RE: Closure of Docket No. 090253-WS

Handwritten initials: CFB, SF

On April 29, 2009, Chairman Carter approved the Utility's request for a projected December 31, 2010 test year and required Lindrick to file its minimum filings requirements (MFRs) by August 29, 2009. The Utility was granted an extension later to file its MFRs by September 30, 2009. By letter dated September 30, 2009, to Chairman Carter, Lindrick stated, in pertinent part, the following:

Despite the Company's diligent efforts, it has not been able to complete compilation of its MFRs within the allotted time. The Company still intends to pursue its rate case before the Commission; however, it also wants to provide the Commission with the most current information available. Therefore, the Company is withdrawing its request for test year approval at this time, and will submit a new request for a test year approval in the near future.

(Emphasis added).

Staff has determined that there are no pending issues that need to be addressed by the Commission. Therefore, pursuant to 2.07C.2.d.(4), Administrative Procedures Manual, Docket No. 090253-WS should be administratively closed. When Lindrick requests a new test year, another docket number will be assigned to process that new test year and rate relief request.
