LIST OF EXHIBITS

Appendix I – Qualifications of Donna Ramas

Exhibit_(DR-1) – Revenue Requirement Calculations – Schedules A, B, B-1 – B-8, C, C-1 – C-5, D

Exhibit_(DR-2) – Listing of 2009 Cash Exchanges Between WMSI, Brown Management Group, Inc. and Gene D. Brown from WMSI General Ledger

Exhibit_(DR-3) – Listing of 2008 Cash Exchanges Between WMSI, Brown Management Group, Inc. and Gene D. Brown from WMSI General Ledger

Exhibit_(DR-4) – WMSI Investment in Associated Companies and Notes Receivable from Associated Companies

Exhibit (DR-5) – Asset Sales

Exhibit (DR-6) – LFE 21 – Salary Survey

Exhibit (DR-7) – Executive Deferred Compensation Plan

Exhibit (DR-8) - Backhoe Trailer Sales Booked

Exhibit (DR-9) – LFE 5 – Backhoe Trailer Info

Exhibit (DR-10) – POD 21 – Backhoe Sale to BMG

Exhibit (DR-11) – POD 27 – 2007 Chevy Tahoe

Exhibit (DR-12) - Transfer of Leasehold Interests

Exhibit (DR-13) – Debt on 2007 Chevy Tahoe

Exhibit (DR-14) – Bank Loan Commitment

1		DIRECT TESTIMONY
2		OF
3		DONNA RAMAS
4		On Behalf of the Office of Public Counsel
5		Before the
6		Florida Public Service Commission
7		Docket No. 100104-WU
8		
9		I. INTRODUCTION/BACKGROUND/SUMMARY
10	Q.	PLEASE STATE YOUR NAME, OCCUPATION AND BUSINESS
11		ADDRESS.
12	А.	My name is Donna Ramas. I am a Certified Public Accountant licensed in the
13		State of Michigan and a senior regulatory analyst at Larkin & Associates, PLLC,
14		Certified Public Accountants, with offices at 15728 Farmington Road, Livonia,
15		Michigan 48154.
16		
17	Q.	PLEASE DESCRIBE THE FIRM LARKIN & ASSOCIATES, PLLC.
18	А.	Larkin & Associates, PLLC, is a Certified Public Accounting Firm. The firm
19		performs independent regulatory consulting, primarily for public service/utility
20		commission staffs and consumer interest groups (public counsels, public
21		advocates, consumer counsels, attorneys general, etc.). Larkin & Associates,
22		PLLC has extensive experience in the utility regulatory field as expert witnesses
23		in over 600 regulatory proceedings.
24		
25	0.	MS. RAMAS, WOULD YOU PLEASE SUMMARIZE YOUR

REGULATORY EXPERIENCE AND QUALIFICATIONS?

2 Α. I graduated with honors from Oakland University in Rochester, Michigan in 1991. 3 I have been employed by the firm of Larkin & Associates, PLLC, since 1991. As a certified public accountant and regulatory consultant with Larkin & Associates, 4 5 PLLC, my duties have included the analysis of utility rate cases and regulatory 6 issues, researching accounting and regulatory developments, preparation of 7 computer models and spreadsheets, the preparation of testimony and schedules and testifying in regulatory proceedings. I have submitted testimony in over sixty 8 (60) regulatory proceedings in various jurisdictions in the United States of 9 10 America, including several proceedings before the Florida Public Service Commission. I have also developed and conducted five training programs on 11 12 behalf of the Department of Defense - Navy Rate Intervention Office on measuring the financial capabilities of firms bidding on Navy assets and one 13 14 training program on calculating the revenue requirement for municipal owned water and wastewater utilities. Additionally, I have served as an instructor at the 15 16 Michigan State University - Institute of Public Utilities as part of their Annual 17 Regulatory Studies programs.

18

19 Q. HAVE YOU PREPARED AN EXHIBIT FURTHER DETAILING YOUR

20

QUALIFICATIONS AND EXPERIENCE?

A. Yes. I have attached Appendix I, which is a summary of my regulatory
experience and qualifications.

23

Q. ON WHOSE BEHALF ARE YOU FILING TESTIMONY IN THIS
 PROCEEDING?

1	А.	Larkin & Associates, PLLC was retained by the Florida Office of Public Counsel
2		(OPC) to review the rate case filing submitted by Water Management Services,
3		Inc. (WMSI or Company). Accordingly, I am appearing on behalf of the OPC.
4		
5	Q.	WHAT IS THE PURPOSE OF YOUR TESTIMONY IN THIS
6		PROCEEDING?
7	А.	I am presenting the OPC's overall recommended revenue requirement in this case.
8		I also sponsor adjustments to the Company's proposed rate base and operating
9		income, as well as adjustments to the Company's proposed calculation of its
10		weighted long debt rate.
11		
12	Q.	HAVE YOU PREPARED ANY EXHIBITS IN SUPPORT OF YOUR
13		RECOMMENDATIONS IN THIS CASE?
14	А.	Yes. I have prepared Exhibit_(DR-1), which consists of Schedules A, B, C and
15		D with supporting Schedules B-1 through B-8 and Schedules C-1 through C-5.
16		These schedules present the OPC's overall recommended revenue requirement as
17		well as the supporting calculations and additional information for several of the
18		adjustments that I am recommending within this testimony.
19		
20	Q.	ARE ANY ADDITIONAL WITNESSES SUBMITTING TESTIMONY ON
21		BEHALF OF THE OPC?
22	А.	Yes. Andrew Woodcock is also submitting testimony in this case on behalf of the
23		OPC. I have reflected the impact of Mr. Woodcock's recommendations in my
24		summary schedules presented in Exhibit_(DR-1).
25		

1 Q. WHAT DOES YOUR SCHEDULE "A" TITLED "CALCULATION OF

2

REVENUE REQUIREMENT'' SHOW?

3 A. Schedule A presents the revenue requirement calculation at this time giving effect to all of the adjustments I am recommending in this testimony, as well as the 4 impacts of the recommendations of OPC witness Andrew Woodcock. 5 The 6 operating income adjustments presented on Schedule A can be found on Schedule Schedules B-1 through B-8 provides supporting calculations for my 7 Β. recommended adjustments to net operating income. The adjustments presented 8 9 on Schedule A which impact rate base can be found on my Schedule C, with 10 supporting calculations provided on Schedules C-1 through C-5. Schedule D presents my recommended overall rate of return in this case. 11

12

Q. BASED ON THE OPC'S REVIEW AND ANALYSIS, WHAT IS THE REVENUE REQUIREMENT FOR WMSI?

A. As shown on Schedule A, Column 5, line 1, the OPC's recommended adjustments
in this case results in a recommended increase in operating revenues of \$78,419.
This is approximately \$563,000 less than the revenue increase requested by
WMSI of \$641,629.

19

20 Q. HOW WILL THE REMAINDER OF YOUR TESTIMONY BE 21 ORGANIZED?

A. I will first address various problems and concerns with WMSI's affiliated transactions and relationships. I then present my recommended adjustments to WMSI's adjusted test year operating income, followed by my recommended adjustments impacting WMSI's requested rate base. Finally, I address the requested long term debt cost rate presented by WMSI, and recommend several
 adjustments to the determination of the long term debt cost rate to include in this
 case.

4 II. PROBLEMS/CONCERNS WITH AFFILIATED TRANSACTIONS 5 AND RELATIONSHIPS

6 Q. WOULD YOU PLEASE GIVE A BREIF SUMMARY OF THE 7 RELATIONSHIPS BETWEEN WMSI, BROWN MANAGEMENT GROUP, 8 AND GENE BROWN?

9 A. Yes. Gene D. Brown is the President and Chief Executive Officer of Water 10 Management Services, Inc. In addition to being the President and CEO of WMSI, 11 he also owns the controlling interest in WMSI and makes all final operating 12 decisions as they pertain to WMSI. Mr. Brown also has effective day-to-day 13 control over WMSI. The Application in this case shows that St. George Island Utility Co., Ltd. owns 85% of WMSI's stock, and an additional 10% is owned by 14 15 Brown Management Group. Gene D. Brown and Marilyn B. Brown own 54% 16 ownership interest in the various entities that are included in the St. George Island 17 Utility Co., Ltd.

18

Based on the response to OPC Interrogatory 12, Brown Management Group, Inc.
("BMG") is a corporation that "holds and manages investments of Gene Brown,
all of which are passive", and Gene Brown is the sole owner of BMG. Thus, Mr.
Brown is in control of both WMSI and BMG.

23

24 Q. HAS THE MANAGEMENT OF WMSI BY GENE BROWN BEEN AN

1 ISSUE IN PAST CASES BEFORE THE FLORIDA PUBLIC SERVICE

2 COMMISSION?

Α. 3 Yes, it has. In Order No. PSC-94-1383-FOF-WU, the Commission stated at page 47 that "It appears that Mr. Brown's past actions have contributed to the financial 4 problems of the utility." The Order cites several instances at pages 47 through 50 5 in which Mr. Brown's actions was a concern, including, but not limiting to, Mr. 6 Brown using utility property as collateral to secure loans for non-utility purposes, 7 the utility not paying ad valorem taxes for a number of years, the utility not being 8 9 continuously covered for general liability or workers compensation insurance, and problems with getting a well on-line. In that decision, the Commission 10 reduced the amount of management fees from Mr. Brown to be included in rates. 11

12

Q. IS THERE REASON TO BE CONCERNED WITH HOW THE UTILITY IS CURRENTLY BEING MANAGED?

Yes. During the test year in this case and subsequently, WMSI has been very late 15 A. in making many of its payments. WMSI was assessed a penalty by the Florida 16 Public Service Commission (FPSC) for not paying its Regulatory Assessment 17 Fee for the period July 1, 2009, through December 31, 2009, by the February 1, 18 2010 due date. Based on a review of the Company's 2009 general ledger that 19 20 was provided in response to OPC POD 3, it appears that WMSI did not submit the federal income tax withholdings and FICA and medicare taxes on a timely 21 basis. In fact, the 2009 general ledger shows \$3,085.53 booked to account 22 236.30 - Accrued Taxes - Federal W/H on September 30, 2009, for an 23 "Estimated Tax Penalty - QTR 9/30/09" and an additional \$3,500 booked to the 24 account on December 31, 2009, for "IRS 941 Penalty 12/31/09." The accounts 25

payable account in the 2009 general ledger also shows that on October 7, 2009,
the Company paid \$1,940.97 to the United States Treasure for a "Penalty –
6/30/09". While the penalties have not been booked in above-the-line accounts
and are not included in the test year expenses in the Company's filing, it is still a
great concern that the Company is incurring many penalties.

6

Additionally, based on a review of the expenses recorded during the test year and
subsequently, coupled with a review of the accounts payable balances, there are
long delays in making many payments for utility related services. For example,
on September 30, 2009, the company booked an expense for an invoice from
Rowe Drilling Company for \$14,489.90. The Company's 2010 general ledger
shows that \$10,000 was paid on this invoice on May 10, 2010, more than seven
months after the invoice was received.

14

During 2009 and 2010, WMSI was also unable to make two of its principal and interest payments on its outstanding loan with the Florida Department of Environmental Protection and resorted to refinancing the loan terms. This will be addressed in further detail later in this testimony.

19

Q. DID THE COMPANY INCUR ANY NEW COSTS OR COSTS NOT RELATED TO ITS WATER OPERATIONS DURING THIS PERIOD IN WHICH IT WAS APPARENTLY FACING FINANCIAL CONSTRAINTS?

A. Yes. As will be discussed later in this testimony, during the 2009 test year, Gene
 Brown granted significant increases in the salaries of two of his employees. Mr.
 Brown also implemented a new executive deferred compensation plan during

2009 with a related expense recorded on the Company's books of \$80,000.
 During 2009, WMSI also filed an Application for authority to provide Wastewater
 Service to St. George Island, incurring \$52,851 of costs that it deferred on its
 books and now wants to recover from its water customers. Each of these issues
 will be addressed later in this testimony. These actions are questionable,
 particularly in consideration of the fact that WMSI has not been paying its bills in
 a timely manner and is incurring associated penalties and late fees.

8

9 Q. DURING THE LAST FEW YEARS, WHAT LEVEL OF CASH 10 TRANSACTIONS OR TRANSFERS OCCURRED BETWEEN WMSI, 11 BGM AND GENE BROWN?

In Exhibit (DR-2) and Exhibit (DR-3), I am providing a listing of all entries 12 A. recorded on WMSI's general ledger in its various cash accounts for transactions 13 that identify either Gene D. Brown or Brown Management group for 2009 and 14 15 2008, respectively. As is readily apparent from a review of these exhibits, there were numerous entries recorded on WMSI's books for both debits and credits to 16 the various WMSI cash accounts associated with Gene D. Brown and Brown 17 Management Group, Inc. A debit entry in the listing would signify an increase in 18 WMSI's cash account, whereas a credit entry is a decrease in the cash balance. 19 The listing for 2009 provided as Exhibit (DR-2) is 5 pages long, while the 20 21 listing for 2008 is 4 pages. As shown on the final page of Exhibit (DR-2), during 2009 WMSI had a total of \$434,775 in cash going out to Gene D. Brown 22 with \$50,103 coming in from him in that period, resulting in a net amount going 23 24 out identified as to Gene D. Brown of \$384,672. During that same period, a total of \$109,441 is shown as going out to Brown Management Group, while \$362,964 25

is shown as coming in, or debiting WMSI's cash account, from BMG. The net
 result taking into account both BMG and Gene Brown is that \$131,038 more went
 out of the WMSI cash account than came in from both Gene Brown and BMG
 combined. This is during a period of apparent financial constraint for WMSI.

5

6 Exhibit (DR-3) shows that during 2008, WMSI had a total of \$389,725 in cash going out to Gene D. Brown with \$16,250 coming in from him in that period, 7 8 resulting in a net amount going out identified as to Gene D. Brown of \$373,475. 9 During that same period, a total of \$103,050 is shown as going out to Brown Management Group, while \$215,029 is shown as coming in, or debiting WMSI's 10 11 cash account, from BMG. The net result taking into account both BMG and Gene 12 Brown is that \$261,496 more went out of the WMSI cash account than came in during 2008 from both Gene Brown and BMG combined. Over the two year 13 period, the combined result would be that \$392,534 more dollars left the WMSI 14 cash accounts and went to either Gene Brown or BMG. Again, this analysis is 15 based on all of the transactions to the cash accounts listed in WMSI's general 16 ledgers for 2008 and 2009 that were identified as either Gene D. Brown or Brown 17 Management Group. 18

19

Q. ARE THERE ANY ADDITIONAL ACCOUNTS ON WMSI'S BOOKS THAT CHANGED DURING THAT PERIOD THAT WOULD CAUSE CONCERN REGARDING THE AFFILIATED RELATIONSHIPS?

A. Yes. On Exhibit_(DR-4) I show the balance recorded on WMSI's books in
 Account 123.00 – Investment in Associated Companies at various points in time.
 As shown on this exhibit, the balance of Investment in Associated Company

1 recorded on WMSI's books increased from a January 1, 2008, beginning balance 2 of \$924,617 to \$1,213,905 as of the December 31, 2009, test year end and 3 \$1,262,402 as of June 30, 2010. The Investment in Associated Company recorded on WMSI's books increased by \$337,785 over the period January 1. 4 5 2008, through June 30, 2010. One must question the prudence of WMSI increasing its investment in affiliated entities during a period in which it was 6 7 unable to pay many of its bills on time and during the period in which it was unable to pay two principal payments on an outstanding loan with the Florida 8 Department of Environmental Protection. 9

11 Also of concern is that on July 21, 2008, \$85,000 went out of one of WMSI's cash accounts to "SMC Investment Properties." As part of the same journal entry, 12 Account 123.00 - Investment in Associated Companies was increased by the 13 \$85,000, with the transaction description shown as "SMC investment Properties – 14 Loan to SMC." This \$85,000 is included in the increase in Investment in 15 Associated Companies referenced above. Based on some research, it appears 16 SMC Investment Properties, Inc. was incorporated by Sandra Chase, who is the 17 Vice President and Secretary of WMSI, in 2006. At the time this testimony is 18 being filed, OPC is in the process of pursuing this transaction further through 19 discovery. 20

21

10

Additionally, as shown on Exhibit_(DR-4), as of the end of the test year, December 31, 2009, WMSI also had a note receivable from an Associated Company balance of \$100,000. This also causes prudence concerns in a period in which WMSI is under apparent cash constraints.

1	Q.	ABOVE YOU INDICATE THAT THE INVESTMENT IN ASSOCIATED
2		COMPANIES RECORDED ON WMSI'S BOOKS INCREASED BY
3		\$337,785 BETWEEN JANUARY 1, 2008, AND JUNE 30, 2010. DID
4		SIMILAR LEVELS OF INCREASE OCCUR IN PRIOR YEARS?
5	А.	Based on a review of the Annual Reports filed with the Florida Public Service
6		Commission, the balance in Account 123 - Investment in Associated Companies
7		was \$0 on December 31, 2004. During 2004, the balance increased from \$0 to
8		\$110,532. During 2005, the amount of Investment in Associated Companies
9		increased by \$535,316 to \$645,848. During 2006 and 2007, the balance increased
10		by \$127,586 and \$151,183, respectively, resulting in a December 31, 2007,
11		balance of \$924,617. The amount of WMSI's Investment in Associated
12		Companies over the 5 $\frac{1}{2}$ year period ended June 30, 2010, has increased from \$0
13		to \$1,262,402.

Q. ARE THERE ADDITIONAL TRANSACTIONS BETWEEN WMSI AND BMG BEYOND THE APPARENT FREQUENT TRANSFERS OF CASH, NOTE RECEIVABLE FROM BMG AND THE INCREASE IN THE INVESTMENT IN BMG?

A. Yes. There appears to be frequent transfers of assets between WMSI and BMG,
particularly in the area of vehicles and transportation equipment. Later in this
testimony I will reference several instances in which assets were transferred from
WMSI to BMG that are of particular concern, such as those involving a backhoe
trailer and a vehicle.

24

25

On Exhibit_(DR-5) I provide copies of two exhibits submitted by WMSI in

response to OPC interrogatories 8 and 13. OPC Interrogatory 8 asked WMSI to 1 provide a list of all assets that were owned by WMSI that have been sold or 2 3 transferred to other entities, affiliates, persons or parties for the period December 4 31, 1992, to date. Based on that response, between 1999 and 2009, three vehicles 5 were sold or traded to ABC (a past affiliated entity), a backhoe trailer was sold to BMG (which will be discussed later in this testimony), the St. George Island 6 7 apartments above the WMSI island office were sold to Brown Management Group, and lots were sold to "ABC/BMG". 8

9

The information provided indicates that the lots that were sold to ABC/BMG on November 1, 2007, were valued at \$236,000 on WMSI's books and sold for \$454,429 for a gain of \$192,752. It does not appear from information that I have seen that this gain on sale of utility assets was ever passed on to WMSI's customers. I recommend that WMSI be required to provide additional information regarding the lot sales to BMG during 2007 to determine if the gain should be passed on to WMSI's customers.

17

As will also be addressed later in this testimony, WMSI sold its administrative office in Tallahassee in 2005. According to the response to OPC Interrogatory 54, WMSI "...decided to sell its administrative office to produce cash flow needed for operating revenue and it did not have sufficient funds to purchase another office." WMSI is now leasing an administrative office in Tallahassee from Brown Management Group at an annual expense of \$18,000.

24

25

Later in this testimony I recommend several adjustments pertaining to

transactions between WMSI and BMG as well as a recommended allocation of
 labor and rental costs from WMSI to BMG.

3

4

III. ADJUSTMENTS TO OPERATING INCOME

5 Allocation of Employee Costs to Affiliated Operations

Q. PREVIOUSLY IN THIS TESTIMONY YOU IDENTIFIED CONCERNS
YOU HAVE WITH THE AFFILIATE RELATIONSHIPS AND WITH THE
TRANSACTIONS OCCURRING BETWEEN WMSI AND BROWN
MANAGEMENT GROUP. HAS THE COMPANY ALLOCATED ANY OF
THE LABOR RELATED COSTS IN ITS FILING TO ANY OF THE
AFFILIATED ENTITIES?

No, it has not. The labor costs for all of WMSI's employees are allocated 100% 12 Α. According to the responses to OPC to WMSI's regulated operations. 13 Interrogatory 12, there is no allocation of cost from WMSI to Brown Management 14 Group. In the response, the Company also indicated that Gene D. Brown and 15 Sandra Chase each work approximately two hours per week for all of the various 16 entities owned by Gene Brown and that this two hours is "outside the 40+ hour 17 week that they work for WMSI." The response also indicates that Bob Mitchell, 18 who is WMSI's controller, works approximately two hours per week for Brown 19 Management Group and some of the other entities owned by Mr. Brown. 20 However, the Company has allocated no salary and wage cost to Brown 21 Management Group for these employees. 22

23

Q. SHOULD ANY OF THE SALARIES, WAGES AND BENEFIT COSTS FOR THE INDIVIDUALS THAT ALSO PERFORM SERVICES FOR

BROWN MANAGEMENT GROUP BE ALLOCATED TO BROWN
 MANAGEMENT GROUP AND REMOVED FROM UTILITY
 OPERATIONS?

А. 4 Yes. WMSI's captive water customers should not be required to subsidize Brown Management Group, Inc.'s operations in any way. It is not reasonable to allocate 5 6 zero labor costs to Brown Management Group for the WMSI employees who also perform work associated with Brown Management Group, Inc. The response to 7 8 OPC Interrogatory 12 indicates that Brown Management Group is "A corporation 9 that holds and manages investments of Gene Brown, all of which are passive." 10 Judging by the level of transactions on the Company's books associated with 11 Gene Brown personally and with Brown Management Group, Inc., it is not 12 reasonable to assume that Mr. Brown, Ms. Chase and Mr. Mitchell work only 13 approximately two hours per week for Brown Management Group and that all of 14 these hours are above and beyond a normal full work week. It is also not 15 reasonable to assume that Ms. Chase and Mr. Mitchell are performing services 16 that are benefiting Brown Management Group, Inc. free of charge to Mr. Brown 17 and to Brown Management Group, Inc. Previously in this testimony I discussed 18 the level of cash transactions that occur between WMSI, Brown Management 19 Group, Inc. and Gene Brown which were based on a review of the Company's General Ledgers that were provided in this case. Additionally, I also addressed 20 asset transfers between WMSI and Brown Management Group, Inc. 21 Also discussed is the fact that the amount of investment in associated companies 22 recorded on WMSI's books has increased by \$337,785 between the period 23 January 1, 2008, through June 30, 2010, with the June 30, 2010, balance on 24 25 WMSI's General Ledger being \$1,262,402.

Q. WHAT ADJUSTMENT DO YOU RECOMMEND FOR ALLOCATING LABOR RELATED COSTS TO THE AFFILIATE OPERATIONS, OR TO BROWN MANAGEMENT GROUP, INC.?

A. My recommended adjustment is presented on Schedule B-1. This schedule lists 4 5 the amount included in the adjusted 2009 test year for the salaries, health insurance and 401(k) plan pension expenses for Gene Brown, Sandra Chase and 6 7 Bob Mitchell. Each of these individuals is also involved in providing services to Brown Management Group. As mentioned previously, the purported function of 8 9 Brown Management Group, Inc. is to manage the investments of Gene Brown. 10 In this schedule, I have incorporated my recommended adjusted salary for Sandra 11 Chase who is the Vice President and Secretary for WMSI. This adjustment will be addressed later in this testimony. As shown on line 10 of Schedule B-1, the 12 13 salaries and benefits for these employees in the adjusted test year are \$257,752.

14

While the Company has indicated that Mr. Brown and Ms. Chase, as well as Mr. 15 Mitchell, work only approximately two hours per week on Brown Management 16 Group related matters, this does not appear to be a reasonable estimate of their 17 time. Bob Mitchell is the controller of the Company. Previously as Exhibit 18 (DR-2) and Exhibit (DR-3), I provided a listing of the recorded cash 19 transactions between WMSI, Brown Management Group, and Gene D. Brown. 20 This is all of the amounts recorded on WMSI's General Ledger during 2008 and 21 2009 for cash being transferred between the accounts of these three entities or 22 individual. Given the extensive amount of transfers between the various cash 23 accounts of these entities, it is not realistic to assume that only two hours per 24 week are dedicated by the Company's controller and Mr. Brown associated with 25

1 the Brown Management Group, or other non-regulated related operations. As 2 shown on Schedule B-1, I recommend that 12.5% of the salary and benefit costs 3 associated with the three employees identified be allocated to affiliates and not be included in WMSI's utility operating expenses. This 12.5% factor was derived 4 5 assuming that each of these employees would dedicate about five of every 40 6 hours of their time focused on affiliated and non-regulated matters. As shown on line 14 of Schedule B-1, this results in a recommended reduction to the employee 7 8 costs of \$32,219.

9

Allocation of Rent to Affiliated Operations

Q. ARE THERE ANY ADDITIONAL EXPENSES RECORDED ON WMSI'S BOOKS DURING THE TEST YEAR THAT YOU RECOMMEND BE ALLOCATED TO AFFILIATED OPERATIONS?

13 A. Yes. Mr. Brown, Ms. Chase, and Mr. Mitchell all work out of the Company's Tallahassee offices. These offices are owned by Brown Management Group, Inc., 14 and 2009 test year expenses recorded on the Company's books include \$18,000 15 for the payment to Brown Management Group for rental expense on these offices. 16 17 Consistent with my recommendation that 12.5% of Mr. Brown, Ms. Chase and 18 Mr. Mitchell's salaries being allocated to affiliated operations. I also recommend 19 that 12.5% of the rent expense associated with the Tallahassee office be allocated 20 to affiliated entities. This results in a \$2,250 reduction to test your rent expense 21 and is shown on Schedule B-2.

22

Q. HAS THE COMPANY ALWAYS RENTED THIS FACILITY FROM BROWN MANAGEMENT GROUP?

25 A. No, it has not. According to the response to OPC Interrogatory 54, WMSI owned its

1 own administrative office until 2005 at which point it sold its administrative office. 2 The Company indicated in their response to 54[©] that WMSI decided to sell its 3 administrative office to produce cash flow needed for operating revenue and that it did not have sufficient funds to purchase another office. At that same time, the Company 4 5 entered into an agreement to rent administrative offices from Brown Management 6 Group, Inc. Presumably this would also increase cash flow to Mr. Brown through 7 regular monthly payments now being made to BMG in the form of rent expense. I am not sure of the date in which Brown Management Group acquired the administrative 8 9 offices that are now being rented to WMSI.

10

11 Accounting Services Expense

WMSI'S FILING INCLUDES AN ADJUSTMENT TO INCREASE THE Q. 12 LEVEL OF ACCOUNTING SERVICES COSTS 13 THAT WERE 14 **RECORDED DURING THE TEST YEAR. COULD YOU PLEASE DISCUSS THIS ADJUSTMENT?** 15

During the 2009 test year the Company recorded accounting fees of \$4,225. 16 Α. These include costs associated with tax return preparation and various accounting 17 and bookkeeping assistance. These payments were made to Barbara Withers, 18 CPA. Ms. Withers has prepared the Company's tax returns for many years. It 19 also includes a cost associated with Ms. Withers' preparation of an accounting 20 manual on behalf of the Company that identifies certain accounting policies and 21 22 procedures. As part of its request in this case, the Company has proposed that the 23 annual account services expense be increased to \$18,000 per year, resulting in an increase in the test year expenses of \$13,775. According to the direct testimony 24 of Gene Brown, at page 17, the proposed accounting services contract would 25

assure that the Company has priority access to a high level certified public account for an average of 10 hours per month. The contract is set up as a monthly retainer payment of \$1,500, which the Company contends is better for its cash flow. Mr. Brown's testimony also indicates that any unused hours are credited to the months during which more hours are required.

6

In response to OPC POD 34 and 35, the Company provided a copy of the 7 accounting engagement letter that discusses the new retainer arrangement. Based 8 on this letter, the utility would pay Ms. Withers' firm \$1,500 per month beginning 9 10 January 15, 2010. Ms. Withers' would then bill against that retainer at the end of each month and those would be adjusted to the retainer at the end of each calendar 11 year. The difference would be set as a credit for work to be done in the following 12 year or a payment if the actual services exceed the retainer amounts. Based on a 13 14 review of the 2010 General Ledger as well as invoices provided in response to OPC POD 36, the Company has been booking the \$1,500 per month as an 15 expense on its books during 2010; however, it has not been regularly paying those 16 balances. The response to OPC POD 36 shows that as of June 30, 2010, the total 17 18 retainer billing on a monthly basis would have been \$9,000 and the Company had only paid \$1,500 as of that period. 19

20

Q. HOW DOES THE PROPOSED ANNUAL ACCOUNTING SERVICES EXPENSE REQUESTED BY THE COMPANY OF \$18,000 COMPARE TO THE HISTORIC LEVEL OF ACCOUNTING COSTS INCURRED?

A. On Schedule B-3 I provide the annual amount of accounting fees incurred by the
 Company from outside firms or consultants by year for the period 2005 through

2009. This response shows that the costs have varied in the last five years; 1 however, none have come close to approaching the \$18,000 annual cost level 2 requested by the Company. In fact, the highest amount of accounting fees cost 3 incurred by the Company for outside consultants or firms was \$10,626 in 2005, 4 and that included fees associated with setting up a new fixed asset and 5 depreciation program. The next highest level was the amount incurred on the 6 Company's books during 2009, which included costs associated with Ms. Withers 7 preparing an accounting manual on behalf of the Company. Over the past five 8 years, the average accounting fees incurred by the Company has been \$3,667. 9

10

Q. IN YOUR OPINION, HAS THE COMPANY JUSTIFIED THIS SIGNIFICANT PROJECTED COST INCREASE ASSOCIATED WITH OUTSIDE ACCOUNTING FEES AND SERVICES?

A. No, it has not. In fact, the Company has an in house controller whose duties include accounting and bookkeeping activity as well as responsibility for the General Ledger, payroll, payroll tax returns, preparation of financial statements, as well as other accounting type services. The Company also has an office administrator who assists the controller in the day to day accounting functions. The Company has not justified the need for a significant increase in the amount of assistance it will require from an external certified public accounting firm.

- 21
- 22

Q. WHAT ADJUSTMENT DO YOU RECOMMEND?

A. As shown on Schedule B-3, I recommend that the accounting expenses contained
in the Company's adjusted test year be reduced by \$14,333 to reflect the five year
average cost of \$3,667. The Company has not justified a cost above the historic

1 average level. Additionally, as previously mentioned, the historic period I used in 2 deriving the average includes some non-recurring type costs as these costs 3 fluctuate from period to period. As shown on Schedule B-3, the historic costs that were used in deriving the average include costs associated with setting up the new 4 5 fixed asset and depreciation program, the cost associated with Ms. Withers' preparation of an accounting manual on behalf of the Company, as well as costs 6 associated with a valuation study of the water system that was conducted in 2007. 7 Thus, it is my opinion that using the five-year average level would set a 8 reasonable level going forward. The Company has not justified an amount above 9 this level. 10

- 11
- 12

Engineering Services Expense

Q. WOULD YOU PLEASE DISCUSS THE COMPANY'S REQUEST AS IT PERTAINS TO THE INCREASE IN ENGINEERING SERVICES EXPENSES?

The Company has proposed that the amount of engineering services expense 16 A. recorded on its books during the 2009 test year of \$27,500 be increased by 17 \$20,500 to allow for an annual expense level of \$48,000. This amount would be 18 based on paying the engineering firm PBS&J a retainer of \$4,000 per month, 19 resulting in an expenditure of \$48,000 per year to be used for engineering 20 services. According to Mr. Brown's testimony in this case, at page 15, the 21 Company must have access to high quality engineering services on a consistent 22 basis, and its proposed \$48,000 per year annual cost would assure that the 23 24 Company would have a priority with a firm such as PBS&J in order for them to "continue providing a high level service and maintenance of all of our 25

operations." PBS&J is the firm that recently completed the water system
 evaluation on behalf of the Company and provided an extensive report on its
 findings.

4

5 Q. IS THE \$48,000 REQUESTED ANNUAL EXPENSE LEVEL FOR 6 ENGINEERING SERVICES CONSISTENT WITH THE LEVEL OF 7 COSTS THE COMPANY HAS HISTORICALLY INCURRED FOR THIS 8 TYPE OF SERVICES?

A. No, it is not. In OPC Interrogatory 25, the Company was asked to provide the
amount of engineering services cost the Company has incurred for non-capital
engineering work for each year from 2005 to date. WMSI responded that "There
are no non-capital engineering expenses for 2005 through 2008." As previously
mentioned, the Company recorded on its books \$27,500 of expense in the 2009
test year for engineering services costs charged to expense.

15

Q. WHY DID THE COMPANY INCUR SUCH A HIGH ENGINEERING EXPENSE LEVEL IN 2009?

The costs recorded by the Company in its books in 2009 are associated with 18 A. PBS&J conducting the complete water system evaluation on behalf of the 19 Company and making recommendations based on its evaluation. A complete 20 evaluation of this type would be non-recurring in nature. While the evaluation 21 would typically be an expense item, one would expect that the majority of any 22 engineering costs and expenditures incurred by the Company on a regular basis 23 would be capital in nature and would be specific to capital projects, such as the 24 pro forma projects proposed by the Company in this case. Engineering costs 25

associated with projects such as those proposed by the Company would be capitalized as part of the project cost and would not be recorded as an expense on the Company's books.

4

3

1

2

Q. WHAT ADJUSTMENT SHOULD BE MADE TO THE AMOUNT OF ENGINEERING SERVICE COSTS TO INCLUDE IN EXPENSE IN WMSI'S FILING?

8 A. Since the engineering service expenses recorded on the Company's books during 9 the historic test year are non-recurring in nature, as they were associated with the 10 complete water system evaluation, I recommend that these non-recurring costs be 11 amortized over a five-year period. This is consistent with Rule 25-30.433(8) 12 which states that "Non-recurring expenses shall be amortized over a 5-year period 13 unless a shorter or longer period of time can be justified." Thus, I recommend 14 that these non-recurring expenses that fell within the test year in this case be 15 amortized over a period of five years. As a completed evaluation of the water 16 system has recently been completed, future engineering services would likely be of a capital nature and not something that would be recorded as an expense on the 17 Company's books. Based on discussions I have had with OPC's engineering 18 19 witness, Andrew Woodcock, it would be more typical that engineering expenditures would be capital in nature, particularly as the Company has recently 20 21 completed the water system evaluation.

22

Q. WHAT ADJUSTMENT NEEDS TO BE MADE TO THE COMPANY'S FILING TO REFLECT YOUR RECOMMENDATION?

25 A. As shown on Schedule B-4, the Company's proposed adjusted test year

engineering expenses should be reduced by \$42,500. This would allow for an
 annual amortization of \$5,500 for the non-recurring engineering service expenses
 incurred by the Company during the test year.

4

5

DEP Refinancing Costs

Q. ON SCHEDULE B YOU HAVE AN ADJUSTMENT TO REMOVE \$2,500 FROM TEST YEAR EXPENSES IDENTIFIED AS "REMOVE NONRECURRING DEP REFINANCING CONSULTING COSTS". COULD YOU PLEASE EXPLAIN WHY YOU ARE REMOVING THESE COSTS?

A. According to the response to OPC Interrogatory 51, test year expenses charged to Account 636-Contractual Services-Other, includes \$2,500 paid to Sigma Project Solution LLC on December 14, 2009. The response identifies these costs as "DEP Refinancing Consulting". I recommend that the \$2,500 of consulting costs for the DEP Refinancing be removed from test year expenses because these are non-recurring costs and these costs should not be passed onto the Company's customers.

17

The Company currently has a loan outstanding with the Department of 18 Environmental Protection at a low interest rate of approximately 2.99%. This 19 loan was used at the time that the Company was required to replace the water 20 main that provides service to St. George Island. As part of the Company's 21 response to OPC POD 8, it provided a copy of Amendment No. 3 to its loan 22 agreement under the State Revolving Fund Program. According to this 23 amendment to the loan, Water Management Services, Inc. had requested a 24 restructuring of the loan as a result of "worsening economic conditions." As part 25

of this restructuring, the semi-annual loan payments that were due on November 1 15, 2009, and on May 15, 2010, were reduced to zero with interest accruing and 2 added to the outstanding balance of the loan due. The refinancing resulted in the 3 semi-annual loan payments resuming beginning on November 15, 2010 at a 4 payment requirement of \$147,751 on a semi-annual basis, or twice per year, for 5 remaining loan payment numbers 15 through 60. Apparently, the Company did 6 not have the cash necessary to pay the November 2009 and May 2010 loan 7 payments that were due. The cost incurred by the Company for assistance in 8 9 refinancing this loan should be removed from the test year and should not be passed on to customers. 10

11

12 Q. WHY SHOULD THEY BE REMOVED FROM THE TEST YEAR?

First, they should be non-recurring refinancing costs. Second, the Company's 13 Α. customers should not be harmed through an increase in expenses as a result of the 14 Company being unable to adequately manage its cash flow. As indicated near the 15 16 beginning of this testimony, there has been a significant level of cash transfers 17 between the WMSI's books, Brown Management Inc. and Gene Brown. As shown in Exhibit (DR-3), during 2008 the amount of cash going out of the 18 various cash accounts on the Company's General Ledger identified as going to 19 either Gene D. Brown or Brown Management Group exceeded the amount of cash 20 coming into the utility from these two entities by more than \$260,000. During 21 22 2009 the amount of cash going out to either Gene D. Brown or Brown Management Group exceeded the amount of cash coming in from those entities 23 based on an analysis of the Company's 2009 General Ledger, by approximately 24 \$131,000. As shown on Exhibit (DR-4), the amount recorded on WMSI's 25

General Ledger in Account 123-Investment and Associated Companies increased 1 by \$337,785 between the period January 1, 2008, and June 30, 2010. 2 Additionally, as shown in the same exhibit, as of December 31, 2009, the amount 3 of notes receivable from associated companies recorded on WMSI's books was 4 \$100,000. Clearly, it causes the OPC great concern to see the investment in 5 associated companies increasing and to also see that there are notes receivable 6 from associated companies still outstanding during the same period that the 7 Company was unable to pay its debt obligation on the DEP loan. The Company's 8 customers should not be harmed by incurring increased costs as the result of 9 Company management not adequately managing its cash flow and in the decision 10 by the President of the Company, Gene D. Brown, to transfer utility cash funds 11 between WMSI's cash accounts, his personal account and the account of Brown 12 Management Group, Inc. 13

14

As will be addressed later in this testimony under the discussion of rate case expense, the Company has deferred additional charges from Sigma Project Solutions, LLC. To the extent that any of these charges are associated with refinancing costs, they should also be excluded from rate case expenses to be recovered from customers.

20

21 Contract Labor Costs

Q. AS PART OF ITS ADJUSTMENTS TO THE SALARIES INCLUDED IN
 THE 2009 TEST YEAR, WMSI REMOVED SOME CONTRACT LABOR
 COSTS. WOULD YOU PLEASE DISCUSS THESE ADJUSTMENTS?
 A. Yes. As part of the Company's salary expense adjustment shown on MFR

1 Schedule B-3, pages 4 and 5, the Company removed \$6,000 for contractual services performed by Hank Garrett during 2009. The reason provide was that 2 Mr. Garrett is now a full time employee of WMSI and the Company has added his 3 4 labor costs on an annualized level in this case. Additionally, the Company 5 removed the contractual service fees paid to Charles Painter for \$6,366, as he will not be providing these services in 2010. During the 2009 test period there was a 6 turnover of both employees and contractual labor used by WMSI. 7 The Company's salary and wage adjustment reflects the annual level of salary and 8 9 wage cost associated with the current employees, and removes the employees that 10 left the Company's services during 2009, as well as removing the contractual 11 services that the Company will no longer be using.

12

13 Q. DID THE COMPANY CORRECTLY ADJUST FOR THE 14 CONTRACTUAL LABOR COST IN ITS FILING?

A. Not entirely. In its Adjustment 12g shown on MFR Schedule B-3, page 4 of 5,
the Company removed \$6,000 for the contractual services performed by Hank
Garrett. However, as shown on Company Schedule B-9, the actual amount of
payments to Hank Garrett for his services during the test year was \$7,250. In
response to OPC Interrogatory 50 the Company agrees that its adjustment to
remove his fees should have been for \$7,250 instead of \$6,000. I have reflected
the removal of the additional \$1,250 of contractual service costs on Schedule B.

22

23 <u>Out of Period Costs</u>

Q. IN COMPANY WITNESS FRANK SEIDMAN'S TESTIMONY, AT PAGE 4, HE INDICATES THAT HE MADE MINOR CORRECTIONS TO

EXPENSES FOR "EXPENSES INCURRED DURING THE TEST YEAR
 BUT NOT BOOKED UNTIL THE FOLLOWING QUARTER." ARE
 THERE ANY ADDITIONAL ADJUSTMENTS THAT NEED TO BE
 MADE TO INSURE THAT TEST YEAR COSTS ONLY INCLUDE COSTS
 ASSOCIATED WITH THE 2009 TEST YEAR?

Yes. According to the response to OPC Interrogatory 51, test year expenses 6 Α. include \$1,305 charged from Management & Regulatory Consultants, Inc. for the 7 preparation of the 2008 PSC annual report. Additionally, on December 31, 2009, 8 the Company recorded \$5,000 for charges from Management & Regulatory 9 Consultants, Inc. for the 2009 annual report. This \$5,000 was based on a retainer 10 and according to the Company's 2010 General Ledger the Company received a 11 refund of \$1,893 of the \$5,000 retainer that was paid. Thus, test year expenses 12 include costs associated with the 2008 annual report as well as costs associated 13 with the 2009 annual report, part of which had been refunded to the Company in 14 15 the following period. Consequently, an adjustment must be made so that test year expenses only reflect an annual level of costs associated with its annual report 16 preparation. 17

- 18
- 19

Q. WHAT ADJUSTMENT SHOULD BE MADE?

A. Test year expenses include a total of \$6,305 to Management and Regulatory Consultants, Inc. for the annual report preparation. However, based on the amounts paid during the test year and the subsequent refund for some of those amounts received in 2010, the actual costs for the 2009 annual report preparation would have been \$3,107. The expenses recorded in the test year for annual report preparation should be reduced by \$3,198 in order that only an annual level of these expenditures are incorporated in the adjusted test year. I have reflected this adjustment to remove \$3,198 on Schedule B.

3

4

1

2

Rate Case Expense

5 Q. ARE YOU RECOMMENDING ANY ADJUSTMENTS TO THE 6 PROJECTED RATE CASE EXPENSE INCORPORATED IN THE 7 COMPANY'S FILING?

Yes. In its filing, WMSI estimates that the rate case expense associated with this A. 8 proceeding will be \$228,613, and is amortizing this projected cost level over a 9 four-year period. WMSI MFR Schedule B-10 provides a listing of the projected 10 cost that the Company will incur as part of this case. I am recommending that 11 several of the costs included by the Company be removed. WMSI MFR Schedule 12 B-10 shows projected costs associated with the legal counsel retained by the 13 Company in this case, Radey, Thomas, Yon & Clark, P.A., as well as the 14 projected cost for Frank Seidman of M&R Consultants, Inc. for assistance in this 15 case. Frank Seidman has submitted prefiled testimony in this case on behalf of 16 the Company. However, in addition to these legal costs and rate case assistance 17 costs, WMSI also included costs that it has identified as being "preliminary" in 18 nature. The Company included \$3,340 of charges from the firm Rose, Sundstrom 19 and Bentley, PA which is identified as "preliminary legal counsel". Also included 20 is \$9,348 for the assistance of Robert Nixon of Carlstedt, Jackson, Nixon & 21 Wilson, CPAs, which has been identified as "preliminary rate case evaluation". 22 In other words, WMSI switched legal counsel and accounting assistance that it 23 retained for this case after an initial evaluation was conducted. I recommend that 24 these preliminary costs be removed and not recovered from customers as part of 25

the rate case expenses.

2

3

4

Q. DID YOU INQUIRE WHY THESE PRELIMINARY COSTS WERE INCURRED AND THE NATURE OF THE COSTS?

Yes. OPC Interrogatory 56 asked the Company to explain why costs were being 5 A. included for two separate legal firms, one as preliminary legal counsel and one as 6 the current legal counsel, as well as why costs were included for two rate case 7 consulting firms, one of which was identified as preliminary rate case evaluation. 8 In response to OPC Interrogatory 56(a), the Company stated that "The 9 10 'preliminary legal counsel' included a high level analysis of WMSI's position as well as work in trying to find financing for WMSI." The response also indicated 11 12 that this information was needed for WMSI to make a decision regarding how to 13 proceed with the case. In response to sub-part (b), the Company indicated that Radey, Thomas, Yon & Clark PA had "No special expertise in locating funding 14 sources for a water utility, but was able to work with WMSI on a payment 15 schedule that allowed the Company to proceed with highly qualified legal 16 counsel." The response also indicated the Company's position that there was no 17 overlap or waste of costs. Assisting a Company in finding financing is not a rate 18 case expense. Additionally, as previously mentioned in this testimony, many of 19 the financing problems or concerns for the Company are the result of affiliated 20 transactions and relationships which have left the Company in an oft times 21 22 precarious financial situation.

23

Regarding the "preliminary rate case evaluation" assistance from the CPA firm,
the Company indicated that "The Carlstedt firm did preliminary work in analysis

that was useful to Rose, Sundstrum in their financing efforts and to WMSI in 1 preparing the case for filing." The response also indicated that before the MFRs 2 were prepared, WMSI determined that it would be more cost effective to use 3 M&R Consultants rather than the Carlstedt firm because M&R Consultants had 4 done the Company's annual reports and was familiar with WMSI. However, this 5 explanation does not justify the inclusions of costs for the preliminary work or 6 analysis done by the Carlstedt firm. Ratepayers should not pay for two different 7 accounting firms and two different legal firms to assist in the preparation of a 8 case particularly, when the Company decided to switch firms during the 9 preparation stages. Consequently, I recommend that these preliminary legal costs 10 and preliminary rate case evaluation costs be removed. 11

12

Q. HAVE YOU PREPARED A SCHEDULE SHOWING YOUR RECOMMENDED ADJUSTMENTS TO THE COMPANY'S PROPOSED RATE CASE EXPENSE?

A. Yes. My recommended adjustments are shown on Schedule B-5. As shown on lines 2 and 3 of this schedule, I removed the preliminary legal costs of \$3,340 and the preliminary rate case evaluation cost of \$9,348. The removal of these costs result in an adjusted rate case expense of \$215,925 which results in an annual amortization expense of \$53,981. This is \$3,172 less than the proposed annual amortization incorporated in the Company's filing.

22

Q. DOES THE FLORIDA PUBLIC SERVICE COMMISSION TYPICALLY ALLOW THE RATE CASE EXPENSES IN RATE CASES TO BE TRUED UP TO ACTUAL COSTS LATER IN THE PROCEEDINGS?

A. In several prior proceedings in which I have been engaged, I have noted that Staff
has asked for an update of the rate case expenses incurred as well as the invoices
supporting those costs in order to evaluate the level of rate case expense to allow.
If that is done as part of this case, certain costs that have been deferred by WMSI
as rate case expense on its books should be excluded.

In response to OPC Request for Production of Document No. 49, the Company 6 7 provided copies of pages from its general ledger listing out all of the rate case costs that have been deferred to date, as well as invoices for the services provided 8 to date. Included in the information provided was a charge of \$2,500 from Sigma 9 10 Project Solutions, LLC, which was recorded on the Company's 2010 General 11 Ledger on February 12, 2010 as part of the deferred rate case costs. There is also 12 a charge from the same firm for \$2,056.42 booked on March 12, 2010. The 13 invoices from Sigma Project Solutions, LCC provided with OPC POD 49 merely identify the \$2,500 as a "retainer" and identify the \$2,056.42 as a "reconciliation 14 in addition to retainer." No further information was provided on the invoices 15 16 regarding what services were provided by Sigma Project Solutions, LLC, or how 17 those services in anyway pertains to rate case expense. However, based on the Company's response to OPC Interrogatory No. 51, Sigma Project Solutions LLC 18 was the Company's DEP refinancing consultant. Such costs are not related to the 19 rate case expense and should not be amortized as part of rate case expense and 20 recovered from customers. Other charges from this firm have been addressed 21 previously in this testimony. If the Commission does allow a true up of the rate 22 23 case expense to actual at a later phase of this proceeding, then the cost charged to the deferred rate case expense associated with invoices from Sigma Project 24 25 Solutions LLC should be excluded from that true up.

Q. IF THE COMMISSION DOES, IN FACT, ALLOW A TRUE UP OF THE RATE CASE EXPENSES AT A LATER PHASE OF THIS CASE, SHOULD ANY ADDITIONAL ADJUSTMENTS BEYOND THE ONE IDENTIFIED ABOVE BE CONSIDERED?

Yes. Later in this testimony under the rate base section, I discuss the Company's 5 Α. proposed pro forma plant additions as well as the OPC's recommendation that 6 they be removed at this time due to lack of supporting documentation for 7 proposed cost. To the degree that the Company's failure to provide a reasonable 8 level of support for its pro forma plant additions result in higher rate case 9 expenditures being required, ratepayers should not be harmed by this. The lack of 10 supporting information will be addressed further later in this testimony as well as 11 the testimony of OPC engineering witness Andrew Woodcock. If the Company's 12 failure to provide a reasonable amount of supporting documentation results in it 13 incurring a higher level of rate case expense, those higher level of expenses 14 should not be passed onto the Company's customers. The customers should not 15 be penalized for the inability for the Company to meet a reasonable burden of 16 proof in this case. 17

18

19 Q. DID THE COMPANY REMOVE THE AMORTIZATION EXPENSE 20 ASSOCIATED WITH ITS PRIOR RATE CASE?

A. No, it did not. Test year expenses recorded in Account 666-Regulatory Commission Expense-Rate Case Amortization includes \$24,184 associated with the amortization of the prior rate case, which was a limited proceeding. The Company made no adjustment to remove this amount that is imbedded in the historic test year in this case. This amount has now been fully amortized and the

outstanding balance is zero. As shown on Schedule B, line 8, I have removed this 1 amortization expense associated with the prior rate case from the 2009 test year 2 expenses. While the Company has indicated in response to OPC Interrogatory 57 3 that the amortization expense for the prior rate case is "...not included in the 4 requested rate case amortization expense", it has not made an adjustment to 5 remove this amortization that is incorporated in the 2009 historic test year O&M 6 expense amounts. Thus, an adjustment must be made to remove these now fully 7 amortized costs. 8

- 9
- 10 Reduction to Salary Expense

11Q.YOU PREVIOUSLY DISCUSSED AN ADJUSTMENT TO ALLOCATE12CERTAIN EMPLOYEE COSTS TO AFFILIATED OPERATIONS. ARE13YOU RECOMMENDING ANY ADDITIONAL ADJUSTMENTS TO THE14AMOUNT OF SALARY AND WAGE EXPENSES INCLUDED IN THE15COMPANY'S ADJUSTED TEST YEAR?

- A. Yes. I am recommending that the salary of two positions be reduced from the test
 year level to remove excessive percentage wage increases that were granted to
 these two employees in the test year.
- 19

20 Q. COULD YOU PLEASE ELABORATE?

A. Yes. The Company's Vice President and Secretary, Sandra Chase, was granted a significant increase in salary between 2008 and 2009. During 2008, based on the response to OPC Interrogatory 39, Ms. Chase's base wages were \$59,000. In 2009 her base wages were increased by \$11,000 to \$70,000 per year. This is an increase of 18.6%. When questioned during his August 10, 2010 deposition,

WMSI President Gene Brown did not provide adequate justification for this significant wage increase other than his thoughts that she deserved the increase. He indicated that there was no significant change in her job function or responsibility at the time this increase was granted. Additionally, this increase was granted during a time of apparent financial difficulties for WMSI.

6

1

2

3

4

5

7 Between 2008 and 2009, the base wages of the Company's operations and office manager, Brenda Molsbee, was increased from \$45,981 to \$60,000. This is an 8 9 increase of approximately 30% in a one year period. During the deposition of Mr. 10 Brown, he was asked to provide support for this significant increase in her wage. 11 As Late-Filed Exhibit No. 21, Mr. Brown provided what he contended was a comparative salary survey. This consisted of a hand jotted note identifying what 12 13 Hank Garrett, a WMSI operator, who used to be employed by a different 14 company, made per year at that other company. To this amount he also added on the note the amount of benefits and indicated that these with the mileage 15 reimbursement equated to over \$70,000 annually. The note, which is being 16 provided as Exhibit (DR-6), also indicated that these amounts were per "Nita 17 18 from Hank". Nita would be Brenda N. Molsbee. No further justification for this 19 30% wage increase was provided.

20

Should Mr. Brown choose to grant such significant percentage increases to his employees, such significant increases in salaries and wages should not be passed onto the Company's customers, particularly in a period of apparent financial difficulty for WMSI and considering the economic climate during the period in which these wage increases were granted. Wage increases of 18.6% and 30% during a period of high unemployment is not reasonable or justified, particularly without a significant expansion of the employee's duties and responsibilities.

3

1

2

4 Q. WHAT ADJUSTMENT ARE YOU RECOMMENDING?

A. As shown on Schedule B-6, I recommend that the wage increase for each of these
two employees in going from the 2008 salaries to the test year level be limited to
an increase of 3% each. Given the economic climate and the high unemployment
rate, wage increases of 3% should be more than reasonable for the test year in this
case. As shown on Schedule B-6, this results in a recommended reduction to
salaries and wages included in the test year of \$21,870.

11

12 Executive Deferred Compensation Plan Expense

Q. WHAT AMOUNT IS INCLUDED IN THE 2009 TEST YEAR FOR ACCOUNT 604-EMPLOYEE PENSIONS AND BENEFITS?

A. The expenses recorded during the 2009 test year in Account 604-Employee
Pensions and Benefits expense totaled \$130,569. In the prior year, 2008, the
Company recorded \$52,751 of employee pension and benefits expense on its
books. In other words, the costs increased by \$77,818 between 2008 and 2009
with the cost more than doubling during that period.

20

Q. DID THE COMPANY'S TESTIMONY ADDRESS THIS SIGNIFICANT INCREASE IN EMPLOYEE PENSION AND BENEFIT COSTS IN THE TEST YEAR?

A. No, it did not. In OPC Interrogatory 47, the Company was asked what caused this
 significant increase. In response the Company indicated that "Gene Brown and

Sandra Chase qualified for WMSI's executive deferred compensation plan in 2009, which increased the employee pension and benefit account." The response to OPC Interrogatory No. 56 shows that the Company recorded \$40,000 of expense in the test year for Gene Brown executive deferred compensation plan costs and \$40,000 for that same plan for Sandra Chase, resulting in \$80,000 being included in the 2009 test year expenses for this new plan. This purported new deferred executive compensation plan was new in 2009.

8

9 Q. SHOULD THIS SIGNIFICANT INCREASE IN EMPLOYEE PENSION
 10 AND BENEFIT COSTS ASSOCIATED WITH THIS NEW EXECUTIVE
 11 DEFERRED COMPENSATION PLAN BE INCLUDED IN RATES THAT
 12 ARE RECOVERED FROM CUSTOMERS?

- A. No, they should not. As shown on Schedule B-7, I recommend that the entire
 \$80,000 included in the 2009 test year be removed.
- 15

PREVIOUSLY IN THIS TESTIMONY YOU RECOMMENDED AN 16 Q. 17 ADJUSTMENT TO THE AMOUNT OF SALARY INCLUDED IN THE CASE FOR SANDRA CHASE. IS THIS \$40,000 EXECUTIVE DEFERRED 18 19 COMPENSATION PLAN EXPENSE ASSOCIATED WITH MS. CHASE IN ADDITION TO THE SALARY YOU HAVE ALREADY ADJUSTED? 20 Yes, it is. This is above and beyond the \$70,000 that was included for Ms. Chase 21 Α. 22 in the 2009 test year in this case. If one were to include this executive 23 compensation plan for Ms. Chase, her salary would effectively be \$110,000 in the 24 test year, which is clearly a significant increase from her 2008 salary of \$59,000.

25

36

1	Q.	IS THIS PURPORTED NEW EXECUTIVE DEFERRED
2		COMPENSATION PLAN BEING FUNDED BY THE COMPANY?
3	А.	No, it is not. The Company has not in anyway funded this plan. Rather, it has
4		merely booked the \$80,000 in expense on its books.
5		
6	Q.	DID YOU REQUEST A COPY OF THE DOCUMENTS ASSOCIATED
7		WITH THIS NEW EXECUTIVE DEFERRED COMPENSATION PLAN?
8	А.	Yes. The Company provided a copy of the Water Management Services, Inc.
9		executive deferred compensation plan in response to OPC POD 51. I am
10		including a copy of that plan that was provided by the Company as Exhibit
11		(DR-7). The documentation provided indicates that "The purpose of the plan is
12		to provide deferred compensation to a select group of management and highly
13		compensated employees through an unfunded "top hat" arrangement exempt from
14		fiduciary, funding, vesting, and plan termination insurance provisions of Title I
15		and Title IV of the Employee Retirement Income Security Act ("ERISA")." The
16		document goes on to state that it has adopted this plan "to provide employees
17		with the opportunity to defer compensation they are unable to defer or receive
18		under the Company's tax qualified cash or deferred compensation plan (WMSI
19		401(k) Plan), because of the limits on deferrals imposed by Sections 401(k) and
20		402(g) of the Internal Revenue Code ("Code")." In other words, based on this
21		plan documentation, apparently WMSI is providing Mr. Brown and Ms. Chase
22		\$40,000 each of additional compensation that is being deferred. However, this
23		plan is not in anyway being funded by the Company. According to Section 3 of

25 Brown and Ms. Chase, can "...elect to defer the receipt of Compensation by

24

the plan documents, an employee who is eligible for the plan, which would be Mr.

completing a deferral election form provided or approved by the Board." It also 1 states that an "...eligible Employee may elect to defer any whole percentage or 2 fixed dollar amount of his or her Compensation." In other words, based on this 3 document, it appears as though Mr. Brown and Ms. Chase have been granted a 4 \$40,000 increase in their compensation that they are deferring. The significant 5 increase in compensation for Mr. Brown and Ms. Chase should not be passed on 6 7 to the Company's customers. The plan document also indicates that the plan is unfunded and that "no eligible employees shall have preference over any general 8 creditor of the Company with the regards to the amount accrued in such 9 employee's accounts." It also indicates that the plant is unsecured and that no 10 trust or similar arrangement is intended or created as a result of the 11 implementation of this new plan. 12

13

14

HOW WAS THE ANNUAL AMOUNT OF \$40,000 FOR MR. BROWN AND Q. MS. CHASE DETERMINED BY MR. BROWN? 15

Mr. Brown was asked the question regarding how the amount was derived during Α. 16 his August 10, 2010 deposition. The amount was essentially derived by 17 determining an amount to pay Mr. Brown and Ms. Chase on a monthly basis for 18 the rest of their projected remaining lives upon their retirement. The estimated 19 total payment that apparently Mr. Brown would like to provide for himself and 20 Ms. Chase throughout their retired years were then essentially totaled up and 21 divided by the remaining participating years during which each of them will 22 continue to be employed by WMSI. However, as previously indicated these funds 23 24 are not being set aside and they are not being invested with an outside party.

25

38

 1
 Q. SHOULD THESE PROJECTED COSTS BE PASSED ON TO

 2
 CUSTOMERS?

A. No, they should not. It would not be fair to ask customer to pay what would
essentially be a \$40,000 increase in both Ms. Chase's salary and Mr. Brown's
salary through their utility rates. Additionally, while the Company is requesting
from customers this annual level of expense it appears it has no intention of
funding this cost. This significant increase in employee benefit expense, which
more than doubles the benefit costs recorded by the Company in its books, should
be disallowed.

- 10
- 11 Key Man Life Insurance Expense

Q. ARE THERE ANY ADDITIONAL COSTS INCLUDED IN THE TEST YEAR ASSOCIATED WITH THE PURPORTED EXECUTIVE DEFERRED COMPENSATION PLAN?

Yes. Included in Account 659-Insurance-Other Expense in the 2009 test year is 15 Α. 16 \$12,015 for a Key Man insurance policy. According to the Company's response to OPC Interrogatory 55, the Company added the Key Man insurance "To help 17 the Company survive if it lost the person who manages and is most 18 knowledgeable about the company." The response also indicated that Gene 19 Brown is the "Key Man" that is insured on the policy. While the response 20 indicates that the purpose of the policy is to help the Company survive if it were 21 22 to lose Gene Brown, this is not what the funds are to be used for, based on a copy 23 of the policy itself. WMSI provided a copy of the Key Man Life Insurance policy in response to OPC POD 48. The policy itself provides for life insurance 24 on Gene D. Brown totaling \$800,000. The beneficiary provision of the policy 25

indicates that the proceeds that would result from the insured's death "... will be 1 2 payable in one sum to Sandra M. Chase, Trustee(s) of the Water Management Services, Inc. Employee benefit trust dated May 21, 2008, or the successor(s) in 3 the trust beneficiary." Thus, the proceeds that would be received under the life 4 insurance policy on the life of Gene Brown would go to the referenced trust. The 5 Company provided a copy of the Water Management Services, Inc. Employee 6 Benefit Trust that was dated May 21, 2008, in its response to Late-Filed Exhibit 7 No. 18. The trust document in Section 5 indicates that the "primary purpose of 8 9 this trust is to provide additional cash asset to and for the benefit of the plan to insure that it remains actuarially sound to guarantee that all employees of WMSI 10 will receive the benefits provided for the in the successor plan." Thus, the Key 11 12 Man insurance policy is apparently to cover employee benefit costs upon the 13 death of Mr. Brown and not for the continuing financing of the utility's operations. During his deposition Mr. Brown indicated that the trust will be used 14 to fund the 401(k) plan and deferred compensation plan and that the purpose is to 15 protect its employees. It clearly will not be used to fund the ongoing utility 16 operations, but rather to fund employee retirement deferred compensation plan. 17

18

Q. WHAT IS YOUR RECOMMENDATION WITH REGARDS TO THE KEY
 MAN LIFE INSURANCE POLICY?

A. I recommend that this cost be excluded and not passed onto the Company's
customers. I have removed this cost on Schedule B, line 12, reducing test year
expenses by \$12,015.

24

25 Q. YOU MENTION ABOVE THAT WMSI IS NOT FUNDING THIS

1		DEFERRED COMPENSATION PLAN. DO YOU HAVE ANY
2		CONCERNS OF THE COMPANY'S FUNDING OF ITS 401(K) PLAN?
3	А.	Yes. Based on a review of the Company's 2009 and 2010 General Ledgers, it
4		does not appear that the Company is promptly funding its 401(k) plan pension
5		accruals. Based on a review of the 2009 General Ledger, the Company provided
6		a check to Charles Schwab on September 11, 2009, for all of the 2008 pension
7		accruals. It does not appear based on the review of the 2010 General Ledger that
8		was provided that the Company has funded any of the 2009 pension accruals
9		through June 30, 2010.
10		
11		Employee Training Costs
12	Q.	ARE THERE ANY ADDITIONAL ADJUSTMENTS YOU ARE
13		RECOMMENDING TO NORMALIZE COSTS THAT ARE INCLUDED IN
14		THE HISTORIC TEST YEAR ENDED DECEMBER 31, 2009?
15	А.	Yes. The amount of employee training costs recorded by the Company during the
16		historic test year ended December 31, 2009, was significantly higher than the
17		level of employee training costs incurred in prior years. As shown on Schedule
18		B-8, the employee training costs were \$125 in 2007, \$262 in 2008 and \$2,822 in
19		the 2009 test year.
20		
21	Q.	WHAT CAUSED THE 2009 EMPLOYEE TRAINING COSTS TO BE SO
22		MUCH HIGHER THAN THE COSTS INCLUDED IN THE PRIOR
23		YEARS?
24	А.	According to the response to OPC Interrogatory No. 48, 2009 employee training
25		costs recorded on the Company's books included \$1,903 for costs associated with

Gene Brown traveling to San Francisco to attend a seminar conducted by the American Water Works Association. Additionally, the cost of the seminar was \$795. Thus, the test year expenses include \$2,698 associated with Mr. Brown's attendance and related travel to this seminar.

- 5
- 6

Q.

7

ARE YOU RECOMMENDING AN ADJUSTMENT TO NORMALIZE THESE COSTS?

A. Yes. I recommend that the test year employee training costs be adjusted to reflect
the average level incurred for the past three years, 2007 through 2009. This
would result in an allowed cost level based on the three-year average of \$1,070
and a reduction to the 2009 test year expenses of \$1,752. While I acknowledge
the level of training costs can fluctuate from year to year, the 2009 training costs
were greatly impacted by the \$1,900 of travel costs for Mr. Brown to travel to San
Francisco to attend the seminar.

15

16

Removal of Wastewater Certificate Application Costs

17 Q. ARE ANY ADDITIONAL COSTS INCORPORATED IN THE 18 COMPANY'S FILING ASSOCIATED WITH PRIOR REGULATORY 19 PROCEEDINGS THAT NEED TO BE ADJUSTED?

A. Yes. WMSI deferred \$52,851 of costs associated with its Wastewater Certificate
 Application that was filed with the Commission in Docket No. 090189-SU. In the
 application, which was filed during the test year on April 15, 2009, WMSI
 proposed to both install and provide wastewater service to St. George Island. On
 December 17, 2009, WMSI entered a Notice of Dismissal that was granted by the
 Commission and it withdrew its request. The Company is now requesting that the

1 cost it incurred associated with that application of \$52,851 be recovered from 2 ratepayers over a period of five years. The Company has included the requested 3 amortization expense of \$10,570 in its filing, as well as inclusion of the deferred 4 costs as part of its working capital calculations. These costs should be removed 5 and not passed on to the Company's water customers.

- 6
- 7

Q. WHY DO YOU RECOMMEND THAT THESE COSTS BE REMOVED?

A. The Company's application and proposal to provide wastewater service to St. 8 9 George Island has nothing to do with its provision of water service to its water 10 customers. These are non-utility costs that should be written-off to non-utility 11 accounts. The Company's water customers should not be forced to pay for the 12 costs associated with Mr. Brown's decision to attempt to expand WMSI's services to include the provision of wastewater services. The application was ultimately 13 14 withdrawn, and the water customers of the Company should not be burdened with 15 the costs associated with Mr. Brown's decision to attempt to expand his operations 16 into a new area.

17

Q. WHAT ADJUSTMENTS ARE NECESSARY TO REMOVE THE COST ASSOCIATED WITH THE WASTEWATER CERTIFICATE APPLICATION?

A. As shown on Schedule B, amortization expense should be reduced by \$10,570 to
remove the Company's proposed amortization of the deferred costs. Additionally,
as shown on Schedule C-4, working capital should be reduced by \$35,603 to
remove the inclusion of the projected unamortized balance of the deferrals from
working capital. These are non-utility costs that should not be passed onto the

water customers.

1 2

3

- IV. ADJUSTMENTS TO RATE BASE
- 4 <u>Reversal of Proposed Pro Forma Utility Plant Additions</u>

Q. WMSI HAS REQUESTED A SIGNIFICANT LEVEL OF PRO FORMA PLANT ADDITIONS IN THIS CASE. WOULD YOU PLEASE BRIEFLY DISCUSS THE COMPANY'S REQUEST?

Yes. The Company has requested to include post-test year future plant additions 8 A. 9 totaling \$2,202,481 in this case. On Company Schedule A-3, page 2 of 2, it has broken out this requested \$2.2 million as follows: \$156,156 to relocate a portion 10 of a 12-inch supply main from the bridge to the main island; \$272,250 for various 11 water plant process improvements; \$450,000 to acquire land for a new storage 12 13 tank and water treatment; \$970,900 to replace the existing ground storage tank and aerators; \$330,675 to replace or rehabilitate electrical equipment; and \$22,500 14 to upgrade distribution system components. As part of these various plant 15 addition projects and improvements, the Company has also reflected pro forma 16 plant retirements in its filing totaling \$180,409. The net impact on plant in 17 service that is proposed by the Company is an increase in plant in service of 18 \$2,022,072. 19

20

Of the assets the Company would be required to retire as part of its various plant addition and improvement projects, only \$47,742 of that has been depreciated, leaving a net undepreciated balance for these retirements of \$132,667. The high portion of undepreciated balance to original cost for many of the assets WMSI is proposing to retire is due to the fact that many of these plant assets were installed in 2004. They have only been depreciated for approximately six years on the
 Company's books. As part of its filing, the Company is proposing to recover the
 net undepreciated balance as prudently retired plant resulting in a requested
 annual amortization of \$12,879.

5

6 Q. HAS THE COMPANY FULLY SUPPORTED ITS PROPOSED PRO 7 FORMA PLANT ADDITIONS IN THIS CASE?

8 A. This issue is addressed by OPC engineering witness Andrew Woodcock. As 9 indicated in Mr. Woodcock's testimony, the Company has not provided a 10 reasonable level of support for the cost projections that it has incorporated in this 11 case for its proposed additions. Prior to allowing for pro forma plant additions that go beyond the end of the test year, a reasonable level of support for the 12 estimates associated with those costs should be provided. The Company has 13 provided no bids or detailed analysis of the cost projections associated with each 14 15 of its proposed plant additions in this case. Again, this is discussed in further detail in the testimony of Mr. Woodcock. As part of the Commission's decision in 16 this case, it should not essentially give the Company a blank check for extremely 17 high level cost projections that it has incorporated in this case for these plant 18 19 additions. The Company should be required to provide a reasonable level of support for the proposed pro forma plant additions prior to any of them being 20 21 allowed for inclusion in rate base in this case.

22

Q. HAVE YOU MADE AN ADJUSTMENT TO REFLECT THE REMOVAL OF THE THESE UNSUPPORTED PRO FORMA PLANT ADDITIONS?

25 A. Yes. As shown on Schedule C-1, page 1 of 2, I reflect the reversal of each of the

1 Company's proposed additions to plant in service as well as the reversal of the 2 associated pro forma plant retirements incorporated in this case. Additionally, all 3 of the related adjustments, such as the adjustment for pro forma accumulated 4 depreciation and pro forma depreciation expense are also reversed on Schedule C-5 1, page 1 of 2.

6

Q. WHAT ADDITIONAL ADJUSTMENTS ARE NECESSARY TO REVERSE THE COMPANY'S PROPOSED PRO FORMA PLANT ADDITIONS AND TO REMOVE ALL IMPACTS FROM THIS CASE?

- 10 A. As shown on Schedule C-1, page 1, line 23, the Company's proposed amortization 11 of prudently retired plant should also be removed at this time. Additionally, the 12 amount included for the projected increase in property taxes associated with the 13 pro forma plant should also be removed. These pro forma plant additions as well 14 as all of the associated adjustments included in the filing by the Company should 15 not be allowed before such time as the cost are fully justified and supported.
- 16

17 Q. DO YOU HAVE ANY CONCERNS WITH THE COMPANY'S 18 CALCULATION OF ITS PROPOSED AMORTIZATION OF THE PLANT 19 TO BE RETIRED?

A. Yes. In calculating its proposed amortization of the plant to be retired, the Company appears to have used the formula required by Rule 25-30.433(9) in determining the amortization period for recovery, with one exception. In calculating the amortization period, the Company used the rate of return of 5.01%, which is based on the "final requested interest rate from limited proceeding Dkt. No. 000694-WU". The Commission's rule states that the amount

to be used in the formula calculation is "... an amount equal to the rate of return 1 2 that would have been allowed on the net invested plant that would have been included in rate base before the abandonment or retirement." 3 The early retirements of these plant items that are being proposed by the Company in this 4 case will not occur until the time that the proposed pro forma plant additions are 5 added. If any recovery of this proposed early retired plant is allowed for as part 6 of this proceeding, the rate of return proposed to be used in this calculation by the 7 Company of 5.01% should be replaced with the rate of return that is adopted by 8 the Commission in this case. As will be addressed later in this testimony, the 9 10 OPC is recommending a rate of return in this case of 3.85%. Using the Company's proposed calculation shown on Schedule B-3, page 5 of 5, if one 11 replaces the 5.01% rate of return used by the Company in its calculation with the 12 OPC's recommended 3.85% rate of return, the impact would be a \$1,552 13 14 reduction in the proposed amortization.

15

Q. WHAT IMPACT ON THE REVENUE REQUIREMENT DOES THE REMOVAL OF THE PROPOSED PRO FORMA PLANT ADDITIONS ALONG WITH ALL OF THE RELATED ADJUSTMENTS HAVE IN THIS CASE?

A. On Schedule C-1, page 2 of 2, I have estimated the impact on WMSI's requested revenue requirement that resulted from the removal of the unsupported pro forma plant additions in this case, as well as the related impacts on accumulated depreciation, depreciation expense, amortization of retired plant, and property taxes. In other words, this schedule shows the impact of removing all of the adjustments made by the Company associated with its pro forma plant additions.

that this 2006 sale of the trailer was sold to All Pro Trailers for a price of \$5,000. 1 In response to deposition questions as Late-Filed Exhibit No. 5, being provided as 2 Exhibit (DR-9), Mr. Brown provided a cash deposit slip showing that on March 3 30, 2006, \$5,000 in cash was deposited into one of WMSI's bank accounts for the 4 sale of the Econoline backhoe trailer. During 2006, the \$7,007.85 trailer that was 5 purchased in 2005 was removed from the Company's books. The information 6 provided by the Company in Late-Filed Exhibit No. 5 indicates that this 7 \$7,007.85 trailer was an Econoline backhoe trailer that was purchased from 8 Stonehenge Trailers. 9

10

OPC POD 21 asked the Company to provide all documents that pertain to the sale 11 or transfer of any asset that were previously owned by WMSI that have been sold 12 or transferred to other entities, affiliates or persons since December 31, 1992. As 13 part of that response, WMSI provided a bill of sale indicating that on December 14 22, 2009, WMSI was selling its rights, interest and title of the 2005 Econoline 15 trailer to Brown Management Group. The response included a copy of the 16 certificate of origin for the vehicle associated with the Econoline trailer that was 17 purchased from Stonehedge Enterprises as well as the value of the backhoe trailer 18 on its books and an associated sale price of \$4,005.51. Apparently, based on this 19 document, the Company has shown that it sold the Econoline trailer that was 20 purchased from Stonehenge Enterprises in 2005 to Brown Management Group in 21 2009. These pages from OPC POD 21 are being provided as Exhibit (DR-10). 22 As indicated above, on the Company's books it shows that the Econoline trailer 23 that was purchased from Stonehenge was sold and removed from the Company's 24 books in 2006. This is shown on Exhibit (DR-8), which is an excerpt from 25

WMSI's response to OPC Interrogatory 1.

1 2

Even more perplexing are the transactions that have occurred with the second 3 trailer that was purchased in 2005, specifically the backhoe trailer that was 4 acquired from All Pro Trailers for \$16,022.08. The information provided by the 5 Company in response to OPC Interrogatory No. 1, shows that the Company sold 6 this trailer in 2009. The response to OPC Interrogatory No. 8 indicates that this 7 sale in 2009 was made to Brown Management Group. That same response shows 8 the sale price as \$4,005.51. This is the same amount that was identified in 9 response to OPC POD-21 associated with a December 22, 2009, sale of the 10 Econoline trailer from WMSI to Brown Management Group, Inc. However, in 11 Late-Filed Exhibit No. 5, WMSI indicated that on December 22, 2009, it sold the 12 13 backhoe trailer to Brown Management Group for \$10,000. However, it appears this trailer was in fact sold by WMSI in 2007. 14

15

16 Q. PLEASE EXPLAIN.

17 A. During the deposition of Gene Brown on August 10, 2010, the OPC questioned Mr. Brown regarding the backhoe trailers as well as the purchase and sale of those 18 Mr. Brown agreed to provide a late-filed exhibit addressing the trailers. 19 acquisition of a backhoe and the transactions associated with the backhoe trailers. 20 21 As a result, Mr. Brown provided Late-Filed Exhibit No. 5. I am attaching this late-filed exhibit as Exhibit (DR-9). As indicated above, the December 22, 22 2009, sales amount for the backhoe trailer sale to Brown Management Group is 23 identified in that late-filed exhibit as \$10,000, and this is inconsistent with 24 amounts the Company booked on its books during 2009. However, based on the 25

information provided at the last page of Late-Filed Exhibit No. 5, apparently 1 Water Management Services, Inc. actually sold this trailer effective March 31, 2 2007. This sale appears to be signed by Gene Brown as President of Water 3 Management Services, Inc. and is dated March 31, 2007. As shown on the second 4 to last page of the late-filed exhibit, on August 18, 2010 Gene D. Brown as 5 President of Water Management Services, Inc., signed a bill of sale indicating that 6 for the price of \$10,000 WMSI transferred a 2006 Imperial trailer to Brown 7 Management Group, Inc. The bill of sale indicates that "This bill of sale is given 8 to document the transfer and three party exchange which occurred on March 31, 9 2007, simultaneously with the transfer shown by Ex. 'A' attached." The bill of 10 sale also indicates that Mr. Brown is making this effective March 31, 2007, and 11 that it was actually signed on August 18, 2010, which is after the August 10, 2010 12 13 deposition of Mr. Brown.

14

Also with Late-Filed Attachment 5, the Company provided the actual entries that 15 were made on its books at December 22, 2009, to record the sale of the backhoe 16 trailer from WMSI to Brown Management Group. However, the same page 17 provided indicates that a different accounting entry should have been made 18 showing the sale as of March 31, 2007. This purportedly corrected entry is 19 identified as being to record the sale of the backhoe trailer to Brown Management 20 Group. The Company then provided a correcting entry on the same page. The 21 description of the correcting entry states "To record sale of 48KP30HD backhoe 22 trailer to Brown Management Group on 3/31/07 instead of 12/22/09 with 23 gain/loss on sale recognized". The amounts identified as the balance of this trailer 24 in plant in service in the entry and correcting entry is the \$16,022.08 backhoe 25

trailer that the Company identified in response to Citizen's POD No. 21 as having been sold on December 22, 2009, to Brown Management Group, Inc. for an amount of \$4,005.51.

4

1

2

3

Clearly, there has been a lot of conflicting information provided by the Company 5 with regard to these trailers, and it is clear that the Company is moving assets in 6 and out of its affiliate. Brown Management Group, Inc. Clearly, it is 7 inappropriate that this trailer stayed on the utility's books through December 22, 8 2009, when apparently it was sold to a third party in 2007. Additionally, the 9 transfer of the Certificate of Title associated with the trailer that was provided in 10 Late-Filed Exhibit No. 5 identifies Water Management Services, Inc. as the seller, 11 12 not Brown Management Group, Inc. These transactions further highlight the great concerns the Office of Public Counsel has regarding the level of transactions 13 and the transfer of assets between WMSI and Brown Management Group, Inc. 14

15

16 Q. ARE YOU RECOMMENDING ANY ADJUSTMENT ASSOCIATED 17 WITH THESE TRAILERS?

The information provided by the Company in Late-Filed Exhibit No. 5 indicates A. 18 that this asset should have been written off of WMSI's books as far back as 2007. 19 Also shown in the information is the fact that depreciation expense recorded in 20 21 the test year on the Company's books included \$2,670.35 associated with this 22 trailer that apparently was sold back in 2007. On Schedule C-2, I have made adjustments to remove the amount that was included in plant in service and 23 accumulated depreciation on the Company's books during the test year for the 24 25 trailer, and have also removed the depreciation expense of \$2,670. Clearly, the

- Company should not earn a return on this asset that it did apparently did not own during the test year.
- 3

4

1

2

Removal of Two Vehicles from Rate Base

5 Q. WOULD YOU PLEASE PROVIDE A BRIEF SUMMARY OF THE 6 VEHICLE COSTS THAT ARE INCLUDED IN THE TEST YEAR IN THE 7 COMPANY'S FILING?

The Company's adjusted test year in this case includes three company owned 8 A. 9 vehicles that are included in plant in service and two vehicles that the Company is leasing, for a total of five vehicles. Additionally, the Company has also included 10 lease costs associated with a John Deere "Gator" vehicle that the Company has 11 essentially purchased through a lease arrangement. By including this leased John 12 13 Deere vehicle, the Company has essentially included costs associated with six vehicles for use by its eight employees. In its filing, the Company annualized the 14 impact of two new vehicle leases that it entered into during the test year, as well 15 as the impact of the lease associated with John Deere utility vehicle. 16

17

As part of its rate base adjustment shown on MFR Schedule A-3, page 2, the Company removed 50% of the cost included in rate base associated with the 2008 GMC Sierra pickup truck that is used by Gene Brown and a 2007 Chevrolet Tahoe that is used by Sandra Chase. The Company has indicated in its response to OPC Interrogatory 5 that 50% of these two vehicles were used for utility related work.

24

25 Q. HAS THE COMPANY JUSTIFIED ITS POSITION THAT 50% OF THE

USAGE OF THE 2008 GMC SIERRA PICKUP TRUCK ASSIGNED TO
 MR. BROWN AND 50% OF THE USE OF THE 2007 CHEVROLET
 TAHOE USED BY SANDRA CHASE ARE UTILIZED FOR WMSI WORK
 PURPOSES?

A. No, it has not. The Company has been unable to provide any mileage records and
in fact, does not keep track of such mileage. As justification for the need for Mr.
Brown to have a Company owned vehicle, the Company indicated in response to
OPC Interrogatory 5 that Mr. Brown averages four trips per month to St. George
Island. The response also indicated that the vehicle is used for personal use as
needed. There was no detailed discussion of why Mr. Brown needs to have the
use of a Company owned vehicle.

12

With regards to the 2007 Chevrolet Tahoe that is utilized by Sandra Chase, the
Company merely indicated, "It is estimated that 50% of the use is for WMSI".
The response also indicated that Ms. Chase averages one trip per month to St.
George Island. The Company provided no further support or justification for the
need of Ms. Chase to have Company owned vehicle.

18

Q. WHAT IS THE COST ON THE COMPANY'S BOOKS OF THE 2008 GMC SIERRA WHICH WAS UTILIZED BY MR. BROWN DURING THE TEST YEAR?

A. The original cost on WMSI's books on this vehicle that is recorded in plant in
service is \$41,870, with the unamortized balance in the test year in this case being
\$26,750, as well as an annual depreciation expense of \$6,978. As previously
mentioned, the Company removed 50% of these costs from the test year as non-

used and useful. On Schedule C, I have removed the remaining 50% balance 1 from plant in service and accumulated depreciation, and on Schedule B I removed 2 the remaining depreciation expense that is incorporated in the Company's adjusted 3 test year. It is my recommendation that all of these costs be disallowed. The 4 provision of the use of this vehicle is an extra perquisite or benefit that is provided 5 to Gene Brown that is not necessary. The Company has not justified the work 6 related mileage or the percentage of work related usage that it has left in this case. 7 This is a personal vehicle that is used by Gene Brown and should not be included 8 on the utility's books. 9

10

I would also like to note that according the Company's 2010 General Ledger 11 provided in response to OPC POD 3, on March 10, 2010 this Sierra truck was 12 sold to Brown Management Group. During his August 10, 2010 deposition, Mr. 13 Brown indicated that the sale of this vehicle to Brown Management Group was a 14 management decision. He also indicated that this is no longer his primary vehicle 15 and instead a 2008 Chevrolet Tahoe is his primary vehicle. The 2010 General 16 Ledger shows that on the same day the GMC Sierra was sold to Brown 17 Management Group, WMSI recorded an entry to purchase a 2008 Chevrolet 18 Tahoe for \$42,579.52. This vehicle is now being used by Mr. Brown as his 19 primary vehicle. Based on the deposition of Mr. Brown, Brown Management 20 Group still owns the 2008 GMC Sierra. As previously mentioned in my 21 testimony, the Company has indicated in response to OPC Interrogatory that 22 23 Brown Management Group, Inc. is a corporation that holds and manages the investments of Gene Brown, all of which are passive. Given that all of these 24 investments are passive, I am unsure of the reasons for Brown Management 25

55

Group, Inc. buying and retaining the vehicles from WMSI while at the same time WMSI purchasing a new vehicle to be assigned to Gene Brown.

3

1

2

4 Q. WHAT AMOUNT IS INCLUDED IN THE FILING FOR THE 2007 5 CHEVROLET TAHOE THAT IS UTILIZED BY SANDRA CHASE?

The test year plant in service included on the Company's General Ledger includes 6 A. \$30.413 for this vehicle, with an average test year undepreciated balance of 7 \$26,189. The depreciation expense recorded during the test year on this vehicle 8 was \$5,069. The Company removed 50% of these amounts on its Schedule A-3, 9 page 2 of 2, as non-used and useful. On Schedule B I have removed the 10 remaining 50% of the amount included in plant in service and in accumulated 11 depreciation, and on Schedule B I removed the remaining depreciation expense 12 from the test year. The Company has not provided any information that would 13 justify Ms. Chase needing a Company owned vehicle for her use on a full time 14 basis. Additionally, based on documentation provided by the Company, this 15 vehicle is not even owned by WMSI. It is titled to Sandra Chase. 16

17

Q. WHAT HAS LED YOU TO THE CONCLUSION THAT THIS VEHICLE IS ACTUALLY OWNED BY SANDRA CHASE AND NOT OWNED BY WMSI?

A. OPC POD 27 asked the Company to provide a copy of the invoices for all of the Company owned vehicles. I am attaching the documentation that was provided with the response that pertains to the 2007 Chevrolet Tahoe that is assigned to Sandra Chase as Exhibit_(DR-11). As shown on the last page of this exhibit, the vehicle was purchased by Sandra Chase with a delivery date of June 18, 2008.

She is identified as the owner and purchaser of this vehicle. Also shown on this 1 exhibit is a lien and title information sheet from Envision Credit Union that shows 2 Sandra Chase as the owner of the vehicle, and indicates that a lien was assigned to 3 the vehicle by Envision Credit Union on February 18, 2009. The name of the 4 borrower that is identified is Sandra Chase, with Dan Chase as the co-borrower. 5 This loan is discussed in further detail at the end of this testimony under the 6 section pertaining to long-term debt costs. Also provided was a copy of a fund 7 advance voucher paid to Sandra Chase and Dan Chase on the vehicle from 8 Envision Credit Union on February 18, 2009, at an annual percentage rate of 9 5.75% for a loan amount of \$20,000. 10

11

As part of the POD response, the Company also provided a Bill of Sale that was 12 signed by Sandra Chase that states "In consideration of the sum of twenty 13 thousand dollars (\$20,000), receipt of which is hereby acknowledged, Sandra M. 14 Chase hereby sells all of her rights, title and interest to Water Management 15 Services, Inc. in the following vehicle." This bill of sale then identifies the 2007 16 Chevrolet Tahoe and indicates it is subject to the lien in favor of Envision Credit 17 Union. This bill of sale is signed by Sandra Chase and is dated February 18, 18 2009. While the Company has apparently provided a bill of sale that was signed 19 by Ms. Chase, Mr. Brown agreed in his deposition that the title on the vehicle is 20 still in the name of Ms. Chase. Additionally, the documentation provided shows 21 that the loan on the vehicle was provided to Ms. Chase, not to WMSI. Mr. Brown 22 23 did indicate in his August 10, 2010 deposition that the Company is making payments on the loan, however, the vehicle was initially acquired by Ms. Chase, 24 is used by Ms. Chase and is still titled to Ms. Chase as well as the loan being 25

1

shown as being the obligation of Ms. Chase.

2

3 Q. HOW IS THIS VEHICLE RECORDED ON THE COMPANY'S BOOKS?

A. The Company's 2008 General Ledger that was provide in response to OPC POD 4 5 3, shows that the Company increased its transportation equipment account in plant 6 in service by \$30,413 on June 18, 2008, for the used 2007 Chevrolet Tahoe. This 7 is the date that Ms. Chase purchased the vehicle in her own name as shown on the final page of Exhibit (DR-1). While the Company has purportedly provided a 8 9 bill of sale indicating that Ms. Chase has sold her rights and interest to WMSI for 10 the vehicle, that bill of sale indicates that those rights were sold for \$20,000 on 11 February 19, 2009, not for \$30,413 in June of 2008.

12

This vehicle should be removed fully from this case for several reasons. First, as demonstrated above, the Company does not actually own this vehicle and the lien is not in the Company's name. Additionally, the Company has not justified the need for Ms. Chase to have a Company owned vehicle. Thus, I am recommending that all of the cost be removed from the test year.

18

19 Q. DO YOU HAVE ANY ADDITIONAL CONCERNS WITH THE LEVEL OF 20 TRANSPORTATION RELATED COSTS RECORDED DURING THE 21 TEST YEAR?

A. Yes. There were numerous amounts booked by WMSI during the test year
associated with the purchase of gas and mileage reimbursements to employees.
Since the Company does not keep mileage logs, I was unable as of this time to
evaluate the reasonableness of those costs.

1

Offset to State Park Assets for Transfer of Rental Rights

2 Q. ARE YOU RECOMMENDING ANY ADDITIONAL ADJUSTMENTS TO 3 THE PLANT IN SERVICE BALANCE IN THIS CASE?

A. Yes. During 2006, the Company increased plant Account 331-Transmission and 4 5 Distribution Mains by \$227,977 for work that was performed by Scruggs 6 Contracting, Inc. ("Scruggs") at the State park on St. George Island. While the 7 total amount owed to Scruggs Contracting, Inc. for the State park project was 8 \$227,977, which is the amount the Company booked to plant in service in 2006, 9 the Company actually paid \$100,000 less for this project. I recommend the amount included in plant in service in Account 331-Transmission and Distribution 10 11 Main be reduced by \$100,000.

12

Q. HOW DID IT RESULT THAT THE COMPANY PAID SCRUGGS \$100,000 LESS FOR THE PROJECT THAN WHAT IT OWED FOR THE PROJECT WORK?

On Exhibit (DR-12), I am including a copy of relevant documents that were 16 A. provided by WMSI in response to OPC POD21 regarding this transaction. 17 According to a Memo of Agreement between Water Management Services, Inc. 18 and Scruggs Contracting, Inc. that was made in 2006, WMSI received a \$100,000 19 credit on the bill that was owed to Scruggs as a result of WMSI assigning its 20 rights, title and interest in and to certain leases between WMSI and Nextel as well 21 22 as WMSI's rights, title and interest in and to any further cell tower leases that may be negotiated for equipment to be placed on the Company's elevated tank site. In 23 24 other words, in lieu of being required to pay Scruggs \$100,000, WMSI assigned all future rental income associated with outside entities attaching assets on 25

1 WMSI's elevated tank to Scruggs. This elevated tank is included in rate base and is being paid for by WMSI's water customers. Absent the assignment of these 2 3 future lease payments and lease rights to Scruggs, ratepayers would have received 4 the benefit of any rental income due to the fact that the rental income is a result of items being attached to utility owned property that is include rate base. Since 5 ratepayers will no longer receive the benefit of current and future rental income 6 7 associated with the attachments to the elevated tank, at a minimum the benefit of 8 the \$100,000 offset to the State park project cost should be reflected as an offset to plant in service in this case. The amount included in plant in service associated 9 10 with the State Park Project should not exceed the amount that was actually paid by WMSI for that project, particularly as the Company has given up the future 11 12 rental rights on another utility related asset.

13

14 Q. WHAT ADJUSTMENT IS NEEDED TO REFLECT YOUR 15 RECOMMENDATION?

16 A. As shown on Schedule C-2, I recommend that plant in service be reduced by 17 \$100,000. I have also removed the amount included in depreciation expense in the 2009 test year on the \$100,000 plant balance, which would be \$2,326. 18 19 Additionally, I have removed the estimated build up of accumulated depreciation 20 on the \$100,000 that would have occurred from 2006 through 2009. The net 21 impact is a \$93,023 reduction to rate base and a \$2,326 reduction to depreciation 22 expense. I also recommend that the Commission require the Company to writeoff \$100,000 of the balance included in Plant Account 331-Transmission and 23 Distribution Main to insure that the Company does not receive future recovery on 24 25 these costs.

1 This would also include reversal of the proposed plant retirements. Using the 2 OPC's recommended rate of return in this case of 3.85%, the impact is a \$149,033 3 reduction to revenue requirement. Each of the impacts of reversing these 4 adjustments has been flowed through my summary schedules, specifically 5 Schedules A, B and C in this case and has been reflected in the OPC's overall 6 revenue requirement in this case. However, I also presented Schedule C-1, page 2 7 of 2, so that the Commission can see the impact that is specifically related to the 8 reversal of the Company's proposed pro forma plant adjustment.

9

10 <u>Remove Affiliate Asset From Utility Plant</u>

Q. YOU PREVIOUSLY MENTIONED IN THIS TESTIMONY THAT YOU 11 12 HAVE SEVERAL CONCERNS WITH THE TRANSFER OF ASSETS THE 13 **BETWEEN** UTILITY **OPERATIONS** AND BROWN MANAGEMENT GROUP, INC. ARE YOU RECOMMENDING ANY 14 15 SPECIFIC ADJUSTMENTS IN THIS CASE ASSOCIATED WITH ANY 16 ASSETS THAT HAVE BEEN TRANSFERRED?

A. Yes. Several transactions the Company has entered into between with its affiliate, Brown Management Group, and even an outside party with regard to backhoe trailers that were, at one point, on the utility's books and records are highly questionable. The Company's response to OPC Interrogatory 1 shows that during 2005 WMSI purchased two separate backhoe trailers, one for \$7,007.85 and one for \$16,022.08. The relevant pages are provided as Exhibit_(DR-8).

23

The same response shows that the Company sold one of these trailers, the one valued at \$7,007.85, in 2006. The response to OPC Interrogatory No. 8 indicates

1	Q.	IS THERE AN ALTERNATIVE APPROACH THE COMMISSION
2		COULD TAKE WITH REGARDS TO THIS ISSUE?
3	А.	Yes. The Commission could also consider amortizing the \$100,000 associated
4		with WMSI's sale of the rental income rights to ensure that the amounts are
5		flowed to ratepayers over a future period of time. This would compensate them
6		for the lost revenues. This would be an alternative to reducing plant in service by
7		the \$100,000.
8		
9	Q.	HOW DID THE COMPANY ACCOUNT FOR THE \$100,000 ON ITS
10	L_{2}	BOOKS?
11	А.	In Late-Filed Exhibit No. 16, the Company provided the accounting treatment of
12		the \$100,000 offset to the amount it owed Scruggs. When the item was booked
13		on June 30, 2006, the Company debited accounts payable-Scruggs for the
14		\$100,000 and credited miscellaneous income by \$100,000. The description
15		provided with the entry on the Company's ledger states "To record forgiveness of
16		\$100,000 of debt in return for a leasehold interest given Scruggs." The Company
17		should not be permitted to earn a return on this \$100,000 that it has included in
18		plant in service in this case.
19		
20		Working Capital
21	Q.	THE COMPANY'S FILING INCLUDES \$181,157 IN RATE BASE FOR
22		WORKING CAPITAL. ARE YOU RECOMMENDING ANY
23		ADJUSTMENTS TO THIS AMOUNT?
24	А.	Yes. I am recommending six separate adjustments to the Company's proposed
25		working capital balance. Each of my adjustments is shown on Schedule C-4.

1 Q. WOULD YOU PLEASE DESCRIBE EACH OF THE ADJUSTMENTS TO

2

WORKING CAPITAL YOU ARE RECOMMENDING?

A. Yes. As shown on Schedule C-4, I am recommending total reductions to the Company's working capital request of \$133,213, resulting in an adjusted working capital for inclusion in rate base of \$47,944. Each of my recommended adjustments is presented below:

- As discussed previously in this testimony, the Company's proposed deferred
 Wastewater Certificate Application cost should be rejected and these should
 have been written-off as non-utility costs on the Company's books.
 Consequently, I have removed the \$35,603 average test year balance the
 Company included in working capital in its request.
- The Company's working capital request includes the average unamortized debt discount and expense balance of \$112,034. These debt costs are included in the Company's capital structure and in the calculation of the longterm debt rate being applied in this case. As a result, they should not also be included in the working capital request otherwise double recovery of these costs would occur.
- The total balance of the unamortized prior rate case expenses included in 18 working capital of \$17,983 should be removed. While the Company has 19 indicated in its response to OPC Interrogatory 64 that this balance should be 20 reduced by \$5,891 to a level of \$12,092, it is my position that the entire 21 balance should be removed. This amount is fully amortized and working 22 capital should not include both the average costs that are projected for the 23 current rate case and the unamortized balance during the test year of the cost 24 25 of the prior rate case. Since I have left the average balance of the projected

current rate case expense in working capital, the balance associated with the prior rate case should be excluded.

- As previously discussed in this testimony, I have recommended that the
 Company's proposed rate case expense in this docket be reduced by \$3,172 to
 remove the costs associated with the preliminary evaluation. Consequently,
 50% of this amount should also be reduced from the working capital request.
 This results in a recommended reduction in the average balance included in
 working capital for the current rate case of \$1,586.
- As discussed previously in this testimony. I have recommended that the cost 9 . included in the test year for the Key Man Life Insurance policy of \$12,016 be 10 removed and instead be treated as non-utility costs. I have assumed that the 11 prepaid insurance balance included by the Company in working capital would 12 include 50% of this annual expense level reflecting that on average half of the 13 14 total annual cost would be prepaid during the year. Consequently, I have reduced working capital by \$6,008 to remove my estimated prepaid insurance 15 amount from working capital associated with this insurance. 16
- Finally, the Company has reduced its working capital request by \$40,000
 identified as operating reserves. This is the average amount the Company
 would have recorded on its books as the liability for its proposed executive
 deferred compensation plan costs. As those deferred compensation plan costs
 should be disallowed, I have also removed the Company's offset to working
 capital for the average balance, which increases working capital by \$40,000.
- 23

24

1

2

Non-Used and Useful Plant Adjustment

25 Q. OPC WITNESS ANDREW WOODCOCK'S TESTIMONY INDICATES

THAT ONLY 54.9% OF THE COMPANY'S DISTRIBUTION SYSTEM IS
 USED AND USEFUL. HAVE YOU QUANTIFIED THE IMPACT OF HIS
 FINDINGS?

Α. Yes. On Schedule C-5, I have quantified the impact of removing 45.1% of the 4 Transmission and Distribution mains recorded in Account 331.4 as non-used and 5 6 useful. This is based on the recommendation of OPC witness Woodcock. As shown on Schedule C0-5, plant in service should be reduced by \$1,059,878 and 7 accumulated depreciation should be reduced by \$472,904 to reflect the impact of 8 Mr. Woodcock's recommendation, resulting in a net reduction to rate base of 9 \$586,975. Additionally, depreciation expense should be reduced by \$16,912 to 10 remove the non-used and useful portion. In deriving the impacts, I have also 11 taken into consideration the non-used and useful adjustment incorporated in 12 WMSI's filing to Account 331.4. 13

14

V. <u>RATE OF RETURN - REVISIONS TO LONG TERM DEBT COST</u> AND RATES

17 Q. ARE YOU RECOMMENDING ANY REVISIONS TO THE RATE OF 18 RETURN PRESENTED BY WMSI IN THIS CASE?

A. Yes. I am recommending several modifications. WMSI has proposed an overall
rate of return of 5.01%, which incorporates an average long term debt rate of
4.99%. I am recommending an overall rate of return for WMSI of 3.81%, which
incorporates a long term debt rate of 3.78%. In deriving the long term cost rate of
3.78%, I incorporated three separate modifications to the Company's calculation
of its long term debt cost.

25

1 Q. WHAT SPECIFIC ADJUSTMENTS DO YOU RECOMMEND?

My recommended modifications to the calculation of the long term debt cost rate 2 A. are presented on page 2 of Schedule D. On this page, I first present the 3 Company's proposed calculation of the long term debt cost rate, followed by my 4 recommended calculations. The first modification I recommend is that the 5 amount included for a loan with Envision Credit Union be disallowed. The 6 7 Company's calculation included a 13-month average outstanding balance for this loan of \$15,711 at a cost rate of 5.75%. The entire amount of this loan should be 8 removed in determining the long term debt rate. 9

10

11

Q. WHY SHOULD THIS LOAN BE REMOVED?

This loan is with an employee of WMSI, not WMSI. As indicated previously in 12 A. this testimony, the Company has included in plant and service the cost associated 13 with a 2007 Chevrolet Tahoe that is actually owned by Sandra Chase. I am 14 providing the long term debt support documentation provided by the Company in 15 response to OPC POD 8 that is specific to this Envision Credit Union loan as 16 Exhibit (DR-13). Based on the actual loan documentation provided by the 17 Company, the loan with Envision Credit Union is for the 2007 Chevrolet Tahoe 18 that is owned by Sandra Chase and the loan is made out to Sandra Chase, with 19 Dan Chase as co-borrower on the loan. During his August 10 deposition, WMSI 20 President Gene Brown indicated that WMSI is making the payments on this loan. 21 However, it is clear from the documentation that has been provided that the loan 22 has been made to Sandra Chase and is associated with the vehicle that is also 23 owned by Sandra Chase. Consistent with my recommendation previously 24 addressed in this testimony that the entire cost of the 2007 Chevrolet Tahoe be 25

removed from plant in service, the debt cost included by the Company in calculating its long term debt rate should also be removed. This removal is reflected on line 8 of Schedule D, page 2 of 2.

4

1

2

3

Q. WHAT IS THE NEXT ADJUSTMENT YOU ARE RECOMMENDING TO 5 THE CALCULATION OF THE LONG TERM DEBT COST RATE? 6

As shown on line 9 and in footnote (b) of Schedule D, page 2 of 2, I recommend A. 7 8 that the Capital City loan reflected in the Company's schedule be removed. The 9 Company's filing incorporated a 13-month average outstanding balance for the loan of \$27,492 at a cost rate of 6.61%. Based on the long term debt loan 10 documentation provided in response to OPC POD 8, this loan is for the 2009 11 GMC Sierra that was used by Gene Brown during the 2009 test year. As 12 13 indicated previously in this testimony, I recommend that this vehicle be removed from plant in service. Additionally, I recommend that the associated debt be 14 removed in determining the cost of long term debt to incorporate in the filing. 15 This vehicle, as well as the associated loan, is for the benefit of the President of 16 WMSI and should not be the burden of ratepayers. 17

18

WHAT IS THE FINAL ADJUSTMENT YOU ARE RECOMMENDING TO 19 Q. 20

THE CALCULATION OF THE LONG TERM DEBT COST RATE?

In its filing at MFR Schedule D-5 Interim, WMSI shows that during the test year 21 А. it had a loan outstanding with Gulf State Bank with the 13-month average 22 principle amount outstanding during the test year being \$2,849,020. To the best 23 24 of my knowledge, this loan is still in place. The rate on that loan with Gulf State Bank is 4.25%. In its calculation of the proposed long term debt cost rate on 25

1 MFR Schedule D-5, the Company has proposed to replace this 4.25% cost rate loan with Gulf State Bank with a loan with Citizen's State Bank of \$5 million at a 2 cost rate of 6.65%. According to the direct testimony of WMSI witness Gene 3 4 Brown, at page 8, this new loan will be used to pay for the proposed pro forma plant additions that are incorporated in this case as well as to refinance "... all of 5 the utility's existing debt except the state revolving fund loan administered by 6 DEP which was used for the new supply main." Mr. Brown further indicates that 7 it is "... necessary and prudent to refinance all of our existing debt at current 8 market rates, except for the state revolving fund loan which is at 3%." As shown 9 on Schedule D, page 2 of 2, at line 10, I recommend that the proposed Citizen's 10 State Bank loan at a projected cost rate of 6.65% be removed and instead be 11 replaced with the actual test year 13-month average outstanding balance of the 12 loan with Gulf State Bank at a rate of 4.25%. In other words, I am recommending 13 that the currently existing loan should be reflected in the test year cost of debt 14 15 with the projected new loan removed from the test year.

16

17

Q. WHY DO YOU RECOMMEND THAT THIS REVISION BE MADE?

I am recommending that the proposed new loan be replaced in determining the A. 18 19 long term debt cost rate with the existing loan for several reasons. First, the Company is proposing to refinance the existing loan with a significantly higher 20 cost loan. Thus, I do not understand how the Company can contend that it is 21 prudent to refinance the existing debt at the current market rates, particularly as it 22 is projecting that the current market rates are substantially higher than the existing 23 24 rate it currently has. Additionally, the Company has not supported the proposed cost rate on the new debt that it has incorporated in its filing. 25

1Q.WHAT INFORMATION HAS THE COMPANY PROVIDED TO2SUPPORT THE 6.65% COST RATE INCORPORATED IN ITS3CALCULATIONS?

4 A. The bank loan commitment letter provided by WMSI in response to OPC POD-7 5 is being provided with this testimony as Exhibit (DR-14). The Company provided a copy of its "conditional written commitment" from Citizen's State 6 Bank dated May 14, 2010. The document from Citizens State Bank indicates that 7 the bank has agreed to make a \$5 million loan to WMSI, provided that certain 8 9 conditions are met. These conditions include that the Commission grant a rate 10 increase to the Company that will allow it to pay the debt service on the loan in addition to all of the Company's ordinary and reasonable expenses, that the United 11 States Department of Agriculture provide the bank with at least an 80% guarantee 12 13 for the loan, and that the Florida Department of Environmental Protection agree to 14 subordinate its lien on WMSI's supply main so that Citizens State Bank would have first lien against all of WMSI's assets, including all of its revenue and cash 15 16 flow. The document indicates that the purpose of the loan would be to provide 17 funds to repay all of WMSI's debt except for the DEP state revolving fund loan and to finance construction of approximately \$2.2 million of new capital 18 19 improvements. In addressing the term and the rate for the loan, Citizens State Bank indicates that "The term and rate for the loan will be based upon market 20 conditions in effect at the time of written commitment after the above-referenced 21 22 conditions are met." No additional information or elaboration on what the rates or the term on the loan would be was provided in the document. When asked in his 23 August 10, 2010 deposition, Gene Brown said that the bank told him the rate 24 25 would be no less than 6.25%. However, he had no documentation to confirm this

amount. WMSI has provided no support for the 6.65% rate incorporated in its filing. Additionally, the 6.65% rate seems high considering current market conditions.

4

1

2

3

5 Q. ARE THERE ANY ADDITIONAL REASONS YOU RECOMMEND 6 REMOVING THE PROJECTED NEW LONG TERM DEBT AND 7 REPLACING IT WITH THE EXISTING DEBT BALANCE 8 OUTSTANDING AND DEBT RATE?

Yes. As previously indicated in this testimony and also supported by the 9 Α. 10 testimony of OPC witness Andrew Woodcock, the Company has not provided a 11 reasonable level of support for the pro forma plant additions it has incorporated in 12 this case. The main purpose of the proposed new debt is to finance the construction of the new capital improvements. The OPC has recommended that 13 14 the plant additions associated with the capital improvements be rejected by the 15 Commission until such time as the Company can provide a reasonable level of 16 support. Consistent with that recommendation, the proposed new debt to finance 17 those plant additions should also be excluded. The test year outstanding debt 18 balance and cost rates should be utilized in determining the overall effective long 19 term debt cost rate to incorporate in this case.

20

21 Q. DOES THIS CONCLUDE YOUR TESTIMONY?

22 A. Yes.

CERTIFICATE OF SERVICE DOCKET NO. 100104-WU

I HEREBY CERTIFY that a true and correct copy of the foregoing Direct Testimony of Donna Ramas has been furnished by U.S. Mail to the following parties on this 23rd day of

August, 2010.

APPENDIX I QUALIFICATIONS OF DONNA RAMAS

Q. WHAT IS YOUR OCCUPATION?

 A. I am a certified public accountant, licensed in the State of Michigan, and senior regulatory consultant in the firm of Larkin & Associates, PLLC, Certified Public Accountants, with offices at 15728 Farmington Road, Livonia, Michigan.

Q. PLEASE DESCRIBE YOUR EDUCATION AND EXPERIENCE.

- A. I graduated with honors from Oakland University in Rochester, Michigan in 1991. I have been employed by the firm of Larkin & Associates, PLLC, since 1991.
 As a certified public accountant and regulatory consultant with Larkin & Associates, PLLC, my duties have included the analysis of utility rate cases and regulatory issues, researching accounting and regulatory developments, preparation of computer models and spreadsheets, the preparation of testimony and schedules and testifying in regulatory proceedings. I have also developed and conducted five training programs on behalf of the Department of Defense Navy Rate Intervention Office on measuring the financial capabilities of firms bidding on Navy assets and one training program on calculating the revenue requirement for municipal owned water and wastewater utilities. Additionally, I have served as an instructor at the Michigan State University Institute of Public Utilities as part of their Annual Regulatory Studies programs.
 - I have prepared and submitted expert testimony and/or testified in the following cases, most of which were filed under the name of Donna DeRonne:

Arizona: Ms. Ramas prepared testimony on behalf of the Staff of the Arizona Corporation Commission in the following case before the Arizona Corporation Commission: Southwest Gas Corporation (Docket No. G-01551A-00-0309).

California: Ms. Ramas prepared testimony on behalf of the Division of Ratepayer Advocates of the California Public Utilities Commission in the following cases before the California Public Utilities Commission:

San Gabriel Valley Water Company, Fontana Water Division (Docket No. A.05-08-021), Request for Order Authorizing the Sale by Thames GmbH of up to 100% of the Common Stock of American Water Works Company, Inc., Resulting in Change of Control of California-American Water Company (Application 06-05-025), California Water Services Company (Docket No. 07-07-001*), and Golden State Water Company (Docket No. 08-07-010).

Ms. Ramas also prepared testimony on behalf of the Department of Defense in the following cases before the California Public Utilities Commission: San Diego Gas and Electric Company (Docket No. 98-07-006) and Southern California Edison Company and San Diego Gas & Electric Company (Docket No. 05-11-008*).

Additionally, Ms. Ramas prepared testimony on behalf of the City of Fontana in the following rate case before the California Public Utilities Commission: San Gabriel Valley Water Company, Fontana Water Division (Docket No. A.08-07-009) - Phases 1 and 2.

Connecticut: Ms. Ramas has prepared testimony on behalf of the Connecticut Office of Consumers Counsel in the following cases before the State of Connecticut, Department of Public Utility Control:

Connecticut Light & Power Company (Docket No. 92-11-11), Connecticut Natural Gas Corporation (Docket No. 93-02-04), Connecticut Natural Gas Corporation (Docket No. 95-02-07), Southern Connecticut Gas Company (Docket No. 97-12-21), Connecticut Light & Power Company (Docket No. 98-01-02), Southern Connecticut Gas Company (Docket No. 99-04-18 Phase I), Southern Connecticut Gas Company (Docket No. 99-04-18 Phase II), Connecticut Natural Gas Corporation (Docket No. 99-09-03 Phase I), Connecticut Natural Gas Corporation (Docket No. 99-09-03 Phase II), Connecticut Light & Power Company (Docket No. 00-12-01), Yankee Gas Services Company (Docket No. 01-05-19), United Illuminating Company (Docket No. 01-10-10), Connecticut Light & Power Company (Docket No. 03-07-02), Southern Connecticut Gas Company (Docket No. 03-11-20), Yankee Gas Services Company (Docket No. 04-06-01*), The Southern Connecticut Gas Company (Docket No. 05-03-17PH01), The United Illuminating Company (Docket No. 05-06-04), Connecticut Natural Gas Corporation (Docket No. 06-03-04* Phase I), Yankee Gas Services Company (Docket No. 06-12-02PH01*), Aquarion Water Company of Connecticut (Docket No. 07-05-19), Connecticut Light & Power Company (Docket No. 07-07-01), The United Illuminating Company (Docket No. 08-07-04), Connecticut Light & Power Company (Docket No. 09-12-05).

Ms. Ramas also assisted the Connecticut Office of Consumer Counsel by conducting crossexamination of utility witnesses in the following cases: Southern Connecticut Gas Company (Docket No. 08-12-07) and Connecticut Natural Gas Corporation (Docket No. 08-12-06).

District of Columbia: Ms. Ramas prepared testimony on behalf of the Office of the People's Counsel of the District of Columbia in the following case before the Public Service Commission of the District of Columbia: Washington Gas Light Company (Formal Case No. 1016) and Potomac Electric Power Company (Formal Case No. 1076).

Florida: Ms. Ramas prepared testimony on behalf of the Florida Office of Public Counsel in the following cases before the Florida Public Service Commission:

Southern States Utilities (Docket No. 950495-WS), United Water Florida (Docket No. 960451-WS), Aloha Utilities, Inc. – Seven Springs Water Division (Docket No. 010503-WU), Florida Power Corporation (Docket No. 000824-EI*), Florida Power & Light Company (Docket No. 001148-EI**), Tampa Electric Company d/b/a Peoples Gas System (Docket No. 020384-GU*), The Woodlands of Lake Placid, L.P. (Docket No. 020010-WS), Utilities, Inc. of Florida (Docket No. 020071-WS), Florida Public Utilities Company (Docket No. 030438-EI*), The Woodlands of Lake Placid, L.P. (Docket No. 030102-WS), Florida Power & Light Company (Docket No. 050045-EI*), Progress Energy Florida, Inc. (Docket No. 050078-EI*), and Florida Power & Light Company (Docket No. 060038-EI).

Louisiana: Ms. Ramas prepared testimony on behalf of various consumers in the following case before the Louisiana Public Service Commission: Atmos Energy Corporation d/b/a Trans Louisiana Gas Company (Docket No. U-27703*).

New York: Ms. Ramas prepared testimony on behalf of the New York Consumer Protection Board in the following cases before the New York Public Service Commission:

New York State Electric & Gas Corporation (Case No. 05-E-1222), KeySpan Energy Delivery New York and KeySpan Energy Delivery Long Island (Case Nos. 06-G-1185 and 06-G-1186*), Consolidated Edison Company of New York, Inc. (Case No. 06-G-1332*), and Consolidated Edison Company of New York, Inc. (Case No. 07-E-0523).

Nova Scotia: Ms. Ramas prepared testimony on behalf of the Nova Scotia Utility and Review Board – Board Counsel in the following case: Halifax Regional Water Commission (W-HRWC-R-10).

Utah: Ms. Ramas prepared testimony on behalf of the Utah Committee of Consumer Services in the following cases before the Public Service Commission of Utah:

PacifiCorp dba Utah Power & Light Company (Docket No. 99-035-10), PacifiCorp dba Utah Power & Light Company (01-035-01*), PacifiCorp dba Utah Power & Light Company (Docket No. 01-035-23 Interim (Oral testimony)), PacifiCorp dba Utah Power & Light Company (Docket No. 01-035-23**), Questar Gas Company (Docket No. 02-057-02*), PacifiCorp (Docket No. 04-035-42*), PacifiCorp (Docket No. 06-035-21*), Rocky Mountain Power (Docket Nos. 07-035-04, 06-035-163 and 07-035-14), Rocky Mountain Power (Docket No. 07-035-93), Questar Gas Company (Docket No. 07-057-13*), Rocky Mountain Power (Docket No. 08-035-93*), Rocky Mountain Power (Docket No. 08-035-38*), Rocky Mountain Power Company (Docket No. 09-035-23), Questar Gas Company (Docket No. 09-057-16**), and Rocky Mountain Power Company (Docket No. 10-035-13).

Vermont: Ms. Ramas prepared testimony on behalf of the Vermont Department of Public Service in the following cases before the Vermont Public Service Board: Citizens Utilities Company – Vermont Electric Division (Docket No. 5859), Central Vermont Public Service Corporation (Docket No. 6460*), and Central Vermont Public Service Corporation (Docket No. 6946 & 6988).

Washington: Ms. Ramas prepared testimony on behalf of the Public Counsel Section of the Washington Attorney General's Office in the following case before the Washington Utilities and Transportation Commission: PacifiCorp (Docket No. UE-090205**).

West Virginia: Ms. Ramas has prepared testimony on behalf of the West Virginia Consumer Advocate Division in the following cases before the Public Service Commission of West Virginia: Monongahela Power Company (Case No. 94-0035-E-42T), Potomac Edison Company (Case No. 94-0027-E-42T), Hope Gas, Inc. (Case No. 95-0003-G-42T*), and Mountaineer Gas Company (Case No. 95-0011-G-42T*).

Docket No. 100104-WU Executive Deferred Compensation Plan Exhibit_(DR-7), p.1 of 11

Memo

....

Question #51 – Officer Pension Plan

Docket No. 100104-WU Executive Deferred Compensation Plan Exhibit_(DR-7), p.2 of 11

WATER MANAGEMENT SERVICE, INC. EXECUTIVE DEFERRED COMPENSATION PLAN

The Board of Directors of Water Management Services, Inc., a Florida corporation (WMSI), has adopted this Executive Deferred Compensation Plan (Plan) effective July 1, 2009.

1. Purpose.

The purpose of the plan is to provide deferred compensation to a select group of management and highly compensated employees through an unfunded "top hat" arrangement exempt from the fiduciary, funding, vesting, and plan termination insurance provisions of Title I and Title IV of the Employee Retirement Income Security Act ("ERISA"). More specifically, the Company has adopted this Plan to provide Employees with the opportunity to defer compensation they are unable to defer or receive under the Company's tax qualified cash or deferred compensation plan (WMSI 401(k) Plan), because of the limits on deferrals imposed by Sections 401(k) and 402(g) of the Internal Revenue Code ("Code").

2. <u>Eligibility</u>.

To be eligible to participate in this Plan, an employee must: (1) be highly compensated; (2) be part of a select group of management as determined by the Board of Directors of WMSI.; (3) be at least 55 years of age; and (4) must have worked for WMSI, including its predecessor, for a total of 25 years or more. The Board of Directors of WMSI ("The Board") may, from time to time, designate by name those employees of WMSI who are eligible to participate in this Plan, and the date upon which each such employee's participation may commence. All designated employees shall be notified by the Board of their eligibility to participate.

1

Docket No. 100104-WU Executive Deferred Compensation Plan Exhibit_(DR-7), p.3 of 11

3. Deferral of Compensation.

÷.,

1

An employee who is eligible to participate in the Plan may elect to defer the receipt of Compensation by completing a deferral election form provided or approved by the Board. Pursuant to the deferral election form, an eligible Employee may elect to defer any whole percentage or fixed dollar amount of his or her Compensation. An Employee who elects to participate in the Plan must defer at least ten thousand dollars (\$10,000) in Compensation for each Plan Year in which he or she remains eligible to participate. At the time an Employee completes a deferral election form, the Employee must designate in writing the method by which the Compensation is deferred for any Plan Year. An eligible employee must submit his or her deferral election form to the Board within 30 days after the first day of each calendar year; provided, however, that deferral election forms for the 2009 calendar year may be submitted anytime prior to October 1, 2009. If any eligible employee fails to submit a deferral election form for any year after 2009, the Board shall assume that the employee wishes to defer the same amount as deferred during the preceding year, and shall act accordingly.

4. Deferred Compensation Accounts.

The Company (WMSI) shall credit each eligible employee's account with the full amount of compensation deferred in any payroll period, which shall continue to accrue on the Company's books from year to year until it is paid pursuant to the terms of this Plan. This plan is "unfunded," and no eligible employee shall have preference over any general creditor of the Company with regard to the amounts accrued in such employee's account. The Company's obligation to pay deferred compensation under this Plan is unsecured, and no trust or similar arrangement is intended or created by this Plan. To the extent that life insurance proceeds are used to fund any of the Company's obligations under this Plan, whether paid through a trustee or

2

otherwise, those proceeds are the property of the Company until actually paid to the eligible employee and, as such, are subject to the general creditors of the Company.

5. Interest Accrual.

All compensation deferred under this Plan shall accrue interest at 3% per annum. This shall be simple interest, not compounded, and shall accrue on the unpaid, and unfunded, principal balance in each eligible employee's account from the first day of the year following the year during which such compensation was earned.

6. Method and Time of Payment.

(A) Monthly Installments at Retirement.

The deferred compensation in each eligible employee's account shall accrue interest until the date of such employee's retirement. As of the date of retirement, the Company shall calculate the number of years and months that such employee is expected to live according to the actuarial tables in the National Vital Statistic Reports that are in effect as of the date of retirement. The Company will then amortize the amount due the retiring employee by paying the total sum due the employee, including accrued interest, in equal monthly payments over the period of months the retiring employee is expected to live according to the above-referenced actuarial tables. For example, if an employee deferred \$40,000 per year for 10 years to date of retirement, the total sum in that employee's account at date of retirement would be \$458,555.17, including interest at 3%. Assuming a 10 year life expectancy at date of retirement, that employee would receive \$4,417.80 per month for 120 months, which includes interest at 3%.

(B) Alternate Lump Sum Payments.

In lieu of the monthly payments set forth under Section (A) above, the Company shall pay each participant in this Plan a lump sum of \$400,000 immediately upon the

3

occurrence of any of the following events:

Ś, Ż,

١

(1) The death of Gene D. Brown;

(2) The sale or transfer of a majority of the ownership of WMSI; or

(3) The loss of effective control of WMSI by Gene D. Brown.

However, if the balance in the employee's account is more than \$400,000, including interest, that total amount shall be paid to the employee in a lump sum.

(C) Disability of Employee.

If an employee who is a participant in this Plan becomes disabled for any reason, physically, mentally or otherwise, so that such employee is unable to continue performing the duties that such employee was performing at the time of disability, that employee shall be paid \$400,000, together with interest at 3%, in equal monthly payments over the disabled employee's expected life under the same terms and conditions set forth in paragraph (A) above. However, if the amount in the disabled employee's account exceeds \$400,000, that total amount, with 3% interest, shall be amortized and paid over the same period as set forth above. The above-referenced payments are alternates, and shall only be paid one time for each participant.

From any payments made under this Plan, the Company shall withhold any taxes or other amounts which federal, state or local law requires the Company to deduct, withhold and deposit. The Company's determination of the type and amount of taxes to be withheld from any payment shall be final and binding on all persons having or claiming to have an interest in this Plan or in any Account under this Plan.

7. Payment to Beneficiary.

The deferred compensation payments referenced above shall be paid to the beneficiary of any employee participant in this plan if such participant dies without having received

4

all of the payments due under this Plan. All such remaining and unpaid payments shall be paid over the same period of time as if the employee had lived to collect all the payments. The "beneficiary" of a deceased employee participant shall be the surviving spouse of the participant if there is a surviving spouse, or the personal representative of the participant's estate if there is no surviving spouse. If the surviving spouse dies before all the payments are made, remaining payments shall be paid to the estate of the surviving spouse.

8. Definition of Retirement.

÷.,

For purposes of this Agreement, the term "retirement" shall mean any termination of employment with WMSI, whether voluntary or involuntary. If an employee is discharged by WMSI, or if the employee decides to terminate his or her employment with WMSI prior to an expected date of retirement, that shall be considered "retirement" in either event for purposes of this Agreement. However, nothing in this Plan document shall limit or in any way restrict any rights or remedies such employee may have pursuant to any employment agreement or other similar agreement between the employee and WMSI.

9. <u>Company's General Assets</u>.

Employee understands and agrees that all Compensation deferred under the Plan (a) are the general assets of the Company, (b) may be used in the operation of the Company's business or in any other manner permitted by law, and (c) remain subject to the claims of the Company's general unsecured creditors. Participant agrees, on behalf of Participant and his or her Beneficiary, that (1) title to any amounts deferred under the Plan or credited to a Participant's Account remains in the Company and (2) neither Participant nor his or her Beneficiary has any property interests whatsoever in said amounts, except as general creditors of the Company.

5

10. Effect on Employee Benefits.

Amounts deferred under this Plan or distributed pursuant to the terms of this Plan are not taken into account in the calculation of an Employee's benefits under any employee pension or welfare benefit program or under any other compensation policy or practice maintained by the Company, except to the extent provided in such program or practice.

11. Funding.

1. L.

1

All amounts deferred under this Plan remain or become general assets of the Company. All payments under this Plan shall come from the general assets of the Company. The amounts credited to an Employee's Account are not secured by any specific assets of the Company. This Plan shall not be construed to require the Company to fund any of the benefits provided hereunder or to establish a trust or purchase an insurance policy or other product for such purpose. The Company may make such arrangements as it desires to provide for the payment of benefits. Neither an Employee, Participant or Inactive Participant nor his or her Beneficiary or estate shall have any rights against the Company with respect to any portion of any Account under the plan except as general unsecured creditors. No Employee, Participant, Inactive Participant, Beneficiary or estate has an interest in any Account under this Plan until the Employee, Participant, Inactive Participant, Beneficiary or estate actually receives payment from the Account.

12. Non-alienation of Benefits.

The interest of any Employee, Participant, Inactive Participant or Beneficiary shall not be subject to sale, assignment, transfer, conveyance, hypothecation, encumbrance, garnishment, attachment, anticipation, pledge, alienation or other disposition prior to actual distribution from the Plan; and any attempt to effect such disposition prior to actual distribution from the Plan; and any attempt to effect such disposition shall be void. No portion of any Account shall, prior to receipt

6

thereof, be subject to the debts, contracts, liabilities, or engagements of any Employee, Participant, Inactive Participant or Beneficiary. Nothing in the preceding sentence shall prohibit the Company from recovering from an Employee, Participant, Inactive Participant or Beneficiary an payment to which he or she was not entitled under the Plan.

13. Governing Law and Severability.

Sec. 1.

This Plan shall be construed in accordance with the laws of the State of Florida to the extent that such laws are not preempted by ERISA or other federal laws. If any provision of this Plan shall be held illegal or invalid for any reason, such determination shall not affect the remaining provisions of this Plan, which shall be construed as if said illegal or invalid provision had never been included.

14. Status of Participants.

In accordance with Internal Revenue Procedure 92-65 Section 3.01(d), this Plan hereby provides:

 (a) Employees, Participants, Inactive Participants and Beneficiaries under this Plan shall have the status of general unsecured creditors of the Company;

(b) This Plan constitutes a mere promise by the Company to make benefit payments in the future;

(c) Any trust to which this Plan refers (i.e. any trust created by the Company and any assets held by the trust to assist the Company in meeting its obligations under the Plan) shall confirm to the terms of the model trust described in Revenue Procedure 92-64; and

(d) It is the intention of the parties that the arrangements under this Plan shall be unfunded for tax purposes and for purposes of Title I of ERISA.

7

Docket No. 100104-WU Executive Deferred Compensation Plan Exhibit_(DR-7), p.9 of 11

15. WMSI 401(k) Plan.

The rights and benefits under this Plan are in addition to and shall not be affected by any rights and benefits under the WMSI 401(k) Plan. That 401(k) Plan is funded and is a separate and distinct part of the WMSI Employee Benefit Plan which includes this unfunded deferred compensation fund.

In Witness Whereof, the undersigned have executed this deferred compensation plan this 1st day of July, 2009.

WATER MANAGEMENT SERVICES, INC., a Florida Corporation By:

Gene D. Brown, President and Chairman of the Board

JOINDER BY ELIGIBLE PARTICIPANTS

As of the date of this document, the WMSI Deferred Compensation Plan has two eligible participants, Gene D. Brown and Sandra M. Chase. Both of these employees have joined in the execution fo this document for the purpose of expressing their understanding and consent to the terms of this Plan.

8

CHASE

Docket No. 100104-WU Executive Deferred Compensation Plan Exhibit_(DR-7), p.10 of 11

DEFERRAL ELECTION FORM

Pursuant to paragraph 3 of the Water Management Services, Inc. (WMSI) Deferred Compensation Plan dated July 1, 2009, the following WMSI employee, <u>Gene N. Brown</u> does hereby elect to defer the following amount, <u>Here per ver</u>, <u>ver</u>, of such employee's annual compensation pursuant to the terms and conditions of such plan. The payment of this amount shall be deferred annually until and unless changed in writing by the employee, and shall be paid to the employee by WMSI at such time and under such conditions as are specified in the Plan.

BILL OF SALE

KNOW ALL MEN BY THESE PRESENTS, that Water Management Services, Inc., a Florida corporation of the County of Leon, State of Florida, party of the first part, for and in consideration of the sum of Ten Thousand Dollars (\$10,000) lawful money of the United States, paid by Brown Management Group, Inc., party of the second part, the receipt whereof is hereby acknowledged, has granted, bargained, sold, transferred and delivered, and by these presents does administrators and assigns, the following:

2006 Imperial Trailer - Model 48KP30HD

TO HAVE AND TO HOLD the same unto the said party of the second part, its executors administrators and assigns forever.

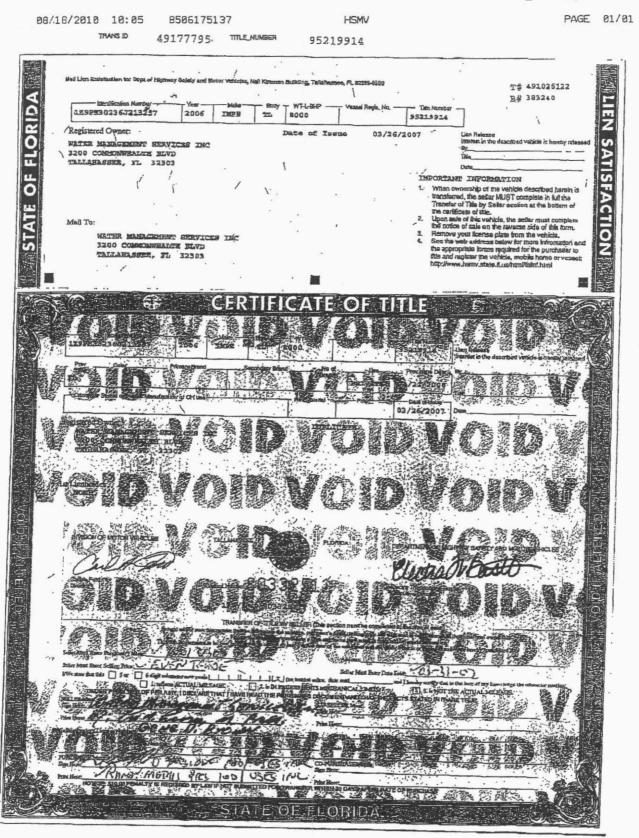

AND the party of the first part does covenant to and with the said party of the second part, its executors, administrators and assigns, that WMSI is the lawful owner of the said trailer; that it is free from all encumbrances; that the party of the first part has good right to sell the same and that WMSI will warrant and defend the sale of the said trailer unto the party of the second part, its executors, administrators and assigns against the lawful claims and demands of all persons whomsoever. This bill of sale is given to document the transfer and three party exchange which occurred on March 31, 2007, simultaneously with the transfer shown by Ex. "A." attached.

IN WITNESS WHEREOF, the party of the first part has hereunto set his hand and seal to be effective March 31, 2007, actually signed August 18, 2010.

December 31, 2006

Mr. Charles Scruggs Scruggs Contracting, Inc. 1119 Rosewood Drive Tallahassee, FL 32301

Re: Amendment and Clarification of July 1, 2006 Memo Agreement

Dear Mr. Scruggs:

This will amend and clarify our agreement of July 1, 2006 as follows:

1. Our agreement of July 1, 2006 was intended to be, and is, a transfer of a leasehold interest in and to our elevated tank property, described as:

Lots 21 and 22, Block 5 West, Unit 1, St. George Island Gulf Beaches, a subdivision as per map or plat thereof recorded in Plat Book 2, page 7 of The public records of Franklin County, Florida.

Specifically, for a \$100,000 cash credit on our account as of July 1, 2006, we conveyed to Scruggs Contracting, Inc. all of our beneficial and equitable interest involving the right to lease or sublease space on the elevated tank site premises, including the tank itself, to any and all communications companies, such as Nextel, Verizon, Alltel or any others which may wish to secure service on the premises. You have the right to deal and negotiate directly with such companies, and we will cooperate with you in that regard, subject to two basic conditions:

A. that all expenses in connection with leases to such communications companies will be paid by you or the individual companies; and

B. that, while there is no limit to the number of companies which may locate on the premises, nothing will be done to adversely affect the structural integrity of the tank or to interfere with our water service to the public.

2. As of this date, after the above-referenced \$100,000 cash credit on July 1, 2006 and the cash payments and credits since that date, we owe Scruggs Contracting a final total of

\$4,956.34, a check in that amount is hereby paid to and acknowledged by you as final payment on our contract.

3. Since our agreement of July 1, 2006, we and you have secured the following leases:

A. Verizon Lease dated November 16, 2006; and

B. Alltel Lease dated December 14, 2006.

Pursuant to our agreement, Scruggs Contracting, Inc. is the owner of these leases, and shall receive all of the revenue therefrom. Scruggs Contracting, Inc. shall also be the owner of any and all communications leases on the premises to be secured in the future. Water Management Services, Inc. will do nothing to interfere with your right to negotiate and secure these leases. To the extent that Water Management Services, Inc. collects any proceeds from any of the abovereferenced leases, Water Management Services, Inc. is acting only as your agent, not as the owner of any such proceeds.

4. The intent and purpose of our agreement was and is to convey all of Water Management Services, Inc.'s right, title and interest in any and all communications equipment leases to be let on the elevated tank site premises. Scruggs Contracting, Inc. has accepted this conveyance in full payment of \$100,000 of the amount owed to Scruggs, whether or not a sum equal to \$100,000 is ever received by Scruggs. If Scruggs ever collects more than \$100,000, Water Management Services, Inc. specifically acknowledges that it has no ownership or interest in such proceeds, subject only to the rights of third party lenders as in paragraph 1(B) of our July 1, 2006 letter agreement.

in

Gene D. Brown, as President of Water Management Services, Inc., a Florida corporation

Charles B. Scruggs, as President of Scruggs Contracting, Inc., a Florida corporation

WATER MANAGEMENT SERVICES, INC.

3200 Commonwealth Blvd. Tallahassee, FL 32303 (850) 668-0440 Fax (850) 577-0441

MEMO OF AGREEMENT WATER MANAGEMENT SERVICES, INC. and SCRUGGS CONTRACTING, INC.

This confirms our agreement entered into as of July 1, 2006 as follows:

1. As of July 1, 2006, Water Management Services, Inc. (WMSI) owed Scruggs, Contracting, Inc. a total of \$227,976.90, for the work at the state park on St. George Island, as shown by the attached bill. We paid you \$65,000 to be credited to the bill, and WMSI received an additional \$100,000 credit on the bill based upon the following:

A. We hereby assign to Scruggs Contracting, Inc. all of WMSI's right, title and interest in and to that certain lease between WMSI and Nextel dated June 15, 2004, including the right to receive all lease payments after July 1, 2006. Lease payments after that date shall continue to be made payable to WMSI but they are the property of Scruggs Contracting, Inc. after the date, and a check for an amount equal to each Nextel lease payment shall immediately be paid to Scruggs Contracting, Inc. as each Nextel lease payment is received by WMSI. This assignment is subject to a collateral assignment previously executed in favor of Gulf State Bank. If the Bank ever exercises its right to take any of the Nextel lease payments as a prior lien holder, WMSI shall still remain liable to pay Scruggs Contracting an amount equal to any lease payments taken by Gulf State Bank.

B. As further consideration for the above referenced \$100,000 credit, WMSI does hereby transfer and assign to Scruggs Contracting all of WMSI's right, title and interest in and to any and all further cell phone tower leases that may be negotiated and entered into between WMSI and any other cell phone companies regarding equipment to be placed upon Lots 21 and 22, Block 5 West, Unit 1, Plat Book 2, page 7, Public Records of Franklin County, Florida, where WMSI's elevated tank is located. This includes any and all cell companies with which WMSI may deal regarding the elevated tank property in the future. WMSI shall continue to have full legal title to the real estate, and may enter into leases and any other legal documents as the legal owner of the real property. As the owner of the above-referenced leasehold interest in the elevated water tower, Scruggs Contracting shall have the continuing right on and after July 1,

1

Docket No. 100104-WU Transfer of Leasehold Interests Exhibit_(DR-12), p.5 of 12

2006 to negotiate directly with any and all cell phone companies for lease space on the elevated tower owned by WMSI. If WMSI enters into any additional cell phone tower leases, any and all income therefrom shall belong to Scruggs Contracting, which shall receive immediate payment of any and all such lease payment amounts.

2. After application of the payments and other consideration set forth in paragraph 1 above, WMSI, owes Scruggs Contracting, Inc. The sum of \$62,976.90, which shall be paid on or before December 31, 2006.

3. If any additional legal documents need to be executed to confirm the intent of this memo agreement, the parties agree to execute those documents in a timely, voluntary manner.

2

CONTRACT

WATER LINE REPAIR AND REPLACEMENT ST. GEORGE ISLAND WATER SYSTEM

THIS AGREEMENT, made and entered into as of this 24th day of October, 2005 by and between:

WATER MANAGEMENT SERVICES, INC., a Florida corporation, represented by its undersigned officer, hereinafter referred to as "Owner," and

SCRUGGS.CONTRACTING, INC., a Florida corporation, represented by its undersigned officer, hereinafter referred to as "Contractor."

WITNESSETH:

WHEREAS, the Owner is responsible for providing water services to St. George Island, Florida; including all of the Park owned by the State of Florida; and

WHEREAS, the Owner needs to repair and/or replace all the 8" water main within the State Park, consisting of approximately 24,500 feet of water main.

NOW, THEREFORE, for the consideration and on the terms and conditions of this contract, the said parties do hereby agree as follows:

ARTICLEI

SCOPE OF THE WORK

All of the 8" water main shown as "w" on the plat attached as Exhibit "A" shall be inspected, repaired or replaced by the Contractor as follows:

(A) New 8" water main (PVC 900) shall be installed within the utility right of way north of the State Park existing road from Point "B" (where the water main goes under the road toward the south) to Point "C" (where the water goes back under the road toward the north). Two new valves shall be installed at Points "B" and "C" to allow the existing water main south of the road. to continue to be used in case of emergency.

(B) The existing 8" water main from Point "A" to Point "B" and from Point "C" to Point "D" shall be inspected for leaks by digging a trench adjacent to the line down at 100 foot intervals, and by installing a leak detection listening device at each such 100 foot interval point. If the pipe is more than 4 feet deep, that pipe will be replaced with new 8" PVC 900 pipe. If a leak is detected in pipe that is less than 4 feet from the surface, that leak will be replaired, if

practical. Notwithstanding the above, if a line below 4 feet can be raised without damage to the line, the line will be raised and inspected for leaks, and any leaks will be repaired. If repair is not practical, the line will be removed and replaced by new 8" PVC 900 line.

(C) All work will be coordinated with the Owner, and a representative of the Owner will be present whenever the Contractor is performing any work under this contract. If there is any doubt as to whether a line or section of a line should be raised, repaired or replaced, the decision of the Owner's representative shall control. In addition to coordinating and inspecting the Contractor's work under this contract, the Owner's representative shall actively assist the contractor in performing the work.

(D) The primary purpose of this contract is to repair and/or replace the Owner's water line within the State Park so that it will no longer leak. When the work is complete, the parties to this contract will jointly perform a pressure test on the entire State Park water line to determine if it will hold pressure at 150 psi for 2 hours. If it does, the line will be considered leak free, and the Contractor will be entitled to final payment. If the test fails, the Contractor and the Owner's representative will continue to inspect for leaks and repair those leaks until the line is free of leaks as shown by a pressure test. All decisions as to whether the work under this contract has been properly performed and whether this line is leak free, shall be made by the Owner's engineer, Les Thomas, P.E.

ARTICLEII

PAYMENT FOR THE WORK

The Owner will pay the Contractor for the Work under this contract as follows:

(A) For each foot of new 8" PVC 900 pipe that is installed, the Owner will pay the Contractor \$17.25. The new line between Point "B" and Point "C" is estimated to be approximately 8,000 feet, which would entitle the Contractor to a total payment for that portion of the work of \$138,000. However, actual payment will be made based upon measurement of the length of the new pipe, to be verified by the Owner's representative.

(B) This price of \$17.25 per lineal foot shall also apply to any new pipe that is installed between Point "A" and Point "B" or between Point "C" and Point "D." The Contractor will be paid for actual new pipe installed, based upon measurements as verified by the Owner's representative. The Contractor will also be paid \$750.00, including all labor and materials, for each valve that is installed in connection with the new pipe. Such valves will be installed as directed by the Owner's representative. If fire hydrants are installed at the direction of the Owner's representative, the Contractor will be paid \$2,900 for each such hydrant installed, including all labor and materials.

(C) For all pipe that is inspected, repaired or raised, the Owner will pay the Contractor for the actual Contractor's cost of material used on the job, plus a 15% mark-up for handling and

Docket No. 100104-WU Transfer of Leasehold Interests Exhibit_(DR-12), p.9 of 12

profit, together with \$65.00 per hour for each hour that the Contractor and its crew works in inspecting, repairing, raising or backfilling the pipe. An accounting of this time will be maintained by the Contractor, including date and times of day worked, and will be subject to verification by the Owner's representative. The Contractor will be careful to separate the hourly work from the "price per foot" work in laying new pipe.

(E) A weekly, detailed accounting and billing statement of all work performed under this Contract shall be provided by the Contractor to the Owner at or before Noon each Monday. If this accounting and statement is accurate as verified by the Owner's representative, the Owner will pay the Contractor the full amount of the statement at or before Noon of the following Friday, less a 10% retainage which will be held by the Owner until this water line project is completed and the line is certified to be leak free by Les Thomas, P.E., the Owner's engineer. The balance due to the Contractor, including all retainage, shall be paid in full when the line is tested and certified by Les Thomas, P.E. to be free of leaks between Points "A" and "D.",

<u>ARTICLE III</u>

INSURANCE

(a) Contractor's Liability Insurance. The contractor agrees to pay for and keep in force during the entire period of construction such liability insurance as will protect it from claims, under workers' compensation and other employee benefit laws, for bodily injury and death, and for property damages, that may arise out of work under this contract, whether directly or indirectly by the contractor, or directly or indirectly by a subcontractor. The minimum liability limits of such insurance shall not be less than \$1,000,000/\$2,000,000. Such insurance shall include contractual liability insurance applicable to the contractor's obligations under this contract. Proof of such insurance shall be filed by the contractor with the Owner within ten days after execution of this contract.

(b) Owner's Liability Insurance. The Owner agrees to maintain in force its own liability insurance during the construction on this project, and reserves the right to purchase such additional insurance as in its opinion is necessary to protect it against claims arising out of the contractor's operation, without diminishing contractor's obligation to carry the insurance required by this agreement.

(c) Worker's Compensation Insurance. The Contractor will provide the Owner with proof of workers' compensation insurance coverage in the minimum amounts required by Florida law. If the contractor is exempt from workers' compensation coverage, an exemption certificate will be provided to the Owner in heu of proof of insurance.

(d) Waiver of Work Site Property Damage Claims to Extent of Insurance Coverage. The Owner and contractor waive all claims against each other for fire damage or damages from other perils covered by insurance provided in subdivision (c) of this section. The contractor agrees to

3

Docket No. 100104-WU Transfer of Leasehold Interests Exhibit (DR-12), p.10 of 12

obtain waivers of such claims by all subcontractors.

(e) The Contractor and its insurer shall indemnify and save harmless the Owner and all of its officers, agents, including the Owner's engineer, and employees from all suits, actions or claims of any character, name and description brought for or on account of any injuries or damages received or sustained by any person or persons or property, on account of any negligence of the Contractor, its agents or employees, in the execution of said contract work.

ARTICLEIV

SUBCONTRACTS

The Contractor may subcontract any and all portions of this contract. The Contractor is not required to subcontract to any Disadvantaged Business Enterprise.

ARTICLE V

RIGHTS AND DUTIES OF OWNER.

The Owner shall give all instructions to the Contractor through its designated Owner's representative. All decisions as to the scope and direction of the work will be made by the Owner's representative. In case of a disagreement as to technical matters between the Owner and the Contractor, those differences will be decided and settled by Les Thomas, P.E.

ARTICLE VI

RIGHTS AND DUTIES OF CONTRACTOR

The Contractor's duties and rights in connection with the project are as follows:

(a) Discipline and Employment. The contractor shall maintain at all times strict discipline among its employees, and agrees not to employ for work on the project any person unfit or without sufficient skill to perform the job for which that person was employed.

(b) Furnishing of Labor, Materials, Etc. The Contractor shall provide and pay for all labor and equipment, including tools, construction equipment, and machinery, utilities, including transportation, and all other facilities and services necessary for the proper completion of work on the project in accordance with the Contract Documents, using the materials supplied by the Owner.

(c) Payment of Taxes; procurement of Licenses and Permits. The Contractor shall pay all taxes required by law in connection with work on the project in accordance with this contract including sales, use and similar taxes, and shall secure and pay the fees for all licenses and permits necessary for proper completion of the work.

(d) Compliance with Construction Laws and Regulations. The Contractor shall comply

Docket No. 100104-WU Transfer of Leasehold Interests Exhibit_(DR-!2), p.11 of 12

with all laws and ordinances, and the rules, regulations, or orders of all public authorities relating to the performance of the work. If any of the Contract Documents are at variance with any of such requirements, the Contractor shall notify the engineer promptly on discovery of the variance.

(e) Responsibility for Negligence of Employees and Subcontractors. The Contractor agrees to assume full responsibility for acts, negligence, or omissions of all of its employees on the project, for those of its subcontractors and their employees, and for those of all other persons doing work under a contract with it.

(f) Clean-up. The Contractor agrees to keep the work premises and adjoining ways free of waste material and rubbish caused by its work or that of its subcontractors. The Contractor further agrees to remove all waste material and rubbish on termination of the project, together with all its tools, equipment, machinery and surplus materials. It agrees, on terminating its work at the site, to conduct general clean-up operations, including the cleaning of all glass surfaces, paved streets and walks, steps, and interior floors and walls.

(g) Indemnity and Hold Hamless Agreement. The Contractor agrees to indemnify and hold hamless the Owner and engineer, and their agents and employees, from and against all claims, damages, losses, and expenses, including reasonable attorneys' fees in case it shall be necessary to file an action, arising out of performance of the work, which are (1) for bodily injury, illness, or death, or for property damage, including loss of use, and (2) to the extent caused in whole or in part by the Contractor's negligent act or omission, or that of a subcontractor, or that of anyone employed by them or for whose acts the Contractor or subcontractor may be liable.

This agreement to indemnify and hold harmless is not applicable to liability of the engineer, or that of the engineer's agents or employees, anising out of the preparation or approval of reports, opinions, surveys, maps, drawings, designs, or specifications, or out of their giving or failing to give instruction, which giving or failure to give is the primary cause of the injury or - damages.

(h) Safety Precautions and Programs. The Contractor has the duty of providing for and overseeing all safety orders, precautions, and programs necessary to the reasonable safety of the work. In this connection, it shall take reasonable precautions for the safety of all work employees and other persons whom the work might effect, all work and materials incorporated in the project, and all property and improvements on the construction site and adjacent to it, complying with all applicable laws, ordinances, rules, regulations and orders.

ARTICLE VII

WARRANTY

Upon completion of the project, the contractor shall furnish the owner with a one year warranty guaranteeing the project has been constructed in a good and workmanlike manner, and that it will not fail under normal use for a period of one year from date of completion.

5

Docket No. 100104-WU Transfer of Leasehold Interests Exhibit_(DR-12), p.12 of 12

ARTICLE VIII

FLORIDALAW

This contract has been executed by both parties in the state of Florida, and shall be governed by Florida law.

ROGER BROOKS President/CEO

May 14, 2010

Mr. Gene D. Brown President Water Management Services, Inc. 250 John Knox Road, Suite 4 Tallahassee, FL 32303

Dear Mr. Brown:

This will confirm that Citizens State Bank ("Citizens") has agreed to make a \$5,000,000 loan to Water Management Services, Inc. ("WMSI" or "Utility"), provided the following conditions are met:

1. That the Florida Public Service Commission ("FPSC") grant a rate increase to WMSI that will enable the utility to pay the debt service on the loan, in addition to all of WMSI's ordinary and reasonable expenses;

2. That the United States Department of Agriculture ("USDA") provide Citizens with at least an 80% guarantee for the loan; and

3. That the Florida Department of Environmental Protection ("FDEP") agrees to subordinate its lien on WMSI's supply main so that Citizens will have a first lien against all of the utility's assets, including all of its revenue and cash flow.

The purpose of this loan is to provide funds to repay all of WMSI's debt except for the FDEP state revolving fund loan, and to finance the construction of approximately \$2,200,000 of new capital improvements. This loan will be similar to the USDA guaranteed loan that Citizens made to the utility several years ago, which was repaid when the new supply main on the bridge to St. George Island was under construction.

Citizens has been in touch with the USDA personnel in Gainesville, and is confident that the guarantee can be obtained if WMSI is successful in its rate case. The term and rate for the loan will be based upon market conditions in effect at the time of the written commitment after the above-referenced conditions have been met.
