Please ask the applicant for the company's FEID number if they fail to include it in the Application. If CLEC/IXC come in together, then the CLEC app should have it and it would be the same for the IXC.

IXC forms don't request it so for a stand-alone IXC registration, you will have to just ask them for the FEID number.

Once you get the number, e-mail Nonnye with the company Code(s) and the FEID number.

They are using the FEID number as a key for tracking and reporting. The RAF software is being rewritten taking this into account.

If a person is the company, come see me at that time.
