Re: Holiday Utility Company Order No. PSC-08-0593-PAA\_WU Docket No. 070394-WU RECEIVED-FPSC 08 NOV 17 AM 9: 05 COMMISSION CLERK

Attention: Mr. Ralph Jaeger

November 12, 2008

As per your request yesterday, of Mr. Joseph Gabay, regarding the status of Holiday Utilities in meeting the requirements of the consent order, we offer the following:

 By agreement with the FDEP and the subsequent "Agreement to Consent Order" dated August 20, 2008, the date to begin purchasing water from Tarpon Springs was changed from July 1, 2008 to October 1, 2008.

On September 30, 2008, the Anclote wells were taken out of service and the purchase of water from the City of Tarpon Springs enacted. FDEP was notified of the activity via e-mail to Ms. Gwen Shofner of DEP (copy attached).

On October 13, 2008, photographic evidence of the disconnections of the wells were submitted to FDEP (copy attached), although a physical inspection of the site by FDEP had occurred four (4) days prior.

2.) Within the 30 day period after the purchase of water from Tarpon Springs began, an application to the Southwest Florida Water Management District (SWFWMD) was made to abandon the wells. The permit for abandonment was received on October 22, 2008 (copy attached).

The contract with the Well Service Company which will perform the work requires that the work be completed in 45 days once authorized to proceed. Such schedule will easily comply with the 90 day (after permit issuance) requirement of the consent order.

Sincerely,

Jerray (for)

David Schultz, Sr. Senior Vice President U.S. Water Services Corporation

## Dave Schultz Sr.

From:Dave Schultz Sr.Sent:Thursday, October 02, 2008 8:16 PMTo:'Shofner, Gwen'Cc:Ken MartinSubject:Holiday/ Anclote—Wells

Gwen, Just an FYI to let you know that the wells at Anclote were taken out of service on the evening of Sept. 30, 2008 The meter was read at that time on the connection with Tarpon Springs and the well meters were also read at that time. We will have an air gap established at each of the specified wells by the end of business tomorrow and photographic evidence of the same as required. Anyway just wanted you to know that we had not forgotten to pull the plug in case you were wondering due to knowledge that rates to cover purchased water costs are not yet in effect ---- but are close. We appreciate the previous extension---will keep you posted with documentation per the order. Thanks

David Schultz, Sr.

Subject:	Anclote well disconnections
Attachments	anclote wells 2,4 ,& 5 001.jpg; anclote wells 2,4 ,& 5 002 part II.jpg; anclote wells 2,4 ,& 5 003 part III.jpg

Gwen, Please find attached photographic evidence of the disconnection of the specified wells from the Anclote system. As you are aware FDEP inspector Ms. Margie DeBerry visited the site last week and took pictures consistent with the attached. In addition to the disconnection at the specified wells, an air gap was created at the hydro tank just to reassure FDEP that the one remaining well that is to be converted to an irrigation well could not pump into the system if for some reason it was inadvertently turned on or turned on for sampling purposes. We appreciate the time extension previously granted and by all indications to our person who accompanied Ms. DeBerry we understand FDEP to be satisfied with our activities during the conversion. Please contact me should you have any questions or suggestions. Thanks
