Re: Docket No. 070243-WS; Application for quick-take amendment of Certificate Nos. 534-S and 621-W in Franklin County to extend water and wastewater service, by St. James Island Utility Company.

Dear Mr. McDonnell:

Enclosed please find a copy of Order No. PSC-07-0982-FOF-WS which services as Certificate Nos. 621-W and 534-S. The order details actions taken by the Commission with regard to the certificate issued to St. James Island Utility Company. This order should be retained in the utility's office. The tariffs from this case have already been sent under separate cover.

If you have any questions, please call me at (850) 413-6999.

Sincerely,

ORDER APPROVING APPLICATION FOR QUICK-TAKE AMENDMENT

BY THE COMMISSION:

Background

St. James Island Utility Company (St. James or utility) is a Class C utility. The utility obtained their original certificates on August 5, 2004, by Order No. PSC-04-0755-PAA-WS.¹ According to its 2006 annual report, St. James does not have any water or wastewater customers. The utility had a net loss of \$83,915.

On April 5, 2007, the utility applied for a "Quick Take" amendment to Certificate Nos. 621-W and 534-S in Franklin County, Florida, pursuant to Rule 25-30.036(2), Florida Administrative Code. The completed application was filed on October 15, 2007. The proposed area is in the Northwest Florida Water Management District. The area is not in a Water Resource Caution Area (WRCA); however, there are concerns with water supply in that area. We have jurisdiction pursuant to Section 367.045, Florida Statutes.

Discussion

The utility, which is wholly owned by the St. Joe Company, was designed to serve Summer Camp, a planned community located along Highway 98 between Carrabelle and Alligator Point. The additional area requested includes the property for the wastewater treatment plant and an area across Highway 98 from Summer Camp for an administrative building.

The application is in compliance with the governing statute, Section 367.045, Florida Statutes, and other pertinent statutes and administrative rules concerning an application for

amendment of certificate. The water system has two 8 inch wells. Water treatment includes nano-filtration and disinfection is provided by sodium hypochlorite. After filtration, the water empties into a 150,000 gallon ground storage tank. High service pumps provide water pressure in the distribution system. Wastewater treatment will be provided by a 120,000 gpd wastewater facility with percolation ponds for disposal. We have contacted the Department of Environmental Protection and learned that there are no outstanding notices of violation issued for the St. James water or wastewater system.

Adequate service territory maps and a territory description have been provided as prescribed by Rule 25-30.036(3)(e) and (i), Florida Administrative Code. A description of the territory requested by the utility is appended as Attachment A. The utility has submitted an affidavit consistent with Section 367.045(2)(d), Florida Statutes, stating that it has tariffs and annual reports on file with us. In addition, the application contains proof of compliance with the noticing provisions set forth in Rule 25-30.030, Florida Administrative Code. No objections to the application have been received and the time for filing such has expired. The local planning agency was provided notice of the application and did not file a protest to the amendment.

The "Quick Take" amendment is designed to provide water and/or wastewater service quickly for areas that serve less than 25 equivalent residential connections (ERCs). The request for service territory expansion and amendment of an existing certificate is considered approved when the utility complies with Rule 25-30.036(2), Florida Administrative Code, and if no protest is timely filed to the notice of application.

The utility states that the new territory will not exceed a maximum of 25 ERCs at the time the territory is built out. The utility plans to provide service to the wastewater treatment plant and the administrative office building. According to St. James, no other utility in the area is willing and/or capable of providing reasonably adequate service to the territory. The utility has filed revised tariff sheets incorporating the additional territory into its tariff.

Based on the above information, we approve St. James Island Utility Company's application to amend Certificate Nos. 621-W and 534-S. The territory amendment is described in Attachment A to this order. This order shall serve as St. James Island Utility Company's amended certificate and it shall be retained by the utility. St. James Island Utility Company shall charge the customers in the added territory the rates and charges contained in its tariff until authorized to change by this Commission in a subsequent proceeding.

Based on the foregoing, it is

ORDERED by the Florida Public Service Commission that St. James Island Utility Company's application for "Quick Take" amendment to Certificate Nos. 621-W and 534-S in Franklin County, Florida, pursuant to Rule 25-30.036(2), Florida Administrative Code, is approved. The proposed territory amendment is described in Attachment A. It is further

ORDERED that St. James Island Utility Company shall charge the customers in the added territory the rates and charges contained in its tariff until authorized to change by this Commission in a subsequent proceeding. It is further

ORDERED that this docket shall be closed.

By ORDER of the Florida Public Service Commission this 10th day of December, 2007.

NOTICE OF FURTHER PROCEEDINGS OR JUDICIAL REVIEW

The Florida Public Service Commission is required by Section 120.569(1), Florida Statutes, to notify parties of any administrative hearing or judicial review of Commission orders that is available under Sections 120.57 or 120.68, Florida Statutes, as well as the procedures and time limits that apply. This notice should not be construed to mean all requests for an administrative hearing or judicial review will be granted or result in the relief sought.

Any party adversely affected by the Commission's final action in this matter may request:

- 1) reconsideration of the decision by filing a motion for reconsideration with the Office of Commission Clerk, 2540 Shumard Oak Boulevard, Tallahassee, Florida 32399-0850, within fifteen (15) days of the issuance of this order in the form prescribed by Rule 25-22.060, Florida Administrative Code; or
- 2) judicial review by the Florida Supreme Court in the case of an electric, gas or telephone utility or the First District Court of Appeal in the case of a water and/or wastewater utility by filing a notice of appeal with the Office of Commission Clerk, and filing a copy of the notice of appeal and the filing fee with the appropriate court. This filing must be completed within thirty (30) days after the issuance of this order, pursuant to Rule 9.110, Florida Rules of Appellate Procedure. The notice of appeal must be in the form specified in Rule 9.900(a), Florida Rules of Appellate Procedure.
