carrier.
 - 49.2.3 Sprint shall unbundle DS1 transport between any pair of Sprint wire centers except where, through application of tier classifications defined in Part A, both wire centers defining the route are Tier 1 wire centers. As such, Sprint will unbundle DS1 transport if a wire center at either end of a requested route is not a Tier 1 wire center, or if neither is a Tier 1 wire center.
 - 49.2.4 AT&T may obtain a maximum of ten unbundled DS1 dedicated transport circuits on each route where DS1 dedicated transport is available on an unbundled basis.
 - 49.2.5 For a 12-month period beginning on March 11, 2005, any DS1 dedicated transport UNE that AT&T leases from Sprint as of that date, but which Sprint is not obligated to unbundle pursuant to Sections 49.2.3 and 49.2.4, shall be available for lease from Sprint at the rates on Table One. AT&T will true-up the rates paid for DS1 dedicated transport back to March 11, 2005. Where Sprint is not required to provide unbundled DS1 transport pursuant Sections 49.2.3 and 49.2.4, AT&T may not obtain new DS1 transport as unbundled network elements as of March 11, 2005. AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within twelve months of March 11, 2005. Sprint will issue a credit to AT&T for the service order/conversion charge in Table One for orders submitted prior to December 11, 2005. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the DS1 Dedicated Transport to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.

49.2.6 If Sprint identifies routes in addition to those listed on Exhibit A that exceed the threshold, Sprint will provide AT&T notice in accordance with the notice provisions of this Agreement. AT&T shall not be able to order new DS1 Dedicated Transport for the identified routes 30 days after the date of the notice, subject to the Dispute Resolution section of this Agreement. If any carrier has disputed a wire center designation and the dispute was resolved by the Commission, the parties will abide by the Commission's decision. Any DS1 Dedicated Transport leased from Sprint on the date of the notice shall be available for a 12-month period from the date of the notice at a rate equal that is 115% of rate AT&T paid on the date of the notice.

- 49.2.6.1 AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within twelve months of the above notice date. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the DS1 Dedicated Transport to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.
- 49.3 Dedicated DS3 transport shall be made available to AT&T on an unbundled basis as set forth below. Dedicated DS3 transport consists of Sprint interoffice transmission facilities that have a total digital signal speed of 44.736 megabytes per second and are dedicated to a particular customer or carrier.
 - 49.3.3 Sprint shall unbundle DS3 transport between any pair of Sprint wire centers except where, through application of tier classifications defined in this Agreement, both wire centers defining the route are either Tier 1 or Tier 2 wire centers. As such, Sprint will unbundle DS3 transport if a wire center on either end of a requested route is a Tier 3 wire center.
 - 49.3.4 AT&T may obtain a maximum of twelve unbundled DS3 dedicated transport circuits on each route where DS3 dedicated transport is available on an unbundled basis.
 - 49.3.5 For a 12-month period beginning on March 11, 2005, any DS3 dedicated transport UNE that AT&T leases from Sprint as of that date, but which Sprint is not obligated to unbundle pursuant to sections 49.3.3 and 49.3.4, shall be available for lease from the incumbent LEC at the rate on Table One. AT&T will true-up the rates paid for DS3 dedicated transport back to March 11, 2005. Where Sprint is not required to provide unbundled DS3 transport pursuant to sections 49.3.3 and 49.3.4, AT&T may not obtain new DS3 transport as unbundled network elements. AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within twelve months of March 11, 2005. Sprint will issue a credit to AT&T for the service order/conversion charge in Table One for orders submitted prior to December 11, 2005. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the DS3 Dedicated Transport to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.
 - 49.3.6 If Sprint identifies routes in addition to those listed on Exhibit A that exceed the threshold, Sprint will provide AT&T notice in accordance with

the notice provisions of this Agreement. AT&T shall not be able to order new DS3 Dedicated Transport for the identified routes 30 days after the date of the notice, subject to the Dispute Resolution section of this Agreement. If any carrier has disputed a wire center designation and the dispute was resolved by the Commission, the parties will abide by the Commission's decision. Any DS3 Dedicated Transport leased from Sprint on the date of the notice shall be available for a 12-month period from the date of the notice at a rate equal that is 115% of rate AT&T paid on the date of the notice.

49.3.6.1 AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within twelve months of the above notice date. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the DS3 Dedicated Transport to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.

49.4 Technical Requirements for DS1 and DS3 Dedicated Transport

- 49.4.3 Where technologically feasible and available, Sprint shall offer Dedicated Transport consistent with the underlying technology as follows:
 - 49.4.3.1 When Sprint provides Dedicated Transport, the entire designated transmission circuit (e.g., DS-1, DS-3) shall be dedicated to AT&T designated traffic.
 - 49.4.3.2 Where Sprint has technology available, Sprint shall provide Dedicated Transport using currently available technologies including, but not limited to, DS1 and DS3 transport systems, SONET (or SDS) Bi-directional Line Switched Rings, SONET (or SDH) Unidirectional Path Switched Rings, and SONET (or SDS) point-to-point transport systems (including linear add-drop systems), at all available transmission bit rates.
- 49.5 Dedicated Dark Fiber Transport

49.5.3 General Rules and Definition

- 49.5.3.1 Dark Fiber is an optical transmission facility without attached multiplexing, aggregation or other electronics. Dark Fiber is unactivated fiber optic cable deployed by Sprint that has not been activated through connections to optronics that light it, and thereby render it capable of carrying communications.
- 49.5.3.2 Sprint will unbundle Dark Fiber for Dedicated Transport as set forth in this Agreement and as follows:

Sprint shall unbundle dark fiber transport between any pair of Sprint Wire Centers except where both wire centers defining the route are either Tier 1 or Tier 2 Wire Centers. Sprint will unbundle dark fiber transport if a wire center on either end of a requested route is a Tier 3 wire center.

Beginning on March 11, 2005 and for an 18-month period, any dark fiber transport UNE that AT&T leases from Sprint, where Sprint is not obligated to provide unbundled dark fiber transport, shall be available at the rates on Table One. AT&T will true-up the rates paid for dark fiber dedicated transport back to March 11, 2005. Where Sprint is not required to provide unbundled dark fiber transport, AT&T may not obtain new dark fiber transport as a UNE.

- AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within eighteen months of March 11, 2005. By September 10, 2006, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders, Sprint will convert the Dark Fiber Dedicated Transport to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.
- 49.5.3.3 If Sprint identifies routes in addition to those listed on Exhibit A that exceed the threshold, Sprint will provide AT&T notice in accordance with the notice provisions of this Agreement. AT&T shall not be able to order new Dark Fiber Dedicated Transport for the identified routes 30 days after the date of the notice, subject to the Dispute Resolution section of this Agreement. If any carrier has disputed a wire center designation and the dispute was resolved by the Commission, the parties will abide by the Commission's decision. Any Dark Fiber Dedicated Transport leased from Sprint on the date of the notice shall be available for a 18-month period from the date of the notice.

AT&T must submit the necessary orders to convert these UNEs to an alternative service arrangement within eighteen months of the above notice date. Sprint will issue a credit to AT&T for the service order/conversion charge in Table One for orders submitted prior to December 11, 2005. By the end of the twelve month period, AT&T must have transitioned the UNEs to alternative facilities or arrangements. If AT&T fails to submit the necessary orders. Sprint will convert the Dark Fiber Dedicated Transport to comparable access services. Sprint will assess the conversion charge and a management fee for the work performed by Sprint on behalf of AT&T.

49.5.4 Fiber Availability

- 49.5.4.1 Spare fibers in a sheath are not considered available if Sprint has plans to put the fiber in use within the current year or the following year.
- 49.5.4.2 Sprint will also maintain fibers to facilitate maintenance, rearrangements and changes. Sprint will generally reserve 8% of fibers in a sheath for maintenance, subject to a minimum of four (4) fibers and a maximum of twelve (12) fibers.
- 49.5.4.3 Dark fiber requests will be handled on a first come, first served basis, based on the date the Dark Fiber Application (DFA) is received.

49.5.5 Interconnection Arrangements

- 49.5.5.1 Rules for gaining access to unbundled network elements apply to Dark Fiber. Virtual and physical collocation arrangements may be used by AT&T to locate the optical electronic equipment necessary to "light" leased Dark Fiber.
- 49.5.5.2 The CLEC that requests Dark Fiber must be able to connect to the Sprint fiber by means of fiber patch panel.
- 49.5.5.3 If fiber patch panels (FPPs) are not located within close enough proximity for a fiber patch cord, Sprint will purchase and install intraoffice cabling at AT&T's expense. This process is outside the scope of this agreement.
- 49.5.5.4 Establishment of applicable fiber optic transmission equipment or intermediate repeaters needed to power the

unbundled Dark Fiber in order to carry Telecommunications Services is the responsibility of AT&T.

- 49.5.6 Dark Fiber Application and Ordering Procedure
 - 49.5.6.1 AT&T will submit a Dark Fiber Application (DFA) and application fee to request that Sprint determine the availability of Dark Fiber between AT&T-specified locations. See Table One for application fee amount.
 - 49.5.6.2 Within twenty (20) business days of receipt of DFA, Sprint will provide AT&T with a response regarding fiber availability and price.

If Dark Fiber is not available, Sprint will notify AT&T of the DFA rejection.

AT&T will follow the Dispute Resolution Process outlined in Part B of this Agreement if AT&T wishes to contest the rejection.

- 49.5.6.3 If Dark Fiber is available, AT&T will notify Sprint of acceptance/rejection of Dark Fiber quote, via a firm order, within ten (10) business days of receipt of quote. Sprint will reserve the requested Dark Fiber for AT&T during these ten (10) business days. If, however, AT&T does not submit a firm order by the tenth (10th) business day, the fiber will no longer be reserved.
- 49.5.6.4 After ten (10) business days of receipt of the price quote, if AT&T has not accepted, AT&T must submit another DFA and application fee.
- 49.5.6.5 AT&T will submit a firm order for Dark Fiber via an access service request (ASR).
- 49.5.6.6 By submitting the Dark Fiber firm order, the AT&T agrees to pay quoted monthly recurring and non-recurring charges. See Table One for monthly recurring and non-recurring charges.
- 49.5.6.7 Due Date. Sprint will provision Dark Fiber twenty (20) Business Days after it receives firm order from AT&T. Billing of the monthly recurring and non-recurring charges will begin upon completion of Dark Fiber order. Sprint will allow AT&T to extend due date for firm order completion up to sixty (60) business days from the date Sprint receives firm order from AT&T. This extended due date must be specified on the firm order.

Billing of the monthly recurring and non-recurring charges will begin on the due date of the Dark Fiber order completion unless:

- 49.5.6.7.1.1 AT&T cancels firm order before the established due date. If this occurs, AT&T agrees to reimburse Sprint for all costs incurred to date; or
- 49.5.6.7.1.2 a third party submits firm order for same Dark Fiber. If this occurs, AT&T must begin compensating Sprint for monthly recurring and non-recurring charges in order to reserve fiber, once Sprint is able to provide Dark Fiber to AT&T.

49.5.7 Maintenance and Testing

- 49.5.7.1 Sprint is only responsible for maintaining the facilities that it owns.
- 49.5.7.2 Sprint will conduct an end-to-end test of Dark Fiber after receipt of the firm order.
- 49.5.7.3 For meet point arrangements, Sprint will conduct cooperative testing with another carrier at AT&T's request. Additional rates and charges will apply.
- 49.5.7.4 Sprint does not guarantee that the transmission characteristics of the Dark Fiber will remain unchanged over time.
- 49.5.7.5 Sprint is not responsible for determining whether the transmission characteristics of the Dark Fiber will accommodate the AT&T requirements.
- 49.5.8 Rules for Take Back
 - 49.5.8.1 Sprint reserves the right to take back Dark Fiber to meet its carrier of last resort obligations.
 - 49.5.8.2 Sprint will provide AT&T twelve (12) months written notice prior to taking back fiber.
 - 49.5.8.3 If multiple CLECs have leased fiber within a single sheath, Sprint will take back the fiber that was the last to be leased.
 - 49.5.8.4 Sprint will provide AT&T with alternative transport arrangements when Sprint takes back working fiber.
 - 49.5.8.5 The Dispute Resolution Procedures found in Part B of this Agreement will be followed if AT&T wishes to contest Sprint's decision to take back its leased fiber.

50 COMMINGLING

- 50.1 For the purpose of this section, wholesale services includes both services AT&T procures for resale pursuant to 251(c)(4) and exchange access service purchased from Sprint's access tariffs.
- 50.2 AT&T may Commingle an unbundled network element or combination of UNEs with wholesale services purchased from Sprint, subject to section 52.4.6. Upon request, Sprint will perform the work necessary to Commingle such UNE or UNE combinations with wholesale services purchased from Sprint subject to section 41. Each component of the commingled facility, either UNE or wholesale service, will be billed at the UNE or wholesale service rate for that component, plus applicable non-recurring charges. Sprint will not ratchet price individual components; that is, Sprint will not reflect a combination of UNE and wholesale rates for the same component. Wholesale service rates will be per the appropriate tariff, including any applicable resale discounts pursuant to this Agreement.

51 LINE SPLITTING

- 51.1 Line Splitting
 - 51.1.3 Line Splitting is an arrangement between two carriers where one carrier provides the voice services and another carrier provides advanced services over an unbundled loop.
 - 51.1.4 Whenever AT&T purchases the unbundled loop, AT&T shall control the entire loop spectrum.
 - 51.1.5 Sprint shall institute procedures to allow AT&T or another carrier to order HFS data capabilities on a UNE loop.
- 51.2 When either AT&T or the other carrier orders Line Splitting using AT&T's OCN, AT&T will be billed the charges for the Line Splitting service. When the other carrier orders Line Splitting using its own OCN, Sprint will bill the other carrier for the Line Splitting charges.

52 UNE COMBINATIONS

- 52.1 AT&T may order UNEs either individually or in the combinations, including EEL as specifically set forth in this Section of the Agreement.
- 52.2 General Terms and Conditions
 - 52.2.3 Sprint will allow AT&T to order each UNE individually in order to permit AT&T to combine UNEs with other UNEs obtained from Sprint as provided for in this Agreement, or with network components provided by itself or by third parties to provide Telecommunications Services to its end users, if the requested combination is technically feasible and would not impair the ability of other carriers to obtain access to other unbundled network elements or to interconnect with Sprint's network or in combination with any other Network Elements that are currently

combined in Sprint's Network. Upon request, Sprint will perform the functions necessary to combine UNEs, even if those elements are not ordinarily combined in Sprint's network, if the requested combination is technically feasible and would not impair the ability of other carriers to obtain access to other unbundled network elements or to interconnect with Sprint's network. AT&T will compensate Sprint the costs of work performed to combine the requested UNEs.

52.2.4 AT&T may Commingle an unbundled network element or combination of UNEs with access services purchased from Sprint. Upon request, Sprint will perform the work necessary to Commingle such UNE or UNE combinations with wholesale services purchased from Sprint. AT&T will compensate Sprint the costs of work performed to Commingle UNEs or UNE combinations with wholesale services. Each component of the commingled facility, either UNE or access service, will be billed at the UNE or access service rate for that component, plus applicable non-recurring charges. Sprint will not ratchet price individual components; that is, Sprint will not reflect a combination of UNE and access rates for the same component. Access service rates will be per the appropriate tariff. Sprint will provide AT&T access to EEL as provided in this Agreement. Any request by AT&T for Sprint to provide combined UNEs that are not otherwise specifically provided for under this Agreement will be made in accordance with the BFR process described in Section 41 and made available to AT&T upon implementation by Sprint of the necessary operational modifications.

- 52.2.5 The provisioning of EEL combinations is limited to existing facilities and Sprint is not obligated to construct additional facilities to accommodate any request by AT&T.
- 52.3 Specific Combinations and Pricing
 - 52.3.3 In order to facilitate the provisioning of EELs, Sprint shall support the ordering and provisioning of this specific combination as set forth below.
- 52.4 Sprint Offers the Following Combinations of Network Elements
 - 52.4.3 Embedded Base of Voice Unbundled Network Element Platform (UNE-P). VOICE UNE-P is the existing combination of the NID, Loop, Local Circuit Switching, Shared Transport, and Local Tandem Switching network elements.
 - 52.4.3.1 Sprint will continue to provide existing combinations of the NID, Loop, Local Circuit Switching, Local Switch Port, Shared Transport, and Local Tandem Switching (where Sprint is the provider of Shared Transport and Local Tandem Switching) unbundled network elements to provide VOICE UNE-P, to the extent Sprint is required to provide unbundled

local switching as set forth in Section 48 above, at the applicable recurring charges and non-recurring charges as specified in Table One for VOICE UNE-P plus the applicable Service Order Charge until March 10, 2006. Sprint will also bill AT&T for applicable Usage Data Recording and Transmission Charges as indicated in Table One.

52.4.3.2 Until such time as Sprint can bill the recurring charges for usage based VOICE UNE-P elements (Local Circuit Switching, Shared Transport, Local Tandem Switching), these charges will be billed to AT&T at the recurring flat rate charge reflected in Table One. Upon the implementation of the necessary operational modifications, Sprint will convert from billing AT&T based on this flat rated monthly charge to applicable usage based charges for the VOICE UNE-P elements.

- 52.4.3.3 Reciprocal compensation for UNE-P Local Traffic and ISP-Bound Traffic that originates and terminates within the same switch shall be on a bill and keep basis.
- 52.4.3.4 Sprint will provide originating and terminating access records to AT&T for access usage over UNE-P. AT&T will be responsible for billing the respective originating and/or terminating access charges directly to the IXC. Sprint will bill AT&T at the rate set forth in Table 1 for these records.
- 52.4.3.5 Sprint will provide AT&T toll call records that will allow it to bill its end users for toll charges. Such record exchange will be in industry standard EMI format as the charges set forth in Table One. Any non-standard requested format would be handled through the BFR process as set forth in Section 41 of this Agreement. Sprint will bill AT&T at the rate set forth in Table 1 for these records.
- 52.4.4 EEL is the combination of the NID, Loop, and Dedicated Transport network elements.
 - 52.4.4.1 Sprint will offer the combination of unbundled loops with wholesale services and unbundled Dedicated Transport, where Sprint is required to provide unbundled Dedicated Transport and Local Loops, to provide EELs at the applicable recurring and non-recurring charges as specified in Table One for Loops, Dedicated Transport, and where applicable, Multiplexing. The applicable recurring and nonrecurring charges, including but not limited to cross connect charges and Service Order Charges. Sprint will cross-connect unbundled 2 or 4-wire analog or 2-wire digital Loops to unbundled voice grade DS1 or DS3 Dedicated Transport

facilities for AT&T's provision of circuit switched telephone exchange service to AT&T's end users.

- 52.4.4.2 Multiplexing shall be provided as necessary as part of Dedicated Transport.
- 52.4.5 In order to obtain the EEL combinations below, a requesting AT&T must provide certification that it satisfies the service eligibility criteria for each circuit as set forth below. For existing EELs, AT&T must recertify compliance with the EELs criteria within 30 days of the Effective Date of this Agreement. AT&T must continue to be in compliance with the service eligibility criteria for as long as AT&T continues to receive the services in this section. Sprint will offer the following EEL Combinations:
 - 52.4.5.1 Unbundled DS1 Loop in combination with UNE DS1 Dedicated Transport.
 - 52.4.5.2 Unbundled DS1 Loop commingled with dedicated DS1 transport wholesale service.
 - 52.4.5.3 Unbundled DS1 Loop in combination with UNE DS3 Dedicated Transport.
 - 52.4.5.4 Unbundled DS1 Loop commingled with dedicated DS3 transport wholesale service.
 - 52.4.5.5 Unbundled DS3 Loop in combination with UNE DS3 Dedicated Transport.
 - 52.4.5.6 Unbundled DS3 Loop commingled with dedicated DS3 transport wholesale service.
 - 52.4.5.7 Unbundled DS1 Dedicated Transport commingled with DS1 channel termination.
 - 52.4.5.8 Unbundled DS3 Dedicated Transport commingled with DS1 channel termination service.
 - 52.4.5.9 Unbundled DS3 Dedicated Transport commingled with DS3 channel termination service.

52.4.6 EEL Eligibility Criteria

52.4.6.1 AT&T must have state certification to provide local voice service in the area being served or, in the absence of a state certification requirement, AT&T must have complied with registration, tariffing, filing fee, or other regulatory requirement s applicable to the provision of local voice service in the area served;

- 52.4.6.2 The following criteria must be satisfied for each combined circuit, including each DS1 circuit, each DS1 EEL, and each DS1-equivalent circuit on a DS3 EEL:
 - Each circuit to be provided to each AT&T customer must be assigned one local number prior to the provision of service over the circuit;
 - Each DS1-equivalent circuit on a DS3 EEL must have its own local number assignment, so that each DS3 has at least 28 local voice numbers assigned to it;
 - Each circuit to be provided to each customer must provide 911 or E911 capability prior to the provision of service over the circuit;
 - Each circuit to be provided to each customer must terminate into a collocation that meets one of the following requirements:
 - 52.4.6.2.1.1 a collocation established pursuant to section 251(c)(6) of the Act and located at Sprint's premises within the same LATA as the AT&T's customer's premises, when Sprint is not the collocator; or
 - 52.4.6.2.1.2 a collocation located at a third party's premises within the same LATA as the AT&T's customer's premises, when Sprint is the collocator.
 - For each 24 DS1 EELs or other facilities having equivalent capacity, AT&T must maintain at least one active DS1 local service interconnection trunk and AT&T is required to transmit the calling party's number in connection with calls exchanged over each trunk. Where AT&T does not establish an interconnection arrangement with Sprint for the meaningful exchange of Local Traffic that flows in both directions, such interconnection arrangement shall not satisfy this criteria, and

Each circuit to be provided to each customer will be served by a switch capable of switching local voice traffic.

52.4.6.3 Sprint has the right, upon thirty (30) Days notice, to audit AT&T's compliance with the service eligibility criteria defined by the FCC and as set forth above. Sprint will hire and pay for an independent auditor to perform the audit. AT&T will reimburse Sprint if the audit report concludes that AT&T failed to comply with the service eligibility criteria. Sprint may request one audit in a calendar year. In the instance of non-compliance, AT&T shall true-up any difference in payments, convert the non-compliant circuit to the appropriate service and make accurate payments going forward. These audit rights are in addition to Sprint's audit rights in Part B of this Agreement.

53 MODIFICATIONS TO SPRINT'S EXISTING NETWORK

53.1 Modifications to Unbundled Loop

- 53.1.3 Sprint will make routine network modifications to unbundled loop facilities used by AT&T where the requested loop facility has already been constructed. Sprint will perform routine network modifications to unbundled loop facilities in a nondiscriminatory fashion, without regard to whether the loop facility being accessed was constructed on behalf, or in accordance with the specifications, of any carrier. AT&T will compensate Sprint for the costs of such routine network modifications to unbundled loop facilities to the extent the costs are not recovered in the unbundled loop rates in accordance with Table One or Sprint will provide a price quote via the ICB process.
 - 53.1.3.1 In the case of unbundled loop facilities, a routine network modification is an activity that Sprint regularly undertakes for its own customers. Routine network modifications may include, but are not limited to, rearranging or splicing of cable; adding an equipment case; adding a doubler or repeater; adding a smart jack; installing a repeater shelf; adding a line card; deploying a new multiplexer or reconfiguring an existing multiplexer and attaching electronic and other equipment that Sprint ordinarily attaches to a DS1 Loop to activate such loop for its own customer. Routine network modifications may entail activities such as accessing manholes, deploying bucket trucks to reach aerial cable, and installing equipment casings. Routine network modifications do not include the construction of new loop facilities or the installation of new aerial or buried cable for AT&T.
 - 53.1.3.2 Sprint is not obligated to build TDM capability into new packet-based networks or into existing packet-based networks that never had TDM capability. This includes packet-based networks that incorporate a packet to TDM format translation to connect to end user customer provided equipment.

53.2 Modifications to Dedicated Transport

53.2.3 Sprint will make routine network modifications to unbundled dedicated transport facilities used by AT&T where the requested Dedicated Transport facilities have already been constructed. Sprint will perform the routine network modifications to unbundled Dedicated Transport facilities in a nondiscriminatory fashion, without regard to whether the facility being accessed was constructed on behalf, or in accordance with the specifications, of any carrier. AT&T will compensate Sprint for the costs of such routine network modifications to unbundled Dedicated Transport facilities to the extent the costs are not recovered in the unbundled Dedicated Transport rates. Sprint will provide routine network modifications at the rates on Table One or Sprint will provide a

price quote vis the ICB process.

- 53.2.3.1 In the case of unbundled Dedicated Transport facilities, a routine network modification is an activity that Sprint regularly undertakes for its own customers. Routine network modifications may include, but are not limited to, rearranging or splicing of cable; adding an equipment case; adding a doubler or repeater; installing a repeater shelf; and deploying a new multiplexer or reconfiguring an existing multiplexer. Routine network modifications also include activities needed to enable AT&T to light a Dark Fiber transport facility. Routine network modifications may entail activities such as accessing manholes, deploying bucket trucks to reach aerial cable, and installing equipment casings. Routine network modifications do not include the installation of new aerial or buried cable for AT&T.
- 53.3 Loop Conditioning
 - 53.3.3 Conditioned loops are loops from which excessive bridge taps, load coils, low-pass filters, range extenders, and similar devices have been removed to enable the delivery of high-speed switched wireline telecommunications capability, including DSL. Sprint will condition loops at AT&T's request and will assess charges for loop conditioning in accordance with the prices listed in Table One. Sprint recommends that AT&T utilize the Loop Make-Up process in Section 47 prior to submitting orders for loops intended for advanced services.

PART F - INTERCONNECTION

54 LOCAL INTERCONNECTION TRUNK ARRANGEMENT

54.1 The Parties shall reciprocally terminate Local Traffic and IntraLATA/InterLATA toll calls originating on the other Party's network as follows:

54.1.1 The Parties shall make available to each other two-way trunks for the reciprocal exchange of combined Local Traffic, and non-equal access IntraLATA toll traffic.

54.1.3.1 The Parties agree to use two-way trunks as follows: the Parties shall within 180 days of the execution of this Agreement, finalize the transition to two-way trunks, absent engineering or billing issues. The Parties shall also transition all one-way trunks to two-way trunks established under this Agreement.

- 54.1.4 Separate two-way trunks will be made available for the exchange of equalaccess InterLATA or IntraLATA interexchange traffic.
- 54.1.5 Separate trunks will be utilized for connecting AT&T's switch to each 911/E911 tandem.
- 54.2 Points of Interconnection
 - 54.2.3 Point of Interconnection. Unless interconnecting with Sprint on an indirect basis subject to Section 60, AT&T must establish a minimum of one POI within each LATA, at any technically feasible point, on Sprint's network. AT&T and Sprint will utilize such POI for the mutual exchange of traffic. To the extent Sprint's network contains multiple tandems in the LATA, AT&T will interconnect to each tandem where AT&T exchanges traffic. Each Party will be responsible for engineering and maintaining its network on its side of the POI. AT&T and Sprint agree to a bill and keep compensation arrangement for facilities on each parties' respective side of the POI. Specifically, each Party is financially responsible for facilities on their respective side of the POI with no cost sharing, and each party is financially responsible for transporting its originated traffic to the POI.
 - 54.2.1.1 AT&T must establish a direct end office trunk at a Sprint end office when total traffic volumes exchanged between that particular Sprint end office and AT&T exceeds a DS1 equivalent.

54.2.1.1 Each Party is financially responsible for transporting its originated traffic to the POI, subject to Section 56.6.

54.3 If third party (*i.e.* Competitive Access Provider or "CAP") leased facilities are used for interconnection, the POI will be defined as the Sprint office in which the third party's leased circuit terminates, unless AT&T specifies another point within the exchange boundary and provides the needed transport at no additional cost to Sprint.

- 54.4 Technical Requirements for Interconnection
 - 54.4.3 Interconnection at the Sprint Tandem
 - 54.4.3.1 Interconnection to Sprint Tandem Switch(es) will provide AT&T local interconnection for local service purposes to the Sprint end offices and NXXs which subtend that tandem(s), where local trunking is provided, and access to the toll network.
 - 54.4.3.2 Interconnection to a Sprint Tandem for Transit Traffic purposes will provide access to telecommunications carriers which are connected to that Tandem Switch.
 - 54.4.3.3 Where a Sprint Tandem Switch also provides End-Office Switch functions, interconnection to a Sprint tandem serving that exchange will also provide AT&T access to Sprint's end offices.
 - 54.4.4 Interconnection at the Sprint End Office
 - 54.4.4.1 Interconnection to Sprint End Office Switch will provide AT&T local interconnection for local service purposes to the Sprint NXX codes served by that end office and any Sprint NXXs served by remotes that subtend those End Offices.

55 INTERCARRIER COMPENSATION

55.1 The rates to be charged for the exchange of Local Traffic and ISP-Bound Traffic are set forth in Table One and shall be applied consistent with the provisions of Part F of this Agreement.

- 55.1.3 The Parties agree that by executing this Agreement and carrying out the intercarrier compensation rates, terms and conditions herein, neither Party waives any of its rights, and expressly reserves all of its rights, under the *Order on Remand and Report and Order*, FCC 01-131, CC Dockets No. 96-98 and 99-68, adopted April 18, 2001 (the "ISP Compensation Order"), including but not limited to Sprint's option to invoke on a date specified by Sprint the FCC's ISP interim compensation regime, after which date ISP-bound traffic will be subject to the FCC's prescribed interim compensation rates, and other terms and conditions. CLEC agrees that on the date designated by ILEC, the Parties will begin billing Reciprocal Compensation to each other at the rates, terms and conditions specified in the FCC's ISP Compensation Order, unless the Parties are exchanging traffic (Local Traffic and/or ISP-Bound traffic) at Bill and Keep, such Bill and Keep arrangement shall continue.
- 55.2 The rates to be charged for the exchange of Local Traffic and ISP-Bound Traffic are the rates established by the FCC as set forth in Table One and shall be applied consistent with the provisions of Part F of this Agreement.
- 55.3 Local Traffic will be compensated at the contract rate set forth in Table One. ISP-Bound Traffic will be compensated at the rates established by the FCC as set forth in Table One. The rates shall be applied consistent with the provisions of Part F of this Agreement.
 - 55.3.3 Traffic delivered to a Party that exceeds a 3:1 ratio of terminating to originating traffic is presumed to be ISP-Bound Traffic. This presumption may be rebutted by either Party consistent with the provisions of the FCC's Order on Remand and Report and Order, FCC 01-131, CC Dockets No. 96-98 and 99-68, adopted April 18, 2001 (the "ISP Compensation Order").
- 55.4 Compensation for the termination of all toll traffic and the origination of 800 traffic between the interconnecting parties shall be based on the applicable access charges in accordance with FCC and Commission Rules and Regulations and consistent with the provisions of Part F of this Agreement. If AT&T is acting as an IXC and a competitive local exchange carrier, AT&T must have a unique CIC for each type of service order. Specifically, AT&T must have two CICs, one that is used for ordering IXC facilities for interexchange toll traffic and one that is used to order facilities for local exchange traffic.
- 55.5 Calls terminated to end users physically located outside the local calling area in which their NPA/NXXs are homed (Virtual NXXs), are not local calls for purposes of intercarrier compensation. The Parties agree to use 25%, which is a negotiated

factor, to determine the amount of Sprint End User originated traffic terminated by AT&T that will be presumed to be Virtual NXX traffic. Currently, AT&T does not provision its ADL service offering using VNXX arrangements. However, if AT&T does offer VNXX with ADL service in the future, the 25% negotiated factor for Sprint End User originated traffic terminated to AT&T ADL customers would apply. Should the 25% VNXX factor require modification, the Parties agree to renegotiate a new VNXX factor via Amendment to this Agreement. The Parties agree that Virtual NXX traffic will be compensated on a bill and keep basis.

- 55.6 For traffic that originates from a traditional telephone device and terminates to a non-telecommunications device ("Phone-to-Computer") or originates from a non-telecommunications device and terminates to a traditional telephone device ("Computer-to-Phone"), the Parties have been unable to agree as to whether Voice over Internet Protocol ("VOIP") transmissions which cross local calling area boundaries constitute Exchange Access Traffic. Notwithstanding the foregoing, and without waiving any rights with respect to either Party's position as to the jurisdictional nature of VOIP, voice calls that are transmitted, in whole or in part, via the public Internet or a private IP network (VoIP) shall be compensated in the same manner as voice traffic (e.g. reciprocal compensation, interstate access, and intrastate access. The Parties agree to abide by an effective and applicable FCC and/or state commission rules and orders regarding the nature of such traffic and the compensation payable by the Parties for such traffic, if any, in accordance with Section 4 of this Agreement.
- 55.7 A call placed on a non-local basis (e.g., a toll call or 8yy call) to an ISP shall not be treated as ISP-Bound Traffic for compensation purposes. The Parties agree that, to the extent such "non-Local" ISP calls are placed, that the rates, terms and conditions for IntraLATA and/or InterLATA calling shall apply, including but not limited to rating and routing according to the terminating parties' Exchange Access intrastate and/or interstate tariffs.
- 55.8 AT&T will identify the Percent Local Usage (PLU) factor on each interconnection order to identify its "Local Traffic," as defined herein, for reciprocal compensation purposes. Sprint may request AT&T's traffic study documentation of the PLU at any time to verify the factor, and may compare the documentation to studies developed by Sprint. Should the documentation indicate that the factor should be changed, the parties agree that it shall be retroactive for one quarter prior to the quarter being reviewed. If the documentation indicates it is warranted, such change may apply back to the effective date of the last review, but in no event shall the change be retroactive beyond a maximum of six months. For non-Local Traffic, the Parties agree to exchange traffic and compensate one another based on the rates and elements included in each party's access tariffs. AT&T will transmit calling party number (CPN) as required by FCC rules (47 C.F.R. 64.1601).
 - 55.8.3 To the extent technically feasible, each Party will transmit calling party number (CPN) for each call being terminated on the other's network. If the percentage of calls transmitted with CPN is greater than 90%, all calls exchanged without CPN will be billed as local or intrastate in proportion

to the MOUs of calls exchanged with CPN. If the percentage of calls transmitted with CPN is less than 90%, all calls transmitted without CPN will be billed at intrastate access rates.

56 SIGNALING NETWORK INTERCONNECTION

- 56.1 Sprint will offer interconnection to its signaling transfer points (STPs) for AT&T switches which connect to Sprint's STPs via "A" links or for AT&T's "B" or "D" links which are dedicated to the transport of signaling for local interconnection.
- 56.2 Signaling protocol. The parties will interconnect their networks using SS7 signaling where technically feasible and available as defined in FR 905 Telcordia Standards including ISDN User Part (ISUP) for trunk signaling and TCAP for CCS-based features in the interconnection of their networks. All Network Operations Forum (NOF) adopted standards shall be adhered to.
- 56.3 Standard interconnection facilities shall be Extended Superframe (ESF) with B8ZS line code. Where ESF/B8ZS is not available, AT&T will use other interconnection protocols on an interim basis until the standard ESF/B8ZS is available. Sprint will provide anticipated dates of availability for those areas not currently ESF/B8ZS compatible.
- 56.4 Where AT&T is unwilling to utilize an alternate interconnection protocol, AT&T will provide Sprint an initial forecast of 64 Kbps clear channel capability ("64K CCC") trunk quantities within thirty (30) Days of the Effective Date consistent with the forecasting agreements between the parties. Upon receipt of this forecast, the parties will begin joint planning for the engineering, procurement, and installation of the segregated 64K CCC Local Interconnection Trunk Groups, and the associated ESF facilities, for the sole purpose of transmitting 64K CCC data calls between AT&T and Sprint. Where additional equipment is required, such equipment would be obtained, engineered, and installed on the same basis and with the same intervals as any similar growth job for IXC, AT&T, or Sprint internal customer demand for 64K CCC trunks.

- 56.5 Signaling Systems
 - 56.5.3 Signaling Link Transport
 - 56.5.3.1 Signaling Link Transport is a set of two or four dedicated 56 Kbps transmission paths between AT&T-designated Signaling Points of Interconnection (SPOI) that provides appropriate physical diversity and a cross connect at a Sprint STP site.
 - 56.5.3.2 Technical Requirements. Signaling Link transport shall consist of full duplex mode 56 Kbps transmission paths.
 - 56.5.4 Signaling Transfer Points (STPs)
 - 56.5.4.1 STPs provide functionality that enables the exchange of SS7 messages among and between switching elements, databases and third party signaling transfer points.
- 56.6 Technical Requirements. STPs provide interconnection to the functions of signaling networks or to third party SS7 networks connected to the Sprint SS7 network. These functions include:
 - 56.6.3 Sprint local switching or Tandem Switching;
 - 56.6.4 Sprint Service Control Points (SCPs)/Databases if arranged for under separate agreements;
 - 56.6.5 Third-party local or Tandem Switching systems subject to any additional conditions or terms of the Third Party and
 - 56.6.6 Third party provider STPs subject to any additional conditions or terms of the Third Party.
- 56.7 Interface Requirements. Sprint shall provide the following STP options to connect AT&T or AT&T-designated local switching systems or STPs to the Sprint SS7 network:
 - 56.7.3 An A-link interface from AT&T local switching systems; and
 - 56.7.4 B- or D-link interface from AT&T STPs.
 - 56.7.5 Each type of interface shall be provided by one or more sets (layers) of signaling links, as follows:
 - 56.7.5.1 An A-link layer shall consist of two links,
 - 56.7.5.2 A B- or D-link layer shall consist of four links,
- 56.8 Signaling Point of Interconnection (SPOI) for each link shall be located at a crossconnect element, such as a DSX-1, in the Central Office (CO) where the Sprint STP is located. Interface to Sprint's STP shall be the 56kb rate. The 56kb rate can be part of a larger facility, and AT&T shall pay multiplexing/demultiplexing and

channel termination, plus mileage of any leased facility.

57 TRUNK FORECASTING

- 57.1 AT&T shall provide forecasts for traffic utilization over trunk groups. Orders for trunks that exceed forecasted quantities for forecasted locations will be accommodated as facilities and/or equipment are available. Sprint shall make all reasonable efforts and cooperate in good faith to develop alternative solutions to accommodate orders when facilities are not available. Company forecast information must be provided by AT&T to Sprint twice a year. The initial trunk forecast meeting should take place soon after the first implementation meeting. A forecast should be provided at or prior to the first implementation meeting. The semi-annual forecasts shall project trunk gain/loss on a monthly basis for the forecast period, and shall include:
 - 57.1.3 Semi-annual forecasted trunk quantities (which include baseline data that reflect actual Tandem and end office Local Interconnection and meet point trunks and Tandem-subtending Local Interconnection end office equivalent trunk requirements) for no more than two years (current plus one year);
 - 57.1.4 The use of Common Language Location Identifier (CLLI-MSG), which are described in Telcordia documents BR 795-100-100 and BR 795-400-100;
 - 57.1.5 Description of major network projects that affect the other Party will be provided in the semi-annual forecasts. Major network projects include but are not limited to trunking or network rearrangements, shifts in anticipated traffic patterns, or other activities by AT&T that are reflected by a significant increase or decrease in trunking demand for the following forecasting period.
 - 57.1.6 Parties shall meet to review and reconcile the forecasts if forecasts vary significantly.
- 57.2 AT&T shall provide an updated trunk forecast when ordering or requesting additional trunks from Sprint anytime after the initial trunk implementation.
- 57.3 Each Party shall provide a specified point of contact for planning forecasting and trunk servicing purposes.
- 57.4 Trunking can be established to Tandems or end offices or a combination of both via either one-way or two-way trunks. Trunking will be at the DS-0, DS-1, DS-3/OC-3 level, or higher, as agreed upon by AT&T and Sprint.
- 57.5 The parties agree to abide by the following if a forecast cannot be agreed to: local interconnection trunk groups will be provisioned to the higher forecast. A blocking standard of one percent (1%) during the average busy hour shall be maintained. Should the Parties not agree upon the forecast, and the Parties engineer facilities at the higher forecast, the Parties agree to abide by the following:

- 57.5.3 In the event that AT&T over-forecasts its trunking requirements by twenty percent (20%) or more, and Sprint acts upon this forecast to its detriment, Sprint may recoup any actual and reasonable expense it incurs.
- 57.5.4 The calculation of the twenty percent (20%) over-forecast will be based on the number of DS-1 equivalents for the total traffic volume to Sprint.
- 57.5.5 Expenses will only be recouped for non-recoverable facilities that cannot otherwise be used at any time within twelve (12) months after the initial installation for another purpose including but not limited to: other traffic growth between the Parties, internal use, or use with another party.
- 57.6 Grade of Service. An overall blocking standard of one percent (1%) during the average busy hour, as defined by each Party's standards, for final trunk groups between a AT&T end office and a Sprint access Tandem carrying meet point traffic shall be maintained. All other Tandem trunk groups are to be engineered with a blocking standard of one percent (1%). Direct end office trunk groups are to be engineered with a blocking standard of one percent (1%).
- 57.7 Trunk Servicing. Orders between the Parties to establish, add, change or disconnect trunks shall be processed by use of an ASR, or another industry standard eventually adopted to replace the ASR for trunk ordering.

58 NETWORK MANAGEMENT

- 58.1 Protective Protocols. Either Party may use protective network traffic management controls such as 7-digit and 10-digit code gaps on traffic toward each other's network, when required to protect the public switched network from congestion due to facility failures, switch congestion or failure or focused overload. AT&T and Sprint will immediately notify each other of any protective control action planned or executed.
- 58.2 Expansive Protocols. Where the capability exists, originating or terminating traffic reroutes may be implemented by either party to temporarily relieve network congestion due to facility failures or abnormal calling patterns. Reroutes will not be used to circumvent normal trunk servicing. Expansive controls will only be used when mutually agreed to by the parties.
- 58.3 Mass Calling. AT&T and Sprint shall cooperate and share pre-planning information, where available, regarding cross-network call-ins expected to generate large or focused temporary increases in call volumes, to prevent or mitigate the impact of these events on the public switched network.

59 USAGE MEASUREMENT

59.1 Each Party shall calculate terminating interconnection minutes of use based on standard AMA recordings made within each Party's network, these recordings being necessary for each Party to generate bills to the other Party. In the event either Party cannot measure minutes terminating on its network where technically

feasible, the other Party shall provide the measuring mechanism or the Parties shall otherwise agree on an alternate arrangement.

- 59.2 Measurement of minutes of use over Local Interconnection trunk groups shall be in actual conversation seconds. The total conversation seconds over each individual Local Interconnection trunk group will be totaled for the entire monthly bill period and then rounded to the next whole minute.
- 59.3 Prior to the commencement of billing for interconnection, each Party shall provide to the other, the PLU of the traffic terminated to each other over the Local Interconnection trunk groups.
 - 59.3.3 The Parties agree to review the accuracy of the PLU on a regular basis. If the initial PLU is determined to be inaccurate by more than twenty percent (20%), the Parties agree to implement the new PLU retroactively to the Effective Date of the contract.

60 TRANSIT TRAFFIC

- 60.1 Transit Traffic means the delivery of Local Traffic or ISP-Bound Traffic by AT&T or Sprint originated by the end user of one Party and terminated to a third party LEC, ILEC, or CMRS provider over the local/intraLATA interconnection trunks.
- 60.2 To the extent network and intercarrier compensation arrangements exist with all necessary parties throughout the term of this Agreement, and where indirectly interconnected parties have an interconnection to the same Sprint tandem, Sprint will provide Transit Services for AT&T's connection of its end user to a local end user of: (1) AT&Ts, (2) an ILEC other than Sprint, (3) IXCs, and (4) other CMRS carriers.
- 60.3 Terms and Conditions
 - 60.3.3 Each Party acknowledges that a third-party LEC may block transit traffic. To the extent the originated Party's traffic is blocked by a third party, the transiting Party shall have no obligation to resolve the dispute. Each Party acknowledges that the transiting Party does not have any responsibility to pay any third-party Telecommunications Carrier charges for termination of any identifiable Transit Traffic from the originating Party. Both Parties reserve the right not to pay such charges on behalf of the originating Party. Each Party acknowledges that it is the originating Party's responsibility to enter into arrangements with each third party LEC, CLEC, or CMRS provider for the exchange of transit traffic to that third party.
 - 60.3.4 Notwithstanding any other provision to the contrary, once the Transit Traffic volume between AT&T and a third party exceeds a DS1 equivalent of traffic, Sprint will no longer provide transit service and AT&T must establish a direct interconnection with the third party for the exchange of such traffic. Within sixty (60) days of when traffic exceeds this threshold, AT&T shall establish a direct interconnection with such third party. After

sixty (60) days, if AT&T has not established a direct interconnection and if AT&T is exercising its best efforts to implement a direct connection with such third party, Sprint shall continue to transit the traffic. If Sprint disagrees that AT&T is using its best efforts to implement a direct connection, Sprint may seek relief pursuant to the Dispute Resolution provisions.

- 60.4 Payment Terms and Conditions
 - 60.4.3 In addition to the payment terms and conditions contained in other Sections of this Agreement, the originating Party shall pay to the transiting Party a transit service charge as set forth in Table One.
 - 60.4.3.1 AT&T shall pay a transit rate as set forth in Table One of this Part when AT&T uses a Sprint access tandem to terminate a local or ISP-bound call to a third party LEC or another AT&T. Sprint shall pay AT&T a transit rate equal to the Sprint rate referenced above when Sprint uses a AT&T switch to terminate a local call to a third party LEC or another AT&T.
- 60.5 Billing Records and Exchange of Data
 - 60.5.3 Parties will use the best efforts to convert all network's transporting transit traffic to deliver each call to the other Party's network with SS7 Common Channel Interoffice Signaling (CCIS) and other appropriate TCAP messages in order to facilitate full interoperability and billing functions. The Parties agree to send all message indicators, including originating telephone number, local routing number and CIC.
 - 60.5.4 Upon request by the terminating Party and to the extent possible, the transiting Party agrees to provide the terminating Party information on traffic originated by a third party AT&TS or CMRS provider. To the extent Sprint incurs additional cost in providing this billing information, AT&T agrees to reimburse Sprint for its direct costs of providing this information.
 - 60.5.5 To the extent that the industry adopts a standard record format for recording originating and/or terminating transit calls, both Parties agree to comply with the industry-adopted format to exchange records.

61 INDIRECT TRAFFIC

61.1 Interconnection

- 61.1.3 The Parties may send each other Indirect Traffic.
- 61.1.4 For purposes of exchanging Indirect Traffic there is no physical or direct point of interconnection between the Parties, therefore neither Party is required to construct new facilities or make mid-span meet arrangements available to the other Party for Indirect Traffic.
- 61.1.5 Indirect interconnection with Sprint shall only be allowed to the extent AT&T is interconnected at the tandem switch which Sprint's end office subtends.
- 61.1.6 Interconnection to AT&T will provide Sprint with access to AT&T's endusers and to other companies which are likewise connected to AT&T for local and toll service purposes.
- 61.1.7 Notwithstanding any other provision to the contrary, once the Indirect Traffic volume between AT&T and a Sprint end office exceeds a DS1 equivalent of traffic, Sprint will no longer allow indirect interconnection and AT&T must establish a direct interconnection with Sprint's end office for the mutual exchange of traffic. Within sixty (60) days of when the indirect traffic exceeds a DS1, AT&T shall establish a direct interconnection with Sprint's end office.

61.2 Exchange Of Traffic

- 61.2.3 Each Party acknowledges that it is the originating Party's responsibility to enter into transiting arrangements with the third party providing the transit services.
- 61.2.4 Each terminating Party is responsible for billing the originating company for traffic terminated on its respective network. For this Indirect Traffic, the originating Party will provide the originating billing information to the terminating Party, if technically feasible. If the originating Party cannot provide the originating billing information to the terminating Party must obtain the originating billing information from the third-party transit company. Any direct costs incurred by the terminating Party to obtain the records from a third party will be billed back to the originating Party.
- 61.2.5 It is each Party's responsibility to enter into appropriate contractual arrangements with the third-party transit company in order to obtain the originating billing information from the transit company.
- 61.2.6 Until Indirect traffic exceeds a DS1, each Party is responsible for the payment of transit charges assessed by the transiting party.
- 61.3 Compensation for Indirect Traffic
 - 61.3.3 Non-Local and Non-ISP-Bound Indirect Traffic
 - 61.3.3.1 Compensation for the termination of non-Local traffic, non-ISP-Bound Traffic and the origination of 800 traffic between the interconnecting Parties shall be based on the applicable access charges in accordance with FCC and Commission Rules and Regulations.
 - 61.3.3.2 Toll traffic, switched access, and special access traffic, if separately chargeable, shall be charged the appropriate rate out of the terminating LEC's tariff or via other appropriate meet point access arrangements. Where exact transport mileage is not available, an average, arrived at by mutual agreement of the Parties, will be used.
 - 61.3.4 Local Traffic and ISP-Bound Traffic. The rates set forth on Table One shall apply, in accordance with Part F of this Agreement.

62 **RESPONSIBILITIES OF THE PARTIES**

- 62.1 Sprint and AT&T will review engineering requirements consistent with the Implementation Plan described in Part B, Part C, Part F and as otherwise set forth in this Agreement.
- 62.2 AT&T and Sprint shall share responsibility for all Control Office functions for Local Interconnection Trunks and Trunk Groups, and both parties shall share the overall coordination, installation, and maintenance responsibilities for these trunks

and trunk groups.

- 62.3 AT&T and Sprint shall:
 - 62.3.3 Provide trained personnel with adequate and compatible test equipment to work with each other's technicians.
 - 62.3.4 Notify each other when there is any change affecting the service requested, including the due date.
 - 62.3.5 Coordinate and schedule testing activities of their own personnel, and others as applicable, to ensure its interconnection trunks/trunk groups are installed per the interconnection order, meet agreed-upon acceptance test requirements, and are placed in service by the due date.
 - 62.3.6 Perform sectionalization to determine if a trouble is located in its facility or its portion of the interconnection trunks prior to referring the trouble to each other.
 - 62.3.7 Advise each other's Control Office if there is an equipment failure which may affect the interconnection trunks.
 - 62.3.8 Provide each other with a trouble reporting/repair contact number that is readily accessible and available twenty-four (24) hours/seven (7) days a week. Any changes to this contact arrangement must be immediately provided to the other party.
 - 62.3.9 Provide to each other test-line numbers and access to test lines.
 - 62.3.10Cooperatively plan and implement coordinated repair procedures for the meet point and Local Interconnection trunks and facilities to ensure trouble reports are resolved in a timely and appropriate manner.

PART G - LOCAL NUMBER PORTABILITY

63 INTRODUCTION

- 63.1 Upon implementation of LNP, both Parties agree to conform and provide such LNP pursuant to FCC regulations and compliance with the Industry Forum Guidelines. To the extent consistent with the FCC and Industry Guidelines as amended from time to time, the requirements for LNP shall include the following:
 - 63.1.3 End users must be able to change local service providers and retain the same telephone number(s) within the serving rate center utilizing the portability method as defined by the FCC.
 - 63.1.4 The LNP network architecture shall not subject Parties to any degradation of service in any relevant measure, including transmission quality, switching and transport costs, increased call set-up time and post-dial delay.
 - 63.1.5 Parties agree that when an NXX is defined as portable, it shall also be defined as portable in all LNP capable switches serving the rate center.
 - 63.1.6 When an end user ports to another service provider and has previously secured a reservation of line numbers from the donor provider under contract or tariff for possible activation at some future point, these reserved but inactive numbers shall port along with the active numbers being ported by the end user.
 - 63.1.7 NXX Availability. Not all NXXs in each CO may be available for porting.
 - 63.1.8 LERG Reassignment. Portability for an entire NXX shall be provided by utilizing reassignment of the NXX to AT&T through the LERG.
 - 63.1.9 Coordination of service order work outside normal business hours (8:00AM to 5:00PM) shall be at requesting Party's expense. Premium rates will apply for service order work performed outside normal business hours, weekends, and holidays.
 - 63.1.10Mass Calling Events. Parties will notify each other at least seven (7) Days in advance where ported numbers are utilized. Parties will only port mass calling numbers using switch translations and a choke network for call routing. Porting on mass calling numbers will be handled outside the normal porting process and comply with any applicable federal regulatory requirements or industry guidelines developed for mass calling numbers.

64 TESTING

64.1 An Interconnection Agreement (or Memorandum of Understanding, or Porting Agreement) detailing conditions for LNP must be in effect between the Parties

prior to testing.

- 64.2 Testing and operational issues will be addressed in the implementation plans as described in Part B, Section 32 of the agreement.
- 64.3 AT&T must be NPAC certified and have met Sprint testing parameters prior to activating LNP. After initial LNP implementation by a CLEC/CMRS provider testing and porting will be done at AT&T's expense.
- 64.4 Parties will cooperate to ensure effective maintenance testing through activities such as routine testing practices, network trouble isolation processes and review of operational elements for translations, routing and network fault isolation.
- 64.5 Parties shall cooperate in testing performed to ensure interconnectivity between systems. All LNP providers shall notify each connected provider of any system updates that may affect the AT&T or Sprint network. Each LNP provider shall, at each other's request, jointly perform tests to validate the operation of the network. Additional testing requirements may apply as specified by this Agreement or in the Implementation Plan.

65 ENGINEERING AND MAINTENANCE

- 65.1 Each LNP provider will monitor and perform effective maintenance through testing and the performance of proactive maintenance activities such as routine testing, development of and adherence to appropriate network trouble isolation processes and periodic review of operational elements for translations, routing and network faults.
- 65.2 It will be the responsibility of the Parties to ensure that the network is stable and maintenance and performance levels are maintained in accordance with state commission requirements. It will be the responsibility of the Parties to perform fault isolation in their network before involving other providers.
- 65.3 Additional engineering and maintenance requirements shall apply as specified in this Agreement or the Implementation Plan.

66 E911/911

- 66.1 When a subscriber ports to another service provider, the donor provider shall unlock the information in the 911/ALI database. The porting provider is responsible for updating the 911 tandem switch routing tables and 911/ALI database to correctly route, and provide accurate information to the PSAP call centers.
- 66.2 Prior to implementation of LNP, the Parties agree to develop, implement, and maintain efficient methods to maintain 911 database integrity when a subscriber ports to another service provider. The Parties agree that the customer shall not be dropped from the 911 database during the transition.

67 BILLING FOR PORTED NUMBERS

- 67.1 When an IXC terminates an InterLATA or IntraLATA toll call to either party's local exchange customer whose telephone number has been ported from one party to the other, the parties agree that the party to whom the number has been ported shall be entitled to revenue from the IXC for those access elements it actually provides including, but not limited to end office switching, local transport, RIC, and CCL. The party from whom the number has been ported shall be entitled to revenue from the IXC for those access elements it actually provides including, but not limited to any entrance facility fees, access tandem fees and appropriate local transport charges.
- 67.2 Non-Payment. Customers lose the right to the ported telephone number upon suspension of service. Sprint will not port telephone numbers of customers whose service has been suspended.

PART H - LINE SHARING

68 LINE SHARING

- 68.1 General Terms
 - 68.1.3 Under this Agreement, Sprint will not provide access to the HFPL for line sharing by AT&T except pursuant to the following terms and conditions.
 - 68.1.4 For HFPLs that are in service prior to October 2, 2003, Sprint will continue to bill HFPL at the rate that was effective for that arrangement on October 2, 2003 as long as that HFPL remains in service to the particular AT&T end-user premises.
 - 68.1.5 For HFPL ordered October 2, 2003 to October 1, 2004 and remaining in service to the particular AT&T end-user premises during the period October 2, 2004 and October 1, 2005, the rate billed for HFPL will be 50% of the xDSL capable UNE Loop rate found in Table 1.
 - 68.1.6 For HFPL ordered October 2, 2003 to October 1, 2004 and remaining in service to the particular AT&T end-user premises during the period October 2, 2005 and October 1, 2006, the rate billed for HFPL will be 75% of the xDSL capable UNE Loop rate found in Table 1.
 - 68.1.7 After October 1, 2006, AT&T must order a stand-alone loop or negotiate a line splitting arrangement with another Telecommunications Carrier.
- 68.2 Sprint Line Sharing provided HFPL to AT&T only those instances when Sprint is the provider of analog circuit-switched voice band service on that same copper loop to the same End User.
- 68.3 In the event that the end user being served by AT&T via HFPL terminates its Sprint-provided retail voice service, or when Sprint provided retail voice service is disconnected due to "denial for non-pay," Sprint shall provide reasonable notice to AT&T prior to disconnect. AT&T shall have the option of purchasing an entire stand-alone UNE digital loop if it wishes to continue to provide advanced services to that end user. If AT&T notifies Sprint that it chooses this option, AT&T and Sprint shall cooperate to transition DSL service from the HFPL to the stand-alone loop without any interruption of service pursuant to the provisions set forth below. If AT&T declines to purchase the entire stand alone UNE digital loop, Sprint may terminate the HFPL.
- 68.4 Sprint will use reasonable efforts to accommodate the continued use by AT&T as a stand-alone UNE digital loop of the copper loop facilities over which AT&T is provisioning advanced services at the time that the Sprint-provided retail voice service terminates; if:
 - 68.4.3 adequate facilities are available to allow the provisioning of voice service over such other facilities, and

- 68.4.4 AT&T agrees to pay any additional ordering charges associated with the conversion from the provisioning of HFPL to a stand alone unbundled digital loop as specified in Table One (excluding conditioning charges).
- 68.5 Any additional maintenance of service conducted at AT&T's request by Sprint on behalf of AT&T solely for the benefit of the AT&T's services will be paid for by AT&T at prices negotiated by Sprint and AT&T.
- 68.6 Deployment and Interference
 - 68.6.3 In providing services utilizing the HFPL, Sprint shall allow AT&T to deploy underlying technology that does not significantly interfere with other advanced services and analog circuit-switched voice band transmissions.
 - 68.6.4 For any technology, AT&T represents that its use of any Sprint network element, or of its own equipment or facilities in conjunction with any Sprint network element, will not materially interfere with or impair service over any facilities of Sprint, its affiliated companies or connecting and concurring carriers, cause damage to Sprint's plant, impair the privacy of any communications carried over Sprint's facilities or create hazards to employees or the public. Upon reasonable written notice and after a reasonable opportunity to cure, Sprint may discontinue service if AT&T violates this provision. The termination of service will be limited to AT&T's use of the element(s) causing the violation. Sprint will not disconnect the elements causing the violation if, after receipt of written notice and opportunity to cure, AT&T demonstrates that their use of the network element is not the cause of the network harm.

PART I - CALL RELATED DATABASES

69 CALL-RELATED DATABASES

- 69.1 Sprint will offer access to call-related databases (non-251 services), including, but not limited to, Toll Free Calling database, Number Portability database, and Calling Name (CNAM) database. Sprint reserves the right to decline to offer access to certain AIN software that qualifies for proprietary treatment. The rates for access to these call-related databases are set forth on Table One.
 - 69.1.3 The CNAM database is a transaction-oriented database accessible via the CCS network. CNAM provides the calling parties' name to be delivered and displayed to the terminating caller with 'Caller ID with Name'. Use of Sprint's CNAM Database by AT&T and AT&T's customers is limited to obtaining CNAM responses and using the information contained in those responses only on a call by call basis and only to support service related to a call in progress. AT&T will not capture, cache, or store any information contained in a CNAM response.
 - 69.1.4 The Toll Free Number Database provides functionality necessary for toll free (e.g., 800 and 888) number services by providing routing information and additional vertical features (i.e., time of day routing by location, by carrier and routing to multiple geographic locations) during call setup in response to queries from AT&T's switch. Use of Sprint's Toll Free Database by AT&T and its customers is limited to obtaining information, on a call-by-call basis, for proper routing of calls in the provision of toll free exchange access service or local toll free service.
 - 69.1.5 Local Number Portability Local Routing Query Service. TCAP messages originated by AT&T's SSPs and received by Sprint's database will be provided a response upon completion of a database lookup to determine the LRN. This information will be populated in industry standard format and returned to AT&T so that it can then terminate the call in progress to the telephone number now residing in the switch designated by the LRN.
 - 69.1.5.1 AT&T agrees to obtain, prior to the initiation of any LNP query, a NPAC/SMS User Agreement with Neustar. AT&T will maintain the NPAC/SMS User Agreement with Neustar, or its successor, as long as it continues to make LNP queries to the Sprint database. Failure to obtain and maintain the NPAC/SMS User Agreement is considered a breach of this Agreement and is cause for immediate termination of service. Sprint shall not be liable for any direct or consequential damages due to termination because of lack of a NPAC/SMS User Agreement.
 - 69.1.5.2 Sprint's LNP Database service offering does not include the cost of any charges or assessments by Number Portability Administrative Centers, whether under the NPAC/SMS User

Agreement with Lockheed, or otherwise, or any charges assessed directly against AT&T as the result of the FCC LNP Orders or otherwise by any third-party. These costs include the costs assessed against telecommunications carriers to pay for NPAC functions as permitted by the FCC and applicable legal or regulatory bodies. Sprint shall have no liability to AT&T or the NPAC for any of these fees or charges applicable to AT&T, even though it may pay such charges for other Sprint companies.

PART J - GENERAL BUSINESS REQUIREMENTS

70 **PROCEDURES**

70.1 Contact with End Users

- 70.1.3 Each Party at all times shall be the primary contact and account control for all interactions with its end users, except as specified by that Party. Subscribers include active end users as well as those for whom service orders are pending.
- 70.1.4 Each Party shall ensure that any of its personnel who may receive end user inquiries, or otherwise have opportunity for end user contact from the other Party's end user regarding the other Party's services: (i) provide appropriate referrals to subscribers who inquire about the other Party's services or products; (ii) do not in any way disparage or discriminate against the other Party, or its products or services; and (iii) do not provide information about its products or services during that same inquiry or end user contact.
- 70.1.5 Sprint shall not use AT&T's request for end user information, order submission, or any other aspect of AT&T's processes or services to aid Sprint's marketing or sales efforts.
- 70.2 Expedite and Escalation Procedures
 - 70.2.3 Sprint and AT&T shall develop mutually acceptable escalation and expedite procedures which may be invoked at any point in the Service Ordering, Provisioning, Maintenance, and Subscriber Usage Data transfer processes to facilitate rapid and timely resolution of disputes. In addition, Sprint and AT&T will establish intercompany contacts lists for purposes of handling end user and other matters which require attention/resolution outside of normal business procedures within thirty (30) Days after AT&T's request. Each party shall notify the other party of any changes to its escalation contact list as soon as practicable before such changes are effective.
 - 70.2.4 No later than thirty (30) Days after AT&T's request Sprint shall provide AT&T with contingency plans for those cases in which normal Service Ordering, Provisioning, Maintenance, Billing, and other procedures for Sprint's unbundled Network Elements, features, functions, and resale services are inoperable.
- 70.3 Subscriber of Record. Sprint shall recognize AT&T as the Subscriber of Record for all Network Elements or services for resale ordered by AT&T and shall send all notices, invoices, and information which pertain to such ordered services directly to AT&T. AT&T will provide Sprint with addresses to which Sprint shall send all such notices, invoices, and information.

- 70.4 Service Offerings
 - 70.4.3 Sprint shall provide AT&T with access to new services, features and functions concurrent with Sprint's notice to AT&T of such changes, if such service, feature or function is installed and available in the network or as soon thereafter as it is installed and available in the network, so that AT&T may conduct market testing.
 - 70.4.4 Essential Services. For purposes of service restoral, Sprint shall designate an AT&T access line as an Essential Service Line (ESL) at Parity with Sprint's treatment of its own end users and applicable state law or regulation, if any.
 - 70.4.5 Blocking Services. Upon request from AT&T, employing Sprintapproved LSR documentation, Sprint shall provide blocking of 700, 900, and 976 services, or other services of similar type as may now exist or be developed in the future, and shall provide Billed Number Screening (BNS), including required LIDB updates, or equivalent service for blocking completion of bill-to-third party and collect calls, on a line, PBX, or individual service basis. Blocking shall be provided to the extent (a) it is an available option for the Telecommunications Service resold by AT&T, or (b) it is technically feasible when requested by AT&T as a function of unbundled Network Elements.
 - 70.4.6 Training Support. Sprint shall provide training, on a non-discriminatory basis, for all Sprint employees who may communicate, either by telephone or face-to-face, with AT&T end users. Such training shall include compliance with the branding requirements of this Agreement including without limitation provisions of forms, and unbranded "Not at Home' notices.

71 ORDERING AND PROVISIONING

- 71.1 Ordering and Provisioning Parity. Sprint shall provide necessary ordering and provisioning business process support as well as those technical and systems interfaces as may be required to enable AT&T to provide the same level and quality of service for all resale services, functions, features, capabilities and unbundled Network Elements at Parity.
- 71.2 National Exchange Access Center (NEAC)
 - 71.2.3 Sprint shall provide a NEAC or equivalent which shall serve as AT&T's point of contact for all activities involved in the ordering and provisioning of Sprint's unbundled Network Elements, features, functions, and resale services.
 - 71.2.4 The NEAC shall provide to AT&T a nationwide telephone number (available from 6:00 a.m. to 8:00 p.m. Eastern Standard Time, Monday through Friday, and 8:00 am through 5:00 P.M. Eastern Standard Time on

Saturday) answered by competent, knowledgeable personnel trained to answer questions and resolve problems in connection with the ordering and provisioning of unbundled Network Elements (except those associated with local trunking interconnection), features, functions, capabilities, and resale services.

- 71.2.5 Sprint shall provide, as requested by AT&T, through the NEAC, provisioning and premises visit installation support in the form of coordinated scheduling, status, and dispatch capabilities during Sprint's standard business hours and at other times as agreed upon by the parties to meet end user demand.
- 71.3 Street Index Guide (SIG). Within thirty (30) Days of AT&T's written request, Sprint shall provide to AT&T the SIG data in the National Emergency Number Association Two (NENA2) format. A CDROM containing the SIG data will be shipped to AT&T's designated contact on a monthly basis until the request is cancelled.
- 71.4 CLASS and Custom Features. Where generally available in Sprint's serving area, AT&T, at the tariff rate, may order the entire set of CLASS, CENTREX and Custom features and functions, or a subset of any one of such features.
- 71.5 Number Administration/Number Reservation

- 71.5.3 Sprint shall provide testing and loading of AT&T's NXX on the same basis as Sprint provides itself or its affiliates. Further, Sprint shall provide AT&T with access to abbreviated dialing codes, and the ability to obtain telephone numbers, including vanity numbers, while a subscriber is on the phone with AT&T. When AT&T uses numbers from a Sprint NXX, Sprint shall provide the same range of number choices to AT&T, including choice of exchange number, as Sprint provides its own subscribers. Reservation and aging of Sprint NXX's shall remain Sprint's responsibility.
- 71.5.4 In conjunction with an order for service, Sprint shall accept AT&T orders for vanity numbers and blocks of numbers for use with complex services including, but not limited to, DID, CENTREX, and Hunting arrangements, as requested by AT&T.
- 71.5.5 For simple services number reservations and aging of Sprint's numbers, Sprint shall provide real-time confirmation of the number reservation when the Electronic Interface has been implemented. For number reservations associated with complex services, Sprint shall provide confirmation of the number reservation within twenty-four (24) hours of AT&T's request. Consistent with the manner in which Sprint provides numbers to its own subscribers, no telephone number assignment is guaranteed until service has been installed.
- 71.6 Service Order Process Requirements
 - 71.6.3 Service Migrations and New Subscriber Additions
 - 71.6.3.1 For resale services, other than for an AT&T order to convert "as is" an AT&T subscriber, Sprint shall not disconnect any subscriber service or existing features at any time during the migration of that subscriber to AT&T service without prior AT&T agreement.
 - 71.6.3.2 For services provided through UNEs, Sprint shall recognize AT&T as an agent, in accordance with OBF developed processes, for the subscriber in coordinating the disconnection of services provided by another CLEC or Sprint. In addition, Sprint and AT&T will work cooperatively to minimize service interruptions during the conversion.
 - 71.6.3.3 Unless otherwise directed by AT&T and when technically capable, when AT&T orders resale Telecommunications Services all trunk or telephone numbers currently associated with existing services shall be retained without loss of feature capability and without loss of associated ancillary services including, but not limited to, Directory Assistance and 911/E911 capability.

- 71.6.3.4 For subscriber conversions requiring coordinated cut-over activities, on a per order basis, Sprint, to the extent resources are readily available, and AT&T will agree on a scheduled conversion time, which will be a designated time period within a designated date.
- 71.6.3.5 Any request made by AT&T to coordinate conversions after normal working hours, or on Saturdays or Sundays or Sprint holidays shall be performed at AT&T's expense.
- 71.6.3.6 A general Letter of Agency (LOA) initiated by AT&T or Sprint will be required to process a PLC or PIC change order. Providing the LOA, or a copy of the LOA, signed by the end user will not be required to process a PLC or PIC change ordered by AT&T or Sprint. AT&T and Sprint agree that PLC and PIC change orders will be supported with appropriate documentation and verification as required by FCC and Commission rules. In the event of a subscriber complaint of an unauthorized PLC record change where the Party that ordered such change is unable to produce appropriate documentation and verification as required by FCC and Commission rules (or, if there are no rules applicable to PLC record changes, then such rules as are applicable to changes in long distance carriers of record), such Party shall be liable to pay and shall pay all nonrecurring and/or other charges associated with reestablishing the subscriber's local service with the original local carrier.
- 71.6.4 Intercept Treatment and Transfer Service Announcements. Sprint shall provide unbranded intercept treatment and transfer of service announcements to AT&T's subscribers. Sprint shall provide such treatment and transfer of service announcement in accordance with local tariffs and as provided to similarly situated Sprint subscribers for all service disconnects, suspensions, or transfers.

71.6.5 Due Date

- 71.6.5.1 Sprint shall supply AT&T with due date intervals to be used by AT&T personnel to determine service installation dates.
- 71.6.5.2 Sprint shall use reasonable efforts to complete orders by the AT&T requested DDD within agreed upon intervals.

71.6.6 Subscriber Premises Inspections and Installations

71.6.6.1 AT&T shall perform or contract for all AT&T's needs assessments, including equipment and installation requirements required beyond the Demarcation/NID, located at the subscriber premises.

- 71.6.6.2 Sprint shall provide AT&T with the ability to schedule subscriber premises installations at the same morning and evening commitment level of service offered Sprint's own customers. The parties shall mutually agree on an interim process to provide this functionality during the implementation planning process.
- 71.6.7 Firm Order Confirmation (FOC)
 - 71.6.7.1 Sprint shall provide to AT&T, a Firm Order Confirmation (FOC) for each AT&T order. The FOC shall contain the appropriate data elements as defined by the OBF standards.
 - 71.6.7.2 For a revised FOC, Sprint shall provide standard detail as defined by the OBF standards.
 - 71.6.7.3 Sprint shall provide to AT&T the date that service is scheduled to be installed.
- 71.6.8 Order Rejections
 - 71.6.8.1 Sprint shall reject and return to AT&T any order that Sprint cannot provision, due to technical reasons, missing information, or jeopardy conditions resulting from AT&T ordering service at less than the standard order interval. When an order is rejected, Sprint shall, in its reject notification, specifically describe all of the reasons for which the order was rejected. Sprint shall reject any orders on account of the customer Desired Due Date conflicts with published Sprint order provisioning interval requirements.
- 71.6.9 Service Order Changes
 - 71.6.9.1 In no event will Sprint change an AT&T initiated service order without a new service order directing said change. If an installation or other AT&T ordered work requires a change from the original AT&T service order in any manner, AT&T shall initiate a revised service order. If requested by AT&T, Sprint shall then provide AT&T an estimate of additional labor hours and/or materials.
 - 71.6.9.2 When a service order is completed, the cost of the work performed will be reported promptly to AT&T.
 - 71.6.9.3 If an AT&T subscriber requests a service change at the time of installation or other work being performed by Sprint on behalf of AT&T, Sprint, while at the subscriber premises, shall direct the AT&T subscriber to contact AT&T, and AT&T will initiate a new service order.
- 71.7 Network Testing. Sprint shall perform all its standard pre-service testing prior to the completion of the service order.

- 71.8 Service Suspensions/Restorations. Upon AT&T's request through an Industry Standard, OBF, Suspend/Restore Order, or mutually agreed upon interim procedure, Sprint shall suspend or restore the functionality of any Network Element, feature, function, or resale service to which suspend/restore is applicable. Sprint shall provide restoration priority on a per network element basis in a manner that conforms with any applicable regulatory Rules and Regulations or government requirements.
- 71.9 Order Completion Notification. Upon completion of the requests submitted by AT&T, Sprint shall provide to AT&T a completion notification in an industry standard, OBF, or in a mutually agreed format. The completion notification shall include detail of the work performed, to the extent this is defined within OBF guidelines, and in an interim method until such standards are defined.
- 71.10 Specific Unbundling Requirements. AT&T may order and Sprint shall provision unbundled Network Elements. However, it is AT&T's responsibility to combine the individual network elements should it desire to do so.
- 71.11 Systems Interfaces and Information Exchanges
 - 71.11.3General Requirements
 - 71.11.3.1 Sprint shall provide to AT&T Electronic Interface(s) for transferring and receiving information and executing transactions for all business functions directly or indirectly related to Service Ordering and Provisioning of Network Elements, features, functions and Telecommunications Services, to the extent available.
 - 71.11.3.2 Until the Electronic Interface is available, Sprint agrees that the NEAC or similar function will accept AT&T orders. Orders will be transmitted to the NEAC via an interface or method agreed upon by AT&T and Sprint.
 - 71.11.3.3 If the method of connectivity is File Transfer Protocol (FTP), the response(s) will be loaded to the server every hour and it is the responsibility of AT&T to retrieve their response(s) from the server.
 - 71.11.3.4 It is the responsibility of AT&T to provide Sprint with the LOA (Letter of Authorization) when another party is involved and is working on their behalf.
 - 71.11.4For any AT&T subscriber Sprint shall provide, subject to applicable rules, orders, and decisions, AT&T with access CPNI without requiring AT&T to produce a signed LOA, based on AT&T's blanket representation that subscriber has authorized AT&T to obtain such CPNI.
 - 71.11.4.1 The preordering Electronic Interface includes the provisioning of CPNI from Sprint to AT&T. The Parties agree to

execute a LOA agreement with the Sprint end user prior to requesting CPNI for that Sprint end user, and to request end user CPNI only when the end user has specifically given permission to receive CPNI. The Parties agree that they will conform to FCC and/or state regulations regarding the provisioning of CPNI between the parties, and regarding the use of that information by the requesting party.

- 71.11.4.2 The requesting Party will document end user permission obtained to receive CPNI, whether or not the end user has agreed to change local service providers. For end users changing service from one party to the other, specific end user LOAs may be requested by the Party receiving CPNI requests to investigate possible slamming incidents, and for other reasons agreed to by the Parties.
- 71.11.4.3 The receiving Party may also request documentation of an LOA if CPNI is requested and a subsequent service order for the change of local service is not received. On a schedule to be determined by Sprint, Sprint will perform a comparison of requests for CPNI to service orders received for the change of Local Service to AT&T. Sprint will produce a report of unmatched requests for CPNI, and may require an LOA from AT&T for each unmatched request. AT&T agrees to provide evidence of end user permission for receipt of CPNI for all end users in the request by Sprint within three (3) Business Days of receipt of a request from Sprint. Should Sprint determine that there has been a substantial percentage of unmatched LOA requests, Sprint reserves the right to immediately disconnect the preordering Electronic Interface.
- 71.11.4.4 If AT&T is not able to provide the LOA for ninety-five percent (95%) of the end users requested by Sprint, or if Sprint determines that an LOA is inadequate, AT&T will be considered in breach of the agreement. AT&T can cure the breach by submitting to Sprint evidence of an LOA for each inadequate or omitted LOA within three (3) Business Days of notification of the breach.
- 71.11.4.5 Should AT&T not be able to cure the breach in the timeframe noted above, Sprint will discontinue processing new service orders until, in Sprint's determination, AT&T has corrected the problem that caused the breach.
- 71.11.4.6 Sprint will resume processing new service orders upon Sprint's timely review and acceptance of evidence provided by AT&T to correct the problem that caused the breach.
- 71.11.4.7 If AT&T and Sprint do not agree that AT&T requested CPNI for a specific end user, or that Sprint has erred in not accepting proof of an LOA, the Parties may immediately request

dispute resolution in accordance with Part B. Sprint will not disconnect the preordering Electronic Interface during the Alternate Dispute Resolution process.

- 71.12 AT&T may use Sprint's ordering process (IRES) to:
 - 71.12.3to assign telephone number(s) (if the subscriber does not already have a telephone number or requests a change of telephone number) at Parity.
 - 71.12.3.1 to schedule dispatch and installation appointments at Parity.
 - 71.12.3.2 to access Sprint subscriber information systems which will allow AT&T to determine if a service call is needed to install the line or service at Parity.
 - 71.12.3.3 to access Sprint information systems which will allow AT&T to provide service availability dates at Parity.
 - 71.12.3.4 transmit status information on service orders, including acknowledgement, firm order confirmation, and completion at Parity.

71.13 Standards

71.13.3General Requirements. AT&T and Sprint shall agree upon the appropriate ordering and provisioning codes to be used for UNEs. These codes shall apply to all aspects of the unbundling of that element and shall be known as data elements as defined by the Telecommunications Industry Forum Electronic Data Interchange Service Order Subcommittee (TCIF-EDI-SOSC).

72 BILLING

- 72.1 Sprint shall comply with various industry, OBF, and other standards referred to throughout this Agreement. Sprint will review any changes to industry standards, and implement the changes within the industry-defined window. Sprint will notify AT&T of any deviations to the standards.
- 72.2 Sprint shall bill AT&T for each service supplied by Sprint to AT&T pursuant to this Agreement at the rates set forth in this Agreement.
- 72.3 Sprint shall provide to AT&T a single point of contact for interconnection and collocation at the National Access Service Center (NASC), and Network Elements and resale at Sprint's NEAC, to handle any Connectivity Billing questions or problems that may arise during the implementation and performance of the terms and conditions of this Agreement.
- 72.4 Sprint shall provide a single point of contact for handling of any data exchange questions or problems that may arise during the implementation and performance of the terms and conditions of this Agreement.

- 72.4.3 Subject to the terms of this Agreement, AT&T shall pay Sprint within thirty (30) Days from the Bill Date. If the payment due date is a Saturday, Sunday or has been designated a bank holiday payment shall be made the next business day.
- 72.5 Bill disputes shall not be submitted by either party for any charge on or after one (1) year following the bill date of the bill on which the charge first appears. Notwithstanding this limitation, both parties recognize that situations exist that may require that a dispute be submitted beyond the one year limit. These exceptions include charges for jointly provided services for which meet point billing guidelines require either Party to rely on records from a third Party, and charges which are incorrectly billed due to error or omission of AT&T-provided data, such as PLU or PIU factors or other ordering data.
- 72.6 Billed amounts for which written, itemized disputes or claims have been filed shall be handled in accordance with the Dispute Resolution procedures set forth in Part B of this Agreement.
- 72.7 Sprint will assess late payment charges to AT&T in accordance with Part B, Section 7.4 of this Agreement.
- 72.8 Sprint shall credit AT&T for incorrect Connectivity Billing charges including without limitation: overcharges, services ordered or requested but not delivered, interrupted services, services of poor quality and installation problems if caused by Sprint. Such reimbursements shall be set forth in the appropriate section of the Connectivity Bill pursuant to CABS, or SECAB standards.
- 72.9 Where Parties have established interconnection, Sprint and AT&T agree to conform to MECAB and MECOD guidelines. They will exchange Billing Account Reference and Bill Account Cross Reference information and will coordinate Initial Billing Company/Subsequent Billing Company billing cycles. Sprint and AT&T will exchange the appropriate records to bill exchange access charges to the IXC. Sprint and AT&T agree to capture EMI records for inward terminating and outward originating calls and send them to the other, as appropriate, in a daily or other agreed upon interval, via and agreed upon media (e.g.: Connect Direct or cartridge).
 - 72.9.3 Sprint will bill AT&T for message provisioning and, if applicable, data tape charges related to exchange access records. Sprint will bill AT&T for the records at the rates on Table One. If AT&T requests additional copies of the monthly invoice, Sprint may also bill AT&T for the additional copies.
- 72.10 Revenue Protection. Sprint shall make available to AT&T, at Parity with what Sprint provides to itself, its Affiliates and other local telecommunications CLECs, all present and future fraud prevention or revenue protection features, including prevention, detection, or control functionality embedded within any of the Network Elements. These features include, but are not limited to screening codes, information digits assigned such as information digits '29' and '70' which indicate

prison and COCOT pay phone originating line types respectively, call blocking of domestic, international, 800, 888, 900, NPA-976, 700, 500 and specific line numbers, and the capability to require end-user entry of an authorization code for dial tone. Sprint shall, when technically capable and consistent with the implementation schedule for Operations Support Systems (OSS), additionally provide partitioned access to fraud prevention, detection and control functionality within pertinent OSS.

73 PROVISION OF USAGE DATA

73.1 This Section sets forth the terms and conditions for Sprint's provision of Recorded Usage Data (as defined in this Part) to AT&T and for information exchange regarding long distance and access billing. The parties agree to record call information for interconnection in accordance with this Section. To the extent technically feasible, each party shall record all call detail information associated with completed calls originated by or terminated to the other Party's local exchange subscriber, and long distance calls transited through one Party's network to the terminating provider. Sprint shall record for AT&T the messages that Sprint records for and bills to its end users and records for billing of interexchange carriers. These records shall be provided at a party's request and shall be formatted pursuant to Telcordia's EMI standards and the terms and conditions of this Agreement. These records shall be transmitted to the other party on non-holiday Business Days in EMI format via CDN, or provided on a cartridge. Sprint and AT&T agree that they shall retain, at each party's sole expense, copies of all EMI records transmitted to the other party for at least forty-five (45) calendar days after transmission to the other party.

73.2 General Procedures

- 73.2.3 Sprint shall comply with various industry and OBF standards referred to throughout this Agreement.
- 73.2.4 Sprint shall comply with OBF standards when recording and transmitting Usage Data.
- 73.2.5 Sprint shall record all usage originating from AT&T end users using resold services ordered by AT&T, where Sprint records those same services for Sprint end users. Recorded Usage Data includes, but is not limited to, the following categories of information:
 - 73.2.5.1 Use of CLASS/LASS/Custom Features that Sprint records and bills for its end users on a per usage basis.

73.2.3.2 Calls to Information Providers (IP) reached via Sprint facilities will be provided in accordance with Section

- 73.2.5.2 Calls to Directory Assistance where Sprint provides such service to an AT&T end user.
- 73.2.5.3 Calls completed via Sprint-provided Operator Services where Sprint provides such service to AT&T's local service end user and where Sprint records such usage for its end users using Industry Standard Telcordia EMI billing records.
- 73.2.5.4 Access records related to long distance calling.
- 73.2.5.5 For Sprint-provided Centrex Service, station level detail.
- 73.2.6 Retention of Records. Sprint shall maintain a machine readable back-up copy of the message detail provided to AT&T for a minimum of forty-five (45) calendar days. During the forty-five (45) day period, Sprint shall provide any data back-up to AT&T upon the request of AT&T. If the forty-five (45) day period has expired, Sprint may provide the data back-up at AT&T's expense.
- 73.2.7 Sprint shall provide to AT&T Recorded Usage Data for AT&T end users. Sprint shall not submit other AT&T local usage data as part of the AT&T Recorded Usage Data.
- 73.2.8 Sprint shall not bill directly to AT&T subscribers any recurring or non-recurring charges for AT&T's services to the end user except where explicitly permitted to do so within a written agreement between Sprint and AT&T.
- 73.2.9 Sprint will record 976/N11 calls and transmit them to the IP for billing. Sprint will not bill these calls to either AT&T or the AT&T's end user.
- 73.2.10 Sprint shall provide Recorded Usage Data to AT&T billing locations as agreed to by the Parties.

- 73.2.11 Sprint shall provide a single point of contact to respond to AT&T call usage, data error, and record transmission inquiries.
- 73.2.12Sprint shall provide AT&T with a single point of contact and remote identifiers (IDs) for each sending location.
- 73.2.13AT&T shall provide a single point of contact responsible for receiving usage transmitted by Sprint and receiving usage tapes from a courier service in the event of a facility outage.
- 73.2.14Sprint shall bill and AT&T shall pay the charges for Recorded Usage Data. Billing and payment shall be in accordance with the applicable terms and conditions set forth herein.

73.3 Charges

- 73.3.3 Access services, including revenues associated therewith, provided in connection with the resale of services hereunder shall be the responsibility of Sprint and Sprint shall directly bill and receive payment on its own behalf from an IXC for access related to interexchange calls generated by resold or rebranded customers.
- 73.3.4 Sprint will be responsible for returning EMI records to IXCs with the proper EMI Return Code along with the Operating Company Number (OCN) of the associated ANI, (i.e., Billing Number).
- 73.3.5 Sprint will deliver a monthly statement for Wholesale Services in the medium (e.g.: NDM, paper, or CD-ROM) requested by AT&T as follows:
 - 73.3.5.1 Invoices will be provided in a standard Carrier Access Billing format or other such format as Sprint may determine;
 - 73.3.5.2 Where local usage charges apply and message detail is created to support available services, the originating local usage at the call detail level in standard EMI industry format will be exchanged daily or at other mutually agreed upon intervals, and AT&T will pay Sprint for providing such call detail;
 - 73.3.5.3 The Parties will work cooperatively to exchange information to facilitate the billing of in and out collect and inter/intra-region alternately billed messages;
 - 73.3.5.4 Sprint agrees to provide information on the end-user's selection of special features where Sprint maintains such information (e.g.: billing method, special language) when AT&T places the order for service;
 - 73.3.5.5 Monthly recurring charges for Telecommunications Services sold pursuant to this Agreement shall be billed monthly in advance.
 - 73.3.5.6 Sprint shall bill for message provisioning and, if applicable data tape charges, related to the provision of usage records. Sprint shall also bill AT&T for additional copies of the monthly invoice.
- 73.3.6 For billing purposes, and except as otherwise specifically agreed to in writing, the Telecommunications Services provided hereunder are furnished for a minimum term of one month. Each month is presumed to have thirty (30) days.
- 73.4 Central Clearinghouse and Settlement
 - 73.4.3 Sprint and AT&T shall agree upon Clearinghouse and Incollect/Outcollect procedures.
 - 73.4.4 Sprint shall settle with AT&T for both intra-region and inter-region billing exchanges of calling card, bill-to-third party, and collect calls under

separately negotiated settlement arrangements.

73.5 Lost Data

- 73.5.3 Loss of Recorded Usage Data. AT&T Recorded Usage Data determined to have been lost, damaged or destroyed as a result of an error or omission by Sprint in its performance of the recording function shall be recovered by Sprint at no charge to AT&T. In the event the data cannot be recovered by Sprint, Sprint shall estimate the messages and associated revenue, with assistance from AT&T, based upon the method described below. This method shall be applied on a consistent basis, subject to modifications agreed to by Sprint and AT&T. This estimate shall be used to adjust amounts AT&T owes Sprint for services Sprint provides in conjunction with the provision of Recorded Usage Data.
- 73.5.4 Partial Loss. Sprint shall review its daily controls to determine if data has been lost. When there has been a partial loss, actual message and minute volumes shall be reported, if possible through recovery as discussed in Section 73.5.3 above. Where actual data are not available, a full day shall be estimated for the recording entity, as outlined in the following paragraphs. The amount of the partial loss is then determined by subtracting the data actually recorded for such day from the estimated total for such day.
- 73.5.5 Complete Loss. When Sprint is unable to recover data as discussed in Section 73.5.3 above estimated message and minute volumes for each loss consisting of an entire AMA tape or entire data volume due to its loss prior to or during processing, lost after receipt, degaussed before processing, receipt of a blank or unreadable tape, or lost for other causes, shall be reported.
- 73.5.6 Estimated Volumes. From message and minute volume reports for the entity experiencing the loss, Sprint shall secure message/minute counts for the four (4) corresponding days of the weeks preceding that in which the loss occurred and compute an average of these volumes. Sprint shall apply the appropriate average revenue per message ("arpm") agreed to by AT&T and Sprint to the estimated message volume for messages for which usage charges apply to the subscriber to arrive at the estimated lost revenue.
- 73.5.7 If the day of loss is not a holiday but one (1) (or more) of the preceding corresponding days is a holiday, use additional preceding weeks in order to procure volumes for two (2) non-holidays in the previous two (2) weeks that correspond to the day of the week that is the day of the loss.
- 73.5.8 If the loss occurs on a weekday that is a holiday (except Christmas and Mother's day), Sprint shall use volumes from the two (2) preceding Sundays.
- 73.5.9 If the loss occurs on Mother's day or Christmas day, Sprint shall use volumes from that day in the preceding year multiplied by a growth factor derived from an average of AT&T's most recent three (3) month message volume growth. If a previous year's message volumes are not available, a

settlement shall be negotiated.

- 73.6 Testing, Changes and Controls
 - 73.6.3 The Recorded Usage Data, EMI format, content, and transmission process shall be tested as agreed upon by AT&T and Sprint.
 - 73.6.4 Control procedures for all usage transferred between Sprint and AT&T shall be available for periodic review. This review may be included as part of an Audit of Sprint by AT&T or as part of the normal production interface management function. Breakdowns which impact the flow of usage between Sprint and AT&T must be identified and jointly resolved as they occur. The resolution may include changes to control procedures, so similar problems would be avoided in the future. Any changes to control procedures would need to be mutually agreed upon by AT&T and Sprint.
 - 73.6.5 Sprint Software Changes
 - 73.6.5.1 When Sprint plans to introduce any software changes which impact the format or content structure of the usage data feed to AT&T, designated Sprint personnel shall notify AT&T no less than ninety (90) calendar days before such changes are implemented.
 - 73.6.5.2 Sprint shall communicate the projected changes to AT&T's single point of contact so that potential impacts on AT&T processing can be determined.
 - 73.6.5.3 AT&T personnel shall review the impact of the change on the entire control structure. AT&T shall negotiate any perceived problems with Sprint and shall arrange to have the data tested utilizing the modified software if required.
 - 73.6.5.4 If it is necessary for Sprint to request changes in the schedule, content or format of usage data transmitted to AT&T, Sprint shall notify AT&T.
 - 73.6.6 AT&T Requested Changes:
 - 73.6.6.1 AT&T may submit a purchase order to negotiate and pay for changes in the content and format of the usage data transmitted by Sprint.
 - 73.6.6.2 When the negotiated changes are to be implemented, AT&T and/or Sprint shall arrange for testing of the modified data.
- 73.7 Information Exchange and Interfaces
 - 73.7.3 Product/Service Specific. Sprint shall provide a Telcordia standard 42-50-01 miscellaneous charge record to support the Special Features Star Services if these features are part of Sprint's offering and are provided for

Sprint's subscribers on a per usage basis.

- 73.7.4 Rejected Recorded Usage Data
 - 73.7.4.1 Upon agreement between AT&T and Sprint, messages that cannot be rated and/or billed by AT&T may be returned to Sprint via CDN or other medium as agreed by the Parties. Returned messages shall be sent directly to Sprint in their original EMI format utilizing standard EMI return codes.
 - 73.7.4.2 Sprint may correct and resubmit to AT&T any messages returned to Sprint. Sprint will not be liable for any records determined by Sprint to be billable to an AT&T end user. AT&T will not return a message that has been corrected and resubmitted by Sprint. Sprint will only assume liability for errors and unguideables caused by Sprint.

74 GENERAL NETWORK REQUIREMENTS

- 74.1 Sprint shall provide repair, maintenance and testing for all resold Telecommunications Services and such UNEs that Sprint is able to test, in accordance with the terms and conditions of this Agreement.
- 74.2 During the term of this Agreement, Sprint shall provide necessary maintenance business process support as well as those technical and systems interfaces at Parity. Sprint shall provide AT&T with maintenance support at Parity.
- 74.3 Sprint shall provide on a regional basis, a point of contact for AT&T to report vital telephone maintenance issues and trouble reports twenty four (24) hours and seven (7) days a week.
- 74.4 Sprint shall provide AT&T maintenance dispatch personnel on the same schedule that it provides its own subscribers.
- 74.5 Sprint shall cooperate with AT&T to meet maintenance standards for all Telecommunications Services and unbundled network elements ordered under this Agreement. Such maintenance standards shall include, without limitation, standards for testing, network management, call gapping, and notification of upgrades as they become available.
- 74.6 All Sprint employees or contractors who perform repair service for AT&T end users shall follow Sprint standard procedures in all their communications with AT&T end users. These procedures and protocols shall ensure that:
 - 74.6.3 Sprint employees or contractors shall perform repair service that is equal in quality to that provided to Sprint end users; and
 - 74.6.4 Trouble calls from AT&T shall receive response time priority that is equal to that of Sprint end users and shall be handled on a "first come first served" basis regardless of whether the end user is an AT&T end user or a

Sprint end user.

- 74.7 Sprint shall provide AT&T with scheduled maintenance for resold lines, including, without limitation, required and recommended maintenance intervals and procedures, for all Telecommunications Services and network elements provided to AT&T under this Agreement equal in quality to that currently provided by Sprint in the maintenance of its own network. AT&T shall perform its own testing for UNEs.
- 74.8 Sprint shall give maximum advanced notice to AT&T of all non-scheduled maintenance or other planned network activities to be performed by Sprint on any network element, including any hardware, equipment, software, or system, providing service functionality of which AT&T has advised Sprint may potentially impact AT&T end users.
- 74.9 Notice of Network Event. Each party has the duty to alert the other of any network events that can result or have resulted in service interruption, blocked calls, or negative changes in network performance.
- 74.10 On all misdirected calls from AT&T end users requesting repair, Sprint shall provide such AT&T end user with the correct AT&T repair telephone number as such number is provided to Sprint by AT&T. Once the Electronic Interface is established between Sprint and AT&T, Sprint agrees that AT&T may report troubles directly to a single Sprint repair/maintenance center for both residential and small business end users, unless otherwise agreed to by AT&T.
- 74.11 Upon establishment of an Electronic Interface, Sprint shall notify AT&T via such electronic interface upon completion of trouble report. The report shall not be considered closed until such notification is made. AT&T will contact its end user to determine if repairs were completed and confirm the trouble no longer exists.
- 74.12 Sprint shall perform all testing for resold Telecommunications Services.
- 74.13 Sprint shall provide test results to AT&T, if appropriate, for trouble clearance. In all instances, Sprint shall provide AT&T with the disposition of the trouble.
- 74.14 If Sprint initiates trouble handling procedures, it will bear all costs associated with that activity. If AT&T requests the trouble dispatch, and either there is no trouble found, or the trouble is determined to be beyond the end user demarcation point, then AT&T will bear the cost.

75 MISCELLANEOUS SERVICES AND FUNCTIONS

75.1 General

75.1.3 To the extent that Sprint does not provide the services described in this Section 75 to itself, AT&T must contract directly with the service provider for such services.

- 75.1.4 Basic 911 and E911 General Requirements
 - 75.1.4.1 Basic 911 and E911 provides a caller access to the appropriate emergency service bureau by dialing a 3-digit universal telephone number (911).
 - 75.1.4.2 Basic 911 and E911 functions provided to AT&T for unbundled local switching and resale shall be at Parity with the support and services that Sprint provides to its subscribers for such similar functionality.
 - In a resale situation, where it may be appropriate for Sprint to update the ALI database, Sprint shall update such database with AT&T data in an interval at Parity with that experienced by Sprint end users.
 - Sprint shall transmit to AT&T daily all changes, alterations, modifications, and updates to the emergency public agency telephone numbers linked to all NPA NXXs. This transmission shall be electronic and be a separate feed from the subscriber listing feed.
 - 75.1.4.3 In government jurisdictions where Sprint has obligations under existing agreements as the primary provider of the 911 System to the county (Host Sprint), AT&T shall participate in the provision of the 911 System as follows:

Each party shall be responsible for those portions of the 911 System for which it has control, including any necessary maintenance to each party's portion of the 911 System.

Host Sprint shall be responsible for maintaining the E-911 database. Sprint shall be responsible for maintaining the E-911 routing database.

- 75.1.4.4 If a third party is the primary service provider to a government agency, AT&T shall negotiate separately with such third party with regard to the provision of 911 service to the agency. All relations between such third party and AT&T are totally separate from this Agreement and Sprint makes no representations on behalf of the third party.
- 75.1.5 The following are Basic 911 and E911 Database Requirements
 - 75.1.5.1 The ALI database shall be managed by Sprint, but is the property of Sprint and AT&T for those records provided by AT&T.

- 75.1.5.2 To the extent allowed by the governmental agency, and where available, copies of the SIG shall be provided within three business days from the time requested and provided on diskette, or in a format suitable for use with desktop computers.
- 75.1.5.3 AT&T shall be solely responsible for providing AT&T database records to Sprint for inclusion in Sprint's ALI database on a timely basis.
- 75.1.5.4 Sprint and AT&T shall arrange for the automated input and periodic updating of the E911 database information related to AT&T end users. Sprint shall work cooperatively with AT&T to ensure the accuracy of the data transfer by verifying it against the SIG. Sprint shall accept electronically transmitted files that conform to NENA Version #2 format.
- 75.1.5.5 AT&T shall assign an E911 database coordinator charged with the responsibility of forwarding AT&T end user ALI record information to Sprint or via a third-party entity, charged with the responsibility of ALI record transfer. AT&T assumes all responsibility for the accuracy of the data that AT&T provides to Sprint.
- 75.1.5.6 AT&T shall provide information on new subscribers to Sprint within one (1) business day of the order completion. Sprint shall update the database within two (2) business days of receiving the data from AT&T. If Sprint detects an error in the AT&T provided data, the data shall be returned to AT&T within two (2) business days from when it was provided to Sprint. AT&T shall respond to requests from Sprint to make corrections to database record errors by uploading corrected records within two (2) business days. Manual entry shall be allowed only in the event that the system is not functioning properly.
- 75.1.5.7 Sprint agrees to treat all data on AT&T subscribers provided under this Agreement as confidential and to use data on AT&T subscribers only for the purpose of providing E911 services.

75.2 Directory Listings Service Requests

- 75.2.3 These requirements pertain to Sprint's Listings Service Request process that enables AT&T to (a) submit AT&T subscriber information for inclusion in Directory Listings databases; (b) submit AT&T subscriber information for inclusion in published directories; and (c) provide AT&T subscriber delivery address information to enable Sprint to fulfill directory distribution obligations.
- 75.2.4 When implemented by the Parties, Sprint shall accept orders on a

real-time basis via electronic interface in accordance with OBF Directory Service Request standards within three (3) months of the effective date of this Agreement. In the interim, Sprint shall create a standard format and order process by which AT&T can place an order with a single point of contact within Sprint.

- 75.2.5 Sprint will provide to AT&T the following Directory Listing Migration Options, valid under all access methods, including but not limited to, Resale, UNEs and Facilities-Based:
 - 75.2.5.1 Migrate with no Changes. Retain all white page listings for the subscriber in both DA and DL. Transfer ownership and billing for white page listings to AT&T.
 - 75.2.5.2 Migrate with Additions. Retain all white page listings for the subscriber in DL. Incorporate the specified additional listings order. Transfer ownership and billing for the white page listings to AT&T.
 - 75.2.5.3 Migrate with Deletions. Retain all white page listings for the subscriber in DL. Delete the specified listings from the listing order. Transfer ownership and billing for the white page listings to AT&T.
 - 75.2.5.4 To ensure accurate order processing, Sprint or its directory publisher shall provide to AT&T the following information, with updates promptly upon changes:
 - 75.2.5.5 A matrix of NXX to central office;
 - 75.2.5.6 Geographical maps if available of Sprint service area;
 - 75.2.5.7 A description of calling areas covered by each directory, including but not limited to maps of calling areas and matrices depicting calling privileges within and between calling areas;
 - 75.2.5.8 Listing format rules;
 - 75.2.5.9 Standard abbreviations acceptable for use in listings and addresses;
 - 75.2.5.10 Titles and designations; and
 - 75.2.5.11 A list of all available directories and their Business Office close dates
- 75.2.6 Based on changes submitted by AT&T, Sprint shall update and maintain directory listings data for AT&T subscribers who:
 - 75.2.6.1 Disconnect Service;
 - 75.2.6.2 Change CLEC;

- 75.2.6.3 Install Service;
- 75.2.6.4 Change any service which affects DA information;
- 75.2.6.5 Specify Non-Solicitation; and
- 75.2.6.6 Are Non-Published, Non-Listed, or Listed.
- 75.2.7 Sprint shall not charge for storage of AT&T subscriber information in the DL systems.
- 75.2.8 AT&T shall not charge for storage of Sprint subscriber information in the DL systems.
- 75.3 Directory Listings General Requirements. AT&T acknowledges that many directory functions including but not limited to yellow page listings, enhanced white page listings, information pages, directory proofing, and directory distribution are not performed by Sprint but rather are performed by and are under the control of the directory publisher. AT&T acknowledges that for an AT&T subscriber's name to appear in a directory, AT&T must submit a Directory Service Request (DSR). Sprint shall use reasonable efforts to assist AT&T in obtaining an agreement with the directory publisher that treats AT&T at Parity with the publisher's treatment of Sprint.

- 75.3.3 This Section 75.3 pertains to listings requirements published in the traditional white pages.
- 75.3.4 Sprint shall include in its master subscriber system database all white pages listing information for AT&T subscribers in Sprint territories where AT&T is providing local telephone exchange services and has submitted a DSR.
- 75.3.5 Sprint agrees to include one basic White pages listing for each AT&T customer located within the geographic scope of its White Page directories, at no additional charge to AT&T. A basic White Pages listing is defined as a customer name, address and either the AT&T assigned number for a customer or the number for which number portability is provided, but not both numbers. Basic White Pages listings of AT&T customers will be interfiled with listings of Sprint and other LEC customers.
- 75.3.6 AT&T agrees to provide AT&T customer listing information, including without limitation directory distribution information, to Sprint, at no charge. Sprint will provide AT&T with the appropriate format for provision of AT&T customer listing information to Sprint. The parties agree to adopt a mutually acceptable electronic format for the provision of such information as soon as practicable. In the event OBF adopts an industry-standard format for the provision of such information, the parties agree to adopt such format.
- 75.3.7 Sprint agrees to provide White Pages database maintenance services to AT&T. AT&T will be charged a Service Order entry fee upon submission of Service Orders into Sprint's Service Order Entry (SOE) System, which will include compensation for such database maintenance services. Service Order entry fees apply when Service Orders containing directory records are entered into Sprint's SOE System initially, and when Service Orders are entered in order to process a requested change to directory records.
- 75.3.8 AT&T customer listing information will be used solely for the provision of directory services, including the sale of directory advertising to AT&T customers.
- 75.3.9 In addition to a basic White Pages listing, Sprint will provide, tariffed White Pages listings (e.g.: additional, alternate, foreign and nonpublished listings) for AT&T to offer for resale to AT&T's customers.
- 75.3.10 Sprint, or its directory publisher, agree to provide White Pages distribution services to AT&T customers within Sprint's service territory at no additional charge to AT&T. Sprint represents that the quality, timeliness, and manner of such distribution services will be at Parity with those provided to Sprint and to other AT&T customers.

- 75.3.11 Sprint agrees to include critical contact information pertaining to AT&T in the "Information Pages" of those of its White Pages directories containing information pages, if AT&T meets criteria established by its directory publisher. Critical contact information includes AT&T's business office number, repair number, billing information number, and any other information required to comply with applicable regulations, but not advertising or purely promotional material. AT&T will not be charged for inclusion of its critical contact information. The format, content and appearance of AT&T's critical contact information will conform to applicable Sprint directory publisher's guidelines and will be consistent with the format, content and appearance of critical contact information pertaining to all CLECs in a directory.
- 75.3.12Sprint will accord AT&T customer listing information the same level of confidentiality that Sprint accords its own proprietary customer listing information. Sprint shall ensure that access to AT&T customer proprietary listing information will be limited solely to those of Sprint and Sprint's directory publisher's employees, agents and contractors that are directly involved in the preparation of listings, the production and distribution of directories, and the sale of directory advertising. Sprint will advise its own employees, agents and contractors and its directory publisher of the existence of this confidentiality obligation and will take appropriate measures to ensure their compliance with this obligation. Notwithstanding any provision herein to the contrary, the furnishing of White Pages proofs to AT&T that contains customer listings of both Sprint and AT&T will not be deemed a violation of this confidentiality provision.
- 75.3.13Sprint will sell or license AT&T's customer listing information to any third parties unless AT&T submits written requests that Sprint refrain from doing so. Sprint and AT&T will work cooperatively to share any payments for the sale or license of AT&T customer listing information to third parties. Any payments due to AT&T for its customer listing information will be net of administrative expenses incurred by Sprint in providing such information to third parties. The parties acknowledge that the release of AT&T's customer listing to Sprint's directory publisher will not constitute the sale or license of AT&T's customer listing information causing any payment obligation to arise pursuant to this Section 75.3.13.
- 75.4 Other Directory Services. Sprint will exercise reasonable efforts to cause its directory publisher to enter into a separate agreement with AT&T which will address other directory services desired by AT&T as described in this Section 75.4. Both parties acknowledge that Sprint's directory publisher is not a party to this Agreement and that the provisions contained in this Section 75.4 are not binding upon Sprint's directory publisher.
 - 75.4.3 Sprint's directory publisher will negotiate with AT&T concerning the provision of a basic Yellow Pages listing to AT&T customers located

within the geographic scope of publisher's Yellow Pages directories and distribution of Yellow Pages directories to AT&T customers.

- 75.4.4 Directory advertising will be offered to AT&T customers on a nondiscriminatory basis and subject to the same terms and conditions that such advertising is offered to Sprint and other AT&T customers. Directory advertising will be billed to AT&T customers by directory publisher.
- 75.4.5 Directory publisher will use commercially reasonable efforts to ensure that directory advertising purchased by customers who switch their service to AT&T is maintained without interruption.
- 75.4.6 Information pages, in addition to any information page or portion of an information page containing critical contact information as described above in Section 75.3.11 may be purchased from Sprint's directory publisher, subject to applicable directory publisher guidelines, criteria, and regulatory requirements.
- 75.4.7 Directory publisher maintains full authority as publisher over its publishing policies, standards and practices, including decisions regarding directory coverage area, directory issue period, compilation, headings, covers, design, content or format of directories, and directory advertising sales.
- 75.5 Directory Assistance Data. This Section refers to the residential, business, and government subscriber records used by Sprint to create and maintain databases for the provision of live or automated operator assisted Directory Assistance. Directory Assistance Data is information that enables telephone exchange CLECs to swiftly and accurately respond to requests for directory information, including, but not limited to name, address and phone numbers. Under the provisions of the Act and the FCC's Interconnection order, Sprint shall provide unbundled and non-discriminatory access to the residential, business and government subscriber records used by Sprint to create and maintain databases for the provision of live or automated operator assisted Directory Assistance. This access shall be provided under separate contract.
- 75.6 Systems Interfaces and Exchanges
 - 75.6.3 Directory Assistance Data Information Exchanges and Interfaces
 - 75.6.3.1 Subscriber List Information
 - 75.6.3.2 Sprint shall provide to AT&T, at AT&T's request, all published Subscriber List Information (including such information that resides in Sprint's master subscriber system/accounts master file for the purpose of publishing directories in any format as specified by the Act) via an electronic data transfer medium and in a mutually agreed to format, on the same terms and conditions and at the same rates

that the Sprint provides Subscriber List Information to itself or to other third parties. All changes to the Subscriber List Information shall be provided to AT&T pursuant to a mutually agreed format and schedule. Both the initial List and all subsequent Lists shall indicate for each subscriber whether the subscriber is classified as residence or business class of service.

75.6.3.3 AT&T shall provide directory listings to Sprint pursuant to the directory listing and delivery requirements in the approved OBF format, at a mutually agreed upon timeframe. Other formats and requirements shall not be used unless mutually agreed to by the parties.

75.7 Listing Types

LISTED	The listing information is available for all directory requirements.
NON-LISTED	The listing information is available to all directory requirements, but the information does not appear in the published street directory.
NON-PUBLISHED	A directory service may confirm, by name and address, the presence of a listing, but the telephone number is not available. The listing information is not available in either the published directory or directory assistance.

PART K - REPORTING STANDARDS

76 GENERAL

76.1 Sprint shall satisfy all service standards, intervals, measurements, specifications, performance requirements, technical requirements, and performance standards and will pay any penalties for violation of the performance standards that are required by law or regulation. In addition, Sprint's performance under this agreement shall be provided to AT&T at parity with the performance Sprint provides itself for like service(s).

PART L – COLLOCATION

77 SCOPE OF COLLOCATION TERMS

77.1 Sprint will provide Collocation to AT&T in accordance with this Agreement for the purposes of Interconnection to Sprint pursuant to the Act (including 47 U.S.C. § 251(c)(2)) and for obtaining access to Sprint's UNEs pursuant to the Act (including 47 U.S.C. § 251(c)(3)). Collocation shall be provided on a nondiscriminatory basis, on a "first-come, first-served" basis, and otherwise in accordance with the requirements of the Act (including 47 U.S.C. § 251(c)(6)).

77.2Prices and fees for collocation and other services under this Agreement are contained in Table Two.

77.3 This Agreement states the general terms and conditions upon which Sprint will grant to AT&T the non-exclusive right to gain access to and occupy the Collocation Space, and other associated facilities as may be necessary, for the sole and exclusive purpose of providing telecommunications service upon submission of an approved and provisioned Application for collocation service. Such service will be provided by installing, maintaining and operating AT&T's equipment, which will interconnect with Telecommunications Services and facilities provided by Sprint or others in accordance with this Agreement.

77.4 AT&T will be responsible for construction of the collocation arrangement using Sprint approved contractors ("Approved Contractor") to perform the collocation work. AT&T must contract directly with an Approved Contractor for the construction of its portion of the arrangement.

77.5 Termination of collocation space

77.6 AT&T may terminate occupancy in a particular Collocation Space upon thirty (30) Days prior written notice to Sprint. Upon termination of such occupancy, AT&T at its expense shall remove its equipment and other property from the Collocation Space. AT&T shall have thirty (30) Days from the termination date to complete such removal, including the removal of all equipment and facilities of AT&T's Guests; provided, however, that AT&T shall continue payment of monthly fees to Sprint until such date as AT&T has fully vacated the Collocation Space. AT&T will surrender the Collocation Space to Sprint in the same condition as when first occupied by AT&T, except for ordinary wear and tear.

77.7 AT&T shall be responsible for the cost of removing any enclosure, together with all supporting structures (e.g., racking, conduits), of an Adjacent Collocation arrangement at the termination of occupancy and restoring the grounds to their original condition.

77.8 Upon termination of AT&T's right to possession without termination, AT&T shall surrender possession and vacate the Collocation Space within thirty (30) Days. Failure to surrender the Collocation Space within thirty (30) Days shall be considered abandonment and Sprint will have the right to remove the equipment and other

property of AT&T or AT&T's Guest at AT&T's expense and with no liability for damage or injury to AT&T's property.

77.9 Should Sprint under any section of this Agreement remove any of AT&T's equipment from its collocation space, Sprint will deliver to AT&T any equipment removed by Sprint only upon payment by AT&T of the cost of removal, storage and delivery, and all other amounts due Sprint under this Agreement. Should AT&T fail to remove any of its equipment deemed abandoned, title thereto shall pass to Sprint under this Agreement as if by a Bill of Sale. Nothing herein shall limit Sprint from pursuing, at its option, any other remedy in law, equity, or otherwise related to AT&T's occupancy in the Collocation Space, including any other remedy provided in this Agreement.

77.10 AT&T shall surrender all keys, access cards and Sprint-provided photo identification cards to the Collocation Space and the Building to Sprint, and shall make known to Sprint the combination of all combination locks remaining on the Collocation Space.

77.11 If it becomes necessary in Sprint's reasonable judgment, and there are no other reasonable alternatives available, Sprint shall have the right, for good cause shown, and upon thirty (30) Days prior notice, to reclaim the Collocation Space or any portion thereof, any Inner Duct, Outside Cable Duct, Cable Vault space or other Sprint-provided facility in order to fulfill its common carrier obligations, any order or rule of the state commission or the FCC, or Sprint's tariffs to provide Telecommunications Services to its end user customers. In such cases, Sprint will reimburse AT&T for reasonable direct costs and expenses in connection with such reclamation.

77.12 If it becomes necessary in Sprint's reasonable judgment, and there are no other reasonable alternatives, to require AT&T to move to equivalent space in the Premises upon receipt of sixty (60) Days written notice from Sprint, in which event, Sprint shall pay all moving costs, and the Collocation License Fee provided for herein shall remain the same.

78 COLLOCATION OPTIONS

78.1 Cageless. Sprint will offer Collocation Space to allow AT&T to collocate its equipment and facilities, and without requiring the construction of a cage or similar structure. Sprint shall make cageless collocation available in single bay increments. For equipment requiring special technical considerations, AT&T must provide the equipment layout, including spatial dimensions for such equipment pursuant to generic requirements contained in Telcordia GR-63-Core and shall be responsible for constructing all special technical requirements associated with such equipment pursuant to this Agreement.

78.2 Caged. Sprint will authorize the enclosure of AT&T's equipment and facilities at AT&T's option. Sprint will provide guidelines and specifications upon request. Based on AT&T's request, space for cage enclosures in amounts as small as that

sufficient to house and maintain a single rack or bay or equipment will be made available. AT&T will arrange with an Approved Contractor to construct a Collocation Arrangement enclosure at AT&T's sole expense. The Approved Contractor will be responsible for filing and receiving any and all necessary permits and/or licenses for such construction. The Approved Contractor shall bill AT&T directly for all work performed for AT&T and Sprint will have no liability for, nor responsibility to pay, such charges imposed by the Approved Contractor. AT&T must provide the local Sprint building contact with one Access key necessary for entering the locked enclosure. Except in case of emergency, Sprint will not access AT&T's locked enclosure prior to notifying AT&T and obtaining authorization.

78.2.1 Sprint has the right to review AT&T's plans and specifications prior to allowing construction to start. Sprint will complete its review within fifteen (15) Days of receipt of such plans. Sprint has the right to inspect the enclosure after construction to make sure it is constructed according to the submitted plans and specifications. Sprint can require AT&T to remove or correct, at its cost, any structure that does not meet these plans.

- 78.3Transfer of Collocation Space. AT&T shall be allowed to transfer collocation space to or from another CLEC under the following conditions: (1) the central office is not at or near space exhaustion; (2) the transfer of space shall be contingent upon Sprint's approval, who will not unreasonably withhold permission; (3) there are no unpaid, undisputed collocation balances between Sprint and AT&T, or the transferring CLEC; and (4) the transfer of the collocation space is in conjunction with AT&T's sale or purchase of all, or substantially all, of the in-place collocation equipment to the same CLEC.
 - 78.3.1 When AT&T is transferring collocation space to another CLEC, AT&T's responsibilities shall include: (1) submitting a letter of authorization to Sprint for the transfer; (2) entering into a transfer agreement with Sprint and the acquiring CLEC; and (3) returning all access devices to Sprint. AT&T agrees to pay all undisputed charges due Sprint related to their collocation arrangement up to the date of sale.
 - 78.3 When the transfer of collocation space is to AT&T from another CLEC, AT&T's responsibilities shall include: (1) submitting an application to Sprint for transfer of the collocation arrangement with an application fee; (2) satisfying all requirements of its interconnection agreement with Sprint; (3) submitting a letter to Sprint for the assumption of services; and (4) entering into a transfer agreement with Sprint and the transferring CLEC. It is the responsibility of Sprint to ensure that the above responsibilities are completely satisfied and the transfer of space is done as quickly as possible.

78.4 Adjacent Collocation. Sprint will provide adjacent collocation arrangements ("Adjacent Arrangement") where space within the Premises is legitimately exhausted,

subject to technical feasibility. Both Parties will mutually agree on the location of the designated space on the Sprint property where the adjacent structure (such as a CEV or similar structure) will be placed. If a mutual agreement cannot be reached, Sprint will decide the location, subject to zoning or other state and local regulations and future use by Sprint or other requesting Telecommunications Carriers pursuant to an application submitted under Section 042.

78.4.1 AT&T will provide a concrete pad, the structure housing the arrangement, HVAC, lighting, and all facilities that connect the structure (i.e. racking, conduits, etc.) to the Sprint point of interconnection. Should AT&T elect such an option, AT&T must arrange with an Approved Contractor to construct an Adjacent Arrangement structure in accordance with this Agreement.

78.4.2 Sprint maintains the right to review AT&T's plans and specifications prior to construction of an Adjacent Arrangement(s). Sprint will complete its review within thirty (30) calendar days of site selection and receipt of plans. Except that such time period may be extended if any delay is due to the actions of AT&T. Sprint may inspect the Adjacent Arrangement(s) following construction and prior to commencement to ensure the design and construction comply with submitted plans. Sprint may require AT&T to correct any deviations from approved plans found during such inspection(s).

78.4.3 Sprint will provide AC power, as requested, subject to being technically feasible. At its option, AT&T may choose to provide its own AC power to the adjacent structure as long as the AC power source is from the same provider as Sprint's.

78.4.4 Subject to AT&T being on the waiting list, in the event that space in a Sprint Premises becomes available, Sprint will provide the option to AT&T to relocate its equipment from an Adjacent Facility into the Sprint Premises. In the event AT&T chooses to relocate its equipment, appropriate charges will apply, including charges to vacate the adjacent collocation arrangement and charges applicable for collocation within the Sprint Premises.

78.5 Virtual Collocation. Sprint will provide virtual collocation, subject to being technically feasible, if physical collocation is not practical for technical reasons or because of space limitations and in accordance with the Act (including 47 U.S.C. 251(c)(6) and 47 C.F.R. § 51.321).

78.5.1 AT&T may lease to Sprint, at no cost to Sprint, equipment that meets applicable FCC requirements and in accordance with this Agreement, for the sole purpose of having Sprint maintain the equipment in accordance with terms and conditions mutually agreed upon by the Parties.

78.5.2 Virtually collocated equipment shall be purchased by AT&T. Sprint does not assume any responsibility for the design, engineering, testing or performance for the end-to-end connection of AT&T's equipment, arrangement or facilities.

78.5.3 AT&T will arrange with an Approved Contractor to construct and

install AT&T's equipment in the virtual collocation arrangement.

78.5.4 Sprint will maintain, and repair AT&T's collocated equipment within the same time periods and with failure rates that are no greater than those that apply to the performance of similar functions for comparable equipment of Sprint, Sprint's affiliates or third parties. AT&T will be charged labor charges as identified on Table Two. The following services are not covered by this Agreement:

78.5.4.1 services to resolve software or hardware problems resulting from products provided by parties other than Sprint or causes beyond the control of Sprint;

78.5.4.2 service of attached, related, collateral or ancillary equipment or software not covered by this Section;

78.5.4.3 repairing damage caused to AT&T's collocated equipment by persons other than Sprint, or its authorized contractors, or

78.5.4.4 repairing damage to other property or equipment caused by operation of AT&T's collocated equipment and not caused by the sole negligence of Sprint.

78.5.5 AT&T warrants that Sprint shall have quiet enjoyment of the equipment. Sprint will be entitled to the benefit of any applicable manufacturer's warranties and indemnities and, to the extent assignable, such warranties and indemnities are hereby assigned by AT&T for the benefit of Sprint and AT&T shall take all reasonable action to enforce such warranties and indemnities where available to Sprint. AT&T shall execute, upon presentation, such documents and instruments as may be required to allow Sprint manufacturer's warranty coverage for any equipment. AT&T warrants that it has full authority to lease the equipment under the terms and conditions set forth herein and that there are no restrictions, legal or otherwise, which would preclude it from so doing.

> 78.5.5.1 In the event Sprint's right to quiet enjoyment is breached, either by AT&T's failure to make or cause to be made payment to the equipment manufacturer of the full purchase price for the equipment when such payment becomes due, or otherwise, Sprint may give written notice to AT&T and all of Sprint's obligations relating to the affected equipment shall terminate immediately.

78.5.6 Sprint's preparation, if any, of the Premises (e.g., Power fusing, environmental, etc.) for the Virtual Collocation arrangement will be charged to AT&T at rates on Table Two or as filed in a tariff and approved by the Commission.

78.6 Shared (Subleased) Caged Collocation. AT&T may allow other telecommunications carriers to share its caged collocation arrangement pursuant to terms and conditions agreed to by AT&T ("Host") and other telecommunications carriers ("Guests"). AT&T will notify Sprint in writing upon execution of any agreement between the Host and its Guest within twelve (12) calendar days of its execution. Included in this notification, will be an Augment Application that outlines the equipment to be installed by the Guest. An Augment Application Fee will only be rendered for this application in the event that additional engineering or preparation work by Sprint is required in accordance with section 77.1.2.1. Further, such notice shall include the name of the Guest(s) and their term of agreement, and shall contain a certification by AT&T that said agreement imposes upon the Guest(s) the same terms and conditions (excluding rates) for collocation space as set forth in this Agreement, including that Guest may only locate equipment necessary for interconnection to Sprint and accessing Sprint's unbundled network elements in accordance with Applicable Rules, including but not limited to 47 U.S.C. 251 (C) (3), 47 U.S.C. 251 (C) (2), and 47 C.F.R. 51.323(b-c).

78.6.1 As Host, AT&T will be the sole interface and responsible party to Sprint for the purpose of submitting applications for initial and additional equipment placements of Guest (to the extent required under other sections of this Agreement); for assessment and payment of rates and charges applicable to the Collocations space; and for the purposes of ensuring that the safety and security requirements of this Agreement are fully complied with by the Guest, its employees and agents. In making shared cage arrangements, Sprint will not increase the cost of site preparation or nonrecurring charges above the cost of provisioning a similar caged arrangement to a CLEC.

78.6.2 Sprint will not place unreasonable restrictions on AT&T's use of a cage, and as such will allow AT&T to contract with other CLECs to share the cage in a sublease type arrangement. If two (2) or more CLECs that have interconnection agreements with Sprint utilize a shared collocation cage, Sprint will permit each CLEC to order UNEs and provision service from the shared collocation space, regardless of which CLEC was the original collocator.

78.6.3 If Host terminates a Collocation Arrangement, Host will provide Guest thirty (30) days notice. Guest will assume all obligations and rights of Host as to that Collocation Arrangement if Guest remains in the Collocation Space, including payment of all charges.

78.7 Contiguous Space. To the extent possible, Sprint will provide AT&T with contiguous space for any subsequent request for physical collocation space, but makes no assurances that contiguous space will be available.

79. DEMARCATION POINT

79.1 Sprint will designate the point of demarcation, unless otherwise mutually agreed to by the Parties, in or adjacent to its Collocation Space. At AT&T's request, Sprint will identify the location(s) of other possible demarcation points available to AT&T, and AT&T will designate from these location(s) the point(s) of demarcation between its collocated equipment and Sprint's equipment. Sprint will use its best efforts to identify the closest demarcation point to AT&T's equipment that is available.

79.1 Each Party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point.

79.3 At AT&T's option and expense, a point of termination (POT) bay, frame or digital cross-connect may be placed in or adjacent to the Collocation Space that may, at AT&T's option, serve as the demarcation point. If AT&T elects not to provide a POT frame, Sprint will agree to handoff the interconnection cables to AT&T at its equipment, at AT&T's designated demarcation point. When AT&T elects to install its own POT frame/cabinet, AT&T will be responsible for providing and installing the required DC power panel.

80. APPLICATION PROCESS

80.1 Upon AT&T's selection of a Premises in which it desires to collocate its equipment, Sprint will provide a then current collocation application form (the "Application") to AT&T. AT&T will submit an Application when initially requesting Collocation Space, or modifying the use of the Collocation Space. The Application shall contain a detailed description and schematic drawing of the equipment to be placed in AT&T's Collocation Space(s), the amount of square footage required (or, in the case of Cageless Collocation, bay space) for the current year plus the next calendar year from the date of application, as well as the associated power requirements, floor loading, and heat release of each piece.

80.1.1 AT&T will complete the Application, and return it to Sprint. The Application shall include complete details of the collocation and interconnection requested, including, but not limited to, specific floor space, power, and environmental conditioning requirements. Sprint will not process a collocation request until a complete Application and all required documents are submitted.

80.1.2 In the event AT&T desires to modify or decommission the use of the Collocation Space in a manner that requires additional engineering or preparation work by Sprint, AT&T will complete a subsequent Application (augment request) detailing all information regarding the modification to the Collocation Space. Such modifications to the Premises may include but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, and equipment additions.

80.1.1.2.1 There are two levels of augments, minor and major. Minor augments include things such as DC power fuse changes or extensions of AC electric circuits for occasional use outlets and lights where

sufficient circuit capacity is available. Major augments include things such as additions or removals of cross connect cables, power cables, entrance cables and all requests for additional physical collocation space (caged or cageless).

80.2 Sprint will bill AT&T for the Application Fee (or Augment Application Fee) within thirty (30) days of Sprint's response to Application request.

80.3 If AT&T wishes Sprint to consider multiple methods for collocation on a single Application, AT&T will need to include in each Application a prioritized list of its preferred methods of collocating, e.g., caged, shared, or other, as well as adequate information, (e.g., specific layout requirements, cage size, number of bays, requirements relative to adjacent bays, etc.) for Sprint to process the Application for each of the preferred methods. If AT&T provides adequate information and its preferences with its Application, Sprint may not require an additional Application, nor would AT&T be required to restart the quotation interval should its first choice not be available in a requested Premises. Only one collocation arrangement will be provisioned per Application. Sprint will not select for AT&T the type of collocation to be ordered.

80.4 Within ten (10) Days after receiving AT&T's Application for collocation, Sprint will inform AT&T whether the Application meets each of Sprint's established collocation standards. Should AT&T submit a revised Application curing any deficiencies in an Application for collocation within ten days after being informed of them, AT&T shall retain its original position within any collocation queue that Sprint maintains. If Sprint informs AT&T that there is a deficiency in an Application, Sprint will provide sufficient detail so that AT&T has a reasonable opportunity to cure each deficiency.

80.5 All revisions to an initial request for a Physical Collocation Arrangement submitted by AT&T must be in writing. A new interval for the Physical Collocation Arrangement will be established which shall not exceed two months beyond the originally established date. AT&T will be required to pay any applicable Application fees.

80.6 Sprint shall provide confirmation of space availability within ten (10) Days of receipt of a complete and accurate Application and applicable Application fee for one (1) to five (5) Applications submitted. Space availability response will be increased by five (5) Days for every five (5) additional Applications received.

80.6.1 Sprint will notify AT&T in writing as to whether its request for Collocation Space has been granted or denied due to lack of space. The notification will also include a possible future space relief date, if applicable.

80.6.2 In order to increase the amount of space available for collocation, Sprint will, upon request, remove obsolete unused equipment, from its Premises to increase the amount of space available for collocation.

80.7 After notifying AT&T that Sprint has no available space in the requested Central

Office ("Denial of Application"), Sprint will allow AT&T, upon request, to tour the entire Central Office within ten (10) Days, or other mutually agreeable timeframe, of such Denial of Application. In order to schedule said tour the request for a tour of the Central Office must be received by Sprint within five (5) Days of the Denial of Application.

80.7.1 If AT&T contests Sprint's notice that there is not sufficient space in the Central Office, the parties agree to seek expedited resolution of the dispute at the Commission pursuant to Section 251(c)(6) of the Act. If the Commission determines that space is not available, Sprint will not be required to conduct a review of floor space availability in the same central office more frequently than once every six months.

80.7.2 On a first come, first serve basis, Sprint will maintain a waiting list of requesting carriers who have either received a Denial of Application or, where it is publicly known that the Premises is out of space, have submitted a Letter of Intent to collocate.

80.7.3 Sprint will simultaneously notify the telecommunications carriers on the waiting list when space becomes available if there is enough space to accommodate additional collocation. Subsequent to the granting of a Petition for Waiver, if AT&T has been denied space at a Sprint Premises and challenges Sprint on space availability at said Premises, AT&T will be given priority for space assignment if, as a result of the challenge, space is found to be available. AT&T will reaffirm its collocation request within thirty (30) Days of such notification; otherwise, it will be dropped to the bottom of the list. Upon request, Sprint will advise AT&T as to its position on the list.

80.7.4 If AT&T's Application for Physical Collocation is denied due to lack of space, Sprint will place AT&T on the waiting list for collocation in particular Premises according to the date AT&T submitted its Application and not the date of denial for lack of space.

80.7.5 Sprint will maintain on its Website a notification document that will indicate all Premises that are without available space. Sprint will update such document within ten (10) Days of the date at which a Premises runs out of physical collocation space.

80.8 Sprint will provide a price quote within ten (10) Days of receipt of a complete and accurate Application and applicable Application fee for one (1) to five (5) Applications. Price quote response will be increased by five (5) Days for every five (5) additional Applications received. The quotation will include the applicable nonrecurring and recurring rates.

80.9 AT&T has thirty (30) Days from receipt of the quotation to accept the quotation in writing. The quotation expires after thirty (30) Days. After thirty (30) Days, a new Application and Application fee are required. Collocation Space is not reserved until the quotation is accepted. Sprint need not meet the deadlines for provisioning Physical Collocation if, after receipt of any price quotation provided by Sprint, AT&T does not notify Sprint that physical collocation should proceed.

80.10 AT&T will indicate its intent to proceed with equipment installation in a Sprint Premises by accepting the price quote, which constitutes a Bona Fide Firm Order (BFFO). Space preparation for the Collocation Space will not begin until Sprint receives the BFFO. If AT&T makes changes to its Application in light of Sprint's written Application Response, Sprint may be required to re-evaluate and respond to the change(s). In this event, AT&T's Application will be treated as a Revision.

80.11 All applicable fees, including the administrative, project management and transmission engineering fees, will be billed within thirty (30) of the BFFO.

81. SPACE RESERVATION

81.1 The parties may reserve physical collocation space for their own specific uses for the remainder of the current year, plus twelve (12) months in accordance with Section 042. Neither Sprint, nor any of its affiliates, will reserve space for future use on terms more favorable than those that apply to other telecommunications carriers seeking to reserve collocation space for their own future use.

82. PROVISIONING INTERVALS

82.1 Sprint will complete its work associated with the provisioning of Caged Physical (including Shared Caged), Cageless Physical, and Virtual Collocation arrangements within ninety (90) Days of receipt of a BFFO. Sprint will complete its work associated with the provisioning of Adjacent Collocation arrangements (as defined in 0) within one hundred-twenty (120) Days of receipt of a BFFO. If Sprint is unable to complete its work as provided herein, the parties may agree to a mutually acceptable interval or Sprint may petition the Commission for waiver.

83. CONSTRUCTION AND COMMENCEMENT OF BILLING

83.1 An Approved Contractor, is required to perform the construction of physical collocation space, provided however, that any such Approved Contractor shall be subject to Sprint's security standards. Sprint reserves the right to reject any AT&T subcontractor upon the same criteria that Sprint would use on its own subcontractors. AT&T will notify Sprint in writing when construction of physical collocation space is complete.

83.2 Sprint shall have the right to inspect AT&T's construction of physical collocation arrangement, completed installation of equipment and facilities prior to AT&T turning up such equipment and facilities. AT&T shall provide written notification to Sprint when AT&T has completed its installation of equipment and facilities in the Collocation space, and Sprint shall, within five (5) Business Days of receipt of such notice, either (i) inspect such Collocation space or (ii) notify AT&T that Sprint is not exercising its right to inspect such Collocation space at that time and that AT&T may turn up its equipment and facilities. Failure of Sprint to either inspect the Collocation space or notify AT&T of its election not to inspect such space

within the foregoing five (5) Business Day period shall be deemed an election by Sprint not to inspect such Collocation space. AT&T shall have the right to be present at such inspection, and if AT&T is found to be in non-compliance with the terms and conditions of this Agreement that relate to the installation of AT&T's collocation arrangement and AT&T's Collocated equipment and facilities, AT&T shall correct any deviations within five (5) Days after the walk through and prior to turning up its equipment and facilities.

83.3 Sprint will complete its work associated with the Collocated Space in compliance with a mutually agreed to collocation request. Any deviation to AT&T's order must thereafter be approved by AT&T. The Parties acknowledge that AT&T approved deviations may require additional construction time and may incur additional AT&T expenses. AT&T shall pay the incremental cost incurred by Sprint as the result of any Revision to the Collocation request. AT&T will pay all applicable fees, including any nonrecurring charges required by Sprint.

- 83.4 AT&T will be responsible for all extraordinary costs, as determined in accordance with the Act, incurred by Sprint to prepare the Collocation space for the installation of AT&T's equipment and for extraordinary costs to maintain the Collocation space for AT&T's equipment on a going-forward basis. Extraordinary costs may include costs for such items as asbestos removal, fire suppression system or containment, modifications or expansion of cable entry facility, increasing the DC power system infrastructure capacity, increasing the capacity of the standby AC system (if available) or the existing commercial power facility, conversion of non-Collocation space, compliance with federal and state requirements, or other modifications required by local ordinances. Sprint will charge for these extraordinary costs on a time-sensitive or time-and-materials basis and will allocate the costs fairly among itself, AT&T and other collocators. An estimate of such costs, as determined in accordance with the Act, will be provided to AT&T prior to commencing such work. Extraordinary costs will only be billed to AT&T if such costs have been authorized by AT&T. Sprint must advise AT&T if extraordinary costs will be incurred.
- 83.5 Each Party or its agents will diligently pursue filing for the permits required for the scope of work to be performed by that Party or its agents.
- 83.6 Sprint will notify AT&T when construction of a Collocation Space is complete. The Parties will complete an acceptance walk through of each provisioned Collocation Space. Sprint will commence to correct any deviations to AT&T's original or jointly amended requirements within five (5) Days after the walk through. If AT&T does not conduct an acceptance walk through within fifteen (15) Days of the notification that the Collocation Space construction is complete, AT&T will be deemed to have accepted the Collocation Space and billing will commence.

83.6 If AT&T occupies the space prior to the acceptance walk through, billing will commence effective the date of occupancy.

83.7 AT&T must submit a written request to cancels its order for Physical, Caged, Shared

Cage, Adjacent Space, or Virtual Collocation. AT&T will reimburse Sprint for any actual expenses incurred and not already paid, which may include incidental equipment costs, material ordered, provided or used; labor; transportation, DS0, DS1 and DS3 cable and all other associated costs.

84. EQUIPMENT

84.1 AT&T may only locate equipment necessary for interconnection to Sprint and accessing Sprint's unbundled network elements in accordance with Applicable Rules, including but not limited to 47 U.S.C. 251 (C) (3), 47 U.S.C. 251 (C) (2), and 47 C.F.R. 51.323(b-c).

84.2 AT&T's equipment and facilities shall not be placed or operated in such a manner that creates hazards or causes physical harm to any individual or the public.

84.3 All equipment to be collocated must meet Level 1 safety requirements as set forth in Telcordia Network Equipment and Building Specifications ("NEBS"), but Sprint will not impose safety requirements on AT&T that are more stringent than the safety requirements it imposes on its own equipment. If Sprint denies collocation of AT&T's equipment, citing safety standards, Sprint must provide to AT&T within five (5) Business Days of the denial a list of all equipment that Sprint locates within the Premises in question, together with an affidavit attesting that all of that equipment meets or exceeds the safety standard that Sprint contends the competitor's equipment fails to meet. In the event that Sprint believes that the collocated equipment is not necessary for interconnection or access to unbundled network elements or determines that AT&T's equipment does not meet NEBS Level 1 safety requirements, AT&T will be given ten (10) Days to comply with the requirements or remove the equipment from the collocation space. If the parties do not resolve the dispute, the Parties may file a complaint at the Commission seeking a formal resolution of the dispute. While the dispute is pending. Sprint will not prevent or otherwise delay installation of the disputed equipment in the Collocation space; however, AT&T will not activate the equipment during the pendency of the dispute.

84.4 AT&T must notify Sprint in writing that collocation equipment installation is complete and is operational with Sprint's network. If AT&T fails to place operational telecommunications equipment in the collocated space and connect with Sprint's network within one-hundred-eighty (180) Days of AT&T's acceptance of Sprint's price quote, or other time period mutually agreed to by the AT&T and Sprint, Sprint may terminate the applicable Collocation Space upon written notice. AT&T will reimburse Sprint for any actual expenses incurred and not already paid, which may include incidental equipment costs, material ordered, provided or used; labor; transportation, DS0, DS1 and DS3 cable and all other associated costs.

85. AUGMENTS AND ADDITIONS

85.1 When AT&T modifies the Collocation Arrangement or adds equipment that requires no additional space preparation work on the part of Sprint, Sprint may not impose additional charges or additional intervals that would delay AT&T's operation.

AT&T will notify Sprint of the modifications or additional equipment prior to installation.

85.2 In the event AT&T desires to modify or decommission the use of the Collocation Space in a manner that requires additional engineering or preparation work by Sprint, AT&T will complete a subsequent Application (augment request) detailing all information regarding the modification to the Collocation Space. Such modifications to the Premises may include but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, and equipment additions.

85.3 Sprint will bill AT&T for the Application Fee within thirty (30) days of Sprint's response to Application request.

85.6 AT&T must submit an Application and applicable Application fee to obtain a price quote. AT&T must provide an accurate front equipment view (a.k.a. rack elevation drawing) specifying bay(s) for AT&T's point of termination. Sprint will not process an augment collocation request until a complete Augment Application and all required documents are submitted. The price quote will contain the charges and the construction interval for that application. The construction interval for augments will not exceed forty-five (45) Days from BFFO. If special or major construction is required, Sprint will work cooperatively with AT&T to negotiate mutually agreeable construction intervals for augments.

86. USE OF COMMON AREAS

86.1 AT&T, its employees, agents and invitees shall have a non-exclusive right to use those portions of the common area of the Building as are designated by Sprint from time to time, including, but not limited to, the right to use rest rooms in proximity to the Collocation Space, corridors and other access ways from the entrance to the Building, the Collocation Space, and the parking areas for vehicles of persons while working for or on behalf of AT&T at the Collocation Space; provided, however, that Sprint shall have the right to reserve parking spaces for Sprint's exclusive use or use by other occupants of the Building. Sprint does not guarantee that there is or will be sufficient parking spaces in parking areas to meet AT&T's needs. Sprint does not guarantee that restroom facilities or water will be available. All common areas shall remain under the exclusive control and management of Sprint, and Sprint shall have the right to change the level, location and arrangement of parking areas and other common areas, as Sprint may deem necessary. Use of all common areas shall be subject to such reasonable rules and regulations as Sprint may from time to time impose, consistent with AT&T's right to access its Collocation Space.

86.2 Sprint, where water is available for its own use, shall furnish running water from regular Building outlets for drinking, lavatory and toilet purposes drawn through fixtures installed by Sprint, for the non-exclusive use of AT&T, Sprint and any other building occupant. AT&T shall not waste or permit the waste of water.

86.3 Sprint shall furnish Building and Premises security in accordance with its normal

business practices. Other than the locks on the entrances to the Collocation Space, Sprint shall provide no security specific to AT&T's Collocation Space. Sprint shall not be liable to AT&T or any other party for loss of or damage to the Collocation Space or AT&T equipment unless Sprint has failed to provide Building and Premises security in accordance with its normal business practices.

86.4 Sprint shall furnish passenger elevator service as necessary to reach the Collocation Space or common areas to which AT&T has access pursuant to the terms of this Agreement twenty-four (24) hours a day, seven (7) days a week. Freight elevator service when used by Approved Contractors, employees or agents shall be provided in a non-discriminatory manner as reasonably determined by Sprint.

87. CO-CARRIER CROSS CONNECTION

87.1. For the term of this agreement, unless earlier terminated, Sprint shall furnish co-carrier cross-connects in compliance with 47 C.F.R. 51.323(h).

87.2 Co-carrier cross-connects ("CCXCs") are connections between AT&T and another collocated telecommunications carrier other than Sprint, and are only available when both collocation arrangements (either caged, cageless, and/or virtual) being interconnected are within the same Sprint premises, provided that the collocated equipment is also used for interconnection with Sprint and/or for access to Sprint's unbundled network elements. Sprint shall provide such CCXCs from AT&T's collocation arrangement to the collocation arrangement of another telecommunications carrier in the same Sprint premises under the terms and conditions of this Agreement. CCXC is provided at the same transmission level from AT&T to another telecommunications carrier.

- 87.2.1. Sprint will provide such CCXCs for non-adjacent collocation arrangements at the expense of AT&T per AT&T's request. Sprint will provide connections between AT&T's own non-adjacent virtual and/or physical collocation arrangements within the same central office at the expense of AT&T and provisioned per AT&T's order.
- 87.2.2. Sprint, at its sole discretion, shall permit AT&T to self-provision CCXCs to interconnect its network with that of another adjacently collocated telecommunications carrier in the same Sprint premises without application.

87.2.3. In those cases where AT&T's virtual and/or physical collocation space is adjacent in the central office, AT&T may have the option, at Sprint's sole discretion, of using AT&T's own technicians to deploy direct connections ("DCs") using either electrical or optical facilities between the collocation spaces and constructing its own dedicated cable support structure according to Sprint's technical and safety standards.

87.3 The term "Adjacent" in this Section 85 refers to collocation arrangements in the same Premises that have a common border; and is not referring to the form of Physical

Collocation as described in 47 C.F.R. 51.323(k)(3).

88. RATES

88.1 The rates for collocation are listed on Table Two.

88.2 If AT&T is the first collocator in the Sprint premises, AT&T will not be responsible for the entire cost of site preparation and security. However, ancillary charges for unique collocator requests for collocation options directly attributable to the requesting collocator will not be prorated. Examples include power arrangements, remote switch module related options and POT bay-related options.

88.3 The rates and charges in this Agreement do not include costs for any Americans with Disability Act (ADA) construction generated or caused by the physical collocation space request. If required, ADA construction will be provided on an ICB. If Sprint is required to upgrade a Premises, or portion of the Premises to comply with the ADA which arises as a direct result of AT&T's Collocation Arrangement, Sprint will prorate the total forward-looking economic cost of the upgrade, and allocate the charge to each AT&T collocated within the Premises, based on the total space utilized by each collocated CLEC. Should Sprint benefit in any way whatsoever from the ADA upgrades, it shall share in the proration of costs. Should Sprint be the sole beneficiary of an upgrade (e.g., an upgrade would have had to be made regardless of whether or not a CLEC was collocated in the Premises), Sprint shall absorb all of the costs related to such an upgrade.

88.4 Facility Modifications

88.4.1 To the extent that a modification is made for the specific benefit of any particular party, costs of modification are to be proportionately born by those who directly benefit including the ILEC. The cost is allocated using the proportion of the new space occupied to the total new space made available.

88.4.2 If a non-requesting party benefits from the modification, e.g. using the opportunity to bring their equipment or arrangement into compliance with certain standards, or making adjustments leading to improvement, then the party will be deemed to be sharing. This party will be responsible for its share of the modification costs.

88.4.3 None of the costs will be allocated to a third party that gains incidental benefit, but did not cause the modification or modify their facilities.

88.4.4 If a current user of space subsequently initiates new uses of the modified facility by other parties to avoid modification costs or if new entrants use the facility, they will share in the modification costs. The modifying party(s) may recover a proportionate share of the modification costs from parties that later are able to obtain access as a result of the modification. If measurable depreciation has occurred as a result of the modification, the subsequent party may pay a lower cost.

88.4.5 Parties requesting or joining in a modification also will be responsible for resulting costs to maintain the facility on an ongoing basis.

89. SPRINT SERVICES AND OBLIGATIONS

89.1 Sprint shall furnish air conditioning and/or other environmental controls for the area in which the Collocation Space is located in a manner consistent with those provided elsewhere in the Building. Sprint shall furnish air conditioning and/or other environmental controls for the Collocation Space based on information provided by AT&T to Sprint in its Application which AT&T hereby represents to Sprint is sufficient to allow AT&T equipment to function without risk of harm or damage to the Collocation Space, the Building or any equipment or facilities of Sprint or any other occupant of the Building. These environmental conditions shall adhere to Telcordia Network Equipment Building System (NEBS) standards GR-63-CORE Issue 2 or other mutually agreed upon standards.

89.1.1 If AT&T locates equipment or facilities in the Collocation Space which Sprint determines, in the exercise of its sole discretion, affect the temperature or other environmental conditions otherwise maintained by Sprint in the Building, Sprint reserves the right to provide and install supplementary air conditioning units or other environmental control devices in the Collocation Space, and the cost of providing, installing, operating and maintaining any such supplementary air conditioning units or other environmental control devices made necessary solely by AT&T's equipment or facilities shall be paid by AT&T to Sprint. If supplementary air conditioning units or other environmental control devices are required for more than one CLEC each CLEC will pay a pro-rata share of such costs, in proportion to the space occupied by each as compared to the total space available for collocation.

89.2 If Sprint, in the exercise of its reasonable business judgment, determines that the electricity provided to AT&T pursuant to this Section is insufficient to support the activity being carried on by AT&T in the Collocation Space, Sprint may require the installation of additional electrical circuits to provide AT&T with additional electricity and AT&T shall reimburse Sprint for any expenses incurred in making such additional electrical circuits available to AT&T's Collocation Space. AT&T shall also pay for additional electricity provided via these circuits.

89.2.1 AT&T covenants and agrees that Sprint shall not be liable or responsible to AT&T for any loss, damage or expense which AT&T may sustain or incur if either the quality or character of electrical service is changed or is no longer suitable for AT&T's requirements.

89.2.2 Pursuant to technical feasibility, commercial availability and safety limitations, Sprint will permit AT&T to request DC power in five load (5) amp increments from five load (5) amps up to forty-five (45) load amps from the Sprint BDFB. However, in accordance with industry standard fuse sizing, AT&T may request that Sprint provision DC power of seventy (70) amps or greater directly from Sprint's main power board.

The industry standard fuse size (which is a circuit breaker on the main power board) available at a Sprint main power board in all Sprint Premises is a two hundred twenty-five (225) amp circuit breaker.Sprint will revise AT&T's recurring connection power charges, in accordance with Section 80 above, to reflect a power upgrade when AT&T submits a Subsequent Application requesting an increase in the DC power cable size or the load amperage it is currently receiving from Sprint for its Collocation Space. If AT&T's existing fuses and power cables (for the A&B power feed) are not sufficient to support the additional number of load amps requested, AT&T's Sprint Certified Supplier shall perform whatever activities are necessary, which may include the installation of new/additional power cables or fuses sized per the application requirements sized proportionately to the load amps declare, to comply with the appropriate NEC, Telcordia and ANSI Standards.

89.2.3 Sprint will revise AT&T's recurring power charges based on reduced load amps or cable sizes, in accordance with Sections 80 above, to reflect a power reduction upon Sprint's receipt of the Collocation Application from AT&T, certifying the completion of the power reduction work, including the removal of any associated power cabling by AT&T's Sprint Certified Supplier.

89.2.4 If no modifications are requested other than an increase or reduction in load power, the Minor Augment fee will apply. If modifications are requested in addition to the increase or reduction of power, the Major Augment fee will apply. Sprint will bill this nonrecurring fee effective the date AT&T completes their Augment Application request and Sprint accepts the Augment Application.

89.2.5 AT&T may request that -48 DC power provisioned by AT&T's Sprint-Approved Contractor for their Collocation Space be assessed per amp, per month based upon amps declared on the Collocation Application, not fused, pursuant to the rates set forth in Exhibit B. Monthly recurring power charges will be assessed on the Space Acceptance Date or Space Ready Date, whichever is appropriate, pursuant to Sections 80 and 83 above. The monthly recurring charges for DC power shall be calculated and applied based on the amount of power AT&T requests that it be allowed to draw at a given time to a specific physical collocation arrangement in a particular Sprint Premises on AT&T's Initial Application or Subsequent Application. Sprint shall allow AT&T at AT&T's option, to order a power feed that is capable of delivering a higher DC power level but to fuse this power feed so as to allow a power level less than the feed's maximum to be drawn by AT&T and within Sprint's engineering specifications. Sprint is not required to build its central office power infrastructure to meet AT&T's forecasted DC power demand. AT&T must specify on its Initial or Subsequent Application the power level it wishes to be able to draw from Sprint's

power plant for each existing collocation arrangement or for any new collocation arrangements AT&T establishes.

- 89.2.6 Sprint, at any time and at its own expense, shall have the right to verify the accuracy of AT&T's power usage for a specific collocation arrangement in a particular Sprint Premises. If the audit results show that AT&T is exceeding its stated load by more than ten (10) percent or 5 amps from the power usage that has been requested on the application, AT&T will pay Sprint based upon the actual fused amps from the most recent audit period or for six months, whichever is less. AT&T will have ten (10) Business Days from receipt of notice of the violation to reduce the power being drawn or revise its power requirement.
- 89.2.7 Sprint shall assess AT&T a monthly recurring charge for DC power as set forth in Table Two. AT&T shall notify Sprint of any change in its DC power usage by submitting a Subsequent Collocation Application, which reflects the new DC power level desired by AT&T. The requested change in DC power usage will be reflected in AT&T's next scheduled monthly billing cycle after the augment is completed.
- 89.2.8 If AT&T desires to reduce the amount of power that it has requested from Sprint, AT&T must submit a Subsequent Application for this power reduction. The fees associated with this Subsequent Application, if any, are set forth in Table Two of this Attachment.

89.2.9 AT&T agrees to request in writing, via a complete and accurate Application, all electrical needs to power its equipment. The Application shall contain the total power needs, the date needed, and the exact location where termination of the electrical power shall occur. Actual power usage of AT&T's equipment shall not exceed the requested capacity.

89.2.10 Central office power supplied by Sprint into AT&T equipment area shall be supplied in the form of power feeders (cables) on cable racking into the designated AT&T equipment area. The power feeders (cables) shall efficiently and economically support the requested quantity and capacity of AT&T equipment. The termination location shall be as agreed by the parties.

89.2.11 Sprint shall provide power as requested by AT&T to meet AT&T's need for placement of equipment, interconnection, or provision of service.

89.2.12 Sprint power equipment supporting AT&T's equipment shall:

89.2.13 Comply with applicable industry standards (e.g., Telcordia, NEBS and IEEE) or manufacturer's equipment power requirement specifications for equipment installation, cabling practices, and physical equipment layout or at minimum, at parity with that provided for similar Sprint equipment;

89.2.14 Have redundant power feeds with physical diversity and battery back-up as required by the equipment manufacturer's specifications for AT&T equipment, or, at minimum, at parity with that provided for similar Sprint equipment;

89.2.15 Provide, upon AT&T's request and at AT&T's expense, the capability for real time access to power performance monitoring and alarm data that impacts (or potentially may impact) AT&T traffic;

89.2.16 Provide central office ground, connected to a ground electrode located within the Collocated Space, at a level above the top of AT&T equipment plus or minus 2 feet to the left or right of AT&T's final request; and

89.2.17 Provide feeder cable capacity and quantity to support the ultimate equipment layout for AT&T's equipment in accordance with AT&T's collocation request.

89.2.18 Sprint shall provide cabling that adheres to Telcordia Network Equipment Building System (NEBS) standards GR-63-CORE Issue 2;

89.2.19 Sprint shall provide Lock Out-Tag Out and other electrical safety procedures and devices in conformance with the most stringent of OSHA or industry guidelines.

89.2.20 Sprint will provide AT&T with written notification within ten (10)

business days of any scheduled AC or DC power work or related activity in the collocated facility that will or might cause an outage or any type of power disruption to AT&T equipment located in Sprint facility. Sprint shall provide AT&T immediate notification by telephone of any emergency power activity that would impact AT&T's equipment.

89.2.21 Subject to the provisions of Section 085.3.13 hereof, Sprint may furnish an existing Halon 1301 Fire Suppression System, or may, but is not obligated to, provide its equivalent, to provide fire protection in the Collocation Space designed to comply with the National Fire Protection Association ("NFPA") 12A Standard on Halon 1301 Fire Extinguishing Systems or with NFPA standard 2001 dealing with alternative fire suppression agents. Sprint shall furnish fire and smoke detection systems designed to comply with the NFPA 72E Standard on Automatic Fire Detectors in effect as of the collocation date.

89.2.22 Stand alone fire extinguishers will be provided in and about the Building and the Collocation Space by Sprint as required by applicable fire codes.

89.2.23 Sprint and Sprint's insurance carriers will perform regular inspections of fire protection systems, and AT&T hereby agrees to provide Sprint and Sprint's insurance carriers access to the Collocation Space for purposes of such inspections, via pass key or otherwise. Sprint agrees to provide AT&T with notice of its intent to access AT&T's Collocation Space where, in Sprint's sole discretion, such notice is practicable; provided, however, that no failure of Sprint to give such notice will affect Sprint's right of access or impose any liability on Sprint. Sprint will, at its expense, maintain and repair the fire and smoke detection systems unless maintenance or repair is required due to the act or omission of AT&T, its employees, agents or invitees, in which case AT&T shall reimburse Sprint for the cost of such repair or replacement. If a Halon or alternative fire suppression system is in place, AT&T shall, if at fault, and at Sprint's option, replace Halon or other fire extinguishing material discharged as a result of AT&T's act or omission. AT&T shall have no duty to inspect fire protection systems outside the Collocation Space; provided, however, if AT&T is aware of damage to the fire protection systems it shall promptly notify Sprint.

89.2.24 AT&T is aware the Collocation Space will contain a fire detection system and may contain a fire suppression system. In the event of discharge, Sprint is relieved of all liability for damage to equipment or personal injury except in cases where such damage to equipment or personal injury is due to the gross negligence or willful misconduct of Sprint, its officers, agents or employees.

89.2.25 Sprint shall, at its sole expense, except as hereinafter provided, provide repair and maintenance of heating, cooling and lighting equipment and regularly scheduled refurbishment or decorating to the Collocation Space, Building and Premises, in a manner consistent with Sprint's normal business practices.

89.2.26 Sprint shall not be obligated to inspect the Collocation Space, make any repairs or perform any maintenance unless first notified of the need in writing by AT&T. If Sprint shall fail to commence the repairs or maintenance within twenty

(20) Days after written notification, provided that the delay are not caused by AT&T, AT&T's sole right and remedy shall be, after further notice to Sprint, to make such repairs or perform such maintenance and to deduct that cost and expenses from the physical collocation fees payable; provided, however, that the amount of such deduction shall not exceed the reasonable value of such repairs or maintenance.

89.2.27 Sprint shall, where practical, provide AT&T with twenty-four (24) hours prior notice before making repairs and/or performing maintenance on the Collocation Space; provided, however, that Sprint shall have no obligation to provide such notice if Sprint determines, in the exercise of its sole discretion, that such repair or maintenance must be done sooner in order to preserve the safety of the Building or the Collocation Space, or if required to do so by any court or governmental authority. Work shall be completed during normal working hours or at other times identified by Sprint. AT&T shall pay Sprint for overtime and for any other expenses incurred if such work is done during other than normal working hours at AT&T's request. AT&T shall have the right, at its sole expense, to be present during repair or maintenance of the Collocation Space.

89.2.28 The cost of all repairs and maintenance performed by or on behalf of Sprint to the Collocation Space which are, in Sprint's reasonable judgment, beyond normal repair and maintenance, or are made necessary as a result of misuse or neglect by AT&T or AT&T's employees, invitees or agents, shall be paid by AT&T to Sprint within ten (10) Days after being billed for the repairs and maintenance by Sprint.

89.3 Sprint shall provide AT&T with notice via email three (3) Business Days prior to those instances where Sprint or its subcontractors perform work which is known to be a service affecting activity. Sprint will inform AT&T by e-mail of any unplanned service outages. Notification of any unplanned service outages shall be made as soon as practicable after Sprint learns that such outage has occurred.

89.4 Sprint reserves the right to stop any service when Sprint deems such stoppage necessary by reason of accident or emergency, or for repairs, improvements or otherwise; however, Sprint agrees to use its best efforts not to interfere with AT&T's use of Collocation Space. Sprint does not warrant that any service will be free from interruptions caused by labor controversies, accidents, inability to obtain fuel, water or supplies, governmental regulations, or other causes beyond the reasonable control of Sprint.

89.4.1 No such interruption of service shall be deemed an eviction or disturbance of AT&T's use of the Collocation Space or any part thereof, or render Sprint liable to AT&T for damages, by abatement of AT&T Fees or otherwise, except as set forth in the Tariff, or relieve AT&T from performance of its obligations under this Agreement. AT&T hereby waives and releases all other claims against Sprint for damages for interruption or stoppage of service.

89.5 For physical collocation, subject to reasonable building rules and any applicable Security Arrangements, AT&T shall have the right of entry twenty-four (24) hours per

day seven (7) days a week to the Building, common areas, Collocation Space and common cable space.

89.5.1 Sprint reserves the right to close and keep locked all entrance and exit doors of the Premises during hours Sprint may deem advisable for the adequate protection of the Premises. Use of the Premises at any time it is unattended by appropriate Sprint personnel, or on Sundays and state and federal or other holidays recognized by Sprint, or, if AT&T's Collocation Space is not fully segregated from areas of the Premises containing Sprint equipment, shall be subject to such reasonable rules and regulations as Sprint may from time to time prescribe for its own employees and its third party contractors.

89.5.2 To require all persons entering or leaving the Premises during such hours as Sprint may from time to time reasonably determine to identify themselves to a watchman by registration or otherwise and to establish their right to leave or enter, and to exclude or expel any solicitor or person at any time from the Collocation Space or the Premises. Sprint is not responsible and shall not be liable for any damage resulting from the admission or refusal to admit any unauthorized person or from the admission of any authorized person to the Premises, unless the damage is the result of gross negligence or willful misconduct on the part of Sprint.

89.6 Sprint shall have access to AT&T's Physical Collocation Space at all times, via pass key or otherwise, to allow Sprint to react to emergencies, to maintain the space (not including AT&T's equipment), and to monitor compliance with the rules and regulations of the Occupational Health and Safety Administration or Sprint, or other regulations and standards including but not limited to those related to fire, safety, health, and environmental safeguards. If a secure enclosure defining the location of AT&T's Collocation Space has been established, and if conditions permit, Sprint will provide AT&T with notice (except in emergencies) of its intent to access the Collocation Space, thereby providing AT&T the option to be present at the time of access. AT&T shall not attach, or permit to be attached, additional locks or similar devices to any door or window, nor change existing locks or the mechanism thereof.

89.6.1 To enter the Collocation Space for the purposes of examining or inspecting same and of making such repairs or alterations as Sprint deems necessary. AT&T hereby waives any claim for damage, injury, interference with AT&T's business, any loss of occupancy or quiet enjoyment of the Collocation Space, and any other loss occasioned by the exercise of Sprint's access rights, except in the event such damages result solely from the gross negligence or willful misconduct of Sprint.

89.6.2 To use any means Sprint may deem proper to open Collocation Space doors or enclosures in an emergency. Entry into the Collocation Space obtained by Sprint by any such means shall not be deemed to be forcible or unlawful entry into or a detainment of or an eviction of AT&T from the Collocation Space or any portion thereof.

90 AT&T'S OBLIGATIONS

90.1 AT&T shall regularly inspect the Collocation Space to ensure that the Collocation Space is in good condition. AT&T shall promptly notify Sprint of any damage to the Collocation Space or of the need to perform any repair or maintenance of the Collocation Space, fixtures and appurtenances (including hardware, heating, cooling, ventilating, electrical, and other mechanical facilities in the Collocation Space). AT&T shall provide regular janitorial service to its Collocation Space and keep the Collocation Space clean and trash free.

90.2 AT&T agrees to abide by all of Sprint's security practices for non-Sprint employees with access to the Building, including, without limitation:

90.2.1 AT&T must obtain non-employee photo identification cards for each AT&T employee or Approved Contractor. Temporary identification cards may otherwise be provided by Sprint for employees or agents, contractors and invitees of AT&T who may require occasional access to the Collocation Space.

90.2.2 AT&T will supply to Sprint the completed access form for employees or Approved Contractor who require access to the Premises. Sprint may reasonably deny access to any person into the building. Sprint's objections will be consistent with the grounds for denying access to personnel of its own contractors or for denying employment directly with Sprint.

90.2.3 Sprint may issue security cards, codes, or keys to AT&T's listed employees or Approved Contractor where such systems are available and their use by AT&T will not otherwise compromise building security. The rate for the issuance of security cards is listed on Table Two.

90.2.4 AT&T is responsible for returning identification and security cards, codes, or keys of its terminated employees or its employees who no longer require access to the Collocation Space. All cards, codes, or keys must be returned upon termination of the applicable Collocation Space. AT&T will reimburse Sprint actual costs due to unreturned or replacement cards, codes, or keys.

90.2.5 AT&T's employees, agents, invitees and Approved Contractors must display identification cards at all times.

90.2.6 AT&T will assist Sprint in validation and verification of identification of its employees, agents, invitees and Approved Contractors by providing a telephone contact available twenty-four (24) hours a day, seven (7) days a week to verify identification.

90.2.7 Removal of all furniture, equipment or similar articles will be based on local Sprint security practices. These security practices will not be more stringent for AT&T than Sprint requires for its own employees or Sprint's contractors.

90.2.8 Before leaving the Collocation Space unattended, AT&T shall close and securely lock all doors and windows and shut off unnecessary equipment in the Collocation Space. Any injury to persons or damage to the property of Sprint or any other party with equipment in the Building resulting from AT&T's failure to do so shall be the responsibility of AT&T. AT&T will defend and indemnify

Sprint from and against any claim by any person or entity resulting in whole or in part from AT&T's failure to comply with this section.

90.2.9 AT&T agrees that Sprint may provide a security escort for physical collocation, at no cost or undue delay to AT&T, to AT&T personnel while on Sprint Premises. While such escort shall not be a requirement to AT&T's entry into the Building, AT&T must allow the security escort to accompany AT&T personnel at all times and in all areas of the Building, including the Collocation Space, if so requested.

90.2.10 AT&T shall post in a prominent location visible from the common Building area, the names and telephone numbers of emergency contact personnel along with names and telephone numbers of their superiors for 24-hour emergency use by Sprint. AT&T shall promptly update this information as changes occur.

90.3 AT&T will provide Sprint with written notification within ten (10) business days of any scheduled AC or DC power work or related activity in the collocated facility that will or might cause an outage or any type of power disruption to Sprint equipment located in AT&T's facility. AT&T shall provide Sprint immediate notification by telephone of any emergency power activity that would impact Sprint equipment.

90.4 AT&T shall not provision and/or install Uninterruptible Power Supply ("UPS") systems within the Sprint premises. The customer is permitted to install Inverted Power Systems if and only if documented compliance with National Equipment Building Standards (NEBS) III and Listing by Underwriters Laboratory (UL) has been met.

90.5 AT&T shall not place Electro-Chemical Storage Batteries of any type inside the collocation space.

90.6 AT&T shall provide Sprint with written notice three (3) Business Days prior to those instances where AT&T or its Approved Contractors perform work, which is to be a known service affecting activity. AT&T will inform Sprint by e-mail of any unplanned service outages. The parties will then agree upon a plan to manage the outage so as to minimize customer interruption. Notification of any unplanned service outage shall be made as soon as practicable after AT&T learns that such outage has occurred so that Sprint can take any action required to monitor or protect its service.

90.7 AT&T may, at its own expense, install and maintain regular business telephone service in the Collocation Space. If requested by AT&T and at AT&T's expense, Sprint will provide basic telephone service with a connection jack in the Collocation Space.

90.8 AT&T shall, with the prior written consent of Sprint, have the right to provide additional fire protection systems within the Collocation Space; provided, however, that AT&T may not install or use sprinklers or carbon dioxide fire suppression systems within the Building or the Collocation Space.

90.8.1 If any governmental bureau, department or organization or Sprint's insurance carrier requires that changes or modifications be made to the fire protection system or that additional stand alone fire extinguishing, detection or

protection devices be supplied within that portion of the Building in which the Collocation Space of AT&Ts in general are located, such changes, modifications, or additions shall be made by Sprint and AT&T shall reimburse Sprint for the cost thereof in the same proportion as the size of the AT&T's Collocation Space as compared to the total available collocation space in the affected portion of the Building.

90.9 AT&T shall identify and shall notify Sprint in writing of any Hazardous Materials AT&T may bring onto the Premises, and will provide Sprint copies of any inventories or other data provided to State Emergency Response Commissions ("SERCs"), Local Emergency Planning Committees ("LEPCs"), or any other governmental agencies if required by the Emergency Planning and Community Right to Know Act (41 U.S.C. 11001, *et seq.*). AT&T, its agents and employees shall transport, store and dispose of Hazardous Materials in accordance with all applicable federal, state or local laws, ordinances, rules and regulations. AT&T will promptly notify Sprint of any releases of Hazardous Materials and will copy Sprint on any notification of or correspondence with any governmental agency which may be required by any environmental law as a result of such release.

90.9.10 AT&T shall provide Sprint copies of all Material Safety Data Sheets ("MSDSs") for materials or chemicals regulated under the OSHA Hazard Communication Standard (29 C.F.R. 1910.1200) that are brought onto the property. All such materials shall be labeled in accordance with 29 C.F.R. 1910.1200 and applicable state regulations if such regulations are more stringent.

90.9.11 If Sprint discovers that AT&T has brought onto Sprint's Premises Hazardous Materials without notification, or is storing or disposing of such materials in violation of any applicable environmental law, Sprint may, at Sprint's option and without penalty, terminate the applicable Collocation Space or, in the case of pervasive violation, this Agreement or suspend performance hereunder. AT&T shall be responsible for, without cost to Sprint, the complete remediation of any releases or other conditions caused by its storage, use or disposal of Hazardous Materials. AT&T shall also be responsible for removing and disposing of all Hazardous Materials on its Collocation Space at the termination of the applicable Collocation Space or this Agreement. If Sprint elects to terminate the applicable Collocation Space or this Agreement or discontinue the performance of services hereunder due to the storage, use or disposal of Hazardous Materials contrary to the terms of this Agreement, AT&T shall have no recourse against Sprint and shall be responsible for all costs and expenses associated with such termination or suspension of service in addition to being responsible for any remedies available to Sprint for defaults under this Agreement.

90.9.12 AT&T shall indemnify and hold harmless Sprint, its successors and assigns against, and in respect of, any and all damages, claims, losses, liabilities and expenses, including, without limitation, all legal, accounting, consulting, engineering and other expenses, which may be imposed upon, or incurred by, Sprint or asserted against Sprint by any other party or parties (including, without

limitation, Sprint's employees and/or contractors and any governmental entity) arising out of, or in connection with, AT&T's use, storage or disposal of Hazardous Materials.

90.9.13 For purposes of this Section, "Hazardous Materials" shall mean any toxic substances and/or hazardous materials or hazardous wastes (including, without limitation, asbestos) as defined in, or pursuant to, the OSHA Hazard Communication Standard (29 C.F.R. Part 1910, Subpart Z), the Resource Conservation and Recovery Act of 1976 (42 U.S.C. Section 6901, et seq.), or regulations adopted pursuant to those statutes, the Toxic Substances Control Act (15 U.S.C. Section 2601, et seq.), the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. Section 9601, et seq.) or any other federal, state or local environmental law, ordinance, rule or regulation. The provisions of this Section shall survive the termination, cancellation, modification or recession of this Agreement.

90.10 AT&T shall not do or permit anything to be done upon the Collocation Space, or bring or keep anything thereon which is in violation of any federal, state or local laws or regulations (including environmental laws or regulations not previously described), or any rules, regulations or requirements of the local fire department, Fire Insurance Rating Organization, or any other similar authority having jurisdiction over the Building. AT&T shall not do or permit anything to be done upon the Collocation Space which may in any way create a nuisance, disturb, endanger, or otherwise interfere with the Telecommunications Services of Sprint, any other occupant of the Building, their patrons or customers, or the occupants of neighboring property, or injure the reputation of the Premises.

90.10.1 AT&T shall not exceed the Uniformly Distributed Live Load Capacity. Sprint shall evaluate and determine Live Load Capacity rating on a site specific basis prior to equipment installation. AT&T agrees to provide Sprint with equipment profile information prior to installation authorization.

90.10.2 AT&T shall not paint, display, inscribe or affix any sign, trademark, picture, advertising, notice, lettering or direction on any part of the outside or inside of the Building, or on the Collocation Space, without the prior written consent of Sprint.

90.10.3 AT&T shall not use the name of the Building or Sprint for any purpose other than that of the business address of AT&T, or use any picture or likeness of the Building on any letterhead, envelope, circular, notice, or advertisement, without the prior written consent of Sprint.

90.10.4 AT&T shall not exhibit, sell or offer for sale, rent or exchange in the Collocation Space or on the Premises any article, thing or service except those ordinarily embraced within the use of the Collocation Space specified in Sections 3 and 11 of this Agreement without the prior written consent of Sprint.

90.10.5 AT&T shall not place anything or allow anything to be placed near the glass of any door, partition or window which Sprint determines is unsightly

from outside the Collocation Space; take or permit to be taken in or out of other entrances of the Building, or take or permit to be taken on any passenger elevators, any item normally taken through service entrances or elevators; or whether temporarily, accidentally, or otherwise, allow anything to remain in, place or store anything in, or obstruct in any way, any passageway, exit, stairway, elevator, or shipping platform. AT&T shall lend its full cooperation to keep such areas free from all obstruction and in a clean and neat condition, move all supplies, furniture and equipment directly to the Collocation Space as soon as received, and move all such items and waste, other than waste customarily removed by employees of the Building.

90.10.6 AT&T shall not, without the prior written consent of Sprint install or operate any lead-acid batteries, refrigerating, heating or air conditioning apparatus or carry on any mechanical business in the Collocation Space. Sprint may, in its sole discretion, withhold such consent, or impose any condition in granting it, and revoke its consent at will.

90.10.7 AT&T shall not use the Collocation Space for housing, lodging or sleeping purposes.

90.10.8 AT&T shall not permit preparation or warming of food, presence of cooking or vending equipment, sale of food or smoking in the Collocation Space.

90.10.9 AT&T shall not permit the use of any fermented, intoxicating or alcoholic liquors or substances in the Collocation Space or permit the presence of any animals except those used by the visually impaired.

90.11 AT&T, its employees, agents, contractors, and business invitees shall:

90.11.1 comply with all rules and regulations which Sprint may from time to time adopt for the safety, environmental protection, care, cleanliness and/or preservation of the good order of the Building, the Premises and the Collocation Space and its tenants and occupants, and

90.11.2 comply, at its own expense, with all ordinances which are applicable to the Collocation Space and with all lawful orders and requirements of any regulatory or law enforcement agency requiring the correction, prevention and abatement of nuisances in or upon the Collocation Space during the Term of this Agreement or any extension hereof.

90.12 AT&T shall not make installations, alterations or additions in or to the Collocation Space without submitting plans and specifications to Sprint and securing the prior written consent of Sprint in each instance. Sprint's consent shall not be unreasonably withheld or unduly delayed for non-structural interior alteration to the Collocation Space that do not adversely affect the Building's appearance, value, structural strength and mechanical integrity. Such work shall be done at the sole expense of AT&T.

90.12.1 All installations, alterations and additions shall be constructed in a good and workmanlike manner and only new and good grades of material shall be

used, and shall comply with all insurance requirements, governmental requirements, and terms of this Agreement. Work shall be performed at such times and in such manner as to cause a minimum of interference with Sprint's transaction of business. AT&T shall permit Sprint to inspect all construction operations within the Collocation Space.

90.12.2 All installations, alterations and additions which take the form of fixtures, except trade fixtures, placed in the Collocation Space by and at the expense of AT&T or others shall become the property of Sprint, and shall remain upon and be surrendered with the Collocation Space. Upon termination of this Agreement, however, Sprint shall have the right to require AT&T to remove such fixtures and installations, alterations or additions at AT&T's expense, and to surrender the Collocation Space in the same condition as it was prior to the making of any or all such improvements, reasonable wear and tear excepted.

90.12.3 All fixtures and other equipment to be used by AT&T in, about or upon the Collocation Space shall be subject to the prior written approval of Sprint, which shall not be unreasonably withheld.

90.12.4 AT&T shall not cut or drill into, drive nails or screws into, install conduit or wires, or in any way deface any part of the Collocation Space or the Building, outside or inside, without the prior written consent of Sprint. If AT&T desires signal, communications, alarm or other utility or service connections installed or changed, the same shall be made by and at the expense of AT&T. Sprint shall have the right of prior approval of such utility or service connections, and shall direct where and how all connections and wiring for such service shall be introduced and run. In all cases, in order to maintain the integrity of the Halon space for proper Halon concentration, and to ensure compliance with Sprint's fireproofing policy, any penetrations by AT&T, whether in the Collocation Space, the Building or otherwise, shall be sealed as quickly as possible by AT&T with Sprint-approved fire barrier sealants, or by Sprint at AT&T's cost.

90.12.5 AT&T equipment shall be connected to Sprint's grounding system.

90.12.6 AT&T hereby represents and warrants that the information provided to Sprint in any Application or other documentation relative to AT&T's request for telecommunications facility interconnection and Central Office Building collocation as contemplated in this Agreement is and shall be true and correct, and that AT&T has all necessary corporate and regulatory authority to conduct business as a telecommunications carrier. Any violation of this Section shall be deemed a material breach of this Agreement.

91. BUILDING RIGHTS

91.1 Sprint may, without notice to AT&T:

91.1.1 Change the name or street address of the Premises;

91.1.2 Install and maintain signs on the exterior and interior of the Premises or

anywhere on the Premises;

91.1.3 Designate all sources furnishing sign painting and lettering, ice, mineral or drinking water, beverages, foods, towels, vending machines or toilet supplies used or consumed in the Collocation Space;

91.1.4 Have pass keys or access cards with which to unlock all doors in the Collocation Space, excluding AT&T's safes;

91.1.5 Reduce heat, light, water and power as required by any mandatory or voluntary conservation programs;

91.1.6 Approve the weight, size and location of safes, computers and all other heavy articles in and about the Collocation Space and the Building, and to require all such items and other office furniture and equipment to be moved in and out of the Building or Collocation Space only at such times and in such a manner as Sprint shall direct and in all events at AT&T's sole risk and responsibility;

91.1.7 At any time, to decorate and to make, at its own expense, repairs, alterations, additions and improvements, structural or otherwise, in or to the Collocation Space, the Premises, or any part thereof (including, without limitation, the permanent or temporary relocation of any existing facilities such as parking lots or spaces), and to perform any acts related to the safety, protection or preservation thereof, and during such operations to take into and through the Collocation Space or any part of the Premises all material and equipment required, and to close or suspend temporarily operation of entrances, doors, corridors, elevators or other facilities. Sprint shall limit inconvenience or annoyance to AT&T as reasonably possible under the circumstances;

91.1.8 Do or permit to be done any work in or about the Collocation Space or the Premises or any adjacent or nearby building, land, street or alley;

91.1.9 Grant to anyone the exclusive right to conduct any business or render any service on the Premises, provided such exclusive right shall not operate to exclude AT&T from the use expressly permitted by this Agreement, unless Sprint exercises its right to terminate this Agreement with respect to all or a portion of the Collocation Space;

91.1.10 Close the Building at such reasonable times as Sprint may determine, under such reasonable regulations as shall be prescribed from time to time by Sprint subject to AT&T's right to access.

91.2 If the owner of the Building or Sprint sells, transfers or assigns any interest in the Building, or there is any material change in the Lease to which the Building is subject, and such sale, transfers assignment or material change in the Lease gives rise to an obligation which is inconsistent with this Agreement, Sprint's performance under this Agreement shall be excused to the extent of the inconsistency. Sprint hereby agrees that it will use its reasonable efforts to avoid any such inconsistency; provided, however, that this obligation shall in no way obligate Sprint to incur any out of pocket expenses in its efforts to avoid such inconsistencies.

91.3 This Agreement shall at all times be subject and subordinate to the lien of any mortgage (which term shall include all security instruments) that may be placed on the Collocation Space and AT&T agrees, upon demand, to execute any instrument as may be required to effectuate such subordination.

92. INSURANCE

92.1 During the term of this Agreement, AT&T shall carry, and shall cause any subcontractors to carry, with financially reputable insurers which are licensed to do business in all jurisdictions where any Property is located, not less than the following insurance:

92.1.1 Commercial General Liability with limits of not less than \$1,000,000 combined single limit per occurrence and aggregate for bodily injury, property damage and personal and advertising injury liability insurance to include coverage for contractual and products/completed operations liability, naming Sprint as additional insured;

92.1.2 Business Auto liability, including all owned, non-owned and hired automobiles, in an amount of not less than \$1,000,000 combined single limit per accident for bodily injury and property damage liability, naming Sprint as additional insured;

92.1.3 Workers Compensation as provided for in the jurisdiction where the Property is located, with an Employer's Liability limit of not less than \$500,000 per accident or disease; and

92.1.4 Umbrella or excess liability in an amount not less than \$5,000,000 per occurrence and aggregate in excess of the above-referenced Commercial General, Business Auto and Employer's Liability, naming Sprint as additional insured; and

92.1.5 "All Risk" property insurance on a full replacement cost basis insuring AT&T's property situated on or within the Property, naming Sprint as loss payee. AT&T may elect to insure business interruption and contingent business interruption, as it is agreed that Sprint has no liability for loss of profit or revenues should an interruption of service occur.

92.2 Nothing contained in this Section shall limit AT&T's liability to Sprint to the limits of insurance certified or carried.

92.3 All policies required of the AT&T shall contain evidence of the insurer's waiver of the right of subrogation against Sprint for any insured loss covered thereunder. All policies of insurance shall be written as primary policies and not contributing with or in excess of the coverage, if any, that Sprint may carry.

92.4 AT&T shall furnish to Sprint a certificate or certificates of insurance, satisfactory in form and content to Sprint, evidencing that the above coverage is in force and has been endorsed to guarantee that the coverage will not be cancelled or materially altered without first giving at least 30 days prior written notice to Sprint.

92.5 Sprint will carry not less than the insurance coverages and limits required of AT&T.

93 INDEMNIFICATION

93.1 AT&T shall indemnify and hold Sprint harmless from any and all claims arising from:

93.1.1 AT&T's use of the Collocation Space;

93.1.2 the conduct of AT&T's business or from any activity, work or things done, permitted or suffered by AT&T in or about the Collocation Space or elsewhere;

93.1.3 any and all claims arising from any breach or default in the performance of any obligation on AT&T's part to be performed under the terms of this Agreement; and

93.1.4 any negligence of AT&T, or any of AT&T's agents, and fees, expenses and liabilities incurred in the defense of any such claim or any action or proceeding brought thereon.

93.2 If any action or proceeding is brought against Sprint by reason of any such claim, AT&T, upon notice from Sprint, shall defend same at AT&T's expense employing counsel satisfactory to Sprint. AT&T, as a material part of the consideration to Sprint, hereby assumes all risk of damage to property or injury to persons in, upon or about the Collocation Space arising from any cause other than the sole negligence of Sprint, and AT&T hereby waives all claims in respect thereof against Sprint.

93.3 AT&T shall at all times indemnify, defend, save and hold harmless Sprint from any claims, liens, demands, charges, encumbrances, litigation and judgments arising directly or indirectly out of any use, occupancy or activity of AT&T, or out of any work performed, material furnished, or obligations incurred by AT&T in, upon or otherwise in

connection with the Collocation Space. AT&T shall give Sprint written notice at least ten (10) Business Days prior to the commencement of any such work on the Collocation Space in order to afford Sprint the opportunity of filing appropriate notices of nonresponsibility. However, failure by Sprint to give notice does not reduce AT&T's liability under this Section.

93.3.1 If any claim or lien is filed against the Collocation Space, or any action or proceeding is instituted affecting the title to the Collocation Space, AT&T shall give Sprint written notice thereof as soon as AT&T obtains such knowledge.

93.3.2 AT&T shall, at its expense, within thirty (30) Days after filing of any lien of record, obtain the discharge and release thereof or post a bond in an amount sufficient to accomplish such discharge and release. Nothing contained herein shall prevent Sprint, at the cost and for the account of AT&T, from obtaining such discharge and release if AT&T fails or refuses to do the same within the thirty-day period.

93.3.3 If AT&T has first discharged the lien as provided by law, AT&T may, at AT&T's expense, contest any mechanic's lien in any manner permitted by law.

94 LIMITATION OF LIABILITY

94.1 SPRINT SHALL BE LIABLE FOR DAMAGE TO OR DESTRUCTION OF AT&T'S EQUIPMENT AND OTHER PREMISES ONLY IF SUCH DAMAGE OR DESTRUCTION IS CAUSED BY SPRINT'S SOLE NEGLIGENCE OR WILLFUL MISCONDUCT.

94.2 SPRINT WILL NOT BE LIABLE FOR (A) ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, (B) ANY COMMERCIAL LOSS OF ANY KIND (INCLUDING, BUT NOT LIMITED TO, LOSS OF BUSINESS OR PROFITS), OR (C) ANY LOSS, DAMAGE OR EXPENSE DIRECTLY OR INDIRECTLY ARISING FROM USE OF OR INABILITY TO USE THE COLLOCATION SPACE EITHER SEPARATELY OR IN COMBINATION WITH OTHER EQUIPMENT OR SOFTWARE, BASED UPON BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, STRICT TORT OR ANY OTHER LEGAL THEORY, WHETHER OR NOT SPRINT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE OR LOSS.

95 PARTIAL DESTRUCTION

95.1 If the Collocation Space or a portion thereof sufficient to make the Collocation Space substantially unusable shall be destroyed or rendered unoccupiable by fire or other casualty, Sprint may, at its option, restore the Collocation Space to its previous condition. AT&T's rights to the applicable Collocation Space shall not terminate unless, within ninety (90) Days after the occurrence of such casualty, Sprint notifies AT&T of its election to terminate AT&T's rights to the applicable Collocation Space. If Sprint does not elect to terminate AT&T's rights to the applicable Collocation Space, Sprint shall repair the damage to the Collocation Space caused by such casualty.

95.2 Notwithstanding any other provision of this Agreement to the contrary, if any casualty is the result of any act, omission or negligence of AT&T, its agents, employees, contractors, AT&Ts, customers or business invitees, unless Sprint otherwise elects, AT&T's rights to the applicable Collocation Space shall not terminate, and, if Sprint elects to make such repairs, AT&T shall reimburse Sprint for the cost of such repairs, or AT&T shall repair such damage, including damage to the Building and the area surrounding it, and the License Fee shall not abate.

95.3 If the Building shall be damaged by fire or other casualty to the extent that portions

are rendered unoccupiable, notwithstanding that the Collocation Space may be directly unaffected, Sprint may, at its election within ninety (90) Days of such casualty, terminate AT&T's rights to the applicable Collocation Space by giving written notice of its intent to terminate AT&T's rights to the applicable Collocation Space. The termination as provided in this paragraph shall be effective thirty (30) Days after the date of the notice.

96 EMINENT DOMAIN

96.1 If the Premises, or any portion thereof which includes a substantial part of the Collocation Space, shall be taken or condemned by any competent authority for any public use or purpose, AT&T's rights to the applicable Collocation Space shall end upon, and not before, the date when the possession of the part so taken shall be required for such use or purpose. If any condemnation proceeding shall be instituted in which it is sought to take or damage any part of the Premises, or if the grade of any street or alley adjacent to the Premises is changed by any competent authority and such change of grade makes it necessary or desirable to remodel the Premises to conform to the changed grade, Sprint shall have the right to terminate AT&T's rights to the applicable Collocation Space upon not less than 30 days notice prior to the date of cancellation designated in the notice. No money or other consideration shall be payable by Sprint to AT&T for such cancellation, and AT&T shall have no right to share in the condemnation award or in any judgment for damages caused by such eminent domain proceedings.

97 BANKRUPTCY

97.1 If any voluntary or involuntary petition or similar pleading under any section or sections of any bankruptcy act shall be filed by or against AT&T, or any voluntary or involuntary proceeding in any court or tribunal shall be instituted to declare AT&T insolvent or unable to pay AT&T's debts, or AT&T makes an assignment for the benefit of its creditors, or a trustee or receiver is appointed for AT&T or for the major part of AT&T's property, Sprint may, if Sprint so elects but not otherwise, and with or without notice of such election or other action by Sprint, forthwith terminate this Agreement.

98 ASBESTOS

98.1 AT&T is aware the Premises in which the Collocation Space is located may contain or have contained asbestos or asbestos containing building materials, and AT&T is hereby notified that the Premises in which the Collocation Space is located may contain asbestos or asbestos containing building material (ACBM). AT&T agrees that it is responsible for contacting the appropriate Sprint manager responsible for the Premises to determine the presence, location and quantity of asbestos or ACBM that AT&T's employees, agents, or contractors may reasonably expect to encounter while performing activities in the Premises. AT&T shall not have responsibility or liability for any damages, expenses, costs, fees, penalties of any kind arising out of, or in connection with, or resulting from the disturbance of asbestos or ACBM in the Premises unless such disturbance arises out of or in connection with, or results from AT&T's use of the Collocation Space or placement of equipment onto ACBM or into areas containing asbestos identified by Sprint. Sprint agrees to provide AT&T reasonable notice prior to undertaking any asbestos control, abatement, or other activities which may disturb asbestos or ACBM that could potentially affect AT&T's equipment or operations in the Collocation Space, including but not limited to the contamination of such equipment. Sprint will not have responsibility or liability for any damages, expenses, costs, fees, penalties of any kind arising out of, or in connection with the presence of asbestos in Sprint Premises.

99 MISCELLANEOUS

99.1 AT&T warrants that it has had no dealings with any broker or agent in connection with this Agreement, and covenants to pay, hold harmless and indemnify Sprint from and against any and all cost, expense or liability for any compensation, commissions and charges claimed by any broker or agent with respect to this Agreement or the negotiation thereof.

99.2 Submission of this instrument for examination or signature by Sprint does not constitute a reservation of or option for license, and it is not effective, as a license or otherwise, until execution and delivery by both Sprint and AT&T.

99.3 Neither Sprint nor its agents have made any representation or warranties with respect to the Collocation Space of this Agreement except as expressly set forth herein; no rights, easements, or licenses shall be acquired by AT&T by implication or otherwise unless expressly set forth herein.

99.4 In the event of work stoppages, Sprint may establish separate entrances for use by personnel of AT&T. AT&T shall comply with any emergency operating procedures established by Sprint to deal with work stoppages.

99.5 The individuals executing this Agreement on behalf of AT&T represent and warrant to Sprint they are fully authorized and legally capable of executing this Agreement on behalf of AT&T.

		LOOP CONDITIONING	MRC 1	NRC
	LC001	Load Coll Removal for all Digital UNE and xDSL-Capable loops that are less than 18,000 feet in length - per line conditioned (No Engineering or Trip charges - price reflects 25 pair economies)		\$0.00
	LC002	Conditioning Engineering Charge per loop		\$39.11
	LC002	Conditioning Engineering Charge - per loop Conditioning Trip Charge - per loop		
	20003			\$16.41
		The following charges apply to all loops of any length that require Bridged Tap or Repeater removal.		
		Load Coll Removal: Loops 18kft or longer		······································
	LC004	Unload cable pair, per Underground location		\$445.21
	LC005	Unload Addt'i cable pair, UG same time, same location and cable		\$3.43
	LC006	Unload cable pair, per Aerial or Buried Location		\$7.80
	LC007	Unload Addt'I cable pair, AE or BU, same time, location and cable		\$1.80
		Bridged Tap or Repeater Removal - Any Loop Length		
	LC012	Remove Bridged Tap or Repeater, per Underground Location		\$442.28
	LC013	Remove each Addt'l Bridged Tap or Repeater, UG same time, location and cable		\$0.50
	LC014	Remove Bridged Tap or Repeater, per Aerial or Buried Location		\$6.43
	LC015	Remove each Addt'l Bridged Tap or Repeater, AE or BU same time, location and cable		\$0,4
		SUB LOOPS (RATES INCLUDE NID CHARGE)	MRG	NRC
		Sub-Loops Interconnection (Stub Cable)		
		2 Wire Voice Grade and Digital Data Distribution		· · · · · · · · · · · · · · · · · · ·
SB002		Band 1	\$4.97	
SB002		Band 2	\$4.97 \$7.58

	SB015	Disconnect		\$63.31
		DEDICATED INTEROFFICE TRANSPORT	MRC	NRC
			Refer to Dedicated Transport	
DT2	DT004	DS1	Tab	\$182.15
	DT005	DS1 Disconnect		\$20.36
073	DT007	DS3	Refer to Dedicated Transport Tab	\$192.85
DT3	DT007	DS3 Disconnect		\$192.85
	01000			
,		T MULTIPLEXING	MRC	NRC
DT023	DT019	Multiplexing - DS1-DS0 (per DS1) - (Shelf only, rate does not include cards)	\$162.48	\$93.62
01020	DT020	DS1-DS0 Disconnect	<u> </u>	\$12.95
DT024	DT021	Multiplexing - DS3-DS1 (per DS3)	\$195.77	\$119.88
	DT022	DS3-DS1 Disconnect		\$43.38
		UNBUNDLED DARK FIBER	MRC	NRC
	DF007	Dark Fiber Application & Quote Preparation Charge		\$270.47
		Note: These elements are calculated and billed manually using one price per USOC and COS. Detail is provided by the DFA form returned to the customer.		
		Transport		
DF009		Interoffice, per foot per fiber - Statewide Average	\$0.0039	
		Additional Charges Applicable to Transport		
DF011		Fiber Patch Cord, per fiber	\$0.82	
DF012		Fiber Patch Panel, per fiber	\$0.79	
<u> </u>	DF001	Initial Patch Cord Installation / Disconnect, Field Location		\$22.92
	DF002	Addt'l Patch Cord Installation / Disconnect, Field Loc., Same Time/Location		\$7.64
	DF003	Central Office Interconnection, 1-4 Patch Cords per CO - Install or Disconnect		\$193.55
	OC011	Dark Fiber End-to-End Testing, Initial Strand		\$53.48
	OC012	Dark Fiber End-to-End Testing, Subsequent Strand		\$15.28
		EEL COMBINATIONS	MRC	NRC
		Enhanced Extended Link (EEL) is a combination of Loop, Transport and Multiplexing (when applicable). Refer to the specific UNE section (transport, loop, multiplexing) in this document to obtain pricing for each specific element.		
		See Rate Element / Service Order / Installation/Repair Center section of this price sheet for EEL Conversion Charges.

# All other Sprint Wire Centers are currently considered Tier 3 Wire Centers for UNE Dedicated Transport

- 75.3.11 Sprint agrees to include critical contact information pertaining to AT&T in the "Information Pages" of those of its White Pages directories containing information pages, if AT&T meets criteria established by its directory publisher. Critical contact information includes AT&T's business office number, repair number, billing information number, and any other information required to comply with applicable regulations, but not advertising or purely promotional material. AT&T will not be charged for inclusion of its critical contact information. The format, content and appearance of AT&T's critical contact information will conform to applicable Sprint directory publisher's guidelines and will be consistent with the format, content and appearance of critical contact information pertaining to all CLECs in a directory.
- 75.3.12Sprint will accord AT&T customer listing information the same level of confidentiality that Sprint accords its own proprietary customer listing information. Sprint shall ensure that access to AT&T customer proprietary listing information will be limited solely to those of Sprint and Sprint's directory publisher's employees, agents and contractors that are directly involved in the preparation of listings, the production and distribution of directories, and the sale of directory advertising. Sprint will advise its own employees, agents and contractors and its directory publisher of the existence of this confidentiality obligation and will take appropriate measures to ensure their compliance with this obligation. Notwithstanding any provision herein to the contrary, the furnishing of White Pages proofs to AT&T that contains customer listings of both Sprint and AT&T will not be deemed a violation of this confidentiality provision.
- 75.3.13Sprint will sell or license AT&T's customer listing information to any third parties unless AT&T submits written requests that Sprint refrain from doing so. Sprint and AT&T will work cooperatively to share any payments for the sale or license of AT&T customer listing information to third parties. Any payments due to AT&T for its customer listing information will be net of administrative expenses incurred by Sprint in providing such information to third parties. The parties acknowledge that the release of AT&T's customer listing to Sprint's directory publisher will not constitute the sale or license of AT&T's customer listing information causing any payment obligation to arise pursuant to this Section 75.3.13.
- 75.4 Other Directory Services. Sprint will exercise reasonable efforts to cause its directory publisher to enter into a separate agreement with AT&T which will address other directory services desired by AT&T as described in this Section 75.4. Both parties acknowledge that Sprint's directory publisher is not a party to this Agreement and that the provisions contained in this Section 75.4 are not binding upon Sprint's directory publisher.
  - 75.4.3 Sprint's directory publisher will negotiate with AT&T concerning the provision of a basic Yellow Pages listing to AT&T customers located

within the geographic scope of publisher's Yellow Pages directories and distribution of Yellow Pages directories to AT&T customers.

75.4.4 Directory advertising will be offered to AT&T customers on a nondiscriminatory basis and subject to the same terms and conditions that such advertising is offered to Sprint and other AT&T customers. Directory advertising will be billed to AT&T customers by directory publisher.

- 75.4.5 Directory publisher will use commercially reasonable efforts to ensure that directory advertising purchased by customers who switch their service to AT&T is maintained without interruption.
- 75.4.6 Information pages, in addition to any information page or portion of an information page containing critical contact information as described above in Section 75.3.11 may be purchased from Sprint's directory publisher, subject to applicable directory publisher guidelines, criteria, and regulatory requirements.
- 75.4.7 Directory publisher maintains full authority as publisher over its publishing policies, standards and practices, including decisions regarding directory coverage area, directory issue period, compilation, headings, covers, design, content or format of directories, and directory advertising sales.
- 75.5 Directory Assistance Data. This Section refers to the residential, business, and government subscriber records used by Sprint to create and maintain databases for the provision of live or automated operator assisted Directory Assistance. Directory Assistance Data is information that enables telephone exchange CLECs to swiftly and accurately respond to requests for directory information, including, but not limited to name, address and phone numbers. Under the provisions of the Act and the FCC's Interconnection order, Sprint shall provide unbundled and non-discriminatory access to the residential, business and government subscriber records used by Sprint to create and maintain databases for the provision of live or automated operator assisted Directory Assistance. This access shall be provided under separate contract.
- 75.6 Systems Interfaces and Exchanges
  - 75.6.3 Directory Assistance Data Information Exchanges and Interfaces
    - 75.6.3.1 Subscriber List Information
    - 75.6.3.2 Sprint shall provide to AT&T, at AT&T's request, all published Subscriber List Information (including such information that resides in Sprint's master subscriber system/accounts master file for the purpose of publishing directories in any format as specified by the Act) via an electronic data transfer medium and in a mutually agreed to format, on the same terms and conditions and at the same rates

that the Sprint provides Subscriber List Information to itself or to other third parties. All changes to the Subscriber List Information shall be provided to AT&T pursuant to a mutually agreed format and schedule. Both the initial List and all subsequent Lists shall indicate for each subscriber whether the subscriber is classified as residence or business class of service.

75.6.3.3 AT&T shall provide directory listings to Sprint pursuant to the directory listing and delivery requirements in the approved OBF format, at a mutually agreed upon timeframe. Other formats and requirements shall not be used unless mutually agreed to by the parties.

#### 75.7 Listing Types

LISTED	The listing information is available for all directory requirements.
NON-LISTED	The listing information is available to all directory requirements, but the information does not appear in the published street directory.
NON-PUBLISHED	A directory service may confirm, by name and address, the presence of a listing, but the telephone number is not available. The listing information is not available in either the published directory or directory assistance.

### PART K - REPORTING STANDARDS

#### 76 GENERAL

76.1 Sprint shall satisfy all service standards, intervals, measurements, specifications, performance requirements, technical requirements, and performance standards and will pay any penalties for violation of the performance standards that are required by law or regulation. In addition, Sprint's performance under this agreement shall be provided to AT&T at parity with the performance Sprint provides itself for like service(s).

#### PART L – COLLOCATION

#### 77 SCOPE OF COLLOCATION TERMS

77.1 Sprint will provide Collocation to AT&T in accordance with this Agreement for the purposes of Interconnection to Sprint pursuant to the Act (including 47 U.S.C. § 251(c)(2)) and for obtaining access to Sprint's UNEs pursuant to the Act (including 47 U.S.C. § 251(c)(3)). Collocation shall be provided on a nondiscriminatory basis, on a "first-come, first-served" basis, and otherwise in accordance with the requirements of the Act (including 47 U.S.C. § 251(c)(6)).

77.2Prices and fees for collocation and other services under this Agreement are contained in Table Two.

77.3 This Agreement states the general terms and conditions upon which Sprint will grant to AT&T the non-exclusive right to gain access to and occupy the Collocation Space, and other associated facilities as may be necessary, for the sole and exclusive purpose of providing telecommunications service upon submission of an approved and provisioned Application for collocation service. Such service will be provided by installing, maintaining and operating AT&T's equipment, which will interconnect with Telecommunications Services and facilities provided by Sprint or others in accordance with this Agreement.

77.4 AT&T will be responsible for construction of the collocation arrangement using Sprint approved contractors ("Approved Contractor") to perform the collocation work. AT&T must contract directly with an Approved Contractor for the construction of its portion of the arrangement.

#### 77.5 Termination of collocation space

77.6 AT&T may terminate occupancy in a particular Collocation Space upon thirty (30) Days prior written notice to Sprint. Upon termination of such occupancy, AT&T at its expense shall remove its equipment and other property from the Collocation Space. AT&T shall have thirty (30) Days from the termination date to complete such removal, including the removal of all equipment and facilities of AT&T's Guests; provided, however, that AT&T shall continue payment of monthly fees to Sprint until such date as AT&T has fully vacated the Collocation Space. AT&T will surrender the Collocation Space to Sprint in the same condition as when first occupied by AT&T, except for ordinary wear and tear.

77.7 AT&T shall be responsible for the cost of removing any enclosure, together with all supporting structures (e.g., racking, conduits), of an Adjacent Collocation arrangement at the termination of occupancy and restoring the grounds to their original condition.

77.8 Upon termination of AT&T's right to possession without termination, AT&T shall surrender possession and vacate the Collocation Space within thirty (30) Days. Failure to surrender the Collocation Space within thirty (30) Days shall be considered abandonment and Sprint will have the right to remove the equipment and other

property of AT&T or AT&T's Guest at AT&T's expense and with no liability for damage or injury to AT&T's property.

77.9 Should Sprint under any section of this Agreement remove any of AT&T's equipment from its collocation space, Sprint will deliver to AT&T any equipment removed by Sprint only upon payment by AT&T of the cost of removal, storage and delivery, and all other amounts due Sprint under this Agreement. Should AT&T fail to remove any of its equipment deemed abandoned, title thereto shall pass to Sprint under this Agreement as if by a Bill of Sale. Nothing herein shall limit Sprint from pursuing, at its option, any other remedy in law, equity, or otherwise related to AT&T's occupancy in the Collocation Space, including any other remedy provided in this Agreement.

77.10 AT&T shall surrender all keys, access cards and Sprint-provided photo identification cards to the Collocation Space and the Building to Sprint, and shall make known to Sprint the combination of all combination locks remaining on the Collocation Space.

77.11 If it becomes necessary in Sprint's reasonable judgment, and there are no other reasonable alternatives available, Sprint shall have the right, for good cause shown, and upon thirty (30) Days prior notice, to reclaim the Collocation Space or any portion thereof, any Inner Duct, Outside Cable Duct, Cable Vault space or other Sprint-provided facility in order to fulfill its common carrier obligations, any order or rule of the state commission or the FCC, or Sprint's tariffs to provide Telecommunications Services to its end user customers. In such cases, Sprint will reimburse AT&T for reasonable direct costs and expenses in connection with such reclamation.

77.12 If it becomes necessary in Sprint's reasonable judgment, and there are no other reasonable alternatives, to require AT&T to move to equivalent space in the Premises upon receipt of sixty (60) Days written notice from Sprint, in which event, Sprint shall pay all moving costs, and the Collocation License Fee provided for herein shall remain the same.

#### **78 COLLOCATION OPTIONS**

78.1 Cageless. Sprint will offer Collocation Space to allow AT&T to collocate its equipment and facilities, and without requiring the construction of a cage or similar structure. Sprint shall make cageless collocation available in single bay increments. For equipment requiring special technical considerations, AT&T must provide the equipment layout, including spatial dimensions for such equipment pursuant to generic requirements contained in Telcordia GR-63-Core and shall be responsible for constructing all special technical requirements associated with such equipment pursuant to this Agreement.

78.2 Caged. Sprint will authorize the enclosure of AT&T's equipment and facilities at AT&T's option. Sprint will provide guidelines and specifications upon request. Based on AT&T's request, space for cage enclosures in amounts as small as that

sufficient to house and maintain a single rack or bay or equipment will be made available. AT&T will arrange with an Approved Contractor to construct a Collocation Arrangement enclosure at AT&T's sole expense. The Approved Contractor will be responsible for filing and receiving any and all necessary permits and/or licenses for such construction. The Approved Contractor shall bill AT&T directly for all work performed for AT&T and Sprint will have no liability for, nor responsibility to pay, such charges imposed by the Approved Contractor. AT&T must provide the local Sprint building contact with one Access key necessary for entering the locked enclosure. Except in case of emergency, Sprint will not access AT&T's locked enclosure prior to notifying AT&T and obtaining authorization.

78.2.1 Sprint has the right to review AT&T's plans and specifications prior to allowing construction to start. Sprint will complete its review within fifteen (15). Days of receipt of such plans. Sprint has the right to inspect the enclosure after construction to make sure it is constructed according to the submitted plans and specifications. Sprint can require AT&T to remove or correct, at its cost, any structure that does not meet these plans.

- 78.3Transfer of Collocation Space. AT&T shall be allowed to transfer collocation space to or from another CLEC under the following conditions: (1) the central office is not at or near space exhaustion; (2) the transfer of space shall be contingent upon Sprint's approval, who will not unreasonably withhold permission; (3) there are no unpaid, undisputed collocation balances between Sprint and AT&T, or the transferring CLEC; and (4) the transfer of the collocation space is in conjunction with AT&T's sale or purchase of all, or substantially all, of the in-place collocation equipment to the same CLEC.
  - 78.3.1 When AT&T is transferring collocation space to another CLEC, AT&T's responsibilities shall include: (1) submitting a letter of authorization to Sprint for the transfer; (2) entering into a transfer agreement with Sprint and the acquiring CLEC; and (3) returning all access devices to Sprint. AT&T agrees to pay all undisputed charges due Sprint related to their collocation arrangement up to the date of sale.
  - 78.3 When the transfer of collocation space is to AT&T from another CLEC, AT&T's responsibilities shall include: (1) submitting an application to Sprint for transfer of the collocation arrangement with an application fee; (2) satisfying all requirements of its interconnection agreement with Sprint; (3) submitting a letter to Sprint for the assumption of services; and (4) entering into a transfer agreement with Sprint and the transferring CLEC. It is the responsibility of Sprint to ensure that the above responsibilities are completely satisfied and the transfer of space is done as quickly as possible.

78.4 Adjacent Collocation. Sprint will provide adjacent collocation arrangements ("Adjacent Arrangement") where space within the Premises is legitimately exhausted,

subject to technical feasibility. Both Parties will mutually agree on the location of the designated space on the Sprint property where the adjacent structure (such as a CEV or similar structure) will be placed. If a mutual agreement cannot be reached, Sprint will decide the location, subject to zoning or other state and local regulations and future use by Sprint or other requesting Telecommunications Carriers pursuant to an application submitted under Section <u>042</u>.

78.4.1 AT&T will provide a concrete pad, the structure housing the arrangement, HVAC, lighting, and all facilities that connect the structure (i.e. racking, conduits, etc.) to the Sprint point of interconnection. Should AT&T elect such an option, AT&T must arrange with an Approved Contractor to construct an Adjacent Arrangement structure in accordance with this Agreement.

78.4.2 Sprint maintains the right to review AT&T's plans and specifications prior to construction of an Adjacent Arrangement(s). Sprint will complete its review within thirty (30) calendar days of site selection and receipt of plans. Except that such time period may be extended if any delay is due to the actions of AT&T. Sprint may inspect the Adjacent Arrangement(s) following construction and prior to commencement to ensure the design and construction comply with submitted plans. Sprint may require AT&T to correct any deviations from approved plans found during such inspection(s).

78.4.3 Sprint will provide AC power, as requested, subject to being technically feasible. At its option, AT&T may choose to provide its own AC power to the adjacent structure as long as the AC power source is from the same provider as Sprint's.

78.4.4 Subject to AT&T being on the waiting list, in the event that space in a Sprint Premises becomes available, Sprint will provide the option to AT&T to relocate its equipment from an Adjacent Facility into the Sprint Premises. In the event AT&T chooses to relocate its equipment, appropriate charges will apply, including charges to vacate the adjacent collocation arrangement and charges applicable for collocation within the Sprint Premises.

78.5 Virtual Collocation. Sprint will provide virtual collocation, subject to being technically feasible, if physical collocation is not practical for technical reasons or because of space limitations and in accordance with the Act (including 47 U.S.C. 251(c)(6) and 47 C.F.R. § 51.321).

78.5.1 AT&T may lease to Sprint, at no cost to Sprint, equipment that meets applicable FCC requirements and in accordance with this Agreement, for the sole purpose of having Sprint maintain the equipment in accordance with terms and conditions mutually agreed upon by the Parties.

78.5.2 Virtually collocated equipment shall be purchased by AT&T. Sprint does not assume any responsibility for the design, engineering, testing or performance for the end-to-end connection of AT&T's equipment, arrangement or facilities.

78.5.3 AT&T will arrange with an Approved Contractor to construct and

install AT&T's equipment in the virtual collocation arrangement.

78.5.4 Sprint will maintain, and repair AT&T's collocated equipment within the same time periods and with failure rates that are no greater than those that apply to the performance of similar functions for comparable equipment of Sprint, Sprint's affiliates or third parties. AT&T will be charged labor charges as identified on Table Two. The following services are not covered by this Agreement:

78.5.4.1 services to resolve software or hardware problems resulting from products provided by parties other than Sprint or causes beyond the control of Sprint;

78.5.4.2 service of attached, related, collateral or ancillary equipment or software not covered by this Section;

78.5.4.3 repairing damage caused to AT&T's collocated equipment by persons other than Sprint, or its authorized contractors, or

78.5.4.4 repairing damage to other property or equipment caused by operation of AT&T's collocated equipment and not caused by the sole negligence of Sprint.

78.5.5 AT&T warrants that Sprint shall have quiet enjoyment of the equipment. Sprint will be entitled to the benefit of any applicable manufacturer's warranties and indemnities and, to the extent assignable, such warranties and indemnities are hereby assigned by AT&T for the benefit of Sprint and AT&T shall take all reasonable action to enforce such warranties and indemnities where available to Sprint. AT&T shall execute, upon presentation, such documents and instruments as may be required to allow Sprint manufacturer's warranty coverage for any equipment. AT&T warrants that it has full authority to lease the equipment under the terms and conditions set forth herein and that there are no restrictions, legal or otherwise, which would preclude it from so doing.

> 78.5.5.1 In the event Sprint's right to quiet enjoyment is breached, either by AT&T's failure to make or cause to be made payment to the equipment manufacturer of the full purchase price for the equipment when such payment becomes due, or otherwise, Sprint may give written notice to AT&T and all of Sprint's obligations relating to the affected equipment shall terminate immediately.

78.5.6 Sprint's preparation, if any, of the Premises (e.g., Power fusing, environmental, etc.) for the Virtual Collocation arrangement will be charged to AT&T at rates on Table Two or as filed in a tariff and approved by the Commission.

78.6 Shared (Subleased) Caged Collocation. AT&T may allow other telecommunications carriers to share its caged collocation arrangement pursuant to terms and conditions agreed to by AT&T ("Host") and other telecommunications carriers ("Guests"). AT&T will notify Sprint in writing upon execution of any agreement between the Host and its Guest within twelve (12) calendar days of its execution. Included in this notification, will be an Augment Application that outlines the equipment to be installed by the Guest. An Augment Application Fee will only be rendered for this application in the event that additional engineering or preparation work by Sprint is required in accordance with section 77.1.2.1. Further, such notice shall include the name of the Guest(s) and their term of agreement, and shall contain a certification by AT&T that said agreement imposes upon the Guest(s) the same terms and conditions (excluding rates) for collocation space as set forth in this Agreement, including that Guest may only locate equipment necessary for interconnection to Sprint and accessing Sprint's unbundled network elements in accordance with Applicable Rules, including but not limited to 47 U.S.C. 251 (C) (3), 47 U.S.C. 251 (C) (2), and 47 C.F.R. 51.323(b-c).

78.6.1 As Host, AT&T will be the sole interface and responsible party to Sprint for the purpose of submitting applications for initial and additional equipment placements of Guest (to the extent required under other sections of this Agreement); for assessment and payment of rates and charges applicable to the Collocations space; and for the purposes of ensuring that the safety and security requirements of this Agreement are fully complied with by the Guest, its employees and agents. In making shared cage arrangements, Sprint will not increase the cost of site preparation or nonrecurring charges above the cost of provisioning a similar caged arrangement to a CLEC.

78.6.2 Sprint will not place unreasonable restrictions on AT&T's use of a cage, and as such will allow AT&T to contract with other CLECs to share the cage in a sublease type arrangement. If two (2) or more CLECs that have interconnection agreements with Sprint utilize a shared collocation cage, Sprint will permit each CLEC to order UNEs and provision service from the shared collocation space, regardless of which CLEC was the original collocator.

78.6.3 If Host terminates a Collocation Arrangement, Host will provide Guest thirty (30) days notice. Guest will assume all obligations and rights of Host as to that Collocation Arrangement if Guest remains in the Collocation Space, including payment of all charges.

78.7 Contiguous Space. To the extent possible, Sprint will provide AT&T with contiguous space for any subsequent request for physical collocation space, but makes no assurances that contiguous space will be available.

# **79. DEMARCATION POINT**

79.1 Sprint will designate the point of demarcation, unless otherwise mutually agreed to by the Parties, in or adjacent to its Collocation Space. At AT&T's request, Sprint will identify the location(s) of other possible demarcation points available to AT&T, and AT&T will designate from these location(s) the point(s) of demarcation between its collocated equipment and Sprint's equipment. Sprint will use its best efforts to identify the closest demarcation point to AT&T's equipment that is available.

79.1 Each Party will be responsible for maintenance and operation of all equipment/facilities on its side of the demarcation point.

79.3 At AT&T's option and expense, a point of termination (POT) bay, frame or digital cross-connect may be placed in or adjacent to the Collocation Space that may, at AT&T's option, serve as the demarcation point. If AT&T elects not to provide a POT frame, Sprint will agree to handoff the interconnection cables to AT&T at its equipment, at AT&T's designated demarcation point. When AT&T elects to install its own POT frame/cabinet, AT&T will be responsible for providing and installing the required DC power panel.

#### **80. APPLICATION PROCESS**

80.1 Upon AT&T's selection of a Premises in which it desires to collocate its equipment, Sprint will provide a then current collocation application form (the "Application") to AT&T. AT&T will submit an Application when initially requesting Collocation Space, or modifying the use of the Collocation Space. The Application shall contain a detailed description and schematic drawing of the equipment to be placed in AT&T's Collocation Space(s), the amount of square footage required (or, in the case of Cageless Collocation, bay space) for the current year plus the next calendar year from the date of application, as well as the associated power requirements, floor loading, and heat release of each piece.

80.1.1 AT&T will complete the Application, and return it to Sprint. The Application shall include complete details of the collocation and interconnection requested, including, but not limited to, specific floor space, power, and environmental conditioning requirements. Sprint will not process a collocation request until a complete Application and all required documents are submitted.

80.1.2 In the event AT&T desires to modify or decommission the use of the Collocation Space in a manner that requires additional engineering or preparation work by Sprint, AT&T will complete a subsequent Application (augment request) detailing all information regarding the modification to the Collocation Space. Such modifications to the Premises may include but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, and equipment additions.

80.1.1.2.1 There are two levels of augments, minor and major. Minor augments include things such as DC power fuse changes or extensions of AC electric circuits for occasional use outlets and lights where

sufficient circuit capacity is available. Major augments include things such as additions or removals of cross connect cables, power cables, entrance cables and all requests for additional physical collocation space (caged or cageless).

80.2 Sprint will bill AT&T for the Application Fee (or Augment Application Fee) within thirty (30) days of Sprint's response to Application request.

80.3 If AT&T wishes Sprint to consider multiple methods for collocation on a single Application, AT&T will need to include in each Application a prioritized list of its preferred methods of collocating, e.g., caged, shared, or other, as well as adequate information, (e.g., specific layout requirements, cage size, number of bays, requirements relative to adjacent bays, etc.) for Sprint to process the Application for each of the preferred methods. If AT&T provides adequate information and its preferences with its Application, Sprint may not require an additional Application, nor would AT&T be required to restart the quotation interval should its first choice not be available in a requested Premises. Only one collocation arrangement will be provisioned per Application. Sprint will not select for AT&T the type of collocation to be ordered.

80.4 Within ten (10) Days after receiving AT&T's Application for collocation, Sprint will inform AT&T whether the Application meets each of Sprint's established collocation standards. Should AT&T submit a revised Application curing any deficiencies in an Application for collocation within ten days after being informed of them, AT&T shall retain its original position within any collocation queue that Sprint maintains. If Sprint informs AT&T that there is a deficiency in an Application, Sprint will provide sufficient detail so that AT&T has a reasonable opportunity to cure each deficiency.

80.5 All revisions to an initial request for a Physical Collocation Arrangement submitted by AT&T must be in writing. A new interval for the Physical Collocation Arrangement will be established which shall not exceed two months beyond the originally established date. AT&T will be required to pay any applicable Application fees.

80.6 Sprint shall provide confirmation of space availability within ten (10) Days of receipt of a complete and accurate Application and applicable Application fee for one (1) to five (5) Applications submitted. Space availability response will be increased by five (5) Days for every five (5) additional Applications received.

80.6.1 Sprint will notify AT&T in writing as to whether its request for Collocation Space has been granted or denied due to lack of space. The notification will also include a possible future space relief date, if applicable.

80.6.2 In order to increase the amount of space available for collocation, Sprint will, upon request, remove obsolete unused equipment, from its Premises to increase the amount of space available for collocation.

80.7 After notifying AT&T that Sprint has no available space in the requested Central

Office ("Denial of Application"), Sprint will allow AT&T, upon request, to tour the entire Central Office within ten (10) Days, or other mutually agreeable timeframe, of such Denial of Application. In order to schedule said tour the request for a tour of the Central Office must be received by Sprint within five (5) Days of the Denial of Application.

80.7.1 If AT&T contests Sprint's notice that there is not sufficient space in the Central Office, the parties agree to seek expedited resolution of the dispute at the Commission pursuant to Section 251(c)(6) of the Act. If the Commission determines that space is not available, Sprint will not be required to conduct a review of floor space availability in the same central office more frequently than once every six months.

80.7.2 On a first come, first serve basis, Sprint will maintain a waiting list of requesting carriers who have either received a Denial of Application or, where it is publicly known that the Premises is out of space, have submitted a Letter of Intent to collocate.

80.7.3 Sprint will simultaneously notify the telecommunications carriers on the waiting list when space becomes available if there is enough space to accommodate additional collocation. Subsequent to the granting of a Petition for Waiver, if AT&T has been denied space at a Sprint Premises and challenges Sprint on space availability at said Premises, AT&T will be given priority for space assignment if, as a result of the challenge, space is found to be available. AT&T will reaffirm its collocation request within thirty (30) Days of such notification; otherwise, it will be dropped to the bottom of the list. Upon request, Sprint will advise AT&T as to its position on the list.

80.7.4 If AT&T's Application for Physical Collocation is denied due to lack of space, Sprint will place AT&T on the waiting list for collocation in particular Premises according to the date AT&T submitted its Application and not the date of denial for lack of space.

80.7.5 Sprint will maintain on its Website a notification document that will indicate all Premises that are without available space. Sprint will update such document within ten (10) Days of the date at which a Premises runs out of physical collocation space.

80.8 Sprint will provide a price quote within ten (10) Days of receipt of a complete and accurate Application and applicable Application fee for one (1) to five (5) Applications. Price quote response will be increased by five (5) Days for every five (5) additional Applications received. The quotation will include the applicable nonrecurring and recurring rates.

80.9 AT&T has thirty (30) Days from receipt of the quotation to accept the quotation in writing. The quotation expires after thirty (30) Days. After thirty (30) Days, a new Application and Application fee are required. Collocation Space is not reserved until the quotation is accepted. Sprint need not meet the deadlines for provisioning Physical Collocation if, after receipt of any price quotation provided by Sprint, AT&T does not notify Sprint that physical collocation should proceed.

80.10 AT&T will indicate its intent to proceed with equipment installation in a Sprint Premises by accepting the price quote, which constitutes a Bona Fide Firm Order (BFFO). Space preparation for the Collocation Space will not begin until Sprint receives the BFFO. If AT&T makes changes to its Application in light of Sprint's written Application Response, Sprint may be required to re-evaluate and respond to the change(s). In this event, AT&T's Application will be treated as a Revision.

80.11 All applicable fees, including the administrative, project management and transmission engineering fees, will be billed within thirty (30) of the BFFO.

## **81. SPACE RESERVATION**

81.1 The parties may reserve physical collocation space for their own specific uses for the remainder of the current year, plus twelve (12) months in accordance with Section <u>042</u>. Neither Sprint, nor any of its affiliates, will reserve space for future use on terms more favorable than those that apply to other telecommunications carriers seeking to reserve collocation space for their own future use.

#### 82. PROVISIONING INTERVALS

82.1 Sprint will complete its work associated with the provisioning of Caged Physical (including Shared Caged), Cageless Physical, and Virtual Collocation arrangements within ninety (90) Days of receipt of a BFFO. Sprint will complete its work associated with the provisioning of Adjacent Collocation arrangements (as defined in 0) within one hundred-twenty (120) Days of receipt of a BFFO. If Sprint is unable to complete its work as provided herein, the parties may agree to a mutually acceptable interval or Sprint may petition the Commission for waiver.

#### 83. CONSTRUCTION AND COMMENCEMENT OF BILLING

83.1 An Approved Contractor, is required to perform the construction of physical collocation space, provided however, that any such Approved Contractor shall be subject to Sprint's security standards. Sprint reserves the right to reject any AT&T subcontractor upon the same criteria that Sprint would use on its own subcontractors. AT&T will notify Sprint in writing when construction of physical collocation space is complete.

83.2 Sprint shall have the right to inspect AT&T's construction of physical collocation arrangement, completed installation of equipment and facilities prior to AT&T turning up such equipment and facilities. AT&T shall provide written notification to Sprint when AT&T has completed its installation of equipment and facilities in the Collocation space, and Sprint shall, within five (5) Business Days of receipt of such notice, either (i) inspect such Collocation space or (ii) notify AT&T that Sprint is not exercising its right to inspect such Collocation space at that time and that AT&T may turn up its equipment and facilities. Failure of Sprint to either inspect the Collocation space or notify AT&T of its election not to inspect such space

within the foregoing five (5) Business Day period shall be deemed an election by Sprint not to inspect such Collocation space. AT&T shall have the right to be present at such inspection, and if AT&T is found to be in non-compliance with the terms and conditions of this Agreement that relate to the installation of AT&T's collocation arrangement and AT&T's Collocated equipment and facilities, AT&T shall correct any deviations within five (5) Days after the walk through and prior to turning up its equipment and facilities.

83.3 Sprint will complete its work associated with the Collocated Space in compliance with a mutually agreed to collocation request. Any deviation to AT&T's order must thereafter be approved by AT&T. The Parties acknowledge that AT&T approved deviations may require additional construction time and may incur additional AT&T expenses. AT&T shall pay the incremental cost incurred by Sprint as the result of any Revision to the Collocation request. AT&T will pay all applicable fees, including any nonrecurring charges required by Sprint.

- 83.4 AT&T will be responsible for all extraordinary costs, as determined in accordance with the Act, incurred by Sprint to prepare the Collocation space for the installation of AT&T's equipment and for extraordinary costs to maintain the Collocation space for AT&T's equipment on a going-forward basis. Extraordinary costs may include costs for such items as asbestos removal, fire suppression system or containment, modifications or expansion of cable entry facility, increasing the DC power system infrastructure capacity, increasing the capacity of the standby AC system (if available) or the existing commercial power facility, conversion of non-Collocation space, compliance with federal and state requirements, or other modifications required by local ordinances. Sprint will charge for these extraordinary costs on a time-sensitive or time-and-materials basis and will allocate the costs fairly among itself, AT&T and other collocators. An estimate of such costs, as determined in accordance with the Act, will be provided to AT&T prior to commencing such work. Extraordinary costs will only be billed to AT&T if such costs have been authorized by AT&T. Sprint must advise AT&T if extraordinary costs will be incurred.
- 83.5 Each Party or its agents will diligently pursue filing for the permits required for the scope of work to be performed by that Party or its agents.
- 83.6 Sprint will notify AT&T when construction of a Collocation Space is complete. The Parties will complete an acceptance walk through of each provisioned Collocation Space. Sprint will commence to correct any deviations to AT&T's original or jointly amended requirements within five (5) Days after the walk through. If AT&T does not conduct an acceptance walk through within fifteen (15) Days of the notification that the Collocation Space construction is complete, AT&T will be deemed to have accepted the Collocation Space and billing will commence.

83.6 If AT&T occupies the space prior to the acceptance walk through, billing will commence effective the date of occupancy.

83.7 AT&T must submit a written request to cancels its order for Physical, Caged, Shared

Cage, Adjacent Space, or Virtual Collocation. AT&T will reimburse Sprint for any actual expenses incurred and not already paid, which may include incidental equipment costs, material ordered, provided or used; labor; transportation, DS0, DS1 and DS3 cable and all other associated costs.

#### 84. EQUIPMENT

84.1 AT&T may only locate equipment necessary for interconnection to Sprint and accessing Sprint's unbundled network elements in accordance with Applicable Rules, including but not limited to 47 U.S.C. 251 (C) (3), 47 U.S.C. 251 (C) (2), and 47 C.F.R. 51.323(b-c).

84.2 AT&T's equipment and facilities shall not be placed or operated in such a manner that creates hazards or causes physical harm to any individual or the public.

84.3 All equipment to be collocated must meet Level 1 safety requirements as set forth in Telcordia Network Equipment and Building Specifications ("NEBS"), but Sprint will not impose safety requirements on AT&T that are more stringent than the safety requirements it imposes on its own equipment. If Sprint denies collocation of AT&T's equipment, citing safety standards, Sprint must provide to AT&T within five (5) Business Days of the denial a list of all equipment that Sprint locates within the Premises in question, together with an affidavit attesting that all of that equipment meets or exceeds the safety standard that Sprint contends the competitor's equipment fails to meet. In the event that Sprint believes that the collocated equipment is not necessary for interconnection or access to unbundled network elements or determines that AT&T's equipment does not meet NEBS Level 1 safety requirements, AT&T will be given ten (10) Days to comply with the requirements or remove the equipment from the collocation space. If the parties do not resolve the dispute, the Parties may file a complaint at the Commission seeking a formal resolution of the dispute. While the dispute is pending, Sprint will not prevent or otherwise delay installation of the disputed equipment in the Collocation space; however, AT&T will not activate the equipment during the pendency of the dispute.

84.4 AT&T must notify Sprint in writing that collocation equipment installation is complete and is operational with Sprint's network. If AT&T fails to place operational telecommunications equipment in the collocated space and connect with Sprint's network within one-hundred-eighty (180) Days of AT&T's acceptance of Sprint's price quote, or other time period mutually agreed to by the AT&T and Sprint, Sprint may terminate the applicable Collocation Space upon written notice. AT&T will reimburse Sprint for any actual expenses incurred and not already paid, which may include incidental equipment costs, material ordered, provided or used; labor; transportation, DS0, DS1 and DS3 cable and all other associated costs.

#### **85. AUGMENTS AND ADDITIONS**

85.1 When AT&T modifies the Collocation Arrangement or adds equipment that requires no additional space preparation work on the part of Sprint, Sprint may not impose additional charges or additional intervals that would delay AT&T's operation.

AT&T will notify Sprint of the modifications or additional equipment prior to installation.

85.2 In the event AT&T desires to modify or decommission the use of the Collocation Space in a manner that requires additional engineering or preparation work by Sprint, AT&T will complete a subsequent Application (augment request) detailing all information regarding the modification to the Collocation Space. Such modifications to the Premises may include but are not limited to, floor loading changes, changes necessary to meet HVAC requirements, changes to power plant requirements, and equipment additions.

85.3 Sprint will bill AT&T for the Application Fee within thirty (30) days of Sprint's response to Application request.

85.6 AT&T must submit an Application and applicable Application fee to obtain a price quote. AT&T must provide an accurate front equipment view (a.k.a. rack elevation drawing) specifying bay(s) for AT&T's point of termination. Sprint will not process an augment collocation request until a complete Augment Application and all required documents are submitted. The price quote will contain the charges and the construction interval for that application. The construction interval for augments will not exceed forty-five (45) Days from BFFO. If special or major construction is required, Sprint will work cooperatively with AT&T to negotiate mutually agreeable construction intervals for augments.

#### 86. USE OF COMMON AREAS

86.1 AT&T, its employees, agents and invitees shall have a non-exclusive right to use those portions of the common area of the Building as are designated by Sprint from time to time, including, but not limited to, the right to use rest rooms in proximity to the Collocation Space, corridors and other access ways from the entrance to the Building, the Collocation Space, and the parking areas for vehicles of persons while working for or on behalf of AT&T at the Collocation Space; provided, however, that Sprint shall have the right to reserve parking spaces for Sprint's exclusive use or use by other occupants of the Building. Sprint does not guarantee that there is or will be sufficient parking spaces in parking areas to meet AT&T's needs. Sprint does not guarantee that restroom facilities or water will be available. All common areas shall remain under the exclusive control and management of Sprint, and Sprint shall have the right to change the level, location and arrangement of parking areas and other common areas, as Sprint may deem necessary. Use of all common areas shall be subject to such reasonable rules and regulations as Sprint may from time to time impose, consistent with AT&T's right to access its Collocation Space.

86.2 Sprint, where water is available for its own use, shall furnish running water from regular Building outlets for drinking, lavatory and toilet purposes drawn through fixtures installed by Sprint, for the non-exclusive use of AT&T, Sprint and any other building occupant. AT&T shall not waste or permit the waste of water.

86.3 Sprint shall furnish Building and Premises security in accordance with its normal

business practices. Other than the locks on the entrances to the Collocation Space, Sprint shall provide no security specific to AT&T's Collocation Space. Sprint shall not be liable to AT&T or any other party for loss of or damage to the Collocation Space or AT&T equipment unless Sprint has failed to provide Building and Premises security in accordance with its normal business practices.

86.4 Sprint shall furnish passenger elevator service as necessary to reach the Collocation Space or common areas to which AT&T has access pursuant to the terms of this Agreement twenty-four (24) hours a day, seven (7) days a week. Freight elevator service when used by Approved Contractors, employees or agents shall be provided in a non-discriminatory manner as reasonably determined by Sprint.

#### 87. CO-CARRIER CROSS CONNECTION

87.1. For the term of this agreement, unless earlier terminated, Sprint shall furnish co-carrier cross-connects in compliance with 47 C.F.R. 51.323(h).

87.2 Co-carrier cross-connects ("CCXCs") are connections between AT&T and another collocated telecommunications carrier other than Sprint, and are only available when both collocation arrangements (either caged, cageless, and/or virtual) being interconnected are within the same Sprint premises, provided that the collocated equipment is also used for interconnection with Sprint and/or for access to Sprint's unbundled network elements. Sprint shall provide such CCXCs from AT&T's collocation arrangement to the collocation arrangement of another telecommunications carrier in the same Sprint premises under the terms and conditions of this Agreement. CCXC is provided at the same transmission level from AT&T to another telecommunications carrier.

- 87.2.1. Sprint will provide such CCXCs for non-adjacent collocation arrangements at the expense of AT&T per AT&T's request. Sprint will provide connections between AT&T's own non-adjacent virtual and/or physical collocation arrangements within the same central office at the expense of AT&T and provisioned per AT&T's order.
- 87.2.2. Sprint, at its sole discretion, shall permit AT&T to self-provision CCXCs to interconnect its network with that of another adjacently collocated telecommunications carrier in the same Sprint premises without application.

87.2.3. In those cases where AT&T's virtual and/or physical collocation space is adjacent in the central office, AT&T may have the option, at Sprint's sole discretion, of using AT&T's own technicians to deploy direct connections ("DCs") using either electrical or optical facilities between the collocation spaces and constructing its own dedicated cable support structure according to Sprint's technical and safety standards.

87.3 The term "Adjacent" in this Section 85 refers to collocation arrangements in the same Premises that have a common border; and is not referring to the form of Physical

Collocation as described in 47 C.F.R. 51.323(k)(3).

#### 88. RATES

88.1 The rates for collocation are listed on Table Two.

88.2 If AT&T is the first collocator in the Sprint premises, AT&T will not be responsible for the entire cost of site preparation and security. However, ancillary charges for unique collocator requests for collocation options directly attributable to the requesting collocator will not be prorated. Examples include power arrangements, remote switch module related options and POT bay-related options.

88.3 The rates and charges in this Agreement do not include costs for any Americans with Disability Act (ADA) construction generated or caused by the physical collocation space request. If required, ADA construction will be provided on an ICB. If Sprint is required to upgrade a Premises, or portion of the Premises to comply with the ADA which arises as a direct result of AT&T's Collocation Arrangement, Sprint will prorate the total forward-looking economic cost of the upgrade, and allocate the charge to each AT&T collocated within the Premises, based on the total space utilized by each collocated CLEC. Should Sprint benefit in any way whatsoever from the ADA upgrades, it shall share in the proration of costs. Should Sprint be the sole beneficiary of an upgrade (e.g., an upgrade would have had to be made regardless of whether or not a CLEC was collocated in the Premises), Sprint shall absorb all of the costs related to such an upgrade.

#### 88.4 Facility Modifications

88.4.1 To the extent that a modification is made for the specific benefit of any particular party, costs of modification are to be proportionately born by those who directly benefit including the ILEC. The cost is allocated using the proportion of the new space occupied to the total new space made available.

88.4.2 If a non-requesting party benefits from the modification, e.g. using the opportunity to bring their equipment or arrangement into compliance with certain standards, or making adjustments leading to improvement, then the party will be deemed to be sharing. This party will be responsible for its share of the modification costs.

88.4.3 None of the costs will be allocated to a third party that gains incidental benefit, but did not cause the modification or modify their facilities.

88.4.4 If a current user of space subsequently initiates new uses of the modified facility by other parties to avoid modification costs or if new entrants use the facility, they will share in the modification costs. The modifying party(s) may recover a proportionate share of the modification costs from parties that later are able to obtain access as a result of the modification. If measurable depreciation has occurred as a result of the modification, the subsequent party may pay a lower cost.

88.4.5 Parties requesting or joining in a modification also will be responsible for resulting costs to maintain the facility on an ongoing basis.

#### 89. SPRINT SERVICES AND OBLIGATIONS

89.1 Sprint shall furnish air conditioning and/or other environmental controls for the area in which the Collocation Space is located in a manner consistent with those provided elsewhere in the Building. Sprint shall furnish air conditioning and/or other environmental controls for the Collocation Space based on information provided by AT&T to Sprint in its Application which AT&T hereby represents to Sprint is sufficient to allow AT&T equipment to function without risk of harm or damage to the Collocation Space, the Building or any equipment or facilities of Sprint or any other occupant of the Building. These environmental conditions shall adhere to Telcordia Network Equipment Building System (NEBS) standards GR-63-CORE Issue 2 or other mutually agreed upon standards.

89.1.1 If AT&T locates equipment or facilities in the Collocation Space which Sprint determines, in the exercise of its sole discretion, affect the temperature or other environmental conditions otherwise maintained by Sprint in the Building, Sprint reserves the right to provide and install supplementary air conditioning units or other environmental control devices in the Collocation Space, and the cost of providing, installing, operating and maintaining any such supplementary air conditioning units or other environmental control devices made necessary solely by AT&T's equipment or facilities shall be paid by AT&T to Sprint. If supplementary air conditioning units or other environmental control devices are required for more than one CLEC each CLEC will pay a pro-rata share of such costs, in proportion to the space occupied by each as compared to the total space available for collocation.

89.2 If Sprint, in the exercise of its reasonable business judgment, determines that the electricity provided to AT&T pursuant to this Section is insufficient to support the activity being carried on by AT&T in the Collocation Space, Sprint may require the installation of additional electrical circuits to provide AT&T with additional electricity and AT&T shall reimburse Sprint for any expenses incurred in making such additional electrical circuits available to AT&T's Collocation Space. AT&T shall also pay for additional electricity provided via these circuits.

89.2.1 AT&T covenants and agrees that Sprint shall not be liable or responsible to AT&T for any loss, damage or expense which AT&T may sustain or incur if either the quality or character of electrical service is changed or is no longer suitable for AT&T's requirements.

89.2.2 Pursuant to technical feasibility, commercial availability and safety limitations, Sprint will permit AT&T to request DC power in five load (5) amp increments from five load (5) amps up to forty-five (45) load amps from the Sprint BDFB. However, in accordance with industry standard fuse sizing, AT&T may request that Sprint provision DC power of seventy (70) amps or greater directly from Sprint's main power board.

The industry standard fuse size (which is a circuit breaker on the main power board) available at a Sprint main power board in all Sprint Premises is a two hundred twenty-five (225) amp circuit breaker.Sprint will revise AT&T's recurring connection power charges, in accordance with Section 80 above, to reflect a power upgrade when AT&T submits a Subsequent Application requesting an increase in the DC power cable size or the load amperage it is currently receiving from Sprint for its Collocation Space. If AT&T's existing fuses and power cables (for the A&B power feed) are not sufficient to support the additional number of load amps requested, AT&T's Sprint Certified Supplier shall perform whatever activities are necessary, which may include the installation of new/additional power cables or fuses sized per the application requirements sized proportionately to the load amps declare, to comply with the appropriate NEC, Telcordia and ANSI Standards.

89.2.3 Sprint will revise AT&T's recurring power charges based on reduced load amps or cable sizes, in accordance with Sections 80 above, to reflect a power reduction upon Sprint's receipt of the Collocation Application from AT&T, certifying the completion of the power reduction work, including the removal of any associated power cabling by AT&T's Sprint Certified Supplier.

89.2.4 If no modifications are requested other than an increase or reduction in load power, the Minor Augment fee will apply. If modifications are requested in addition to the increase or reduction of power, the Major Augment fee will apply. Sprint will bill this nonrecurring fee effective the date AT&T completes their Augment Application request and Sprint accepts the Augment Application.

89.2.5 AT&T may request that -48 DC power provisioned by AT&T's Sprint-Approved Contractor for their Collocation Space be assessed per amp, per month based upon amps declared on the Collocation Application, not fused, pursuant to the rates set forth in Exhibit B. Monthly recurring power charges will be assessed on the Space Acceptance Date or Space Ready Date, whichever is appropriate, pursuant to Sections 80 and 83 above. The monthly recurring charges for DC power shall be calculated and applied based on the amount of power AT&T requests that it be allowed to draw at a given time to a specific physical collocation arrangement in a particular Sprint Premises on AT&T's Initial Application or Subsequent Application. Sprint shall allow AT&T at AT&T's option, to order a power feed that is capable of delivering a higher DC power level but to fuse this power feed so as to allow a power level less than the feed's maximum to be drawn by AT&T and within Sprint's engineering specifications. Sprint is not required to build its central office power infrastructure to meet AT&T's forecasted DC power demand. AT&T must specify on its Initial or Subsequent Application the power level it wishes to be able to draw from Sprint's

power plant for each existing collocation arrangement or for any new collocation arrangements AT&T establishes.

- 89.2.6 Sprint, at any time and at its own expense, shall have the right to verify the accuracy of AT&T's power usage for a specific collocation arrangement in a particular Sprint Premises. If the audit results show that AT&T is exceeding its stated load by more than ten (10) percent or 5 amps from the power usage that has been requested on the application, AT&T will pay Sprint based upon the actual fused amps from the most recent audit period or for six months, whichever is less. AT&T will have ten (10) Business Days from receipt of notice of the violation to reduce the power being drawn or revise its power requirement.
- 89.2.7 Sprint shall assess AT&T a monthly recurring charge for DC power as set forth in Table Two. AT&T shall notify Sprint of any change in its DC power usage by submitting a Subsequent Collocation Application, which reflects the new DC power level desired by AT&T. The requested change in DC power usage will be reflected in AT&T's next scheduled monthly billing cycle after the augment is completed.
- 89.2.8 If AT&T desires to reduce the amount of power that it has requested from Sprint, AT&T must submit a Subsequent Application for this power reduction. The fees associated with this Subsequent Application, if any, are set forth in Table Two of this Attachment.

89.2.9 AT&T agrees to request in writing, via a complete and accurate Application, all electrical needs to power its equipment. The Application shall contain the total power needs, the date needed, and the exact location where termination of the electrical power shall occur. Actual power usage of AT&T's equipment shall not exceed the requested capacity.

89.2.10 Central office power supplied by Sprint into AT&T equipment area shall be supplied in the form of power feeders (cables) on cable racking into the designated AT&T equipment area. The power feeders (cables) shall efficiently and economically support the requested quantity and capacity of AT&T equipment. The termination location shall be as agreed by the parties.

89.2.11 Sprint shall provide power as requested by AT&T to meet AT&T's need for placement of equipment, interconnection, or provision of service.

89.2.12 Sprint power equipment supporting AT&T's equipment shall:

89.2.13 Comply with applicable industry standards (e.g., Telcordia, NEBS and IEEE) or manufacturer's equipment power requirement specifications for equipment installation, cabling practices, and physical equipment layout or at minimum, at parity with that provided for similar Sprint equipment;

89.2.14 Have redundant power feeds with physical diversity and battery back-up as required by the equipment manufacturer's specifications for AT&T equipment, or, at minimum, at parity with that provided for similar Sprint equipment;

89.2.15 Provide, upon AT&T's request and at AT&T's expense, the capability for real time access to power performance monitoring and alarm data that impacts (or potentially may impact) AT&T traffic;

89.2.16 Provide central office ground, connected to a ground electrode located within the Collocated Space, at a level above the top of AT&T equipment plus or minus 2 feet to the left or right of AT&T's final request; and

89.2.17 Provide feeder cable capacity and quantity to support the ultimate equipment layout for AT&T's equipment in accordance with AT&T's collocation request.

89.2.18 Sprint shall provide cabling that adheres to Telcordia Network Equipment Building System (NEBS) standards GR-63-CORE Issue 2;

89.2.19 Sprint shall provide Lock Out-Tag Out and other electrical safety procedures and devices in conformance with the most stringent of OSHA or industry guidelines.

89.2.20 Sprint will provide AT&T with written notification within ten (10)

business days of any scheduled AC or DC power work or related activity in the collocated facility that will or might cause an outage or any type of power disruption to AT&T equipment located in Sprint facility. Sprint shall provide AT&T immediate notification by telephone of any emergency power activity that would impact AT&T's equipment.

89.2.21 Subject to the provisions of Section 085.3.13 hereof, Sprint may furnish an existing Halon 1301 Fire Suppression System, or may, but is not obligated to, provide its equivalent, to provide fire protection in the Collocation Space designed to comply with the National Fire Protection Association ("NFPA") 12A Standard on Halon 1301 Fire Extinguishing Systems or with NFPA standard 2001 dealing with alternative fire suppression agents. Sprint shall furnish fire and smoke detection systems designed to comply with the NFPA 72E Standard on Automatic Fire Detectors in effect as of the collocation date.

89.2.22 Stand alone fire extinguishers will be provided in and about the Building and the Collocation Space by Sprint as required by applicable fire codes.

89.2.23 Sprint and Sprint's insurance carriers will perform regular inspections of fire protection systems, and AT&T hereby agrees to provide Sprint and Sprint's insurance carriers access to the Collocation Space for purposes of such inspections, via pass key or otherwise. Sprint agrees to provide AT&T with notice of its intent to access AT&T's Collocation Space where, in Sprint's sole discretion, such notice is practicable; provided, however, that no failure of Sprint to give such notice will affect Sprint's right of access or impose any liability on Sprint. Sprint will, at its expense, maintain and repair the fire and smoke detection systems unless maintenance or repair is required due to the act or omission of AT&T, its employees, agents or invitees, in which case AT&T shall reimburse Sprint for the cost of such repair or replacement. If a Halon or alternative fire suppression system is in place, AT&T shall, if at fault, and at Sprint's option, replace Halon or other fire extinguishing material discharged as a result of AT&T's act or omission. AT&T shall have no duty to inspect fire protection systems outside the Collocation Space; provided, however, if AT&T is aware of damage to the fire protection systems it shall promptly notify Sprint.

89.2.24 AT&T is aware the Collocation Space will contain a fire detection system and may contain a fire suppression system. In the event of discharge, Sprint is relieved of all liability for damage to equipment or personal injury except in cases where such damage to equipment or personal injury is due to the gross negligence or willful misconduct of Sprint, its officers, agents or employees.

89.2.25 Sprint shall, at its sole expense, except as hereinafter provided, provide repair and maintenance of heating, cooling and lighting equipment and regularly scheduled refurbishment or decorating to the Collocation Space, Building and Premises, in a manner consistent with Sprint's normal business practices.

89.2.26 Sprint shall not be obligated to inspect the Collocation Space, make any repairs or perform any maintenance unless first notified of the need in writing by AT&T. If Sprint shall fail to commence the repairs or maintenance within twenty

(20) Days after written notification, provided that the delay are not caused by AT&T, AT&T's sole right and remedy shall be, after further notice to Sprint, to make such repairs or perform such maintenance and to deduct that cost and expenses from the physical collocation fees payable; provided, however, that the amount of such deduction shall not exceed the reasonable value of such repairs or maintenance.

89.2.27 Sprint shall, where practical, provide AT&T with twenty-four (24) hours prior notice before making repairs and/or performing maintenance on the Collocation Space; provided, however, that Sprint shall have no obligation to provide such notice if Sprint determines, in the exercise of its sole discretion, that such repair or maintenance must be done sooner in order to preserve the safety of the Building or the Collocation Space, or if required to do so by any court or governmental authority. Work shall be completed during normal working hours or at other times identified by Sprint. AT&T shall pay Sprint for overtime and for any other expenses incurred if such work is done during other than normal working hours at AT&T's request. AT&T shall have the right, at its sole expense, to be present during repair or maintenance of the Collocation Space.

89.2.28 The cost of all repairs and maintenance performed by or on behalf of Sprint to the Collocation Space which are, in Sprint's reasonable judgment, beyond normal repair and maintenance, or are made necessary as a result of misuse or neglect by AT&T or AT&T's employees, invitees or agents, shall be paid by AT&T to Sprint within ten (10) Days after being billed for the repairs and maintenance by Sprint.

89.3 Sprint shall provide AT&T with notice via email three (3) Business Days prior to those instances where Sprint or its subcontractors perform work which is known to be a service affecting activity. Sprint will inform AT&T by e-mail of any unplanned service outages. Notification of any unplanned service outages shall be made as soon as practicable after Sprint learns that such outage has occurred.

89.4 Sprint reserves the right to stop any service when Sprint deems such stoppage necessary by reason of accident or emergency, or for repairs, improvements or otherwise; however, Sprint agrees to use its best efforts not to interfere with AT&T's use of Collocation Space. Sprint does not warrant that any service will be free from interruptions caused by labor controversies, accidents, inability to obtain fuel, water or supplies, governmental regulations, or other causes beyond the reasonable control of Sprint.

89.4.1 No such interruption of service shall be deemed an eviction or disturbance of AT&T's use of the Collocation Space or any part thereof, or render Sprint liable to AT&T for damages, by abatement of AT&T Fees or otherwise, except as set forth in the Tariff, or relieve AT&T from performance of its obligations under this Agreement. AT&T hereby waives and releases all other claims against Sprint for damages for interruption or stoppage of service.

89.5 For physical collocation, subject to reasonable building rules and any applicable Security Arrangements, AT&T shall have the right of entry twenty-four (24) hours per

day seven (7) days a week to the Building, common areas, Collocation Space and common cable space.

89.5.1 Sprint reserves the right to close and keep locked all entrance and exit doors of the Premises during hours Sprint may deem advisable for the adequate protection of the Premises. Use of the Premises at any time it is unattended by appropriate Sprint personnel, or on Sundays and state and federal or other holidays recognized by Sprint, or, if AT&T's Collocation Space is not fully segregated from areas of the Premises containing Sprint equipment, shall be subject to such reasonable rules and regulations as Sprint may from time to time prescribe for its own employees and its third party contractors.

89.5.2 To require all persons entering or leaving the Premises during such hours as Sprint may from time to time reasonably determine to identify themselves to a watchman by registration or otherwise and to establish their right to leave or enter, and to exclude or expel any solicitor or person at any time from the Collocation Space or the Premises. Sprint is not responsible and shall not be liable for any damage resulting from the admission or refusal to admit any unauthorized person or from the admission of any authorized person to the Premises, unless the damage is the result of gross negligence or willful misconduct on the part of Sprint.

89.6 Sprint shall have access to AT&T's Physical Collocation Space at all times, via pass key or otherwise, to allow Sprint to react to emergencies, to maintain the space (not including AT&T's equipment), and to monitor compliance with the rules and regulations of the Occupational Health and Safety Administration or Sprint, or other regulations and standards including but not limited to those related to fire, safety, health, and environmental safeguards. If a secure enclosure defining the location of AT&T's Collocation Space has been established, and if conditions permit, Sprint will provide AT&T with notice (except in emergencies) of its intent to access the Collocation Space, thereby providing AT&T the option to be present at the time of access. AT&T shall not attach, or permit to be attached, additional locks or similar devices to any door or window, nor change existing locks or the mechanism thereof.

89.6.1 To enter the Collocation Space for the purposes of examining or inspecting same and of making such repairs or alterations as Sprint deems necessary. AT&T hereby waives any claim for damage, injury, interference with AT&T's business, any loss of occupancy or quiet enjoyment of the Collocation Space, and any other loss occasioned by the exercise of Sprint's access rights, except in the event such damages result solely from the gross negligence or willful misconduct of Sprint.

89.6.2 To use any means Sprint may deem proper to open Collocation Space doors or enclosures in an emergency. Entry into the Collocation Space obtained by Sprint by any such means shall not be deemed to be forcible or unlawful entry into or a detainment of or an eviction of AT&T from the Collocation Space or any portion thereof.

#### 90 AT&T'S OBLIGATIONS

90.1 AT&T shall regularly inspect the Collocation Space to ensure that the Collocation Space is in good condition. AT&T shall promptly notify Sprint of any damage to the Collocation Space or of the need to perform any repair or maintenance of the Collocation Space, fixtures and appurtenances (including hardware, heating, cooling, ventilating, electrical, and other mechanical facilities in the Collocation Space). AT&T shall provide regular janitorial service to its Collocation Space and keep the Collocation Space clean and trash free.

90.2 AT&T agrees to abide by all of Sprint's security practices for non-Sprint employees with access to the Building, including, without limitation:

90.2.1 AT&T must obtain non-employee photo identification cards for each AT&T employee or Approved Contractor. Temporary identification cards may otherwise be provided by Sprint for employees or agents, contractors and invitees of AT&T who may require occasional access to the Collocation Space.

90.2.2 AT&T will supply to Sprint the completed access form for employees or Approved Contractor who require access to the Premises. Sprint may reasonably deny access to any person into the building. Sprint's objections will be consistent with the grounds for denying access to personnel of its own contractors or for denying employment directly with Sprint.

90.2.3 Sprint may issue security cards, codes, or keys to AT&T's listed employees or Approved Contractor where such systems are available and their use by AT&T will not otherwise compromise building security. The rate for the issuance of security cards is listed on Table Two.

90.2.4 AT&T is responsible for returning identification and security cards, codes, or keys of its terminated employees or its employees who no longer require access to the Collocation Space. All cards, codes, or keys must be returned upon termination of the applicable Collocation Space. AT&T will reimburse Sprint actual costs due to unreturned or replacement cards, codes, or keys.

90.2.5 AT&T's employees, agents, invitees and Approved Contractors must display identification cards at all times.

90.2.6 AT&T will assist Sprint in validation and verification of identification of its employees, agents, invitees and Approved Contractors by providing a telephone contact available twenty-four (24) hours a day, seven (7) days a week to verify identification.

90.2.7 Removal of all furniture, equipment or similar articles will be based on local Sprint security practices. These security practices will not be more stringent for AT&T than Sprint requires for its own employees or Sprint's contractors.

90.2.8 Before leaving the Collocation Space unattended, AT&T shall close and securely lock all doors and windows and shut off unnecessary equipment in the Collocation Space. Any injury to persons or damage to the property of Sprint or any other party with equipment in the Building resulting from AT&T's failure to do so shall be the responsibility of AT&T. AT&T will defend and indemnify

Sprint from and against any claim by any person or entity resulting in whole or in part from AT&T's failure to comply with this section.

90.2.9 AT&T agrees that Sprint may provide a security escort for physical collocation, at no cost or undue delay to AT&T, to AT&T personnel while on Sprint Premises. While such escort shall not be a requirement to AT&T's entry into the Building, AT&T must allow the security escort to accompany AT&T personnel at all times and in all areas of the Building, including the Collocation Space, if so requested.

90.2.10 AT&T shall post in a prominent location visible from the common Building area, the names and telephone numbers of emergency contact personnel along with names and telephone numbers of their superiors for 24-hour emergency use by Sprint. AT&T shall promptly update this information as changes occur.

90.3 AT&T will provide Sprint with written notification within ten (10) business days of any scheduled AC or DC power work or related activity in the collocated facility that will or might cause an outage or any type of power disruption to Sprint equipment located in AT&T's facility. AT&T shall provide Sprint immediate notification by telephone of any emergency power activity that would impact Sprint equipment.

90.4 AT&T shall not provision and/or install Uninterruptible Power Supply ("UPS") systems within the Sprint premises. The customer is permitted to install Inverted Power Systems if and only if documented compliance with National Equipment Building Standards (NEBS) III and Listing by Underwriters Laboratory (UL) has been met.

90.5 AT&T shall not place Electro-Chemical Storage Batteries of any type inside the collocation space.

90.6 AT&T shall provide Sprint with written notice three (3) Business Days prior to those instances where AT&T or its Approved Contractors perform work, which is to be a known service affecting activity. AT&T will inform Sprint by e-mail of any unplanned service outages. The parties will then agree upon a plan to manage the outage so as to minimize customer interruption. Notification of any unplanned service outage shall be made as soon as practicable after AT&T learns that such outage has occurred so that Sprint can take any action required to monitor or protect its service.

90.7 AT&T may, at its own expense, install and maintain regular business telephone service in the Collocation Space. If requested by AT&T and at AT&T's expense, Sprint will provide basic telephone service with a connection jack in the Collocation Space.

90.8 AT&T shall, with the prior written consent of Sprint, have the right to provide additional fire protection systems within the Collocation Space; provided, however, that AT&T may not install or use sprinklers or carbon dioxide fire suppression systems within the Building or the Collocation Space.

90.8.1 If any governmental bureau, department or organization or Sprint's insurance carrier requires that changes or modifications be made to the fire protection system or that additional stand alone fire extinguishing, detection or

protection devices be supplied within that portion of the Building in which the Collocation Space of AT&Ts in general are located, such changes, modifications, or additions shall be made by Sprint and AT&T shall reimburse Sprint for the cost thereof in the same proportion as the size of the AT&T's Collocation Space as compared to the total available collocation space in the affected portion of the Building.

90.9 AT&T shall identify and shall notify Sprint in writing of any Hazardous Materials AT&T may bring onto the Premises, and will provide Sprint copies of any inventories or other data provided to State Emergency Response Commissions ("SERCs"), Local Emergency Planning Committees ("LEPCs"), or any other governmental agencies if required by the Emergency Planning and Community Right to Know Act (41 U.S.C. 11001, *et seq.*). AT&T, its agents and employees shall transport, store and dispose of Hazardous Materials in accordance with all applicable federal, state or local laws, ordinances, rules and regulations. AT&T will promptly notify Sprint of any releases of Hazardous Materials and will copy Sprint on any notification of or correspondence with any governmental agency which may be required by any environmental law as a result of such release.

90.9.10 AT&T shall provide Sprint copies of all Material Safety Data Sheets ("MSDSs") for materials or chemicals regulated under the OSHA Hazard Communication Standard (29 C.F.R. 1910.1200) that are brought onto the property. All such materials shall be labeled in accordance with 29 C.F.R. 1910.1200 and applicable state regulations if such regulations are more stringent.

90.9.11 If Sprint discovers that AT&T has brought onto Sprint's Premises Hazardous Materials without notification, or is storing or disposing of such materials in violation of any applicable environmental law, Sprint may, at Sprint's option and without penalty, terminate the applicable Collocation Space or, in the case of pervasive violation, this Agreement or suspend performance hereunder. AT&T shall be responsible for, without cost to Sprint, the complete remediation of any releases or other conditions caused by its storage, use or disposal of Hazardous Materials. AT&T shall also be responsible for removing and disposing of all Hazardous Materials on its Collocation Space at the termination of the applicable Collocation Space or this Agreement. If Sprint elects to terminate the applicable Collocation Space or this Agreement or discontinue the performance of services hereunder due to the storage, use or disposal of Hazardous Materials contrary to the terms of this Agreement, AT&T shall have no recourse against Sprint and shall be responsible for all costs and expenses associated with such termination or suspension of service in addition to being responsible for any remedies available to Sprint for defaults under this Agreement.

90.9.12 AT&T shall indemnify and hold harmless Sprint, its successors and assigns against, and in respect of, any and all damages, claims, losses, liabilities and expenses, including, without limitation, all legal, accounting, consulting, engineering and other expenses, which may be imposed upon, or incurred by, Sprint or asserted against Sprint by any other party or parties (including, without

limitation, Sprint's employees and/or contractors and any governmental entity) arising out of, or in connection with, AT&T's use, storage or disposal of Hazardous Materials.

90.9.13 For purposes of this Section, "Hazardous Materials" shall mean any toxic substances and/or hazardous materials or hazardous wastes (including, without limitation, asbestos) as defined in, or pursuant to, the OSHA Hazard Communication Standard (29 C.F.R. Part 1910, Subpart Z), the Resource Conservation and Recovery Act of 1976 (42 U.S.C. Section 6901, et seq.), or regulations adopted pursuant to those statutes, the Toxic Substances Control Act (15 U.S.C. Section 2601, et seq.), the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. Section 9601, et seq.) or any other federal, state or local environmental law, ordinance, rule or regulation. The provisions of this Section shall survive the termination, cancellation, modification or recession of this Agreement.

90.10 AT&T shall not do or permit anything to be done upon the Collocation Space, or bring or keep anything thereon which is in violation of any federal, state or local laws or regulations (including environmental laws or regulations not previously described), or any rules, regulations or requirements of the local fire department, Fire Insurance Rating Organization, or any other similar authority having jurisdiction over the Building. AT&T shall not do or permit anything to be done upon the Collocation Space which may in any way create a nuisance, disturb, endanger, or otherwise interfere with the Telecommunications Services of Sprint, any other occupant of the Building, their patrons or customers, or the occupants of neighboring property, or injure the reputation of the Premises.

90.10.1 AT&T shall not exceed the Uniformly Distributed Live Load Capacity. Sprint shall evaluate and determine Live Load Capacity rating on a site specific basis prior to equipment installation. AT&T agrees to provide Sprint with equipment profile information prior to installation authorization.

90.10.2 AT&T shall not paint, display, inscribe or affix any sign, trademark, picture, advertising, notice, lettering or direction on any part of the outside or inside of the Building, or on the Collocation Space, without the prior written consent of Sprint.

90.10.3 AT&T shall not use the name of the Building or Sprint for any purpose other than that of the business address of AT&T, or use any picture or likeness of the Building on any letterhead, envelope, circular, notice, or advertisement, without the prior written consent of Sprint.

90.10.4 AT&T shall not exhibit, sell or offer for sale, rent or exchange in the Collocation Space or on the Premises any article, thing or service except those ordinarily embraced within the use of the Collocation Space specified in Sections 3 and 11 of this Agreement without the prior written consent of Sprint.

90.10.5 AT&T shall not place anything or allow anything to be placed near the glass of any door, partition or window which Sprint determines is unsightly

from outside the Collocation Space; take or permit to be taken in or out of other entrances of the Building, or take or permit to be taken on any passenger elevators, any item normally taken through service entrances or elevators; or whether temporarily, accidentally, or otherwise, allow anything to remain in, place or store anything in, or obstruct in any way, any passageway, exit, stairway, elevator, or shipping platform. AT&T shall lend its full cooperation to keep such areas free from all obstruction and in a clean and neat condition, move all supplies, furniture and equipment directly to the Collocation Space as soon as received, and move all such items and waste, other than waste customarily removed by employees of the Building.

90.10.6 AT&T shall not, without the prior written consent of Sprint install or operate any lead-acid batteries, refrigerating, heating or air conditioning apparatus or carry on any mechanical business in the Collocation Space. Sprint may, in its sole discretion, withhold such consent, or impose any condition in granting it, and revoke its consent at will.

90.10.7 AT&T shall not use the Collocation Space for housing, lodging or sleeping purposes.

90.10.8 AT&T shall not permit preparation or warming of food, presence of cooking or vending equipment, sale of food or smoking in the Collocation Space.

90.10.9 AT&T shall not permit the use of any fermented, intoxicating or alcoholic liquors or substances in the Collocation Space or permit the presence of any animals except those used by the visually impaired.

90.11 AT&T, its employees, agents, contractors, and business invitees shall:

90.11.1 comply with all rules and regulations which Sprint may from time to time adopt for the safety, environmental protection, care, cleanliness and/or preservation of the good order of the Building, the Premises and the Collocation Space and its tenants and occupants, and

90.11.2 comply, at its own expense, with all ordinances which are applicable to the Collocation Space and with all lawful orders and requirements of any regulatory or law enforcement agency requiring the correction, prevention and abatement of nuisances in or upon the Collocation Space during the Term of this Agreement or any extension hereof.

90.12 AT&T shall not make installations, alterations or additions in or to the Collocation Space without submitting plans and specifications to Sprint and securing the prior written consent of Sprint in each instance. Sprint's consent shall not be unreasonably withheld or unduly delayed for non-structural interior alteration to the Collocation Space that do not adversely affect the Building's appearance, value, structural strength and mechanical integrity. Such work shall be done at the sole expense of AT&T.

90.12.1 All installations, alterations and additions shall be constructed in a good and workmanlike manner and only new and good grades of material shall be

used, and shall comply with all insurance requirements, governmental requirements, and terms of this Agreement. Work shall be performed at such times and in such manner as to cause a minimum of interference with Sprint's transaction of business. AT&T shall permit Sprint to inspect all construction operations within the Collocation Space.

90.12.2 All installations, alterations and additions which take the form of fixtures, except trade fixtures, placed in the Collocation Space by and at the expense of AT&T or others shall become the property of Sprint, and shall remain upon and be surrendered with the Collocation Space. Upon termination of this Agreement, however, Sprint shall have the right to require AT&T to remove such fixtures and installations, alterations or additions at AT&T's expense, and to surrender the Collocation Space in the same condition as it was prior to the making of any or all such improvements, reasonable wear and tear excepted.

90.12.3 All fixtures and other equipment to be used by AT&T in, about or upon the Collocation Space shall be subject to the prior written approval of Sprint, which shall not be unreasonably withheld.

90.12.4 AT&T shall not cut or drill into, drive nails or screws into, install conduit or wires, or in any way deface any part of the Collocation Space or the Building, outside or inside, without the prior written consent of Sprint. If AT&T desires signal, communications, alarm or other utility or service connections installed or changed, the same shall be made by and at the expense of AT&T. Sprint shall have the right of prior approval of such utility or service connections, and shall direct where and how all connections and wiring for such service shall be introduced and run. In all cases, in order to maintain the integrity of the Halon space for proper Halon concentration, and to ensure compliance with Sprint's fireproofing policy, any penetrations by AT&T, whether in the Collocation Space, the Building or otherwise, shall be sealed as quickly as possible by AT&T with Sprint-approved fire barrier sealants, or by Sprint at AT&T's cost.

90.12.5 AT&T equipment shall be connected to Sprint's grounding system.

90.12.6 AT&T hereby represents and warrants that the information provided to Sprint in any Application or other documentation relative to AT&T's request for telecommunications facility interconnection and Central Office Building collocation as contemplated in this Agreement is and shall be true and correct, and that AT&T has all necessary corporate and regulatory authority to conduct business as a telecommunications carrier. Any violation of this Section shall be deemed a material breach of this Agreement.

#### 91. BUILDING RIGHTS

91.1 Sprint may, without notice to AT&T:

91.1.1 Change the name or street address of the Premises;

91.1.2 Install and maintain signs on the exterior and interior of the Premises or

anywhere on the Premises;

91.1.3 Designate all sources furnishing sign painting and lettering, ice, mineral or drinking water, beverages, foods, towels, vending machines or toilet supplies used or consumed in the Collocation Space;

91.1.4 Have pass keys or access cards with which to unlock all doors in the Collocation Space, excluding AT&T's safes;

91.1.5 Reduce heat, light, water and power as required by any mandatory or voluntary conservation programs;

91.1.6 Approve the weight, size and location of safes, computers and all other heavy articles in and about the Collocation Space and the Building, and to require all such items and other office furniture and equipment to be moved in and out of the Building or Collocation Space only at such times and in such a manner as Sprint shall direct and in all events at AT&T's sole risk and responsibility;

91.1.7 At any time, to decorate and to make, at its own expense, repairs, alterations, additions and improvements, structural or otherwise, in or to the Collocation Space, the Premises, or any part thereof (including, without limitation, the permanent or temporary relocation of any existing facilities such as parking lots or spaces), and to perform any acts related to the safety, protection or preservation thereof, and during such operations to take into and through the Collocation Space or any part of the Premises all material and equipment required, and to close or suspend temporarily operation of entrances, doors, corridors, elevators or other facilities. Sprint shall limit inconvenience or annoyance to AT&T as reasonably possible under the circumstances;

91.1.8 Do or permit to be done any work in or about the Collocation Space or the Premises or any adjacent or nearby building, land, street or alley;

91.1.9 Grant to anyone the exclusive right to conduct any business or render any service on the Premises, provided such exclusive right shall not operate to exclude AT&T from the use expressly permitted by this Agreement, unless Sprint exercises its right to terminate this Agreement with respect to all or a portion of the Collocation Space;

91.1.10 Close the Building at such reasonable times as Sprint may determine, under such reasonable regulations as shall be prescribed from time to time by Sprint subject to AT&T's right to access.

91.2 If the owner of the Building or Sprint sells, transfers or assigns any interest in the Building, or there is any material change in the Lease to which the Building is subject, and such sale, transfers assignment or material change in the Lease gives rise to an obligation which is inconsistent with this Agreement, Sprint's performance under this Agreement shall be excused to the extent of the inconsistency. Sprint hereby agrees that it will use its reasonable efforts to avoid any such inconsistency; provided, however, that this obligation shall in no way obligate Sprint to incur any out of pocket expenses in its efforts to avoid such inconsistencies.

91.3 This Agreement shall at all times be subject and subordinate to the lien of any mortgage (which term shall include all security instruments) that may be placed on the Collocation Space and AT&T agrees, upon demand, to execute any instrument as may be required to effectuate such subordination.

#### 92. INSURANCE

92.1 During the term of this Agreement, AT&T shall carry, and shall cause any subcontractors to carry, with financially reputable insurers which are licensed to do business in all jurisdictions where any Property is located, not less than the following insurance:

92.1.1 Commercial General Liability with limits of not less than \$1,000,000 combined single limit per occurrence and aggregate for bodily injury, property damage and personal and advertising injury liability insurance to include coverage for contractual and products/completed operations liability, naming Sprint as additional insured;

92.1.2 Business Auto liability, including all owned, non-owned and hired automobiles, in an amount of not less than \$1,000,000 combined single limit per accident for bodily injury and property damage liability, naming Sprint as additional insured;

92.1.3 Workers Compensation as provided for in the jurisdiction where the Property is located, with an Employer's Liability limit of not less than \$500,000 per accident or disease; and

92.1.4 Umbrella or excess liability in an amount not less than \$5,000,000 per occurrence and aggregate in excess of the above-referenced Commercial General, Business Auto and Employer's Liability, naming Sprint as additional insured; and

92.1.5 "All Risk" property insurance on a full replacement cost basis insuring AT&T's property situated on or within the Property, naming Sprint as loss payee. AT&T may elect to insure business interruption and contingent business interruption, as it is agreed that Sprint has no liability for loss of profit or revenues should an interruption of service occur.

92.2 Nothing contained in this Section shall limit AT&T's liability to Sprint to the limits of insurance certified or carried.

92.3 All policies required of the AT&T shall contain evidence of the insurer's waiver of the right of subrogation against Sprint for any insured loss covered thereunder. All policies of insurance shall be written as primary policies and not contributing with or in excess of the coverage, if any, that Sprint may carry.

92.4 AT&T shall furnish to Sprint a certificate or certificates of insurance, satisfactory in form and content to Sprint, evidencing that the above coverage is in force and has been endorsed to guarantee that the coverage will not be cancelled or materially altered without first giving at least 30 days prior written notice to Sprint.

92.5 Sprint will carry not less than the insurance coverages and limits required of AT&T.

#### **93 INDEMNIFICATION**

93.1 AT&T shall indemnify and hold Sprint harmless from any and all claims arising from:

93.1.1 AT&T's use of the Collocation Space;

93.1.2 the conduct of AT&T's business or from any activity, work or things done, permitted or suffered by AT&T in or about the Collocation Space or elsewhere;

93.1.3 any and all claims arising from any breach or default in the performance of any obligation on AT&T's part to be performed under the terms of this Agreement; and

93.1.4 any negligence of AT&T, or any of AT&T's agents, and fees, expenses and liabilities incurred in the defense of any such claim or any action or proceeding brought thereon.

93.2 If any action or proceeding is brought against Sprint by reason of any such claim, AT&T, upon notice from Sprint, shall defend same at AT&T's expense employing counsel satisfactory to Sprint. AT&T, as a material part of the consideration to Sprint, hereby assumes all risk of damage to property or injury to persons in, upon or about the Collocation Space arising from any cause other than the sole negligence of Sprint, and AT&T hereby waives all claims in respect thereof against Sprint.

93.3 AT&T shall at all times indemnify, defend, save and hold harmless Sprint from any claims, liens, demands, charges, encumbrances, litigation and judgments arising directly or indirectly out of any use, occupancy or activity of AT&T, or out of any work performed, material furnished, or obligations incurred by AT&T in, upon or otherwise in

connection with the Collocation Space. AT&T shall give Sprint written notice at least ten (10) Business Days prior to the commencement of any such work on the Collocation Space in order to afford Sprint the opportunity of filing appropriate notices of nonresponsibility. However, failure by Sprint to give notice does not reduce AT&T's liability under this Section.

93.3.1 If any claim or lien is filed against the Collocation Space, or any action or proceeding is instituted affecting the title to the Collocation Space, AT&T shall give Sprint written notice thereof as soon as AT&T obtains such knowledge.

93.3.2 AT&T shall, at its expense, within thirty (30) Days after filing of any lien of record, obtain the discharge and release thereof or post a bond in an amount sufficient to accomplish such discharge and release. Nothing contained herein shall prevent Sprint, at the cost and for the account of AT&T, from obtaining such discharge and release if AT&T fails or refuses to do the same within the thirty-day period.

93.3.3 If AT&T has first discharged the lien as provided by law, AT&T may, at AT&T's expense, contest any mechanic's lien in any manner permitted by law.

#### 94 LIMITATION OF LIABILITY

94.1 SPRINT SHALL BE LIABLE FOR DAMAGE TO OR DESTRUCTION OF AT&T'S EQUIPMENT AND OTHER PREMISES ONLY IF SUCH DAMAGE OR DESTRUCTION IS CAUSED BY SPRINT'S SOLE NEGLIGENCE OR WILLFUL MISCONDUCT.

94.2 SPRINT WILL NOT BE LIABLE FOR (A) ANY SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, (B) ANY COMMERCIAL LOSS OF ANY KIND (INCLUDING, BUT NOT LIMITED TO, LOSS OF BUSINESS OR PROFITS), OR (C) ANY LOSS, DAMAGE OR EXPENSE DIRECTLY OR INDIRECTLY ARISING FROM USE OF OR INABILITY TO USE THE COLLOCATION SPACE EITHER SEPARATELY OR IN COMBINATION WITH OTHER EQUIPMENT OR SOFTWARE, BASED UPON BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, STRICT TORT OR ANY OTHER LEGAL THEORY, WHETHER OR NOT SPRINT HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE OR LOSS.

# 95 PARTIAL DESTRUCTION

95.1 If the Collocation Space or a portion thereof sufficient to make the Collocation Space substantially unusable shall be destroyed or rendered unoccupiable by fire or other casualty, Sprint may, at its option, restore the Collocation Space to its previous condition. AT&T's rights to the applicable Collocation Space shall not terminate unless, within ninety (90) Days after the occurrence of such casualty, Sprint notifies AT&T of its election to terminate AT&T's rights to the applicable Collocation Space. If Sprint does not elect to terminate AT&T's rights to the applicable Collocation Space, Sprint shall repair the damage to the Collocation Space caused by such casualty.

95.2 Notwithstanding any other provision of this Agreement to the contrary, if any casualty is the result of any act, omission or negligence of AT&T, its agents, employees, contractors, AT&Ts, customers or business invitees, unless Sprint otherwise elects, AT&T's rights to the applicable Collocation Space shall not terminate, and, if Sprint elects to make such repairs, AT&T shall reimburse Sprint for the cost of such repairs, or AT&T shall repair such damage, including damage to the Building and the area surrounding it, and the License Fee shall not abate.

95.3 If the Building shall be damaged by fire or other casualty to the extent that portions

are rendered unoccupiable, notwithstanding that the Collocation Space may be directly unaffected, Sprint may, at its election within ninety (90) Days of such casualty, terminate AT&T's rights to the applicable Collocation Space by giving written notice of its intent to terminate AT&T's rights to the applicable Collocation Space. The termination as provided in this paragraph shall be effective thirty (30) Days after the date of the notice.

#### **96 EMINENT DOMAIN**

96.1 If the Premises, or any portion thereof which includes a substantial part of the Collocation Space, shall be taken or condemned by any competent authority for any public use or purpose, AT&T's rights to the applicable Collocation Space shall end upon, and not before, the date when the possession of the part so taken shall be required for such use or purpose. If any condemnation proceeding shall be instituted in which it is sought to take or damage any part of the Premises, or if the grade of any street or alley adjacent to the Premises is changed by any competent authority and such change of grade makes it necessary or desirable to remodel the Premises to conform to the changed grade, Sprint shall have the right to terminate AT&T's rights to the applicable Collocation Space upon not less than 30 days notice prior to the date of cancellation designated in the notice. No money or other consideration shall be payable by Sprint to AT&T for such cancellation, and AT&T shall have no right to share in the condemnation award or in any judgment for damages caused by such eminent domain proceedings.

#### 97 BANKRUPTCY

97.1 If any voluntary or involuntary petition or similar pleading under any section or sections of any bankruptcy act shall be filed by or against AT&T, or any voluntary or involuntary proceeding in any court or tribunal shall be instituted to declare AT&T insolvent or unable to pay AT&T's debts, or AT&T makes an assignment for the benefit of its creditors, or a trustee or receiver is appointed for AT&T or for the major part of AT&T's property, Sprint may, if Sprint so elects but not otherwise, and with or without notice of such election or other action by Sprint, forthwith terminate this Agreement.

#### 98 ASBESTOS

98.1 AT&T is aware the Premises in which the Collocation Space is located may contain or have contained asbestos or asbestos containing building materials, and AT&T is hereby notified that the Premises in which the Collocation Space is located may contain asbestos or asbestos containing building material (ACBM). AT&T agrees that it is responsible for contacting the appropriate Sprint manager responsible for the Premises to determine the presence, location and quantity of asbestos or ACBM that AT&T's employees, agents, or contractors may reasonably expect to encounter while performing activities in the Premises. AT&T shall not have responsibility or liability for any damages, expenses, costs, fees, penalties of any kind arising out of, or in connection with, or resulting from the disturbance of asbestos or ACBM in the Premises unless such disturbance arises out of or in connection with, or results from AT&T's use of the Collocation Space or placement of equipment onto ACBM or into areas containing asbestos identified by Sprint. Sprint agrees to provide AT&T reasonable notice prior to undertaking any asbestos control, abatement, or other activities which may disturb asbestos or ACBM that could potentially affect AT&T's equipment or operations in the Collocation Space, including but not limited to the contamination of such equipment. Sprint will not have responsibility or liability for any damages, expenses, costs, fees, penalties of any kind arising out of, or in connection with the presence of asbestos in Sprint Premises.

#### 99 MISCELLANEOUS

99.1 AT&T warrants that it has had no dealings with any broker or agent in connection with this Agreement, and covenants to pay, hold harmless and indemnify Sprint from and against any and all cost, expense or liability for any compensation, commissions and charges claimed by any broker or agent with respect to this Agreement or the negotiation thereof.

99.2 Submission of this instrument for examination or signature by Sprint does not constitute a reservation of or option for license, and it is not effective, as a license or otherwise, until execution and delivery by both Sprint and AT&T.

99.3 Neither Sprint nor its agents have made any representation or warranties with respect to the Collocation Space of this Agreement except as expressly set forth herein; no rights, easements, or licenses shall be acquired by AT&T by implication or otherwise unless expressly set forth herein.

99.4 In the event of work stoppages, Sprint may establish separate entrances for use by personnel of AT&T. AT&T shall comply with any emergency operating procedures established by Sprint to deal with work stoppages.

99.5 The individuals executing this Agreement on behalf of AT&T represent and warrant to Sprint they are fully authorized and legally capable of executing this Agreement on behalf of AT&T.
