Water Usage History

Message Center (see reverse side for other information)

- This bill includes refunds in the form of multiple credits, which are itemized and listed as "adjustments." The credits include the cost paid for water and, or wastewater, plus interest, and reflect the difference between the amount of interim revenue approved by the Florida Public Service Commission (PSC) and the amount of final revenue approved.
- Please note, your account number is a 16-digit number. The full 16-digits including any zeros must be provided to ensure correct and prompt posting to your Aqua account

Water Usage History

Message Center (see reverse side for other information)

- Lake Jasmine increased its monthly garbage collection fee in February 2009 from \$10.93 to \$11.66. While we were able to include the increased charge on your May bill, we must charge you retroactively for February through April. The retroactive charge appears on a line that reads "Retro Active Garbage Rate Increase" and varies between \$.73 and \$2.19 depending on your months of service. We apologize for any inconvenience.
- Please note, your account number is a 16-digit number. The full 16-digits including any zeros must be provided to ensure correct and prompt posting to your Aqua account

- Lake Jasmine increased its monthly garbage collection fee in February 2009 from \$10.93 to \$11.66. While we were able to include the increased charge on your May bill, we must charge you retroactively for February through April. The retroactive charge appears on a line that reads "Retro Active Garbage Rate Increase" and varies between \$.73 and \$2.19 depending on your months of service. We apologize for any inconvenience.
- Please note, your account number is a 16-digit number. The full 16-digits including any zeros must be provided to ensure correct and prompt posting

Message Center (see reverse side for other information)

- Lake Jasmine increased its monthly garbage collection fee in February 2009 from \$10.93 to \$11.66. While we were able to include the increased charge on your May bill, we must charge you retroactively for February through April. The retroactive charge appears on a line that reads "Retro Active Garbage Rate Increase" and varies between \$.73 and \$2.19 depending on your months of service. We apologize for any inconvenience.
- Please note, your account number is a 16-digit number. The full 16-digits including any zeros must be provided to ensure correct and prompt posting

Message Center (see reverse side for other information)

- Lake Jasmine increased its monthly garbage collection fee in February 2009 from \$10.93 to \$11.66. While we were able to include the increased charge on your May bill, we must charge you retroactively for February through April. The retroactive charge appears on a line that reads "Retro Active Garbage Rate Increase" and varies between \$.73 and \$2.19 depending on your months of service. We apologize for any inconvenience.
- Please note, your account number is a 16-digit number. The full 16-digits including any zeros must be provided to ensure correct and prompt posting

Aqua has reviewed the 378 bills and compared them to the August 2009 Meter Reading Log. Of the 378 bills, there are 6 bills which do not match the meter reading log. The primary reason for the variance is that AUF's system issues estimated bills where a service order is processed during the time the meter reading is uploaded and the bill is issued. More detailed explanations for these 6 bills are set forth below .

- 1) Customer – [REDACTED]
Premise – [REDACTED]

An estimated bill was issued because a service order (shut off for non-payment) was completed during the meter reading upload and billing window. A revised bill was sent out to the customer during the next cycle upload. The revised bill has been attached for documentation.

- 2) Customer – [REDACTED]
Premise – [REDACTED]

An estimated bill was issued because a service order (move-in) was completed during the meter reading upload and billing window. The following month, this customer received the updated and revised bill. The revised bill is attached for documentation.

- 3) Customer – [REDACTED]
Premise – [REDACTED]

This customer was moved out for non-payment as of March 2009 and moved back in as of July 2009. The customer received an estimated bill because the service order closed at the time of this upload. The revised bill is attached for documentation.

- 4) Customer – [REDACTED]
Premise – [REDACTED]

An estimated bill was issued because a service order (turn-off) was completed during the meter reading upload and billing window. The following month the customer was sent an actual bill for the usage used at the property. The revised bill is attached for documentation.

- 5) Customer – [REDACTED]
Premise – [REDACTED]

This customer's account was estimated because there was no consumption history. The field representative followed up and investigated the account. The customer was eventually moved out of the premises for nonpayment. The revised bill is attached for documentation.

- 6) Customer – [REDACTED] (inactive)
Customer – [REDACTED] (active)
Premise – [REDACTED]

An estimated bill was issued due to a customer move-out and a coding error by a customer service representative. [REDACTED] moved out of the premise in December 2008. When [REDACTED] moved in, the customer service representative inadvertently activated the old account of [REDACTED]. The error was identified and a revised bill was issued for [REDACTED] and [REDACTED] in August and September 2009 respectively. The revised bills have been attached to document the correction.

Water Usage History

Message Center (see reverse side for other information)

- This bill includes refunds in the form of multiple credits, which are itemized and listed as "adjustments." The credits include the cost paid for water and, or wastewater, plus interest, and reflect the difference between the amount of interim revenue approved by the Florida Public Service Commission (PSC) and the amount of final revenue approved.
- Please note, your account number is a 16-digit number. The full 16-digits including any zeros must be provided to ensure correct and prompt posting to your Aqua account

Return this portion with your payment.
Keep top portion for your records.
