Re: Docket No. 100330-WS - Application for increase in water/wastewater rates in Alachua, Brevard, DeSoto, Hardee, Highlands, Lake, Lee, Marion, Orange, Palm Beach, Pasco, Polk, Putnam, Seminole, Sumter, Volusia, and Washington Counties by Aqua Utilities Florida, Inc. – Staff Ninth Data Request

Dear Ms. Fleming:

By this letter, Aqua Utilities Florida, Inc. (AUF or Company) provides its response to the Staff's Ninth Data Request.

1. Has the Utility attempted to quantify, in any way, the historical cost savings associated with the consolidation of individual utility systems into rate bands as a result of Order No. PSC-09-0385-FOF-WS, issued May 29, 2009, in Docket No. 080121-WS?
 - a. If the response to (1) is positive, please enumerate the ways in which the Utility has attempted to quantify the historical cost savings referenced in (1) above.
 - b. If the response to (1) is positive, please explain and describe any and all methods used by the Utility to quantify the historical cost savings associated with the consolidation of individual utility systems into rate bands.
 - c. If the response to (1) is positive, please provide any and all documents used by the Utility to quantify the historical cost savings associated with the consolidation of individual utility systems into rate bands. These documents should be provided by matching each method enumerated in (1a) above with the description of quantification method used as provided in (1b) above.
 - d. If the response to (1) is positive, do any results of the Utility's efforts to quantify the Utility's historical cost savings associated with the consolidation of individual utility

systems into rate bands appear in the Utility’s Minimum Filing Requirements (MFRs) in the instant docket?

- e. If the response to (1d) is positive, please indicate the specific page(s) in the MFRs where the quantification results or partial results appear, matching the results to the corresponding method enumerated in (1a) above to the description of quantification method used as provided in (1b) above.
- f. If the response to (1) is not positive, please explain why the Utility did not attempt to quantify the historical cost savings associated with the consolidation of individual utility systems into rate bands as a result of Order No. PSC-09-0385-FOF-WS, issued May 29, 2009, in Docket No. 080121-WS.

RESPONSE:

The company implemented the rate band consolidation and thereby reduced the number of unique costs of service effective on January 1, 2010.

To assess the impact of this change, the Company performed a comparative analysis of payroll and accounts payable transactions for six months prior to and six month subsequent to the implementation of the reduced number of unique costs of service.

The results are below:

AUF (All AUF systems & admin)
 (excludes Sarasota & Citrus)

	<u>Jul - Dec 2009</u>	<u>Jan- Jun 2010</u>	<u>Reduction</u>	<u>Percent</u>
Payroll transactions keyed	8,568	6,451	(2,117)	-25%
General Ledger transactions	42,209	38,048	(4,161)	-10%

Based on these results this first level of partial consolidation the reduced transactions is the equivalent of 24% of one FTE’s time. AUF currently has two full time employees performing these duties. While this reduction of transactions is sizable, it is not at a size as of yet where we could consider reducing one of these positions. For now the company can absorb additional growth without a staffing increase.

- 2. Has the Utility attempted to quantify, in any way, the projected cost savings associated with the consolidation of individual utility systems into rate bands as a result of Order No. PSC-09-0385-FOF-WS, issued May 29, 2009, in Docket No. 080121-WS?

- a. If the response to (2) is positive, please enumerate the ways in which the Utility has attempted to quantify the projected cost savings referenced in (2) above.
- b. If the response to (2) is positive, please explain and describe any and all methods used by the Utility to quantify the projected cost savings associated with the consolidation of individual utility systems into rate bands.
- c. If the response to (2) is positive, please provide any and all documents used by the Utility to quantify the projected cost savings associated with the consolidation of individual utility systems into rate bands. These documents should be provided by matching each method enumerated in (2a) above with the description of quantification method used as provided in (2b) above.
- d. If the response to (2) is positive, do any results of the Utility’s efforts to quantify the Utility’s projected cost savings associated with the consolidation of individual utility systems into rate bands appear in the Utility’s Minimum Filing Requirements (MFRs) in the instant docket?
- e. If the response to (2d) is positive, please indicate the specific page(s) in the MFRs where the quantification results or partial results appear, matching the results to the corresponding method enumerated in (2a) above to the description of quantification method used as provided in (2b) above.
- f. If the response to (2) is not positive, please explain why the Utility did not attempt to quantify the projected cost savings associated with the consolidation of individual utility systems into rate bands as a result of Order No. PSC-09-0385-FOF-WS, issued May 29, 2009, in Docket No. 080121-WS.

RESPONSE:

See AUF’s response to Staff Ninth Data Request, Number 1, above.

3. Please provide the repression reports for 3rd and 4th quarters of 2009. These reports were provided to Staff as a result of Docket No. 080121-WS. Please provide these reports in Excel format.

RESPONSE:

The requested reports are attached hereto. Due to the voluminous nature of this document, AUF is submitting two (2) copies. Further, the Excel spreadsheets in response to this data request are contained on the enclosed CD labeled, “Staff Ninth Data Request.”

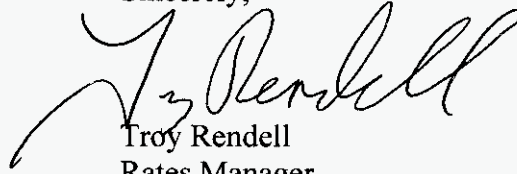

4. Please provide the repression reports for the 1st, 2nd, and 3rd quarters of 2010. These reports were provided to Staff as a result of Docket No. 080121-WS. Please provide these reports in Excel format.

RESPONSE:

The requested reports are attached hereto. Due to the voluminous nature of this document, AUF is submitting two (2) copies. Further, the Excel spreadsheets in response to this data request are contained on the enclosed CD labeled, “Staff Ninth Data Request.”

Please acknowledge receipt of this filing by stamping the extra copy of this letter “filed” and returning the copy to me. Thank you for your assistance.

Sincerely,

Troy Rendell
Rates Manager
