Issue 2: Should this docket be closed?

Recommendation: No. This docket should remain open pending the receipt of the executed and recorded warranty deeds or lease agreements and to allow for the setting of initial rates, charges, and return on equity. As discussed earlier, the company has requested that the certification and the rate setting process be bifurcated. Therefore, staff recommends that the docket remain open for the setting of initial rates, charges, and return on equity at a later date.
