Docket No. 090009-EI
Filed: September 1, 2009

**FLORIDA POWER & LIGHT COMPANY'S
REVISED REQUEST FOR CONFIDENTIAL CLASSIFICATION OF
MATERIALS PROVIDED PURSUANT TO PROJECT MANAGEMENT AUDIT**

Pursuant to Section 366.093, Florida Statutes, and Rule 25-22.006, Florida Administrative Code, Florida Power & Light Company ("FPL") requests confidential classification of certain material provided to the Staff of the Florida Public Service Commission ("Staff") pursuant to its audit titled Florida Power & Light's Project Management Internal Controls for Nuclear Plant Uprate and Construction Projects ("the Audit"). In support of its request, FPL states as follows:

1. During the Audit, Staff was provided with various confidential documents. By letter dated June 25, 2009, Staff indicated its intent to retain certain confidential documents as audit work papers and provided a draft audit report. Pursuant to Rule 25-22.006(3)(a), Florida Administrative Code, FPL was given 21 days from the date of the letter to file a formal request for confidential classification with respect to the work papers and draft audit report. Accordingly, FPL filed a Request for Confidential Classification on July 16, 2009, (the "July 16, 2009 Request") to maintain continued confidential handling of those items.

2. Since FPL's July 16, 2009 filing, FPL has determined that sections of certain confidential workpapers no longer require confidential treatment. Additionally, it was brought to FPL's attention that certain administrative errors were made in the compilation of Exhibit B and that a confidential compact disc was inadvertently omitted from the list of confidential items presented on Exhibit C. Accordingly, FPL is filing this Revised Request for Confidential Classification with respect to those items.

2. The following exhibits are included with and made a part of this request:

a. "Exhibit A – Revised Pages (Confidential)" includes a copy the confidential documents which have changed since the July 16, 2009 filing, on which all information that is entitled to confidential treatment under Florida law has been highlighted. Only those workpapers which have changed are included. These pages are intended to supersede and replace those same pages of Exhibit A which were provided with FPL's July 16, 2009 Request.

b. "Exhibit B – Revised Pages" consists of redacted versions of the confidential documents which have changed since the July 16, 2009 filing. Only those workpapers which have changed are included. These pages are intended to supersede and replace those same pages of Exhibit B which were provided with FPL's July 16, 2009 Request.

c. Revised Exhibit C is a table containing the specific line and page references to all of the confidential materials for which confidential treatment is sought, and references to the specific statutory basis or bases for the claim of confidentiality and to the affidavit in support of the requested classification. Revised Exhibit C is intended to supersede and replace the Exhibit C provided with its July 16, 2009 Request.

d. The Exhibit D provided with FPL's July 16, 2009 Request is incorporated herein by reference.

4. FPL submits that the highlighted information in Exhibit A is proprietary confidential business information within the meaning of Section 366.093(3), Florida Statutes. This information is intended to be and is treated by FPL as private, and its confidentiality has been maintained. Pursuant to Section 366.093, such information is entitled to confidential

treatment and it is exempt from the disclosure provisions of the public records law. Thus, once the Commission determines that the information in question is proprietary confidential business information, the Commission is not required to engage in any further analysis or review such as weighing the harm of disclosure against the public interest in access to the information.

5. As the affidavits included in Exhibit D indicates, certain information provided by FPL contains information related to internal auditing controls or reports of internal auditors. This information is protected from public disclosure pursuant to Section 366.093(3)(b), Florida Statutes. Certain materials contain information related to bids or contractual data, such as pricing or other terms, the public disclosure of which would violate nondisclosure terms of FPL's contracts with certain vendors and impair FPL's ability to contract for goods or services on favorable terms in the future. Such information is protected by Section 366.093(3)(d), Florida Statutes. Additionally, this and other information relates to competitive interests, and could impair the competitive business of the provider of the information. Such information is protected by Section 366.093(3)(e), Florida Statutes.

6. Upon a finding by the Commission that the information highlighted in Exhibit A, and referenced in Exhibit C, is proprietary confidential business information, the information should not be declassified for a period of at least eighteen (18) months and should be returned to FPL as soon as the information is no longer necessary for the Commission to conduct its business. *See* § 366.093(4), Fla. Stat. FPL further requests that the pages in the original Exhibit A and Exhibit B for which replacement pages are provided be returned to FPL.

WHEREFORE, for the above and foregoing reasons, as more fully set forth in the supporting materials and affidavits included herewith, Florida Power & Light Company respectfully requests that its Revised Request for Confidential Classification be granted.

Respectfully submitted,
