Florida Power and Light Request

Subsection 366.093, F.S., provides; “*Proprietary confidential business information means information, regardless of form or characteristics, which is owned or controlled by the person or company, is intended to be and is treated by the person or company as private in that the disclosure of the information would cause harm to the ratepayers or the person’s or company’s business operations, and has not been disclosed unless disclosed pursuant to a statutory provision, an order of a court or administrative body, or private agreement that provides that the information will not be released to the public. Proprietary confidential business information includes but is not limited to:*

....

*(b) Internal auditing controls and reports of internal auditors.*

....

*(e) Information relating to competitive business interests, the disclosure of which would impair the competitive business of the provider of the information....”*

According to Section 366.093, F.S., and Rule 25-22.006, FAC, the utility has the burden of demonstrating that materials qualify for confidential classification. According to Rule 25-22.006, FAC, the utility must meet this burden by demonstrating that the information is proprietary confidential business information, the disclosure of which will cause the utility, the provider of the information or the ratepayer harm.

### **Staff Analysis of the Request**

Reading the filing reveals the sensitive material consists of:

#### **1. Internal Auditing Controls and the Reports of Internal Auditors**

Witness Robert Onsgard, FPL Manager, Internal Auditing, identifies internal audit information reported within staff audit working papers titled “Internal Audit List” and “Internal Audits.” According to the requirements set out by Section 366.093(3)(b), F.S., internal audit information may be granted a confidential classification. Reading the information identified by witness Onsgard, we agree this is information pertaining to internal auditing controls and reports of internal auditors. Therefore, we recommend that this information be granted a confidential classification.

## 2. Customer-Specific Account Information, Including Bank Account Numbers

Witness Korel Dubin, FPL, Manager of Cost Recovery Clauses in the Regulatory Affairs Department, identifies customer-specific account information including bank account numbers within staff working papers titled: "Revenue" and "P&W".

Witness Kenneth Getchell, FPL Budget and Regulatory Support Manager, identifies customer-specific account information within staff working papers titled: "P&W" and "Sample", "Sales Report", "Job Detail", and "Monthly Sales Report."

Witnesses Dubin and Getchell also report "...It is FPL's corporate policy not to disclose customer-specific information. This policy includes, but is not limited to: customer names, addresses, telephone numbers, account numbers, rates, billing determinates, (kW and kWh usage), conservation savings in kW, kWh and bills. FPL treats such information as confidential and does not disclose it, except as required by law, to entities or persons other than the customer absent the customer's consent."

The Commission policy concerning customer-specific account information has been to grant confidentiality pursuant to the exemption described within Section 366.093(3)(e), F.S., on the basis that release of this information would harm the competitive business of the provider of the information. Reading the material identified by Witness Dubin, we agree that its release would cause harm to the provider of the information. Further, bank account information is held as confidential pursuant to the provisions set out in Section 119.071(5)(b), F.S.

### **Information Held as Confidential**

To qualify as proprietary confidential business information, the material must also be held as private and not released to the public. FPL asserts that this sensitive information meets the statutory restrictions necessary for the material to be provided a confidential classification, and asserts that the information has not been disclosed to the Public. Further, FPL witnesses report FPL has maintained the confidentiality of these materials.

### **Duration of the Confidential Classification Period**

FPL requests that this material be held as confidential for at least 18 months and that this material should be returned to FPL once the information is no longer needed for the Commission to conduct its business.

According to the provisions of Section 366.093(4), F.S., absent good cause shown, confidential classification is limited to 18 months. Without cause shown for a longer period, we recommend that the period of confidential classification be set as 18 months. As deemed necessary, the utility may request an extension of the confidential classification before the period tolls.

**Staff Recommendation**

Based upon reading the filing, and for the reasons presented above, we recommend the utility's request be granted and that the identified material be granted a confidential classification for 18 months.
